OFFICIAL PAPER OF LATAH COUNTY

VOLUME XXXX

KENDRICK, LATAH COUNTY, IDAHO, FRIDAY, MAY 23, 1930

NO. 21

LATAH COUNTY RECORDS FILED DURING PAST WEEK

The following records have been filed in the office of Harry A. Thatcher, county recorder, during the week ending May 20:

Deeds
Independent Meat Co. to Birkmaier Meat Co., dated May 3, 1930; \$10.00; lot 6; E 15 feet lot 7, block 1, Original Kendrick.

W. D.—Carstens Packing Company to M. O. Raby, dated April 19, 1930; \$10.00; lot 6; E. 15 feet lot 7, block 1, Original Kendrick.

E. D.—John Lienhard, Executor of the Estate of H. L. Hawkins, deceased, to R. H. Thrasher, dated on March 28, 1930; \$990.00; tract 25 ft. E. of SW corner NW $\frac{1}{4}$ NW $\frac{1}{4}$ 10-41-4; tract 25 feet E. and 46 feet S. of SW corner NW $\frac{1}{4}$ NW $\frac{1}{4}$ 10-41-4 W. B. M.

John L. Cook et ux Emma M. to H. J. Schoeffler et ux Ella P., dated May 14, 1930; \$1.00; NW $\frac{1}{4}$ NW $\frac{1}{4}$ 28; N $\frac{1}{2}$ N $\frac{1}{2}$; SE $\frac{1}{4}$ NE $\frac{1}{4}$ 29-41-5 W. B. M.

W. D.—J. B. Brody et ux Harriet C. to H. S. Ruddack, dated May 8, 1930; \$1.00; $\frac{1}{2}$ interest in E. 62 feet lots 7 and 8, block 2, Original Moscow.

W. D.—George M. Dietrich et ux Lottie A., to Alfred S. St. Mitchell \$1.00; NE $\frac{1}{4}$ NW $\frac{1}{4}$ 19-40-1 W. B. M. et ux Hazel V., dated May 1, 1930; S. D.—State of Idaho to Frank L. Leonard, dated Jan. 30, 1930; \$520; NW $\frac{1}{4}$ SE $\frac{1}{4}$ 16-43-5 W. B. M.

S. D.—State of Idaho to Frank L. Leonard, dated Jan. 30, 1930; \$480.00; SW $\frac{1}{4}$ NE $\frac{1}{4}$ 16-43-5 W. B. M.

W. D.—Albert Gerber et ux Sadie A., and Fred Gerber to Harry H. Carlson, dated May 13, 1930; \$1.00; S $\frac{1}{2}$ NE $\frac{1}{4}$; NW $\frac{1}{4}$ SE $\frac{1}{4}$ 3-40-5 W. B. M.

W. D.—Mary F. Sheerer to J. F. Nesbit, dated May 21, 1923; \$950.00; lot 20; S 1-3 lot 21, block 6, Lieualen's 4th addition to Moscow.

Mortgages
Isaac M. Fowler et ux Nora E. to First Trust & Savings Bank, dated May 14, 1930; \$1500.00; due five years; lots 7, 8, 9, block 16, Sunny-side addition to Moscow.

Joseph S. Kambitsch et ux Laura to Matt Kambitsch, dated May 12, 1930; \$10,376.00; due —; SW $\frac{1}{4}$ 32-38-5, and tract at NW corner 5-37-5 containing 71.38 acres.

Joseph S. Kambitsch et ux Laura to Matt Kambitsch, dated May 12, 1930; \$13,861.00; due —; NE $\frac{1}{4}$ NW $\frac{1}{4}$; W $\frac{1}{2}$ NW $\frac{1}{4}$; W $\frac{1}{2}$ SW $\frac{1}{4}$ 5; SE $\frac{1}{4}$ SE $\frac{1}{4}$; N $\frac{1}{2}$ SE $\frac{1}{4}$; E $\frac{1}{2}$ E $\frac{1}{4}$ 6-37-5 W. B. M., less 71.38 acres.

Homer E. Estes et ux Ettie to First Trust & Savings Bank, dated April 3, 1930; \$1200.00; due April 3, 1933; 15 acres 330 feet N. of SW corner SE $\frac{1}{4}$ SE $\frac{1}{4}$ 5-39-5 W. B. M.

Crop and Chattel
J. V. Katzenberger to Potlatch Lumber Company, Inc., dated May 8, 1930; \$91.64; due Sept. 1, 1930; 3 horses; farm machinery; $\frac{7}{8}$ acres of timothy hay on N $\frac{1}{2}$ SW $\frac{1}{4}$ 31-42-4.

Conditional Sale Contracts
Weber Showcase & Fixture Co., Inc. to Neal E. Holm, dated May 7, 1930 \$1350.52; due \$40.65 each and every month; complete soda fountain equipment.

Releases
Mrs. Frank M. Johnson to Joseph E. Blacklock, dated May 14, 1930; R. E. mortgage dated Dec. 4, 1926.

Theo. J. Schaaf to Harry Gillett, dated May 16, 1930; conditional sale contract dated May 13, 1929.

Homer E. Estes to Zena White et ux Maggie, dated May 14, 1930; R. E. mortgage dated April 3, 1926.

Andrew Mortenson to Sanitary Grocery, dated May 17, 1930; chattel dated Nov. 26, 1929.

Nile Bjorkland to John W. Sharp et ux Aquilla, dated May 17, 1930; R. E. mortgage dated May 16, 1926.

Sherman Clay & Co. to Emanuel Flaig, dated May 17, 1930; conditional sale contract dated Aug. 14, 1926.

L. L. Gosselin to Abner H. Reames et ux Mabel L., dated May 13, 1930; R. E. mortgage dated Nov. 15, 1926.

National Cash Register Company to Emma Coble, dated April 27, 1930; conditional sale contract dated Nov. 4, 1927.

Right of Way Easement
Frank Benschoter et ux Josephine to Washington Water Pever Company, dated April 16, 1930; \$1.00; electric transmission line across N $\frac{1}{2}$ NW $\frac{1}{4}$ 16-38-3.

Supplemental Incorporation Articles
Cle Elum Meat Company to The Public, dated Feb. 1925; incorporators W. G. Birkmaier and O. F. Kuhl.

(Continued on Inside)

Mrs. Jones Surprised

A very pleasant no host or hostess bridge party was given at the W. L. McCreary home Tuesday evening in honor of Mrs. W. C. Jones, who will leave Monday for a visit with her parents at Grinnell, Iowa.

The party was made up of Mr. and Mrs. W. C. Jones, Mr. and Mrs. W. J. Carrol, Mr. and Mrs. A. W. Behrens and Mr. and Mrs. McCreary. Mrs. Jones received several nice handkerchiefs as mementoes of the occasion.

MILK-GASOLINE MIXTURE AT LEWISTON

Sweet milk or buttermilk mixed with gasoline is rapidly gaining favor as a potent "liquor" among drinkers in Lewiston, it was revealed Monday by Prosecuting Attorney Ray E. Durham.

B. McDonald, now held in the county jail waiting investigation as to his sanity, is one of the victims of the powerful mixture and several other cases have been reported to the officers. McDonald, arrested Saturday, was still in such a condition Monday that he could not be brought up for hearing. His breath reeked with the odor of gasoline when he was arrested.

