

AMERICAN RIDGE

CROPS ARE GOOD

TRIP IS MADE TO OBSERVE THRESHING OPERATIONS

Martin Thomas, H. B. Thompson and the editor of the Gazette motored last Monday morning to the harvest fields of American ridge to observe threshing operations. It was our privilege to see one of the most fertile spots to be found anywhere in the Inland Empire. In fact the writer has been in every state in this union and in the best parts of Canada, but he has never observed a more productive farming region than American Ridge.

Motoring up the smooth and fairly easy grade from Julietta, we were reminded by Mr. Thomas that here was one of the pioneer roads of this region. It was built by Mr. Thomas himself, and by his neighbors, in the far-off days of 1891 and 1892. The work was mostly done, there being only about \$300 contributed in cash. One who notices carefully the heavy grading realizes that these pioneers of forty years ago were not afraid to undertake big things and to see them through.

Arriving at the home of Mr. William Cox, we were able for the first time to get a clear picture of wheat in the heart of the harvest time, as it appears on one of the best ridges hereabout. The extra-ordinary heavy straw, the height of the bundles, the closeness of the shocks to each other, make even the novice realize that here are heavy yields. Mr. Cox stated rather casually, as if it were nothing unusual at all, that he expected his wheat to run somewhere around fifty bushels per acre.

We inspected Mr. Cox's dairy barn, inside and out, and we envied the cows that have such a palace to live in. There are thirty stanchions, two large silos, an automatic manure carrier, concrete floors, and a milking machine. The Ayrshires are dry now, and out on pasture; but early in the fall they will be working overtime, producing huge quantities of the lacteal fluid. We hope later to get more detailed facts in regard to this thoroughbred herd, and to pass these facts on to our readers. For the present suffice it to say that Mr. Cox is well satisfied with his returns in the dairy business. If you want to prove that there isn't any money in dairying, you will have to consult somebody else.

The Cox thresher was operating on Carroll Cox's place, at a high point in the field where one could get a panoramic view of American ridge but only of American ridge but not of American ridge as well. The effect of such a view upon a stranger is hard to describe. This particular stranger (the writer) couldn't help wishing at that moment, a bit wistfully, perhaps, that he were an opulent and independent farmer instead of a struggling editor!

Passing on across the farm of Commissioner J. L. Woody, we came to the Woody-Robertson-Cain thresher, operating on the John Woody farm. This was a small machine run by eight men, assisted by Henry Ford at the power end of the belt. What a contrast to our boyhood days, when horse power, straw carrier, band boys and feeder were in vogue! In those days, this machine would have required fifteen men to operate. Truly this is the age of machinery.

At the home of Mr. Thomas we drank from a fine, freely flowing spring, which furnishes a never failing supply. At two places the water is encased in large circular concrete containers, for stock. On that part of the Thomas place which is rented by Mr. Cox, there is a similar spring, the flow from which is so steady and strong that Mr. Cox harnesses it to his washing machine.

We passed on from here to the farm of Benscoter Brothers where a combine, drawn by fif-

HUGE GRAIN CORPORATION FORMED BY FARMERS

Preliminary plans have been launched at Chicago to form a \$20,000,000 farmer's national grain corporation. This movement is the greatest step ever taken for agriculture, says William H. Settle, president of the Indiana Farm Bureau Federation. It will lead to the ultimate control by the farmers of the marketing of farm products. Orderly and systematic marketing will gradually develop, Mr. Settle believes, and grain prices will be more and more stabilized.

Alaska Articles will Continue

Rev. Claude W. Groth's excellent article on his experiences in Alaska was crowded out of this issue at the last moment, but will appear in the issue of August 23.

CAMERON ITEMS

Mrs. Ehlers returned to Lewiston Saturday after spending a week with Mrs. C. L. Wegner. Mr. and Mrs. C. L. Wegner, Mrs. Atto Silflow and Herman Silflow were Lewiston visitors Saturday.

Mrs. Gus Kruger spent Thursday afternoon with her sister, Mrs. A. O. Wegner.

Mrs. Stoneburner returned from Spokane Wednesday after visiting relatives and friends the past five weeks.

Mr. and Mrs. Phil Damerie and family of Mullan are visiting at the A. O. Wegner home. Mrs. Damerie is a cousin of Mrs. Wegner.

Mr. and Mrs. Aug. O. Wegner entertained at luncheon Sunday in honor of Mr. and Mrs. Damerie and family and Mrs. Tietz. Those present were: Mr. and Mrs. Damerie and family, Mr. and Mrs. Henry Wendt and daughters, Mr. and Mrs. Otto Silflow and son, Mr. and Mrs. F. W. Silflow Jr. and sons, Herman Silflow and Mrs. Tietz.

Mrs. Blum and daughter Minnie were the dinner guests of Mrs. Boemeke and daughter, Ruth, Friday.

Mr. and Mrs. Amos Spekter were Sunday visitors at the C. L. Wegner home.

Louise Schmidt is spending his week with Marie Schwarz.

Mr. and Mrs. Gus Kruger were transacting business in Lewiston Tuesday.

Hilga and Donald Ehlers are visiting with friends and relatives this week.

Erna Wegner is assisting her aunt, Mrs. Henry Wendt, with her work this week.

Mrs. Stoneburner and Miss Emma Hartung were dinner guests of Mr. and Mrs. John Schwarz Tuesday.

Helen Mielke called on Mrs. Glenn Betts of Southwick Tuesday.

Mr. and Mrs. Ed Thompson and family spent Sunday with Mr. and Mrs. Wm. McCoy.

Mr. and Mrs. Carl Koepf spent Tuesday with Mr. and Mrs. Henry Wendt.

Teen horses is threshing twenty acres a day. Mr. Benscoter believes it pays to own such a machine if a man has from 400 acres up. He figures that he has saved the price of the machine in the first six years; and the machine with good care should last a lifetime.

We visited, last, the machine of the American Ridge Threshing Co., owned by Clarence Dougherty, Ben Callison, Frank Roberts, Mr. Davidson and Harry Ameling. This machine threshes 25,000 bushels in a season of fifteen days. It seemed to us that it was turning out the wheat at an amazing rate. The same Deering-McCormick tractor which provides the power, is used later to pull a three-bottom plow that turns 12 acres a day.

Farmers have not fared so very well in recent years, but a lot of them are smiling now, and with good reason. Those whom we saw on American ridge are entitled to wear a smile from one ear to the other. May their wheat bring the best of prices, this year and always!

COMEDY DRAMA IS COMING

Plans are being made by the Presbyterian Ladies' Aid to put on a play in the not very distant future. Neither the title of the play nor the date has been determined, but to judge by the interest and enthusiasm which the ladies of the Aid are manifesting in the project, it will be a performance worth coming miles to see.

PRISONERS ATTEMPT JAIL BREAK

MOONSHINE STOPS THEM IN LOWER HALL

There was an attempted jail break at Moscow, Thursday night. Five prisoners escaped from the upper floor to the lower hall by means of keys fashioned from spoon handles. How they obtained the file with which the spoon handles were shaped into keys remains unknown.

They were unable to force the outer door, but succeeded in opening the door to the liquor supply wide enough to draw forth a jug. With this in their possession they forgot all about escaping, and proceeded to get gloriously drunk.

Three ringleaders, Jack Hall, Gilbert Mason and Joseph Hughes are in solitary confinement.

Louise Taylor Young, formerly of Kendrick, has recently purchased a marcelling machine and has established a business in the Dirks and Morrison barber shop in Lewiston.

Ruth Ella Dickerson of Medford, Oregon, arrived in Kendrick Saturday for a ten day visit with her brother, Rollien Dickerson.

John Dammarell has been confined to his home for several days suffering from an acute attack of tonsillitis which later developed into quinsy. His friends will be happy to know that he is on the road to recovery.

MRS. DAMMARELL MISSED BY HER FRIENDS

A few days prior to the 4th of July, Mrs. E. H. Dammarell became quite ill. This illness developed into small-pox from which she was nicely recovering when she had a hard attack of acute pleurisy. This lasted quite a number of days and seems to have sapped her strength.

