BOVILL PLAYS HERE SUNDAY AFTERNOON

A Fight For Second Place in The League Standing.

What promises to be one of the hardest fought battles of the league season will be staged here next Sunday afternoon when the strong team from Bovill will play the local aggregation for second place in the White Pine-Latah league. While Bovill had rather a disastrous experience with Kendrick last Sunday, it doesn't spell anything as to the outcome of the coming game. Both teams will be in the game with all they have in an endeavor to hold second place.

Manager Barnes stated yesterday that Bovill had phoned that the ball team had phoned that willing to play two games here Sunday in order to play off the called game there last Sunday. The first game will start at 10:00 a. m. and the second at 2 p. m.

Results Last Sunday

Potlatch 1, Elk River 0.
Troy 14, Genesee 3.
Genesee 2, Troy 0.
Troy and Genesee played two games last Sunday.
Kendrick at Bovill postponed on account of rain.

Players Record for Season

Players	Ab	H	R	S	W	E	Ba.
Riggs	20	11	2	4	1	1	550

Elk River	2	4	.333

BAND CONCERT HERE SUNDAY AFTERNOON

Will Start Immediately After The Ball Game.

The Kendrick band will feature another open air concert at the city park next Sunday afternoon. It will take place immediately after the ball game about 4:30. The general public is most cordially invited to attend. Following is the program:
"Minstrel Man"..... March
"Sweet Rose"..... Andante, Waltz
"Animation"..... Overture
"Mazzini"..... Mazurka
"Down Main Street"..... March
"The Two Johns"..... Polka
"Southern Melodies"..... Overture
"The Flying Wedge"..... March

Potlatch Has Fine Rain

Last Sunday afternoon a heavy rain visited this section. In Kendrick for an hour or more water came down in torrents, almost approaching the proportions of a cloudburst. The lower point of Bear ridge experienced the same heavy rain. It did some damage to bean crops there but the benefit to the grain crops greatly compensated for this comparatively small damage.

Other parts of the Potlatch received more or less rain altho toward Southwick it was little more than a light shower.

Crop prospects took a decided upward trend as a result of the added moisture. Most growers are now practically assured of a heavy grain yield. Beans are also in a most flourishing condition.

Okoke Picnic Last Sunday

The members of the Okoke club and their families held a picnic in the city park last Sunday afternoon. A number of families from out of town were present and helped to make the afternoon a very pleasant one. Those present were: Messrs. and Mesdames, Candee, Oldfield, Lutz, Dunkle, Carlson, Ramey, E. Deobald, Knepper, McKeever and Mr. Carroll. Mr. and Mrs. Nessley of Seattle were guests of the club.

DISTRICT MEETING WAS BIG SUCCESS

Lodge Members Royally Entertained Here Monday.

The 25th annual district meeting of the I. O. O. F. and Rebekah Lodges of District No. 18 met in session here Monday. The heavy rains Sunday and Monday morning kept several away but there were over two hundred present.

Business meetings were held from 2:30 to 5:00 p. m., the Oddfellows in the fraternal temple and the Rebekahs in the Methodist church. The following officers were elected to preside at the next meeting which will be held in June 1930 at Potlatch: Oddfellows: N. L. Balch, chairman; Joe Hagan, vice-chairman; B. Cunningham, secretary; Chas. Trotter, treasurer. For the Rebekahs: Etta Rector, Chairman; Ruth Perkins, vice-chairman; Ida Lindsey, secretary-treasurer; Minnie Johnson, musician.

Both lodges report very interesting and profitable meetings. At 5:30 a banquet was served in the dining room of the temple which was followed by an hour's program in the park by Kendrick's 35 piece band. After this splendid entertainment all retired to the lodge rooms where an excellent two hour program was enjoyed, which was followed by refreshments of ice cream and cake.

The grand officers and many others expressed their appreciation for such royal entertainment as the Kendrick lodges afforded them. Grand Master J. W. Reid, President Belmont and several past grand officers were present.

Morey-Reinemer Wedding

Miss Olive Morey, daughter of Mr. and Mrs. Oscar V. Morey of Big Bear Ridge, was married to Oscar D. Reinemer, of Dishman, Washington, last Saturday evening, June 8th, by the Rev. A. R. Graves. The couple was attended by the bride's sister and brother-in-law, Mr. and Mrs. James B. Fiskin (Reina Morey). Mrs. Reinemer has been employed as stenographer and book-keeper for the Boyd-Conlee Co. for the past several years but resigned that position a week prior to her marriage. Mr. Reinemer is a well known merchant of Dishman and is also president of the Spokane Valley Chamber of Commerce. After a motor trip to Canada and the coast the couple will be at home in Dishman.

