INTERESTING ITEMS FROM JULIAETTA

Missionary Society Meets

The Baptist Missionary society held its regular meeting Thursday at the home of Mrs. C. W. Jessup. A playlet, "Broadcasting the Christmas Message," was presented by Mesdames Custer, C. Gruell, Stinson, Nutt, Jessup, Buchanan and F. Millard. Dainty refreshments were served to the 20 ladies present.

Streets Decorated

A group of men, headed by Marshal Pierce, have helped to give the town the Christmas spirit by decorating the square at the top of depot hill. Large 25-foot fir trees have been grouped around the flag pole, with smaller trees at the four corners, connected with evergreen festoons. Colored lights add to the scene, especially when a light fall of snow covers the trees.

New Arrivals

Mr. and Mrs. Philip Johns are the parents of a baby girl, born Sunday. A nine-pound daughter arrived at the home of Mr. and Mrs. Wm. Spray Tuesday morning. She has been named Vineta Lou.

Rebekahs Elect

At the regular meeting of the Rebekah lodge Thursday evening the following officers were elected for the ensuing year: Mrs. Cecil Gruell, noble grand; Mrs. Mary Jones, vice grand; Mrs. George Bowen, treasurer. A secretary will be elected next meeting. Installation of officers will be January 7.

Entertain At Bridge Dinner

Mr. and Mrs. E. P. Wilcoxon were host and hostess to a very charming dinner party at their home Wednesday of last week.

The rooms and tables were very prettily decorated with colors of the season.

Bridge was played at two tables. High score was secured by Mrs. Fred Albright and consolation by Hinkle Cox.

Ten guests were present.

Juliaetta Locals

Mr. and Mrs. J. H. Millard and son Everett were Lewiston visitors Friday.

Mrs. Luna Deane and Miss Agnes Eckerman were passengers for Pullman Friday, returning Saturday.

Rev. Owens of Clarkston preached at the Baptist church Thursday evening.

Mr. and Mrs. Ed. Fleshman and two children of Leland and Mr. and Mrs. Manly Watson and baby of

(Continued on last page).

Christmas Time Approaching

It's only a few short days until Christmas, says the calendar and all other signs, for Christmas decorations and displays are making their appearance daily in the stores. From the garages, with tires and other things, on through the hardware stores, with countless things for all the family, through the drug and merchandise stores with their toys, novelties and what nots and so on up and down the line, including the uptown showroom of the Barnum Lumber Company, which is chock full of mirrors—everything points to Christmas.

PARENT-TEACHERS' ASSOCIATION BE ORGANIZED

The first Meeting of the Kendrick Parent-Teachers Association will be held in the High School auditorium Monday evening, December 14, at 7:30. This meeting was scheduled following a resolution passed by the Commercial Club, to foster such an organization.

An election of officers will be held and plans for the year will be made. This marks a revival of the Parent-Teachers organization which was active in Kendrick several years ago. Local interest points to a successful organization this year.

The association is being sponsored by B. B. Brigham, superintendent of schools, and the education committee of the Commercial Club, consisting of H. B. Thompson and E. H. Dammarell. It is urged that all townspeople attend this first meeting.

Urge \$1 Fishing License

The Sandpoint Chamber of Commerce has adopted a resolution asking the Idaho state fish and game department to reduce the non-resident fishing license to the small sum of \$1 per week. In other words, furnish people from another state the best fishing in the northwest for the measly little sum of \$1 per week. An ordinary fisherman would take many times the worth of his money in fish, which have been propagated for the sportsmen of Idaho.

We are decidedly opposed to such a change. If it isn't worth the present price of \$5 for a non-resident to fish, he isn't much interested. Idaho sportsmen are the ones who are footing the bill for hatching, maintaining and rearing trout, and they are entitled to the sport of catching them.

Boy Breaks Leg

Roy Johnson, son of Mr. and Mrs. J. L. Johnson of American ridge had the misfortune to break his right leg just above the ankle while coasting Sunday evening in town. The fracture was reduced and he is getting along as well as could be expected.

BIG POSTAL DEFICIT — 3-CENT STAMP URGED

Postmaster General Brown is bemoaning the fact that his department of the government has a deficit of more than 146 millions of dollars and advises an increase in postage from 2c to 3c for outgoing letters. There seems to be a general trend toward "increase" in everything undertaken these days, regardless of the fact that the farmer, who manipulates the "bread-basket" of the world, has to take less for what he has to sell than in many years past.

The news dispatch, emanating from Washington, D. C., goes on to say: Turning from gloomy figures, Brown found cause to praise the operation of the airmail service.

With mails diminishing in volume generally, he said, there was an increased use of airmail.

Two new transcontinental routes were established during the year and mileage rose from 14,907 miles on June 30, 1930, to 23,488 miles on the same date in 1931.

