Neighbors Go To Lewiston

A large delegation of the Neighbors of Woodcraft will journey to Lewiston this (Friday) evening to attend initiatory ceremonies of the lodge there, when the Clarkston lodge will be the hostess.

Minnie Hiner of Portland, grand guardian of the order, will be in attendance and will deliver an address after the lodge session, to which the general public is invited.

BRIDGES BE PAINTED—ROAD WORK BEING DONE

The commissioners of the Kendrick and Leland highway districts have signed a contract with Jas. Kenyon of Lewiston for the painting of the Walsler gulch and the Sperry grade bridges, the districts dividing the cost of the work. The bridges are to be sand-blasted and given two coats of paint, at a cost of \$480 for the two.

The commissioners of the Kendrick highway district have let the contract for the crushing of 1300 yards of rock to be used on the road between here and the Cedar creek Good Roads district, up Potlatch creek. The crusher will be set up just above the Pine creek school house.

The commissioners of the Leland district have been having the Sperry grade blasted down, just above the bridge, making the roadway wider and eliminating a rather slanting and dangerous place in the road.

The Clearwater district is likewise doing considerable road work near their Albright place, on the Juliaetta-Arrow road.

It is to be hoped that some of these fine days Kendrick will have a good road both up and down the canyon and that we will be able to build necessary farm-to-market roads so that the farmers can get into town without losing their teams or wagons on the road and having to dig them out.

Miss Stump a Bride

Word has been received here of the marriage on April 6, in Tucson, Arizona, of Miss Pearl Stump, formerly of this community, to Charles F. Emler of Denver, Colorado.

Mrs. Emler is the daughter of Mr. and Mrs. W. H. Stump, formerly of this place. She is a graduate of the Lewiston High school and attended Lewiston Normal. She is also a graduate of the Schultz Beauty school in Spokane and has been employed for the past six months as a cosmetologist at the DeLuxe Beauty Shoppe in Tucson.

Mr. Emler is a graduate of the Davenport, Iowa, High school and a graduate of Iowa State University. He is now with the Burger Supply house in Denver.

Mr. and Mrs. Emler will make their home in Denver, Colorado.

Town Ball Team Visits Southwick

The Kendrick ball team went to Southwick Sunday afternoon for a try-out game with the Southwick boys—and they found all the practice they wanted for the Southwickers kept "the bacon" right at home by a score of 8-10.

Those making the trip and taking part in the game were F. Glenn, C. Davis (c), C. Leavitt (p), Blum, Perryman, Eichner, Flaig, H. Perryman, DeLano. Subs were McDowell, Freytag, Foster, D. Glenn, Danmarrill, Blevins. Jack Travis of Southwick was umpire.

The boys are going to play all-home men and are going to run the game so as to get as much sport out of it as possible for as little expense as possible. The most you are asked to do right now is to attend the games. R. H. Ramey has been chosen manager.

The Southwick team will come to Kendrick next Sunday for a return game. The game will be called at 2:30—and you are asked to please be there at that time. The fee will be small and you will get your money's worth.

In Moscow Hospital

Ralph Woody has been in the Gritman hospital in Moscow for the past few days, suffering with an infected foot.

Picture Show To Open

After having been closed down for the past several weeks, the Kendrick picture show will open for business again with a picture depicting the "Great White North," which will be shown Friday and Saturday night's of this week.

OPINIONS OF OTHERS REGARDING NEW GYM

One of the main questions of conversation at the present time is about the building of the proposed new gymnasium. A call for a special election has been issued by the school board and the question will be settled on May 10.

In order that you may know just what your neighbor thinks of the question, we have undertaken to get the sentiment of the business men of Kendrick on the matter.

While we have not gotten all the business men of the town, those whose names appear here will give a general idea of the sentiment regarding the question.

We would like to have those whom we have not had an opportunity of seeing send in their ideas on the question. Not only those who reside here in town, but who reside within the school district. Just send in your communication and we will be glad to publish your views.

The following business men have expressed their opinions:

Frank Boyd—I am in favor of the proposition. The school surely needs a good gym and it would be a benefit alike to the school and public.

