73 Bushels Wheat To Acre

A yield of 73 bushels of wheat per acre was reported last week to have been raised on the Harry Pearson farm near Lapwai, 60 acres having produced 2200 sacks.

The largest yield so far reported at Kendrick has been 63 bushels per acre, raised on one of Wade Keene's farms, but there are many yields of from 40 to 55 bushels reported in this section—enough to convince anyone that if the price of wheat was anywhere near what it should be this section of the country would be literally "rolling in money."

LAPWAI AND JACQUES HAVE DESTRUCTIVE FIRES

Three quarters of a block of business houses and homes were laid waste by a fire of supposed incendiary origin which broke out in the C. E. Sumpter livery barn and the Joe Evans restaurant this morning at 1:40 o'clock, causing an estimated loss of \$15,000.

The livery barn, restaurant building and Martin Carlson merchandise store and C. E. Sumpter residence were leveled by the flames, the roof of the Perry Garage was burned, telephone poles destroyed and minor damage done to other buildings.

Lack of water pressure made the efforts of the volunteer firemen practically futile in checking the flames, a meager stream of water being available out of a single fire hose. The Lewiston fire department dispatched a load of chemicals to Lapwai in the fire chief's automobile.

The Chas. Sumpter family barely escaped with their lives, just having time to get out before the roof caved in.

The old Fenderson hall across the street from the Evans restaurant caught fire twice but the blazes were extinguished. Explosion of canned goods in the Carlo's store kept everyone at a distance.

Had the fire not been checked at the Perry garage, the entire business district would have been in danger of destruction, firemen said. A large building and a narrow street lies between the garage and the Roy C. Lane store building.

Fires, driven by strong winds, struck twice in the Culdesac region Wednesday and Thursday of last week, threatening to wipe out the little settlement at Jacques Spur and burning livestock and farm buildings on the Henry Crozier farm, with an aggregate loss of \$15,000.

The old store at Jacques Spur, built many years ago by E. Jacques and once a familiar way station for stage travelers and horsemen going from Lewiston to the prairie country, was leveled by the blaze Wednesday afternoon. The fire at the Crozier ranch, 2½ miles northwest of Culdesac, broke out early Thursday morning, causing a loss of \$10,000.

Two horses and a calf perished in the Crozier fire, despite efforts of neighbors to clear the barn in which the fire originated. The loss included 120 tons of hay, the corn crib, granary, silo, machine shed, shop and other buildings and fences. The loss was said to be covered by insurance.

J. I. Mitcham Convalescent

Word has been received by Kendrick friends from J. I. Mitcham of Tiger, Wash., that he has just returned from the hospital at Ione, Wash., where he recently underwent a minor operation, that he is getting along nicely. Mr. Mitcham was mail carrier on Route 2 out of Kendrick for some 27 years and is now resting on his laurels and drawing a retirement pension.

Putting In New Floor Cases

The Red Cross Pharmacy is putting in four new floor cases which are indeed a credit to the institution and to Mr. Nesbit, the proprietor, who made them from show cases. One would never suspect that one of those pretty floor cases had ever been a lowly show case, but such is the "case." They add very much to the beauty and convenience of the store.

Parents of Daughter

Mr. and Mrs. Matthew Peckena are the proud parents of a baby daughter, who came to their home about 9 o'clock last Sunday evening, August 17. Mrs. Peckena was formerly Miss Callie Mabaugh and they reside some three miles north of Southwick.

COUNTY CONVENTION IN FACTIONAL FIGHT

The republican county convention held at the court house in Moscow Tuesday was perhaps one of the hottest contested affairs ever held in Latah county. The fight started right with the opening gun. County Chairman R. C. West called the meeting to order and made the usual opening remarks, after which he stated that nominations for temporary chairman were in order, at which time W. G. Barge immediately got to his feet and placed in nomination J. L. Naylor, followed by the nomination of Judge Adrian Nelson by J. C. Peterson of Troy for the position. The nominations were closed—and the fight was on. After the smoke of battle had cleared it was found that Judge Nelson had received 47 votes and Mr. Naylor 46. Some of Mr. Naylor's friends immediately asked for a count of delegates and a few other things, intimating that fraud had been practiced, perhaps, in some instances. However, this was soon ironed out and the convention proceeded with the business before it. A. W. Behrens of Juliaetta was made temporary secretary.

