NO. 13

NEWS OF WHAT'S GOING ON IN JULIAETTA

Birthday Surprise

Another one of our Juliaetta birthday surprise parties was celebrated at the home of Mrs. Ray Harris on March 18, the program consisting of songs and recitations. A large birthday cake was presented by Mrs. Guthrie. The luncheon included sandwiches, pickles, cake, coffee and popcorn.

Those present were: Mrs. Lulu Buchanan, Mrs. Hulda Buchanan, Mrs. Syd. Thomas, Mrs. Robinson, Mrs. Samms, Mrs. Gallaher, Mrs. Otto Schupfer, Mrs. Bertha Pierce, Mrs. L. C. Reichnau, Mr. and Mrs. O. Dumbauld, Mr. and Mrs. D. A. Bishop, Mr. and Mrs. Chas. Peeler, Mr. and Mrs. Tom Guthrie, Mr. and Mrs. Robin, Mrs. Halliday, Cleta Gallaher, Beatrice Guthrie, Alice Harris, Alonzo Guthrie, Marion Harris, Marian and Maribelle Schupfer, Janet Halliday, Mr. and Mrs. Harris, Mrs. Nettler, and Mrs. Vera Schull, the last four of Lewiston.

On their departure everyone reported a jolly good time.

Property Changes Hands

Mr. and Mrs. A. Winters have traded their property to Mr. Ross of the property formerly owned by Mrs. R. Heins. The new owners are each taking possession, Mr. Ross moving into the former Trout residence, vacated by the Winters.

Easter Services

The Baptist Sunday school is preparing an Easter program to be given April 5. Rev. L. E. Tabor will preach at the Methodist church in the evening, with Easter music by the chorus.

Clean-Up Day

April 1 has been set by the council for the annual spring clean-up. All things to be removed must be in sacks or boxes, and placed in a convenient location.

Returns to Home

Mrs. Will Beard returned to her home in Spokane Thursday, after spending a few days with Mrs. Laura Groseclose, and looking after property.

Sunday Services

Presiding Elder Dills of Spokane will preach in the Methodist church Sunday evening, with the third quarterly conference following.

Aid Meeting

The M. E. Aid will meet next Tuesday afternoon at the home of Mrs. Frank Spray.

Personals

Mrs. Ernest Walsh and sons spent the week-end in Spokane with Mr. Walsh.

Mrs. Celia Garrison left Tuesday for Moscow and Potlatch, where she will visit relatives.

Mr. and Mrs. Cecil Gruell and Mrs. M. Nutt spent Sunday afternoon in Sweetwater and Lewiston.

T. J. Guthrie and son Alonzo were Clarkston visitors Monday.

Mr. and Mrs. T. O. Greene were Kendrick business visitors Tuesday.

Ward Alexander arrived Wednesday from Moscow for a visit with friends.

Robert Day left Tuesday for White Bird, after a visit with his father, Frank Day.

George Hutchison has been in Clarkston for several days, taking treatments at the Foster sanitarium.

School Notes

Collections of the pictures of the pupils in each room are being framed and hung.

High school students are practicing for the senior plays to be given at the I. O. O. F. hall, March 31.

The teachers held another professional meeting Monday. Luna Deane lead in the discussion of lesson assignments and the use of Reed's book, following which they adjourned to the Cochran confectionery and enjoyed delicious refreshments.

The Glees are practicing an anthem with violin obligato, and the guitar club are practicing, "There Is a Green Hill" for the churches at Easter.

Her Aim In Life

She shot a bullet into the air. It lodged in hubby—she did not care; She did not even sob or cough, For she was aiming to bump him off.

Have You Got Your Car License

State Patrolman Frank Howard has announced that there will be positively no extension of time on auto-licenses and that every car operating on the highway on and after April 1 must be provided with a 1931 license tag, else the owner will be subject to arrest and fine.

The time was extended in order to make it easier for some to procure licenses, but now that the time is up, all cars must bear the new tag from and after April 1, 1931.

TO COST \$6,000,000 TO RUN IDAHO NEXT TWO YEARS

Appropriations from the general fund made by the regular and special sessions of the legislature totaled \$5,859,237 and appropriations of \$229,478 were made from special funds, a compilation made by the auditors office and budget bureau revealed.

Of this amount \$4,500,000 must be raised by the ad valorem tax and the balance of \$1,359,237 from other sources such as the insurance tax. The appropriations cover a two-year period.

The general fund appropriations were \$13,000 less than the budget approved by Governor C. Ben Ross but \$41,045 more than two years ago when the figure was \$5,798,192. Appropriations from special funds were \$86,562 less than the amount last biennium which was \$316,040.

Items not included in the list are \$15,000 for administration of the kilowatt tax, \$40,000 for administration of the income tax, \$3,000 for the oleomargarine tax, \$25,000 for tuberculosis control and \$50,000 for re-codifying the statutes. The list totals \$133,000.

All the appropriation bills included in the tabulation have been signed by the governor.

Attended Waltonian Banquet

Mr. and Mrs. Harry Ameling, Ben and Nora Callison, Ernest Roberts and mother, Mrs. Frank Roberts, Mrs. Dora May, Mr. and Mrs. Walter May, Mr. and Mrs. Wade Keene and Mr. and Mrs. E. A. Deobald attended the Waltonian banquet at Moscow, Thursday night of last week and report a very pleasant time.

Many valuable prizes were given away during the evening to the diners, but the Kendrick contingent failed to get anything of much value, practically all the better articles remaining in Moscow. This was to be expected of course, as they had the largest crowd present—some of the donors acquiring their own contributions to the prizes.

Mrs. Harry Ameling acquired a pound of coffee and two theatre tickets and Eddie Deobald got a jar of pickles and a cake. He got the pickles all right, but he will have to make a trip to Moscow to get the cake. Just why the cake was not forthcoming, we failed to learn. Eddie is debating the question himself.

"A Family Affair"

Work is going on in earnest for the production of the all-school play, "A Family Affair," which will be given in the Audian Theatre on Friday and Saturday nights, April 10 and 11. It is a comedy drama in three acts and is considered one of the best plays that has been offered for many moons. While the cast is small every opportunity is given during the production to bring out the best in the play. It abounds in comical situations and is a laugh producer from start to finish.

The play is being coached by Supt. Jones and Mrs. W. J. Carroll.

Real March Weather

Only once has Miss March gotten really obstreperous so far. Saturday night and early Sunday morning one could fully realize that the month was March, sure-n-f, for the wind rose to rather a noisy degree and made things sing for a time, but no harm was done. The roads and fields were dried considerably. Wind in the canyon is so rare that when it does come, one cannot help but notice it.

Baseball Meeting

The baseball meeting held in the town hall Monday night was attended by about 25 fans and a very enthusiastic meeting was had. Frank Boyd was made manager and Roy Ramey, Ira Bolon and Silvie Cook were appointed as a finance committee.

The baseball ground was dragged Tuesday and put in shape for a practice game Sunday afternoon, weather permitting.

WIND RAISE SHAVOC WITH SCORES SUNDAY

Sunday's shoot saw a great deal of variation in the scores of those shooting, but was not altogether the fault of the marksman, for a lively wind was blowing up the canyon, not steadily, but in gusts and fits, and so the scores by squads varied to a very great extent.

The boys, however, had more fun than if the day had been clear and calm, for the best of shots were missing apparently the easiest of birds and vice-versa, and the fun-poking that went on more than made up for the loss of scores.

Wade Keene was the high man, making 24 out of a possible 25 birds, the balance of the scores, almost without exception, dropping. Following is the three high:

Wade Keene 24
Walt Bigham 22
Ed. Deobald 20
H. Schupfer 20

George Barnum was high man on percentage of improvement and was using at the time a field grade gun, instead of his regular trap gun.

At a meeting of the board of directors, held Tuesday evening at 7:30 o'clock at Deobald's garage, it was decided that the cost of the targets be reduced to 40c for the first squad and 35c for the second squad. The sum thus received being bare expenses.

It was also decided at this meeting that a shoot would be held on Sunday, March 29 at the regular time and place and every other Sunday following: That is—April 12 and 26—May 10 and 24—June 7 and 21, and as often thereafter as the members wish or a group form to shoot. These dates were set as many protested that once a month was not enough to keep in practice and that interest would fail. Cut out this schedule of shoots and keep it.

It was also decided at this meeting to cover the trap house with sheet iron and paint all club equipment. Dr. McKeever kindly donating the iron. Bridge planks were donated by H. Schupfer for easier access to the grounds.

At this time a vote of thanks was extended to George Barnum and E. A. Deobald for their financial and material support and labor and material donated. Many others too are deserving of personal mention for their labor and financial aid while the club was in the process of formation, chief among them being Marvin Long, in fact, almost every member has done his share as have many who are not members.

Two prizes are on tap for next Sunday's shoot, a necktie, donated by N. B. Long and Sons, as first prize, and a box of shells as second prize, put up by the Club. These will be shot for on an added bird and percentage basis, this being in charge of Herman Schupfer and Eddie Deobald, who will tell you how many birds you get to even you up with the crack men. This method makes it possible for the low score man to win as well as the high score man—in fact it's fair for all. So come on and try your skill.

Have Improved Appearance

The vacant lots owned by the village, which were several years ago occupied by the Barnum Lumber company, lying between the railroad and the alley at the rear of the Deobald garage, have taken on a much neater appearance within the past week. Most of the rocks have been removed and the accumulation of trash of all kinds will be taken away and the ground seeded to grass, which will add very materially to the appearance of the town.

Most all towns and cities look the worst along railroads and depots. Just why this should be is more than we can figure out, but it is hoped that in the near future when the trains pull into Kendrick the passengers will look out upon a nice parking strip where for the past several years nothing but rocks and rubbish have been visible.

Holy Week Services at M. E. Church

Holy week will be observed at the M. E. church each evening, except Saturday, with a special service. The events in the last week of the life of Christ will be presented, day by day. Everyone is cordially invited.

On Easter Sunday morning at 6:30 a community Eaststr sunrise service will be held, followed by a Sunday school program at 11 o'clock, and a special program of music in the evening. Watch for further announcement next week.

IDAHO INCOME TAX TAKE EFFECT JULY 1, 1931

Idaho citizens will want to know what the new income tax is going to do to their pocketbooks.

It aims to cover virtually every source of income in the state. The act is based in the federal income tax law, and suits Governor Ross.

