OFFICIAL PAPER OF LATAH COUNTY

VOLUME XXXX

KENDRICK, LATAH COUNTY, IDAHO, FRIDAY, JULY 25, 1930

NO. 30

LATAH COUNTY RECORDS FILED DURING PAST WEEK

The following records have been filed in the office of Harry A. Thatcher, county recorder, during the week ending July 21, 1930:

Deaths:
W. D.—Dennis Ring to C. L. Thompson, dated April 26, 1927; \$1.00; S. 30 feet lot 3, N. 2ft lot 4, block 1, Frye's 2nd addition to Moscow.

T. D.—Latah County to Oscar Branting, dated July 15, 1930; redemption of taxes; NE $\frac{1}{4}$ NE $\frac{1}{4}$; NW $\frac{1}{4}$ NE $\frac{1}{4}$ 24-40-4 W. B. M.

W. D.—A. N. Dye ret ux Louise Helen to W. L. Kortor, dated July 3, 1930; \$1.00; tract 411 feet E. of SW corner SE $\frac{1}{4}$ 6-39-5, containing 5 acres.

Charles W. Shields et ux Mary M. to W. B. Bollen, dated Nov. 12, 1926; \$1.00; lot 13, S. 25 feet lot 14, block 2, Beagle's addition to Moscow, except 25 feet sq. from lot 13.

W. D.—W. B. Bollen et ux Hildegard to Vera S. Jackle, dated July 10, 1930; \$1.00; lot 13 and S. 25 $\frac{1}{2}$ feet lot 14, block 2, Beagle's addition to Moscow, except from lot 3, 25 sq. feet.

W. D.—Bertha L. Willis to Harry M. Driscoll, dated July 18, 1930; \$1.00; E. 75 feet lots 5 and 6, block 10, original Moscow.

W. D.—Ray R. Rauch et ux Grace to First Bank of Troy, dated July 18, 1930; \$1.00; lot 9, block 8, State W. D.—R. A. Poe et ux Florence addition to Troy.

C. to First Bank of Troy, dated July 22, 1930; \$1.00; lot 13, block 7; lots 4 and 5, block 14, original Troy.

Mortgages
Henry P. Hewitt to Ernest M. Grant, dated June 1, 1930; \$400.00; due June 1, 1932; NW $\frac{1}{4}$ SE $\frac{1}{4}$ 27-39-5.

Anna E. McConnell et vir E. T. to Elmer Schwarz, dated April 20, 1930; \$500.00; due 3 years; S $\frac{1}{2}$ lot 11, lots 12, 13, 14, block 8, Mt. View addition to Moscow.

Francis Chilton et ux Esther P. to Twin City Chevrolet Company, dated July 9, 1930; \$150.00; due —; tract 276 feet N. sec. line about 80 rods E. of SW corner 16-40-1 W. B. M. 300x77 feet, in SE $\frac{1}{4}$ SW $\frac{1}{4}$ 16-40-1.

Charles M. Smith et ux Zora to Metropolitan Life Insurance Company, dated July 17, 1930; \$200; due Jan. 1, 1933; \$1800; due Jan. 1, 1936; SE $\frac{1}{4}$ SE $\frac{1}{4}$; S $\frac{1}{2}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ 12-42-6.

Peter L. Smith et ux Naomi to Metropolitan Life Insurance Company, dated July 17, 1930; \$200 due Jan. 1, 1932; \$200 due Jan. 1, 1933; \$1600 due Jan. 1, 1936; NW $\frac{1}{4}$ SE $\frac{1}{4}$; N $\frac{1}{2}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ 12-42-6 W. B. M.

Crop and Chattel Mortgages
Carl Johnson to J. I. Case Threshing Machine Company, dated July 14, 1930; \$1196; due Nov. 1, 1932; thrasher.

F. Neely Sons to W. E. Mitchell Finance Company, dated July 14, 1930; \$794.88; due \$66.24 each month; 1931 Studebaker sedan.

R. L. White to J. I. Case Threshing Machine Company, dated July 17, 1930; \$650.00; due Oct. 1, 1932. Set of extension rims.

W. P. Tate to J. I. Case Company, Inc., dated July 16, 1930; \$3200; due Oct. 1, 1932; 2 Model W. combines; header trucks.

Releases
H. Earl Clack Company to Fred Sodorff, dated July 16, 1930; chattel dated Feb. 13, 1930.

Walter C. Brooks to E. T. Long et ux Anna, dated July 18, 1930; R. E. mortgage dated June 10, 1926.

E. W. Felton to Knut Hosied et ux Agnes, dated Dec. 7, 1928; R. E. mortgage dated Dec. 17, 1924.

Registration of Meat Dealer
Adolph Carlson to The Public, dated July 16, 1930.

R. E. Nordby to The Public, dated July 22, 1930.

Annual Statement
Standard Oil Company of California, dated July 10, 1930; capital stock 15,000,000 shares, amount paid 12,845,980.

Certificate of Sale
Ernest F. Meinig vs. John E. Davis et al, Eva M., A. P. Murray and M. Preston, dated July 19, 1930; \$8122.65; SW $\frac{1}{4}$ SE $\frac{1}{4}$; E $\frac{1}{4}$ SE $\frac{1}{4}$; N $\frac{1}{2}$ SW $\frac{1}{4}$ 29-41-5 W. B. M.

Declaration of Homestead
Marion F. Neely to The Public, dated July 19, 1930; \$2000; lots 8, 9, N $\frac{1}{2}$ lot 10, block 4, Mrs. A. A. Liewallen's addition to Moscow.

Marriage License
K. Knutsen, Genesee, Idaho and Millie Graves, Blackfoot, Montana, dated July 17, 1930; Rev. E. M. Hegge officiating.

Congressman French In London

Three American congressmen took a prominent part in the discussions of the Kellogg pact at the fifth session of the interparliamentary union conference in London last Friday.

Representatives Morton D. Hull, Chicago, Florella H. LaGuardia, New York and Burton L. French, Idaho.

Representative French said in spite of high resolves calculated to be inspiring, military and naval programs went on apace.

"The present condition is interable," he declared amid cheers.

MANY YOUNG PHEASANTS KILLED—LOW WATER STAGE

Nearly 3,000 young Chinese pheasants have been killed within the last month by ground squirrels at the state's game farm at Lapwai, R. E. Thomas, state game warden, reported as he passed through Moscow last Saturday evening, states Clarence Jenks, secretary of Thatuna chapter, Izaak Walton League.

After the alfalfa and other crops had been removed from the neighboring fields, the rodents moved into the quarters of the young birds, killing and eating them, the warden reported.

Mr. Thomas is touring the northern counties in connection with the work of his department and left for Lewiston after visiting a few hours.

T. B. Murphy, representing the U. S. bureau of biological survey, who has charge of rodent control work, was to meet Mr. Thomas in Lewiston Sunday. At a meeting Monday evening with the sportsmen of that city the officials were planning to make definite plans to combat the rodent pests.

Mr. Murray has had a number of years' experience in rodent control work, Mr. Thomas said, and should give the game officials some valuable information to cope with the situation and perhaps give some other help from the bureau.

About 500 young pheasants will be imported into Latah county soon, the warden stated. Of this number 400 will be for the Moscow section and 100 for the Potlatch region.