Last Thursday evening in honor of her approaching marriage, Miss Morey was the recipient of a miscellaneous shower given by the Misses May Leslie and Edith Hedger at the Leslie home, W. 2913 Sinto, where she has made her home for the past year. Many pretty presents were delivered by Masters John and Louis Kapek, nephews-in-law of Mrs. James Fiskin, acting as parcel post carriers. Present at the shower were: Miss Olive Morey, Mrs. John B. Fiskin, Mrs. L. Kapek, Mrs. H. Conlee, Mrs. L. Miller, Mrs. James B. Fiskin, Misses Louise Maxwell, Leona Leslie, Laura Langhenaur, Iya Lewis, Bertina Forest, Ruth Fiskin and the hostesses.

Banks Close Tomorrow

The local banks will be closed all day tomorrow in observance of pioneer day, which is a legal holiday in Idaho.

D. A. R. Officers See Model of L'Enfant Memorial

National officers of the Daughters of the American Revolution inspecting the model for the proposed memorial to Major L'Enfant, noted French engineer, who projected the plans for the city of Washington.

Magpie Contest Closed Monday

Clarence Heimgartner Won First Place With a Total of 1635 Birds' Eggs.

The campaign against predatory birds closed last Monday at noon. It was considered a highly successful venture and the number of birds eggs brot in by the boys exceeded expectations many times over.

Clarence Heimgartner of the Fairview district won first place by a wide margin. This boy deserves a lot of credit for the way he stayed on the job to win. It is no small accomplishment to gather 1635 birds eggs, particularly when it is taken into consideration that the nests are built in thorn thickets.

The boys were the guests of the commercial club during the dinner hour Tuesday evening. Prizes were awarded as follows, in the order given: .22 caliber rifle, telescope fishing rod, hand made hunting knife donated by Frank

Crocker; fishing rod, creel, fishing rod donated by Ben and Norla Callison; fly book with fly hooks, Boy Scout knife. Each of the contestants was also given a package of fly hooks and a bag of candy, by the commercial club and a ticket to the show by Manager Schupfer of the local theatre. Wm. Behrens also gave a new pocket knife to the boy who had the lowest score. This was won by little Vern Henry who brot in 5 big hawk eggs.

H. B. Thompson, R. H. Ramey and Ira Bolon, members of the committee in charge of the contest, awarded the prizes. E. A. Deobald and J. G. Gardner were also members of the committee.

Following is the total number of eggs of the different varieties brought in by each boy and the number of points made:

Contestants	Magpie	Hawks	Crows	Blue Jay	Points
Clarence Heimgartner	1616	12	7		8390
Gerald Schmidt	941	8			4865
George Merrill Davidson	635	9			3355
Thomas Blevins	611	1	4		3115
Garth Hill	337	8			1845
Vernie Specker	329	8			1805
James Bolon	244	2	8	1	1345
Oscar Onstott	191		5		1005
Thos. Whaeln	199				995
Fred Reid	135	1			695
Raymond Lyons	136				680
Robert Weyen	112				560
Jim Schulze	86		2		450
Joe Watts	78				390
Archie Sloan	56		2	2	310
Wayne Bartlett	40				200
Wayland Davis	30				150
Vernon Henry			5		100
Totals	5776	54	28	3	30255

Almost Win a Ball Game

The Kendrick ball team journeyed to Bovill last Sunday to play the leaders of the White Pine-Latah league. The game started promptly at 2:30 and ended after the first half of the second inning. It started out like a track meet with Kendrick chalking up 9 runs in their half of the first inning, by smacking out 7 safe hits off three Bovill pitchers, Henry Riggs, Kendrick's chucker, sent the Bovill batters back to the bench in 1-2-3 order in their half of the first.

A repetition of the track meet system was a feature of the second, Kendrick netting 5 more runs in an attempt to get the inning over as quickly as possible in an endeavor to pass the fifth inning before a threatening rain stopped the game. The rain arrived too soon and the game was called.

Nelson Resigns as Deputy Clerk

Probate Judge Adrian Nelson tendered his resignation Tuesday as deputy clerk of the district court, according to an announcement by County Auditor Harry Thatcher. The resignation will take effect June 17. Judge Nelson stated that the increasing duties of the office of probate judge of Latah county, made it impossible or him to also handle the additional work connected with the office of deputy clerk.

Latah county is the only county in the state that has combined the offices of probate judge and deputy clerk of the district court.

Mr. Thatcher stated that no appointment to fill the vacancy will be made at this time.

Miss Helen Clem was a passenger to Lewiston Thursday to spend several weeks with relatives.

Rennick-Brocke

Mr. George Brocke, formerly of Kendrick, and Miss Emma Rennie of Lind, Wash., were quietly married in Moscow, Saturday, June 8th, at the home of Rev. Roger Oliver in the presence of relatives. The bride is a graduate of the Lind High School and Mr. Brocke is employed with the International Harvester Co. of Spokane. The happy couple will make their home in Harrington, Wash.