Mrs. Dammarell has always been such an active worker in the church and community that her many friends were sorely missed her, and are hoping that she will soon regain her strength and be able to resume her activities among us again.

GOODBY AND GOODLUCK!

Ralph B. Knepper and family and E. O. MacPherson and family departed for Salmon early Tuesday morning. They will spend at least three days on the trip. The first day they will motor to Kellogg, where, if fishing seems good, they may go with friends on a side excursion. They will begin their publishing and printing business in Salmon, September the first.

The farm home of Walter Benscoter on American Ridge was burned last Friday, also a small barn nearby. With great difficulty, the flames were kept from spreading to the larger barn. The five-room house and furnishings are a total loss. The latter carried \$300 insurance.

L. C. Harres writes that he and the family are having a fine vacation at Twin Falls.

Mrs. Lydia Jones of Spokane arrived Saturday to visit at the N. E. Walker home. Mr. and Mrs. Walker, together with their guest, motored to Farmington Ridge, east of Melrose, Sunday morning, to spend the day. Mrs. Jones returned to Spokane Tuesday.

-DON'T MISS THIS-

The Methodist Ladies Aid Society will hold a cooked food sale in the Kendrick Store on Saturday, August 17th, opening at ten o'clock.

You will find an assortment of cakes, pies, bread, salads etc. which will answer that bothersome question—"what shall we have for dinner?" Come early.

CHAMBER OUTLINES AMBITIOUS PROGRAM

LEADERS MAKE PLANS FOR DEVELOPMENT OF IDAHO

The Idaho State Chamber of Commerce has grown in three years from nothing to a membership of 2,000. Advertising Idaho's resources has been one of the major projects of the Chamber. Nearly 10,000 inquiries have been received from people who contemplate coming to Idaho.

The Chamber of Commerce will broaden its program of advertising the state through newspapers and motion picture films. A new film, depicting the industrial, historical and recreational resources of Idaho will be available for showing this fall. The film which was released by the Chamber last year aroused great enthusiasm wherever it was shown. It is now filling engagements in Northern Idaho.

At a special meeting of the Chamber, called for August 16, a program will be outlined to help the farmers obtain all the benefits to which they are entitled under the new federal farm relief act. The Chamber expects to enter with a good deal of vigor upon this new and very timely project.

C. F. Delano left last Sunday for a week of visiting and vacationing at Loon Lake, north of Spokane. His sister has a summer cottage there.

George Davidson of American ridge, while loading a hay rack one day this week, crushed the two outside fingers of the right hand, inflicting painful wounds which will make it difficult for him to use the hand for some time.

A delightful birthday party was given at Mrs. McDowell's home Friday evening, in honor of Margaret McDowell. Hester Knepper, May Freytag and Doris Emery were the friends who made the occasion a lively one. Miss McDonald received a large number of presents.

Mrs. Joe Davis and children have taken the Lukens house formerly the Pietrick home and will move in September 1.

Miss Edna Bolon is expected home tomorrow from Cave Gulch where she has spent the summer on the Fountain brothers cattle ranch.

Mr. and Mrs. Claud Craig and L. H. Dougharty motored to Wallace Saturday, returning Tuesday.

May Byrne and C. F. Byrne went to Spokane on a business trip the first of the week.

P. G. Candler and wife of Clarkston have a baby boy, weight 9 pounds. Mr. Candler is working in the Vollmer-Clearwater warehouse and he is hoping to bring his family to Kendrick soon.

Mr. and Mrs. H. P. Hull drove to Spokane Sunday morning to be gone a week. Mrs. Hull's niece, accompanied them.

JAIL BOYS MAKE RAID ON LIQUOR

In some manner "the boys" at the county jail got into the liquor room of the court house Thursday night or early Friday morning, and considerable quantities of rare old bottles and something even of better stock was consumed. It was quite a party—so "the boys say."

How the little jamboree was staged is not quite clear. The liquor room is under lock and key, separate from the cell block.—Star-Mirror, Aug. 10.

SHIP LAMBS IN THE CARCASS, SAYS MCGOWAN

At the weekly luncheon of the Washington Farmer held in Spokane last Saturday, W. McGowan, sheep raiser of Sharon, suggested shipping of lambs in the carcass instead of alive, as a means of building up the industry in the west.

"Lambs shrink in weight five to six pounds on the trip to Chicago," said Mr. McGowan. "If we can get our packers to market them in the carcass, shipping the meat in refrigerated cars, we can employ more western labor and more money will be returned west than under the present system."

LINDEN

Congressman Burton L. French and wife, and brother Harley and family called on old friends and visited their boyhood friends on the ridge recently.

Aunt Carris Allen spent the day Saturday with Miss Rney Fonburg.

Mr. and Mrs. York Martin and family spent the week end with Mrs. Martin's parents, Mr. and Mrs. Chas. Keeler.

Mrs. Clem Israel enjoyed a visit with her sisters from the coast this week.

Mr. and Mrs. Stewart Wilson of Park spent the week end at the C. H. Fry home.

Mr. and Mrs. Guss Farrington visited Mr. and Mrs. Geo. Garner Sunday afternoon.

Mrs. Laura Murphey arrived Monday from San Diego Cal. to visit relatives. She is a guest of Grandama Keeler at the Smith home this week.

Mrs. Ed Kent visited at the Wm. Cox home an American ridge the first of the week.

The Linden post office, the store and residence of Wm. Sodler was totally destroyed by the fire Tuesday evening.

Thrashing was begun on Arley Allens ranch Monday morning. The grain is yielding very well considering the dry weather.

Mrs. Louis Alexander and Mrs. Sylvia Jenks spent Monday afternoon with Mrs. Weyen.

H. S. Weaver and family enjoyed a visit with his uncle, Mr. Riddle and daughter from Los Angeles Cal., over the week end.

HOLD WHEAT, ADVISES BOARD

The Federal farm board is advising farmers to hold their wheat wherever possible. There is a prospective world shortage of wheat, and it is the board's opinion that a slow movement of the product onto the market, will prevent any artificial drop in price.

Harry Langdon was a Lewiston visitor Monday.

Mrs. H. P. Hull and Mrs. R. H. Ramey were Lewiston visitors last Friday.

Hugh Stanton went to Moscow Friday.

Mrs. D. F. Gentry returned from Galena, Missouri, last Friday, where she has been visiting since last Thanksgiving.

Mrs. Cleve Aiken made a trip to Lewiston Saturday and back Sunday.

Mrs. Jennie Palmer went to Palouse, Washington, Saturday. Dwight Ingle left for Moscow, Saturday.

A. J. Maw of Oakland California, with his wife and two daughters and a lady friend, arrived Tuesday to visit at the home of A. C. and Mrs. Deeter. They will return Sunday. Mr. Maw is installing supervisor of Western Union at San Francisco.

Mr. and Mrs. Benscoter Express Their Thanks to Neighbors And Friends

Mr. and Mrs. Walter R. Benscoter wish to express their sincere thanks to neighbors and friends for the kind assistance which they rendered in trying to save the Benscoter farm home and in preventing the flames from spreading to the barn and to the wheat field.

NEWSY ITEMS FROM NORTHERN IDAHO

SUMMARY OF EXCHANGES FOR BENEFIT OF GAZETTE READERS

Grain is arriving at the Grangeville warehouses at the rate of 75,000 bushels per day. It is reported that western Montana is experiencing a business revival and that the citizens are active in their efforts to secure quick action on the Lolo pass route of the Lewis-Clark highway.

T. W. Thometz has recently completed a series of demonstration tests in the destruction of weeds near Leland. It is reported that a large number of farmers were present to observe the tests.

There is danger that central Idaho's trout streams may run so low, that serious loss of fish will occur, R. E. Thomas, state game warden, said at Lewiston last Saturday.

The assessed valuation of all Idaho property now reaches a total of \$362,786,019,—a gain of about \$2,000,000 over last year.