These birds are about five weeks old and will have to be cared for by the local chapter of the Izaak Walton league and others.

Streams in all of the northern counties visited by the warden are extremely low for this season of the year, Mr. Thomas stated, and may reach a lower level than was the case last year when water almost ceased to flow in many of the creeks that had for years held an abundance of water for fish.

Senator Borah Must Rest
Senator William E. Borah of Idaho is on the verge of a nervous breakdown and must take a long rest from his labors.

The senator made this known Saturday after he had returned to Washington from John Hopkins hospital in Baltimore where he underwent a thorough examination.

Physicians advised Borah to leave Washington at once. He hopes, however to be able to remain until adjournment of the special session of the senate now considering the London naval treaty.

Borah has had no extended vacation for the last two years. He played an active part in the Hoover campaign then returned to Washington where he has been almost continuously at his desk.

Recently he complained of an abdominal trouble and two days ago went to the hospital for an examination. The specialists prescribed a complete rest and a long one. Borah, who is 65, said Saturday he agreed to follow their advice.

His condition has been such that he has been unable to take his customary leading part in the pending treaty fight.

No Snow Here
Up on Pikes Peak the other day seven inches of snow was reported, with a temperature of 29 degrees, and over at Centerville, Idaho, in the Boise Basin, ice formed at an altitude of 5,500 feet.

We haven't noticed any icicles hanging around on anything here in Kendrick the past few days. The mercury registered an even 94 on Tuesday and was standing at 80 at 8 o'clock Wednesday morning, finally reaching 96 during the afternoon. But no one has heard of any heat prostrations such as they have in the east. There are worse places than Idaho—and plenty of them.

We print wedding invitations and announcements. Nice stock, new type.

Facts Concerning Attacks On Latah County Officers

"Pestiferous Pete," subscription solicitor for one of the Moscow publications, is again troubled with hallucinations, which have seemed to trouble him quite often during the past few months.

It seems that he has been very much worried about the way the county commissioners have been "wasting" money, some of them buying chicken giblets for dinner, all of them buying gasoline, and some of them buying tires, which they have asked the county to pay for, since they all use their own private cars while looking after county business.

It seems that one day last week, or the week before, when "Pestiferous Pete" happened to be sojourning in Troy, Commissioner Woody bought two tires and tubes for his car and had them charged to Latah county.

It also seems, according to Pete's version of the affair, that Commissioner Nordby was with Commissioner Woody when he, in broad day-light, held up Latah county. Pete thought that was a good idea, so he tried it—and apparently made it stick, for Pete, too, bought two tires and tubes, costing several dollars more than those of Commissioner Woody, and had them charged to Latah county.

You know Pete has been trying for some time, with other aid, to dictate to the county commissioners just how the county should be run and he has tried so often that he probably thinks he has as much right to have his auto tires charged to the county as though he were actually an officer.

But no one takes Pete seriously as he has been subject to hallucinations for many years, and his attempted dictating is merely sweetening for Pete's every-day life. Those who know him best pay the least attention to him and his ravings.

It is a peculiar thing that two of these same commissioners were never questioned by the Moscow publications, when they were formerly commissioners, as long as the county printing was going to the Idaho Post, but when the outside papers dared to bid for the publications, and get them, everyone connected with the deal has become a rascal of the first water, according to the Moscow publications, for that is the tap-root of the whole affair.

The county officials are not elected entirely by Moscow, nor are they going to be dictated to by any individual or clique of malcontents who take issue with them the way the county is managed, such as has been undertaken for the past few years—or since the county legal publications have been let to the Kendrick Gazette and the Genesee News. These publications were secured by a fair competitive bid, and the county commissioners did only their duty when they gave such publication to the lowest bidder.

Much ado has been made by "Pestiferous Pete" about the county officers wasting money, but has he ever mentioned a penny they have saved? Publishing of the entire records would put an entirely different phase on the situation.

But Pete is only doing what he is hired to do—try to discredit honest men, who have broken no law in the

discharge of their public duty. Trying to discredit even the public accountant who has made the statement that "Latah county is one of the best managed counties in the State of Idaho."

A glance back at some of the files of the Star-Mirror, when the county legal were first let to the Kendrick Gazette, again when they were let to the Genesee News; when the News was sold by the present owner of the Gazette, and on several other occasions, will show the venom that lurked behind articles derogatory to these papers and the county commissioners—all because the county commissioners dared to take the county legal publications away from Moscow, at a price just half what the Moscow paper asked.

The course taken by the Moscow publications in this matter is one of the reasons the fair City of Moscow carries a very conspicuous black eye in the outlying districts of the county. Selfishness is a close kin to the green-eyed monster and the course being steered by the Moscow publications is only a fair sample of what may be expected from them at all times.

Under the heading "A Policy of Restricting News to Pure Facts" the editor of one of the Moscow publications takes issue with our correspondent and states that "This paper never has, nor will it in the future enter into political controversies."

The Moscow editorial goes on to say "A statement published in another section of the county last week that the present county board has saved the county more than \$3,000 a year on county printing" does not cite facts as they exist. It states that the county auditor's report shows that the legal publications amounted to \$440.70 on the bid of 2 $\frac{1}{2}$ cents a line in a publication circulating less than 600 copies."

Neither of the above statements are true. Our correspondent stated that at the end of the current year the county commissioners would have saved the county \$3,000, since the county legal had been printed in the Kendrick Gazette and the Genesee News during the past six years, ending December 31, 1930.

Also the paper that "Circulates less than 600 copies" (meaning the Kendrick Gazette) has this week printed and circulated 800 copies—which goes to show that the Moscow publication is just as reliable in one statement as in another—if you know what we mean.

Our Moscow correspondent is not "anonymous" by any means and is as conversant with the doings in and around Moscow as any member of the staff of the Moscow publications.

We make these statements that the uninformed may know the reason for all the attacks on the present board of county commissioners and the county auditor—simply because the county legal publications was taken away from Moscow—and for no other reason.

We are not trying to discredit any candidate, but merely stating facts as they exist.

Many Rattle Snakes
In getting six loads of hay at the George N. Ausman ranch, Orville Farrish reports that seventeen rattle snakes were killed Tuesday of this week. This is an unusual number for an entire season, he says.

Rattle snakes are more numerous this year than ever before, farmers report. On some places as high as twenty-four have been killed in one day. During having season these snakes have been a constant menace to workmen. The snakes are blind now and give no warning before striking. People should be extremely careful these days while in the hills where snakes are found.—Asotin Sentinel.

Fruit and Bloom
Again our statement that California has nothing on us, when it comes to climate and other things proves out. This time there is to be found on the Chas. Cummings farm on American Ridge, a Rome Beauty apple tree that has both fruit and bloom on, just the same as the orange trees in California have at certain seasons of the year.

Seven Horses Burn To Death
James Kenyon, Lewiston contractor lost construction equipment valued at \$500 and Clyde Lester of Clarkston three horses and grain valued at \$75 in a fire which swept several open sheds belonging to the University of Idaho agricultural college about 6:30 o'clock Saturday morning.

Seven horses died in the flames which quickly consumed the old building of the fairgrounds property. The fire started after the horses had been fed and harnessed and spread so quickly that only three animals could be removed.