Paul Schulze—While I am not a taxpayer, I favor the gym. I would do so were I a heavy taxpayer. A gym would give the youngsters a place to go for recreation and keep them off the streets.

Dr. Field—I am in favor of a gym—placed anywhere down town. I am opposed to one being put on the hill.

W. J. Carroll—All schools should have a good gym. I am in favor of the proposition.

Martin Thomas—I do not want to be against anything that is for the benefit of the school, but I believe they should use caution and judgment at this time.

Geo. P. Barnum—Would like to see a good gym in town. Will give \$50 cash toward the building of one on the flat—but not a cent for one on the hill.

Wm. Watts—Am heartily in favor and it should be placed just west of the school building. The cost would be prohibitive to undertake to put it down town.

J. F. Brown—Haven't given it much thought. Want them to do what is best for the school.

Frank Crocker—Am not in favor of increasing the bonded indebtedness of the district at this time.

Marvin Long—Am heartily in favor of new gym. Should be put on schoolhouse grounds—only place for it.

B. F. Nesbit—Am in favor if they put it down town.

N. E. Walker—In favor of building new gym. Of necessity, if built, it must be put on the present school grounds.

S. Cook—Am in favor of gym. One is badly needed.

W. A. Perryman—Am in favor of building gym, if put down town. Am not in favor of putting it on the hill.

R. H. Pearson—Should have new gym and am in favor of putting it near the school house.

Thos. McDowell—Should call a mass meeting and talk the matter over first.

E. H. Emery—I think it is the only thing to do. It would help the school and the entire community. Should be put on the hill.

H. B. Thompson—Am in favor of the building of the new gym. Should be near the school house. We must be progressive.

M. O. Raby—Am in favor if it is put down town so it would be partially self-supporting, at least.

Jas. Emmett—Am not in favor of it, no matter where put.
E. A. Deobald—In favor of gym. Need one, no matter where put.
R. H. Ramey—In favor of proposition. Prefer that it be put so it can be used in connection with the school in place of putting it further away.
C. A. Oppenborn—Am in favor of building a new gym. The place for it is near the school.
If your name does not appear in the above list, please send in your approval or objection.

15 TO 19 YEARS DANGEROUS AGE FOR BOYS-GIRLS

Within the last few years, statistical and clinical research have brought to the attention of the general public the widespread prevalence of tuberculosis in young adults from 15 to 19 years of age. We have suddenly and uncomfortably forced to the realization that one of the most serious problems confronting the nation's health work today is tuberculosis in relation to Modern Youth.

For many years we have been congratulating ourselves that the tuberculosis death rate has been on the decline. In view of this shrinking rate, some may be prone to recline mentally, feeling that the danger of this disease is over so far as one's self or family is concerned.

However, recent findings also have shown that this decrease is not uniformly distributed among the age groups and between the sexes. Unfortunately the disease is not declining among the girls of the teen age in proportion to the general decrease. In some regions, twice as many girls as boys between the ages of 15 and 19 are dying from tuberculosis. In the United States registration area, we find that in 1926 a total of 4,748 young women between the ages of 15- and 19 died of this disease, as compared to 2,476 boys.

The causes for this wasting of young life may be attributed to several factors. Some authorities aver that the fast living of the present day has its many contributions. Certainly, lack of rest, faulty diet, and its reducing fads, scanty clothing and over-fatigue all exact their toll in the health of these young people.

The years from 15 to 19, have been termed the "Neglected Age." We are wondering who is committing this crime of "neglecting." Who is responsible for these tragedies? Does the problem exist in the home or in the school or in industry?

Whatever condition is at fault there is need for alertness in detecting tuberculosis in this and other age groups. Watch for the danger signs of tuberculosis which are: a continuing tired feeling; digestive disturbances; a persistent cough; loss of appetite and afternoon fever.

When one or several of these symptoms arise they are nature's warning signs of a condition which may not yet be dangerous but which calls for careful examination by a competent physician who alone can determine whether or not these symptoms are due to tuberculosis. A diagnosis of tuberculosis should alarm no one, for detected early and treated at once the disease is usually curable.