The cheapness of the "drink" is one appeal and its swift and sure kick is a second, one of the imbibers said. The milk serves as an antidote to the poisonous effects of the gasoline and the fumes bring intoxication after one or two drinks, Durham was told.

The hard liquor drinkers have resorted to varied and gruesome sources in Lewiston, but the milk-gasoline drink is the first of the kind reported here. Heretofore, moonshine, spirits of nitre, rubbing alcohol and denatured alcohol squeezed from the gelatine of canned heat have been the base for the more vicious drinks.

Maximum jail sentences and fines will be asked for those caught drinking the new milk-petrol concoction, Durham said. "And I hope for their own good that none of those drinking this poison will light a match or smoke," the prosecutor added.

Maggie Contest Going Good

Ten boys and one girl are quite busy these days gathering heads and a few remaining unhatched eggs of magpies and crows and 1334 of the trophies have been brought in to date—which represents quite a flock of these predatory birds that will not function this coming year.

The contestants and the number of heads and eggs they have brought in, are as follows:

Sherwin Schmidt	370
Fred Reid	307
Jas. Bolen	284
Edgar Heath	211
Bob Weyen	57
Edgar Davidson	50
Everlyn Plunker	22
Wayen Davis	15
Archie Sloan	8
Oscar Hartung	7
Harold Ellis	3

The contestants are now bringing in mostly heads of young birds as few unhatched eggs remain in the nests. No special time has been set for closing the contest, but contestants are advised to bring in their "finds" as fast as possible.

Two of the contestants are going to receive worth-while prizes, in addition to the one-cent a head or egg to be paid them by the state game department. Each one bringing in eggs or heads will be paid that amount, no matter whether they are at the top or bottom of the list, so it is really worth-while—and look at the fun you have doing it!

Making Good Progress

The contractors are making good progress with the graveling of the Cedar creek road, having spread some 400 yards of rock up to the first of this week. They have been putting it on at the rate of about 80 yards per day—and a right neat job they are doing, too.

Many Attend Cherry Blossom Fete

Kendrick and Juliaetta were well represented at the Cherry Blossom festival at Lewiston last Friday and Saturday. In fact, the towns were well-nigh deserted both days and a steady stream of cars might be seen on the road, going and coming.

Why not envy the Swiss people a little? They don't have to worry about any naval conference.

SAVE THE CHERRIES FROM MAGGOTS, SAYS WAKEFIELD

The following bit of information for cherry growers was sent out by Claude Wakefield, entomologist, University of Idaho, and should prove of interest to all who raise this variety of fruit:

"Will you have your cherries with or without worms?" "I'll have mine without, thanks." "Yes, we would all rather have our cherries without worms and it is now time for us to be thinking of keeping them out of this year's crop."

Maggots in cherries are produced by a two-winged fly a little smaller than a house fly, known as the cherry fruit fly. It is of a general black color with the margins of the thorax marked with yellow, white cross bands on the abdomen and with black bands on the wings.

Cherry fruit flies emerge from hibernation in the spring and feed a few days before beginning to lay eggs. In, or beneath the skin, the flies insert their eggs from which tiny maggots soon hatch and begin feeding within the cherries. Oftentimes no external injury to the fruit is apparent and maggots can be observed only by opening the fruit. Maggots feed within the fruit for 15 or 20 days, or longer in cool weather. They are white in color, without legs or an easily recognized head and when fully grown they are about three-eighths of an inch long. After reaching maturity, they drop to the ground and pupate just below the surface of the soil, where they remain until the following spring. There is but one generation each year.

Obviously maggots cannot be killed in the fruit with poisons but a weak point in the activity of the insect permits successful and economical control. Previous to the time adults deposit eggs they will feed freely on sweetened poisoned bait if it is placed where they have ready access to it. This bait kills them at the most important part of their life cycle—before maggots are produced to cause injury. The bait is prepared in the following proportions:

Lead arsenate	1 pound
Molasses or syrup	1 gallon
Water	20 gallons

Since the flies are attracted to the bait, only a small quantity of it, from a pint to a quart per tree—is needed. It is applied lightly to the tree as a medium fine spray. Application should be restricted to the foliage as much as possible and nearby shrubbery and trees should be sprayed also. Two or three sprays per season are necessary for dependable control. The first application should be made as soon as the fruit flies emerge, which is about or just preceding the time Royal Ann cherries begin to show color. Later sprays are at 10-day intervals.

4-H Boys Take Prize for Float

The "Fairpoint 4-H Calf Club" boys of Stonypoint and Fairview schools were fortunate enough to carry off a second prize of \$25 on their float in the Cherry Blossom Festival parade last Saturday at Lewiston.

The boys will use this money to help pay their expenses to "Club Week" at the University of Idaho in June.

The following seven boys are members of this club: Elmer Heimgartner, Roy Heimgartner, Donald Morgan, Harold Glenn, Gerald Hill, Orval Walker and Wilbur Heimgartner, with Lester Hill as their local leader.

New Telephone Directories

More than 500 new telephone directories were delivered to the local telephone company by the Gazette office last Monday evening and they were distributed the first of the week. The books are larger and so arranged as to be more comprehensive to the stranger than the old ones.

Commercial Club Meeting

Word was received Thursday morning by R. H. Ramey, president of the Kendrick Commercial club, that some ten entertainers from Moscow, accompanied by the U. of I. Pep band, will attend the meeting of the local Commercial club to be held in the Fraternal Temple on Thursday evening, May 29, at 6:30. Dinner will be served at that hour.

All members of the club are asked to please be present.

Reduced Rates Seattle-Tacoma

Local Agent Ramey advises there will be a \$7.00 coach rate to Seattle-Tacoma and return, May 29th, returning June 1st and 2nd. The same rules will govern these rates as in former years.

The small boy who used to balk at the garden in the spring has grown up now to be a tired business man who can't walk more than twenty miles a day over the golf course.

COTTONWOOD LOSES WAREHOUSE AND MILL

Whipped by a strong northwest wind, a small fire breaking out at 4 o'clock Saturday afternoon in the flouring mill in one end of the Farmers Union Warehouse & Elevator company plant at Cottonwood assumed furious proportions within a few minutes and at the end of two hours had destroyed the building, valued at \$38,000, the equipment of the mill worth from \$20,000 to \$25,000, burned three or four box cars standing on the railroad siding valued at \$2,100 each, damaged two others and played havoc with bulk and sacked grain valued at \$125,000 according to George W. Tarbet, manager of the company.

There is no way to make an accurate estimate of the loss on the grain, Tarbet said, although he admitted that 25,000 bushels of bulk grain was damaged to the extent that its commercial possibilities were lost while the covering of the sacked grain was burned and much of the balance was water soaked and affected with smoke and heat.

The fire burst out without warning while Tarbet was at work in the mill operating a chop machine. He believes it was caused by defective wiring or a short circuit.

When it was seen that it was impossible for the Cottonwood fire department to halt the flames an appeal for help was sent to Grangeville, Ferdinand and Craigmont. Fire trucks from these towns made the run to Cottonwood in fast time and aided the local firemen until the flames were brought under control.

The heat from the fire was so intense that the firemen had difficulty in fighting the blaze. An effort was made to move a string of freight cars on the warehouse siding but this was impossible on account of the heat. The cars were all empty. The rails of the Camas Prairie railway near the plant were warped by the heat, delaying the Grangeville-bound train from Lewiston one hour until the steel was repaired.