Twenty-five thousand trout, each about four inches long, will arrive soon from Helena, Montana. They will be planted in the big lake at Waha and in the Lewiston Orchards supply reservoir. Also, five hundred more pheasants are to be released in Nez Perce county in the near future—making a total of fifteen hundred for the season.

For the first seven months of this year, Idaho Falls leads the state in construction. Lewiston is second, Boise third and Nampa fourth.

The first talking picture performance ever given in Moscow was "In Old Arizona", a Fox all-talky feature at the Kenworthy theatre Friday night.

Latah county property valuations have increased \$612,806 during the past year. The number of milk cows has decreased 428. Livestock values have decreased \$49,688.

The Idaho Wool Growers' association will hold their annual meeting at Idaho Falls in January.

Chet Ward, alleged murderer of Ray Cole, surrendered to the sheriff at St. Maries last Saturday. Ward confessed that he had killed Cole, and justified himself by saying that Cole had interfered with his wife.

Budget requests totaling \$131,565 were submitted to the county commissioners Monday night at a special meeting. This was \$21,000 higher than the expenditures last year.

Rapid progress is being made in the erection of an addition to the school building at Winchester.

The Pacific Power and Light Company have started rebuilding their power line in Craigmont.

Two unmasked men lined up the customers in a pool hall at Clarkia Friday night and robbed the place of \$233. Both were captured shortly after by sheriffs at St. Maries.

L. F. Parsons, new secretary of the state Chamber of Commerce will take his last leave of Moscow, early next week. Under his leadership the state Chamber, with headquarters at Boise, will embark on one of the most complete programs of activity it has ever undertaken.

Grizzly camp, a small but beautiful tract not far from Moscow, will become a state park by and by, if the Isaac Walton league of that city, have their way.

Charles Cherrapin, Indian, wanted for the murder of his wife at St. Maries, surrendered to a reservation policeman, "Two Gun Hart," last Thursday.

Twelve thousand Idaho farms are now receiving electric service, an increase of five thousand in the past four years.

Troy has purchased 25 acres to be used as a tourist park. Plans are being made also for (Continued on page 2)

The Place To Buy Your Harvest Supplies

We have a complete line of the best in fresh meats, hams, bacon, lard and the standard line of groceries that can always be depended on.

It makes no difference whether your order is sent out by mail, stage, or by your neighbor it will have the same careful attention that it would get if you were here yourself.

Julietta watermelons are now on the market and we have a nice supply on hand.

IN APPRECIATION

Now that Mr. Knepper and his family, and Mr. MacPherson and his family have left Kendrick it seems fitting that the editor of this paper should express his appreciation of what they did for him. They remained in this community a month after the paper had been sold, and during that time they gave unreservedly of their time and energy to assist the new management. Without their help it is difficult to see how things could have started off so well.

The Knepper's and the MacPherson's are fine people. Their going is a loss which is felt by everyone. It is the hope and ambition of their successors in the Gazette office to be worthy of them. And it is our hope likewise, to enjoy the support and confidence of the people as fully as they have done before us.

May success and happiness attend them in their venture at Salmon.

THE SEARCH FOR NEWS

The search for news this week has been somewhat difficult. Not very much of news interest has occurred. Times like that do come, occasionally, and there is no escaping them. This is particularly true when harvest is at its height. If it had not been for the help of a number of our public spirited citizens this issue of the paper would have been a distinct disappointment.

All of which leads us to say that we are grateful for the cooperation which a number of Kendrick people have shown. It would be difficult to name all those, who, during the past month, have exerted themselves to help the new editor. Among those who have been particularly helpful are Mr. R. H. Ramey who has assembled the travel news, and Mrs. H. B. Thompson, who, besides sending in locals, has undertaken to gather as much society news as possible. Still others who have helped are Mrs. Minnie McDowell, Doctor Field, Mr. Damarell, Mr. Oppenborn, and Mr. J. M. Emmett.

Send in the news. The Gazette management appreciates it; your neighbors appreciate it; the whole community appreciate it. Let's have a live, newsy paper every week.

ELECTRIC DEVELOPMENT IN THE FUTURE

The field for future development of the electric industry is so great that capital investment in utilities is expected to increase by a third within five years, according to a survey made by Bonbright and Company.

Six outstanding reasons for potential growth are given. About one-third of the population still lives in unlighted homes, and more than half of fired homes contain no electric saving devices, except flatirons. The average home, when completely equipped with electric service, will consume ten to twenty times as much juice at present.

More than 90 percent of American farms are not yet served with electricity, and but half of our industrial power requirements are met by the utilities. In recent years factories have been consuming a steadily increasing amount of electric power.

But two percent of our railway mileage is electrified, with great projects announced for the future. We have hardly begun lighting highways and airways.

The developments of the future have been charted, and begun. Farm and railroad electrification have proven practical and economical. More and more homes are being adequately wired and equipped with electric appliances. The amount of power within the command of each industrial worker steadily increases. The electrical age, that has revolutionized domestic and economic life, goes on with increasing momentum.

A NEW GOLDEN AGE

Each of the great countries of history has enjoyed its golden age,—a time when its achievement in some field of human endeavor has reached the pinnacle of excellence.

Twenty-five hundred years ago the Greeks enjoyed a golden age of sculpture the remains of which to this day arouse the admiration of thinking men. Fifteenth century Italy saw the development of marvellously perfect art,—the golden age of painting. Sixteenth century England witnessed literature at its height in the superb dramas of Shakespeare.

Apparently it is a law of nature that to each age belongs a peculiar excellence. Ours is the golden age of mechanical perfection, in its own way a marvel of marvels. Never before has such progress been made in science and invention, in man's mastery over the forces of nature.

Each Athenian citizen, it is said, had two human slaves at his command. Yes, but each American citizen has ten slaves at his command,—not human slaves, but electric slaves which he has caught out of the air, harnessed, and made to do his will.

Where will this age of mechanical triumphs end? Iceless refrigeration, recently perfected, will save \$750,000,000 a year thru preservation of foods which would otherwise perish. A manufacturing concern has devised new machinery which will enable 1800 men to do work formerly requiring 4,000 men. Such changes occur so rapidly we cannot keep track of them.

Our Golden age may lack the artistic touch of the Greek, the aesthetic fineness of the Renaissance Italian, the literary artistry of Shakespearean England; but it has a genius all its own, a gift no less wonderful.

Best of all, this golden age in which we live bids fair to do what no other age has ever done: to lift a part of the burden of toil from the shoulders of the common man, to give leisure for thought and for play to everyone, and to banish extreme poverty from the earth.

(Continued from page 1)
a swimming tank.

Night riders have been stealing grain from the fields and hauling it away, in the vicinity of Grangeville.

Members of the Nez Perce county bar are favoring William Lee as successor of Judge Steele.

The St. Maries Lumber company have sold their mill at St. Maries to F. W. Mueller and John C. Palmer for a consideration of \$350,000.

SUMMONS

In the District Court of the Second Judicial District of the State of Idaho in and for the County of Latah.

Martin Jacobson, Plaintiff,

vs.

Nettie Thalheimer, and all unknown owners of and all unknown claimants to any right or title to or interest in or lien or claim upon the southwest quarter of the northeast quarter of section five in township forty-one north, of range five, W. B. M., situated in Latah County, State of Idaho, Defendants.

The State of Idaho Sends Greetings to You, the Above Named Defendants and Each of You:

You are hereby notified that a verified complaint has been filed against you in the District Court of the Second Judicial District of the State of Idaho, in and for Latah County, by the above named plaintiff and you are hereby directed to appear and plead to said Complaint within twenty days of the service of this Summons upon you.

Said action is brought and prosecuted by the plaintiff against you, the defendants, to remove an alleged cloud upon plaintiff's title to the lands and premises in said Complaint mentioned and described as follows: The South West Quarter of the North East Quarter of Section Five in Township forty-one North, Range five W. B. M. in Latah County, State of Idaho, containing forty acres according to the U. S. government survey, all of which fully appears from plaintiff's said Complaint to which reference is hereby made.

