KENDRICK, LATAH COUNTY, IDAHO ,FRIDAY, OCTOBER 31, 1930.

WOODY MAKES STATEMENT ON COSTS OF COUNTY

John L. Woody, Chairman of the Board of County Commissioners sent of mountain goat that Ralph had the following letter to the Moscow bagged. It appeared to be a beauty took place last Saturday, regardless

To the Editor of the Idaho-Post and Star-Mirror:

This week you published an editorial commending the Commissioners of Whitman County, Washington, for cutting down their budget for the ensuing year, most of the cut being for highway purposes. In the editorial you suggested that the Board of County Commissioners of Latah County might well emulate the example set by Whitman County.

The latter statement of your editorial must have been made without much knowledge of the Latah County budget for the ensuing year. There were slight increases made in some instances in the budget for the coming year, due to conditions over which the board has no control whatever. It was found necessary to increase the Sheriff's budget for board of prisoners, about ninety per cent (90%) of whom are boarded by Latah County at the request of the United States Government, and the Sheriff's office makes a profit of about thirty-five cents (35c) a day upon Federal prisoners. It cannot be determined in advance just how many Federal prisoners Latah County will keep. Hence, the amount allowed in the budget is rather large but only by a quartet composed of Mesdames such portion of it will be spent as Walbeck, Ben Hoffman, Bert Goudzwill be found necessary to actually

Assessor Taylor has been systematizing the work in his office by the Woodmen of the World at the getting accurate data upon each piece Leland cemetery. The following acted of property for assessment purposes. as pallbearers: Russell Smith, Charles This data is being made up into permanent records which will save the county many thousands of dollars Harrison. in the future. The writer believes that it is safe to say that Assessor Taylor has done more towards equalizing property values in Latah County during the last year than has been done in the entire history of Latah sympathy and beautiful floral offer-County and when his work is complete the cost of the Assessor's office in Latah County will be greatly reduced.

For the past twenty years, Latah County has kept its expenditures to a minimum in spite of all the criticism and all the misleading articles that have appeared from time to time in the press. We have no County nurse such as Whitman County has points must be deposited in the posthad for many years. Latah County office before 5 o'clock in the evening does have a county agricultural agent but the work of the County Agent on the weed control is undoubtedly worth many times the annual expense of that office. If the farmers and business men of Latah County wish holding the mail open until 6 o'clock to save the expense of a County Agent, the Board will be glad to comply with such requests.

The law compels the County Commissioners to advertise the date when the budget is completed and a date is set for hearing. If you had any information that any budget request was excessive, it was your duty to appear before the Board and show why such expenditure was not necessary. Such is the purpose of the Budget law.

But why mention Latah County and its budget without mentioning the other taxing districts or tax levying board? The amount of the tax money going to support Latah County is so small compared with other taxing units that the taxpayer would hardly notice the difference if the entire County tax levy was eliminated. In the City of Moscow, the taxpayer will be called upon to pay the following taxes upon each One Thousand Dollars (\$1,000.000) of assesed valuation:

.....\$ 5.90 State of Idaho Latah County 3.80 .18.00 City of Moscow Moscow School District, Includ-

ing County levy for school 22.60 purposes Highway District No. 2 _____ 9.00

The highway district levies throughout Latah County, over which the Board has no control whatever, except in three instances, are more than three times the amount of the levy for County purposes. The folof money the taxpayer will be called looking over the political situation. lodge at the hall last Saturday evenupon to pay from each Highway District and Good Roads District in Latah County on each \$1,000.00 of assessed valuation:

Highway District No. 1\$11.50 Highway District No. 2 9:00

Knepper Bags Goat

Friends received a letter the other day from Ralph Knepper, containing a picture taken with a fine specimen

POTLATCH PIONEER

LAID TO REST

Thomas Clarence Cook was born in Missouri, November 7, 1858, and departed this life October 20, 1930. At the age of twenty he came to California and Oregon. After spending six years there he came to the Potlatch. He took up a homestead upon which he lived for forty-six years.

He was united in marriage to Miss Emma Erickson in 1893. To this union five children were born. Walter and Claude at home and Silvie of Kendrick. Two children having died in infancy.

He leaves to mourn their loss a wife, three sons, one grand-daughter, sister, Mrs. A. A. Jaynes of Osgood, Missouri, a brother, Augustus Cook of Berkley, California and many friends and relatives.

