

THE "HIDDEN QUART"

That Stays up in the Motor and Never Drains Away

PROVES ANY OIL WOULD BE BETTER OIL IF GERM PROCESSED

Other good oils lubricate working parts, after the motor starts and oil is pumped from the crankcase through the motor, which takes several minutes. But Germ Processed Oil stays up in your motor at all times and lubricates working parts safely during the starting period... when almost half of all motor wear takes place! A "hidden quart" stays up in your motor and never drains away. Only Germ Processed Oil can give you this sure protection at all times, because only Germ Processed Oil can penetrate and combine with metal surfaces... an exclusive characteristic called "penetrative lubricity." So you can see... any oil would be better oil if Germ Processed!

But only Conoco makes Germ Processed Oil... for Conoco owns exclusive patent rights for North America. Don't be contented with

oil that lacks the germ process. Stop at any station displaying the Conoco Red Triangle and fill with Conoco Germ Processed Motor Oil. Save your motor from wear... keep it young and powerful!

A Pleasant Family Reunion
The home of Mrs. B. N. Emmett on Little Bear ridge was the scene of a family reunion Sunday when thirty-five relatives met to enjoy the day together. This has been an annual event for several years, the gathering taking place at a different home each year.

A cafeteria dinner was served. Those present were: Mr. and Mrs. R. E. Clause and daughters DeVona, Muriel and granddaughter, Jacqueline Brown of Clarkston, Mrs. Alvin Tweedy and children John and Dorothy of Clarkston, Mr. and Mrs. Robert Emmett and daughter Eloise of Genesee, Mr. and Mrs. Wallace Emmett and sons Roy and Homer of Big Bear ridge, Mr. and Mrs. James Emmett, Mr. and Mrs. Arlis Crocker, Mrs. Edgar Dammerell and children Dorothy, Donald, Frank, Max and Maxine, Mr. and Mrs. Edgar Long and children, Roy and Barbra Jean of Kendrick, Henry Emmett, Mr. and Mrs. Jas. Benjamin and daughter, Eileen, Edna Emmett of Little Bear ridge and the hostess, Mrs. B. N. Emmett.

Bridge Club Meeting

The bridge club met at the home of Mrs. Frank Boyd on Thursday afternoon of last week and the game was played at the usual number of tables. Mrs. F. W. Rider made high score and Mrs. R. H. Ramey low. Delicious refreshments were served by Mrs. Boyd.

The next meeting of the club will be with Mrs. A. K. Carlson.

3 RULES
big help to BOWELS

What a joy to have the bowels move like clockwork, every day! It's easy, if you mind these simple rules of a famous old doctor:

1. Drink a big tumblerful of water before breakfast, and several times a day.
 2. Get plenty of outdoor exercise without unduly fatiguing yourself.
 3. Try for a bowel movement at exactly the same hour every day.
- Everyone's bowels need help at times, but the thing to use is Dr. Caldwell's Syrup Pepsin. You'll get a thorough cleaning-out, and it won't leave your insides weak and watery. This family doctor's prescription is just fresh laxative herbs, pure pepsin, and other helpful ingredients that couldn't hurt a child. But how it wakes up those lazy bowels! How good you feel with your system rid of all that poisonous waste matter.

A Correction

In mentioning the new dates for the hunting of pheasants in Latah county, the Gazette inadvertently made the statement that the days were Sundays, Wednesdays and Saturdays, when it should have read "Sundays, Wednesdays and Fridays," the same as Nez Perce county open dates. We gladly make this correction in order that no mistake may be made in the days hunting is allowed.

When in Kendrick, stop at the new Raby Hotel—newly finished; clean beds, and good things to eat.

WHEAT MARKET FIRMER — OTHER GRAINS STEADY

higher than a week ago. The general situation, however, remained unchanged, with offerings of local wheat very light and with mills and feeders supplying their requirements mostly from Washington and Oregon and the Inter-Mountain states. Demand both from mills and feeders was more active, with flour buyers more inclined to accumulate stocks and purchasers of feed wheat taking larger amounts. Warehouse stocks in the bay region at the first of October totaled only 117,000 tons, compared with approximately 154,000 tons a year ago. At the close of the market October 16 No. 2 western white wheat from Washington and Oregon was quoted delivered docks San Francisco at \$1.05 to \$1.07, No. 2 soft white at \$1.07 to \$1.10. Big Bend bluestem \$1.28, sacked, and No. 1 dark northern spring with 14 per cent protein from Montana at \$1.55 per 100 in bulk. No. 2 dark hard winter, 13 per cent protein, from Utah and Idaho, was quoted at \$1.10 per 100 in bulk and No. 2 hard winter, 13 per cent protein, from Texas, at \$1.15 per 100. Local No. 1 hard white wheat, sacked, was selling at \$1.15 to \$1.20 and No. 1 soft white at \$1.10 to \$1.12½ delivered San Francisco.