COMMERCIAL CLUB HAS INTERESTING MEETING

Held at The Commercial Hotel Last Tuesday.

There was a very good attendance at the commercial club meeting last Tuesday evening. At this time the boys who took part in the magpie contest were guests of the club during the dinner hour. Eighteen boys were present and seated at a long table provided for them. It was a dandy crowd of alert young fellows and the members of the club enjoyed the hour with them.

H. B. Thompson, chairman of the committee in charge of the contest, presented the eight major prizes. R. H. Ramey and Ira Bolon then presented each boy with surprise packages of fish-hooks and a bag of candy. Manager Schupfer also passed around complimentary tickets to the picture show. The boys were roundly applauded for the splendid effort which they put into the contest.

E. H. Emery reported that road signs were now available and that he would like to have volunteers call at the bank and take the signs out to various places in the Potlatch where needed.

W. J. Carroll, chairman of the executive committee in charge of the coming celebration, reported that the committees were busy and everything progressing in a very satisfactory manner. Reports from sub committees presented a very encouraging prospect for a most successful celebration.

Dr. Filed and Rev. Groth, new prospective members, spoke briefly and in a most flattering manner as to their impressions of Kendrick during their short residence here.

Officers for the ensuing year were elected as follows: R. H. Ramey, chairman; H. B. Thompson, vice-chairman; C. A. Oppenborn, secretary; W. J. Carroll, treasurer. After a general discussion the meeting then adjourned.

Jeff Buckles of Fir Bluff was transacting business in Kendrick, Wednesday. Mr. Buckles says he will have a big cherry crop on his place this year and they are of very fine quality. He expects to start picking in about ten days.

MAKING PLANS FOR A GRAND CELEBRATION

Two Big Days of Solid Enjoyment Here July 3 and 4.

Plans for the two day celebration here July 3 and 4 are being taken up for consideration by the various committees in charge and all necessary arrangements being perfected so that all details will be looked after before the two big days arrive.

The finance committee, composed of E. T. Long, John Dammarell and Dr. McKeever, has been busy this week with a subscription list and met with splendid response from the business men who are donating liberally to insure the success of the celebration.

G. P. Barnum, chairman of the parade committee, reports that the members of his committee are all working and have this feature well in hand. A long list of prizes will be given for the best entries.

The concessions committee reports that nearly all concessions have been sold out, and that the few remaining will soon be taken. The number of concessions is limited so that none of the various features will be overdone.

Manager Barnes is in charge of the baseball tournament, which will be held on the third and fourth. Two fast ball games are assured. Leading teams from the White Pine-Latah league will compete for a big purse.

G. P. Barnum will have charge of the open air dancing pavilion, which will be located in the park. He stated yesterday that the floor would be constructed of fir flooring and would be first class. Dances will be held both the third and fourth. A seven piece orchestra is being engaged to furnish music.

The executive committee in charge of the celebration is composed of W. J. Carroll, chairman; H. B. Thompson, secretary; E. T. Long, treasurer; R. H. Ramey, E. A. Deobald, Mrs. L. J. Herres and G. P. Barnum.

Walker-Schupfer Wedding

The Norris Walker home in Kendrick was the scene of a quiet but pretty wedding, Sunday morning, June ninth at half past seven, when their daughter, Alberta, became the bride of Mr. Herman C. Schupfer.

Rev. Groth officiated at the ceremony which was performed in the presence of 16 guests, all members of the two families with the exception of Rev. and Mrs. Groth and little daughter, Denali Rose.

The bride looked very beautiful in her gown of blue flat crepe as she and Mr. Schupfer, accompanied by Mr. and Mrs. Marvin Long, took their places in the parlor amid the wild roses which filled the home with their perfume. Mrs. Long was tastefully dressed in yellow and her husband in grey.

After the ceremony the guests found their places in the dining room where everyone enjoyed the delicious three-course breakfast consisting of fruit cup, parkerhouse rolls and marmalade, creamed chicken in heart containers, olives and potato chips, coffee, cake and ice cream. Then as soon as possible the happy couple rode serenely away on their honeymoon.

The bride is one of Kendrick's most charming young ladies. She was graduated from the local high school and for a year and a half was a student at the Lewiston Normal. She is an accomplished musician and has been generous with her musical talent. For the past seven years she has been organist at the Methodist church.

The groom is an employe of the Washington Water Power and also owns a half interest in the local telephone company and Kendrick theatre. He is one of Kendrick's best boosters.

The Gazette joins with the many friends of this popular young couple in extending to them best wishes.

ICE CAVES

The visitor to one of our areas of extinct volcanoes on a hot midsummer day is likely to find, unexpectedly, a pool of cold water or even a body of perpetual ice. One will endeavor to account for it by ascribing it to some chemical reaction or other more or less mysterious cause.