And you and each of you are further notified that unless you so appear and plead to said Complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said Complaint.

Witness my hand and seal of said District Court this 23d day of July 1929.

HARRY A. THATCHER, Clerk.

Aid Strawberry With Wild Ones

Four Promising Varieties Are Found Suitable for Home Preserving.

(Prepared by the United States Department of Agriculture.)

All the strawberries in the United States and most of those of the world—that is, the tame ones—are descendants of two wild American strawberries, one a native of the Pacific coast and the other a native of the eastern United States.

There are many other wild strawberries, however, that did not take part in developing our present kinds. In the untamed wild ones may lurk some valuable trait that can be bred into our domestic varieties which may make them even more desirable than they now are. At any rate, plant breeders are turning to the wild sorts for improving the strawberry, especially to develop new types better adapted to such specific purposes as canning, preserving, and candy making.

Four Promising Varieties.

George M. Darrow, who is in charge of strawberry-breeding work for the United States Department of Agriculture, has already achieved some success in this field. From the thousands of crosses made he has selected four promising varieties especially suited for preserving. They are known only by number as yet, and will need to be tested for adaptation before they can be recommended for planting. The breeding of preserving sorts is only begun, he says, and every region will need its own particular variety.

Technique of Breeding.

The technique of breeding is relatively simple, Mr. Darrow explains, but the important and difficult part is in making the selections. To breed a new kind, no matter for what purpose, two parent varieties are crossed.

They may be wild or tame. The pollen from the flower of one is placed on the pistil of the flower of the other. The seed developing from such a cross is planted and every resultant seedling grown to fruiting age before selections are made. If there are three acres of seedlings in fruiting there may be 8,000 kinds, each different from the others. From this enormous number certain promising ones are saved and each is propagated in a separate short row. When they bear, if there is sufficient fruit, culling and preserving tests are made of the more promising ones by canners and preservers with whom Mr. Darrow has made co-operative arrangements.

Oyster Shell for Hens of Great Importance

Profitable poultry raising depends on the elimination of weak, unhealthy chickens, subnormal egg production and soft-shelled eggs. Of course, there are many poultry feeds which will help to keep fowls healthy but there is one mineral food which combined with a balanced ration and plenty of sunlight will do away with all three of the evils just mentioned. This is crushed oyster shell.

The best form of crushed oyster shell contains 98 per cent calcium carbonate and therein lies its value to poultry. The formation of the egg requires three distinct steps. The yolk is made first. This passes to the next stage where it is coated with the white or albumen. The final step of the process is the formation of the shell. Egg-shell consists mainly of calcium carbonate. It is therefore evident that if the hen has not a sufficient supply of this mineral in her system, fewer eggs will be produced and those that are produced may have soft shells. In other words the calcium carbonate in the crushed oyster shell supplies the egg shell material.

Oratorical Latitude

A good speaker must be somewhat of a poet, and therefore cannot afford to be mathematically to the truth. Bismarck.

MILLER SAYS FARM RELIEF WILL COME SLOW BUT SURE

Says Change Will Come Gradually and Better Conditions Will Result

A genial gentleman who smilingly but firmly averred that during all the years he has owned a mill here the farmers have "farmed" him, more than he has "milled" them, declared this morning that he thought the farm relief measure would ultimately do the farmers some good.

The man who made this statement was Mark P. Miller, now of Portland, who owns the Miller Milling company and who lived in Moscow from 1902 to 1922. Mr. Miller owns many mills in the northwest, though when interviewed this morning he refused to tell the exact number, shaking his head and declaring that it was far too many for his peace of mind.

Benefit Eventually

In talking to the reporter of the farm relief, Mr. Miller did not say whether he thought the present bill the best of all the proposed measures, but he did come out with the statement that he expected a gradual improvement in the farming conditions due to the new measure. He said, "I can not conceive of a body of men of the type named for the board, men who have proven successful and efficient in their lines of work, men chosen from all over the United States, as not being able to make plans that would be eventually for the benefit of the farmers."

"Of course," Mr. Miller said, "they cannot snap their fingers and say 'presto' and all at once make the farmers rich, they must have time. I expect the change to be so gradual that the farmers themselves will not realize it. The board is going at things slowly and surely and they can't help but accomplish some, worthwhile things. The men on the federal board are not politicians, but men well versed in the needs and conditions of the farmers. They are going to bring big business methods to the agricultural situation."

So far, in this country, the farmers situation has been every man for himself and the devil take all he can get. With this new measure, pointed out Mr. Miller, there will be a decided change. The board will advise the farmers in certain sections what is best to raise and how much of it to meet the conditions of that year. In this way, shortages will be taken care of and probably better prices will result. Mr. Miller declared that this would mean the stabilizing of the whole market. He said it would no doubt be similar to the Canadian pools that are working so successfully. In Canada the pools sell the products when they think the price is right, and not until then.

Mr. Miller says the layman forgets that there will always be natural depressions due to droughts and weather conditions which no farm relief can control. He cited the drought in the Dakotas and the Montana regions where the crops will be about cut in half this year. Concerning the crops this year, he expressed himself as being pleased with this section's grain, saying it would be a good average crop. He said he had heard that in the Nezperce country the wheat was far above any yield that it had ever been and that Whitman county grain looked good.—Star-Mirror, Moscow, Aug. 5, 1929.

THERE'S A GOLDEN MEAN

Be thrifty, but not too thrifty. You owe your family at least as much as you owe your descendants.—Houston Post-Dispatch.

LIVE STOCK NEWS

JAPANESE MILLET IMPERFECT FEED

Experiments Show It to Be Inferior to Timothy.

Hay made from Japanese or barnyard millet, sometimes called Billion Dollar grass, is regarded as inferior to timothy hay as a food for sheep. While few data of an experimental nature are available showing the value of this roughage for sheep, the above statement as to its merits in comparison with timothy, and a general discussion of timothy hay as a roughage for sheep will permit of some deductions, says D. S. Bell of the Ohio experiment station.

In practically all experiments which have been conducted timothy hay has been found a very inferior roughage for sheep feeding. At the college of agriculture, University of Alberta, Alberta, Canada, ewes fed timothy hay weaned lambs one-half of which died before they reached the age of twenty-eight days. Not only was the loss of nursing lambs heavy, but the ewes lost 27.8 pounds each in weight during gestation. This lot of ewes was compared with another lot of similar ewes fed alfalfa hay. This alfalfa-fed lot raised all of the lambs weaned, and the ewes were thrifty and vigorous.

In Bulletin 120 of the Missouri Agricultural Experiment station is found this statement concerning timothy hay as a roughage for pregnant and nursing ewes: "Timothy hay proved to be such an inferior ration that it was not continued the second year." The data presented show that the ewes fed timothy hay and grain weaned 17 lambs, five of which were weak at birth, and one born dead. The ewes lost an average of 7.67 pounds during the trial. Ewes fed clover hay and grain weaned 16 lambs all of which were alive and strong at birth, and these clover-hay-fed ewes gained 6.53 pounds each during the test.

With Japanese millet ranking inferior to timothy hay as a roughage and with timothy giving such poor results little can be said in favor of the millet in question. The sheep raiser who is striving for efficiency and economy of production will do well not to use such hay for his ewe flock. If it seems desirable to grow millet for hay, one of the foxtail groups—German, Hungarian, or common—would be more desirable, and even these are not meritorious to any extent.

Prevent Cattle Losses on Sweet Clover Hay

The right precautions will prevent a good share of the loss of cattle on sweet clover hay or pasture. Moldy hay may contain poisons that will kill stock. Sweet clover hay seems to thin the blood of the animals and cause it to lose its clotting characteristic. Some other kind of hay should be fed with clover hay, or the animals should be changed to another kind of roughage after two weeks on sweet clover hay.