LESS SPRING PIGS IN IDAHO SAYS UNCLE SAM

The spring pig crop in Idaho this year is 13.7 per cent smaller than last year, due to the fact that the number of sows farrowed this spring was 18.4 per cent less than a year ago, according to the June pig survey. The survey was made by the United States department of Agriculture in co-operation with the post office department through the rural mail carriers.

The early spring and generally favorable weather conditions at farrowing time is reflected in 5.5 pig per litter being saved in comparison with 6.1 a year ago and 6.2 in the fall of 1929.

The survey shows also that Idaho farmers are planning some increase in the hog business this fall in that the number of sows bred or to be bred for farrowing this fall will be increased about 20 per cent.

The June pig survey report, covering about 72,000 farms throughout the United States, indicates the nation's spring pig crop is about 6 per cent less than in 1929.

The decrease shown in the eleven corn belt states was about 3 per cent; 21 per cent in the North Atlantic, 2 per cent in the South Atlantic, 28 per cent in the South Central and 17 per cent in the Far West.

The number of sows farrowed this spring showed more of a decrease than did the number of pigs saved. For the United States as a whole the decrease in sows farrowed was about 10 per cent and for the corn belt the decrease was about 7 per cent. Weather after and during farrowing time was generally favorable this spring, which resulted in an increase in the number of pigs saved per litter in most areas. This increase was especially large in the corn belt area west of the Mississippi river where the average size of litters saved increased from 5.53 to 5.84. For the whole corn belt and for the United States the number of pigs saved per litter this spring was the largest shown for the spring crop in eight years for which similar surveys have been made.

About 20 pig report questionnaires were sent out from the post office here in Kendrick by Postmaster E. H. Dammarell, but to date only two of them have been returned.

Young Man Accidentally Shot

While demonstrating to friends a part of the military training he received at Washington State college, Pullman, Robert Childberg, 20, son of Mr. and Mrs. William Childberg of Clarkston, received a serious wound from a bullet fired from the rifle used.

The youth was at the home of friends about fourteen miles from Kendrick, on the Potlatch ridge, when the accident occurred Sunday afternoon. Procuring a rifle, when asked by those present to demonstrate its use at the college, Childberg went through all the maneuvers and then dropped the butt of the weapon to the floor, preparing to stand at attention. It was thought the gun was unloaded.

The bullet entered his neck on the left side and tore its way into the skull, causing a fracture. The ear was almost severed by the bullet.

At last report the young man was in a very serious condition and his recovery is doubtful.

On Fishing Trip
With Dr. E. H. Field as pilot and general utility man, a party made up of Mrs. Field, Mrs. L. J. Herres, Mrs. Wm. Watts and Miss Rilla Davidson left Tuesday morning for a few days' fishing trip and camping on the Lochsa.

All the men fishermen are awaiting reports of the catch with much curiosity and wondering just how their records will compare with those made by the ladies along the "fish line."

Harvest Is Upon Us!
All the farmers are making ready to take care of their grain crop and those handling implements are being rushed to the limit.

Considerable wheat has been cut on the lower ground to the south and within a few days the machines will begin active operations on the ridges, some of the earlier wheat having been already cut there. It is not thought that much damage has been done to the wheat in this section.

Beans are said to be in fine shape and if the weather is favorable a big yield is anticipated.

"Some Man"
Over at Portland, Oregon, the other day neighbors called the police to a home where a 96-year-old father had been chastising a son aged 57 years for using a word that had been forbidden in the house for more than 70 years. The police decided not to interfere as they concluded that it was the fathers right to correct his son in his own home.

Better watch you step, boys!

CROP DETERIORATION STRENGTHENS MARKET

Domestic wheat markets strengthened during the week ending July 19, largely as a result of less favorable prospects for spring wheat in the American northwest and Canada, but influenced also by a good domestic demand for new winter wheat and a better export inquiry for most classes of North American wheat, according to the weekly grain market review of the United States bureau of agricultural economics. Corn markets continued firm under a good demand for the limited supplies. Less favorable crop prospects were also strengthening factor and prices advanced 2c to 3c per bushel at the principal markets. Oats and barley were steady. Rye had independent strength and flax regained some of the decline of recent weeks.

Deterioration of spring wheat as a result of continued drought in both United States and Canadian spring wheat areas was the principal feature in the wheat market situation during the current week. The most serious damage has occurred in southern Alberta and southern and central Saskatchewan. In these areas hail damage has been severe and losses exceeded those of any recent years, according to trade reports of the Manitoba Free Press. Conditions in Manitoba are favorable and the crop is practically all headed in that province. From 80 to 85 per cent is headed in Saskatchewan and Alberta. The acreage of 24,583,000 acres, as officially reported July 1, is smaller than the acreage harvested last season, instead of slightly larger, as was erroneously reported in last week's report. While the crop has deteriorated since the first of July, according to trade reports, the condition is still materially better than a year ago.

European crops are showing some recovery from recent unfavorable conditions as a result of timely rains in important producing areas, including those of the lower Danube, where crop prospects had declined as a result of hot, dry weather. A production of around 651,477,000 bushels is forecast for eight European countries reported to date, which last year produced nearly half of the European crop outside of Russia. This compares with 645,338,000 bushels produced in these countries in 1929. Production in the three important North African countries, wheat from which competes in Europe with the North American durum, is about 15,000,000 bushels below that of last season, and is now estimated at 57,654,000 bushels. Conditions in the southern hemisphere continue favorable for germination and growth of the new crops. A record acreage of 17,000,000 acres, or 15 per cent more than the large acreage harvested in 1928, is reported in Australia.

Harvesting of winter wheat in the United States is nearing completion under favorable weather conditions. The quality is unusually good and protein content above the average. Marketings have increased materially receipts at the Kansas City center totalling 6,764 cars, or about 2,000 cars more than for the corresponding week last year. Notwithstanding the heavy offerings demand continued to be very active and arrivals at all the principal central western markets were readily taken. Local and outside mills, particularly those with plants at Minneapolis and Buffalo, were active buyers at Kansas City, and shipments from that market were relatively large. No. 1 hard, ordinary protein, sold July 18 at 80 $\frac{1}{2}$ c to 81 $\frac{1}{2}$ c because of the high average protein content. Protein premiums are relatively small 12 $\frac{1}{2}$ ¢ per cent bringing only 1c premium and 13 per cent 2 $\frac{1}{2}$ c to 3c over the ordinary types. Export demand was also active, and of the total North American sales, estimated by the trade at from 9,000,000 to 12,000,000 bushels, a good part was winter wheat. Exporters were bidding 94c to 94 $\frac{1}{2}$ c delivered at Galveston for ordinary No. 1 hard winter. Mills in the Fort Worth territory were bidding practically all the same prices as those paid by exporters. The scarcity of lower grades has brought about an active inquiry from exporters for this quality, and discounts have become relatively small for smutty and other low grade wheat.

Soft red winter wheat prices advanced 2c to 3c along with other prices, but there was a good mill demand, particularly at St. Louis, where mills and elevator interests were competing for the current offerings. No.

CAMERON NEWS ITEMS

Miss Edna Lohman was a caller at the Otto Schoeffler home Friday afternoon.

Mr. and Mrs. George Wilken and son Kenneth, were Lewiston visitors Saturday.

Mr. and Mrs. Carl Koepf and son Walter, spent Sunday with Mr. and Mrs. Henry Brammer and family.

