Plain Rules For Turkey Shoot

The rules of the Kendrick Gun Club turkey shoot are very plain and positively no deviation will be allowed from them unless special non-rule free-for-all squads are formed.

Each shoot will consist of a five-man squad. Each man to shoot five birds, starting on the 16-yard line. At each break shooter will step back one pace, man failing to break standing at same distance as formerly.

Only trap loads allowed. All ties will be shot off at last yardage. The winner to pay for extra birds required for shooting off tie.

Winners eliminated until all full squads have had privilege of shooting.

Receives More Blooded Stock

Henry Thiessen, the stock-man, on Wednesday of this week delivered six purebred Hereford heifers to the Cedar Creek ranch of Dr. C. F. Magee of Moscow. This makes ten blooded heifers the doctor has had taken to his ranch within the past few weeks, he having purchased four fine heifers from Cliff Lundt of Genesee not long ago.

Seeking Treasure Trove

Over at Brest, France, divers are gradually reaching their goal in salvaging a vessel that went down in 1922 carrying with it some \$5,000,000 and divers have succeeded in reaching the wreck, some 125 meters under the water (a distance of more than 400 feet). The salvagers are figuring on putting a stop to hard times, so far as they are concerned.

Farmers Reaping Millions

During the week the Pacific northwest has seen "dollar wheat" for the first time in many months. In Seattle Friday, Montana dark northern spring wheat touched \$1.01 and slipped back to \$1 even, while other grades ranged proportionately from 74 cents up.

In six western states—Montana, Colorado, Idaho, Washington, Oregon and California—the farmer is holding approximately 70,000,000 bushels of the 1931 crop, and every one cent advance in price puts \$70,000,000 in his purse. The price gain already has meant a profit of between \$17,500,000 and \$22,500,000 to him.

Stock traders on the San Francisco exchange continued last week to like things western and practically the entire list of western issues recorded gains, with the oils and public utilities showing the way to higher ground. And meanwhile, just by way of encouragement, Standard Oil of California announced third quarter earnings of \$6,297,819 or 48 cents a share on common stock.

Another Scotch

McTavish was the proud owner of a new cash register. One day, when an old friend came into his shop and bought a ten cent cigar, the customer noted that McTavish pocketed the money instead of ringing it up and putting it in the drawer.

"Why not ring it up?" he asked. "You'll be forgetting it."

"Oh, I'll no forget it," replied the Scot. "Ye ken I keep track in my head until I get a dollar and then I ring it up. It saves wear-r and tear-r on the machine."

High School Carnival Success

Judging by the comments of the people who attended, the Kendrick School carnival was a great success. The majority of those present had a good time and the coffers of the school were swelled to the extent of \$58.28. The students also proclaimed the carnival a success. \$84.80 was the total receipts of the evening and the expenses amounted to \$25.52.

Surprise and laughter were caused by the witnessing of three hot dogs in embroidery hoops, advertised as the "Three Ring Dog Show." "Madame Fifi's" fortune telling ability relieved many persons who were worried about their futures. Townspeople interested in seeing their neighbors picture, taken long ago, were amused in the "Art Gallery."

The dance, lasting from 9:30 to 12, capped the entertainment offered, and was a fitting climax for an evening of hilarity and fun.

Support The Basketball Team

This week marks the beginning of the basketball season. The boys are working hard to make this the best year that old K. H. S. has ever seen. They need more than the support of their coach and their fellow students; they need the support of the townspeople. We were very much pleased with the turnouts at the football games. Come on people—make the basketball turnouts even better. We guarantee to make it worth your while. You'll get your money's worth.

D. S. Club

On Tuesday the D. S. girls met with Miss Deagen and organized their club, which they have been talking about for some time. The following officers were elected: President, Phyllis Cummings; vice-president, Margaret Daugherty; secretary-treasurer, Maxine Keene; reporter, Annabel Davis. The work of drawing up a constitution and the choosing of a suitable name was placed in the hands of two respective committees. It was decided that the club meet on Thursday afternoons. Each member of the club is to bring something that she wants to do in the way of sewing, painting, basket weaving, etc.

Oh! Those Freshmen!

Mrs. Jarvis (in English class):

Robert, please tell me what it is, when I say, "I love, you love, he loves —"

Robert R.: That's one of them triangles where somebody gets shot.

Miss Newman: What is the interest on a thousand dollars for one year at 2 per cent?—Thomas Blevins, will you pay attention!

Thomas Blevins: For 2 per cent I ain't interested.

Mr. Brigham: This makes the fifth time I have punished you this week. What have you to say?

Homer E: I am glad it's Friday, sir!

Miss Deagen: Who was Ann Boleyn?

Ronald Jones: Ann Boleyn was a flat-iron, Miss.

Miss Deagen: Whatever do you mean?

Ronald: Well, our history book says, "Henry having disposed of Catherine, pressed his suit with Ann Boleyn."