After making his legal deductions, the Idaho citizen will owe the state 1 per cent per year in the first \$2,000 of net income; 2 per cent on the second \$2,000; 3 per cent in the third \$2,000 and 4 per cent on income over \$6,000.

The same rates apply to corporations and other business enterprises.

A single person has a \$1,000 personal exemption and the head of a family \$2,500, both husband and wife are entitled to only one exemption. There is an exemption of \$300 for each dependent.

Here are the deductions allowed:

All ordinary and necessary expenses paid or incurred during the year in carrying on the business, including salaries, rentals, etc.

Interest paid or accrued in business and indebtedness.

Taxes paid or accrued, with certain exceptions.

Losses sustained not in regular business, but in transactions entered into for profit, with certain exceptions.

Fire, storm, casualty and theft losses, if not made up by insurance or otherwise.

Worthless debts.

Reasonable depreciation.

Contributions to charity, lodges, etc., within certain limits.

Personal living expenses are not exempted. No deductions may be made for new buildings or for permanent improvements or betterments made to increase the value of any property or estate.

All persons must make reports who, if single, have net incomes of \$1,000 or over; or, if married, have net incomes of \$2,500 or more. All persons with gross incomes of more than \$5,000 or over per year must make reports regardless of the amount of the net income.

The tax begins to apply on July 1 and first returns must be made on or before March 15, 1932, provided the individual operates on a calendar year basis. Special arrangements are made for those operating on different fiscal years.

The governor estimates the bill will bring between \$500,000 and \$700,000 annually to the state. Whatever revenue it brings must be used to reduce the amount of money normally raised under the ad valorem tax, which is \$2,250,000 annually.

Saturday's Auction Sale

The auction sale held on Saturday of last week by J. R. Hutcherson, Lewiston auctioneer, was only partially a success as Mr. Hutcherson said many articles advertised were not brought to town, hence it was impossible to sell them.

There was a very good crowd in town during the day, but many were not in a buying mood. While everything was sold, only fair prices were realized.

Entertain Friends

Mr. and Mrs. Thorvald Nelson entertained a number of friends on Wednesday evening, March 11th, in honor of Miss Mildred Kleth's and Anton Lien's birthdays.

A most enjoyable evening was spent and delicious refreshments were served at midnight.

Gave Free Demonstrations

A representative of the Crescent coffee and a representative of the Snowflake crackers were at the Long Store last Saturday and served free coffee and wafers during the day, and many there were who took advantage of the opportunity of tasting these articles.

Take Over Arrow Lunch Room

Mr. and Mrs. Douglas have had charge of the Arrow service station since last October, where they have been doing a very nice business.

Mr. and Mrs. C. O. Douglas have just recently taken over the lunch room at Arrow Junction and are giving patrons good service between trains.

M. E. Ladies Aid Play

The play given by the M. E. ladies aid Wednesday night was quite well attended and enjoyed by those in attendance and the ladies netted a very neat sum for their treasury.

Bailey Named State Game Warden

Mc. P. Bailey of Moscow has been named state game warden to succeed R. E. Thomas, who has been appointed warden of the state penitentiary at Boise. Mr. Thomas has been game warden for the past eight years and has given universal satisfaction.

Mr. Bailey will take over his official duties April 1. For the past 17 years he has been with the Mason-Ehrman company and has always been interested in wild life and outdoor sportsmanship.

RABBIT GROWERS MEET— HIGH IN FOOD VALUE

The Lewiston-Clarkston Rabbit and Fur-Breeders Association met at the home of Mr. and Mrs. Frank W. Ellis, Tuesday evening, for an educational and social meeting.

Rev. Ehlen spoke on the nutriment value of the rabbit, giving the following figures: Chicken yields 50 per cent of the net digestible nutriment. Beef yields 55 per cent of the net digestible nutriment. Mutton yields 65 per cent of the net digestible nutriment. Pork yields 75 per cent of the net digestible nutriment. Rabbit yields 83 per cent of the net digestible nutriment.

Mr. Tyer of Clarkston gave pointers as to the qualifications for selecting stock. The following rabbits were shown: Chins, Castor Rex and New Zealand Red. The association has the following breeds: New Zealand Whites, White Rex, Chins, Flemish Giants, Castor Rex, New Zealand Blues and Chin Rex.

There were round table talks: as how best to produce the finest grained meats and furs, also lutches and care of the young, etc.

The next meeting will be held at Clarkston at the home of H. J. Duncan, April 14. This will be a business meeting and all interested in raising rabbits are cordially invited to attend.

The president was not able to be with us at this meeting on account of an auto accident and several other members were not able to attend for various other reasons. Those present were: Rev. and Mrs. Ehlen and daughter, Mr. and Mrs. Snyder and daughter, Mr. and Mrs. Tyer, Mr. Hughes and Mr. Albouq.

The guests were: Mr. and Mrs. Hedler, Mr. and Mrs. C. S. Biddison, Mrs. Adams and Messrs. Millard, Fox and Ward Alexander, of Juliaetta. The latter, of Juliaetta, are rabbit breeders of that place and are greatly interested in the association and expect to join at the next meeting.

All present expressed themselves as feeling their time was well spent. At a late hour refreshments were served.

Putting In A New Cable

The Vollmer-Clearwater company is putting in (or has put in) a new cable to carry wheat from their upper warehouse to the one in the canyon. There is just a few feet over a half a mile from one warehouse to the other, making more than a mile of cable.

Well, Wade Keene, manager of the warehouse, said he had a scheme that would work and that two men could handle the thing very nicely—and they did, up to a certain point—that of splicing the new cable onto the old, for the purpose of pulling it into place. The splice was made and everything in readiness. Wade thought that by securing the use of a tractor or two, the cable could be pulled around in shape all right. But when everything was in readiness to pull the new cable up the hill, the blamed thing started to run up the hill so fast that it took all the power of Wade Keene and Charley Keeler, leaning against a 6x6, which was used as a brake against the large spool of cable, to hold the thing from running away—and up hill at that.

Wade and Charley both admitted that it was the first time they ever saw several tons of anything start up hill of its own accord and almost defy the law of gravity and the combined braking power of the weight of these two men.

We hope to be able to tell just how it was done, next week.

The Gold Hill Play

A fair-sized crowd greeted the Gold Hill community play at the Audian Theatre last Thursday night and all fortunate enough to be in attendance reported a very pleasant evening. The players all carried their parts well and altogether it was a very happy occasion.

WHEAT MARKET WEAKER WITH HEAVY SHIPMENTS

Wheat markets weakened during the week ending March 21, and domestic future prices for new crop deliveries declined to new low levels for the current season, influenced principally by heavy southern hemisphere and Russian shipments and generally favorable prospects for the new 1931 crop in the northern hemisphere, according to the grain market review of the United States Bureau of Agricultural Economics.

Corn and other feed grains held about steady, with moderate offerings meeting a fair demand at the principal markets. Rye remained very featureless and practically unchanged. Flax was steady, although a somewhat easier tone developed toward the close of the week, as a result of some slackening in the demand for oil.

Winter wheat continued to make favorable growth in the central and southwestern sections, and the crop is four to six inches tall in Kansas and Oklahoma. Beneficial rains and snow were received in spring wheat areas, both in the United States and Canada, and spring plowing and soil preparation is far advanced over the average of other years. Sub-soil moisture is lacking, however, and timely spring and summer rains will be needed for satisfactory growth. The weather conditions in Europe continue generally favorable and field work and spring sowing have made good progress. Winter seedings are generally in good condition, although a slight frost damage occurred in Germany and some injury from floods is reported in France. Winter grain is in good condition in the lower Danubian countries and crop prospects in Italy and Spain are excellent. Recent abundant rains have improved the outlook in North Africa. Harvesting in India progressed rapidly under favorable weather conditions and recent trade advices indicate an outturn above early expectations.

Exporting countries continue to press offerings in world markets and Australian shipments during the past two weeks exceeded those of any exporting country. Shipments from that country the past week totaled 5,256,000 bushels, of which about half was reported destined for the United Kingdom, Europe and on orders and the remainder destined for the Orient.

Purchases of 15 cargoes of Australian wheat by the Orient during the week probably constitute a record for this trade and indicate the sharp competition which American offerings will meet in that area. These Australian sales were reported to be at prices equivalent to about 43c at Puget Sound markets in the American northwest. Argentine shipments were also of good volume, totaling 3,363,000 bushels, while Russian shipments amounted to over 2,500,000 bushels. Only 4,610,000 bushels of wheat and flour were shipped from North America, principally of Canadian wheat. World shipments totaled 16,800,000 bushels and stocks on ocean passage, including wheat and flour afloat to the United Kingdom, the Continent and "on orders," but excluding Australian shipments to the Orient, were increased to a little over 56,000,000 bushels, which is materially above a year ago, but lower than for other years since 1926. The world visible supply at the first of March reached a new high record, according to trade figures, and totaled approximately 630,000,000 bushels, which compares with 602,000,000 bushels at the first of February and 551,000,000 bushels March 1 last year.

European import inquiry continues only moderately active, with buyers generally meeting only current needs. Stocks of native wheat in Europe, however, are low and marketings of only moderate volume. German offerings increased under the stimulation of rumors of a probable reduction in tariff duties. At the close of the week, native wheat at Hamburg was quoted at \$1.96½; French wheat at Paris at \$1.85½; Italian wheat at Milan at \$1.48½; and Danish wheat at Copenhagen at 77½c. Prices of foreign wheat at Liverpool were about unchanged, with No. 1 hard winter for April shipment quoted at 75½c; 63 lb. Argentine Rosaflo afloat at 60c; 62c lb. Barusso for April shipment at 62c; No. 1 Canadian Manitoba for April shipment at 77½c; Russian average samples at 61½c; and Australian wheat at 63½c per bushel.

Domestic cash wheat markets held practically unchanged, with offerings being readily taken by mills, elevators

(Continued on inside)

"A Family Affair"

Comedy In 3-Acts

AUDIAN THEATRE
8 o'Clock

Fri.-Sat., Apr. 10-11

"BRIGHT LIGHTS" BE AT AUDIAN APRIL 3, 4 AND 5

"Bright Lights" which will be the offering at the Audian Theatre on Friday, Saturday and Sunday nights, April 3, 4 and 5, is 100 per cent national color, with beautiful Dorothy Mackall in the leading feminine role while Noah Beery and Frank Fay carry the male roles.