The Fred Silflow family called on the Fred Newman family Sunday evening.

Mrs. W. C. Mielke, Misses Louise Schmidt and Marie Schwarz spent Saturday afternoon with Mrs. F. W. Newman.

Mrs. Luffman and son Jack of Orofino are spending this week with Mrs. W. C. Mielke.

Mrs. J. Bereman was a caller at the Emma Hartung home Monday afternoon.

Mr. and Mrs. Fred Mielke, Mrs. Stoneburner and Miss Emma Hartung were callers at the John Schwarz home Sunday.

Mrs. A. Schoeffler and Mr. Miller of Lewiston were Sunday dinner guests of Mr. and Mrs. Otto Schoeffler.

Mrs. Daniel Wegner spent Friday afternoon with Mrs. Ida Silflow.

Among those who helped Paul Silflow celebrate his birthday anniversary Sunday were Mr. and Mrs. Gus Kruger, Mr. and Mrs. F. W. Silflow, Mr. and Mrs. A. O. Wegner and Mr. and Mrs. Henry Wendt.

Lawrence, Ernest, Herbert and Marie Schwarz, Louise Schmidt, Don Hartung and Ted Mielke spent Thursday evening with Mr. and Mrs. W. C. Mielke.

Bright Lights Still Menace

High, bright lights are still a very great menace on the road, regardless of the fact that it is now compulsory to have lights tested. A good way to get the birds who have failed or refused to have their lights attended to is to put a traffic officer on the oiled road between Lewiston and Spaulding. However, one officer wouldn't do much good. It would take about a dozen working overtime to land all who have glaring lights.

You can have your lights tested at the Deobald garage in Kendrick at small cost—and it may save your car for your life, or both, by having it attended to at once. It may also save you a big damage suit.

Deobald Brothers report that so far but a small percentage of the cars about Kendrick have complied with the light testing law—and if you are one, better have it done at once!

On The Job Again

W. J. Carroll is again on the job at the Farmers Bank, having returned from his vacation the latter part of last week, bringing Mrs. Carroll and Lida Jane home with him, they having spent the past three weeks at Soap Lake, Wash. Mrs. Carroll is very much improved in health.

Carroll Aitkens of Denver, N. D., accompanied them home for a visit. He joined them at Spokane. He expects to remain about two weeks.

COUNTY SEAT NEWS—POLITICAL AND OTHERWISE

It appears that Pete is not only the hired scandal writer for the Moscow press but he has been promoted to editor. In an editorial appearing in the Moscow daily paper on July 16, Pete, apparently as the editorial writer, says: "A statement published in another section of the county last week that the present Board had 'saved the county more than \$3,000 a year on county printing' does not cite facts as they exist." The following is exactly what was said by your Moscow correspondent in the Kendrick Gazette on July 11: "By the end of the current year the Board will have saved in excess of \$3,000 on county printing alone." There is a vast difference between what was said in the Kendrick Gazette and the other county papers and what is attempted to be quoted by the Moscow daily paper. There was nothing said in the three outside papers about a saving of \$3,000 a year but the statement which was sent out by your correspondent is correct. The regular editor of the Star-Mirror would not be guilty of such misrepresentation as is contained in the editorial referred to, and only a person of the calibre of the special writer for the Moscow daily would misquote and misrepresent the article appearing in the county weeklies.

The Star-Mirror admits that it put in a bid of five cents a line for the official printing for the county, which is just double what the county is paying now. All those in favor of subsidizing the county seat press will vote against the present commissioners at the coming primary election. Those opposed, will vote to retain the present board.

The expenses of the present Board of County Commissioners for the year 1929, which includes traveling expenses, lodging and board, was just a trifle over \$1,500. The expenses for the same year of the Board of County Commissioners of Nez Perce county, a county of about the same wealth and population as Latah county, were exactly \$473.52 more than in Latah county.

The auditing firm that has audited Latah county, as well as a large number of other counties in the state, and the State Bureau of Auditing at Boise have recommended Latah county as being the best and most economical county government in the State of Idaho.

Why all the attempted row by Pete in his signed articles over gas, oil and automobile repairs? Has the county been cheated? Will this Moscow critic contend that the members of the Board would not have the right to hire automobiles and charge the expense to the county while the members of the Board were on official business? If automobiles were hired, it would cost the county twenty-five (25) cents for every mile of travel. The law provides that members of the Board shall receive their salary and "necessary expenses." If a member of the Board is willing to wear out his own car in public service the county ought to be willing to pay for gas and oil used and for the necessary repairs. It ought to be enough if members of the Board stand the depreciation on the car.

In last week's Star-Mirror in a signed article our P. L. Orcutt admits that he took the first step which, if completed, would constitute a felony. Pete brags about buying two automobile tires and charging them to the county but he neglected to make affidavit to the claim. As the charge now stands, Pete merely convicts himself of an attempt at cheap notoriety.

The many friends of Sheriff Summerfield are pleased to learn that Mrs. Summerfield is recovering very rapidly from her serious automobile accident. Her injuries are not as serious as it was thought they were.

The harvest season around Moscow is on for those who are binding their wheat and cutting peas with a mower. It is estimated that it will be about two weeks before the combines will be in the field. It looks as though over half of the harvesting will be done by combines and the grain hauled to the warehouses as fast as it is threshed.

The Moscow warehousemen are seriously concerned over what appears to be a shortage of warehouse room for this year's crop and it is reported that the coast and eastern warehouses will not be able to take care of the grain as fast as the country warehouses will desire to ship.

Your Moscow Correspondent.

Parents of a Daughter

Mr. and Mrs. Ronald Wolfe are the proud parents of a seven-pound daughter, born July 16. All concerned are said to be doing nicely.

Notice of Primary Election

NOTICE IS HEREBY GIVEN, That on Tuesday, August 5th, 1930, at the polling place to be provided by the precinct committeeman of the respective parties holding such primaries, in the various election precincts of the County of Latah, State of Idaho, a primary election will be held for the nomination of candidates for State Senator, State Representatives, District Judge, and for county officers, and for the election of precinct committeemen, and for the election of delegates to attend the county convention.

The polls in the several election precincts of the day of said primary election shall be open from one (1) o'clock in the afternoon until seven (7) o'clock in the evening.

The names and addresses of all persons for whom nomination papers have been filed and who are to be voted for, with the party designated and title of each officer, and the number and names of delegates of each political party of the several precincts are entitled to select to the county convention, are as follows, to-wit:

REPUBLICAN PARTY

State Senator:
 CHRIS A. HAGAN Moscow, Idaho
 BURTON C. ROWE Moscow, Idaho

State Representatives:
 EARL DAVID Moscow, Idaho
 J. A. HARSH Deary, Idaho
 ARTHUR SNOW Moscow, Idaho

District Judges:
 GILLIES D. HODGE Moscow, Idaho
 FRANK F. KIMBLE Orofino, Idaho
 ADRIAN NELSON Moscow, Idaho
 GUY W. WOLFE Moscow, Idaho

County Commissioner, First District:
 JOHN CONE Princeton, Idaho
 HARRY M. DAILEY Palouse, Washington, R. F. D.
 E. W. TRAVIS Potlatch, Idaho

County Commissioner, Second District:
 A. S. LYON Moscow, Idaho
 RUDOLPH E. NORDBY Genesee, Idaho

County Commissioner, Third District:
 GEO. C. HOIDAL Troy, Idaho

Dated at Moscow, Idaho, this 16th day of July, A. D. 1930.
 HARRY A. THATCHER,
 County Auditor, Latah County, Idaho.