Mrs. Jarvis: What do you know about Nitrates?

Rowena R.: Now you've asked me something. I used to work in a telegraph office and I know that night rates are less than day rates.

Kind Old Gentleman: What do you call those two kittens, Roy?

Roy: I call 'em Tom and Harry. K. O. G.: Why don't you name them Cook and Peary, after the great explorers?

Roy: Aw, g'wan, mister, these ain't pole cats!

Fear Murderess May Suicide

Down at Phoenix, Arizona, officials there are all worked up over the idea that Mrs. Judd, the alleged trunk murderess, will commit suicide and thus "cheat the law" of its rightful revenge.

It just seems that some people can't bear the idea of not spending the people's money. If she killed two women, as she is alleged to have confessed doing, she undoubtedly will be put to death. That being the case, why not let her do the job if she wants to and get it over with and save many thousands of dollars. No, it would prevent some attorney from making several thousands of dollars, perhaps, and might cause the loss of much free advertising.

James McVicker left Monday morning with Tom Long and Dave Gentry on a hunting trip near the Bungalow.

Trying To Work Newspapers

The latest big company to try to "work" the newspapers (especially the smaller ones) for free space under the guise of "news matter" is a certain big manufacturer of cigarettes, who sent out an article entitled "Eugene's Grandfather Was An American," and then launched into a boasting of their product. Many of the smaller papers (such as the company would not think of giving an inch of paid advertising) fall for this sort of stuff and use it because it has a picture on it and is furnished free of charge. Well, why wouldn't they furnish it free—it's free advertising for them.

We have a large "filing case" that will hold about four bushels of material, that we use for just such articles. Very few of the articles furnished would even make good fire-building material.

If the country papers used one-fourth of the material sent out by large companies seeking free advertising under the guise of news, they wouldn't have room for anything else. Some of those companies seem to think that because country paper are published in small towns they are glad to get anything to fill up space—and they must be able to get some of it over or they wouldn't hire high-priced men to prepare the advertising copy to make it read like "news."

WOMEN: watch your BOWELS

What should women do to keep their bowels moving freely? A doctor should know the answer. That is why pure Syrup Pepsin is so good for women. It just suits their delicate organism. It is the prescription of an old family doctor who has treated thousands of women patients, and who made a special study of bowel troubles.

It is fine for children, too. They love its taste. Let them have it every time their tongues are coated or their skin is sallow. Dr. Caldwell's Syrup Pepsin is made from fresh, laxative herbs, pure pepsin and other harmless ingredients. When you've a sick headache, can't eat, are bilious or sluggish; and at the times when you are most apt to be constipated, take a little of this famous prescription (all drug stores keep it ready in big bottles), and you'll know why Dr. Caldwell's Syrup Pepsin is the favorite laxative of over a million women!

GRAIN MARKETS CONTINUE RISE — WHEAT RISES FAST

Nov. 1, and British milling inquiries were only of moderate volume. Continental markets were active and trading was fairly large even at the higher prices. Russian offerings were further reduced and Southern Hemisphere shipments for the week totaled only about 4,500,000 bus. Russian shipments totaled only 1,160,000 bus., but the season's shipments to date from that country totaled about 55,400,000 bus., compared with 41,300,000 bus. for the corresponding period a year ago.

The new Winter wheat crop continued to make favorable progress in the main part of the Belt, but was hampered by continued lack of soil moisture in Western Kansas and in Southern and Southeastern areas. Additional moisture was helpful in the Pacific Northwest, especially in the Eastern wheat Belt in Washington, where grains are doing well. General rains are still needed however, in the Western part of the Pacific Northwestern wheat Belt. Seedings of Winter wheat has made favorable progress in most countries of Continental Europe and the United Kingdom. Recent rains have supplied much needed moisture in France, Spain and Italy, and seeding has made good progress. A larger acreage is in prospect in France, according to trade advices, although additional seeding will depend upon weather conditions. Seeding in the Danubian countries has also made favorable progress and Agricultural

Attache Micheal reports probable seeding in Bulgaria, Hungary and Jugoslavia about the same as last year. Some reduction in acreage is in prospect in Rumania. Germany reports seeding well advanced at the first of Nov., with the condition of early seedings satisfactory, but that of later sowings less favorable. Russian seedings of all Winter grains up to Oct. 25 were reported at 87,461,000 acres, which represented 82 percent of the plan and 87 percent of the total Winter seedings last year. Harvesting of new wheat is in progress in early districts of New South Wales, Australia, and reports indicate yields above earlier expectations and excellent quality. The Argentine acreage is now placed at 17,295,000 acres, which is about 20 percent under last season's acreage. Crop conditions are favorable and trade forecasts of outturns have been revised upward.