Funeral services were held October 22 at 11 o'clock from the Leland church, the Rev. T. J. Walbeck givbuy the food for Federal and County Mrs. J. K. Haase accompanying on ward and Mr. J. M. Woodward, with the piano.

Burial services were officiated by Larson, Charles Johnson, J. M. Woodward, Joseph Tchantz and Enoch

Card of Thanks

We wish to thank our many friends and neighbors for the kindness, help, ings which were extended to us during the sickness and death of our beloved husband and father.

Mrs. Emma Cook, Walter Cook, Silvie Cook and family, Claude Cook.

Mail To Close Earlier

Mail for Lewiston and down-river to insure its being forwarded that night. This move is made for the reason that practically all of the business of the town is out of the way before 5 o'clock in the evening. By it merely holds the mail carrier at the office until that hour when otherwise he could be done with his work at 5 o'clock.

This is permissable by the postal department and Postmaster Dammarell is only complying with postal reg-, ulations when he closes the mail at 5 o'clock in the evening.

Winter In the Offing

Jack Frost made this section a visit Monday night and Tuesday morning the sidewalks and ground were covered with a carpet of green leaves that had been nipped and not given time to turn brown or any other color until they were on the ground. The mercury registered 24 degrees during the night and again on Wednesday morn-

One is gently reminded that winter is just around the corner and makes him wonder what he has done with his summer's wages.

Harry A. Thatcher, candidate for the office of county auditor, visited Kendrick Saturday and met many old- torture the ear and made a din that Friday and decide lots of things. time friends, also taking in the big soon brought Mr. and Mrs. Raby out market day doings.

Judge Gillies D. Hodge visited Kendrick Monday in the interest of his candidacy to succeed himself as each and every one of the serenaders judge of the district court. The Judge has many warm friends in this little contented married life.

R. C. West, chairman of the Republican county central committee,

by a handsome majority.

SALESDAY WENT OVER BIG -LARGE CROWD IN TOWN

Perhaps one of the best-attended publications in reply to an editorial and that was one time that Ralph of the fact that the weather was not was not "the goat." He also bagged all that might have been asked for, a fine deer, which was also shown in when several hundreds of people gathanother picture. It made Ralph's ered to take advantage of the real friends here just the least bit envious, bargains offered by the local stores; to buy what they might want at the big free auction sale, and to see the free talkie show, all of which were well attended and everyone seemed to be well satisfied with what they saw and bought during the day.

The day was given primarily for chants and business men of Kendrick appreciate their business and want to show it in a way that will leave a kindly feeling with those who took advantage of it.

At the big free auction sale every article was sold with the exception of two or three that were bid in by the owners. While the prices paid for the articles were not excessive, yet both buyer and seller were evidently satisfied with the exchange.

The big horse sale was well attended and most of the animals brought on an average of from \$50 to \$60.

The stores report a good business and all who took advantage of the many special bargains offered felt well repaid, and those who attended week: the free talkie show felt more than repaid for the time spent in the show for it was one of those comedies that leaves a pleasant feeling with the ob-

If not, we will gladly season have totaled over 185,000,000 mail them a check for whatever prize bushels, or slightly more than the they are entitled to, as certified to large movement of two years agoand about 21,000,000 bushels more We wish to take this opportunity than were shipped out during the North America and Russia. Russian offerings of Russian wheat have now slackened, according to trade reports. This wheat however, is still underselling other, wheat in European markets. Current quotations are around 77c per bushel, but some Rus-Gazette, Mrs. O. D. Reinemer, form- is reported recently resold as low as sian wheat for December shipment 66c per bushel, and for January shipment at 67c per bushel. European inquiry is said to be turning more to toba for October shipment quoted at Liverpool at 881/4c. Argentine 61 lb. barosso wheat afloat was sold at London during the week at 701/2c, while new crop 631/2 lb. wheat for January and February shipment was quoted at 831/4c per bushel.

Wheat in the southern hemisphere continued to make favorable progress, and was benefitted by rainfall, both in Argentine and Australia during the week. The Argentine wheat acreage is now placed at the record figure of 21,316,000 acres. This, with the record area of 18,160,000 acres in Australia, brings the combined area in these two countries to about 39-, 500,000 acres. This is an increase of 46 per cent over the acreage sown in post-war years, 1921-1925, and 66 per cent above the average of the pre-war years, 1909-1913.