Improving Property

Most of the residents down at the lower end of Main street have bought large numbers of trees and shrubs and are improving their home property. Others are reseeding their lawns and generally improving their residence property, adding very materially to the appearance.

Some of those putting out new trees and shrubs are Dr. Field, W. J. Carroll, Tom Long, Marvin Long, H. B. Thompson, Ted Deobald, C. A. Oppenborn, Herman Schupfer and others down that way. They are to be complimented and commended for their civic pride.

George Leith has planted 22 locust trees along railroad street, extending from the street intersection on the west almost to the pump house. Mr. Leith likewise is to be commended for his enterprise. Within a few short years these trees will add much to the beauty of that street.

It has been mentioned that there are several parking strips in town that need attention quite badly.

Has Set Example

The Farmers Bank has set an example for the rest of the business houses along Main street by putting in place window boxes which are expected later to yield many beautiful blooms.

A Four-Team Ball League

According to information gleaned from the Lewiston Tribune a four-team baseball league will be formed by Potlatch, Lewiston, Pomeroy and Clarkston. A schedule of games has not yet been completed.

Mrs. N. B. Long Convalescing

Mrs. N. B. Long, who fractured some of her ribs and suffered bad bruises last week, when she sustained a bad fall, is now able to sit up part of the time.

A Double Wedding

A double wedding took place at Lewiston on Thursday, April 10, at the Nazarene church, when Bert Kloster and Miss Marnie Garner and Gus Granberg and Miss Nessie Roberts were united in marriage by Rev. Mr. Waltz, pastor of the Nazarene church in that city.

The wedding march was played by Mrs. Lester Roberts.

At the dinner served after the ceremony was a beautiful wedding cake, made by Mrs. Oscar Allen.

STATE OFFERS BOUNTY FOR MAGPIE-CROW EGGS

E. C. Collins, deputy game warden for this district, was in Kendrick Wednesday in line with his duties as warden. While in town he took up the question of putting on another drive this spring for the ridding of this section of magpies. He stated that the state game department has agreed to place a bounty of one cent for each magpie or crow egg or head brought in. In addition to this he stated that the Izak Walton League of Moscow would also put up a nice prize for the boy bringing in the largest number of eggs and heads.

While it was thought no action would be taken here this spring on account of the scarcity of the birds, Mr. Collins said it was the best thing to do—keep them out while we had them going.

He was not at liberty to state just what the prize would be from the Walton club, but intimated that it would be worth while for any boy to put forth his best efforts to earn it. More information will be given later regarding the matter.

The Constitution Afloat

The American frigate Constitution rides the waves again! The famous warship has been made over from a decaying hulk into a semblance of its gone glory. "Old Ironsides" is afloat because the children of the United States piled millions of pennies into a fund that grew to be \$4,000,000.

It was only right that hundreds of school children should have looked on as the Constitution sat again upon the water. Shades of the men who contributed to the forty-two victories achieved by the Constitution must rejoice that the old frigate has been resurrected from a grave in mud, that her dead spars and timbers have been replaced with new, that she is restored to seaworthiness, prime to move about the seven seas.

"Old Ironsides" dates from 1794 when President Washington signed the law authorizing her construction. She first tasted the sea October 21, 1797.

The restoring of the Constitution is an eloquent gesture. She will have no practical duty in the navy. Her usefulness is in summoning up scenes of years when battles on the high seas frequently developed into hand-to-hand death grapples. She was the pride and glory of the American navy in its earliest seasons. For years while the Constitution was the American flagship, pirates continued to infest the seas in parts of the world, and privateers were still legitimate.

"Old Ironsides" takes Americans back to the beginnings of their republic. She is emblematic of American skill, ingenuity and resourcefulness in building war vessels capable of defeating the proud men of war of other nations. Should the Constitution be sent on a tour of American ports, interest in the navy would be quickened. Sight of the old craft would stimulate thought of what a new-born nation achieved in defense of its rights.