A short recess was taken in order that the chairman might select members of the various committees necessary to be appointed to complete the organization. A recess was later taken until 2 o'clock in the afternoon. After the convening of the convention all went well until it came time for the electing of delegates to the state convention and a hot fight was precipitated when the list prepared by the committee on delegates was read and its adoption moved by Judge Warren Truitt, chairman of the committee. The list submitted consisted of the following: Alfred S. Anderson, Abe Goff, H. W. Canfield, J. S. Heckathorn, B. J. Jones, Wade Keene, E. D. Pederson, B. C. Rowe, Arthur Snow, R. R. Sherfy and Guy W. Wolfe.

E. W. Porter of Juliaetta and W. G. Barge of Moscow led the fight against these delegates. Mr. Barge accusing the chairman of aiding in "steam roller" tactics after the chair had refused to accept a list of delegates presented by Mr. Barge, until after the disposal of the one submitted by the nominating committee. From then on sharp words were used in charges and counter charges by both sides, Judge Truitt and W. G. Barge being the principal spokesmen for the two factions. The list of delegates submitted by Barge was as follows: C. A. Hagan, J. A. Harsh, Arlie Decker, Herman Wilson, E. W. Porter, E. C. Collins, R. C. West, Harold Cornelison, Milburn Kenworthy, Abe Goff and Arthur Snow. Barge accused Truitt of trying to steam-roller a Defenbach list of delegates into the convention and submitted a list favoring John McMurray, it was claimed by the opposition, and it was along these lines that the fight was precipitated.

It was finally decided by the convention that both lists of delegates should be submitted to the delegates present and let them make their own selection, which resulted as follows: From the original list presented by the committee—Alfred S. Anderson, J. S. Heckathorn, B. C. Rowe, Arthur Snow and Guy Wolfe. From the list presented by Mr. Barge the following were taken: J. A. Harsh, Arlie Decker, E. W. Porter, T. C. Collins, R. C. West and Arthur Snow. Arthur Snow's name appeared on both lists and he was accorded the largest vote of any delegate named, showing that both sides had faith in his fairness. A resolution was passed that the delegates go uninstructed insofar as the governor was concerned, but that they be instructed to work for the renomination of Senator W. E. Borah and Burton L. French for congress.

By a vote of 42 to 41 J. A. Harsh was elected as state committeeman to succeed himself, over J. S. Heckathorn.

And thus was brought to a close one of the real old-fashioned conventions that one seldom has the privilege of attending these days of cut and dried proceedings.

Work On Gym Progressing

The work of erecting the new gymnasium is progressing in good shape, the brick work having been begun Monday morning. Contractor Jordan is bending every effort to have the building completed as soon as possible after school starts.

KENDRICK TO HAVE UP-TO-MINUTE PICTURE SHOW

The hope of many of us that Kendrick might have a new and modern picture show is fast materializing and Friday night, August 29, will see the opening of the theater, completely equipped for sound pictures.

Harold A. Zell of Lewiston has taken a 3-year lease on the Kendrick theater and work has already been begun on the redecoration of the building, inside and out, and with the complete redecoration of the front, the building will present a truly fine appearance. The work, inside and out is being done by an expert decorator, formerly of Seattle, but now of Lewiston.

Talking equipment has been purchased and is arriving every day and installation will start almost immediately, if not in progress, when this paper comes off the press.

It has long been felt that Kendrick should have and can support a real picture theater, and now that talking equipment has been installed it will not be necessary to go to Lewiston, Orofino or Moscow to see a real show, for it can be seen in Kendrick, and to show us that he means business one of the greatest pictures of all time "Flight," said to be one of the greatest since "The Birth of a Nation" will be the opening attraction, and should pack the house the three nights it will be shown. It is all talking and a great deal of the action was taken in the air. This picture must not be confused with "Wings," "Hearts Aflight," "The Dawn Patrol" and others, and we are sure that it will speak for itself, and warrant the high place that film critics have given it.

Mr. Zell is a young man, but he knows the picture business from A to Z and will give the people up-to-the-minute shows in every way. Mr. Zell has been and still is connected with the Granada theater at Lewiston, where he has been an employe for some years. He also makes news-reel feature pictures for the International Newsreel Corporation, being not only a motion picture operator of the first order but a Camera-man as well.

Mr. Zell plans in the future to make pictures here in Kendrick—giving the residents an opportunity of seeing how they themselves look in moving pictures, not just a single photo.

This thoroughly modern theater is one of the biggest things that has come to the Kendrick-Juliaetta valley for many months and will mean much to the territory, for the more we become self-sufficient unto ourselves, the more we will all prosper. In this day and age of the world clean entertainment is as important and as necessary as a car or truck and we are sure that the people of this section will not be disappointed in the type and quality of entertainment provided by Mr. Zell.