Domestic cash wheat markets were relatively firmer than futures, and premiums for cash grain were further increased. Marketings of all classes of wheat were relatively small. Receipts at Minneapolis totled only 933 cars for the week, and reports indicate further reduction in country, shipments. Milling demand was only moderatively active, which was easily sufficient to absorb the desirable offerings of milling wheat at steady premiums.

12 and 13 per cent protein, No. T closed October 24 at at 751/2c, with Following is an excerpt from a let- 14 and 15 per cent protein bringing ed averaged 14,46 per cent. ing basis and both milling and feed- and Russian offerings were underer demand was rather quiet. No. 2 selling United States wheat in both hard winter, ordinary protein was European and Oriental markets. Dequoted at 73c in that market October mand from California was also light 24. Offerings at Fort Worth were and limited sales were principally to light and principally of storage wheat. loca lmills. Export mills were taking No. 1 hard winter was quoted deliver- only small amounts. Growers coned Texas common points at 881/4c to tinued to sell sparingly and stocks at 89c per bushel. Growers were not country points continue large. Reselling freely at current prices in the ceipts at terminal markets for the Denver territory. No. 2 hard winter season have only slightly exceeded was quoted in that market or delivered the estimated carry-over of old wheat, Colorado common points at 51c to according to trade reports. 59c per bushel.

Soft winter wheat markets were also firmer, with prices generally quoted 3c to 4c higher than a week ago. Offerings of soft winter wheat continued quite small, but demand is limited, with mills taking only sufficient wheat to supply immediate needs at current premiums. No. 1 soft red winter was quoted October 24 at Kansas City at 871/2c, with demand principally for low protein types. No. 1 soft red winter was quoted at St. Louis at 90c to 91c and No. 2 soft red winter at 901/2c. Most orders for soft winter wheat were being filled from elevator stocks at Cincinnati , where No. 2 soft red winter was quoted at 88c to 891/2c per bushel. No. 2 soft red winter was quoted at Chicago October 24 at 7c to 8c over the December price of 80c per bushel, and No. 3 red at 6c to 61/2c over the December \$1.47 in bulk delivered at California

Pacific coast markets were strengthened by the advance at eastern points but export demand was lacking and trade was rather dull. Future prices at Portland advanced about 11/20 during the week and cash prices were also slightly higher. No. 1 western white, western red and hard winter were quoted at Seattle October 24 at 793/2c per bushel, sacked. 14 per cent protein local No. 1 hard winter sacked was quoted at 85c and between a huge whale attacked by Montana wheat of the same quality a sword fish and a thresher shark. in bulk at 88c per bushel. Thirty stufeed at \$1.42 to \$1.45 per 100, sacked dents were enrolled at the beginning, No. 2 dark hard winter from Idaho only one of whom was of college

The University owns 621 acres of land and in addition leases 102 acres. The campus proper contains forty acres, on which stand the thirteen principal buildings. In addition to these there are forty-two structures of various kinds.

An inventory and estimate of the present net worth of this institution produces a figure of \$2,807,000. The total number of students enrolled last year was 2,345, of whom approximately two-thirds were men. The investment is therefore \$1,200 for each student. The annual cost of operation is well over one million dollars or nearly \$500 per student.

During its life of thirty-eight years more than 10,000 persons have been enrolled as students and 2,780 degrees have been granted.

Including the present executive there have been eight different presistill outstanding \$345,000, exclusive

with its friends, seem agreed that its great need by way of constructive improvement, is a library building. The school has a library of about 90,000 volumes and receives regularly more than 500 of the leading periodicals of the country, including the various government reports. No adequate provision is made for the care of these books. It is estimated that a proper building could be erected at a cost of about \$350,000, and it is more than likely that the next session of the legislature will provide the necessary funds.

During the life of the University Idaho have every reason to be proud. lection. Almost every day one sees items in the paper which should be a solemn warning to all girls to be careful about marrying strangers.

Need The Money

Nowadays the success of a foreign cabinet depends upon its ability to float a loan in America or some other country that is supposed to have a few dollars left.

Extremes

Too much midnight oil, says Dr.