The loss to the Farmers Union Warehouse & Elevator company will run to approximately \$60,000, with \$15,000 insurance. The railroad company's loss is fully protected, while the grain loss is problematical as to coverage.

The warehouse and elevator was erected in 1910. It was 200 feet long and 60 feet wide and was modernly equipped. The elevator section was 100 feet in height and when this burned it made a fiery torch visible for miles.

Cottonwood is left with but one plant for the storage of its vast wheat crop, the warehouse operated by the Vollmer Clearwater company, south of the burned structure. The flouring mill had not been operated for five years. It was capable of producing 50 barrels daily, says the Lewiston Tribune.

Seven On Honor Roll

The Juliaetta High school students on the honor roll for the last six-weeks period are: Alice Harris, Elizabeth Whalen, Cleta Gallaher, Lawrence Heimgartner, Jeweldene Hutchinson, Xena Weatherby and Thelma Spray.

Addie Sams, seventh grade, had a perfect attendance record for the year. This makes five years of perfect attendance for her.

The primary and intermediate rooms enjoyed a picnic Thursday.

The high school and eighth grade played baseball with Spalding Friday.

Another Installment

Another installment of that "million-dollar rain" began falling Monday and continued long enough to wet things up in good shape. Now what we need is another one just like it about every two weeks or so until the wheat has been made and then we hope everything will go just right; that the price will go to a place where the farmer can get his money out of it.

Gold Hill Graduates Five

Graduation exercises were held in the Gold Hill community church last Sunday for the eighth grade graduating class of the Gold Hill school. The church was decorated with a profusion of flowers. Rev. Groth, pastor of the Methodist church at Kendrick, delivered a most appropriate address, using as his subject, "What Is Life?" and closing with the answer, "Life is what we make it."

D. Whybark, representing the school board, presented diplomas to the following graduates: Elsie Whybark, Clem Lyons, Elmer Cuddy, John Cuddy and Clarence Weaver.

As part of the program, Rev. and Mrs. Groth sang two duets which were greatly enjoyed by the audience.

Shipping Wheat

The Kendrick-Rochdale company has shipped in the neighborhood of 25 cars to wheat to Portland and Seattle during the past month for export.

The Vollmer Clearwater company has also shipped about the same number of cars of wheat, the total number of cars shipped for the two houses during the past two months is 67.

It is expected that this will about wind up the shipping for the present.

JULIAETTA TAKES GAME FROM KENDRICK SUNDAY

At Juliaetta last Sunday the Juliaetta ball team sprung a surprise on Kendrick, walking away with the score 10 to 9 in a game full of hard hitting and errors.

Kendrick started off with a one-run lead in the first inning, to have Juliaetta forge ahead with two runs in their half; then Kendrick forged ahead with two runs in the second, one run in the fourth, three in the fifth and one in the sixth, making the score 8 to 2 for Kendrick. Juliaetta put over one in the sixth, three in the seventh, two in the eighth and two in the ninth to put the game on ice. Kendrick came through with one more in the ninth, making the score 10 to 9 in favor of Juliaetta.

Kendrick missed their chance to win in the ninth with the score at 9 to 8 and two men down, when Glenn and Flaig ran together behind second base and dropped an easy fly.

Juliaetta plays at Kendrick next Sunday, May 25. This should be a good game. Everyone come.

Don't forget the Lapwai Indians play at Kendrick May 30—Decoration Day.

Following is a line-up of last Sunday's game:

Juliaetta	AB	H	R	E
K. Clark, ss	5	2	1	1
R. Bigger, lf	5	0	2	1
E. Millard, 3b	5	1	1	1
Wilcoxon, rf	5	0	2	0
C. Clark, lb	5	1	1	0
McCall, 2b	5	0	0	1
Combs, cf	5	1	2	1
C. Clark, c	5	0	0	0
Gruell, p	5	3	1	0
B. Glenn	0	0	0	0

B. Glenn for Bigger in sixth.
Kendrick— AB H R E
Flaig, ss 5 0 2 1
DeLano, lf 1 0 0 1
Carlson, lb 5 0 1 1
Dammarrell, p 5 3 0 0
Davis, c 5 1 0 1
Levit, 3b 5 1 3 1
H. Flaig, cf 5 1 1 0
C. Perryman, 2b 4 0 0 1
H. Perryman, rf 5 2 1 0
*Boyd 4 1 1 0
*Woody 1 0 0 0

45 9 9 6
*Boyd for DeLano in second.
*Woody for C. Perryman in ninth.

Local Berries On Market

Juliaetta strawberries were on the home market the first of this week and they looked and tasted mighty fine, too. From now on until after the melon crop is disposed of there will be something good to eat on the market that has been raised right here in the Potlatch valley—and there is none better, because it doesn't grow anywhere.

According to the Lewiston Tribune cherry picking started on a small scale in the Clarkston section this week and reports that they are ripening rapidly, while the later varieties will be on full blast by June 10. It is expected this fruit will also be ready in the Juliaetta district within a short time and it is predicted the quality will be extra fine this year if wet weather does not interfere.

Soft Winter Wheat

A firmer tone developed in the wheat market during the week ending May 17, largely as a result of less optimistic reports concerning the new winter wheat crop both in the United States and in Europe, and a better export inquiry for North American wheat, according to the weekly grain market review of the United States Bureau of Agricultural Economics. Feed grains were steady. Corn planting was retarded by rains and wet soil. Weather in many areas was too cool for best plant growth. Offerings of both corn and oats were smaller, but demand was active and prices were quoted slightly higher than a week ago. Barley held firm while rye and flax were higher with wheat.

Weather and crop conditions continued to be the dominating influence in the world wheat markets. Reports during the week were rather mixed. Domestic winter wheat was benefited by rains in the southwestern and western areas with some improvement in the south central states, but dry weather continued to retard development in some eastern sections of the belt. The crop is heading out as far north as central and south-eastern and south central Kansas, and is in the boot elsewhere except in the extreme northwestern part of the belt. The crop in Oklahoma is heading short with stands thin. The spring wheat made good progress with generally good stands and color with cool weather favorable for the stooping. A slight decrease in wheat acreage in the Canadian prairie provinces from the record of 24,297,000 acres harvested last season was indicated by a report to the Manitoba Free Press. About 95 per cent of the crop is seeded and 75 to 80 per cent is one to three inches tall and well rooted. Moisture conditions are more satisfactory than early reports indicated, but there is little reserve soil moisture in some areas, particularly in Alberta and good seasonal rains will be required for favorable crop growth.

European crop conditions continue generally good, although rumors of local damage are slightly more numerous than in recent weeks. The weather has been too wet recently in parts of Italy and France, but the rainfall has been beneficial in England and in Rumania, Hungary and other Balkan countries. Cool weather is retarding growth in Germany and Russia and in some areas of the latter country the weather has been too dry for normal development. The condition of the crop in Poland is much above average as compared with conditions below average a year ago. Austrian crops have improved materially and are better than last season. Preparations for seeding the new Argentine crop were interrupted by winds during the week, but conditions in Australia were favorable and a record acreage is in prospect according to trade reports.