The picture is made up of music, exotic and tremendous melodrama, passionate love of the African Kolor and Miss Mackall will sing the "Song of the Congo," one of the late hits in the song world. She also does some beautiful dancing, which will amaze you. Her hula dance is a wow!

"Bright Lights" is one of the strangest and most entertaining pictures the talking screen has brought. From beginning to end the audience will be held under its strange spell. Nothing like it has been seen in the films previously, and it should prove popular with all classes of picturegoers.

Dorothy Mackall, known in the past mostly for her comedienne roles, sings and dances for the first time. The blonde Dorothy surprises with a clear and forceful voice. She sings three numbers in such a way that one forgets she was ever a silent screen actress and imagines her fresh from a Zeigfeld musical lead. Her dancing also is a revelation, especially her fiery hula-hula.

Arrow Missionary Society
The Arrow Missionary society met at the home of Mrs. Raleigh Albright last Thursday, March 19. The meeting was called to order by the president, Mrs. George Gibbs, and the lesson in "The Indian Cajan of Alabama" was discussed.

Mrs. E. Groseclose gave the book report, "All In The Day's Work" which was followed by roll call.

During the business session Mrs. H. Sampson resigned as treasurer and Mrs. Chester Douglas was elected to fill the vacancy. Those present were: Mrs. Geo. Gibbs, Mrs. Robt. Douglas, Mrs. Chester Douglas, Mrs. Essie Groseclose, Mrs. Harry Sampson and the hostess, Mrs. Raleigh Albright.

Files 39-Word Will
A will, containing only 39 words was filed in the probate court of Nez Perce county, at Lewiston, the other day, bequeathing a \$5,000 estate, the will having been made by Mrs. Ellen Hansen, bequeathing property to her daughter, Mrs. Irene Stonebraker, and a sister, Mrs. Emma May. The will was penciled on a sheet of note paper and has two witnesses.

Be Great Sight
A New York engineer found a way to move a ten-story building a block and turn it around, but we'd like to see him turn a tight Mason jar top around at home in his own kitchen.

Reno Is Worrying

The citizens of Reno and her 130 lawyers are worrying considerably because of the fact that Arkansas, as well as Idaho, has passed a 90-day divorce law.

Renotes say that the average divorce-getter spends about \$6 a day for living expenses, exclusive of attorneys' fees and that the divorce evil of that city brings in an annual income of between two and three millions—not to be sneezed at.

Just what Boise would do to entertain these divorce seekers is problematical, but the chances are they would have some very good picture shows and the like.

But, just think! You can get a divorce down in Mexico right now if you have \$100 to sacrifice on the altar of the presiding justice or whoever grants them down there.

A news dispatch from Tijuana, Mexico, says:

"Dissatisfied with your spouse? Know a cute blonde round the corner? Want a divorce?"

Then, tie yourself to the Palace de Gobierno in Tijuana, where the Mexican registry office will relieve you of your heavier half. Of course there's one hitch in a Mexican divorce: the price.

It's \$100 in U. S. gold.

If you want to get married at the same time, bring the blonde with you. Mexico marries aliens without notice, without red tape. It puts American men "on the spot" without formality.

Oleo Tax Is Raised
Governor Ross Saturday signed the oleomargarine bill, placing a tax of 5 cents a pound on uncolored oleo-margarine and 10 cents on the colored.

If costs the average farmer 5 cents to 8 cents a pound in taxes to produce a pound of butter, and the same burden should be borne by his competitor.

Another "Friday, the 13th"
Better watch your step today (Friday) for it is the "13th" and many things may happen because of that—"or something else" as Andrew Brown says.

There will be but one more "Friday, the 13th" during the year. This will come in November.

There is one thing a family skeleton is good for. It is good for about two columns on the front page.

Idaho Has Largest Wild Animal Census
That hunters figuratively might know how many needles there are in the haystack of their hunting grounds, the United States forest service has announced a 1930 census of animals on national forests with Idaho leading the four states of the intermountain region.

Reports from 132 rangers reveal that 2968 elk, 40,855 deer and 2782 bear, 21 of them silver-tip, range the mighty woods comprising the forest reserve within the state while Utah is inhabited by 3105 elk, 54,749 deer and 235 bear, and Wyoming, 20,530 elk, 3525 deer and 853 bear. Arizona and Nevada, the other two states in the census report no elk nor bear on their national forest reserve and fewer deer than Idaho.

Due also to the ruggedness of most of the state, Idaho can also boast of larger supply of predatory animals, fur-bearers and hunters, on its national forests than any of the four except Utah which reports a thousand more hunters last year.

Of moose, Idaho rangers counted 151, mountain sheep, 1452, mountain goats 1315, and antelope 2223. Arizona forest service men failed to locate any elk, moose, mountain goats, antelope or bear in their domains and in Nevada elk, moose, mountain goat and bear were noticeable in their absence.

Idaho leads all the rest in all varieties of predatory animals on forest reserves with 12,555 coyotes, 3392 wild cats or lynx, 584 mountain lions, 84-wolves and 21,125 porcupines. Only two of the states are without all kinds of these beasts. Neither Arizona nor Nevada rangers reported the presence of wolves.

In fur bearing animals, the state of Idaho is far ahead of the other three in all brands except skunks and muskrats. Utah's national forests being infested with 1500 of the odoriferous kittens, and Wyoming, 3150 muskrats. Gem state rangers counted the following: Beaver 6569, fox 2120, marten 6825, mink 8269, badger 11,226, ermine 27,770, muskrats 600, otter 205 and skunk 25.

Perhaps the most accurate section of the census is the number of game animals killed by man in which category Utah noses out Idaho by 1000 carcasses.

On Idaho's national forests it is listed that 5045 deer, 158 elk, 12 mountain sheep, 61 mountain goats, 165 bear and 32 unlisted varieties were taken last year by hunters which numbered 14,930.

Nevada reports doubtful marksmanship among its sportsmen with 1,000 hunters and only 295 game animals killed.

PERSONALS

Rev. N. E. Franklin was a Kendrick visitor from Lapwai Monday.

C. A. Oppenborn was a business visitor in Moscow Monday.

Fred Campbell and Chauncey Adams, with the W. W. P. Co. at Troy, were Kendrick visitors Tuesday afternoon.

M. O. Raby was an Orofino visitor Tuesday.

Mr. and Mrs. Ostor Raby returned home Saturday from a week's visit with relatives and friends at Lenore.

Paul Lind went to Teakean for a few days' visit with relatives on Tuesday.

Mr. and Mrs. Frank W. Ellis attended the funeral of David W. Eaves at Lewiston on Tuesday of this week.

Mr. and Mrs. C. O. Douglas of Arrow were Kendrick visitors Thursday forenoon.

LELAND NEWS

Mrs. R. M. Smith and Raleigh and Clifford Woodward motored to Lewiston Friday. Miss Georgian Smith and Mrs. Clyde McGee and daughter Frances, returned with them. Mrs. McGee is visiting her parents, Mr. and Mrs. A. H. Smith and other relatives.

The waffle supper given by the ladies was a very successful affair, they making about \$25.00.

Herman Meyers and Gordon Peters were Moscow visitors Saturday. Mildred Flesman is spending a few days with her sister, Mrs. Joe Piper, at Agatha.

Mr. and Mrs. Elton McCoy are at the Harry Smith home, where Elton is helping Harry with the new barn.

A. G. Peters and wife and Irene and Jane were Lewiston visitors on Tuesday.

Mrs. Minnie Blankenship, who has been living in town, moved out to keep house for her brother, Robert Thornton.

D. V. Kuykendall and family were Sunday guests at the Robert Smith home.

George Flesman has been confined to his home for several days on account of lumbago. Woodrow Flesman has been doing his chores for him.

Francis Hund spent the week-end at the Hugh Parks home.

Mr. and Mrs. Ben Hoffman were Clarkston visitors on Monday.

Mrs. Walbeck and Lovick, called at the Jennie Hund home Monday evening.

Mrs. Emil Larson is on the sick list.

Wm. Gephart moved two loads of his goods to Troy Monday.

Mr. and Mrs. Hugh Parks were Thursday visitors at Mrs. Jennie Hund.

Louis Porter spent Sunday night with Wilbur Corkill.

Alva, Vera and Neva Craig, are moving out to the ranch preparatory to spring work.

Mr. and Mrs. Wm. Davis called Thursday at the John Hewitt home.

Mr. and Mrs. Sam Gibson of Pomeroy, Washington, were on the ridge a couple of days visiting at the D. V. Kuykendall and Emil Larson homes.

A well attended party was given at the Claud Craig home Saturday night.

Had You Ever Thought Of It?
That the home merchants and business men are the ones who have helped to make it possible for you to enjoy all the benefits of a good school and gymnasium equipment? as well as many other privileges?
You didn't think it was the mail order houses or out-of-town merchants that had helped foster all these things, did you? Well, they didn't.

When you are in Kendrick, stop at the Hotel Kendrick—clean beds, and good things to eat. 14-

KENDRICK STATE BANK
OF KENDRICK, IDAHO

Welcomed His Release From Tyranny of Time

"Do you recognize this?" he said, holding out a small round object in the palm of his hand. "It is yours, undoubtedly. This morning, quite by chance, I kicked it out of the sand while having a stroll on the beach."

It was a wrist-watch I had bought years ago in France. A small fragment of the strap still clung to it, but the hands had rusted away and the numerals on the dial had been effaced by the action of sand and sea water.

I remembered clearly the day I had lost it, shortly after I first came to the South seas—and how anxiously I had searched for it near the stump of a pandanus tree where I had placed it with my clothes while swimming in the lagoon. I turned it over slowly, thinking of the days when that small instrument had exercised such tyranny over my life, hurrying me out of bed of a morning, driving me punctually here and there throughout the day. Even now it seemed to be making a mute, insistent appeal, and a ghostly feeling of nervous tension, of old-time restlessness, stirred me faintly.

With an under-hand throw I sent it far out over the surface of the lagoon. It skipped three times and sank with a tiny splash 50 yards offshore.

"May it suffer a sea change into something rich and strange," said my friend. "Have you missed it in all these years?"

To which I replied, quite truthfully, "Never once."—James Norman Hall.