HARD TIMES REWARDS THRIFT

Thousands of Inland Empire Homes have discovered the better value of a low-price medium-ash fuel instead of a high-price flashy fuel that is also detrimental to human health.

Smith Coal has just enough ash to hold a steady hot fire and its little waste is in the ashpit, for proper disposal; not all through the home and eighborhood in wasteful, damaging soot and dangerous gases.

Hard times emphasizes the postive fact that Smith Coal gives "Most Clean Heat per Dollar."

Yours very truly, JOHN L. WOODY Chairman of the Board of County Latah Commissioners,

Speed

It would probably be the consensus of expert opioion that the most remarkable result of the industrial age is the speed by which we make contacts of al lkinds.

We cross continents by motor car, by train, by airplanes in less time than it took our forefathers to traverse a state. And-fastest of all-we can project our voices thousands of miles in a fraction of a second by telephone or radio.

The telephone and radio has made it possible for a business man, sitting in an office in New York, to contract business with a firm or an individual in San Francisco or London or Berlin. It has, so far as communication is concerned, conquered space. For a small sum of money and in a few minutes of time, we can make ourselves heard half across the world.

Advertisers appreciate your trade.

DRIAN NELSON,

has been in the Legislature during its last nine sessions and is now a State Senator from Cassia County. He has been Chairman of the State Republican Committee for the past eight years and during that time has acted in an advisory capacity in the conduct of the affairs of the State of Idaho. He has visited every section and portion of the State and knows its needs and knows the necessity of economy. His record in the Legislature and as Chairman of the Republican State Central Committee has always been constructive. It is undoubtedly safe to say that no man has ever been nominated for the high office of Governor of the State of Idaho who has had the splendid preparation and the mental equipment for the position of chief executive as has John McMurray.

citizens and deserve your votes.

WHAT HAS THE DEMOCRATIC PARTY TO

The Democratic Party promises economy but in the State platform they are pledged to a program which will enormously increase the county taxes of every County in the State of Idaho. In the Democratic platform the party is pledged to the passage and enactment of an old age pension law, which means nothing more nor less than making poverty, profligacy and indigency respectable and, at the same time, increasing the taxes for every taxpayer in the

LATAH COUNTY IS THE BEST AND MOST ECONOMICALLY GOVERNED COUNTY IN THE STATE

The Republican Party challenges the critics of the nominees to refute this statement. The members of the Board of County Commissioners have been criticised by the hostile press of Moscow on pretense of extravagance, but the real cause of the criticism is based upon the fact that the County Commissioners were too economical on County printing, which is being done at one-half of the rate asked by the fault-finders. .

Latah County has the lowest tax rate of any County in the State of Idaho. The taxpayers will pay only \$3.80 on each \$1,000.00 of assessed valuation for all of the expenses of Latah County. Canyon County has an equal rate but has nearly double the amount of valuation and nearly double the amount of population.

The County Commissioners have presented to the Board for allowance the actual expenses for the use of the individually owned automobiles. This includes gasoline, oils and repairs. The average amount which Latah County has paid for the use of the private cars owned by members of the Board has not, during the past four years, exceeded Seven Cents (7c) per mile for each mile actually traveled by the members of the Board of County Commissionrs of Latah County while in the performance of their duties as members of the Board. Other counties have paid on a mileage basis not less than Ten cents (10c) a mile on improved roads and Fifteen cents (15c) per mile on unimproved roads. The expense to Latah County on account of the use of privately owned cars by members of the Board will average only fifty per cent of what has been paid in other counties. This statement cannot be successfully denied.

In Harry A. Thatcher, who is a candidate for re-election as Clerk of the District Court and Ex-Officio County Auditor and Recorder. Latah County is fortunate to have as competent a man for Auditor as any County in the State of Idaho and the most economical beyond any question of doubt. There is not a County in Idaho of similar population and taxable wealth as Latah County which is not paying over \$2,000.00 more per annum for the operation of these offices than Latah County has been paying ever since the Republican candidate took charge of the office. It is a record that the Republican Party is proud to place before the people.

LEGISLATIVE CANDIDATES

In Burton C. Rowe for Senator, J. A. Harsh, Earl David and Arthur Snow for Representatives, the Republican Party presents to the voters men of long experience in business and in farming and who will vote against any old age pension scheme.