Domestic cash wheat markets advanced 4c to 6c, influenced by the strength in futures, light current receipts and a generally good milling inquiry. Cash prices were up 5c to 6c per bushel at Kansas City at the close of the market May 16, with No. 2 hard winter, ordinary protein being quoted at 99c per bushel and higher protein wheat bringing 2c to 2 $\frac{1}{2}$ c premium over this price for each $\frac{1}{4}$ per cent protein. Demand was generally good from mills and shippers and outbound shipments were increased materially over the previous week. Elevator stocks were further reduced but still totaled about 21,000,000 bushels at the close of the week compared with about 16,500,000 bushels two years ago. Both local and outside mills were active buyers of wheat at Omaha where No. 2 hard winter, 11 $\frac{1}{2}$ per cent protein was quoted at 99c per bushel. Offerings at Fort Worth were light and almost entirely from local stocks. Demand was principally from mills. No. 1 hard winter, ordinary protein, was quoted in that market May 16 at \$1.15 $\frac{1}{2}$, with 13 per cent protein bringing about 1c premium over this price. No. 2 hard winter at Denver was quoted at 84c to 92c per bushel. Soft winter wheat was also sharply

ESTABLISHED 1890

141 NINTH ST. LEWISTON, IDAHO

PERSONALS

Chauncey Compton was a Troy visitor Saturday.

C. A. Oppenborn was a business visitor in Moscow Tuesday.

Mr. and Mrs. Thos. Blevins were Lewiston visitors on Saturday.

Mrs. E. H. Dammarell spent Friday in Troy visiting her daughter.

M. O. Raby was a Spokane business visitor the latter part of last week.

Mrs. T. A. Nelson was a passenger for Spokane Thursday last for a two-days stay.

E. S. Thornton of Cheney arrived Monday and is a guest at the A. E. Janes home.

Mrs. Lloyd Cook of Lenore visited her parents, Mr. and Mrs. Adolph Onstott, Friday.

Mrs. H. P. Hull went to Lewiston Monday to spend a few days at the Judge Needham home.

State Bank Examiner Horn and Mr. Mikelson were visitors at the Farmers Bank Tuesday.

Miss Mary Riley was a passenger for Troy Wednesday morning, returning in the afternoon.

Miss Josephine Deagen left Thursday for her home at Cloquet, Minn., where she will spend the summer with her parents.

H. B. Thompson drove to Colton, Wash., early Sunday morning for a short visit with his mother, who is quite ill at the home of her daughter there.

Miss Gertrude Sampson of Genesee was a Saturday night visitor at the W. L. McCreary home. Miss Sampson is assistant in the First Bank of Genesee.

Mr. and Mrs. Joe Rickert of Lewiston were visitors at the W. J. Carroll home Sunday evening. Mr. Rickert is connected with the First National Bank of Lewiston.

Mr. and Mrs. Frank Ellis returned last Friday from a several weeks' trip to Los Angeles and other California points. They did not think much of the Golden State as a place to live.

Mr. and Mrs. H. B. Thompson entertained Prof. and Mrs. C. M. Brewster and family and Prof. and Mrs. O. M. Norris and family of Pullman Sunday at dinner. Both the professors are connected with W. S. C.

Loose House By Fire

The home of Wm. Cornick and family was completely destroyed by fire last Friday morning about 1 o'clock. The origin of the fire is unknown.

LELAND NEWS NOTES

The Leland school closed on Friday of last week. On Thursday a field and community event was held at the Peters Grove. Track events and three ball games were the order of the day. The Midgets and Dwarfs, primary boys' teams, married ladies and girls and married men and boys made up the different teams. The boys and girls were too much for the married folks and a rather uneven score was the result. A large basket dinner was spread at noon and thoroughly enjoyed by all present.

Mrs. T. J. Flesman was a Lewiston visitor with friends and attended the Cherry Blossom festival Thursday. Grandma Powell of Clarkston is visiting with her daughter, Mrs. Ben Hoffman.

Several people off the ridge attended the Cherry Blossom festival at Lewiston, among them the Jesse and Ben-Hoffman families.

Mr. and Mrs. Haase have moved to Clarkston for the summer.

Edwin Easterbrook visited a short while here Saturday and Sunday, staying overnight with Homer Parks.

Mr. and Mrs. Chas. Hoffman and Mildred Craig were visitors Sunday afternoon at the Virgil Flesman home.

Mr. and Mrs. Clyde Daugherty and children spent Sunday afternoon and evening at the T. H. Daugherty home.

Mr. and Mrs. Raymond Easterbrook of Kellogg spent the week-end visiting Mrs. Easterbrook's parents, Mr. and Mrs. C. Craig.

Mr. and Mrs. G. W. Flesman and children and Mr. and Mrs. Robert Draper and children were Sunday afternoon and evening luncheon guests of Mr. and Mrs. V. Flesman.

Mr. and Mrs. Turnbaugh were Lewiston visitors on Friday afternoon.

L. L. Yenni and Wayne were Lewiston visitors on Saturday, Wayne to receive attention for his arm, which was broken some time ago.

Cora Blankenship is home after attending high school the past term in Lapwai.

Clyde McGee's of Clarkston are visiting at the A. H. Smith home.

CAVENDISH NEWS ITEMS

Mrs. S. A. Sutton, who has been ill for some time is slowly recovering.

Mitch Blackburn, Everett Blackburn, Charlie Pitcher, Vernon Akins and James McGuire took a fishing trip the latter part of last week.

Mr. and Mrs. W. A. Reece, Mrs. E. E. McGuire, Edna Daniels and Mrs. Lesco Reese went to Lewiston Saturday.

Vernon Akins, Everett Blackburn and James McGuire went to Lewiston Saturday, returning home Sunday.

Mr. and Mrs. Harry Brammer and Mr. and Mrs. George Wilkins and son Kenneth were visitors at the W. A. Reece home Sunday.

Mr. and Mrs. Arthur Sackett and children were visitors of Mr. and Mrs. Martin Sackett of Southwick Sunday.

Mrs. Lawny McGuire and children of Beaverton, Oregon, were visitors of relatives and friends here last week. They returned home Sunday.

Mrs. Pitcher of The Dallas, Oregon, is visiting with her son, Charles, for a few days.

Mrs. E. L. Pearson, who has been staying with her mother, Mrs. Sutton, has returned to her home at Southwick. Miss Marguerite Hund is going to stay with Mrs. Sutton until her recovery.

Ray King was a guest of Gladys Candler Sunday.

Miss Mabel Murray went to Lewiston Thursday to spend a few days with her cousin, Irene Guernsey.

A ten-pound boy was born to Mr. and Mrs. Ray Southwick, Monday, May 12.

Ivaley Blackburn and Margaret Vard received their grades from their state examinations Monday and both received high grades.

Went Fishing

Marvin Long and Ira Bolen went fishing last Sunday—they "got back" and that is all they did get, according to reports. Ira says there weren't any fish, but Marvin didn't even have an alibi of any sort. They went up on Cedar creek and then tried the Pottlach, but with equally disappointing luck. They claim to have had a very good time, anyway, and that helps some.

Are Improving

Raymond Lyons, who was taken to the Sacred Heart hospital, Spokane, last week, is said to be making satisfactory progress toward recovery.

Jeff Fowler, who has been quite ill with congestion of the lungs, is now on the road to recovery.

