Hartley Right; Also Governor

Governor Hartley Monday vetoed the foreign egg bill which prohibited the sale in Washington of foreign eggs or manufactured food products containing foreign eggs unless the cartons contained such eggs or products labeled to indicate the nature of their contents.

The governor said present statutes embodying all that is deemed necessary relating to eggs and that the foreign egg bill would repeal a section of the law which requires that storage eggs be branded as such when offered for sale, after being kept in cold storage for 90 days.

Grinolds School Notes

Honor students for the past two weeks are—Allen Newman, Richard Pagel and Joseph Wittman.

For the past two Friday afternoons the losing Play teams have been entertaining the school with a program. The first was a George Washington program, put on by Richard Pagel and his group. Last Friday's entertainment was organized by Lottie Hayward, losing play captain for the past week, and her program was a surprise to all that did not take part. These entertainments bring out talent in a very interesting manner.

The third grade class, Allen Newman, Odetta Betts and Lottie Hayward, all received 100 per cent on their thought test sheets. In the second grade Susanna Wittman received 100 per cent in the thought test for the week.

We are having a very exciting spelling race to Lewiston on the board. Those that received 100 every day reach "Lewiston." Those that have received 100 in spelling for the past three weeks are: Lottie Hayward, Allen Newman, Odetta Betts, Clara-bel Wittman and Everett Newman.

The visitors at the Grinolds school for the past month were: Mrs. C. A. Betts, Mrs. Frank Wittman, Mrs. Wesley Lowe, William Clem and Junior.

We appreciate your interest in our school. Come again.

SCORES RUN HIGH AT CLUB SHOOT SUNDAY

Sunday, March 1, saw the highest scores yet made when Herman Schupfer broke the straight run record with 20 straight hits and Walter Bigham broke the high score record with 24 out of a possible 25.

These two marks were made over virtually a new trap house and over new grounds, for the location of the house was changed last week and this necessitated complete dismantling and reassembling of the club outfit.

The light in the new location is far better than on the old, and the shooters also stand slightly above the house, which permits a much quicker view of the target. Perhaps this had something to do with the scores, but the fact remains that steady improvement has been shown since the organization of the club and everyone is getting more enthused as time goes on.

Sunday's three high scores are as follows, 25 bird basis:

Walter Bigham	24
Wade Keene	23
Herman Schupfer	23

Walter Bigham and Wade Keene tied for first place in squad work at 23, but in the shoot-off Walter was the winner. Following this Herman Schupfer made 23, but this tie was not shot off, but will probably be done so next Sunday.

This sport is truly one of the finest and cleanest we know of, and if you are interested you are cordially invited to come down and see it and try it.

Walter Bigham was the winner of the box of shells on high score, but had the box been awarded on a basis of percentage of improvement, Marvin Long would have been the winner.

Weather and Roads

Now that the weather has again turned warm, folks are to be seen scratching around out in the yards and discussing the best time to plant garden and put in lawns, although we have not yet heard of anyone having put in any garden in this section of the country.

Robins are here in abundance, as is the village pest, the English sparrow, a flock of ducks has been seen winging northward and all indications surely point to spring.

The roads on the whole are none too good, the country roads just getting to the place where they are a little better than passable and much road work is being done on them. The road from Juliaetta to Arrow is in its usual condition (very rough) but if one drives at a moderate speed the passage can be made without breaking any car springs or hitting the roof of the car.

It seems that all the state money must be spent taking out curves and destroying road that we would be very glad to possess, but perhaps in time they will realize that we of the country must market our products before they can remove all the curves and the sooner we get farm to market roads, the better off we all will be.

Governor Can't See It

Governor C. Ben Ross last week vetoed the 90-day divorce bill that was passed by both houses of the Idaho legislature. But Arkansas has passed a 90-day bill that will give them an opportunity to bid for fame as a divorce mecca. However, Reno has passed, or will pass, a bill allowing divorce action to be filed immediately after a declaration of residence in that fair city that will cause an influx of would-be divorce participants.