Pageant at the Methodist Church

A service of interest to all will be held in the Methodist church, Sunday evening, August 24th, at eight o'clock. Eight young girls will present the pageant entitled "Janey." "Janey" in the first scene is an uncouth, sullen, vicious girl from the southern mountains. She is sent to a home and school of the Women's Home Missionary society, where she finds the joy of fellowship with Christ, and returns to carry that message of joy to other lives. Mrs. Hammond reaps the joy of her loving act through the transformed life of her daughter, Ethel.

The cast of characters is as follows:

Mrs. Hammond, Janey's benefactress
Doris Emery
Ethel Hammond, her daughter, very haughty and indifferent
Eleanor Herres
Janey Ravis, 14 years old
Hazel Reed
Mrs. Ravis, her mother
Phyllis Cummings
Lucy, maid
Maxine Keene
Mrs. Denning, caller, and friend of Mrs. Hammond
Allie Foster
Janey Ravis, at 19 years of age
Nona McAllister
Rosa, Mrs. Hammond's maid
Catherine Emery

On Job Again

Miss Margaret McDowell is again on the job at the Farmers Bank after a two-weeks vacation spent at home and at Orofino.

Stag Dinner Thursday

J. Black, construction foreman for Contractor Jordan on the new gymnasium now being erected just at the rear of the school house, was host at a chicken dinner on Thursday evening, Aug. 20, to the men and to contractor Jordan.

The big feed was held in the domestic science room of the school house. Those present say they had as enjoyable a time as it is possible for anyone to have.

CUPID BUSY—TWO COUPLES TAKE MARRIAGE VOW

Charles Flatt of Moscow and Miss Ruth Weatherby of Juliaetta were united in marriage Sunday morning at the home of Mr. Flatt's uncle, the Rev. A. E. Janes in Kendrick, Mr. Janes performing the ceremony. Mr. Flatt's brother and wife were the only relatives present.

Mrs. Flatt is one of Juliaetta's popular young ladies, the daughter of Mr. and Mrs. Weatherby. She graduated from the Juliaetta high school and last year was a student at the Lewiston Normal school.

Mr. Flatt is the son of Mr. and Mrs. C. Flatt of Nezperce, where he grew manhood. He is an employe of the First National Bank of Moscow, where he has been for several years. After a short honeymoon Mr. and Mrs. Flatt will be at home in Moscow.

Miss Hedvig Pearson, daughter of Mr. and Mrs. P. G. Pearson of Troy and Ralph Woody, son of Mr. and Mrs. John L. Woody, Kendrick, were married on Saturday, August 16, at the Methodist parsonage, Pomeroy, Washington, by Rev. Scott.

The young couple will reside at Pomeroy where Mr. Woody is employed by the P. J. Bue Warehouse company.

All Mr. Woody's Kendrick and Juliaetta friends wish he and his bride all the happiness in the world and his share of this world's success.

Lay Off Night Crew

Operations at the mill of the Clearwater Timber company were reduced to one nine-hour shift Saturday, the night crew being laid off. The company announced two weeks ago that this step would be taken August 15, the reason being that a scarcity of orders had created a great oversupply of lumber at the Lewiston plant.

Approximately 200 men will be affected by the lay-off. C. L. Billings, assistant manager of the company, said, adding that it is hoped that the market can be stimulated so that the plant can increase its labor roll soon. The day shift will not figure in the curtailment at the mill, which means that between 400 and 500 men will continue steady employment.

The lumber industry in the United States has been in a demoralized condition since early spring. In May, a number of coast mills shut down completely, and others followed step by step in June and July. One reason for the slack business is attributed to importations of lumber from foreign shores, Russia in particular, where it is said convict labor is used, allowing the output to be sold in the United States at a lower price than is possible by the mills of this country.

Mrs. Schuler Writes

The following short letter has been received from Mrs. F. C. Schuler, a former Kendrick resident, but who now resides at 728 36th avenue, San Francisco, and will be read with interest by her friends here:

"Enclosed find \$1.50 for my subscription as I would not know what to do without the Gazette. California is a very nice place to live but Idaho is just as good. There are many very pretty places in Idaho and Kendrick is one of them. I worked for the telephone company in Kendrick for four and a half years and am still at the telephone job. I work in one of the new dial offices here. There is something very fascinating about telephone work and it seems that I cannot get away from it. I am still hoping to see Kendrick and all of its wonderful improvements some time."