In per capita wealth Switzerland leads the world with an average of \$3,126 for every inhabitant.

More than 227 million persons in the world are adherents of the Mohammedan religion.

Berlin, Germany, claims the largest electric plant, the largest airport and the largest department store in the world.

It is proposed to plant a rose on the grave of every French soldier who fell in the World War.

CROP DETERIORATION STRENGTHENS MARKET

1 soft red winter was quoted at that market at 88c to 89c per bushel. Practically all arrivals were grading No. 1. Receipts increased materially at Cincinnati, but were below trade expectations. The quality is the best in years with the offerings averaging around 61 lbs. per bushel. Mill demand was less active at this market, but current receipts were being taken by elevators and smaller mills. No. 1 soft red winter was quoted at 89c to 89½c per bushel.

Spring wheat markets advanced around 1c to 1½c per bushel, but premiums for cash grain held practically unchanged. Offerings of old crop spring wheat were light and no important movement of new crop is expected for a few weeks. Two cars of new crop spring wheat were received at Minneapolis from Iowa, and some new winter wheat from South Dakota.

The durum wheat market also turned firmer, influenced by the better export inquiry and a moderate domestic mill demand. September durum at Duluth closed July 18 at 83½c and No. 1 amber was quoted at 80c to 88c, with choice milling types selling as high as 90c to 91c per bushel. Canadian spring wheat markets advanced slightly more than domestic markets, reflecting the less favorable spring wheat situation. Cash wheat at Winnipeg followed the full advance of the futures market and No. 1 Manitoba northern was quoted on July 18, at 96.

Pacific Northwest wheat wheat strengthened along with eastern points but influenced also by some improvement in export inquiry. Considerable new export business was reported during the week at Portland, with one parcel lot of white wheat to Italy, one parcel of hard winter to Antwerp and one parcel of western white to Rotterdam and parcels totaling 4,000 to 5,000 tons of white wheat to the United Kingdom. One parcel of 500 tons of western red was sold to Japan. Ocean freight rates to the Orient have been advanced 40c to 50c per short ton for August and 10c additional for September shipments. There was some Orient but bids were relatively lower than current wheat prices and no export inquiry for flour from the sales were reported. Winter wheat harvesting progressed under favorable weather conditions in the Pendleton and Walla Walla districts and the first two cars of new wheat reached Portland July 16. These were of white wheats. One car tested 59 lbs. and the other 55.6 lbs. Both cars were applied on earlier sales. No. 1 soft and western white were quoted at Portland July 18 at 93c; No. 1 hard winter, northern spring and western red at 90c and No. 1 hard white of Big Bend bluestem variety at \$1.07 per bushel sacked. No. 1 western white, western red and hard winter were quoted at Seattle at 93c and No. 1 Big Bend bluestem, hard white at \$1.04 per bushel. No. 1 dark northern spring, 14 per cent protein, was quoted at Portland at \$1.07 and at Seattle at \$1.04; No. 1 dark hard winter, 14 per cent protein at Portland at \$1.03 and at Seattle at \$1.01.

California wheat markets were dull but prices held fairly steady. Harvesting is now well underway with 50 per cent reported completed in the Sacramento Valley and slightly more in the San Joaquin area. Quality is reported good with a large percentage of the samples weighing 62 pounds or over. Growers were not pressing sales and demand was of only moderate volume. Mills were taking just sufficient wheat for immediate needs but were showing little interest in deferred delivery. Consumption of feed wheat was restricted by the cheapness of feed barley. At the close of the market July 18 No. 1 hard white sacked was quoted delivered in San Francisco at \$1.62 to \$1.65 and No. 1 soft white at \$1.60 to \$1.62½. No. 2 soft white wheat from the north was offered at \$1.66 sacked at San Francisco. Inter-mountain hard winter No. 2 wheat was offered at \$1.65 per hundred in bulk, and No. 2 hard winter from Kansas at \$1.75 to \$1.80 per 100 in bulk delivered at California points.

Prices at Los Angeles remained unchanged with receipts totalling 130 cars. Mills were absorbing the milling quality wheat while feed grades were going to mixed feed manufacturers.

Heat to Destroy Germs
Dry heat of a temperature of 150 degrees C. continued for one hour will destroy most germs, but this renders most fabrics very brittle and may injure them. Most materials will bear a temperature of 110 degrees C. without damage.

Disease a Cause of Fear
If a person is quick-tempered or timid, he is probably still a victim of diseases suffered when a child. Experiments made by Dr. George M. Stratton of the University of California, indicated that those who suffered the most diseases in childhood were most susceptible to anger and fear.—Popular Science Monthly.

W. F. Behrens

Has started his Fordson and Gleaner Combine on the Otto Schupfer place near Juliaetta. This place is all hillside and steep. The combine works to a perfection. Mr. Behrens has this outfit for sale, but not before it was well tried out.

Now since everything works fine, some one should buy this machine at such a low price. The Fordson, Combine and All goes for—

\$850.00

250 acres of wheat pays for it. IT WORKS— AND WE DON'T MEAN MAYBE !!!

Other Machinery for Sale

CLETRAC W. ----- \$200.00
FORDSON ----- \$200.00

ALSO—A Master 6 Buick truck, will haul 20 sacks of wheat. Fine shape. Steel body. Top, windshield, etc. All for ----- \$150.00

Kendrick, Idaho Phone 842

Manufacturing Criminals

The law-makers of America have apparently gone into the business of "manufacturing" criminals.

During 1929, 4 states passed 16,921 new laws out of a total of over 50,000 which were proposed. This is at the rate of 46 laws per day, including Sundays and holidays.

It is no wonder that practically every American city has a "crime wave" of some magnitude. As a nation we are burdened with the greatest weight of laws in world history—many of them are obsolete, conflicting and unenforceable. All of us are law-breakers, for the simple reason that there is a law governing almost every human act.

Patrick Henry once said that one of the things necessary to the maintenance of free government was a "frequent recurrence to fundamental principles." During the past quarter-century we have strayed as far from the fundamental principles established by the founders as possible. The spirit of the constitution has been violated time and again by fanatics and reformers.

As a result we have more crime than any nation in the world. The cure is simple: Stop passing laws that react against good citizens and get after the real criminals. Make justice swift and sure. Do away with legal technicalities. Weed out the vast amount of waste matter in the statute books.

As long as wholesale law-making continues, crime will flourish.

Bather Fractures Spine

Clarence Turpin, well known young man of Lewiston, is at St. Joseph's hospital with a fracture of his spinal column at the neck, both legs and both arms paralyzed and a possible skull fracture as the result of a running dive into shallow water at the Clarkston Beach Sunday evening.

While hundreds of bathers were on the beach, Turpin started at a point about 40 feet from the river's edge, called to some of his friends while running and after reaching the water took two steps forward and then made a long dive. There were not more than 2½ feet of water where Turpin's head went down. He hit the bottom with terrific force and the next thing those on the shore and in the water knew they heard him moaning.