Judge Mitcham Now 81

The following item is sent us from Tiger, Wash., now the home of Judge J. I. Mitcham, formerly a resident of Kendrick for thirty-seven years, will be read with pleasure by his many old-time friends:

"Judge J. I. Mitcham spent his eighty-first birthday anniversary last Monday, April 7, and had a real birthday party at the Coleman hotel. The Friendly Neighbor circle was well represented from Tiger with a few guests from Ione and Metaline. Mrs. A. K. Coleman served the dinner and birthday cake. The judge made a very interesting speech and thanked all for the many greetings, cards and useful presents which he received. There were fifteen guests present and the afternoon was spent in singing good old sacred and patriotic songs.

Mrs. Mary Wilkins of Metaline, Mr. Mitcham's daughter, assisted in the program.

WHEAT BARELY STEADY—FEED GRAINS LOWER

Domestic wheat markets held barely steady during the week ending April 12, with the influence of less favorable prospects for winter wheat offset by that of large, North American stocks and continued small takings by European and Oriental buyers, according to the Weekly Grain Market Review of the United States bureau of agricultural economics. Demand for feed grains continued of good volume but offerings were heavier and the market weakened. The lack of export inquiry for rye caused continued dullness in the market for that grain. The flax market was weak in spite of the small supplies of domestic grain.

Crop conditions are becoming an increasingly important factor in the wheat market. The need of moisture in the southwest has caused considerable deterioration of the crop in Oklahoma and has injured wheat over the western half of the southeastern part of Kansas. Some deterioration from dryness is also reported from the western Ohio valley. The condition of the winter wheat crop at the first of April was officially reported at 77.4% of normal compared with 82.7% last year and 80.9% for the ten-year average for that date. This condition suggests a possible abandonment close to the usual average of 11.8% of the acre sown last fall.

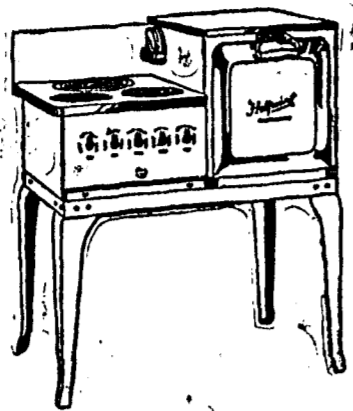

The condition of the crop in the Plains states as a whole was about average but conditions were below average in the Ohio and upper Mississippi valley in all states except Kentucky and Pennsylvania. In the Rocky mountain and Pacific coast states conditions were below average, particularly in Washington. The April 1 condition would indicate a total winter wheat crop around 25,000,000 to 30,000,000 bushels smaller than the 1929 crop, with the reduction principally in soft winter and white wheats. Seeding conditions in the American Northwest are favorable with moisture adequate, according to trade reports. Seeding is now general throughout South Dakota and southern Minnesota. Reports from Canada indicate a dry top soil with some deficiency in sub-soil moisture. Seeding is being delayed in parts of the prairie provinces because of the lack of moisture, according to trade advices. The condition of the crop in most European producing areas is reported generally favorable. There were heavy snows in central Russia during the week, but seeding is in progress in the southern Balkan States. Sprink-like weather prevails in France and new crop prospects are favorable in Germany.

While world supplies of wheat are probably 100,000,000 to 125,000,000 bushels smaller than a year ago, market stocks are still large and are the principal depressing influence in the wheat market. According to the Canadian official estimate, supplies of wheat in Canada total 228,837,000 bushels, or 17,000,000 bushels less than a year ago. United States stocks of wheat however, are 25,000,000 to 30,000,000 bushels larger than at this time last season, based upon latest trade and official estimates, so that North American supplies are probably 10,000,000 bushels larger than the large amount remaining at the corresponding time last year. Southern Hemisphere supplies, however, are only about one-half as large as a year ago, with 100,000,000 to 110,000,000 bushels yet available for export from Argentina and Australia, according to official estimates.