It's a good thing Russia is so far away, else many of those wishing to throw off the bonds of matrimony would lie themselves across the line and sign on the dotted line and be free to try it again.

Since the above was put in type, the state senate has over-ridden the governor's veto and the bill was made a law. The vote was 41 to 18, with 11 members absent, in the house, while the senate stood 30 to 12 in favor of the bill.

We wonder just where it will stop.

Edna Lohman Ill

Miss Edna Lohman, who has been in ill health for the past several weeks, was taken to Lewiston Monday evening by L. J. Herres, accompanied by her father and mother, Mr. and Mrs. Carl Lohman, where a medical examination was made to determine the nature of her illness.

COUNCIL SETS VILLAGE CLEAN-UP DATE—MARCH 10

In another place in this paper will be found the notice for annual clean-up day in Kendrick—March 10 being the date set by the Board of Trustees at their regular monthly meeting on Tuesday night. The council stated that all old trash will be hauled away free of charge, provided it is put in sacks or boxes and placed in a convenient place on the streets or alleys.

It behooves everyone to get busy right away, for Miss Spring will soon be on parade and we don't want her to see any unsightly places. There are many vacant lots that should be looked after, as well as back-yards and alleys.

The council also decided that the vacant lots belonging to the village, formerly occupied by the Barnum Lumber and Mill Company, between the railroad track and the alley at the rear of the Deobald garage, will be cleaned up and put in parking space during the coming spring. This is indeed a laudable move and one that will make our little city a more beautiful place. It was also decided that the sewers would be flushed out, the man-holes cleaned up and the town property generally put in shape for another year of good looks.

There is nothing that can be done to make a town more beautiful than to make grass grow where formerly there has been trash or weeds, or the using of a few gallons of paint on buildings that have begun to show signs of this need.

Let's all get busy this spring and see how pretty we can make Kendrick. It has the natural surroundings for making a beautiful little city and let us who live here make it a place to be proud of—and let's begin this spring.

We Have No Kick Coming

Mr. and Mrs. M. O. Raby returned last Friday evening from a two-week trip into Oregon, to Grants Pass, where they visited with their son-in-law and daughter, Mr. and Mrs. Paul Lind, who, with their children, returned to Kendrick with Mr. and Mrs. Raby. They expect to make their home in this section.

Mr. Raby said that if anyone were dissatisfied with this section of the country, he would advise them to take a trip to either the coast or east, and then come back here and make comparisons. He said that this section of Idaho looked better to him right now than it ever did before, and that the people of this part of the country had no real kick coming for they knew nothing about hard times.

He said that he and Mrs. Raby visited with Mr. and Mrs. Ed. Halliker and "Grandpa" Halliker, who makes his home with them, and that they are all well and that Mr. Halliker, Sr., is hale and hearty and seemingly enjoying life to the full. He is 81 years "young."

Mr. Raby said that they traveled 1800 miles while in the trip and that the only bad road they encountered on the entire way was between here and Arrow—the poorest roads in the country in the best part of the U. S. A.

Waffle Supper and Pinochle Party

The home of Mr. and Mrs. John Kite was the scene of a very pleasant waffle supper on Thursday evening of last week, when Mr. and Mrs. Lowell Maynard and Mr. and Mrs. Tom Jones were invited in.

Later in the evening a large number of other friends and guests arrived to play pinochle and listen to the Old Fiddlers' contest, broadcast over KWSC at Pullman.

Everyone reported a delightful time.

Golf Links In Operation

The barnyard golf links between the Kendrick Hotel and the Perryman store have been in operation for the past several days, which is taken as a sure sign of spring.

The game has been carried on with quite some earnestness at various times. We saw one man using three shoes there the other day. It may have been a new angle to the game, we don't know.