Draw on Imagination for Mayflower Relics

"At the time of the first of my pilgrimages to Pilgrim Town (Plymouth), now so many in the course of the years that I have lost the count, there was an old curiosity shop there, kept by a gray-haired, blue-eyed Saxon, with a venerated Pilgrim name," writes James Morgan in the Boston Globe. "When I asked him, after a casual inspection, where he had all his Mayflower relics, he looked at me doubtfully, but finally decided to take my inquiry as a joke.

"If I had as many of them as the people who come in here tell me they have," said he, "there would be enough to sink a Cunarder today. I let them talk on about their Mayflower heirlooms and how they have come straight down to them in their families. It's none of my business. But a woman from St. Louis got so airy about a fork she had that I lost my temper. I up and told her that forks were such a new-fangled Italian novelty in 1620 that the Pilgrims never saw one before they sailed."

Turns Down "Unlucky" Legacy

Because they believe a curse lies upon it, the heirs of a legacy of \$30,000 at Prague refuse to touch the money. A short time ago Johann Jungmann, a baker, received a lawyer's letter informing him he was the heir of a wealthy uncle who had always disliked him. Soon after he received the money Jungmann was taken ill and died. His eldest son inherited his father's fortune, including the legacy, and within a week he also fell ill and died. The property has been inherited by a younger son, but he will not accept the legacy. It has been placed in chancery and will eventually revert to the state.

Good "Dentist" Gone

Years ago a dentist sent out by the Hudson's Bay company had for his mechanic an Eskimo known only as "Siberian Mike." Watching the dentist pull the teeth of his victims, Mike soon learned to do it himself. When the dentist left the Arctic, Mike remained and became an itinerant tooth puller. In all these years he has wandered from place to place with his kit of forceps pulling out teeth for anyone needing such ministrations. Mike died recently in the Perry river region, his passing mourned in every settlement which knew him.—Capper's Weekly.

Never Requires Winding

A wristlet watch that never requires winding—one is said to have gone for three years—has been invented by a watchmaker in Bolton, England. Inside is a small weight or balance; with each movement of the wrist the balance swings, and gives a turn to the spring. Although half an hour's wear is sufficient to wind the spring fully there is an arrangement to guard against overwinding. If put down for forty hours the watch will run down, but upon being put back on the wrist it will start ticking again.

On Her Own Head

"No," said the millionaire, gently, "I haven't the slightest objection to your asking my daughter to marry you."

"Thank you," exclaimed the young man with a little but no cash. "You go and ask her," the millionaire proceeded, thoughtfully. "I won't interfere. I've given her a good education and taught her to read the newspapers, and if she doesn't know enough to say 'No'—why, she doesn't deserve any better luck."—Stray Stories.

Umbrella Long Matter for Public Ridicule

If the history of the sunshade or parasol is one of dignity and more or less solemnity, not so the umbrella. Its development is attended by considerable ridicule and hilarity. The origin of the umbrella, that is, the use of a covering to protect one from rain, is somewhat obscure. It is said that in 1710 Marius of Paris invented an umbrella with jointed stock, that could be folded, put in a case, and carried in the pocket. But it was not satisfactory and faded into obscurity.

In the eighteenth century the umbrella became known and used all over Europe—Germany, France, Italy, Holland—and was sold on the streets of Paris by hawkers for from 15 to 22 francs.

England did not take kindly to the umbrella. In 1710, Dean Swift mentions seeing one made of oilcloth, and used by ladies only. A young man attempted to carry one, but was ridiculed in the press. Robinson Crusoe and his umbrella did much to popularize it, and it was often called the "Robinson." Jonas Hathaway (1738) is said to be the first man in England to carry an umbrella, and he carried it courageously for 30 years in spite of jeers and ridicule, and the "crass obscurantism" with which he is said to have been met by the public.—Exchange.

Truth, if Not Grammar, in Answer Geisha Made

The prominent westerner says he's going to start a geisha English class in Osaka if the Tokyo experiment proves successful.

"I've had a little experience in that line," he explained, "and I have found that geisha are very apt pupils."

"Once, for example, I was asked by a geisha to teach her a few simple phrases. It so happened that the first one I thought of was the query 'You love me?' 'Oh, I know that already!' she cried. 'Just a moment now and I'll give you the correct reply.' 'Oh, yes!' 'I love me!' 'Her answer,' smiled the prominent westerner, 'may not have been 100 per cent grammatical, but it wasn't long before I found out that it was absolutely true.'—Osaka Mainichi.

Preserved by Frost

A Russian scientific mission sent out by the Bolsheviks from Leningrad to the Altai mountains in Central Asia, has discovered the burial mound of a Hun chieftain of 27 centuries ago. From Asia the Huns swept into Russia. This leader... the Huns had his fortress among the high peaks of the mountains. From there he swept like a vulture on to the plains. To his eye he returned with his spoils. There he lived and died. Thousands of winters have passed over the burial place. None can tell who the chief was, or what tyrannies he committed, or how he died. But Time, which has effaced his memory, has preserved his body. The cold has embalmed it in its rock tomb.

Hard Knock

Samuel Insull, the Chicago capitalist who runs the Chicago opera company, said in an interview: "Our company is the best in the world, but from its yearly deficit you'd think it—well, you'd think it was like the band."

Old Virginia Home

Mount Airy, on the Rappahannock river in Richmond county, Va., was built in 1750 by Col. John Tayloe. The interior, as well as the cornice, chimneys and roof, were destroyed by fire in 1844 and hastily restored with consideration only for comfort and economy. The exterior is of native brown sandstone, with trim of fine white sandstone said to have been brought from England. The formal setting and character of the house and the monumental scale of the gardens suggest a European designer.

Race-Horse Locomotives

Flying engines and flying horses are synonymous to the London and North-eastern railway. It has named eight new locomotives after famous race horses. The engines, which are of the Pacific type, and which will haul passenger trains on the east coast route over the track of the Flying Scotsman, are as follows: Trigo, Manna, Gainsborough, Rock Sand, Book Law, Call Boy, Spearmint and Cicero. Their equine prototypes, with one exception, Book Law, have won the Derby in the last twenty-seven years.

Primitive "Webster" Found

What is claimed to be the oldest known dictionary in the world has been discovered in southern Syria. A French archeological expedition under the leadership of Dr. F. A. Shafer of Strasbourg made the find. The expedition has reported many important discoveries, principally in the ancient city of Zapouna. The "dictionary" consists of large tablets of baked earth, some of which show an unknown script and language going back to about 1400 B. C.

Production of United States Paper Currency

The paper used in making United States paper money is of the toughest linen and is made by a secret process protected by statute penalizing its manufacture for other purposes. Supplies of blank paper are guarded as carefully as the finished money, for if a counterfeiter can obtain this distinctive paper he has made a good start toward producing spurious currency. The plates from which money is printed are made with the most exacting care. The public is not permitted to see the engravers at work, nor does any one engraver prepare an entire plate. It usually takes about a year of continuous work to complete one of the original plates. The money never is printed from these originals, but from duplicates made by a mechanical process. The fine lines on paper money are made upon the original plates by a geometric machine which has as many combinations as the best safe lock, each combination producing a different design. Each bill contains many symbols which tell the initiated from what plate it was printed; who engraved the plate and who printed the bill. It requires about 20 days to complete the intricate process of getting a piece of paper money ready for circulation, during which period it is counted about 50 times. The average life of paper money in the United States is less than two years.

British Royal Palace Likened to Mausoleum

The exterior of Buckingham palace gained considerably by its refacing soon after King George V took possession. Before that its appearance made it the subject of many gibes, and so long ago as 1880, while it was being built, Joseph Jekyll, the famous master in chancery, wrote of it as reminding him of nothing so much as a mausoleum—an opinion shared by William IV, who kept away from it as much as possible, writes a columnist in the Manchester Guardian. The late King Edward, too, never concealed his dislike for the appearance of his town residence. "What a magnificent workhouse it would have made!" he confided to Lord Farquhar when he first went to live there. Shortly after, refusing to watch painters at work on the exterior of a well-known West end store, he remarked: "That is what Buckingham palace needs, but unfortunately I am not a successful draper."

Weeping Willow Ancestry

A twig placed in a box of figs which was sent by a traveler in Syria to Alexander Pope, English poet, is said by nurserymen to have been the ancestor of all the weeping willows in this country today, reports Better Homes and Gardens. The twig, from one of the weeping willows beside the rivers of Babylon, was planted by the Thames and became a tree. During the Revolutionary war, a British officer brought with him a slip from this tree, which he gave to John Curtis of Virginia. Curtis planted it, and the tree which grew from it still stands on the Curtis estate and is said to be the first weeping willow in the United States.

The Censor's Hint

Representative La Guardia said at a dinner in New York: "Censors aren't the fools that the censored make them out to be. The present English censor called on Sir Alfred Butt one day in his theater and said: 'Butt, my boy, I've gone over this new revue of yours, and I've passed every scene, though some of the stuff is pretty frisky. Now remember, Butt, nothing more is to be put on without my approval.' 'Then the censor nodded toward a group of pretty dancing girls dressed in strings of beads and said: 'And nothing more is to be taken off, either.'—Detroit Free Press.

More Clothes

A. L. Erlanger, of theater fame, said to a New York critic: "Women will wear more clothes next season. That's a good thing. They couldn't wear less clothes, could they? 'Maybe you know the story about the man they threw out at the dinner party? He proposed a toast that was considered offensive—'Ladies, here's looking at you!' 'Then there's another story about a man' at a dinner party whose toast was: 'The ladies—God dress them!'—Detroit Free Press.

Pisa of Pisano

So many people make flying visits to Pisa attracted alone by the leaning tower as a phenomenal structure, forgetting that the group monuments—cathedral, baptistry, and tower—are the finest possible examples of Romanesque architecture in Italy, built 800 years ago by Nicola Pisano and his son Giovanni—both such masterpieces of sculpture that every artist for the last five or six hundred years with aspirations to carve in stone or wood has studied them.

Died at His Post

Eulogio Molina, eighty, who had spent a large part of his life digging graves for Nogales (Ariz.) people, suddenly toppled over dead as he was engaged in making a grave at a local cemetery. He was buried in the same cemetery where he was employed.