Stocks on ocean passage are less than half as large as at this time last season, and totaled only 33,800,000 bushels, compared with 69,600,000 bushels a year ago. The first estimate of the Indian wheat crop in the Punjab is 146,422,000 bushels, compared with the final estimate for that area last season of 127,792,000 bushels. The Punjab includes over one-third of the total Indian wheat acreage. The indicated production this season, while larger than last year's crop, is not likely to provide any material amount for export. European supplies are diminishing but France is still offering wheat for export, and tariff and milling regulations are being maintained in Germany, Italy and Spain, to increase the use of native bread grains and to restrict the importation of foreign wheats. Shipments from the southern hemisphere during the week totaled approximately 5,000,000 bushels, principally from Argentina. Over 1,000,000 bush-

A field meet will be held May 25 on the Southwick high school field. Practically all schools on Potlatch ridge will meet at Southwick on that date to participate in the numerous events scheduled for the day. Among the schools expected are Leland, Cameron, Fairview, Gryndolds, Crescent, Cedar Ridge, Stonypoint, Gold Hill, Cavendish, Teakin, Cream Ridge, the Betts school and the Welkers school.

Besides the numerous track and field events to be held, a ball game is scheduled between the Leland and Southwick high schools. The events of the day will be closed with all enjoying a big dinner. At 7 p. m. the pupils and adults will see the play, "Wrecking Robert's Budget," to be given by the Southwick High school.

Work from each school will be displayed in the gymnasium during the day. The display will represent the

fine effort of the various pupils that have put forth extra effort to make things worth-while.

Mr. Trail and Mr. Cook visited the Leland, Cameron, Fairview and Stonypoint schools April 15. They report very favorably about the schools visited. School spirit, co-operation and type of work being done is very commendable.

L. J. Southwick attended assembly at the high school last week. Mr. Southwick showed a very marked interest in the spirit of the assembly and enjoyed the time spent there very much.

The high school unfurled their banner and took leave for a sneak on April 10. Seemingly every one had a good time but apparently were glad to get home at the end of a very perfect day.

Southwick High school ball team played Kendrick high school April 11. The Kendrick team took away the honors but on April 18 the South-

wick boys are determined to reverse the outcome.

State eighth grade examinations were given at the high school April 11 and 12.

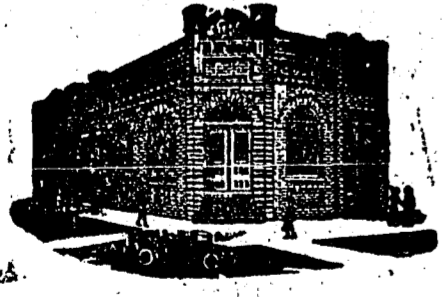

Southwick grade school will take an active part in the county track meet and declamatory contest to be held at Cuddebec May 2 and 3.

Traffic Cop Chases Studebaker

According to F. Neely & Sons, Studebaker dealers at Moscow, B. M. Chavez, traffic officer at Santa Fe, New Mexico, is famed in his home town for his uncanny ability to spot and catch auto thieves. During five years in office, he has recovered nearly 100 out-of-town stolen cars, representing upward of \$200,000 worth of automobiles.

One day Chavez stopped A. W. Wilson, of Wilson & Alexander, Inc., Studebaker distributors at Santa Fe, for speeding. The incident left no impression on the cop until on two subsequent occasions he was forced to tag Wilson for the same offense.

By this time Chavez's personal interest had switched from the man to the car in spite of himself. Marveling at the rocket-like speed and snappy pickup of the Studebaker, the officer decided to investigate, tried the car out for himself and finally purchased a Studebaker roadster for use in chasing auto thieves.

"When I get my Commander on the trail of a stolen car, that automobile just can't get away," is how Chavez explains it. The acquisition of the Commander has materially ameliorated the dangers attendant upon Chavez's work, for the life of a traffic cop is by no means a sinicure.

els were shipped from Russia, but taking of North American wheat continued of relatively small volume. The quality of the Canadian wheat remaining for market is unusually high, and this may be a factor in the market when the European wheat buyers turn more to North American wheat. Inspections of Canadian wheat from August through February have shown 86 1/2 per cent grading 3 or better as against only 33 per cent for the corresponding period of last year.