Bridge Club Entertained

The Bridge club was very pleasantly entertained Wednesday evening of this week by Mrs. Frank Rider, when the game was played at three tables. Mrs. Frank Boyd won high score. A lovely luncheon was served by the hostess after play.

Commercial Club Meeting

Your attention is called to the fact that the Kendrick Commercial Club will hold its regular meeting on Monday night, March 9, instead of Tuesday night, as heretofore.

All members and others interested in our town are asked to please bear this in mind and be on hand, for there will more than likely be several things of interest to the town that will come up for discussion. It is your duty, if you have the interests of your town at heart, to be there.

Dinner will be served at 6:30 at the Kendrick Hotel.

MRS. S. R. STANTON DIES IN LEWISTON HOSPITAL

Death has again invaded this community, taking another of the homemakers of the universe, Mrs. Ellen E. Stanton, wife of Samuel R. Stanton.

Mrs. Stanton was taken to a Lewiston hospital some four weeks ago, where she underwent a major operation. She seemed to be improving very satisfactorily and was thought to be on the road to recovery until last Saturday evening, when she was suddenly taken worse, and died about 10 o'clock, a blood-clot on the brain being the immediate cause of her death. She would have been 52 years of age, April 11, 1931.

Ellen E. Strahl was born at Walnut, Iowa, April 11, 1879, coming to Idaho with her parents, Mr. and Mrs. L. D. Strahl, in 1884, they settling on a farm on Texas ridge, where she met and married Samuel R. Stanton in May, 1894. To this union four children were born, Lloyd L. Stanton, Aberdeen, Wash.; Mrs. Robert King, Kendrick; Carl A. Stanton, Astoria, Oregon, and Mrs. F. O. Stedman, Cosmopolis, Wash., all of whom, with her husband, survive. She is also survived by her mother, Mrs. E. E. Strohl, three sisters and two brothers, who reside in California; also one sister in Clarkston, Wash., and 11 grandchildren.

Mr. and Mrs. Stanton homesteaded on the Nez Perce reservation in 1895, where they resided for 15 years, coming back to Latah county in the summer of 1910, where they had since resided.

Mrs. Stanton was a loving mother and a dutiful wife; she had the confidence and respect of all who knew her. She will be greatly missed from the community where she had made her home as well as from her home.

Funeral services were held Wednesday afternoon from the Kendrick Methodist church at 2 o'clock, with Rev. L. E. Tabor in charge. Burial was made in the Kendrick cemetery.

The pallbearers were A. C. Deeter, Jas. Emmett, Ira Foster, C. G. Compton, N. E. Walker and John Kite.

The children were all present at the funeral with the exception of Carl, who had sickness in his family and was prevented from attending.

Industrial Tonic

The news that hundreds of men are going to work is the tonic necessary to fight pessimism in industries, and such news is becoming increasingly prevalent throughout the Inland Empire. During the past week, Pend Oreille county, in Washington, reported that within the next 20 days over 350 men will go to work in the four major sawmills in that district. In addition to this, the cement mills, mines and farm work are enticing men. All this means expenditure; the placing of money in circulation where it works as a stimulant to business and confidence.

Has Not Sold Out

When approached on the matter of the street rumors flying about to the effect that he had disposed of his business, A. K. Carlson issued a flat denial, saying that many things can be heard on the street for which there is no foundation.

Presbyterian Ladies Aid

The Presbyterian Ladies Aid will meet at the home of Mrs. Annie Openborn at 2:30 o'clock Friday afternoon, March 13. Every member is urged to be present.

Had Relapse

Everett Crocker, who underwent an operation for ruptured appendix a few weeks ago at St. Joseph's hospital, has had a relapse and is in a very critical condition.

The Cedar Ridge community will present "The Arizona Cowboy," March 11, at the Gold Hill Hall. The general public is invited.