COUNTY ASSESSOR

Walter Q. Taylor, present Republican County Assessor and a candidate for re-election, has done more during the last two years to equalize valuations in Latah County than has been done in the entire history of Latah County. He is compiling records in his office which will save thousands of dollars in the future on the cost of annual assessments. He should be elected by a tremendous

ORCUTT WORRIED OVER LATAH COUNTY FINANCES

P. L. Orcutt, the magnanimous, was was paying them himself and mak- visitors were present. ing speeches just because he believed that the money of Latah county had been and was still being wasted by toward the upkeep of the county and ing squandered by the county commissioners, either for gasoline, oil, tires or law libraries, all of which Davis. has caused Peter much distress during the past several months. Peter would also tell the officials of Latah county how the business should be conducted. We do not know whether he would like to cite the commissioners and others to the wonderful success he has made, as an example or not. but nevertheless he would try to tell the "deer pepul" that their money is being wasted by the county board and the county auditor, Harry A. Thatcher.

Pete states that he has fallen out with the Moscow Publishing company and that he is not being paid by anyone for conducting a campaign of defamation against the present county commissioners, the auditor, and a sly slap at Judge Hodge. If Darby and daughter, Miss Loucille, the Moscow Publishing company has nothing to do with it, and Pete is not being paid by democrats, and since he does not pay any taxes whatfamily returned Saturday evening soever, why all this worry about what the other fellow might have to pay? We will venture the assertion that Pete Orcutt's expenses are being paid by someone. There are few in Latah County that do not know that Pete Orcutt cannot afford to do the work he is doing without being paid for it-and that he is not doing it on his own accout, as he claims, all his statements to the contrary notwithstanding.

Pete has made many charges of extravagance against Latah county commissioners, among them the useless and exhorbitant purchase of gas, oil, tires, etc., used while in the disat the comparison of expenses of Latah county commissioners and those of commissioners in other counties of the state, will show you that Latah county's cost of transportation per mile is much less than any other in the state. We refer to the article appearing in this issue of the Gazette signed by John L. Woody, as gathered at the meeting last week of county commissioners from all over the State of Idaho, and taken from the records. Pete also made the statement that Latah county was the only county in the state that paid to have ter on Friday, Saturday and Sunday the books of the county audited and nights. that the cost was excessive, etc. We would like to call your attention to the fact that the books of Nez Perce cost of \$237.50, covering a period of a fortune and purchases the famous county were audited last year at a nine months, the fiscal year having been changed, and that the cost of auditing the entire year was \$316.00, as against \$302.00 for Latah county, and the audit was made by the same man, E. S. Rawls.

We would like to call your attention to the article signed by John L. Woody, appearing in this issue of the Gazette, which gives some interesting figures regarding taxes in this county, as well as a comparison of expenses of county commissioners throughout the state, as given at the recent meeting of county commissioners from all over the state, held at

Cow Has High Production Test

Idaho Raleigh's Fairy, a purebred Jersey cow owned and tested by the University of Idaho, has completed her first official production test. Idaho Raleigh's Fairy was started on this test when she was two years and 1 month of age and during the following 305 days she produced 406.88 pounds of butterfat and 7,972 pounds last Saturday and was quite busy, of milk. With this record she qualifies for the Register of Merit of the American Jersey Cattle Club. The sire of Idaho Raleigh's Fairy is Idaho Fern Raleigh and her dam is Idaho Torono Fairy.

"A Royal Romance"

"A Royal Romance," will be the feature picture at the Audian Thea-

John Hale, an author, believes that few months spent in a romantic environment will enable him to produce a literary masterpiece. He inherits Von Baden castle in Latavia.

Hale drifts into an affair with Mitzi, a young foreign adventuress from Latavia. On the day of his departure, she springs the old badger game for \$10,000. Rusty prevents it.

Hale and Rusty find the Van Baden castle a picturesque place. Their first night in the palace proves to be a nightmare. While investigating the strange phenomena, Hale discovers a secret panel that leads into an apartment of a beautiful woman. He recognizes the former Countess.

Acquaintance with the Countess reveals that she had kidnapped her child from her former husband and that she has it with her in the castle. Hale promises to help the Countess escape with the child.

The complications that arise and how they are overcome makes a very interesting story.