Domestic cash wheat markets held about unchanged, with milling demand fairly active and offerings of only moderate volume. No. 1 Northern spring, 12 per cent protein, was quoted at Minneapolis April 11 at the May price of \$1.11 1/2 to 2c over and 14 per cent 2c to 6c over the May price. No. 1 dark northern was quoted at Duluth at \$1.11 1/2 to \$1.18 1/2. No. 1 Northern at \$1.09 1/2 to \$1.07 1/2. The first boat for shipment down the lakes was loaded during the week. Lake navigation is expected to open about April 25. Durum wheat markets fluctuated somewhat during the week. There was a fair domestic inquiry for good milling qualities, but export demand was lacking. May durum wheat closed on April 11 at Duluth at 98 1/2c, with No. 1 amber quoted slightly higher. The Winnipeg market was relatively firmer than domestic wheat markets, reflecting the unfavorable conditions for spring seeding in that country.

No. 1 Manitoba Northern was quoted at Winnipeg April 11 at \$1.14 1/2.

Cash prices were relatively higher than futures in the principal hard winter wheat markets, under an active demand from mills and shippers for the relatively light offerings. Local mills were taking the heavy test weight wheat at Kansas City to blend with supplies of high protein lighter weight grain. Elevator stocks in that market are at a record for this time of year, with the out-movement very light. No. 2 hard winter, ordinary protein, was quoted April 11 at \$1.07 1/2, with 12 per cent protein bringing a 1c premium, and 13 per cent protein a 2c premium over these quotations. Receipts of country wheat were slightly higher at Omaha, where mills were taking most of the arrivals. The wheat crop was making favorable progress in Colorado, with the seeding of the spring crop practically completed. No. 2 hard winter was quoted in that market at 84c to 94c and No. 2 northern spring at 83c to 93c per bushel. A good domestic demand prevailed at Fort Worth where offerings were light and mostly out of storage. No. 1 hard winter at Galveston was quoted April \$1.18 basis, delivered. Export bids were still below a working basis. Soft winter wheat prices were reported unchanged to slightly lower, with demand confined to current requirements of local and southeastern mills. No. 2 soft red winter was quoted at St. Louis at \$1.19 to \$1.20, at Cincinnati at \$1.17 1/2 to \$1.18 and at Milwaukee at \$1.18 to \$1.19 per bushel.

Pacific Coast markets were mostly lower, although light offerings and small local supplies in California caused some advance in prices at San Francisco. Cash prices were 2c to 3c lower at Portland, where No. 1 Big Bend Bluestem hard white was quoted at \$1.21 per bushel. No. 1 soft and western white wheats were quoted at \$1.10 and No. 1 hard winter, northern spring and western red at \$1.08 per bushel.

No. 1 dark northern spring in bulk from Montana was quoted at \$1.21, with No. 1 dark hard winter quoted at \$1.18 per bushel. Milling Bluestem was quoted at Seattle at \$1.26, with red and white wheats selling at \$1.13 per bushel, sacked, 14 per cent protein dark northern spring was quoted in that market at \$1.19 per bushel in bulk. Demand for wheat in the Pacific Northwest markets continued inactive, with exporters reported unable to effect sales either of wheat or flour to the Orient or Europe. Exports from Columbia river and Puget Sound ports for March totaled only 2,673,000 bushels, compared with 4,621,000 bushels a year ago. Farm stocks are relatively large but grow-

ers were not offering freely at current quotations, influenced probably by the unfavorable crop prospects for winter wheat in that area.

The San Francisco wheat market strengthened slightly and prices advanced 2 1/2c to 4c per 100 during the week. Farm and market stocks are light and were not being pressed for sale. Mills were actively in the market for good milling wheat and purchased considerably at interior points. Mills also took considerable amounts of northern and inter-mountain wheat for blending purposes. Demand for feed wheat continued active from interior dealers and poultry feeders. Stocks of wheat in the bay region totaled approximately 19,500 tons at the first of April, or about 7,500 tons less than a year ago according to the trade estimates. No. 1 hard white and No. 2 soft white wheats were quoted April 11 at San Francisco at \$2.05 to \$2.12 per 100. Calcutta grain bags for June and July shipment were quoted at 87-8c, and advance of 1/4c for the week.

The Los Angeles market weakened slightly as a result of increased receipts, consisting of shipments from the Pacific Northwest and the Inter-mountain states. There was also an increased movement from northern California to the Los Angeles market. Big Bend bluestem hard white was being offered at the close of the week at \$2.22 1/2 per 100, with No. 2 hard white quoted at the same price and No. 2 soft white at \$2.20 per 100.