Bloat is caused by the rapid decomposition of the high percentage of organic matter in green feed. Bloat on sweet clover-pasture may be largely prevented by starting the animals on some other green pasture and then getting them used to the clover slowly. In serious cases, the pressure may be relieved with a trocar. Every farmer who pastures clover of any kind should have one or more trocars on the place for emergency use.—University of Nebraska.

Heifer Calves Finish Quicker Than Steers

Cattle feeders who are feeding steer calves and heifer calves together will observe that the heifer calves seem to finish out quicker than the steer calves. This is not due to the heifer calves making more rapid gains, but rather that they are somewhat smoother in conformation and tend to put on surface fat sooner than the steer calves. The feeder who has a number of calves on feed should ship the heifer calves as soon as they show enough finish to sell well on the market.

Best Veal Calves

No better veal calves can be produced than those that come from the disease free herds of Wisconsin Holsteins, Brown Swiss, Shorthorns and Ayrshires. For those who prefer the lighter weights there are the smooth finished Guernseys and Jerseys. Veal has taken its place as a year round food and the Wisconsin farmers feel that their calves should sell on the same grade basis that are accorded other live stock.

Hogging Down Corn

Hogging down corn is a satisfactory plan to follow in fattening hogs for market provided conditions are satisfactory for this practice. However, if there is much rainy weather during the period the hogs are running in the corn field, it is very likely that more corn will be required to produce 100 pounds of gain because some corn will be wasted in the mud. Tankage or other protein supplement will be required for the most economical pork gains.

NEW JUMP RECORD

Jess Hill of University of Southern California in record breaking broad jump of 25 feet 3/4 inches at Intercollegiate meet of the Association of Amateur Athletics of America held at Philadelphia.

Since prevention is always the cheapest remedy, all sheep should be carefully dipped twice each spring, soon after shearing. The cost is small, the benefit considerable.

At the earliest possible age the colt should be fed oatmeal and bran, oilmeal, corn and legume hay. He may be weaned at four to six months of age, depending on his condition.

Sheep will overeat of salt if it is supplied only at intervals. Keep it before them at all times.

Good beef calves that get a little grain in a creep along with their mothers' milk are being sold fat at weaning time at \$60 to \$80 per head.

Cheap pork comes with an abundance of clean water of the right temperature. Have fountains that prevent the hogs from making a mudhole about it. A healthy hog needs water close to his feed.

Much Money Is Lost by Planting Inferior Seed

Thousands of dollars are lost every year by planting seed of low vitality. Seed of all field crops should be tested for germination before planting. This is especially urgent now for corn and sorghums. One cannot tell from the appearance of seed how well it will grow. Last year 141 lots out of the 5,000 lots of seed tested at the state seed laboratory germinated from 0 to 50 per cent. This means that several thousand acres would have been planted to seed which would not grow.

Agricultural Notes

Infertile eggs keep longest.

Seed clover instead of alfalfa if the subsoil is extremely acid.

Feed poultry yellow corn, cod-liver oil, milk, and leafy feeds for vitamins.

Keep your lawn open for the best effect. Flower beds set in the lawn make the grounds seem smaller.

Retailers make best profits when prices of produce are low. The farmer gets more of the consumer's money when products are scarce and high priced.

The size of the egg a pullet lays has been found to be closely correlated with the age of which she begins to lay. Selection for very early maturity in the smaller breeds is likely to reduce the size of the egg of the flock.

Natural Wonder

The St. John river, draining an area of 28,000 square miles, discharges its flood into the St. John harbor through a rocky gorge, famous in Indian lore. The famous "Reversing falls" are so called because at high tide the water of the harbor is above the level of the river and has a perceptible drop upstream. The occurrence is unique and is considered one of the natural wonders of the world.

Hair Records Pressure

The record barometric pressure, temperature and humidity, a strand of blond hair from the human head is used in a new aero-meteorograph instrument which is carried aloft by airplane pilots.

Usually You Haven't

Before you give away a piece of your mind, be sure you have it to spare.—American Magazine

PERMANENCE

Permanence is one of the most desirable of qualities—in public utility practice as in community growth.

This electric service company has always emphasized permanence as the foundation of its policy of reliable, ample service to the Inland Empire.

THE WASHINGTON WATER POWER CO.

JOINT STATEMENT OF COUNTY AUDITOR AND COUNTY TREASURER FROM

April 9th, 1928 to April 8th, 1929.

Table with columns for fund type (CURRENT EXPENSE FUND, ROAD FUND, WARRANTS), item description, and amounts. Includes sub-sections for Sheriff, Assessor, Treasurer, Prosecuting Attorney, Superintendent of Public Instruction, Coroner, Probate Court, District Court, Justice Court, Court House, Election, and Road Fund.

REPORT OR OPERATIONS IN FUNDS To the County Commissioners of Latah County, Idaho.

Sirs: I have the honor to report operations in the various extra funds of Latah County, Idaho, during the quarter ending April 6th 1929 as follows to-wit:

Table with columns: Fund, On Hand First of Quarter, Received, Journal Credit, Disbursed, Journal Debit, On Hand End of Quarter. Lists various funds like County Road, County School, State, Motor Vehicle, Special School, etc.

I hereby certify that the above statement is true and correct. LEOLA R. KING, County Treasurer. By—H. H. HOAGLAND, Deputy County Treasurer. HARRY A. THATCHER, County Auditor By BESSIE BABCOCK, Deputy

Commissioners' Proceedings

Moscow, Idaho, Monday, May 13, 1929. The Board met this day pursuant to recess adjournment, present as before. Claims against Latah County were examined and allowed, and the County Auditor directed to draw warrants in settlement thereof, as follows:

CURRENT EXPENSE FUND table listing names and salaries: Harry A. Thatcher, Bessie Babcock, Emma J. Sayles, Charlie Summerfield, Geo. K. Moody, J. F. Jordan, Pat Malone, Walter O. Taylor, J. G. Vennigerholz, Leola R. King, H. H. Hoagland, Abe Goff, Ellen Peterson, H. R. Short, Adrian Nelson, John L. Woody, Rudolph E. Nordby, L. B. Taylor, J. W. Stevenson, L. M. Gilmore, L. P. Hunt, Harvey J. Smith, Amy Malmsten, Edith Wright, Edna M. Theriault, Margaret Walker, Alex Johanson, J. C. DeWitt, Ed Vennigerholz, C. L. Williamson.

At this time the board took up the matter of agreement on bovine tuberculosis eradication, and entered into an agreement with the Idaho Bureau of Animal Industry and the United States Bureau of Animal Industry, to fully cooperate with said bureaus in said matter, and to keep up the tuberculosis eradication for a period of at least one year, and signed the agreement to that effect. The bonds of B. Brigham, W. A. Gamble, and Casper Tylden, as Commissioners of Good Roads District No. 3, were examined and approved. The bond of Casper Tylden, as Treasurer of Good Roads District No. 3, was examined and approved. The affidavit of Alfred Schumaker, in support of the Indigency of William Shaw and wife, was examined and approved, and aid ordered extended as petitioned. The indigency affidavit of Wm. Connick, and application for county aid, was examined and approved, and aid ordered extended as petitioned. The automobile insurance policy, covering 1926 Dodge touring car, was examined and approved, and ordered placed in the insurance files. The annual financial report of Genesee Highway District was examined and approved, and ordered placed in the Commissioners' files. The opinion of Abe, Goff, County Attorney, concerning allowance of bills against the county monthly, of sale of real estate made by the

in the Commissioner's files. In the matter of the application of Bertha J. Dickson, a mother, for partial support, the same was examined and ordered rejected. In the matter of the application of Hazel M. Mundy, a mother, for partial support, the same was examined and ordered rejected. In the matter of the application of Anna May Browning, a mother, for partial support, the same was examined and ordered rejected. In the matter of the application of Mary E. Van Sickle, a mother, for partial support the same was examined and ordered rejected. Monday, June 10, 1929, at nine o'clock A. M. HARRY A. THATCHER, Clerk. APPROVED: JOHN L. WOODY, Chairman. Moscow, Idaho, Monday, June 10, 1929.