This phenomenon is due to the fact that lava is an extremely poor conductor of heat. If it were not, it is probable that much of our country would be uninhabitable because of high ground temperature. This ice is formed in the usual way in the winter time, and is preserved by its lava protection.

Among the most striking curiosities of their kind in the world are the little known

Shoshone Ice Caves

in Lincoln County. They lie about twenty miles north of the town of Shoshone and only a mile off the main highway to Hailey.

The caves consist of three sections of which the most remote is the largest and finest. Its floors, walls and ceilings are pure ice, the farther end being perpendicular and of unknown thickness. Holes chopped in this wall are quickly replaced by nature, restoring a smooth surface. The ceiling is a dome of ice about fifteen feet high.

These great caves alone are well worth the short detour from the main highway necessary to see them. But they are not the only attraction of the section. About two miles away is the Black Butte Crater, the result of comparatively recent volcanic activity. Nowhere in the United States is there a more interesting illustration of the working of subterranean forces.

Other recreational features are furnished by the nearby Wood River, with its Magic Reservoir. These waters are full of trout and afford splendid fly fishing.

Descriptions of the state we live in are justifiably filled with superlatives. There is no more frequent syllable in the Idaho dialect than the one "est." Whatever the nature of a given marvel, if it is in Idaho it is the best, the highest, the handsomest, or the smartest.

The ice caves of Lincoln County are the greatest wonder of their kind in the world. Which leads to the use of another superlative, we are the poorest advertisers on earth. If these caves were in California their existence would be made known to the Hottentots. Being in Idaho, comparatively few of our home people are familiar with them.

Where do you expect to spend this summer's vacation, and what natural wonders do you hope to see? Every American should visit the Yellowstone, the Grand Canyon and the Colorado Garden, but the banner that most needs waving in the state we live in, bears the words, "SEE IDAHO FIRST."

**North Coast Limited Initiates
Fastest Chicago-Coast Service**

The fastest passenger train service ever operated between Chicago and the North Pacific Coast became a reality Sunday when the North Coast Limited, the Northern Pacific's premier transcontinental train, started its 63-hour westbound and 61 1/2-hour eastbound schedule. The eastbound trains travel 6 hours and 45 minutes faster on the transcontinental trip and 5 hours faster westbound than under the old schedule. The North Coast Limited, which 29 years ago established limited train service in the Northwest, was the first train to turn a wheel in shortening the time between the Pacific Coast and Chicago. For operating reasons, the first train of the fleet of the North Coast Limiteds, which are necessary in maintaining the transcontinental service, was made up in St. Paul, and at 8:15 a. m. Sunday it left that terminal westbound in inaugurating the new service. At 6 p. m. the same day another unit of this fleet started eastbound from the west coast and at 9 p. m. a third unit pulled out of Chicago. The faster North Coast Limited is an all-Pullman train. The picture shows a group on the observation platform leaving for a scenic trip, and, above, an interior view of the North Coast Limited's luxurious observation car.

FARM STOCK

RAISE AND BREAK
A PAIR OF OXEN

Boys Find It Pleasant, Fascinating and Profitable.

(By H. L. GARRIGUS, Connecticut Agricultural College.)
Replying to the inquiry of a reader at Oxford, N. Y., I would say that it

would be entirely possible to raise and break a pair of oxen, starting with bull calves. I would suggest that the earlier they are trained the easier it will be.

First, the calves should be trained to lead with a halter; then they can be tied together and driven as a pair. A small yoke can be made and fitted to them at an early age if desired, and if handled carefully they can be hitched to a small sled or cart and taught to do all of the things that a pair of oxen would be used for.

Many a boy throughout the eastern part of our country has trained one or more pairs of steers as he grew up on the farm, and found it a pleasant, fascinating and profitable pastime.

It is rather difficult to fit a harness to a steer or ox, although it has been done. I know of one owned by C. S. Miller of Waterbury, Conn., that has been kept several years and used as a single hitch. He has been used for making paths for the whole neighborhood, drawing fuel and manure, cultivating gardens and making himself generally useful. A horse collar can be used on a steer or ox and the necessary harness, including bridle, bit and lines, can be fitted, but for all double work I should strongly recommend the yoke. In fact, a single yoke is sometimes used.

The younger the calves are castrated the better, as a rule, although it is a common practice to castrate calves for steers at any time from two to six weeks of age. The principal objection to deferring the operation longer is a somewhat greater risk and the fact that the steers become somewhat staggier in appearance, detracting from their trim, clean-cut lines, principally about the head and neck, and their attractive horns, often an important part in the beauty of a well-matched ox team.

**Increasing Demand for
Good Horses on Farms**

(Prepared by the United States Department of Agriculture.)