The oats market was weak, influenced principally by the decline in corn prices. Receipts at the principal markets were slightly larger but demand was of moderate volume and offerings were well taken. No. 3 white oats were selling April 11 at Chicago at 44 1/2c, at Minneapolis at 40 1/2c to 41 1/2c and at Kansas City at 45 1/2c per bushel. No. 2 Red oats were quoted at Fort Worth at 58 to 59c per bushel delivered Texas common points.

Honorary Degree for Mr. Burns

The following item regarding Rev. John S. Burns, a former resident of this section, and who received his early education in the Kendrick public school, will be interesting and good news to his many former friends here: The Rev. John S. Burns will be made a Doctor of Divinity by Hanover college, at Hanover, Indiana. Mr. Burns recently received word that the trustees of that venerable institution have voted to confer this notable honorary degree upon him. The trustees asked Mr. Burns to be there in person if possible on June 9 to receive this honor. Mr. Burns will also receive the degree of Doctor of Theology from the Iliiff School of Theology in Denver this spring. Mr. Burns has been attending the Iliiff School of Theology for a year. The degree of Doctor of Theology must be earned by scholastic work, and the degree of Doctor of Divinity is conferred by educational institutions for notable achievements in a given field. Both the Rev. and Mrs. John S. Burns are graduates of Hanover, Mr. Burns in 1909 and Mrs. Burns in 1908.

John Deere-Syracuse Spring-Tooth Harrow

An All-Around Harrow that Does Better Work

In any soil—weedy, hard or rocky—you will do a better job of killing weeds and mulching with the John Deere-Syracuse Spring-Tooth Harrow.

Its carbon steel teeth, penetrate to a greater depth than any other type of harrow teeth. They tear out the weeds and leave the field smooth and well mulched. The teeth are clipped to the frame—no bolt holes to weaken them.

Its frame is built so that weeds and trash work out through the openings between the frames—it will not clog. It is ideal for any job where a harrow is used.

We can furnish any number of sections you desire; also tractor hitch if you want it.

The Oriel Dumbauld home, overlooking Juliaetta, was the scene of a most enjoyable surprise party this afternoon, the occasion being Mrs. Dumbauld's birthday anniversary. Twenty guests were present, most of whom were pioneers of this community. The Dumbaulds have made their home in or near Juliaetta for forty-two years. One guest, C. W. Jessup, has been a resident of this section for forty-six years.

The afternoon was most enjoyable. An impromptu program was given, including the singing of old songs and the "speaking of first pieces" by each guest. Some of these old time recitations were near-classical gems and lost none of their effectiveness when rendered, bashful-schoolboy style, by white-haired pioneers.

Mr. Dumbauld, who is unusually successful in the chicken business, escorted the guests to his brooder house, which has been occupied for a few days by 500 tiny chicks.

Most pleasant and delicious was the luncheon served. Mrs. Dumbauld was presented with a genuine and complete birthday cake. Before departing the guests repeated in concert the "Birthday Verse," which has become an institution in Juliaetta.

Those present were Mr. and Mrs. Oriel Dumbauld, Mr. and Mrs. D. A. Bishop, Mr. and Mrs. C. W. Jessup, Mesdames E. Buchanan, Lulu Buchanan, Wm. Baune, Art. Perryman, Ed. Taylor, Walter Cochran, Tom Stinson, Trenary, Robinson, Greene, Miller and Donald, and Dorothy Miller and Mr. Goodwin of Silo, B. C., who is a guest of Mr. and Mrs. Bishop.

Once a writer wrote "by bounds and leaps," instead of "leaps and bounds," and gave several readers palpitation of the heart.—St. Louis Globe-Democrat.

Kendrick Hardware Has New Dress

The interior of the Kendrick Hardware store has been partially worked over by the dismantling of the high shelving on the west side of the room and the giving of the remainder of the shelving and cabinets on that side a new coat of orange and black paint, adding very materially to the appearance of the room. Mr. Thomas' stock of hardware began to arrive this week and is being put in place as rapidly as possible. He expects to put in a complete stock of shelf hardware.