The Board met this day pursuant to recess adjournment, present as before. Claims against Latah County were examined and allowed, and the County Auditor directed to draw warrants in settlement thereof as follows:

CURRENT EXPENSE FUND table listing names and salaries: Harry A. Thatcher, Bessie Babcock, Emma J. Sayles, Charlie Summerfield, Geo. K. Moody, J. F. Jordan, Pat Malone, Walter O. Taylor, J. G. Vennigerholz, Leola R. King, H. H. Hoagland, Abe Goff, Ellen Peterson, H. R. Short, Adrian Nelson, John L. Woody, Rudolph E. Nordby, L. B. Taylor, J. W. Stevenson, L. M. Gilmore, L. P. Hunt, Harvey J. Smith, Amy Malmsten, Edith Wright, Edna M. Theriault, Margaret Walker, Alex Johanson, J. C. DeWitt, Ed Vennigerholz, C. L. Williamson.

The petition of residents of Kendrick Precinct for the appointment of Ernest Davis, as constable of said Kendrick Precinct, to fill the vacancy caused by the removal from the county of the former constable, was examined and approved, and said appointment made as petitioned. Mr. C. B. Ahlson, representative of the Chipman Chemical Engineering Co., Inc. of New York City, appeared before the Board, together with the County Agent, Mr. Taylor, and the Board placed an order with said company for one carload of calcium chloride, which it was estimated would be necessary for the purpose of the extermination of noxious weeds in the county, as authorized by Section 3496 of the Idaho Compiled Statutes. In pursuance of and under and by virtue of a resolution and order of the County Commissioners of Latah

County, State of Idaho, on the 10th day of April, 1929, the hereinafter described lots, pieces and parcels of real property located in Latah County, State of Idaho, having heretofore been duly advertised for sale in the Kendrick Gazette, a newspaper of general circulation in said county, giving thirty days notice, as required by law, which said sale was advertised to be held at the front door of the Latah County courthouse, in Moscow, Latah County, Idaho, on Monday, June 10th, 1929, at the hour of 2:30 o'clock P. M., or at such time or on the day to which the said sale may be postponed or adjourned, and said hour having arrived, the said real estate, lands and premises hereinafter described, were then and there duly offered and exposed for sale, at public auction, by John L. Woody, Chairman of the Board of County Commissioners of Latah County, State of Idaho, and were then and there struck off and sold to the highest and best bidders for cash, as follows, to-wit: Lot Two (2), Block Four (4), Old Town of Genesee in Section Thirteen (13), Township Thirty-seven (37) North, Range Five (5) West of the Boise Meridian, in Northeast Quarter of the Southwest Quarter, assessed to L. H. Nichols, sold to W. R. HICKMAN for \$1.00. Northwest Quarter of the Southwest Quarter (NW1/4SW1/4) less East 90 feet, of Section Three (3); Northeast Quarter of the Southeast Quarter (NE1/4SE1/4), Northwest Quarter of the Southeast Quarter (NW1/4SE1/4) and the Southwest Quarter of the Southeast Quarter (SW1/4SE1/4) of Section Four (4), Township Thirty-nine (39) North, Range One (1) East of the Boise Meridian, assessed to O'Neal Irwin Co., sold to POTLATCH LUMBER COMPANY for \$250.00. Southwest Quarter of the Southeast Quarter (SW1/4SE1/4) of Section Seven (7), in Township Thirty-nine (39) North, Range One (1) West Boise Meridian, assessed to Katie Maybee, sold to I. W. LARKIN for \$4.00. Southeast Quarter of the Southwest Quarter (SE1/4SW1/4), Northwest Quarter of the Southeast Quarter (NW1/4SE1/4), Southwest Quarter of the Southeast Quarter (SW1/4SE1/4) and Southeast Quarter of the Southeast Quarter (SE1/4SE1/4) of Section Seven (7), Township Forty (40) North, Range (4) West of the Boise Meridian, assessed to A. A. Wilson, sold to N. D. NAYLOR, for \$2.00. Northwest Quarter of the Northeast Quarter (Lot 2), Northeast Quarter of the Northwest Quarter (Lot 3), Section Two (2), Township Thirty-nine (39) North, of Range One (1) West of the Boise Meridian, Southeast Quarter of the Southwest Quarter (SE1/4SW1/4) Southwest Quarter of the Southeast Quarter (SW1/4SE1/4) Southeast Quarter of the Southeast Quarter (SE1/4SE1/4) of Section Thirty-five (35), Township Forty (40) North, Range One (1) West of the Boise Meridian, assessed to Oscar Larson, sold to POTLATCH LUMBER COMPANY for \$5.00. West Half of the Northeast Quarter of the Southeast Quarter (W1/2NE1/4SE1/4) of Section Thirty (30), in Township Forty-one (41) North, Range One (1) East of the Boise Meridian, assessed to Minnie K. Hoffman, sold to N. D. NAYLOR, for \$1.00. Northeast Quarter of the Northwest Quarter (NE1/4NW1/4) of Section Twenty-seven (27), Township Forty-one (41) North, Range Two (2) West of the Boise Meridian, assessed to Henry Flick, sold to N. D. NAYLOR, for \$1.00. Northwest Quarter of the Southwest Quarter (NW1/4SW1/4), less five acres, right-of-way, Section Sixteen (16), Township Forty (40) North, Range One (1) West of the Boise Meridian, assessed to W. F. Headrick, sold to J. O. McCOMB, for \$4.00. Northwest Quarter of the Northwest Quarter (NW1/4NW1/4), Southwest Quarter of the Northwest Quarter (SW1/4NW1/4), Northwest Quarter of the Southwest Quarter (NW1/4SW1/4) of Section Thirty-two (32), Northeast Quarter of the Southeast Quarter (NE1/4SE1/4) of Section Thirty-one (31), Township Forty (40) North, Range One (1) East of the Boise Meridian, assessed to E. H. Atherton, sold to J. O. McCOMB, for \$5.00. Northeast Quarter of the Northwest Quarter (Lot 3), Section Four (4), Township Forty-one (41) North, Range Four (4) West of the Boise Meridian, assessed to Martin Solberg, sold to C. L. WILLIAMSON, for \$10.00. West Half of the Southwest Quarter of the Northwest Quarter (W1/2SW1/4NW1/4) of Section Seventeen (17), Southeast Quarter of the Northeast Quarter (SE1/4NE1/4) of Section Eighteen (18), Township Forty-one (41) North, Range One (1) West Boise Meridian, assessed to Geo. A. Nelson, sold to C. L. THOMPSON, for \$4.50. Southwest Quarter of the Northwest Quarter (SW1/4NW1/4) Section Five (5), Southwest Quarter of the Northeast Quarter (SW1/4NE1/4) Southeast Quarter of the Northeast Quarter (SE1/4NE1/4), and Southeast Quarter of the Northwest Quarter (SE1/4NW1/4) of Section Six (6), Township Forty-two (42) North, Range One (1) West of the Boise Meridian, assessed to Frank E. Featherstone, sold to C. L. THOMPSON, for \$6.50. Northwest Quarter of the Northwest Quarter, Lot One (1), Section Nineteen (19), Township Forty-two (42) North, Range One (1) East of the Boise Meridian, assessed to Gertrude M. Pittard, sold to N. D. TAYLOR for \$1.00. Lot 1 and 4, Block 2; Lot 8, Block 30, Original Town of Kendrick, assessed to George F. Walker, Not Sold. Lot 8, Block 16, Original Town of Kendrick, assessed to Latah County, Not Sold. Lots 1, 2, 3, 4, Block 32, Original Town of Kendrick, assessed to Albert Kleeth, sold to Frank W. Ellis, for \$140.00. Lots 5 and 6, Block 16; Lot 7, Block 20; Lot 10, Block 38, all in Original Town of Kendrick, assessed to E. R. Porter, sold to ERNEST DAVIS, for \$1.00. Lot 3 (less Railway) Block 100, Oak's Addition to Kendrick, assessed to Chas. Bodenhouse, Not Sold. Lot 4 (less Railway) Block 101, Oak's Addition to Kendrick, assessed to Latah County, Not Sold. Lots 8, 9, 10, Block 96, Oak's Addition to Kendrick, assessed to Chas. Bodenhouse, Not Sold. Lots 2, 8, 10, 12, Block E; Lot 1, Block F, Addison's Addition to Kendrick, assessed to G. F. Walker, Not Sold. Lots 1, 2, 3, 4, 5, 6 and 8, Block 23, all in Original Town of Kendrick, assessed to John Nisbet, Not Sold. West 20 feet of Lot 17, Block 1, Original Town of Julianna, assessed to F. Kohlenberg, Not Sold. East 20 feet of Lot 12, Block 1, Original Town of Julianna, assessed to W. B. Robinson, Not Sold. South half of Lot 10, Block 1, Original Town of Julianna, assessed to O. F. Hottle, Not Sold. Lots 15 and 16, Block 4, Original Town of Julianna, assessed to C. Muzik, Not Sold. Lot 5, Block 18, Original Town of Genesee, assessed to M. B. Quillen, sold to CITY OF GENESSEE, for \$1.00. Lot 6, Block 18, Original Town of Genesee, assessed to F. S. Casebolt, sold to CITY OF GENESSEE, for \$1.00. Lot 3, Block 18, Original Town of Genesee, assessed to James J. Keane, Not Sold. Oliver Tract, North Addition to Genesee, assessed to John W. Lawson, sold to LEMUEL KLINE, for \$5.00. North half of Lots 1 and 2, Block 15 West Addition to Genesee, assessed to Henry Lorang, Not Sold. Lot 12, Block 8; Lot 12, Block 9; Lot 6, Block 14, Harvard, assessed to J. W. Hastings, sold to FRED ALLEN, for \$1.00. Lots 13 and 14, Block 17, Original Troy, assessed to Blanche Ross, sold to IRA C. DRAPER, for \$1.00. Lots 4, 5, and 6, Block 3, Daniels' Addition to Troy, assessed to L. F. Parsons, sold to J. O. McCOMB, for \$1.00. Lots 43, 44, 45, 46, 47, and 48, Block B, Licualen's 2nd Addition to Moscow, assessed to A. I. Simonson, sold to C. W. STEPHENSON, for \$55.00. A recess was now taken until Monday, June 24, 1929, at nine o'clock A. M., pursuant to law. ATTEST: HARRY A. THATCHER, Clerk. APPROVED: JOHN L. WOODY, Chairman. Moscow, Idaho, Monday, June 24, 1929. The Board met this day pursuant to law and recess adjournment, present as before. This being the time fixed by law for the meeting of the County Commissioners as a County Board of Equalization, on the real property tax rolls for the year 1929, said tax rolls, together with the assessment statements for said year, were at this time presented to said Board. The official bond of Ernest M. Davis, as Constable of Kendrick Precinct, was examined and approved. In the matter of the petitions for a consolidation of School Districts No. 38 and 55, it appearing to the Board that said petitions are signed by more than twenty percent of the voters in said districts in favor of said consolidation, and said petitions having been approved by the County superintendent, as provided by law, the same are approved by the Board, and it is ordered by the Board that an election be held in said School Districts No. 38 and 55 for the purpose of voting upon said consolidation, and said date of election is hereby fixed for Saturday, July 27th, 1929, and the following named persons are appointed to act as judges and clerks in said election: School District No. 38: Wade Keene, Ed Halseh, Judges; Zack Aas, Clerk. School District No. 55: A. W. Jones, Albert Kleeth, Judges; J. N. Emmert, Clerk. The balance of the day was taken up with hearing claims for exemption, which were taken under consideration. The matter of the equalization of the real property tax rolls for the year 1929 was at this time continued. The Board now adjourned to meet tomorrow, Tuesday, June 25, 1929, at nine o'clock A. M. ATTEST: HARRY A. THATCHER, Clerk. APPROVED: JOHN L. WOODY, Chairman.