Demand at Las Angeles slackened, with buyers needs being supplied mostly from current heavy receipts,

which were moving in on previous orders. 13 per cent protein No. 2 dark hard winter, was quoted in that market Oct. 16 at \$1.17 in bulk, No. 2 or better soft and western white at \$1.02½ and No. 2 hard winter ordinary protein, at \$1.05 per 100. Receipts included shipments from the Northwest, Utah, Idaho, Texas and New Mexico.

Marketings of both winter and spring wheat continued relatively light with 2,736 cars received at the principal winter wheat markets and 1,288 cars received at Minneapolis and Duluth. The smallest movement on the crop was reported at Kansas City, where out-shipments amounted to nearly twice the arrivals. Prices advanced 3c to 4c, with ordinary protein, No. 1 hard winter, quoted at that market at 43c to 44c on October 16. No. 2 hard winter, ordinary protein, sold at 43c to 46c, 12½ per cent protein at 46c to 50c and 13 per cent protein at 52c to 53c per bushel. The protein of the week's receipts averaged 12 per cent. Receipts at Omaha consisted largely of shipments from Kansas City on earlier sale to Omaha mills and elevators. Premiums were firm, with No. 1 dark hard, 12 per cent protein, quoted in that market at 50c, No. 1 hard, ordinary protein at 44c and No. 2 hard, 11½ per cent protein at 45c per bushel. Mills and elevators at Fort Worth were paying 51c to 52½c for No. 1 hard winter, ordinary protein, delivered Group 3

or Galveston export rate points. 1c premium was paid for each ¼ per cent protein over 13 per cent. Offerings at Denver were light and the market strengthened during the week under an active demand for high protein wheat. Protein premiums were about equal to those of Kansas City with No. 1 dark hard winter, 13 per cent protein, bringing 38c, 13½ per cent 40c and 14 per cent 43c per bushel, F. O. B. shipping points.

Premiums for cash grain were advanced about 1c per bushel at Minneapolis, where mills were active buyers of the current arrivals. Eastern mills were competing for shipments at diversion points for wheat that could be shipped to Duluth for lake movement. This week's inspections showed only 90 cars of winter wheat in the Minneapolis receipts. At the close of the market October 16, 12 per cent protein No. 1 dark northern was quoted in that market at 3c to 7c over the December price of 61c, while 13 per cent brought 4c to 8c, 14 per cent and 15 per cent protein 7c to 11c over the December price.

The week's inspections averaged 15 per cent protein. No. 1 dark northern and No. 1 northern were quoted at 69c to 74c at Duluth. Canadian markets were firm and cash wheat at Winnipeg advanced 3c per bushel in Canadian currency. Receipts were fairly large at that market, totaling 6,772 cars for the week. No. 1 Manitoba northern closed Oct. 16 at 60c.

Durum wheat markets were independently firm, reflecting the extremely light supplies and an active inquiry for high protein milling lots. Demand for lower grades was not aggressive, but prices were steady. December durum at Duluth advanced 2c for the week and closed October 16 at 56c. No. 1 amber was quoted in that market at 60c to 78c, No. 1 durum at 56c to 59c, No. 2 mixed at 52c to 70c and No. 2 red at 52c. Ordinary protein No. 1 and No. 2 durum was quoted at Minneapolis at 53c to 57c, while high protein lots sold at 74c to 83c per bushel.

Speed of Ducks Breaks Alibis

The alibi of the hunter who said that the ducks he missed went to him 180 miles an hour has been "shot to pieces" with statistics on speed of birds compiled by a worker in the Bureau of Biological Survey in the United States Department of Agriculture.

Earlier estimates of the speed of ducks credited these birds with phenomenal speeds, but automobiles and airplanes have made more accurate timing of their flying possible. The most accurate checks thus far made show that ducks and geese do not ordinarily go more than 40 miles an hour, although they are capable of increasing their speed if frightened. They cannot, however, maintain the higher speed for a long time. The fastest bird timed was a duck hawk in California, which flew at a speed of 165 to 180 miles an hour while chasing prey.

Mallards timed in France and England flew 50 to 58 miles an hour, and a flock at top speed in California when timed with an airplane went only 55 miles an hour. Pintails chased by an airplane in California flew 55 to 65 miles an hour, and a canvasback made 72 miles an hour. Canada geese timed in Massachusetts flew 54 miles an hour and a brant in Scotland flew 45 miles an hour.

AMERICAN RED WHEATS BEST FOR MILLING, BAKING

Red wheats produced in the Americas lead the world in milling and baking quality but some of the durum and white wheats produced in other countries are superior to ours the United States Department of Agriculture reports.

Although of the same variety of wheat is grown in other parts of the world, there is often a wide difference in the milling and baking quality of it, the department says.

There are five commercial classes of wheat. These are the hard red spring wheat, the hard red winter wheat, the soft red winter wheat, durum wheat and white wheat.

Although a wheat may be of a good milling quality, that is, one which produces the most flour from a given amount of grain, it does not always produce a flour that has the best baking qualities.