Big Chicken Dinner

On Thursday night of this week J. Black, construction foreman for the new gymnasium, gave a chicken dinner for his workmen on the new building and Contractor Jordan in the domestic science room of the school building.

MARKET SLIGHTLY WEAKER AS RAINS RELIEVE

Domestic grain markets weakened slightly during the week ending on August 16, and prices of most grains declined from recent higher levels, according to the weekly grain market review of the United States bureau of agricultural economics. Increased offerings of spring wheat and prospects that supplies of wheat in the northern hemisphere for the current season may equal or possibly slightly exceed those of last year, were weakening factors in the wheat market. Scattered rains in the central west which partially relieved the drought in some areas, checked the advance of the corn market. Oats and barley continued in moderate demand, but some of the recent advance in price was lost. Rye was lower with wheat, while flax declined under the influence of heavier offerings and only moderate inquiry for new seed.

On August 1 official estimate placed the United States spring wheat crop at approximately 175,000,000 bushels, and the durum crop in the four principal producing states at 48,000,000 bushels, making a total of 223,000,000 bushels of spring wheat compared with 228,000,000 bushels produced last season. The estimate of winter wheat was raised 597,000,000 bushels, about 40,000,000 bushels over the July 1 estimate and about 20,000,000 bushels over last season's harvest. This would give a total output of all wheat of about 821,000,000 bushels, or 15,000,000 bushels more than in 1929.

The August 1 estimate placed the spring wheat acreage in Canada at 24,085,000 acres, and the condition of the crop at 85 per cent of the 10 year average yield of 1.9 bushels per acre. This suggests a crop 65,000,000 to 75,000,000 bushels over last season's harvest. Stocks of old wheat in Canada were estimated at 112,000,000 bushels, or about 8,000,000 bushels larger than a year ago. Combining production and carry-over of wheat in North America for the current season, estimates of the United States and Canada, supplies apparently will be around 125,000,000 bushels above those of last season.

Little information is yet available as to supplies of wheat in Europe, but stocks of old wheat are probably around 50,000,000 bushels smaller than a year ago. The 1930 European production, not including Russia, may be around 75,000,000 to 100,000,000 bushels below that of last season, largely because of smaller crops in France and Italy. The reductions in Europe and North Africa, however, are probably more than offset by the increase in North America and the larger crop in India. Reports from Russia indicate that the harvest in that country is above that of 1929, and the quality of the grain is good, although of higher moisture content. Conditions in the Southern Hemisphere indicate a larger harvest than in 1929, but the crop has four or five months to go before harvest, and conditions during that period will largely determine the output. A record acreage is reported seeded in Australia and weather conditions continue very favorable for the growth of the crop both in that country and in Argentina. Supplies of old wheat in the southern hemisphere are considerably below a year ago.

Marketing of hard winter wheat fell off materially during the week, but demand continued fairly active at most markets, with mills and shippers absorbing the current offerings. Cash prices, however, mostly followed the decline in futures and were 4c to 5c lower than a week ago. Ordinary protein No. 2 hard winter was quoted at Kansas City at the close of the market August 15 at 80c to 83½c per bushel. 12½ per cent protein sold at a 1½c to 2c premium and 13 per cent protein at 2c to 3c over the ordinary types. The protein of the week's receipts averaged 12.4 per cent and was slightly higher than that for the previous week. A steady demand at Omaha from both local mills and from shippers for export via lake ports. No. 1 hard winter, ordinary protein, was quoted in that market at 82½c per bushel August 14. Mills and elevators were over-bidding exporters at Fort Worth and were paying 97½c to 98½c per bushel for No. 1 hard winter, compared with exporters bids of 96c to 96½c F. O. B. track at Galveston on an export rate. Holders of storage stocks were not active sellers, and mills were obtaining a part of their supplies from the Kansas City territory. MARKET SLIGHTLY WEAKER AS RAINS RELIEVE

from recent rains, restricted country marketings of wheat in the Denver territory, but arrivals at that market were slightly larger. No. 2 hard winter was quoted at 60c to 70c per bushel at the close of the market on August 15.

Soft winter wheat was relatively firmer than hard winter, with the southern and southeastern mills bidding actively for the reduced offerings. Receipts at St. Louis were only about two-thirds those of the previous week and current offerings were hardly equal to the inquiry of mills and shippers. Elevators were offering their supplies at track prices. No. 2 soft red winter was quoted at St. Louis August 15 at 92½c and No. 1 soft red winter at 94c, while No. 1 hard red winter was selling in that market at 89½c to 91c. Southern mill swere active buyers at Cincinnati, but higher bids failed to increase country shipments. No. 1 red winter was quoted in that market August 15 at 94c to 95c per bushel.