Parents of a Daughter

Mr. and Mrs. Boyd Cook of Cream Ridge are the proud parents of a baby daughter, who arrived at their home Sunday to make an extended stay. Mrs. M. O. Raby, mother of Mrs. Cook, is with her.

You don't need to send away for printing of any kind. We can do it.

Virtues

Virtues are in the popular estimate rather the exception than the rule. There is the man and his virtues. Men do what is called a good action, as some piece of courage or charity, much as they would pay a fine in explanation of daily nonappearance on parade.—Emerson

Needed but Unwanted

Another thing the world needs is an alarm clock which will come right back and ring again after you shut it off in the morning.—Omaha Evening World-Herald.

CALL FOR BIDS

Bids will be received at the office of the Clerk of Joint Common School District No. 24, Latah and Nez Perce counties, Idaho, at Kendrick, Idaho, on or before the 5th day of August, 1930, for the following purposes:

1. For repairing of heating plant and plumbing in school building and installing heating system in gymnasium under construction.

2. For electrical wiring of gymnasium for lighting purposes. Plans and specifications as amended on both propositions on file with the clerk of the school district.

Bids will be opened and contracts awarded to successful bidders on the 5th day of August, 1930, at the office of the clerk at three o'clock in the afternoon of said day.

A certified check or bond for five per cent of amount bid must accompany each bid.

The Board reserves the right to reject any and all bids.

Dated July 16, 1930.
C. A. OPPENBORN,
Clerk Joint Common School District No. 24, Latah and Nez Perce Counties, Idaho. 29-3

SHERIFF'S SALE

Notice of Sheriff's Sale of Real Estate Under Execution.
C. J. Orland, Plaintiff, vs. Carl Erickson, Defendant.

BY VIRTUE OF AN EXECUTION, issued out of the District Court, Second Judicial District in and for the County of Latah, wherein C. J. Orland was Plaintiff and Carl Erickson was defendant, upon a judgement rendered the 2nd day of June 1930 for the sum of One Hundred Fifty-nine and no/100 Dollars in lawful money besides interest and costs, I have this day levied upon all right, title, claim and interest of said defendant, Carl Erickson, of, in and to, the following described real estate, to-wit:

Lot Ten and the West half of Lot Eleven of Block Fourteen, West Addition to the City of Genesee, Idaho.

PUBLIC NOTICE IS HEREBY GIVEN that I will on Monday, the 4th day of August A. D. 1930, at 10 o'clock A. M., of that day, in front of the Court House door, Moscow, Latah County, Idaho, sell at public auction, for the United States gold coin, all the right, title, claim and interest of said defendant, Carl Erickson, of, in and to the above described property or so much thereof as may be necessary to raise sufficient amount to satisfy said judgement, with interest and costs, etc., to the highest and best bidders.

Dated this 7th day of July, 1930.
CHARLIE SUMMERFIELD,
Sheriff of Latah Co., Idaho.
By **GEO. K. MOODY,** Deputy. 28-4

SUMMONS

In the District Court of the Second Judicial District of the State of Idaho In and For Latah County. Gustav Gebser, Plaintiff, vs. Anna Gebser, Defendant.

THE STATE OF IDAHO SENDS GREETINGS TO THE ABOVE-NAMED DEFENDANT: You are hereby notified that a complaint has been filed against you in the District Court of the Second Judicial District of the State of Idaho in and for Latah County, by the above-named plaintiff, and you are hereby directed to appear and plead to the said complaint within 20 days of the service of the summons; and you are further notified that unless you so appear and plead to said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint.

This action is brought for the purpose of having dissolved the bonds of matrimony existing between the said plaintiff and defendant, on the grounds of desertion.

Witness my hand and the seal of said District Court, this 11th day of June, 1930.

WE HAVE WEED CONTROL MATERIAL IN CAR LOTS

ATLACIDE is the BEST weed control material. Is non-explosive and there is no fire danger by its use to fields, buildings, etc.

IN 1927 IN WISCONSIN THE ESTIMATED LOSS FROM WEEDS WAS \$27,000,000.00.

We also have the Sodium Chlorate in 100-pound drums at \$10.00. Sodium Chlorate is effective as a weed control but great care must be used in handling, as it is highly inflammable and explosive and therefore dangerous to life and property.

JULIAETTA ITEMS

Mr. and Mrs. Joe Groseclose returned Wednesday from Clarkston, where Mrs. Groseclose has been doctoring for some time.

Forrest Gallaher left Tuesday for Kamiah, after a few days' visit with his parents, Mr. and Mrs. E. L. Gallaher.

Mrs. Leland Houck entertained the Needle club last Thursday. Bridge was played during the afternoon, followed by a delicious luncheon. Those present were Mesdames Alexander and her house guests, Mrs. Sue Armstrong of Spokane and Miss Stump; Jones, Nutt, Behrens, Cochran, Clark, Gruell, Biddison and Mrs. D. E. Buckallew of Lewiston.

Mr. and Mrs. Cecil Gruell, Mrs. Amanda Alexander, Mrs. M. Nutt, Mrs. Sam Gruell and Everett Custer were Lewiston visitors Saturday afternoon.

Many people have enjoyed swims and picnic suppers at the Clearwater beach below Arrow the last two weeks.

Wilda Cook, daughter of Mr. and Mrs. Roy Cook, who was burned quite seriously last week, is reported to be improving.

Mr. and Mrs. Arnold Behrens were Lewiston visitors Friday evening.

Mrs. Bert Ramey and children and Mrs. Charles Talbot of Potlatch are visiting friends and relatives this week.

Mr. and Mrs. Oriel Dumbauld have sold their property, near the city reservoir, to Mr. and Mrs. Charlie Peeler of Fix Ridge. The Peelers will soon move to town and Dumbaulds will move into their property near the school house.

Miss Gladys Cochran and Frank Neil spent Tuesday in Lewiston.

Mr. and Mrs. Marion Gruell and sons and Lucille Gruell of Lewiston visited relatives here Sunday.

Mr. and Mrs. Thomas and children of Pullman have moved into the property recently vacated by the McClinics.

Mr. and Mrs. Earl Rector and daughter of Potlatch spent a day last week with Mrs. Celia Garrison.

TEKEAN NEWS

Mrs. D. M. Wilson of Arrow Junction spent a few days last week at the home of her brother, Simon Baugh. George Baugh took her home Sunday afternoon.

Mr. and Mrs. Simon Baugh were Juliaetta and Arrow visitors one day last week.

Bruce and Carroll Groseclose are helping Cecil Huffman make hay this week.

The campmeeting at Frisbee's grove closed last Sunday evening.

Rev. and Mrs. Fike of Nezperce visited friends here Sunday and attended the camp meeting. Mr. Fike also preached Sunday morning at the Brethren church.

Ray Butler was a week-end visitor at his parents' home. He is working for Claud Craig at Leland.

L. Clanin has a man helping him repair his threshing machine and getting ready for work, which will begin soon.

Nelda Butler and her nephew, Glen Hughes, made a horse-back trip to Cedar creek Sunday, where they visited relatives and friends.

Mr. and Mrs. J. B. West, Miss Jessie Butler and Mrs. Claud Burrus drove to Orofino on Monday to look after business matters.

Mr. and Mrs. Orval Choate are the

PERSONALS

Bob Dammarell was a week-end visitor with friends in Spokane.