More Sheep Arrive

Eleven double-deck cars of sheep were unloaded here Wednesday, making a total of some 9,000 head in the two shipments that have been unloaded here within the past two weeks.

List Your Property at Gazette Office

There being no regular real estate agent in Kendrick and many having inquired at this office regarding property, we have decided to take listing of town property and farm lands for sale or rent and put buyer, seller or renter in touch with each other. There will be no charge for the listing or advertising, and in case a deal is made, the fee will be reasonable. We will not make out any papers, make loans or handle insurance. This service will be more for the convenience of those who want to get in touch to buy, sell, or rent than any other reason.

List your property here and we will see what we can do for you.

The Hotel Kendrick is a good place to eat and sleep, when you stay in town.

MARKET HAS FIRMER TONE - FEED GRAINS STEADY

higher with mills competing actively for the limited offerings. Stocks of soft winter wheat were running low and mills that have been grinding from stocks have been forced into the open market for supplies. No. 2 red winter sold at St. Louis at 10c to 12c over the Chicago July price or around \$1.17 to \$1.18 per bushel. Mill orders were materially larger at Cincinnati, where spot offerings remained small and buyers were mostly supplied from elevator stocks. No. 2 soft red winter was quoted in that market May 16 at \$1.13 1/2 to \$1.14. No. 2 soft winter was quoted at Kansas City at \$1.12 to \$1.14.

Premiums on cash grain were well maintained in the spring wheat markets with choice milling qualities in steady demand from mills. Arrivals at Minneapolis consisted of a relatively large percentage of winter wheat from other markets, which was going direct to mills. No. 1 dark northern, 12 per cent protein was quoted at 1c to 4c premium over the July price of \$1.06 May 16, while 13 per cent protein brought premiums of 4c to 6c, 14 per cent 5c to 7c premium and 15 per cent 6c to 8c premium over the July price. The protein of 504 cars tested during the week average 13.04 per cent. The Duluth market was firmer with No. 1 dark northern quoted May 16 at \$1.06 to \$1.14 and No. 1 northern at \$1.05 to \$1.12 per bushel. Durum wheat was relatively firmer than bread whites, influenced by a better export demand. July durum closed May 16 at Duluth at 98c per bushel with No. 1 amber quoted 96c to \$1.01. Canadian markets advanced about the same as domestic markets and No. 1 Manitoba Northern was quoted at Winnipeg at \$1.08 to \$1.09.

Pacific coast wheat markets failed to follow the advance at Eastern points, largely because of the slow export demand for wheat in that area. The advance in futures at Portland was only about half as large as at Chicago, and cash prices at the close of the market May 16 were only about 1c higher than a week ago. No. 1 Big Bend bluestem hard white was quoted at Portland at \$1.17 1/2, No. 1 soft and western white at \$1.05 and No. 1 hard winter, northern spring and western red at \$1.03 per bushel, all sacked. No. 1 dark northern spring from Montana was quoted at \$1.15 in bulk for 14 per cent protein and No. 1 dark hard winter at \$1.12. Small parcel sales totaling around 8,000 tons of white wheat were reported made to the United Kingdom during the week, but there were no sales to the Orient. Export flour business was of small volume, bids received being considerably under current quotations. Growers in that area were not offering freely, although winter wheat is now heading in milder districts and weather conditions continue favorable over much of the area. Some frost damage was reported in districts of eastern Washington.

California markets were rather weak and prices at San Francisco declined about 5c per 100 during the week ending May 16. Supplies of local wheat are small, but Northern wheat was being offered freely early in the week from Washington and Oregon at \$1.85 to \$1.90 per 100, sacked, delivered at San Francisco. These prices were advanced however to \$1.95 and \$1.97 1/2 toward the close of the week. Mill demand was of small volume and cheaper barley was restricting the inquiry for feed wheat. A wheat crop, around 1,500,000 bushels smaller than last season was indicated by the condition of the crop at the first of May. Cool weather is retarding growth and harvesting is expected to be a week or ten days later than last season. No. 1 soft white and No. 1 hard white wheats were quoted May 16 at San Francisco at \$1.95 to \$2.00 per 100.

Prices at Los Angeles were practically unchanged with No. 2 soft white quoted at \$2.00 to \$2.02 1/2 per 100, No. 2 hard white offered at \$2.05 to \$2.07 1/2 per 100. Arrivals were principally from the San Joaquin valley and were mostly of ordinary quality. A few cars of new wheat from the Imperial valley were received but these were not generally suitable for milling purposes.

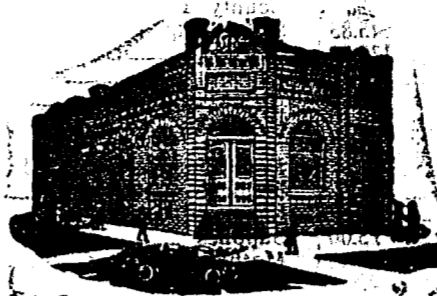

Note: A summary of market news on all agricultural products is broadcast daily at 12:30 noon and 6:45 p. m. from radio station KOAC at Carvallis, Oregon, on a frequency of 550 kilocycles. These broadcasts include daily northwestern and eastern grain market information; also various weekly and seasonal summaries, foreign markets and general agricultural information.

Split Pea Soup Is Great

Favorite on Big Liners

If you were fortunate enough to make an ocean voyage this past summer you probably enjoyed pea soup many times, for it is a great favorite on ocean liners. The same reason for having it often on the sea holds good for the household, namely, that dried split peas can be stored easily and for a considerable length of time, so that the principal ingredients for making this delicious soup may always be kept on hand. In case you have never tried to make pea soup, here is a recipe from the bureau of home economics. Note that the soup must be begun the night before it is wanted, by soaking the peas. The final touch—a thin slice of lemon covered with chopped parsley on each plate as it goes to the table, is a suggestion that can be applied to a number of other soups and which adds to the flavor to make them tasty.

Split Pea Soup.
1 cups green split peas, 1 large onion, sliced.
2 quarts water 2 tsp. salt or to taste.
1 pint milk or 1 cup milk and 1 cup cream. 2 lbs. flour
1/2 pound salt pork. Dash of pepper sliced.

Pick over the peas and wash them well. Soak overnight in one quart of water. In the morning, add the remaining water, the salt pork, and the onion. Simmer covered about one and one-half hours or until the peas are soft. Remove the pork, press the peas and onion through a fine sieve, and be careful to save all the liquid. Brown the butter, add the flour, and mix until well blended. Pour in the milk and stir until thickened. Mix with the strained peas and serve when hot. Lay a thin slice of lemon with finely chopped parsley over the top in each plate of soup just before it goes onto the table.

A bill is pending in Congress to relieve aliens asking to be naturalized from the obligation to defend the country in time of war. This is the first notice we have had that immigrants are so scarce that we ought to offer premiums to aliens to come to the United States.

Young Dewberry Promising Crop

Plant Is Favored Because of Its Resistance to Many Diseases.

(Prepared by the United States Department of Agriculture.)

The Young dewberry, named for B. M. Young of Louisiana, who originated it more than twenty years ago, is now becoming an important sort in both the eastern and western parts of southern United States, according to George M. Darrow of the United States Department of Agriculture, whose trials with this dewberry a few years ago showed it to be promising for the South.