Since 1918 and 1919, when the number of horses on farms in the United States reached the highest total ever recorded, a sharp decline has been in evidence. Last year the number of horses on farms was no greater than in 1890, and the reduction does not yet show any signs of ceasing. Some significance may be attached to the fact that the farm price of horses has turned slightly up since 1926 and 1927. Horse prices in 1925, in comparison with the average prices of all commodities, were at the lowest point since 1872. It is therefore possible

that the corner has been turned, and that the recent slight upward trend indicates an increasing demand. The average age of all horses on farms has steadily increased within the last few years. It is therefore practically certain, says the United States Department of Agriculture, that colts and young stock will shortly be in greater demand. The outlook is for an increase in the prices of all good horses.

Live Stock Hints

Pigs should be castrated before they are weaned. . . .

Frequent changes of pasture help to keep lambs healthy. . . .

Corn alone is not a good ration for hogs. It lacks protein as well as minerals. . . .

The remedy for diseased animals which promises to cure all ills usually ends by curing none of them. . . .

If ewes are too thin as lambing time approaches, start a daily feeding of one-third pound of oats per head a month before lambing. . . .

To develop a very large-sized hog it is essential that the hog be of the right conformation and breeding and then that he be fed a good ration. . . .

The large part of the tuberculosis in accredited county hogs is found in the glands of the throat and intestines and generally comes from diseased poultry. . . .

Carrying over a year's supply of roughage eliminates the possibility of interruption of feeding plans by a poor crop season. . . .

Lowered vitality, from any cause, makes live stock subject to infections which animals of normal vigor might readily resist. . . .

The problem of efficiently eradicating the "gad fly" is one of the most important and most difficult problems relating to the cattle industry which is now facing the government. . . .

Famed for Eloquence
Toward the end of his notable career of 37 years in the senate the late George Frisbie Hoar of Massachusetts was frequently called by the little old man eloquent of the senate.

Fools

An old proverb says that nobody is always a fool, but everybody is sometimes. There is hope for the fool provided he isn't permanent and provided there is something which leads him frankly to admit that he's a fool.

Hail Insurance

Now is The Time to Insure --- Our Rates Lower Than Ever

You cannot afford to risk your crops on our new low rates for all kinds of grain. SEE US TODAY.

DO YOU KNOW?

That statistics proves it hailed the following number of days each month in 1928:

8 Days in April	22 Days in May	29 Days in June
31 Days in July	31 Days in August	14 Days in September

Hail occurred the following number of days during the year in each of the states mentioned below

Colorado 71 days	Kansas 59 days	So. Dakota 50 days
Montana 48 days	Nebraska 45 days	No. Dakota 84 days

85 days in Minnesota, Missouri and Oklahoma.

It may hit your crop any days and your rates are the lowest. Insure Today.

in Internal Medicine

Does Not Operate

will be at the
MOSCOW HOTEL
Thursday, June 27
Office hours: 9 a. m. to 3 p. m.

ONE DAY ONLY

No Charge for Consultation

Dr. W. W. Cook is a regular graduate in medicine and surgery and is licensed in the State of Idaho.

He visits professionally the more important towns and cities and offers to all who call on this trip free consultation, except the expense of treatment when desired.

According to his method of treatment he does not operate for chronic appendicitis, gall stones, ulcers of stomach, tonsils or adenoids.

He has to his credit wonderful results in diseases of the stomach, liver, bowels, blood, skin, nerves, heart, kidney, bladder, bed wetting, catarrh, weak lungs, leg ulcers, rheumatism, sciatica, and rectal ailments.

If you have been ailing for any length of time and do not get any better, do not fail to call, as improper measures rather than disease are very often the cause of your long standing trouble.

Remember above date, that consultation on this trip will be free and that his treatment is different.

Married women must be accompanied by their husbands.
Address: 224 Bradbury Bldg., Los Angeles, California. 23-3

Some Precautions Will Prevent Loss of Stock

The right precautions will prevent a good share of the loss of cattle on sweet clover hay or pasture. Moldy hay may contain poisons that will kill stock. Sweet clover hay seems to thin the blood of the animals and cause it to lose its clotting characteristic. Some other kind of hay should be fed with clover hay, or the animals should be changed to another kind of roughage after two weeks on sweet clover hay.

Bloat is caused by the rapid decomposition of the high percentage of organic matter in green feed. Bloat on sweet clover pasture may be largely prevented by starting the animals on some other green pasture in the spring and then getting them used to the clover slowly. In serious cases the pressure may be relieved with a trocar. Every farmer who pastures clover of any kind should have one or more trocars on the place for emergency use.