CO-OPERATIVE CREAMERY CO. FORMED—45 MEMBERS

Permanent organization of the North Idaho Cooperative Creamery, Inc., was effected in Lewiston Tuesday, when 45 farmers, representing eight counties, named permanent directors for a year and voted to acquire Smith's creamery. Joe Smith was chosen manager for the association, continuing in the capacity he has held since the organization first began to operate on February 1, says the Lewiston Tribune.

Declaring that the cooperative would handle at least 375,000 pounds of butter during 11 months of operation this year, counting non-member cream, speakers at the meeting constructed a bright picture of the possibilities of an enlarged dairy industry in the Snake-Clearwater valleys. Products not sold locally will be marketed through the United Dairyman's association, Seattle, a subsidiary of an all-western cooperative unit designed to control markets and prevent a glut that would ruin price levels.

A board of nine directors, representing each section included in the cooperative, was chosen in the afternoon. Gladys M. Swartz, Tammany, took a leading part in the speaking program and was later chosen secretary-treasurer in the board of directors. The other officers chosen were: J. M. Woodward, Leland, president and Waldo Dunlap, Culesac, vice president.

Other directors are: Z. V. Farrell, Silcott; C. J. Schultz, Cameron; F. Lasswell, Sweetwater; John Phillips, Southwick; S. E. Swanson, Winchester and L. P. Teats, Reubens.

Included in the cooperative are farming interests from Nez Perce, Latah, Whitman, Garfield, Asotin, Clearwater, Idaho and Lewis counties. Speakers stressed the aim of the organization as being not to increase competition in the Lewiston market but to "draw to the Lewiston central creamery the business which belongs to Lewiston and which should logically be marketed here to get the maximum benefits." Joe Smith forecast after the meeting that the output of the cooperative would be raised by the end of 1931 to a basis of half a million pounds of butter a year, and added, "we won't stop at that."

The cooperative is capitalized at \$50,000, this representing 5,000 shares of preferred stock at \$10 a share. In addition to this there are 5,000 shares of common voting stock at \$1 a share, each member having only one share of common. The preferred stock is limited on the basis of one share for each cow signed into the association. Dividends will be paid back to shareholders on the basis of volume of raw material shipped.

There are already more than 1,000 cows signed into the association. It is estimated that there are 12,000 cows milked tributary to this city, although 60 per cent of the cows are "boarder cows," costing as much or more than the value of their milk and cream.

Inland Empire In Transition

The farm picture of the Inland Empire is in the transition to a more intensified form on all sides, said Eugene A. Kelley, general manager of the North Pacific Grain Growers, on his return to Spokane, following a trip through the grain belt the past week. "The farmer has sensed the elements that make up a wheat surplus," Mr. Kelley added, "and the result is that feeding programs now loom in the wheat belt mathematics as never before. The hog and cattle industry is due for a decided increase in the Inland Empire during the next two years.

Spring wheat planting in winter wheat region is almost nil, and while the spring crop is small ordinarily there has been some reduction in the winter planting, and all these reductions, with the increased feeding of wheat will mean that 1931 will see less grain marketed in the Inland Empire than formerly.

Mr. Kelly declared fall conditions ideal for the planting of winter wheat and that the Palouse fields were like a carpet of green. In the Walla Walla country the wheat has a height of six inches. The Big Bend also looked good. There is an abundance of moisture for the time being, although subsoil moisture conditions are not yet normal.

And Still Delirious

A winsome widow who aside from being hopelessly simple, is simply hopeless, writes the Atlantic City Press that she has loved and lost three husbands—all named William. "Does this," she wails, "signify anything?" "Certainly does," assures the worldly editor. "It means that you've had the Willies."

It is easy for skinny people to be modest.

Some men never get old enough to know better.

KENDRICK GARAGE CO. DEOBALD BROS., Props. KENDRICK, IDAHO

MILLIONS OF DOLLARS AVAILABLE FOR ROADS CALL BIDS SOON ON BIG ROAD IMPROVEMENT

One hundred and sixty millions of dollars is now available for road construction as a result of recent federal appropriations and sums on hand in the various states.

The appropriations have given the nation an almost unprecedented opportunity to advance the good roads movement and at the same time aid in bringing business back to normal. Prices of materials of all kinds are the lowest in many years, there is an abundance of labor and engineering talent, and governments can borrow money at low rates of interest.

A large part of the money is to be used in rural areas where it will give the biggest return for each dollar spent. The American farmer has been waging a battle against a variety of circumstances, and a sound "relief" program is the construction of year-round, farm-to-market roads. It is probably true that lack of adequate transportation arteries has done as much as anything else to hold agriculture back.

We live in a motorized age, in which quick, low-priced transportation is essential to commercial activities of all kinds. Only a small part of our millions of miles of roads are surfaced and passable at all times of the year. Wise use of the appropriations will pay high dividends.

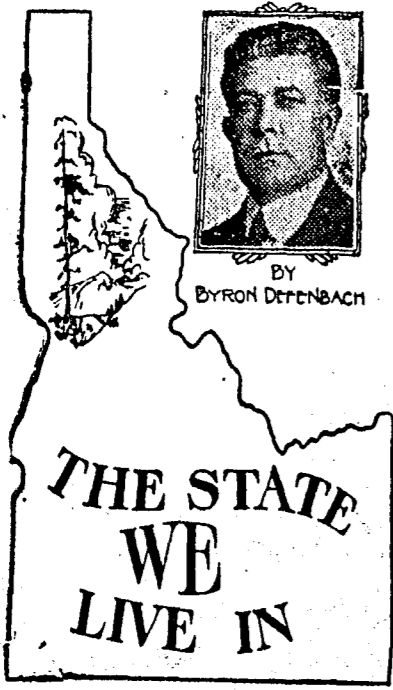

In Idaho

With the affixing of his name to the "gin marriage" law recently passed by the state solons down at Boise, Governor Ross made it impossible to marry in the state of Idaho until a notice of at least five days has been given of such intention.

It won't be long now until one can get "unmarried" almost as quickly as they can get married.

There seems to be one redeeming feature, however—it may stop "gin" marriages. But gin marriages make business for the quick divorce courts—and what's the use of having these quick divorce laws unless they can be made use of, from a financial standpoint? That's what Reno has them for!

Milk Electrically Cooled The rate of cooling milk with electricity is very rapid, says D. R. Theophilus, associate professor of dairy husbandry at the University of Idaho. One to two hours is usually sufficient to reduce the temperature to about 35 or 40 degrees Fahrenheit, if water is the cooling medium. In any case water should be used instead of air, since it is 21 times as efficient.

IDAHO WEATHER

This essay will be found running true to ancient form, in that it discusses the weather without suggesting that anything can be done about it.

Idaho, like Chicago, has nearly all the kinds of weather there are, but unlike the Windy City, we do not have all the different kinds in the same place on the same day.

The writer hastens to deny that Idaho's hottest weather is to be found in his home town of Lewiston. The highest temperature ever recorded in Idaho was in Boise on August 17, 1871, when the thermometer loitered lazily up to 121 degrees. The second high record is 115 degrees at Hagerman on July 30, 1900, Weiser on July 2, 1924, and Glenns Ferry on July 16, 1925.

Our coldest day was in Stanley Basin on December 12, 1919, 50 degrees below zero, a low record exactly equalled in Teton county on January 19, 1922, and again at the same point in 1924.

Taking the state as a whole, the coldest day was in 1922, the severest February in 1903, the coldest September in 1912, the most frigid December in 1924.

The hottest month in our history was August, 1915, with an average mean temperature again reached in 1926.

The coldest entire year, considering average mean temperature, was 1922.

It will be noted that extremes of temperature are greater in the southern section. One of the warmest days in the north was July 18, 1918, with a record at Koooskia and Orofino of 111 degrees.

Annual rainfall varies almost as much as temperature, the greatest being at Burke, in Shoshone county, over 44 inches, while the plains of the south have under 10 inches, less than half of which falls during the growing season.

Variations in various phases in different parts of Idaho will be shown by the figures for the year 1929. It was one of the coolest years on record, and the driest year known except 1924.

The highest temperature in 1929 was 112 at Orofino on July 30; the lowest was 44 below at Felt, Teton county. The latter point is 6,000 feet above sea level and is Idaho's coldest point of observation.

The warmest spot was Lewiston with an average of 51 degrees; Boise had an average of 50, while the lowest average mean was 35 degrees in Custer county.

Our only destructive weather manifestations are occasional hailstorms of limited extent, with cloudbursts and electrical storms in the mountain regions. Losses from lightning in the settled areas are infrequent, but out most-feared weather troubles are forest fires set by lightning in the higher areas.

Marines Favor "Leatherneck"

Why are marines called leathernecks? The expression is not due to the sun-tanned effect that marines acquire from too much exposure to tropical suns, but was coined several decades ago when the sea soldiers wore around their necks stiff leather collars, which were fastened at the back with metal buckles.

These leather stocks were not only considered a smart feature of the marine uniform, but had the additional advantage of making the wearer keep his head erect in the approved military manner.

The term "Devil Dog," alleged to have been applied to the marines by Bavarian troops during the World War, is not in good standing with the sea soldiers who claim the epithet probably is the result of some war correspondent's imagination.

Leathernecks, however, meets with almost universal favor among the marines, and since the World War their semi-official magazine is called "The Leatherneck."

"Marriage," said the philosopher, "is like a railroad sign. When you see a pretty girl you stop; then you look, and after you are married, you listen."

THE INDIVIDUAL AND HIS BANK

By ROME C. STEPHENSON
President American Bankers Association

BANKERS recognize that their business carries especially heavy public responsibilities and welcome all sound measures to aid them meet the duties this imposes. Unceasing efforts to bring about continually improving methods to safeguard depositors in banks of all kinds have long been uppermost in the plans of bankers' organizations throughout the nation. They are not the outgrowth merely of the past year of business adversity, but have been carried on actively for many years and have resulted in great progress along lines of better, safer banking methods. Although banking along with all business has suffered reverses, conditions in this field have been far less severe than they would have been had not bankers been widely successful in their endeavors to develop the high standards of banking that now generally prevail.

The American Bankers Association and bankers' organizations in every state actively support the principle of government supervision of banking. The national banks, which receive their charters to do business from the federal government, are under the supervision of the Comptroller of the Currency at Washington. Through his efficient staffs of expert bank examiners in every section he has the duty and powers to keep watch of the way every national bank is being conducted, to suggest desirable changes in its policies or methods and even to step in and take control for the protection of the depositors if such action is warranted. The state banks also, which are chartered by the various state governments, are subject to similar supervision and control by state bank officials. In addition, banks in many places have long maintained voluntary clearing house associations which enforce even closer supervision over their members.