Centers of Production. The largest centers of production at present, he says, are in southern Alabama and southern California, though there are extensive plantings near Wilmington, N. C., and Houston, Texas. Evidence at hand indicates that it is hardy from Norfolk, Va., south and west to include eastern North Carolina, South Carolina, Georgia, and the states west of Texas, including Arkansas and parts of Tennessee and Oklahoma. In California, Oregon and Washington it is apparently adapted to a somewhat greater range of conditions than is the loganberry.

Resists Disease. The Young dewberry is favored because of its resistance to anthracnose and leaf-spot diseases, the vigor and productiveness of the plants, and the high dessert quality of its fruit. Recent tests indicate that the fruit is well adapted to freezing for sale in the winter season, and its usefulness after freezing for preserves, pies, and the table suggests this outlet as one of the most important for this berry. No planting stock is available from the department, Mr. Darrow says, but prospective growers will find the Young dewberry listed for sale by a number of Southern nursery establishments.

In his efforts to win Miss Alabama again Senator Hefflin is undoubtedly proceeding on the theory that a faint voice never won fair lady.

 By BESSIE BABCOCK, Deputy.

Reds Still Busy

According to dispatches from Berlin three employees of the Russian trade bureau have been arrested on the charge of taking part in a conspiracy to overthrow the German Republic for the purpose of setting up a communist state. The arrests came after officials had discovered several Red printing plants which were operating in secret, and were turning out revolutionary leaflets in great quantities.

German officials regard this conspiracy as further proof of the charge repeatedly made that Russian communist agents whenever a government recognizes the soviet state, take advantage of this by undermining in every way possible the government which has given recognition. This is of course in violation of agreements made by soviet Russia, but this is not regarded as serious by the revolutionaries.

This incident in Germany recalls the famous Acros incident in Great Britain back in 1927. The London police in May of that year raided the Russian trade bureau and the disclosures of revolutionary activity caused Great Britain at that time to sever diplomatic relations with Soviet Russia. The relations were renewed when Ramsey MacDonald became Prime Minister with a labor government.

These disclosures in Germany coming nearly three years later show that the communists have not changed their policy of taking advantage of every opportunity for "boring from within." It is of special interest to the United States owing to the fact that we have a great many people in this country who seem to believe that it would be quite the proper thing to do for the United States to resume diplomatic relations with Soviet Russia. The communists are already busy in America doing what

they can to create dissatisfaction with our government. It is the opinion of the great majority of the American people that to give Russia official recognition at this time would only serve to increase the facilities for revolutionary activities and would only serve to encourage the red agents, who are already in this country. The recent incidents in Germany only go to show that the majority, as usual, is right.

Feeding Dairy Cows

The Gazette office is in receipt of a valuable government bulletin regarding the feeding of dairy cows. It gives all the essential care and feeding for the best results from a milk cow and every farmer should have one of these bulletins, which may be had for the small price of five cents each, from the Superintendent of Documents, Washington, D. C.

The feed of the dairy cow constitutes about one-half the expense of milk production, therefore, demands close attention to the matter of feed. The ration must be adequate in quantity, suitable in quality, but as low in cost as possible. The quantities of feed to be given the cow for most economical production have been determined with a fair degree of accuracy. The object of this bulletin is to state in simple terms some of the principles of dairy-cow nutrition and to assist the dairyman in preparing economical rations for his cows.

Frederick J. Libby, the Washington super-pacifier, says that having signed the Kellogg pact renouncing war, we ought to disarm, doubtless because Russia, having signed the same pact, waged a war on China before the ink was dry on the document.

POULTRY

GIVE PLENTY OF ROOSTING PLACE

Pullets Need Room and Fresh Air to Develop Properly.

Give the pullets plenty of roosting space and encourage them to roost early, says L. M. Hurd of the New York State College of Agriculture. Roosting helps to prevent crowding and allows the individual chicken more freedom of action and better air. Uncrowded pullets make better growth. Clean and disinfect the houses and supply them frequently with fresh litter. Shavings, oat straw, or sand make the best covering for the floor during the summer. When more than one house is in use take care that too many pullets do not form the habit of roosting in one building. The buildings should be at least 100 feet apart to help keep the birds evenly distributed. It is not advisable to try to house more than 125 growing pullets in one colony house.

Provide good ventilation on hot nights. In addition to the regular ventilators take out the glass sash in the front of the house. To prevent possible infestation from red mites paint the perches and side walls close by with carbolineum, or spray the colony houses several times during the summer with a mixture of equal parts of crude carbolic acid and kerosene.

When there are many hatches and several weeks difference in their ages, provide each hatch with a separate range, or place the houses farther apart than for groups of the same age. Otherwise older pullets will annoy the young and prevent normal growth.

Fireless Cooker Good Idea for Egg Layers

Hens need warm water. It's cheaper for you to warm it on the fire than to make the hen warm it with expensive feed.

You can save lots of trouble by insulating the water pail. You can make a sort of fireless cooker by placing the drinking vessel in a box large enough to stuff two or three inches of straw, excelsior, or torn newspapers, packed tightly below and all around the vessel.

Keep the material dry by covering it with tin, fitted closely under the top rim of the pail, and sloped slightly to the outside of the box so the split water will run off.

The water keeps warm several hours.

Profits Increased by Culling Flock Closely

Whether the poultry producer keeps pure breeds or grades, he will increase his profits very materially by culling his flock closely every year.

Though the trap nest is the most accurate means of selecting the best layers in the flock, its use is only practicable for those who make poultry breeding a specialty.

The trap nest usually has no place on the general farm. On the average, the pullet laying year is more profitable than any other. Yearlings and two-year-olds are likely to be kept at an actual loss unless they are carefully culled.

Poultry Facts

The average fenced farm geese are the most profitable of all.

A dust bath aids materially in the elimination of body lice and should be installed.

Pure-breeds usually lay eggs that are more uniform in size, shape and color, and are more productive than mixed flocks.

Hens should stand a lot of dry still cold, but not drafts. There should be no opening in opposite walls, not even cracks, to draw a shivery current of air through the house.

Overcrowding in the poultry house discourages production of high priced eggs.

Feed hens balanced rations. Watch flock for sick birds and remove them on discovery. Keep house dry, warm and well ventilated.

The first rule in feeding the poultry flock in the winter is to be sure to feed plenty. Hens cannot lay in cold weather unless they have enough feed to keep them fat and thus have a surplus for making eggs.

Squash and pumpkin make a good succulent feed for poultry, helping to keep the bowels in good condition.

Increase the size of your poultry house to keep pace with the size of your flock. Poultry is not city bred and does not like crowded conditions.

Molst mash often helps to get more feed into the crops—a warm, slightly moistened mash fed at noon during cold weather. Liquid skim milk or buttermilk is especially valuable for molstening the mash.

BANKERS FIND GROUP BANKING WIDESPREAD

Over 13 Billion Dollars of Bank Assets in Affiliated Systems Numbering 1,850 Members—In Nearly Every State.

Over 1,850 banks with more than thirteen billion dollars in resources are shown to be associated with chain or group banking systems in the United States in facts recently gathered by the Economic Policy Commission of the American Bankers Association. The chairman of the commission, R. S. Hecht of New Orleans, pointed out that the facts indicate that "almost 74 per cent of our banks and over 18 per cent of our banking resources are in the great net of group or chain banking that now covers almost every part of the country."