Domestic cash wheat markets mostly followed the advance in futures. Marketings were smaller than during the previous week and growers were not inclined to sell freely with prices advancing steadily. Mills, on the other hand, were buying principally for current requirements. Receipts of wheat in the principal Southwestern markets totaled 3,722 cars compared with 4,491 cars for the previous week and 2,183 cars for the corresponding week last year. The protein is averaging below that of last season, with inspections to date by the Kansas and Missouri Inspection Depts. showing an average protein of 11.84 percent compared with an average of 12.35 percent

for the corresponding months last season. The small percentage of high protein wheat this season has been reflected in a sharp advance in protein premiums. 18 percent protein wheat was bringing premiums of 20-25 percent per bushel at Kansas City at the close of the week. No. 2 Hard Winter, ordinary protein, was quoted in that market Nov. 6 at 58½-60c, 12 percent at 60-61¼c, 12½ percent at 61¼-66c, and 13 percent protein at 66¼-69c. 82c per bu. was paid during the week for No. 3 Dark Hard Winter with 17.8 percent protein. Offerings of wheat were of moderate volume at Omaha, but shipping demand was not large, since mills were less active buyers at the higher prices. No. 2 Hard Winter, 12.4 percent protein, was quoted in that market Nov. 6 at 62½c, with ordinary protein of the same grade selling at 58½c per bu. Receipts at Denver were unusually small, with offerings from growers very light at the advancing market. No. 2 Dark Hard Winter, 12½ percent protein, was quoted FOB country shipping points at 49c, 13½ percent at 53c, and 15½ percent protein at 61½c per bu. Mills and elevators were paying 70¼-71¼c for No. 1 Hard Winter, ordinary protein at Fort Worth, for delivery on Group 3 or Galveston export rate points. No export business was reported since domestic prices are now above on export basis. At the close of the week No. 1 Hard Winter from Atlantic ports was offered at Liverpool at 2½c, compared with quotations at 66c for Argentine Rosafe, 74c for Western Australian and 82c for No. 1 Canadian Manitoba Northern. Soft Winter wheat markets advanced with other classes of wheat, but the higher prices did not bring out increased offerings from growers, although marketings by country elevators in the St. Louis territory were larger. Mills were fairly steady buyers at St. Louis, where No. 1 Red was quoted at 65½-67c and No. 2 Red at 65-66½c per bushel. No. 2 Red sold at Kansas City at 60-60½c, with demand good for the moderate offerings. Mill inquiry was more active than for some time at Cincinnati, where the week's receipts, although of good volume, were hardly sufficient for current requirements. Elevators were bidding country shippers above market quotations to increase stocks. No. 2 Red, quoted in that market Nov. 6 at 65¼-69½c per bushel. Receipts were of moderate volume at Chicago, with No. 4 Red quoted at the close of the week at 63c.

Marketings of Spring wheat were of moderate volume, receipts at Minneapolis and Duluth totaling 1,500 cars. Cash demand was fairly active and cash prices followed the full advance in futures, except for some of the lower protein types. The protein of the week's inspections at Minneapolis averaged 14.5 percent. At the close of the market Nov. 6 No. 1 Dark Northern, 12 percent protein, was quoted in that market at 2-5c over the December price, which advanced 8c during the week and closed at 80c. 13 percent protein was quoted at 3-6c over, 14 percent at 5-8c over, and 15 percent protein at 6-9c over the December. Mill demand at Duluth was of rather limited volume at the higher price levels, but the week's offerings sold at the highest price of the season. No. 1 Dark Northern was quoted in that market Nov. 6 at 86-89c per bu, Canadian wheat markets were substantially higher compared with an advance of United States markets. Winnipeg futures advanced only about 5c for the week, while cash prices were up about 4¼c, with No. 1 Manitoba Northern quoted Nov. 6 at 73¼c.

Durum wheat markets advanced with bread wheats. Duluth December closed Nov. 6 at 78c, an advance of 7c for the week. The light offerings were in good demand at Minneapolis and high protein types continued to command premiums of 20-30c over ordinary protein wheat. At the close of the market Nov. 6, No. 1 and No. 2 Amber were quoted at Minneapolis at 75-90c, while higher protein lots brought 93c to \$1.04 per bushel. No. 1 Amber was quoted at Duluth at 85c to \$1.03 while No. 1 Durum sold at 78-81c, and No. 2 Red Durum at 71c per bushel.

Oklahoma Has "Armistice"

Down Oklahoma way there prevades a spirit of jubilation like that of the Armistice day in 1918 and billowed across the southwest as an empire builded with wheat and oil hailed 85-cent oil and wheat 40 per cent more valuable than it was only a short month ago.

In Tulsa, Okla., oil capital of the southwest, streets were filled with hilarious celebrators. Bands blared. Ponderous tank wagons and oil trucks paraded. Whistles blew and bells rang and the night was noisy with horns, squakers and innumerable sound devices.

Almost overnight uncounted millions of dollars in increased buying power has come to the oil and wheat interests of the middle southwest, to be multiplied many times over by its effect on other industries and commodities.
