## KENDRICK DRUG STORE ROBBED MONDAY MORNING

For the second time within a year the Red Cross Pharmacy in Kendrick has been robbed of narcotics and money. Last February the store was entered and all narcotics taken, but the other loss was small at that time.

The store was entered sometime during Saturday night or early Sunday morning by breaking the fastening on a rear window, but the yeggs were either scared away or failed to find what they were evidently looking for and were probably unprepared to blow the safe, so waited until Monday morning at about 3 o'clock to do the job. This time they entered the store by "jimmying" the lock on the rear door—and a right neat job they did of it, too, although it has been suggested by some that it was evidently a local job and that the stuff taken was undoubtedly not far away. At any rate, the safe was blown and the door was made into small pieces by a charge of nitroglycerine, which had evidently been made from dynamite. The stuff was smeared all over a work table at the back of the prescription case and enough was left to have wrecked several safes like the one blown in the store. One dynamite cap had been exploded and another lay unexploded, fastened to the wires which had been used for firing the cap.

The yeggs had broken into the blacksmith shop of Frank Crocker and taken tools for the job. They left a large sledge hammer, a wrecking bar, cold chisel and other necessary articles which were returned to Mr. Crocker as soon as the sheriff's office had completed its investigation. The front door of the safe was completely wrecked with the exception of the inner plate and this was said to have several good finger prints on it, which may be the undoing of the yeggs or yeggs that did the job. The safe contained about \$125 in cash and checks and about \$25 worth of narcotics, according to Mr. Nesbit, the proprietor. No papers were taken from the safe other than checks and nothing else was bothered in the store. The cash-register had not been bothered and the yeggs had left about 80 cents in change in the cash box of the safe.

The explosion was heard by several who live in the neighborhood of the store, but nothing much was thought of it and no alarm given, as it was thought to be the backfire of a car or a tire going out. Residents also said an automobile left town going toward Juliaetta shortly after the explosion, which sounded very much like a model T Ford, but whether this had anything to do with the yeggs or not is hard to tell.

The yeggs has been advanced that it was a local job and that the perpetrators knew where to get the tools and knew all about the lay of the store, but whether this is true or not is problematical.

Sheriff Charlie Summerfield was notified at once of the robbery and came at once to Kendrick, taking the inner plate of the door containing the fingerprints and other necessary evidence and immediately started a search for the robbers. He probably will return to Kendrick in a short time to look things over.

The question of putting on a night-watchman will again be brought up before the Commercial club next Monday night, more than likely. No matter whether it was a local job or done by someone from the outside, the chances are it would not have happened had there been a night-watchman making the rounds of the places of business during the night. He would at least have heard the explosion and given the alarm.

The harm has been done, of course, but there seems to be a long winter ahead of us and there are many reasons why business houses should be protected—one way or another.

Mr. Nesbit asks that all persons who gave him a check of any nature between November 25 and 29 to please communicate with him.

## SEVERAL DEER KILLED NEAR KENDRICK

The heavy snow in the hills and mountains have driven deer and other animals down to the lower levels and quite a few have been killed in the Cedar Creek and Rock Creek sections, the reports numbering them as high as fourteen. The first to be killed were by Chas. Keeler and his son, who each bagged one on Wednesday morning of last week. Wade Keene killed one Thursday morning, L. A. Bartlett and Harold Parks each killed one Friday and Sid Thomas got one Sunday, and we don't know how many others.

When the word was broadcast that many deer were in the Cedar creek and Rock creek section, the swarm of hunters was like unto an old-time Alaska gold rush—the timber was literally full of them and it was really dangerous to be out there, according to some who came out, although no casualties were reported.

Archie May and others reported as having had a few shots at a cougar last Sunday, but the distance was great and they failed to bring the animal down. It is reported by residents of the Cedar creek section that two of the animals have been seen there and that bobcats are also coming down from the higher hills, probably in search of food, as the snow is reported several feet deep in their habitat farther up.