Mrs. Jessie E. Callison left Monday for Spokane where she will make an indefinite stay.

Little Miss Loraine Gookie of Spokane arrived Tuesday evening for a visit at the Ben Cummings' home.

Mrs. W. L. McCreary and little daughter Patricia are spending the week with her mother and sister in Spokane.

Arnold S. Lyon of Moscow was in Kendrick Friday of last week in the interest of his candidacy for county commissioner.

Mr. and Mrs. C. H. Ede of Winona, Wash., were visitors at the Frank Rider home on Wednesday of last week.

Jas. Winegardner of Piedmont, Calif., arrived Saturday for a short visit with relatives in the Southwick section. Mrs. Winegardner is visiting in Boise for the present.

Marlow Haynes and Phil Smith of Helena, Mont., arrived Tuesday afternoon for a visit at the W. J. Carroll home, having made the trip overland. Mr. Haynes is a brother of Mrs. Carroll.

Mr. and Mrs. Guy L. Foster of Elk River came over Sunday for a visit with his parents, Mr. and Mrs. Ira Foster. They were accompanied home by Mrs. Grant Bateman of Southwick and Miss Allie Foster, who will pick huckleberries there for a few days.

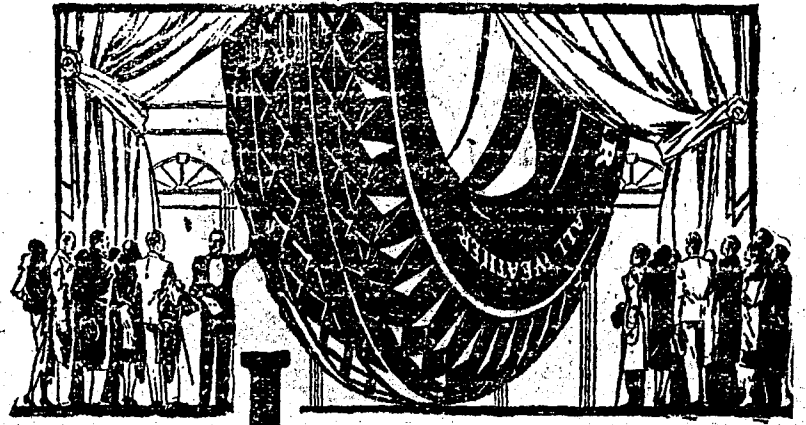

Got Back—and Fish

Marvin Long, accompanied by Roy Long, went to Slate creek Monday afternoon, after hearing that Ira Bolton caught several while over there on Sunday.

Marvin said he got the limit—but it is the first time we ever heard of a fellow running them down with a horse. But laying all jokes aside, Slate creek is said to be a wonderful place to fish—if you've got nerve enough to go in there.

In order to get trout these days it is necessary to go 'way back where everyone else doesn't go. Marvin tried to lead them out behind a horse, but they wouldn't follow worth a cent.

We use the best to be had in preparing our meals. **Hotel Kendrick** 14-

Car Over Grade

The 'lower' Freeman Creek grade witnessed another car wreck last Sunday evening when an Essex sedan turned over the grade and upside-down, coming to rest with all four wheels in the air.

The car was driven by Jessie Butler and the occupants were her family, including Mr. and Mrs. J. B. West and two children and Gene Patterson, numbering nine altogether. No one received serious injuries and, considering the place, time and number of people in the car, the accident was proclaimed to be the "luckiest of the season."

Able to Be Out Again

H. H. Sparber, living a short ways up on American ridge, who was seriously injured two weeks ago when the moving machine he was riding struck a stump and threw him out of the seat, the team backing one wheel of the machine over him, breaking two ribs on the right side and his left collar-bone, is again able to be about although he has to walk with the use of a cane.

It was indeed a narrow escape from a more serious injury and his host of friends will be pleased to learn of his recovery.

Candidate Visits Kendrick

Mr. Guy W. Wolfe, candidate for District Judge, visited Kendrick Thursday. He states that he has been in several parts of the county and that registration for the primaries seems to indicate that the voters are taking an increased interest in the coming election. As to the race for the judgeship Mr. Wolfe says that all of the candidates are busy hunting up their friends urging them to register and vote.

For himself he says that he has had twenty-four years' experience as

a practicing attorney and two years as a clerk of court under a very successful judge. He has served one his experience in these various capacities should prove valuable if he should be selected for the district judgeship. He has a well-equipped library of his own, which he is keeping up to date. Mr. Wolfe has taken part in many public enterprises and for these reasons has many friends supporting him in the race. 30-1x

The Flashlight

Little Flashes of This and That

Vol. 1. Kendrick, Idaho, July 11, 1930 No. 4

Published in the Interests of the People of the Entire Potlatch Country by the Kendrick Hardware Company, Harold Thomas, Editor.

A dentist was sitting in his front office using the hunt and peck system on his typewriter. In the back room his assistant was successfully burning rubber. In came a traveling man: Say: "I smell rubber burning."

"Yep," said the dentist, "It's this typewriter."

We have one of the finest socket wrench sets you ever saw, with every conceivable socket, swivel joints and everything, all for \$7.00.

Remember, 5 per cent off for cash.

Angue—Have you noticed how your health has improved since you have an auto?

Sandy—Oh, yes, I have a fine appetite now if I could only afford to eat.

All of which reminds us that we have 5 gallon galvanized gas and oil cans for only \$1.25.

Hard to Reconcile

New car after new car on the road—theaters crowded—and they talk of "hard times." Don't make us laugh. Our business is better than ever. Our low prices,

less five per cent for cash, is what is doing the trick.

Mary—She let that fool kiss her.

Marie—But worse still, she let that kiss fool her. Implement Business Still Good

Kreuger Brothers of Cameron took delivery of a new McCormick-Deering binder this week.

Auto Salesman (desperately): Madam, if you take this car we will put your initials on it free!

Mrs. Saver: But my husband says its not the initial cost that counts, but the upkeep.

True—but buy your enamel ware, cups and saucers, knives, and cooking utensils here and save that up-keep.

She: "What has become of all the cab horses since taxis came out?"

He: "If you played the races, you would find out."

Ira Bolon to Marvin Long: "Have you caught anything yet?"

Marvin: "No, but I have tamed the fish so that they eat off my hook."

"AND HERE WE HAVE IDAHO"

Idaho Territory was organized in March, 1863. Its northern, western and southern boundaries were about where they are now, but the eastern line was drawn along the continental divide, and so included much of Montana and Wyoming. The state was admitted in 1890, since which time our area has not changed.

Our state contains 83,354 square miles or sections of land, over 53,000,000 acres, constituting one thirty-sixth of the entire area of the United States. Only about 500 square miles of Idaho is covered by water.

Of the forty-eight states in the union, Idaho is twelfth in size. It is a little larger than either Kansas or Utah, a little smaller than either Oregon or Wyoming, which four states most nearly equal it in size.

Idaho exceeds in area all the New England states combined; it is nearly 80 times as large as Rhode Island, nearly double the size of New York state, about one-half as big as California, one-third as large as Texas. It is 500 miles long on its western line, 45 miles wide at the Canadian boundary and over 300 on the southern line.

The center of area of the United States is near Julesburg, Colorado; of Idaho, not far from the Henry Ford mine in Custer county, south and west of Challis.