Protein Is Constituent Which Bothers Dairymen

Protein is the constituent with which dairymen are most concerned. It costs the most money and is one of the limiting factors in economical production because so many dairymen feed either too much or too little of it. Protein is the only food constituent which contains nitrogen. In the animal body it goes to make up the lean meat or muscles, and the internal organs, such as the heart, lungs, and liver. In the milk, the protein is represented by casein and albumin. Although protein has no influence on the composition of milk, it is the only nutrient that actually stimulates milk production and, therefore, a small excess over that needed by the cow for maintenance, milk production, and other purposes should be provided if maximum production is to be obtained.

Future Dairy Business Depends on New Calves

The future of the dairy business depends on the quality of the calves raised to replace worn-out cows. The first factor to be considered is breeding. Because an animal is pure bred does not endow her with the ability to produce abnormally large amounts of milk or fat. Because a bull is pure bred, it is not a forgone conclusion that his daughters will be abnormally high producers. Too many animals which are pure breeds, are bought and sold on their registry papers and not on their own merits or the meritorious work done by their ancestors.

The key to this situation is the bull. If, as we say, a bull is half of the herd, why object to paying the price for a good one?

Big Bear Ridge News

Miss Mabel Weaver came up from Lewiston to spend the week end with Mrs. Wade Keene.

Chas. Bowers went to Spokane last week where he is under a doctor's care. Mr. Bowers has been ill for several weeks.

Miss Lizzie Jones, who is attending the Lewiston Normal is spending the week at home.

Mr. and Mrs. T. H. Rognstad drove up from Clarkston, Wednesday to attend the Lutheran church meeting here.

Miss Hedvig Pearson returned to her home at Troy, Saturday, having visited Mrs. Thorvald Nelson.

Mr. and Mrs. Halvor Lien spent Wednesday with Mr. and Mrs. Milo Slind in Lewiston.

On Saturday evening, June 29, the Lutheran Ladies Aid will give an ice cream social at the Community hall. Candy will be sold and the lucky number drawn will get a hand embroidered luncheon cloth. Remember the date and that you are welcome!

Rev. G. R. Peterson and Rev. Thompson of Spokane, Rev. J. Trontvent of LaCrosse, Wash., Rev. K. A. Bodin of Troy and Rev. Pete Hesby of Deary were here for the Lutheran Conference last week.

Mr. Ed Lien entertained the Lutheran Ladies Aid at her home Tuesday afternoon.

Crescent Clippings

Mr. and Mrs. Leroy Southwick and daughters of Cream ridge visited at the Wm. Kauder home, Sunday.

Sunday visitors at the M. L. Robeson home were Mr. and Mrs. Vester Evans and sons and Mr. and Mrs. Oral Craig and children in honor of James Robesons birthday.

Ida Carey returned to the Frank Souders' home Monday, from Tammany, where she has been working.

Mr. and Mrs. Albert Dorendorf and sons, and Mrs. Elizabeth Keeler visited at the Frances Stephens home near Orofino, Saturday night and Sunday.

Avia and Lorene Craig visited with their grandparents, Mr. and Mrs. M. L. Robeson from Wednesday to Sunday.

The John Darby family visited at the Percy Rew home Sunday afternoon.

Mr. and Mrs. Clem Israel and family visited at the Harry Wright home Sunday afternoon.

Mrs. Gus Farrington and children visited with Mrs. John Darby and children, Saturday evening.

No Deserter

"I cannot conceive a meaner, more cowardly act than yours," said the judge. "You have left your wife. Do you realize that you are a deserter?" "Judge, if you knew dat lady as well as I does, you wouldn't call me no deserter," wailed Sam. "Judge, I'se a refugee."

Card of Thanks

We wish to thank the kind friends and neighbors who so kindly assisted us during the sickness and after the death of our husband and father, Jarvis M. Kime. We especially desire to thank the soldier boys for their services.

Mrs. Flora B. Kime, Claude Kime and wife, George Kime and family, Charley Kime and family, Mrs. E. H. Rozelle.

Expression of Appreciation

In behalf of the Rebekah's of the District Convention, we wish to thank the people of Kendrick for their cooperation in making our convention a success.

To the Stores for their decorations,
To the Band for their wonderful concert and the the M. E. people who so kindly gave us the use of the church.

Ruthe Hill, Kendrick Star 21, Ida Erickson, Rainbow 79, Jessie Johnson, Star 15, Committee.

Big Boats

Three men of different nationalities were discussing the size of present-day liners. First Man: "Our ships are so large that the captain requires a motorcar to go around issuing orders." Second Man: "In our liners the chief engineer has an airplane for making his inspection of the engine." Third Man: "In our boats the chef needs a submarine to go thru the soup to test the potatoes."—Ex.

DAIRY

POORLY FED COWS GIVE SAME CREAM

Important to Learn Milk Standard Before Buying.