Bankers Favor Public Supervision Present laws adequately enforced contain ample provisions for government supervision. Bankers universally believe in strong, capable banking departments, manned by officials with the discretion and courage to enforce these laws and act under them as the common welfare demands. They believe that these public officials should be paid sufficient salaries to command the services of men of character, ability and a resolute spirit of public service. They believe also that the banking departments should be kept free from all political or other special influences in order to be able to act at all times with single-minded independence solely for the benefit of the public interest.

Although banks in the United States operating under state or national charters are thus subject to supervision of public authority, they are strictly private business enterprises. They are owned by their stockholders and administered by officials chosen through the boards of directors which their stockholders elect. No bank is owned or operated by the United States Government, nor, with one small exception in a western state, by any state government. The function of government in banking is to promote and enforce careful banking administration through the system of examination and supervision which I have described. This, however, does not relieve the individual depositor from the necessity of judging and choosing carefully as to his banking relations, just as in his other business or professional relations. He must inquire for himself into the character and type of institution and men he shall do business with, satisfying himself as to their reputation, reliability and capability. These qualities are essential to complete the element of safety and dependability in any human institution.

An Illusory Law

The bank deposit guaranty law in any form is a snare and a delusion, declares a banker in a state where it has been tried, adding: "It is a license and encouragement to irresponsible banks and banking and penalizes capital solvency and prudent banking. It creates a sense of security in the minds of the unthinking and uninformed that is false and impossible to be realized on ultimately. To compare it to legitimate insurance is without reason and absurd. It jeopardizes the solvency of all banks and the safety of all depositors for the theoretical safety of a few. Guaranty schemes always have been, are and always will be impotent, futile and disastrous. It is not new. Has been tried, failed and discarded at intervals for more than 100 years in this country. No well-informed, honest and intelligent mind can accept it in principle or practice. Competent bank supervision and restriction of banks to territory that will warrant sufficient capital investment and accounts is the only sane and honest course and will afford all the guaranty the depositing public is entitled to as compared with all other human affairs."

WHEAT MARKET WEAKER WITH HEAVY SHIPMENTS

tors and domestic marketing agencies. Mills, however, were taking only sufficient wheat for current requirements. Market stocks continue to increase, with the largest stocks on record at Kansas City. Receipts of winter wheat fell off materially, totaling 1,947 cars in the principal winter wheat markets, or about 400 cars less than the previous week. Spring wheat receipts decreased, but were materially larger than a year ago. Quality and protein average was relatively large. At the close of the market, March 20, No. 2 hard winter wheat, ordinary protein, was quoted at Kansas City and Omaha at 70½c, at Fort Worth at 79c to 80c, delivered Texas common points, and at Denver at 50c to 54c per bushel. No. 2 soft red winter was quoted at Kansas City at 72 to 73c; at St. Louis at 80 to 81c; at Cincinnati at 76 to 80c and at Chicago at 79 to 79½c per bushel. Premiums on spring wheat were advanced slightly, and No. 1 dark northern sold at Minneapolis at 1c under to 2c over the May price of 76½c. No. 1 dark northern was quoted at Duluth at 74½c to 77½c, and No. 1 Manitoba northern at Winnipeg at 57½c per bushel. There was little change in the market for durum wheat and demand continued dull. Prices held practically unchanged, with No. 2 amber durum quoted at Minneapolis at 68c to 74c per bushel and at Duluth at 72c to 74c per bushel. No. 2 mixed durum was quoted at Duluth at 69c to 71c and No. 2 red durum at 62c to 63c per bushel.

Pacific coast markets were dull, reflecting the lack of export outlet and a slow domestic demand. Prices held about unchanged. Marketings increased sharply at Portland and Seattle, but storage space at terminals was being rapidly filled. Domestic flour mills were taking only small amounts of wheat and export mills were absorbing moderate quantities for grinding into export flour, small sales of which had been made to the Orient. Rains during the week put the ground in excellent condition for spring seeding and improved the winter wheat crop, which is now in fine condition. At the close of the market March 20 Uo. 1 hard white 'Big Bend' Bluestem was quoted at Portland at 69c and at Seattle at 68c per bushel. No. 1 soft and western white at both markets at 67½c and hard winter, northern spring and western red at 65½c, sacked. No. 1 Manitoba was quoted at Vancouver at 61c, No. 2 at 55c and No. 5 at 49c per bushel. Vancouver shipments since August have totaled 50,000,000 bushels, of which 35,000,000 bushels have gone to Europe and the balance principally to the Orient.

California wheat markets continued quiet. Mills were taking about normal amounts for this season of the year, but low prices of poultry and dairy products continue to restrict demand for feed wheat. New crop prospects continued mostly favorable, although late planted wheat in the Sacramento valley will soon need additional moisture. Interior wheat stocks are heavier than usual, but growers were selling slowly at current prices, which averaged 95c to \$1.00 per 100 F. O. B. Sacramento valley points for No. 1 hard wheat. No. 1 hard and soft white were quoted at San Francisco at \$1.20 to \$1.25, while No. 2 soft and western white from Washington and Oregon were quoted at \$1.21 to \$1.22½, delivered on dock at that market. No. 2 hard winter with 12 per cent protein was quoted at \$1.25 and No. 1 dark northern spring from Montana at \$1.37½ per 100, dock, San Francisco. No. 2 hard winter with 13 per cent protein from the Inter-mountain states was quoted at \$1.35 and No. 2 hard winter with 12 per cent protein at \$1.30 per 100, delivered San Francisco or other California points.

No. 2 dark hard winter and No. 2 hard winter, 13 per cent protein, were quoted in bulk at Los Angeles at \$1.35 and sacked at \$1.37½ per 100. No. 1 soft white sold at \$1.32½, sacked, and No. 1 hard white mostly from Utah and Idaho mostly at \$1.35 per 100. Receipts were fairly large, totaling 63 cars, principally from these points. Some wheat was received from the Northwest by water, and the balance from Southern California points.

FILLING STATION BLUES

This one comes for water,
That one comes for air,
This one wants directions—
I'm no millionaire.
That one wants the rest room,
This one wants a stamp,
That one seeks a pleasant
Spot where he can camp.
All the local idlers
Decorate my stools;
All the local grafters
Utilize my tools.
Many cars go speeding
O'er the road like glass—
Maybe some day some one
Will drive in for gas.

—Pathfinder

Like Color . . . the best Gasoline is Blended

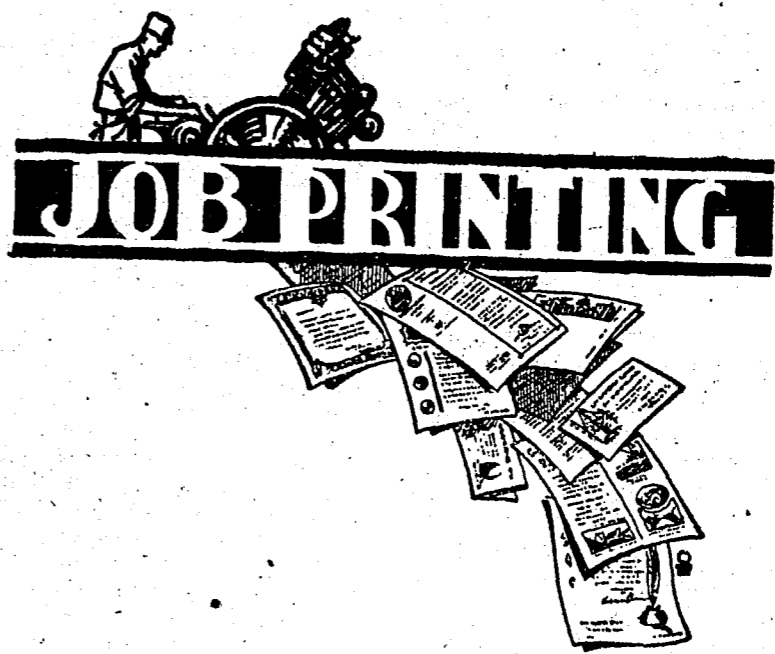

THE artist stands before his canvas with color-laden palette. Blues, greens, white and touches of warmer tones are blended by his inspired brush as the waves of the seascape take form. His genius tells him that only through the blending of just the right colors is the ideal result achieved. Otherwise his most painstaking effort could only result in a monotone, wholly lacking in brilliance. Artistry and genius have their place in the making of CONOCO Gasoline. CONOCO engineers long since have found that the ideal gasoline is a balanced blend of the three types containing the elements most desired in a motor fuel. There is highly volatile Natural Gasoline, to give quick start-

ing. There is Straight-run Gasoline, to give power and long mileage. There is Cracked Gasoline with its well-known anti-knock quality. Like the artist with his colors, CONOCO refiners take these three types of gasoline in balanced proportions and blend them. The result is as pleasing to the car owner as is Rembrandt to the art connoisseur. Of course the genius of "knowing how" is the vital element and it is here that CONOCO refiners excel. Convince yourself of the merit of CONOCO Blended Gasoline. Try it today. You will find this triple-test motor fuel wherever you see the CONOCO Red Triangle.

CONOCO

THE BALANCED BLEND GASOLINE

WHO IS YOUR PRINTER?

It doesn't make a partial of difference what you may want in the printing line, from a calling card to a broadside or from a statement to the most complicated of ruled and printed forms, we are prepared to do that work for you in a more than satisfactory manner.

We have put in many fonts of brand new new style type and we would appreciate figuring with you on you next printing job.

Eggs Contain Many Vitamins

Eggs contain a greater variety of
the essential protective properties than
any other food. They are rich in
iron, proteins, fats, and minerals.
They are easily digested, and contain
both vitamin B and D. And eggs
are cheaper now than they have been
for years.

City Clerk.

**NOTICE OF GUARDIAN'S SALE
OF REAL ESTATE**

In the Probate Court of the County
of Latah, State of Idaho.

In the matter of the Person and Es-
tate of John C. Hamil, an incom-
petent person.