WHEAT MARKET WEAKER WITH LARGE OFFERINGS

Domestic wheat markets weakened, particularly for new crop deliveries, during the week ending February 28, influenced principally by generally favorable prospects for the new winter wheat crop and continued large marketings of old crop grain, according to the weekly grain market review of the United States Bureau of Agricultural Economics.

Corn and other feed grains were all slightly lower, reflecting the reduced demand as a result of the unusually mild weather still prevailing throughout the United States, low prices of livestock, dairy and poultry products and lack of funds in important consuming areas. Rye was lower with wheat, but flax held generally steady, with offerings light.

Prospects for winter wheat continued generally favorable throughout the principal producing areas. Good rains were received over most of the domestic winter wheat belt and the crop in Kansas and Nebraska is reported in excellent condition to make early spring growth. Conditions in Europe remain favorable, with further heavy snows in Russia beneficial to winter wheat crops. The crop in France, where the condition has been less favorable than that of other important producing European countries, has recently improved. Good rains have been beneficial to the new wheat crop in Italy, while crops in the lower Danubian countries are reported to have wintered well, with danger of severe winter killing largely past. Heavy rains have been reported in North Africa, which will likely favor crop development. Demand for wheat in foreign markets became more active, with stocks of both native and foreign wheat diminishing. The strengthening influence of the prospective increase in foreign taking was offset by the pressure of increased offerings from competing countries. The Australian government has promised a bonus, equivalent to about 9½c in United States money, at current quotations, on wheat sold for export.

Marketing agencies in the United States have announced offerings for export of around 35,000,000 bushels of wheat now in store at Atlantic, Gulf and Pacific Northwestern ports. Southern hemisphere shipments for the week totaled about 9,000,000 bushels and North American shipments 4,785,000 bushels. Black Sea and Russian shipments were light, totaling a little over 600,000 bushels. World shipments for the week totaled about 15,000,000 bushels, and stocks on ocean passage were increased to 57,000,000 bushels, the largest amount in this position since June, 1929. Prices of native wheats in Europe continued firm. German wheat at Hamburg advanced to \$1.87, while native wheat at Paris declined slightly to \$1.87½. Italian wheat sold at Milan at \$1.55½, and native wheat at Copenhagen at 71c per bushel.

Prices on foreign wheat at Liverpool were lower, with Australian wheat for February shipment quoted at 67c, Russian average samples afloat at 62c, No. 1 Manitoba afloat at 78c and 63-lb. Argentine Rosafe at 63½c per bushel.

The Pacific Coast wheat market situation remained practically unchanged. Prices at Portland and Seattle held steady, with domestic marketing agencies absorbing most of the offerings. Domestic mills were taking a few cars and some feed wheat was going to mixed feed manufacturers. Export mills were still unable to effect any new export flour business with the Orient because of the low price of silver. Marketings were of only moderate amounts, since many growers were reported holding their grain until the new lower freight rates become effective. Rain and snow during the week benefited the already favorable winter and spring crop prospects. At the close of the market Feb. 27, western white wheat was quoted at Seattle at 67½c, western red and hard winter at 65c and Big Bend Bluestem at 68c per bushel, sacked, basis No. 1. Soft and western white wheats were quoted at Portland at 67½c, hard winter, northern spring and western red at 64½c and Big Bend bluestem hard white at 69c per bushel, same basis. 14 per cent protein, No. 1 dark northern spring, in bulk from Montana was quoted at Portland at 73c and at Seattle at the same price.

The two people able to make it hottest for you are a woman who can't have her own way and a reformer who can.

"Just Around The Corner"

According to the looks of the canyon, spring is just around the corner, sure 'nuff. The trees and willow bushes in the canyon below Juliaetta are getting green and the grass is growing like summer-time. About the only thing we need to complete the beauty and pleasure of our canyon is a good road to Arrow—and that road is coming right up this way some of these days, too. And there will be one to join onto the Troy road up Brady gulch, as well as in other directions from town. Then, and only then, will things be as they should be.