The population and wealth of Illinois are about fourteen times that of Idaho; a line drawn diagonally from Chicago to Cairo extends about 335 miles. From Bonners Ferry to Paris, Idaho, by the usual traveled route is 986 miles. Roughly speaking there are forty-two times as many persons and the same proportion of dollars per diagonal mile in Illinois as in Idaho. The cities of Chicago and New York combined contain 21 times as many people as our entire state.

Idaho county, our largest, is 21 times the size of Payette, which is the smallest. The former contains 8,539 sections, the latter 414 sections of land. The two medium sized counties are Adams and Boundary, each with about 1,400 sections.

The shape of Idaho has been compared to that of a high backed chair, sometimes to that of a shoe. It is so long and narrow, its shape is so far from a square, that it has the longest "coast line" in comparison to its area, of any state in the Union.

It is obvious that the features of the state above noted have an important bearing upon per capita cost of state government, a statement intended to provoke thought, but not to be argumentative.

Only 7 1/2 per cent of Idaho is under cultivation; only 26 per cent is on the tax rolls. Nineteen forest reserves make up 36 per cent of our entire area. The state itself owns 5 1/2 per cent, while Federal and unappropriated lands make up the remaining 32 per cent.

Genesee Wins Championship

Genesee won the championship of the White Pine-Latah league in a playoff game Sunday from Troy to the tune of a 9 to 6 score before a large crowd. The league season ended last week with the teams tied for first place with each eight games won and four lost.

The battle was a see-saw affair until the seventh when Genesee made a rally that put them in commanding lead. Troy made a desperate ninth inning attempt to overhaul the Genesee boys with a home run clout by Chief Stevens with a man on, resulting in two runs, but Jacobs closed down and the side was retired without further scoring.

Wagon Goes A-Swimming

The latter part of last week the contractors for excavating at the new school gym thought to soak up the tires on one of their wagons and took it down to the old swimming hole above the depot and backed it down in the water. Some-how or other they failed to realize that the drop-off was rather sudden and the water 25 to 30 feet deep. Anyway the wagon kept right on going and finally landed at the bottom, several feet below the surface. It was later rescued, but the boys had a lot of fun trying to rescue it.

Have You Registered

Have you registered for the primary? If not, and you want to vote—and you should—you have only until tomorrow (Saturday) evening at 9 o'clock to do so. You can register at the office of C. A. Oppenborn, Kendrick. Better do it now.

A GIFT TO YOU!

Stuart Compton of the Twin City Chevrolet Co., Lewiston, will pay you \$5.00 in gold for the names of prospective purchasers of a new Chevrolet or \$2.50 in gold on a used car or truck that he is able to sell. Address your communications to him personally at the above address. All correspondence answered. This offer good until Aug. 1. Deal to be closed by Aug. 10. Send in your names right now! 28-2

Idaho Potato Grade Stands

Idaho's potato grading law not only is constitutional, but designed and operates for the benefit and protection of growers, declared Judge W. A. Babcock of Twin Falls in a memorandum decision received Saturday by state officials. The opinion was handed down in the suit by Harry T. West and others seeking to have the law declared invalid.

The opinion was hailed by the department of agriculture and by representative, business men as a victory for the Idaho policy of handling high grade products which will command a premium in the east. It closes a three year fight over the grading regulations which started in the regime of A. W. B. Kjosness, commissioner of agriculture.

"The act itself," Judge Babcock declared, "and the requirements thereof as to the classification of the products and the branding of the containers is not unreasonable in its provisions, and I find that the methods adopted by the department of agriculture in inspection are neither whimsical nor oppressive to the growers and dealers. I am of the opinion that the provisions of the law are for the best interests of growers and shippers and that the act promotes the general prosperity of the agricultural industry in Idaho."

It was in January, 1927, that Kjosness started application of the grading regulations, then merely departmental rulings. They required the inspection of the product, classification of potatoes according to set grades and labeling of all potatoes according to these grades. These regulations immediately started a storm of protest; Carl De Long, Twin Falls dealer, obtained a temporary injunction against enforcement.

Should Conserve Water

There has been some discussion of the water situation in Kendrick recently and on inquiry it was learned that there is sufficient water for present needs, but that water users should not waste it. It will be necessary to conserve it to make sure that there will be plenty for all purposes. The council hopes that people will use their own good judgment in this matter so it will not be necessary to restrict its use in order to conserve the supply.

A round of the different springs supplying Kendrick with good, pure water, was reported as follows:

Burns spring, which has heretofore always been one of the strongest springs in the system, is flowing only about half its former normal amount; the Reed spring is weak; Bear Ridge spring is still flowing its normal amount and is the strongest one of the four supplying water; Vollmer Gulch spring is very good and about up to standard.

The point is brought up that while there is sufficient water at this time, the season is very warm and dry and the flow of any or all of the springs may decrease.

It is better to use a reasonable amount of water now than to have to go on a stint later on, for it is necessary to keep a certain stage of water in the reservoir for fire protection.

Another Fishing Party

Late Saturday night George Brocke, Ira Bolon and Hank Cambridge of Genesee went over to Slate creek fishing. They arrived at the designated place all right and are said to have had good luck, landing many members of the finny tribe. But the return trip is where they really got their money's worth.

It seems that Mr. Brocke did not have a spare tire, and neither did he have a patching outfit or jack in his car. Well, everything went all right until a nail stuck itself right through one of the tires and let the wind out. That is when the real fun of the trip began. They had to sit alongside the road and stop passers-by and ask them for first one thing and then another, getting a jack from one, a pump from another, a patching outfit from another, and so on. But they finally got all things together and one good Samaritan did the patching for them—and then they were all set to come home. The roosters and robins were just about through their morning lays when the trio reached Kendrick, just the least bit tired and sleepy—but with fish—and happy.

Picnicked In Park

A very pleasant little picnic party was held in the City park last Thursday evening when Mr. and Mrs. A. K. Carlson and children, Mr. and Mrs. Frank Rider and children, Mr. and Mrs. Wade Keene and children, Mr. and Mrs. R. H. Ramey and children, Mr. and Mrs. Geo. Leith and H. B. Thompson and children gathered there to eat dinner.

NOTICE TO VOTERS OF LE. LAND PRECINCT

All persons who wish to vote at the Primary election August 5, had best register at once, as registration closes Saturday, July 26, at 9 p. m. 29-2 JENNIE HUND, Registrar.

YOU work shoe wear-ers have always needed a work shoe that stays soft—that doesn't scuff—that holds its seams under heavy strain—and that lasts longer.

Car Turns on Side

While returning from work on the rock crusher situated between Kendrick and Troy last Wednesday evening Walter Brocke had the exciting experience of having his car turn on its side.

At the top of Brady Gulch, as he was starting down the left front spring on the car, a Chevrolet coupe, broke, disconnecting the steering gear. The car swerved to the left of the road, climbing the steep bank until the right wheels dropped into the left hand ditch, the car then flopping over onto the right side, smashing a fender, running board, and corner of the top.

Mr. Brocke felt the spring give way and braced himself for the crash and as a result was only shaken up a little and received one small scratch on the left arm. What might have happened had the car swerved to the right instead of the left is problematical, but results would undoubtedly have been much more serious.