It is also a known and established fact that deer were being run in these sections with dogs, which is greatly against the law. What success was attained with these animals is of course not known.

The report has also come in, and we have no reason to disbelieve it, that one, and possibly two elk were killed in the Potlatch-Rock creek section. These elk were brought into Latah County by the sportsmen of this county for propagation purposes, and left to themselves would in the course of a few years, multiply to such an extent as to permit an open season. We cannot see why anyone should shoot any of these animals, but it seems that they have done so. We believe it one of the lowest and most contemptible tricks that could be indulged in and believe that the offenders should be punished to the full extent of the law.

Had an elk been killed by accident it should have been reported at once. Almost anyone is broadminded enough to believe that such a thing could have happened, but reported it should have been and the meat given to the law for disposal to the poor or to the Children's home at Lewiston. We sincerely hope a real investigation will take place.

Ralph and Paul Richardson from Fix ridge took two deer through town Tuesday afternoon, they had killed in the Cedar creek section.

Another deer was seen going through town on a car but the name of the owner was not learned. It was said that ten hunters from Fix ridge secured six deer the last day of the open season.

## Will Elect Highway Commissioner

An election will be held in Kendrick Highway district No. 3 on Monday, December 7, when a commissioner will be elected for a term of four years.

## Performs Marriage Ceremony

Rev. A. E. Jones officiated at the marriage of Miss Adebelle Snyder of Pardee and Harold Flatt of Nezperce, at Asotin, Wash., on November 23. The groom is a nephew of Rev. Jones.

The newlyweds will make their home at Nezperce.

## Building At Lewiston

Lewiston reported that building permits amounting to \$24,175 had been issued in that city during the month of November, and that permits amounting to \$282,265 had been granted during eleven months of 1931, which shows that the residents of that city have faith in the future of that community—and why shouldn't they have?

## Tear Out Beaver Dam

Last Saturday afternoon Ben Cummings and Game Warden Harry Driscoll tore out the beaver dam near the Grant place, west of town. The move was made necessary by the beaver building their dam across the culvert that drains the pond, thereby raising the water about eighteen inches and bringing it only about six inches below the level of the road. Had the dam been left for a few more days in all probability the road would have been completely covered.

The dam was torn out by hand and none of the beaver homes disturbed. It is presumed that it will be only a question of time until it is built up again, but at least the road is clear for the time being.

## Commercial Club Meeting

There will be a meeting of the Kendrick Commercial Club at the Raby Hotel on Monday evening, December 7, with dinner at 6:30 o'clock.

Everyone interested in our little city is asked to be present—no matter whether you are a member of the club or not. There are several things to be talked over for the good of our town and community as a whole. Be there at 6:30—or, if you cannot come then, come after dinner and rub shoulders with the other fellows. It will do you good.

## SLOW DEMAND CAUSES DROP IN WHEAT PRICES

Domestic cash grain markets continued weak and prices suffered further declines during the week ending November 27, according to the weekly grain market review of the U. S. Bureau of Agricultural Economics. Unsettled financial situation abroad, together with the weakness in domestic securities markets, some slackening in export demand for North American wheat and increased offerings of new grain from the Southern Hemisphere, were principally responsible for the decline in the wheat market. Feed grains turned weaker, influenced largely by the downward trend in wheat prices, since marketings were relatively light and offerings only about sufficient for current needs. Rye was independently weak, reflecting the lack of export business and the continued slow domestic demand. Flax was lower with wheat and other grains, but the market was rather unsettled and easily influenced by current market developments.