HARRY A. THATCHER, being first duly sworn, deposes and says, that he is the duly elected, qualified and acting Auditor in and for Latah County, Idaho, and that the foregoing statement is a true and correct statement to the best of his knowledge and belief. HARRY A. THATCHER, County Auditor. Subscribed and sworn to before me this 21st day of June, A. D. 1929. ADRIAN NELSON, Probate Judge

"Press On" Nothing in the world can take the place of persistence. Talent will not; nothing is more common than unsuccessful men with talent. Genius will not; unrewarded genius is almost a proverb. Education will not; the world is full of educated derelicts. Persistence and determination alone are omnipotent. The slogan, "Press on," has solved and always will solve the problem of the human race.—Exchange. Clocks Carefully Tended The clocks at the Naval observatory at Washington are kept in an underground vault and are wound by electricity

Ridge is spending this week
with her sister, Mrs. Joe
Tschantz.

Mrs. Jake Berriman and two
daughters and Mrs. Hartung
were in town Tuesday after-
noon.

Mrs. Matt Kazda is enjoying
a visit with her brother from
Oregon.

KEIL BIDS OLD JOB GOODEY

**Fish Commissioner Writes Open
Letter to Sportsmen**

W. M. Keil, state fish com-
missioner, handed his resigna-
tion to the state game depart-
ment a week ago Wednesday.
At that time Mr. Keil gave out
"an open letter to the sports-
men of Idaho," which is pub-
lished in part below.

"I have today tendered to Mr.
Thomas, state game warden, my
resignation as state fish com-
missioner to take effect as
quickly as arrangements may be
made by him to select my suc-
cessor. In terminating my ser-
vices with the fish and game
department, I do so with the
deepest regret at leaving only
partially completed an outlined
plan of fishery work upon
which I had set my heart and
which was beginning to show
great promise for the future.
During myover five years of
fish cultural work throughout
the state, I have learned to love
Idaho and its people, and had
hoped that conditions might so
readjust themselves that I could
remain with the department and
still continue to carry out effec-
tive work in my branch of the
department's activities. Under
present circumstances this is
impossible.

Appeals to Sportsmen.

"A splendid beginning has
been made towards placing
Idaho's fishery work on a prac-
tical business-like and scientific
basis, and there appears no lo-
gical reason why this progress
cannot continue if the sports-
men of the state will only inter-
est themselves at the next legis-
lature to see that certain
adjustments are made possible.
Even though handicapped in
more ways than the public will
realize, I believe considerable
progress has been made in fish
cultural work in this state dur-
ing the past few years. In
several sections, peculiar physi-
cal conditions have prevented so
far, any real, definite develop-
ment from being made, but
plans have been formulated to
remedy this situation and it is
hoped that the near future will
see many of these materialized.

Expresses Thanks.

"I also desire to express my
sincere thanks to the many,
loyal, efficient hatchery super-
intendents and assistants, field
spawntakers and distribution
men without whose assistance
little progress could have been
accomplished. As to the thou-
sands of individual sportsmen
throughout the state, deputy
game wardens, forest service
and railway officials and em-
ployees who have so largely con-
tributed to the state's fishery
work, Idaho's fish cultural pos-
sibilities are the greatest of any
state in the union, and it is the
earnest hope of your retiring
fish commissioner that the de-
velopment in which he has taken
a small part may continue
onward and upward towards
the ultimate goal for which so
many of us have been striving."

Peas in the Palouse country
are bringing \$25 an acre, ac-
cording to reports at hand.
Charles Clarke of that section
reported six to eight sacks to
an acre on his farm. A contract
price of \$2.50 a hundred pounds,
bringing the price for eight
sacks to \$25, was paid him.

columns and brought down the
house.

LOCAL NEWS

Supt. W. C. Jones and wife will move into one of the newly furnished apartments in the Kendrick Hotel in a few days.

Mr. and Mrs. Hugh Helpman and son were visiting Mr. and Mrs. J. B. Helpman Sunday.

Mrs. Ameling from Moscow has moved into the McPherson home. She expects a sister from the east soon who will live with her.