Spring wheat prices weakened as a result of increased offerings of the new crop, and heavier hedging pressure to cover this movement. Mill demand was fairly steady but premiums were being paid for heavy test weight rather than for protein. Color and test weight were also the important factors in Duluth with protein being given less consideration. No. 1 dark northern closed in that market August 15 at 95c to 96c and No. 1 northern at 92c to 95c per bushel.

The durum wheat future market declined with other wheat, but the cash market had some independent strength, particularly for milling quality, as the result of an active inquiry from mills. The Duluth September price declined 7c per bushel during the week and closed August 15 at 83c. No. 1 amber durum was quoted in that market at 83c to 92c. Canadian spring wheat markets were weaker than the domestic markets. October wheat at Winnipeg declining 7½c. Cash markets followed the full decline in futures with No. 1 Manitoba Northern quoted at Winnipeg August 15 at 93½c per bushel.

Pacific coast markets were rather unsettled. The demand at Portland was dull with export demand lacking. Rates on ocean freight space have been advanced and this has checked export business. No sales were reported for the week and charters for September and October shipment were unusually dull. Country offerings increased, with new crop yields averaging higher than expected in important producing areas. Mills were fairly active buyers but export flour sales were small. No. 1 soft and western white wheats were quoted at the close of the market August 15 at Portland at 93c, No. 1 hard winter and western red at 90c, No. 1 Big Bend Bluestem hard white at \$1.08 per bushel. 14 per cent protein No. 1 dark northern spring from Montana was quoted at \$1.01 per bushel. No. 1 western white was quoted at Seattle at 93c, No. 1 hard winter and western red at 91c and No. 1 Big Bend bluestem hard white at \$1.09 per bushel. No. 1 dark hard winter from Montana was quoted at 97c and 14 per cent protein No. 1 dark northern at \$1.02 per bushel.

The Los Angeles market weakened slightly during the week as a result of more liberal offerings from eastern shippers, which was competing with local grain. Current demand was of only moderate volume as mills were taking delivery on purchases made sometime ago at lower prices. Demands from feeders was fairly active.

PERSONALS

Mr. and Mrs. H. B. Thompson and children spent Wednesday in Lewiston.

Miss Eldwa Janes returned home Sunday from Peck, where she had spent the summer vacation.

Joe Gardner, formerly of Kellogg, but now of Kamiah, is visiting at the home of Mr. and Mrs. R. H. Ramey.

Mrs. Lloyd Carr and daughters of San Diego are guests at the Frank Rider home. Mrs. Carr is a niece of the Riders.

Mrs. L. J. Herres and Eleanor, Mrs. E. H. Field and Miss Rilla Davidson were Lewiston visitors on Wednesday.

Wm. France arrived Monday from Arizona, where he has spent the past year, having gone there for his health. He is now feeling quite well.

Fred Allen and wife arrived Saturday from Loma Linda, California, and are visiting relatives at Linden. They are former residents of this section.

Mr. and Mrs. Marvin Long returned Saturday evening from a short vacation trip to Payette Lakes, stopping on the way and picking a few speckled beauties out of Slate creek — going and coming.

Mr. and Mrs. C. C. Blackburn returned Wednesday evening from a few days visit with their son, C. M. Blackburn and family at Cavendish. Mr. Blackburn had the thrill of riding on a combine during his visit.

H. M. West and wife of Sedro-Wooley, Washington, former Kendrick residents, were visitors here for a short time last week-end. Mr. West formerly published the Gazette for a short time. They had been visiting his parents at Orofino.

R. J. Kennedy from the northeast part of Pennsylvania arrived Monday of last week with his family and expects to remain in this section. They are friends of the H. S. Weaver family of Linden. Mr. Kennedy is employed on the new gymnasium.

Mrs. Sarah Crow and daughter, Mrs. Stanley Talbot, and two children and Miss Hoke, from Lewiston, and Mrs. Crow's niece from the Hawaiian Islands, were Kendrick visitors Sunday, picnicking in the park. Mrs. Crow was a guest of Mrs. N. B. Long while here.

Mrs. Walter McCall returned to her home at Kellogg Saturday after a short visit at the home of her parents, Mr. and Mrs. Carl Hartung. Zelma Hartung, who had been visiting at the McCall home, returned to Kendrick with Mr. McCall, who drove down after his wife.