There is no foundation, in fact, for the general belief that the cows which give poor, thin milk, are those that are starved or fed a limited or unbalanced ration, says Dr. George H. Glover, head of the veterinary division of the Colorado Agricultural college. "Many feeding experiments have fully demonstrated that the percentage of cream in milk is not materially altered either by the amount or quality of feed," Doctor Glover states. "When the feed is reduced in quantity, less milk is obtained, but the percentage of cream remains the same."

"Therefore, the importance of breeding, as well as feeding, for milk and cream production is apparent." A grade Jersey family cow, kept under observation at the college veterinary hospital for several weeks, gave very poor milk, with a butterfat content of only 1.7 per cent. It was found in experiments that this butterfat content of the milk could not be altered by the most liberal feeding. She was in perfect health, and the owner had purchased her because she looked like a good cow. This demonstrates the importance of learning the milk standard of dairy cows before they are bought, Doctor Glover says.

He also points out that each quarter of a cow's udder secretes milk of a different composition, the milk of each of the four glands varying in the percentage of fat, water, albumin, sugar, mineral and specific gravity. Tests have fully demonstrated that the mammary glands of the same cow are anatomically and physiologically different.

Selection of Dairy Cow

Is of Much Importance

Discussing the selection of a dairy cow in relation to pedigree, an expert says that the most important point to study was the production of the dam. How much milk had she given? What was her butterfat percentage? Length of lactation was inherited, and should always be considered when the only statement concerning the dam was that she gave five gallons a day, or merely "the full of two pails."

The only other animal in the pedigree that warranted close examination in regard to productivity was the

dam of the sire of the heifer they were thinking of buying. Statistical analysis as well as the experiences of practical men seemed to justify them in looking no further, for these two—the dam on the one side and the paternal grand-dam on the other—reflected the productivity of the remaining ancestors.

Milk yield, however, must always be considered in relation to environment.

Good printing at Gazette office.

Give Cow Right Care

A cow about to calve should be placed in a freshly disinfected stall or box and provided with a deep bed of clean straw to keep the calf clean when dropped. When the signs indicate that the cow's time has come, her bearings, tail, hindquarters and udder should be washed with a 5 per cent solution of carbolic acid in water—rain water for preference, as mixing better with the acid—and a solution of half this strength should be injected into the vagina.

Two Baseball Games

OPEN AIR DANCING PAVILION

Everybody Plan to be There

LOCAL NEWS

Jaunita Stanton of Lewiston visited relatives here the first of the week.

Herman Wilson arrived last Friday afternoon from Seattle where he has been working for a paving contractor. He expects to spend several weeks here.

Mrs. Frank Ellis was in Moscow on business the first of the week.

Mr. and Mrs. Frank Boyd were Lewiston visitors last Sunday evening.

John and Charles Brocke arrived the first of the week to visit a short time at the home of their parents, Mr. and Mrs. N. Brocke.

Mr. and Mrs. W. B. Deobald and children spent last Sunday at Pierce, returning home in the evening.

Mr. and Mrs. A. V. Dunkle and children of Kellogg, Idaho, spent the week end at the home of Mr. and Mrs. Ralph Knepper.

Maude Compton went to Lewiston, Tuesday, for a few days' visit with relatives.

Mr. and Mrs. Wm. Watts and two sons spent last Sunday at Winchester.

Ed Taylor, postmaster of Juliaetta, was in Kendrick on business Wednesday afternoon.

A cloudburst in the headwaters of Bear creek last Saturday evening, caused considerable damage to the crops in that section. Bear creek became a seething torrent of mud. The water was so filled with it that fish came to the top and many jumped out on the banks in an endeavor to escape from it.

T. O. Green of Juliaetta was transacting business in Kendrick, Wednesday.

Mr. and Mrs. Homer Thomas and children of Madras, Oregon, spent Tuesday at the R. H. Ramey home. Mr. Thomas was a former resident of Creston, Wn., and is now in the mercantile business at Madras.

Mr. and Mrs. J. E. Nessley arrived last Friday evening from Seattle to visit Mrs. Nessley's sister, Mrs. Ralph Knepper. Mr. Nessley is editor of the Washington Grange News.

Joe Cardinal and children were Moscow and Spokane visitors last week end.

Mr. and Mrs. Walter Thomas of Lewiston were Kendrick visitors, Monday. Walter attended the I. O. O. F. district meeting and in the evening played in the local band during the concert.

Thos. McDowell came over from Orofino last Sunday to spend the day with his family.

Mrs. Julia Brocke and daughter, Margaret, were visitors in Troy and Moscow last Saturday.

Prof. and Mrs. A. C. Able and family, Prof. C. M. Brewster and family and Prof. O. M. Morris all of Washington State College, were week end guests at the home of Mr. and Mrs. H. B. Thompson.

Mrs. E. A. Deobald went to Coeur d' Alene Monday to attend the meeting of the grand chapter of Eastern Star. She is a delegate from the Kendrick chapter.