The commission's facts comprised chain and group banking affiliations in the broadest sense of the term, the report said. They included those groups in which the controlling element was a particular bank, there being reported 78 instances of this class involving 407 banks and about \$6,473,000,000 in combined banking resources. They included also groups in which a non-banking holding company, not subsidiary to any particular bank, was in control and of this class 28 instances were found, involving 380 banks and nearly \$5,335,000,000 in resources. The report also included groupings in which control was exercised by individual persons and these cases numbered 187, involving 1,071 banks and about \$1,468,000,000 in assets.

The Total Figures

The total was over \$13,275,000,000 in aggregate resources. Some of the systems comprised 50 to 100 banks each. Head offices of the groups were found in all jurisdictions, but nine of the states and the District of Columbia.

"We have not included in these figures," the report says, "banking groups in which a commercial bank, a trust company and an investment house, and sometimes a savings bank, are tied together by some form of stock holdings and operated as complementary elements in an organization rendering complete financial services. We have held that such groups are similar to a departmentalized bank and different in the purposes and operations from a chain or group banking system."

"For purposes of the present report we define chain or group banks as systems in which centralized control, whether corporate or personal and either rigid or informal, directs the operations of two or more complete banks, not functionally complementary, each working on its own capital and under its own personnel and located in one or more cities or states."

Commenting on the question whether the rapid development of chain banking was in the nature of a reaction against restrictions imposed on branch banking by the banking laws in many states the report says that observation does not wholly confirm this theory since chain banking is prevalent in some states where virtually no restriction is imposed on branch banking, as well as in those where the establishment of branch banks is prohibited. It adds:

The Question of Branch Banking

"However, the facts do show that anti-branch banking laws have been a factor in some cases, and probably in some sections, in the spread of chain banking. Instances have come to our attention where expansion along chain bank lines has been carried out by state banks whose expansion along branch bank lines was stopped by the passing of state laws prohibiting further branches. Yet whether expansion would have been along branch bank lines if the laws had imposed no barriers, it is impossible to say. There is obviously a well developed banking opinion in some sections that the chain bank method brings to outlying banks the strength and efficiency of a big organization without depriving them of their local individuality and sympathies. In view of the mixed factors noted, we feel it is unsafe to generalize as to what bearing branch banking laws have on chain developments."

"The recent era of rapid chain bank developments has found specific reflection in some state legislative action tending to restrict or control chain or group banking. Also we find a sharp difference of opinion among state bank commissioners who have expressed their sentiments regarding chain banking."

In a foreword to the report, issued in booklet form by the association at its New York City headquarters, Chairman Hecht says that "the Economic Policy Commission does not take a stand in advocacy of or in opposition to this new method of concentrating banking resources through the affiliation of banks into groups and chains, but is simply offering as a fact finding body what we believe is the first complete national picture of this rapidly growing movement."

SCHOOL SAVINGS GROW

A total of 4,222,985 school children participated in school savings banking in the United States during the last school year, depositing \$23,672,496 and rolling up net savings of \$10,529,925, bringing total bank balances now credited to this movement to above \$50 million dollars, according to the annual report of the Savings Bank Association of the American Bankers Association. Schools to the number of 15,637 are enrolled in the plan.

JOINT STATEMENT OF COUNTY AUDITOR AND COUNTY TREASURER FROM

**NOTICE OF ADMINISTRATOR'S
SALE OF REAL PROPERTY**

In the Matter of the Estate of George Eldringhoff, Deceased.
Notice is hereby given by the undersigned, Wade T. Keene, administrator of the estate of George Eldringhoff, deceased, that he will sell upon competitive bids at private sale to the highest bidder, upon terms hereinafter contained, and subject to confirmation by the Probate Court of Latah County, Idaho, on or before Monday, the 9th day of June, 1930, all the right, title, interest and estate of George Eldringhoff, deceased, in and to the lands hereinafter described, to-wit:

Lots one (1), two (2) and three (3), Block thirty-nine (39), Original plat of the Village of Kendrick, Latah County, Idaho;

Lots three (3) and four (4), Block ninety-six (96), Oak's Addition to the Village of Kendrick, Latah County, Idaho;

The Southeast Quarter (SE 1/4) of Section one (1), of Township thirty-eight (38) North, Range three (3), West Boise Meridian, Latah County, Idaho.

Said real property will be sold in separate tracts as in this notice described.

TERMS: This sale will be for cash; ten per cent of the amount of each bid must accompany the bid, either in cash or certified check, the balance of purchase price to be paid upon confirmation. Deposits of unsuccessful bidders will be returned. All bids must be in writing and filed with the undersigned, or with the Probate Judge of Latah County, Idaho, at any time after the first publication of this notice.

Dated May 14, 1930.
WADE T. KEENE,
Administrator of the Estate of George Eldringhoff, Deceased.
C. A. OPPENBORN,
Attorney for Administrator. 20-3

John Deere
High-Lift
Mower
Equipped
with
Tongue Truck

Light Draft... Easy to Handle... Does Better Work

It's easy to do a fast, clean job of mowing with the John Deere High-Lift Mower—especially when it's equipped with the special quick-turn tongue truck.

Our customers who have used this outfit say that the tongue truck saves the horses and results in better work. The flexibly-mounted axle permits truck wheels to hold to the ground—there is no neck weight on the horses—no whipping of the pole. The truck always keeps the front end of the mower frame at the right height.

Other features of this mower include the famous John Deere high, easy lift; balanced drive gears which reduce wear and insure smooth running; special location of bevel pinion, which reduces end thrust; and 21-point clutch, which insures instant starting. All adjustments on the John Deere are made with ordinary tools.

Inspect this better mower NOW.

made a larger river than we now find there, and difficult to ford. The Trail continued through or near the present Burley and Twin Falls, crossing to the north bank just below Glens Ferry; near Hammett it turned northwest, reaching the Boise about at Barber, following the south side of the Boise to Caldwell, thence the north bank to near Parma where the road crossed the Snake and left Idaho.

The largest single expedition over the Trail was in this first year, and included a thousand people. Indians attacked only smaller parties, the worst massacres being those of the Ward train of 21 at Caldwell in 1854, the Otter party of 44 at Salmon Falls in 1860, and a smaller train at the City of Rocks in 1862. There were scores of other murders by Indians, and disease and hardship took a liberal toll, Asiatic cholera and other epidemics sweeping through the trains. It is said every mile of the road had its one or more deaths.

In later years much of the travel turned more directly west from Fort Hall, crossing through the Lost and Wood river sections, rejoining the main road before it reached the Boise. This detour was known as "Tim Goodwill's Cutoff."

The Oregon Trail was the longest and most famous of the roads to the western coast; it can still be identified in spots.

OUR UNTRUTHFUL FIRST FIFTY-FIVE YEARS.

It is striking that so few enduring things, of a constructive nature, were accomplished in the fifty-five years succeeding that summer day in 1805 when Captain Meriwether Lewis discovered the state we live in.

White people came into the country only to leave it again; the few things they built were all abandoned. It was a period of mere exploitation and even that was in the highest degree superficial. The buffalo disappeared from the western slope for some natural reason not understood; other game animals remained about as numerous at the close as at the beginning of the period. Only the unfortunate fur bearing animals succumbed to the white man's attack.