Dr. and Mrs. Field entertained Mr. Dickerson and his sister, Ruth Dickerson Tuesday evening.

M. O. Raby and wife went to Spokane Monday to buy furniture for the new apartments. While there, they called on Dick Hosieff and found him much improved in health.

John Heher who owns the apartments is quite ill with erysipelas.

Mrs. Griffin from Tacoma, Wash., has come to Kendrick to live and is with Mr. and Mrs. James Emmett. Her son-in-law, Mr. Haase will teach this winter at Leland. He has been attending normal school at Cheney and will come to Leland next week.

Mr. Martin Thomas and Mr. Wm. Cox were visitors in Moscow Wednesday.

Miss Marguerite Abell from Pullman is a guest of Mary Elizabeth Thompson this week.

Mr. and Mrs. MacPherson and sons were dinner guests Monday evening at the home of Mr. and Mrs. Percy Ware.

Mr. and Mrs. Marvin Long and Mr. and Mrs. Herman Schupfer left Sunday for a trip thru Yellowstone Park.

Mr. and Mrs. DeLong have moved into the house vacated by Rev. and Mrs. Franklin.

Mr. and Mrs. Emery are moving into their new home purchased from the Kneppers. They are making some changes in the interior of the house by the removal of partitions etc.

Mr. and Mrs. H. B. Thompson and family visited in Pullman Sunday.

Miss Marjorie Johnson from Clarkston is visiting the Misses Weaver at Lenore.

Mrs. Hugh S. Brown from Clarkston spent the week end with Mr. and Ms. J. F. Brown.

Mrs. Beardsley and children spent the evening Monday with Mr. and Mrs. J. F. Brown.

Mr. and Mrs. F. Ellis were in the Deary country on business Sunday.

Mr. and Mrs. Clarence Fry from Cedar Creek have taken Mrs. McDowell's house for the winter.

Mr. Edwin Hillerud of Troy and Miss Viola Gertje spent Sunday with Miss Gertje's folks at Southwick.

Howard and Bob Dammerell from Troy spent Sunday with home folks in Kendrick.

Miss Myrtle Gertje spent a few days this week with Mrs. Harry Flagg in Kendrick.

Mr. and Mrs. Kester Dammerell and children are visiting the Gardners at Kellogg.

Mr. Ernest Morgan from Lewiston is taking Mr. Delano's place in the store during his absence.

Mr. and Mrs. Ed Long and Mr. and Mrs. Sylvie Cook picnicked in the park with the Misses Weaver from Lenore Tuesday evening.

Mr. and Mrs. James Nesbit and son from Moscow were visiting home folks in Kendrick Sunday.

Miss Winifred Davidson is in Genesee for a short visit with friends.

Mrs. Wm. Watts and children and Miss Riela Davidson were visitors at the home of Mrs. Harry Bensecoter Wednesday.

Mrs. Walter Bensecoter and family are staying with Mr. and Mrs. Frank Bensecoter.

GENERAL NEWS SUMMARIZED FOR OUR BUSY READERS

President Hoover was 55 years old last Saturday, August 10. He celebrated, with his family, at Madison, Virginia, amid the Blue Ridge mountains.

The great air liner, Graf Zeppelin, travelled from Lakehurst, N. J., to Friedrichshafen, Germany, in 55 hours and 24 minutes, arriving Saturday afternoon. This is the first lap in a globe-circling flight.

The United States Treasury surplus at the close of the fiscal year ending June 30, 1929 amounted to \$185,000,000 against an estimated surplus of \$37,000,000.—The Tax Digest.

A Soviet airplane, "Land of the Soviet" has started on a flight from Moscow, Russia, to New York City.

A botanical expedition from the Field museum, Chicago, into the depths of the Amazon country, discovered trees which produce lard, new medicines from plants, and poisons that are deadly to fish.

The "association against the prohibition amendment" has made public a pamphlet in which they try to prove large increases in drunkenness, in deaths from alcoholism, and in alcoholic insanity. They argue that the illicit liquor trade has mounted rapidly till in 1928, "261611 pieces of distilling apparatus were seized" by the government.

A nation-wide fruit and vegetable growers co-operative organization has just been formed with headquarters in New York. It seeks to work in harmony with the policies of the federal farm board, and to secure for fruit and vegetable growers, all the benefits possible from the agricultural marketing act.

A world advertising congress is now meeting in Berlin, Germany. Of the 5,000 delegates, 1,000 are from the United States. Speakers may address the congress in English, French or German.

General de Rivera, for seven years military dictator of Spain, will soon step aside, and Spain will enter upon a new period of constitutional government.

An automobile 28 years old is still being run, at Everett, Washington.

The state of Washington produces more lumber, apples and raspberries than any other state, according to a recent report.

President Hoover will suspend construction of new cruisers in the hope of entering into a new agreement with Great Britain to reduce the two great navies.

HE'D WAIT A WHILE

A negro called at the hospital and said: "I called to see how mah fren' Joe Brown was gettin' along."

The nurse said: "Why, he's getting along fine; he's convalescing now."

"Well," said the darkey, "I'll just sit down and wait till he's through."

There are two sides to every story—and a lot of them should be turned.

THIRTEEN BILLIONS FOR CRIME

Crime, according to Wade Ellis of the American Bar Association's Crime Commission, costs the United States \$13,000,000,000 a year.

We have 12,000 murders annually, 50 times the number recorded in Great Britain. Since 1900 our murder rate has increased 50 percent.

The causes of crime are many and foremost among them Mr. Ellis places our multiplicity of laws which, by simple mathematics, has increased the total of crimes. Every new law breeds new criminals, decreases respect for society and places new burdens on our courts of justice.

It is a disheartening fact that the great majority of our citizens take crime more or less as a matter of course. What is needed is an active public consciousness that will force a simplification and reform of our laws and legal system, and oppose the tendency to pile more enactments on the already bulging statute books. Too many laws touch the good citizen and fail to discomfort the criminal.

The sole test for any law is whether it protects society and punishes or reforms the underworld. We must return to first principles in our war against crime.

THE COUNTRY WEEKLY

As an advertising force, the country weekly is regarded by many prominent manufacturers as the leading medium in America. Although there are still many who have not discovered its possibilities, it does hold a unique position among periodicals. A writer has listed a number of the advantages of the community paper. His points follow:

"At one sitting the average reader scans all the pages of the local paper. No other publication has all its pages read as carefully by so large a percentage of its readers.

"There is no publication that reaches so many families in a given trade territory as does the local paper. No other is read by as many people for each subscriber. The whole family reads it.

"An advertisement in the local paper backs up the sales effort of the local retailer far more effectively than any other medium."

For these reasons the country weekly is able to serve, not only the advertisers, but every worthy cause for the betterment of the entire county.

NOTICE TO BAND MEMBERS

All members of the Kendrick Band are requested to arrange to be present for rehearsal Monday evening August 26th. Owing to the act that so many members have been busy and out of town, it was considered best not to attempt rehearsals the past month. However we want to play a few fall concerts and everybody is urged to make it special point to be present for rehearsals. We have a lot of new music to work over and that will interest you.

It is our understanding that there are several people in the community who have signified a desire to start in with the band and to these we will say that we certainly want you. We have had a very successful year and we are in hopes that we can make the band bigger and better. If you will see me, I will be glad to arrange so you can secure an instrument at the lowest prices. To get you started right, I will be glad to give you private instruction without charge.—A. K. Carlson, Band Leader.

Valet—Boss. It don't seem like I can git dis spot out'a youah white trousers.

Boss—Have you tried ammonia?

Valet—Yas sah, boss, and dey's a perfie' fit.

Puritans Disliked Maypole

The Puritans did not like the Maypoles. Indeed they expressed their solves quite forcibly about them in good old English fashion, calling them "those stinking idols about which the people leape and dance as the heathen did." Leap and dance they did in New England and we are told that they seemed to pour sunshine over the land's rugged hills as they later scattered flower seed throughout the soil.
