JUST IDAHO

By Guy Flenner

Be It Resolved—Spuds

The National Potato Conference has been holding meetings in Chicago. Its recommendations are stated in the report of a committee headed by an Idaho man, R. E. Shepherd. This acknowledgment being a further compliment to the superiority of Idaho as a potato grower, both as to quantity and quality. From this inner sphere of the spud comes a set of suggestions that ought to concern not only our potato growers but every citizen.

An increase in the tariff on potatoes to a dollar a hundred, and potato starch to \$3 and on dextrine to \$4.40 is proposed. A reduction in the potato acreage for 1929 of 10 to 20 percent, the adoption of "U. S. grades," inspection to conform to the regulations of the U. S. Department of Agriculture, compulsory branding of sacks to show weight and grade and a diligent research into the value of potatoes as food for livestock are among the recommendations.

When the potato situation, for one year, was such in Idaho, due to unexpected failures elsewhere in the nation, that any number of growers cleaned up enough from one crop to pay for their farms, everyone seemed to be convinced that an agricultural Golconda had been discovered and that Groesus, Midas, old man Timon of Athens and all the lads who rolled in wealth were due for an eclipse. Everything went and the market absorbed it at fancy prices.

Such a condition could hardly be expected to continue, however, only the more thoughtful and far-seeing appeared to realize it. The others went on as before, but the returns were comparatively discouraging. The necessity for shipping prime products instead of the culls, which price-brand everything in the sack as inferior, became apparent and it is to that end, as well as to reasonable reduction in acreage, that the Chicago conference is bending its energies.

All that is needed is co-operation on the part of the potato growers, the most vitally interested, to stabilize the market and make the business continuously profitable. Some doubt if the farmers will do it. This writer is not in that class. They may not as a rule be the shrewdest business men in the country, but they can see a bank account as far as anybody and the pocketbook appeal finds a hearty response there as anywhere.

Appoint Nez Perce Prosecutor

At the meeting of the newly organized board of commissioners of Nez Perce county, held Monday, Ray E. Durham was appointed prosecuting attorney to fill the vacancy left by the resignation of Fred J. Babcock. Mr. Durham was a democratic candidate for the office in the last general election.

Got Two Pups

Little Willie had a dog that was a great nuisance around the house and his father threatened to dispose of him, but the boy pleaded to be able to keep him. Finally, however, his father offered him \$5 to get rid of the dog, adding: "I don't care what you do!" The tot of so much money was too much for Willie, he agreed to the bargain. Next day Willie announced: "I've got rid of Micky, Dad." "That's right, my boy. I'm glad you've done it, here is your \$5. How did you get rid of him?" "I traded him to Jimmy for two pups."—Ex.

The blanket of snow that fell here Wednesday night and Thursday, is a welcome change in the weather. Potlatch farmers have been wishing for snow for some time, both as a blanket for the winter wheat and a relief for the water shortage. Mustoe brothers of Southwick stated Wednesday that farmers in their community who had to depend on ponds and cisterns for their water supply had to haul water for their house supply and drive their stock quite a distance to water. Many wells and springs have been dry for some time.

Passerby noticed a car Friday night parked between the Will Mervyn farm and the Flamoe place, but did not suspect thieves at work at either place.

No track has been found of the missing harness and saddle.

THE STATE WE LIVE IN

By Byron Defenbach

"Listen, old timer, one minute to me
As I sing of the Cruise of the Sho-sho-ne."
(Captain John Akins)

Lewiston, beautiful metropolis of the North, was not always Idaho's only seaport. Its rival was at the mouth of Boise River, at Old Fort Boise near the present town of Parma, home of Governor Baldrige. A big stern-wheeler was launched there in 1866, since which time the governor of Idaho has always been commander-in-chief of its army and navy.

The Shoshone was built of mountain pine, whipsawed and hewed in the nearby hills; its unfinished iron came in by pack-train. Costly in construction, this boat operated profitably until put out of business by the Kelton, Utah, stage line to Boise. Then she started bravely from Huntington to Lewiston, under command of Captain Cy Smith. Suddenly confronted with the horrors of the box canyon, Cy set his emergency. "Looks to me like suicide," sighed Cy. He moored her to one of the Seven Devils and walked home.

In March, 1870, Captain Bas Miller and Engineer Buchanan left Portland under orders to bring that boat down dead or alive. Their supplies consisted mostly of a variegated assortment of seafaring profanity. After 20 days travel by buckboard, sled, wagon, boat, on horseback, afoot, they reached the stranded steamer. With a crew of five men all told, engines running backward, she began to shoot the rapids. Reverse-english shots, one might say.

Down into one of the world's great gorges, into much of which the sun never looks. The Copper Ledge cascades roared suddenly ahead. On their right, a vertical wall of 7,000 feet, the tips of the Devils going on up to 9,000. Tributary torrents that had fallen a mile in the last five minutes, slammed into the main channel, pointing upstream. To the left, Wallows raised their snowy crests 10,000 feet. Down went the boat's bow, 8 feet of it torn off by projecting rocks. Up went the great stern wheel, clear of the water, its paddles ripping off in the racing speed.

In this maelstrom of noise, language must be imagined. The captain, seeing the flying propeller above and behind him, yelled at the engineer, perhaps asking what the— who he thot he was, anyhow; Lindbergh?