The best hard red spring wheat for milling is grown in Canada, with

that of the United States and Russia next. The North and South American hard red spring wheats are equal in baking strength, while the Russian wheat is not so good in this respect.

Hard red winter wheat of the best milling quality is grown in the United States while that of Argentina is next. The best baking quality in this wheat is found in that from the United States followed by Argentina and Russia.

The United Kingdom produces a soft red and white winter wheat of excellent milling quality. Other European wheats of this class are inferior to the United Kingdom wheat in milling quality. In baking quality, however, the United States soft winter wheat is the best, being superior to that grown in Europe.

In both baking and milling quality the durum wheats of Russia, Canada and the United States rank in order named.

India produces white wheat which yields more flour than any white wheat grown in the world. Next in

milling quality comes that grown in Australia, and then that of the United States. In baking quality, however, the United States and Australian white wheats lead.

Seeking the Elusive Elk
J. M. Heddlar and Dave Dennler of Juliaetta and Rev. Otto G. Ehlen of Cameron were partially successful hunting big game. Mr. Ehlen informs us that the party left Musselshell ranger station on Monday, October 5, in a driving rain, which thoroughly dampened everything except their spirits. The rain ceased about the time the made camp on Austin ridge, nine miles out, so that a fair degree of camp comfort could be arranged by bedtime.
The Misters Sidney Price and Henry Lindbergh of Lapwai, members of the party, contributed toward the "camp cheer." Well, they hunted—hunted the draws, ridges, meadows, dense timber—but never saw animals. The territory was a natural game preserve. A week was wasted there. So many had signed at Musselshell for the Weatus country that the packer, Bert Taylor of Juliaetta, feared someone may get hurt by wild bullets of other hunters. "So kind to spare us," said Rev. Ehlen. Well, Dave Dennler and Rev. Ehlen walked out without firing at game. The remaining three were subsequently moved to the Weatus and each bagged his elk.

Southwick School Notes
The four high school classes have organized and elected the following for their presidents: Freshman, Zella Harris; Sophomores, Dorothy Miller; Juniors, Warner Ziemann; Seniors, George Douglas.
Prof. Ben Cook refereed a football game at Kendrick Friday afternoon, October 16.
The Community club, under the direction of Miss Abbott of the University of Idaho, held an all-day meeting in the gymnasium Monday. In the afternoon, in addition to the home-making demonstrations, various agricultural problems were discussed by a member of the faculty of the Agricultural college of the university.
A number of reading circle books have been received for use of the grades in the Southwick school.
Under the direction of Miss Blewett, the primary room has started work on a rhythm band, their first public appearance will probably be staged within the next two months.
A new certificate has been received by the high school from the state department, signifying the right of this district to charge up to \$20 a month for high school tuition. The actual tuition charge made by the Southwick school is about half that amount.
Nelson Blewett and Russel Baker, old graduates of Southwick, now attending the University of Idaho, spent the week-end here visiting relatives.
A number of new magazines have been ordered for use of the high school classes.
Under the direction of James Lyle, high school science teacher, the building system of electric bells has been greatly improved.

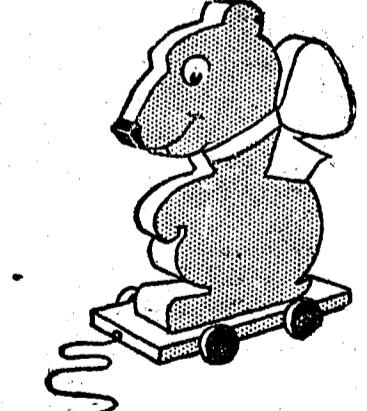

You Liked Him, Didn't You?

CHILDREN CRY FOR IT—

CHILDREN hate to take medicine as a rule, but every child loves the taste of Castoria. This pure vegetable preparation is just as good as it tastes; just as bland and just as harmless as the recipe reads.

When Baby's cry warns of colic, a few drops of Castoria have him soothed, asleep again in a jiffy. Nothing is more valuable in diarrhea. When coated tongue or bad breath tell of constipation, invoke its gentle aid to cleanse and regulate a child's bowels. In colds or children's diseases, you should use it to keep the system from clogging.

Castoria is sold in every drug store; the genuine always bears Chas. H. Fletcher's signature.

Entertained Bridge Club

The afternoon bridge club was delightfully entertained Wednesday afternoon by Mrs. E. H. Emery, when the game was played at the usual number of tables. Mrs. W. J. Carroll won high honors and Mrs. H. B. Thompson the consolation.
Delicious refreshments were served by the hostess after the games had been finished.

Potlatch Mill Closes

The big Potlatch mill closed down everything with the exception of the planing mill and box department, on Wednesday of this week, throwing 100 men out of work. The camps closed several weeks ago, when some 250 men were let out. Only enough men will be kept in the planing mill and box factory to take care of orders as they come in.