Pacific Coast markets were lower, reflecting largely the decline at the eastern points. Lack of export demand and limited inquiry from local domestic flour mills were also weakening factors. Receipts at Columbia river and Puget Sound terminals totaled 830 cars compared with 417 cars a year ago. These arrivals, however, were mostly deliveries on earlier sales. Two additional lots of 100,000 barrels each were allocated to Northwestern mills on the Chinese flour sale during the week, bringing the total to date to 800,000 barrels, or slightly more than half of the total to be milled for that purpose. No export sales were reported at Portland or Seattle, since Oriental needs were being supplied by Australia at prices under local quotations, according to trade reports. Prices at Northwestern markets declined 2c to 3c and Big Bend bluestem hard white was quoted at Portland Nov. 27 at 78c, and other classes at 61c per bushel, basis No. 1. Bluestem hard white was quoted at Seattle at 77c, western white at 62c, western red at 63c and hard winter at 64c per bushel, sacked, basis No. 1. Montana dark northern spring in bulk was quoted at 93c per bushel at both Portland and Seattle. The new crop in eastern Oregon and eastern Washington was making favorable progress, with moisture sufficient for present needs. The Vancouver market was quiet with No. 1 Manitoba Northern quoted at 64c, No. 2 at 56c and No. 3 at 53c per bushel, Canadian currency.

## Harley Perryman a Benedic

The many friends of Harley Perryman were very much surprised the first of the week to learn of his marriage to Miss Ida Morey, daughter of Mr. and Mrs. O. V. Morey of Big Bear ridge.

Mr. Perryman had been missed from his usual haunts and his friends here had no idea he was serious minded at this time. But he hid himself to Asotin last Saturday and procured the necessary papers and he and his intended bride went to the Presbyterian parsonage in Clarkston and were made husband and wife by Rev. David Brown of that city.

Both Mr. and Mrs. Perryman are graduates of the Kendrick High school and grew to manhood and womanhood here, where they have a host of friends who wish them the best of everything in this life. Mrs. Perryman is also a graduate of the Lewiston State Normal and holds a life certificate. She is at present teaching near Waha. She has taught during the past five years in the Kendrick and Troy communities.

The happy couple will make their home for the present at Lewiston Orchards.

Funeral services for Mrs. Herman Wolff, who passed away at her home on Wednesday morning, November 24, were held at the Cameron Lutheran church Friday afternoon at 1 o'clock, the sermon being delivered by Rev. Otto G. Ehlen. Interment was made in the Leland cemetery.

Mary Augusta Schneider was born in Germany in 1873. At the age of three years she came to America with her parents, who located in Nebraska. She was united in marriage with Herman Wolff in 1892. To this union six children were born. In 1910 the family moved from Washington to the Potlatch, where Mrs. Wolff resided until her death.

She was a true Christian, a devoted wife and mother, and a kind neighbor.

She is survived by her husband, Herman Wolff, and six children, William Wolff and Mrs. Albert Schultz of Cameron, Herbert and Leonard Wolff of Leland, Mrs. Melvin Hagan and Olga Wolff of Seattle, besides eight grandchildren, five brothers and two sisters.

**Radio Interference**

The Village Council in session on Tuesday evening had under consideration the passing of a Radio Interference Ordinance, such as many other villages and cities have passed, copies of their ordinances being read and discussed. Owing to the absence of some of the council, the matter was tabled and deferred until the next meeting, in the mean time a commission is to be organized and a very thorough check made on electrical devices to ascertain whether or not such interference as has been more or less evident during the past fall, is local or being brought in over the power lines.

If interference can be definitely established from any motor, electric refrigerator or other electrical device being used in Kendrick, they feel that they will have the hearty cooperation of the owner to remedy such, without the necessity of passing an ordinance.

The penalties prescribed in other ordinances for failure to install proper devices when interference is found existing and is not eliminated, carries a fine of \$100.00 or imprisonment for a period of 30 to 90 days or both.