The pilothouse buckled under the strain until the bell played the Anvil Chorus; the engineer, blaming the captain for confusing signals, respectfully addressed him in unimpeachable language. The jackstaff fell off and a few minutes later floated into Umatilla, 250 miles down the river, there to be turned completely around, three times. All this in the earlier and easier stages of the trip; later on there was real trouble.

Yet the boat survived, reached and passed Lewiston going too fast to stop more than a couple of days, went on over the Dalles, steamed proudly into tidewater.

In 1874, she sunk at Salem. Later she was raised, her weary machinery salvaged, her sodden hull sold to a farmer. She became a hencoop on the banks of the Willamette; in that eternal rain she rotted into oblivion.

To such base ends do the best of us sometimes come.

Afternoon Bridge Club

The Afternoon Bridge Club met at the home of Mrs. MacPherson last Wednesday afternoon. Three tables were arranged for bridge and after several hours of playing scores were totaled. Mrs. Harold Thomas and Mrs. George Leith tied for high score and cut the cards for the prize. Dainty refreshments were served by the hostess.

Texas Ridge News

The C. O. Carlson and Steiger families who have been ill with the flu are all well again.

Our entire community was sorrowfully shocked to hear of the sudden death of our neighbor and friend Mrs. W. H. Head, which occurred in the east. Mrs. Head left here before Christmas to visit with sisters and relatives in Nebraska, whom she had not seen for years. Although she had not been in the very best of health for several years, the family received a letter the same day the telegram came, saying she was feeling so well and was having such a splendid visit. She leaves to mourn her loss her husband, three sons, several daughters and a host of friends. We extend our profound sympathy in this time of sorrow.

Mr. and Mrs. Orvil Miller of Deary were visitors on the ridge Sunday.

Mrs. William Riley was a recent visitor in Moscow.

Mr. and Mrs. Henry Jones and little son, Bobby, of Princeton, were visiting with Mrs. Jones' parents, Mr. and Mrs. James Miller, Sunday.

Chris Beyer and bride are at home now. They were recently married in Coeur d' Alen. They will make their home on Mr. Beyers farm.

The annual telephone meeting was held Saturday for the purpose of transacting business and arrange plans to repair the line.

Mr. and Mrs. Martin Frantziak were visitors in Kendrick one day this week. Mr. Frantziak had some dental work done.

Harold Baker, who was accidentally shot in the arm while preparing to go and look at some traps, is getting along nicely and will soon be able to return to school.

Kendrick Loses to Genesee

The local squad journeyed to Genesee on Friday, January 11, to meet the Genesee team in the second encounter of the local basketball season. The local team was at a disadvantage from the beginning, due to the great difference in the size and height of the gym, were unable to convert their tries for goals into counters. Contrary to the statement heretofore made, Kendrick was penalized by Genesee with 6 instead of 11 fouls, Genesee being fouled 11 times.

1st and 2nd grades

Series II of the Courtis-Smith books has come and the first grade is starting work in them this week. The grade has been divided into "Brownies," "Bees" and "Frogs," for reading lessons. The entire grade is having a review of all words in Series I.

The second grade started on Stone's silent reading this week. Most of the children enjoy it very much. The second grade is also having a review in Spelling this week, as well as in Phonics.

Both primary grades have made January booklets—the first for writing and the second for spelling work.

Wednesday the first grade made "Brownies" for handwork. They are used to decorate the curtains.

The picture for study this month in the primary room is "The Boy and the Rabbit" by Roeburn. The children enjoy this picture and are learning a poem about "The Rabbits."

Art Exhibits

The proceeds from the recent art exhibit were \$8.45. This money will go towards the benefit of the school.

"And Mary Did" . . . To Be Given January 25th.

The High School play, "And Mary Did" will be given at the theatre on Friday, January 25th. Curtain will raise at 8:15.

The students have worked hard on the play and we hope their efforts will be rewarded by a good audience.

5th and 6th Grades

Miss Weaver gave one of Stone's silent reading tests to the fifth grade last Tuesday. This is a carefully prepared test to measure the child's speed and comprehension in reading. Some of the results were very interesting.

A good reader in the fifth grade should read 250 words a minute. Three pupils' rates were above this, one boy reading at the rate of 580 words per minute. A few were unable to read as fast as the average fifth grader should read. The test proved, with the exception of one case, that the fastest readers made the best scores in comprehension. One pupil read at the rate of 211 words per minute but made a perfect score in the comprehension test. Five others who were all fast readers made only one mistake in the comprehension test. Three of the slowest readers made the lowest score in comprehension.

The pupils of the fifth and sixth grades were weighed again last Friday. The majority of the pupils showed a small loss in weight. In most cases the cause of the loss can be laid to flu and bad colds. A gain of from 1/4 to 3 pounds has been shown in the weight of most of the children in previous six weeks.

Semester Exams

The final exams for the first semester were given Thursday

Marcella Burns, Fay Cochran, Addie Sams, Ona Forbis, Edgar Heath, Carl Flijar, Clarabelle Groselose, and Eugene Heath.

Those who made 100 per cent in the pre-test in spelling Monday were Dorothy Bowen, Ava Forbis and Flora Perry.

'Yep Kanum', the hiking club which has been organized for the seventh and eighth grade pupils elected Helen Allene Rider, president; Alice Cochran, vice-president; Margaret Taylor, secretary-treasurer.

The fourth grade has completed the study of explorers in history, and has made a note book with life and pictures to illustrate each hero.