The Spaldings settled at Lapwai in 1836, only to be driven out by the red men. De Smet's Mission had a continuous existence but was moved from one location to another. Bonneville scoured the plains of the south and went back to St. Louis. English fur companies built Fort Boise and Fort Hall, only to abandon both.

For the first forty years, uncertainty of title operated against anything like a permanent settlement. The British apparently had no other interest than that the land should be kept in its wild state as a field for the Hudson's Bay people. Our own statesmen, at any rate those representing states east of the Alleghenies, were antagonistic or at the best indifferent to development of the far west. Few of our people today realize how near we came to being a dependency of England, what a close race it was between the Union Jack and the Stars and Stripes.

The present boundary between the United States and British Columbia was established by the treaty of 1846, but fourteen years elapsed before anything happened in Idaho having permanent results. The Mormon settlement at Fort Lemhi in 1855 was an ill-starred venture. Grasshoppers ravaged the fields the first year and in 1858 the Indians swooped down on the little group and drove them back to Utah.

So that at the close of our first fifty-five years the country looked about as it had done for centuries. The adobe fort at Lemhi was unoccupied, here and there on the bank

of a rippling stream stood some trappers hut, falling to decay. East of the mountains the great civil war was impending. In Idaho almost the only signs of civilized life were crawling dust-beclouded strings of ox teams on the Oregon Trail, their drivers stopping now and then to lay in a shallow grave some member of the migrating family, perhaps a woman or child, whose vision of an Oregon home had ended in the dreamless sleep of death.

There came the year 1860; the Idaho which we know was born. Thirteen Mormon families settled at Franklin. Captain Mullan built his road along Coeur d'Alene Lake. Greatest event of all, gold was discovered at Pierce.

The infant territory received its baptism in a fount of blood, at the hands of the savage Snakes. The worst massacre in our history was in 1860, when the Otten train of forty-four persons was almost annihilated at Salmon Falls.

TEKEAN NEWS

Geo. Kime lost his house by fire Sunday afternoon. A number of his relatives were visiting at the home and a fire had just been started in the heater in the front room and within a short time the roof was discovered to be blazing. The neighbors hurried to the scene and did what they could. They managed to save most of the household goods.

Mr. and Mrs. Cecil Choate and the new baby spent Sunday at the S. S. Baugh home.

Mr. and Mrs. Joe Choate and son, Leo, Mrs. Orval Choate and daughter, Alda, all went to Peck Sunday and spent the day with Mrs. Everett Horne.

Mr. and Mrs. Avery Miller and daughter, Dorothy, visited at the Chas. Lackey home Sunday afternoon. Mr. and Mrs. J. H. Butler and family, Jas. West and family, motored to Linden Sunday afternoon to visit at the home of Mrs. Butler's parents, Mr. and Mrs. J. H. Hunt. Eli Peterson and his mother of Dayton, Wash., left for their home last Saturday after spending a week here visiting relatives and friends.

Mr. and Mrs. Frank Carey and family, Mr. and Mrs. Walter Huffman and family, Cecil Huffman, Willie Choate and Arlos Wells and Mrs. Harless and children all went to Freeman creek for a picnic last Sunday.

Claude Browning and son, Vaughn, and a married daughter and her husband from St. Maries, visited at the J. H. Butler home one day last week.

Jas. West went to Orofino Monday. When he started home on Tuesday afternoon his car accidentally went into the ditch and it was necessary to get a team to get it back on the road.

Rev. and Mrs. Fike from Nezperce are here this week holding meetings. Mr. Fike is giving us some good messages. The music is better than usual as both he and Mrs. Fike are good singers.

The young peopel of the church met Monday afternoon to plant their missionary acre of potatoes. They expected to finish the next day, but rain interfered with their plans.

Joe Choate and Carroll Groseclose went to the Ed. Storey place above Myrtle, on Cottoownd creek, with a load of poles and shakes on Tuesday. They were caught in the rain and had to return home by way of Arrow Junction, on account of a better road that way.

Ray Butler and Swen Frederickson went to Elk River on business Monday.

SURROUND YOUR HOME WITH LOVLINESS

The time for spring improvements has arrived, and while many yards and homes have been beautified here in Kendrick, there is yet room for more improvement.

As you pass some handsome residence, telling its story of success and plenty, do you feel a bit of envy? Then reflect that you can have just as much beauty around your home place, and for almost nothing so far as money goes.

You can't afford costly improvements! But just the same, you can have the loveliness of foliage and of flowers, and nature's beauty surpasses anything human hands can create. The charm of a dwelling does not depend on its cost. Some expensive ones are not attractive, and many modest ones are very beautiful, because tasteful and home loving people decorated them with fascinating gardens.

Don't expect any beauty while disorder and decay linger. The folks who clean up their front grounds by removing rubbish to the back yard belong in the same class with the boy who refuses to wash behind his ears.

Shabby paint and tumble down fences put a house in the down and out class. Sow some grass on those bare spots. Those dirty holes are as inappropriate as wearing your old soiled coat to some dress-up party. After the paint brush, the rubbish

cart, the rake, comes the spade. Exercise it on some new garden spots. The brightness of flowers outshines any man made product. Now, in these lovely spring days, is the time here in Kendrick. You say these improvements mean work? Yes, but the work saves your health from slipping down hill. It will help brighten dull days and postpone old age. Your neighbors will also give three cheers.

Cream Coming In

The new Hazelwood cream station has been in operation at the Morgan store for the past week and the cream is coming in in increasing quantities each day and Mr. DeLano says he is very well pleased with the way it has started out. He says the farmer can bring in his cream, wait until it is tested and his check will be given him within a few minutes. It would seem that this would be a much better way than shipping

it to Spokane and having to wait a number of days for a cream check. The testing is done in the same way they do it in Spokane and must be correct, or they are subject to a heavy fine. They are asking you in their ad. to bring your cream to Kendrick.

President Hoover has vetoed the bill providing for the minting of special coins in the United States. This was the right thing to do. The regular coins are hard enough to get hold of.

Two Massachusetts boys who ran away from home to become aviators were betrayed in New York by their Bostonian accent. If they wanted to remain in Manhattan unnoticed they should have cultivated a "Thoid Avenue" dialect.

We use the best to be had in preparing our meals. Hotel Kendrick-14.

THE STATE
WE
LIVE IN

THE OREGON TRAIL

We are this summer commemorating the one-hundredth anniversary of the Oregon Trail, but so far as Idaho is concerned the celebration is somewhat premature. The expedition

of 1830 never reached the borders of the state we live in; its terminus was on the Green river in Wyoming. The Oregon Trail that we know had its real beginning 13 years later.

In the year 1843 John C. Fremont explored the valley of Snake river and prepared maps of his travels; it was in this year that the Trail first became an established highway. The great road reached from Independence, Missouri, to Oregon City, over two thousand miles, of which 415 were in Idaho. It entered our state in the Bear River valley, near the present town of Montpelier, thence passing through Soda Springs to Fort Hall, which post was on the south bank of the Snake a short distance above the mouth of the Portneuf.

Fort Hall was a junction point, many of the emigrants not deciding until they reached there whether to go to California by the left-hand road, or to Oregon by way of the right. The latter route was the Oregon Trail, following down the south bank of the Snake, passing American Falls, going through the cut at Massacre Rocks, and finding its first difficulty at Raft river. This stream was alive with beaver whose numerous dams