Mrs. J. C. Allison of Nelson, B. C., sister of Mrs. W. B. Deobald, and three children, concluded a visit at the Deobald home and were taken to Lewiston by Mr. and Mrs. Deobald. From Lewiston she will go on to American Falls for a visit with her parents, who reside there.

Mrs. Paul Peitrich and mother, Mrs. John Roberts were Kendrick visitors Monday of this week. They were here renewing acquaintances and looking after business interests. They left that same evening for Deary, Idaho. From there they will go back to their home on the coast.

Small Thunder Shower

A miniature thunder shower visited the Kendrick section Monday evening that cooled and cleared the atmosphere, very materially.

The Descendant

The man who used to rein in his horse so suddenly that it reared on its haunches now has a son who dashes up to a street intersection at thirty-five miles an hour, depending on four-wheel brakes and the kindly Providence that protects idiots, to stop him in six feet.

Smith's Fast Mail Has New Car

"Smith's Fast Mail," that plies between Kendrick and Southwick, has added a new mail car and is now equipped to take care of all the business that comes his way—at one trip—the new car being a new Ford one-and-a-half-ton truck.

Several propositions have been made Mr. Smith for the loan of his new car for fishing and other trips where a craft of that kind might be useful. It's a dandy rig, anyway.

Heavy Combine Run

The heaviest combine run so far this season was that of Walt Bigham, who combined 703 sacks of wheat one day on the Harry Langdon place.

Mr. and Mrs. James Smith and daughter of Spokane are spending their month's vacation with relatives Mrs. C. E. Harris visited her cousin, Grace Farrington Monday. She is in a Lewiston hospital. Her condition is reported improved.

Threshing is in full swing in this neighborhood with two machines and a combine at work. The grain is yielding very well.

Cleve McPhee and Fred Zimmerman are in Kendrick loading lumber for Clem Israel.

W. W. P. Closes Range Campaign Last week the Washington Water Power Company Westinghouse range campaign closed, with quite a number of ranges sold. The new Ruby apartments were completely equipped with new Westinghouse automatic ranges and water heaters, besides a number of others being sold during this and the Hotpoint campaign, all of which goes to prove that the Kendrick and Juliaetta valley offers a fertile field for the sale of electric equipment.

It is all the more indicative of the field when one considers that we have only part time office service, Mr. Schupfer having many outside duties to occupy his time and then, too, Kendrick is operating on only a partial advertising schedule, proving a still greater handicap. We do not know how this territory's sales compare with those of others, but we'll wager they are near the top.

Getting Along Nicely Harry Flaig, who had one of his feet quite badly injured some two weeks ago by timbers falling on it as he was unloading a truck of the Barnum Lumber & Mill Co., is able to be about on crutches and will soon be on the job again.

The Flashlight

Little Flashes of This and That

Vol. 1. Kendrick, Idaho, August 8, 1930 No. 8

Published in the Interests of the People of the Entire Potlatch Country by the Kendrick Hardware Company, Harold Thomas, Editor.

Nathan B. Stealthy

Candidate for Sheriff on the Reprographic Ticket. Photo by B. F. Nesbit.

It will be remembered that in the columns of this paper two weeks ago we introduced and explained to our readers the sterling qualities of our candidate, but we also wish to remind our readers that Mr. Stealthy is the man who discovered that almost anyone can start a new dance step these days by throwing an epileptic fit on the floor. Last week just as Mr. Hammerstring was having the last of the paint taken from his trousers Mr. Stealthy came into our store for cooking utensils and seeing his fellow candidate, rushed forward to discuss the mutual platform, but on approaching to arms length smelled the turpen-

tine, gulped, turned pale, grabbed his purchases and fled, saying, "See you next week."

All the decorative material used for the remodeling of our theater and its transformation into a fine modern one, is coming from this store. Kalsomine, paint, varnish and lacquer. The pictures will be all talking and this theater means one of the greatest improvements in our town since cement sidewalks. The theater will be a real treat for your eyes and ears.

Dorothy—Bill Skite's wife has only been gone ten months and he says he is crazy to get married again.

Archie—Ye-ah; well he must be!

1929 Chevrolet truck, thoroughly overhauled, A-1 in every particular.

Liza: 'Is yo' sho' yo' wants to marry me, big boy?'

Rastus: "Absolutely. Ah's even made arrangements to quit mah job!"

Your going to need an Aladdin Lamp pretty soon. Don't forget, were the headquarters.