Notice is hereby given that the
undersigned, guardian of the person
and estate of John C. Hamil, an in-
competent person, will sell at private
sale in one parcel to the highest bid-
der, subject to confirmation by the
probate court of said county, on and
after the 4th day of April, 1931,
all the right, title, interest, and es-
tate of the said John C. Hamil,
an incompetent person, in and to those
certain pieces and parcels of land,
lying and being in the counties of
Latah and Nez Perce, State of Idaho,
and particularly described as follows,
to-wit:

Northwest quarter of southwest
quarter of section thirty-five and
thirty acres off the east side of the
northeast quarter of the southeast
quarter of section thirty-four, all
in township thirty-eight, North,
Range three, W. B. M., excepting a
right of way for a private wagon
road over and across the above-
mentioned 30 acres of land; com-
mencing at a point about 40 rods
west of the northeast corner of the
NE 1/4 of SE 1/4 of section 34, and
running thence in a southeasterly
direction and ending at or near the
southeast corner of said thirty acres.
All of the above described tract is
in Latah county, Idaho, except
about 33 acres of the NW 1/4 of
SW 1/4 of section 35 above described,
which is situated in Nez Perce
county, State of Idaho.

Terms of Sale: The purchaser to
assume mortgage of the Federal Land
Bank, of Spokane, Wash., on pre-
mises for \$1090.44 and pay the remain-
der of purchase price in cash. All
bids must be in writing and may be
delivered to the undersigned at his
office in Kendrick, Idaho, or they may
be filed with the Probate Judge of
said county. A certified check of at
least five (5) percent of the cash of-
fered under the bid, must accompany
each bid; the balance to be paid upon
confirmation of sale.
Dated March 19th, 1931.

C. A. OPPENBORN,
Guardian of the Person and Es-
tate of John C. Hamil, an incom-
petent Person. Residence and Business
Address: Kendrick, Idaho. 12-3

Medium-Priced Potatoes Best

The bureau of economics of the
United States department of agricul-
ture says that the most desirable size
for potatoes is from two and one-half
to three inches in diameter, and
weighing from 10 to 14 ounces. These
are best for baking, preparing French
fries, or "shoestrings." There is also
less waste in peeling large potatoes
than small ones.

Different Story Now

Those who say that a woman can-
not keep a secret haven't noticed how
Mrs. Willebrandt clings to the secret
of what turns plain grape juice into
"what have you."

NOTICE

In the Probate Court of Latah Coun-
ty, State of Idaho.

In the Matter of the Estate of Lena
Johnson, Deceased.

NOTICE IS HEREBY GIVEN
TO ALL PERSONS interested in the
estate of Lena Johnson, deceased,
both creditors and heirs:
That Mabel Johnson has this day
filed her petition in the above-entitled
Court and Cause claiming title to an
undivided one-half interest in and to
the hereinafter described real prop-
erty to be in the following named
heirs of the said Lena Johnson, de-
ceased, to-wit: Neta C. Jester, Han-
nah M. Smith, August H. Johnson,
Harry Johnson, Charles L. Johnson,
Lila M. Johnson and the petitioner,
Mabel Johnson; the following is a
particular description of said real es-
tate: situate in Latah County, State
of Idaho, to-wit:

The Southeast Quarter (SE 1/4) of
Section thirteen (13) and the North-
east Quarter (NE 1/4) of Section
twenty-four (24) in Township thirty-
nine (T.39) North, of Range Six
(R. 6) W. B. M., containing 320 acres
more or less.

and praying that an undivided one-
half interest in and to said property
be decreed to be the property of the
above named heirs, by right of de-
scendant from the said Lena Johnson,
deceased.

Said petition further sets forth
that the said Lena Johnson died in-
testate in Latah County, Idaho, on
or about the 12th day of February,
1908, and was a resident of Latah
County, Idaho, at the time of her
death and was then and there seized
of said undivided one-half interest in
and to said property and that her
estate has never been probated there-
in.

Notice is hereby further given that
Monday, the 4th day of May, A. D.
1931, at the hour of 10:00 o'clock a.
m. in the courtroom of the above
entitled Court in Latah County, State
of Idaho, has been fixed as the time
and place for the hearing of said pe-
tition, at which time and place all
persons interested in said estate, both
creditors and heirs, may appear and
show cause, if any there be, why the
prayer in said petition should not be
granted.

Done in open Court this 25th day
of March, A. D. 1931.

L. G. PETERSON,
Probate Judge.

FRANK L. MOORE and
LATHAM D. MOORE,
Attorneys for Petitioner. 13-4

**NOTICE OF ANNUAL SCHOOL
MEETING AND ELECTION**

In Joint Common School District No.
24, Latah County, Idaho

Notice is hereby given That the
annual school meeting of Joint Com-
mon School District No. 24, Counties
of Nez Perce and Latah, State of
Idaho will be held on Saturday,
the 18th day of April, 1931,
and the said meeting shall con-
vene at 1:00 o'clock p. m. on said day
and continue uninterrupted until the
business properly coming before said
meeting is disposed of, at the school-
house in said District; that at said
meeting the following business will be
transacted:

1. One trustee to serve for a term
of three (3) years will be elected.
2. That at the said annual meeting
in said district there will be deter-
mined the amount of money to be raised
by special taxation, the levy for which
purpose shall not exceed ten (10) mills
on each dollar of taxable property of
the District, and shall determine the
purpose for which the money derived
therefrom shall be expended, naming
in each instance the proportion of the
whole amount which is to be used
for the various and separate purposes.
3. That at said meeting general
questions pertaining to school and
school interests will be taken up and
disposed of.

The name or names of all candidates
for election of trustees together with
the term for which nominated shall be
placed on file with the Clerk of the
Board of Trustees at least six (6)
days prior to the day of election, ex-
cluding the day of election.

That the election at said meeting
will be by secret and separate ballot.
Dated this 25th day of March, 1931.

WM. WATTS,
Clerk of Joint Common School Dis-
trict No. 24, Nez Perce and Latah
Counties, Idaho. 13-3

**NOTICE OF TIME APPOINTED
FOR PROVING WILL**

In the Probate Court of the County
of Latah, State of Idaho.

In the Matter of the Estate of Sarah
Keeler, Deceased.

Pursuant to an order of the said
Probate Court, made on the 24th day
of March, 1931. Notice is hereby
given that Monday, the 13th day of
April, 1931, at ten o'clock in the fore-
noon of said day, at the courtroom
of said Court, at Moscow, in said
county, has been appointed as the time
and place for proving the will of
Sarah Keeler, deceased, and for hear-
ing the application of James Keeler
and Charles Keeler, praying that Let-
ters of Administration, with the Will
annexed, issue to C. A. Oppenborn
of Kendrick, Idaho, upon said estate;
when and where any person interested
may appear and contest the same.
Dated at Moscow, in said County,
this 25th day of March, 1931.

L. G. PETERSON,
Probate Judge.

CAVENDISH ITEMS

Mrs. Walter Taylor, Mrs. Ed.
Bloom and Mrs. Murry called on
Mrs. B. L. Card Monday afternoon.

Francis Need spent Sunday at the
D. R. Shoemaker home.

Dorothy Johnson and Ivalde Black-
burn visited at the Card home Sun-
day afternoon.

A birthday dinner was given at
Chas. Kime's Sunday in honor of
Claud Kime's birthday.

Mildred Pettit has been helping
Mrs. Frank LeBaron with her house
work this week.

Mr. and Mrs. Ted Vanairsdale and
son, Junior, of Spokane, spent the
week-end with their parents, Mrs.
Vanairsdale of Teakan and W. E.
Tarry's.

Mrs. Bill Clay spent Friday after-
noon with Mrs. Frank LeBaron.

The E. E. McGuire, C. M. Black-
burn, W. A. Reece and C. H. Pitcher
families took dinner Saturday with C.
C. Blackburn of Kendrick, attending
the auction sale in the afternoon.
L. J. Reece and family called on
T. C. King's Monday afternoon.

Mr. and Mrs. Harry Thompson
spent the week-end with Mr. and
Mrs. H. J. Starr.

Mrs. Butler and Mrs. Smith and
children of Teakan visited at the
J. H. Hunt home over the week-end.

Mrs. Jas. Keeler of Alliance, Ne-
braska visited with Miss Eva Smith
Saturday evening and Sunday.

A large crowd attended the funeral
of Grandmother Keeler here Thurs-
day afternoon.

Mr. and Mrs. Clyde Nichols and
family of Clarkston spent Sunday
with Mr. and Mrs. Ed. Kent.

A number of people from here
attended the "Arizona Cowboy" given
in Kendrick Thursday evening.

Our ridge was well represented at
the Kendrick special sale day Satur-
day.

Fred and Arthur Foster of Kendrick
were over-night guests at the Allen
home the first of the week.

Mother

You could overlook my errors,
As no other ever will;
I could bring you such a trifle,
Yet it would your heart thrill.

You could banish all my sorrows,
Bind my wounds and make me glad;
O you were the dearest mother,
That a maiden ever had.

How may I do without you?
This I ask myself today;
Lo, you left a dear sweet memory,
That shall stay with me always.

Memory of undaunted courage,
Strength to hold a heart of prayer;
Love that never can be measured,
Fills my every thought and care.

Geneva Stanton Stedman

That they call them telephone ex-
changes probably because that's where
they change your right number for a
wrong one.

ANNOUNCEMENT

Change In Business Policy

Believing that we can sell merchandise on a lower price level by conducting a cash business, we hereby announce that after April 1st all sales will be made on a strictly Cash basis, with no charge accounts.

Farm machinery and heavy hardware will be sold on terms to strictly approved accounts on sales contracts, acceptable to machinery companies and finance corporations.

Pending such time as we can re-price our stocks of merchandise, a general discount of 10% will be allowed at time of purchase, except on certain heavy hardware and farm machinery.

Owing to our change in method of doing business we ask that all accounts and notes due us be paid promptly.

Carlson Hardware Co.

SOUTHWICK NEWS

Mr. and Mrs. Everett Crocker visited Sunday and Monday at the Jack Travis home.

Mr. and Mrs. Gordon Harris entertained the following guests Sunday: Mr. and Mrs. Ed. Wetmore and sons from Clarkston, Mr. and Mrs. John Lettenmaier and family and Mr. and Mrs. M. Peckenpa and daughters.

Mr. and Mrs. Elton McCoy are in Leland at the Harry Smith home this week.

Mr. and Mrs. Dick Winegardner visited Sunday at the Earl Whiting home.