**3 RULES big help to BOWELS**

What a joy to have the bowels move like clockwork, every day! It's easy, if you mind these simple rules of a famous old doctor:

1. Drink a big tumblerful of water before breakfast, and several times a day.
  2. Get plenty of outdoor exercise without unduly fatiguing yourself.
  3. Try for a bowel movement at exactly the same hour every day.
- Everyone's bowels need help at times, but the thing to use is Dr. Caldwell's Syrup Pepsin. You'll get a thorough cleaning-out, and it won't leave your insides weak and watery. This family doctor's prescription is just fresh laxative herbs, pure pepsin, and other helpful ingredients that rebuild a child's bowels. But how it wakes up those lazy bowels! How good you feel with your system rid of all that poisonous waste matter.

**Coasting**  
The Village Council in session on Tuesday evening had under discussion the matter of prohibiting coasting on or across the Main street of Kendrick, to avoid the repetition of any serious accidents such as have happened before. There is a lot of real sport and fun in coasting for the youngsters, the fresh air and exercise obtained being very beneficial, and they did not wish to curtail too drastically the youngsters' sport, therefore they decided to experiment with a plan of roping off Main street, compelling traffic to detour by the Railroad street from the Barnum Lumber & Mill Co. to the Kendrick Garage after 4 o'clock on Monday, Wednesday and Friday and all Sunday afternoon, as long as coasting may continue, and allow coasting on those hours by the youngsters.

The Council feels that they will have the co-operation of the parents and children in this matter, that the fun may be enjoyed with perfect safety to the children and no serious accident befall the traffic using the other half of the street.

Cigars, Cigarettes, Tobaccos, Candy and Soft Drinks may be had at the new Raby Hotel. Good meals, too.

Across the snow capped mountain crept the morning sun, While in the sleepy village day had just begun. Smoke curled lazily upward from the chimneys wide, The tall, snow-laden pine tree resembled a white-clad bride. Out amid the snow flakes the village children danced, And down the icy street the milkman's horses pranced. The sun climbed in the heavens all to happiness gave vent; Each man to his labors happily singing went.

**Basketball**  
After a cold, hard journey to Bovill last Saturday, the Kendrick basketball team lost the game by the narrow margin of 23 to 25. In spite of the early lead attained by Bovill the Kendrick team came back extraordinarily strong in the second half of the game, the score ending at 23 to 25, while the score at the half was 16 to 2 in favor of Bovill. The small gym was an added difficulty, as the practice afforded in the ample Kendrick court differs considerably from that the Bovill team attains on Bovill's smaller floor.

The Basketball Girls journeyed to Bovill Saturday, Nov. 28 to play against the Bovill girls. The trip was

made in two cars, Mr. Brigham's and Mr. Behrens'.

We encountered many snow drifts, but were able to buck them all. Along in the deep snow a herd of cattle was encountered. After a time we managed to pass them. Nettie wanted to take one of the little calves along for a mascot.  
Arriving at Bovill we had lunch at the Delmonica Cafe. After eating and getting warm we went up to the gym, and were told by some of the Bovill boys that we had a hard team to beat.

At seven o'clock we met our opponents on the floor. The Bovill girls from the first were faster, and showed us where we could improve. At the end of the game the score was 28 to 40 in favor of the Bovill girls. Nettie Mae McDowell was high point player for Kendrick. It was a hard fought game, but a losing one for Kendrick. After the games a lunch and dance was given in honor of the Kendrick players. A good time was had by all. We returned home tired but happy and hope to meet them soon on our floor. Maybe the score will be different the next time.

**CHILDREN CRY FOR IT—**  
CHILDREN hate to take medicine as a rule, but every child loves the taste of Castoria. This pure vegetable preparation is just as good as its tastes; just as bland and just as harmless as the recipe reads.  
When Baby's cry warns of colic, a few drops of Castoria have him soothed, asleep again in a jiffy. Nothing is more valuable in diarrhea. When coated tongue or bad breath tell of constipation, invoke its gentle aid to cleanse and regulate a child's bowels. In colds or children's diseases, you should use it to keep the system from clogging.  
Castoria is sold in every drug store; the genuine always bears Chas. H. Fletcher's signature.