Mrs. Lydia Jones of Spokane is visiting at the home of Mr. and Mrs. N. E. Walker this week.

Dr. and Mrs. McKeever and daughter, Paula, were Lewiston visitors Tuesday evening.

Lillian Long returned Tuesday from Pullman where she visited at the home of Mr. and Mrs. Gannon.

Mrs. Rose Gardner is visiting her parents, Mr. and Mrs. I. N. Harris.

Mrs. Frank Rowe of Spokane is visiting her father, George Wright, this week.

Mr. and Mrs. Fred Bolon and children of Lewiston were Kendrick visitors, Tuesday.

Otto Schupfer, Jack Barnes, Tony Eichner and Gus Blum attended a meeting of Washington Water Power employees at Moscow, Monday evening.

Ed Wold and daughter, Mrs. Bahle of Spokane are guests of Mr. and Mrs. Gust Lucken.

N. E. Ware returned Wednesday from Lewiston, where he spent several days at the home of his daughter, Mrs. Stuart

The Jones Optical Company, an old reliable firm, is located on the third floor of the Exchange National Bank Building. We ask you when in Spokane to call and see how well equipped we are to examine and treat your eyes as well as manufacture your glasses.

See Dr. Jones at the

Kendrick Hotel

FRIDAY, JUNE 21

Compton.

Speaking of quick thinking, a man recently over-looked his wife's birthday. In a tearful sort of way she reminded him of it. "Listen, darling, he said, 'I know I forgot it but there isn't a thing about you to remind me that you are a day older than you were a year ago.'"

Baseball Dance Tonight

The baseball boys are preparing for a big crowd at the benefit dance to be given tonight at the Fraternal Temple. The services of the orchestra, the hall rent, lunch and advertising have been donated, so that the gross receipts will go to the baseball treasury. The dance should be liberally patronized as it will help the home team. A fine time is assured.

Peck's Annual Pioneer Picnic

Advertising posters are out for the annual Pioneer Picnic to be held in Peck, Friday, June 28. This annual affair is Peck's big day and many people from this section attend. This year a special effort is being put forth to make this occasion one of special interest. There will be a parade, baseball game, interesting program, games and sports also dancing afternoon and evening. Keep the date in mind.

Grasshopper Raid Threatened

A call was issued recently to County Agent L. B. Taylor, to inspect the lower point of American ridge in the vicinity of the Wm. Cox place, as some of the fields were alive with tiny grasshoppers. Mr. Taylor responded to the call and as a result has announced that an eradication demonstration will take place on the Wm. Cox farm next Monday morning at 10 o'clock.

Grasshoppers are hatching now and an effort will be made to exterminate them with poison bran which will be scatterer over the infested areas. Mr. Taylor will be assisted by W. E. Shull, entomologist at the university experiment station.

Last year in various parts of the Potlatch country grasshoppers destroyed many acres of growing crops. It is feared that the same menace threatens in certain areas this season and an effort will be made to eradicate

the pests before serious damage is done.

Jarvis Michael Kime

Jarvis Michael Kime was born November 25, 1842, in Seneca County, Ohio. He died June 10, 1929 near Teakean, Idaho, at the age of 86 years, 7 months, 15 days. At the age of 18 he enlisted in Company E. of the 4th Iowa cavalry and served his country faithfully for three years and six months during which time he fought in the battles of Gettysburg, Chattanooga, Chickamauga, Franklin, Nashville, Shiloh, Pea Ridge, Cross Hollows and Prairie Grove, after which he received his honorable discharge.

He was married to Flora Belle Graham, September 7th, 1876. To this union 6 children were born, Mary Alice, age 2 and Grace Lou, age 11 months, preceding him in death. His wife three sons and one daughter survive him, Claude J., Charley F., and George of Teakean, Idaho, Mrs. Rozelle of Spokane, Wash., besides five grand children and four great grand children and other relatives and a host of friends. He endeavored thruout his life to live honestly and practice the Golden Rule.

Funeral services were held at the Southwick cemetery, by Rev. Calvert of Clarkston, assisted by the World War veterans of the community.

Juliaetta News

Mrs. Sutherland and little son, are visiting with her parents, Mr. and Mrs. Miles Pierce.

Mesdames. Nutt, Lowry, Otosen, Hartley and children and Miss Crystal Otosen motored to Lewiston, Thursday, where they were dinner guests of Mrs. Clarence Henrick.

Mr. and Mrs. E. B. Kenner of San Diego, California, are visiting at the Rider home.

Mrs. Wilson of Latah, Wash. is caring for Grandma Groselocke during the summer months. Mr. and Mrs. Will Spray left Wednesday for Walla Walla, after spending several weeks with his mother.

Mrs. Leonard Spray of Spokane is visiting relatives.

Mrs. Dennis Buckallew and children of Clarkston, Wash., are visiting relatives in town this week.