Mr. and Mrs. Grant Bateman gave a party Saturday evening in honor of Mrs. Ira Foster and sons Fred and Arthur, who were visiting there.

Dancing and games were enjoyed till midnight, when refreshments were served.

Mr. and Mrs. C. A. Betts visited Monday in Clarkston with Mr. and Mrs. Wm. Berreiman.

Mr. and Mrs. Clarence Henderson, Darl Wright and son Virgil from Potlatch visited here with relatives from Thursday until Saturday.

Mr. Schessler went to Lewiston Tuesday for medical aid.

A social time was enjoyed Sunday when several families came with well-filled baskets and spent the day at the Ben McCoy home. Those present were Mr. and Mrs. J. R. King, Mr. and Mrs. Tom King and two children, Mr. and Mrs. Claud King and son, Mr. and Mrs. Elton McCoy, Mr. and Mrs. Wilmer Hanks, Dortha Miller, Ben and Russell Baker. The

affair was in honor of the birthdays of Russell Baker, Dortha Miller, Eva McCoy, J. R. King and Mrs. Ben McCoy.

Will Kauder and Darwin Terry were Lewiston visitors Tuesday.

Mrs. Tilden Frazier from Deary was a week-end visitor of Mrs. Gordon Harris.

Mr. and Mrs. Jim Lyle and Nellie Henderson were Sunday guests at John Stalnaker's.

Mr. and Mrs. Wilkerson and Mr. and Mrs. Ben Cook were Spokane visitors over the week-end.

Twenty friends of Mr. and Mrs. Jack Travis came in Monday evening and reminded them it was their twenty-fourth wedding anniversary. Bridge, pinocle, checkers and radio programs were enjoyed until midnight, when refreshments were served. Those present were the Messrs. and Mesdames Wilkerson, Ben Cook, Jim Lyle, Jack Travis, Homer Betts, Mrs. John Phillips and sons, Archie and Virgil, Mrs. Dick Winegardner and daughter Helen, Mrs. Clara Bateman and daughter Edith, Miss Altha Bluit, Herman Travis and Nelson Bluit.

Grinolds School Notes

The honor students for the past week are: Everett Betts, Joseph Wittman and Jay Mills.

The school has organized a "Song a Day" club. The purpose of this is to present a song and learn it every morning. There is good interest now being shown in this club, and it further interest in music. These people were chairmen and leaders last week: Mrs. Clem, Virginia Lowe and Virgil Lowe. Everyone is encouraged to be chairman and present a new song before the club.

Joseph Wittman, Richard Pagen, Virginia Lowe, Everett Betts, Mrs. C. A. Betts and children, Odetta and Ray and Mrs. Beryl Clem attended the spelling match at Southwick. They all rode to Southwick with C. A. Betts. Everyone enjoyed the ride and well as the spelling match. We are glad to announce that Richard Pagen won second place in the fifth grade and Virginia Lowe won first in the seventh grade. We hope that they will represent us at Lewiston next Saturday.

The following is the best story this week, written by a third grade boy:

Once there were two birds built a nest in a tree. There was a little boy saw them but he did not tell for it was a secret.

The mother bird went to look for a worm and the father bird sat on the nest.

There were four eggs in the nest. The boy saw them in the pink rose tree.

The mother bird had four birds in the nest.

The birds saw the worm.

Now the birds were big enough to

The Flashlight

Little Flashes of This and That

Vol. 1. Kendrick, Idaho, March 27, 1931 No. 42

Published in the Interests of the People of the Entire Potlatch Country by the Kendrick Hardware Company, Harold Thomas, Editor.

If she says she likes the smell of his pipe, he might just as well go ahead and make the first payment on a ring.

Speaking of rings, go ahead and give us one for right prices on hardware, n'everything.

And the hardest thing in the world is to make a bread-winner out of a cake eater.

Yes, we suppose so, but why not bake that cake in one of our cake pans, using one of our spoons, and tested with straw from one of our brooms?

There is a reason for almost everything but two things:

First: A woman taking along a hat on an auto petting party and—second: High prices on hardware and accessories.

We don't know about the first but we do know about the last. Come in and let us prove it.

Human nature is the same at all ages. A baby's first yell means "gimme."

But the wife says "get me this or that," and say, when you get her garden seeds, win her favor by getting the best, get them at this store.

They Say It Happened

"How's business?"
"Well, the weather's been so dern wet I couldn't get out to shoot at the club and had to attend to it so it's been pretty good, but I'm mighty worried about my score."
Well, that reminds us, we sell trap and field loads, 22 and high power shells and guns, and we feel sure you'll find our goods second to none.

When friend wife gets a television apparatus in her home and another in hubby's office, she'll have the world by the neck—and probably hubby!

Well, we believe she'll tell him to bring home some of those fine butcher knives we are featuring this week at 17c, and probably some water glasses and cups and saucers. Priced, say, you'll be surprised.

Hugh Thompson says, "The people who want to get something for nothing can always accept gratuitous advice."

Well, we can't give you something for nothing, but our prices make it the next thing to it. We sell quality merchandise, priced right.

CAMERON NEWS ITEMS

Mrs. F. W. Newman, Mrs. John Schwarz, Mrs. Ida Stoneburner and Emma Hartung helped Mrs. Fred Mielke quilt last Wednesday.

Rev. Ehlen and Mr. and Mrs. Carl L. Wegner were Lewiston visitors last Friday.

Mr. and Mrs. John Schwarz, Mr. and Mrs. Fred Mielke, Mr. and Mrs. Wm. C. Mielke, Mrs. Ida Stoneburner, the Misses Emma Hartung and Marie Schwarz and the Messrs. Herbert and Edwin Mielke, Herbert and Ernest Schwarz, Herman Brunseik, Walter Koepf and Raymond Rodgers were guests at the Fred W. Newman home Sunday afternoon.

Selma Wegner spent Sunday afternoon with Viola Schultz.

A. W. Schultz and family visited Sunday evening at the Carl L. Wegner home.

George Ehlers spent Sunday afternoon and evening at the A. E. Spekker home.

Reva and Veva Berreiman and Viola and Wilma Schultz spent Saturday with Selma Hartung in Kendrick.

A. E. Spekker has been confined to his bed the past few days with the flu.

Mr. and Mrs. Russell Rodgers motored to Lewiston Monday to see their daughter, Adlene, who is in St. Joseph's hospital following an operation for appendicitis. They report her well enough to be removed from the hospital, but she remained in Lewiston for a few days before returning home.

Odetta Betts spent Friday with Reva and Veva Berreiman.

Mr. and Mrs. August F. Wegner visited Sunday afternoon at the C. L. Wegner home.

Rev. Ehlen attended the rabbit show in Clarkston last Monday.

Rev. Kettner of Reardon, Washington, was a guest of Rev. and Mrs. Ehlen the past week.

Mr. and Mrs. A. H. Blum were Lewiston visitors Tuesday.

Wilbert Brunseik, who has been ill the past two weeks with the flu is well enough to be up and around but still feels quite weak.

Mr. and Mrs. A. F. Wegner were Lewiston visitors Tuesday.

Frank Wilken spent the past week-end in Lewiston.

Mr. Schwarz and sons, Herbert and Ernest were Lewiston visitors Saturday.

Cameron School Notes

Our visitor in school last Thursday was Mrs. A. W. Schultz and son Gerald, who spent the morning session with us. We would appreciate visits from more of the parents.

Winners at the sectional contest at Leland last Friday who will represent our school at the county spelling match at Lewiston, Saturday, March 28, are: Reva Berreiman, eighth; Selma Wegner, seventh; Margaret Schultz, sixth and Harry Wegner, fifth.

All pupils from the third to eighth grade attended the spelling match at Leland Friday afternoon. Transportation was furnished the girls by Mrs. Jake Berreiman and for the boys by Mr. Cridlebaugh.

The boys and girls are practicing songs and recitations and planning on entering the county musical and declamatory contests which are to be held next month, in Lewiston and Lapwai. An elimination contest will be held in Leland for the declamatory contest prior to the final contest in Lapwai, with contestants from Fairview, Stony Point, Welker, Leland and Cameron competing.

Pupils being absent one or more days the past week were Edward Wegner, Rosalie Kruger, Cecil Spekker, Wayne and Glen Wegner.

Goldenrule School Notes

This composition was held over from a week ago:

"The prettiest thing in the spring is the meadow, and especially in the spring, because the cattle, horses and sheep are lively and like to run about. Then is when I like to ride the horses because they are so lively, but one thing I don't like is when you get on a horse and try to make him gallop and he won't do anything but trot."

"The meadows are sure pretty when the water runs in the brook and sings as it goes a beautiful song. The birds also like to sing in the spring, especially the Wrens, Meadow Larks, Canaries and Blue Birds. In the spring is when the pretty flowers bloom. I like it when I go to bed in the evening and wake up in the morning while the dew is still on the beautiful flowers and grass, and I hear the cow bells and watch the cows run around everywhere."

"Everyone feels lively in the spring and likes to run and play. Even the dogs, cats and chickens like the beautiful spring."

get out of the nest.

The birds jumped up in the tree and said peep peep.

The boy sat on the porch and saw the birds.

The birds said, "Good-bye, good-bye."

Sunday guests at the H. Southwick home were Herman Eberhardt, Clarence Ayres, Acy Murry and Billie Rugg.

Herman Eberhardt has purchased a 540 acre grain and stock ranch over in the Melrose section.

There was a birthday party given at the Harley Wise home at Lenore Friday night. A good time was reported.

Virgil Dygert was a Sunday guest at the John Frisbee home.

There was a dance given at the Carl Glyspee home Saturday night.

A good time was reported by everyone.

Oscar Hollingsworth was a Lewiston visitor Friday.

Mrs. Mary Daggert has returned home from Lewiston, where she has been visiting her daughter, Mrs. Owen, the past week.

Peggy and Pat

Saluting the West, the next broadcast of the Conoco Listeners' Hour will continue the series of programs dedicated to sections of the country of interest to motor travelers. Music typical of the west will be heard during the program.

Peggy and Pat, of course, will be in the studio to direct the program in accordance with the wishes of the listeners themselves and promise an exceptionally fine broadcast. The special features they report.

chestra and quartette are preparing Tune in Friday evening, April 3, on station WCCO, Minneapolis, at 8 — KGA, Spokane, at 7.

A wise husband makes his wife do what she wants to do.