There is not the least question but that the adoption of airmail has caused a major portion of the deficit. Then why not put the deficit where it belongs and let the one who makes use of the air-mail foot the bill, instead of trying to pin it onto the small business man and those who write personal letters?—those who are content to use the slower method of letter transportation. It seems that the big guy always wants to make the little fellow help foot the bill for something he wants and thinks he must have.

The scales of justice long since seem to have been thrown very much out of balance.

Feed Game Birds

Game Warden Harry Driscoll of Latah County has addressed a plea to farmers, sportsmen and business men asking that they feed the game birds and help them through the winter. Mr. Driscoll says that the time to feed a game bird is right now, in order that he may be in good condition to meet the rigors of snow and cold when they finally arrive.

Mr. Driscoll further says that due to the short season more birds are left than ordinarily and that with the proper care and feeding better shooting may be obtained next season than was had this year.

Perhaps, Mr. Farmer, you feel that you feed the birds and then the men from bigger towns come and kill them. Perhaps you are right, but, after all, it isn't the bird's fault, and they are the ones that suffer and starve. With wheat and farm produce at its present price, we believe the birds will live through very nicely.

COMMERCIAL CLUB HOLDS REGULAR MONTHLY MEET

The regular monthly meeting of the Kendrick Commercial club was held in the Raby Hotel Monday evening, when 25 members and visitors sat down to a splendid dinner at 6:30 o'clock.

After the usual informalities had been disposed of the dinner table cleared, the reading of the minutes and the reports of committee chairmen were taken up, most of the committee heads stating they had no definite report to make.

N. E. Walker, chairman of the committee of highways, made a report to the effect that he had written a letter to Governor C. Ben Ross regarding the road situation in this section and also read the reply received from the Governor, to the effect that at some future date the governor himself might have an opportunity of looking over the situation personally.

H. B. Thompson, chairman of the committee on education, spoke in favor of the Commercial club sponsoring a parent-teachers organization in Kendrick, after which Supt. Brigham of the public school explained the function of such an association, stating that it would foster a better understanding of what the school is trying to accomplish and would give the parents and teachers an opportunity to become better acquainted with each other and to better understand the local situation. The resolution was adopted and referred to the committee on education.

The question of securing a small stockyards for Kendrick was brought up and the committee, having the matter in charge stated that the question was still unsettled, due to a recent change in division superintendents, but would make recommendation to the Northern Pacific as to location, etc.

The unemployment question again came before the meeting for discussion and the statement was made that the town had already given employment to some and that more would be used in taking the brush out of the Potlatch, near the depot and above the Barnum lumber yard. The removal of the brush in the creek-bed would greatly help the flood situation in times of high water.

The question of the Village putting on a permanent night-watchman was taken up and discussed at some length, the club going on record as favoring the employment of a night man. Marshall Ed. Long stated that Ed. Dammarell had been given the place and stated that he was keeping a watchful eye up and down Main street. Had this been done sooner there is little likelihood that the rob-

(Continued on Inside)

Our Roads

In line with the communication read at the Commercial Club last Monday night from Governor C. Ben Ross it seems only right to say that if he can straighten out our road situation and make them quit "jinking curves" long enough to give us the road we have fought for so long he has truly worked wonders and the number of votes that the Potlatch region could produce for him would truly be a surprise to any political machine. Perhaps he can do it, it can't be known until it's tried. We hope he succeeds.

ADVERTISERS GET BIGGEST RESULTS, SAYS AUTHORITY

The board of directors of the Advertising Federation of America announced Monday that a national survey has been completed and indicates the 1932 advertising dollar will bring better results than at any time during the past two years.

Gilbert T. Hodges, president of the organization, said the survey shows a growing confidence in 1932 merchandising possibilities.

"Check-up of 102 large companies showed that those firms which increased their advertising in 1930 over 1929 made a 50 per cent better profit comparison than those which decreased it," the report states. "Those same firms increased their lead still further in 1931."

President Hodges pointed out that a recent analysis of 70 large cities found that appreciable business recovery has been under way for some months in the cities where newspaper advertising has been the heaviest.

And what is true of the larger concerns in the cities is equally true, in proportion, of the business houses in the smaller places. If advertising wasn't a good investment, so many millions would not be spent each year by the larger businesses that have been made an unqualified success.

Afternoon Bridge Club

The Afternoon Bridge club met Thursday of last week with Mrs. W. J. Carroll and a very delightful time was had. High score went to Mrs. H. B. Thompson and second high to Mrs. W. A. Watts, playing for Mrs. Wade Keene, who is ill. Dainty refreshments were served by the hostess.

The next meeting of the club will be held at the home of Mrs. E. A. Deobald.

Undergoes Operation

Clair, the five-year-old son of Mr. Mrs. John Dammarell was operated on for appendicitis at St. Joseph's hospital, Lewiston, Saturday evening. The little fellow was getting along nicely at last report.

WHEAT MARKET UP — MILL DEMAND CAUSE

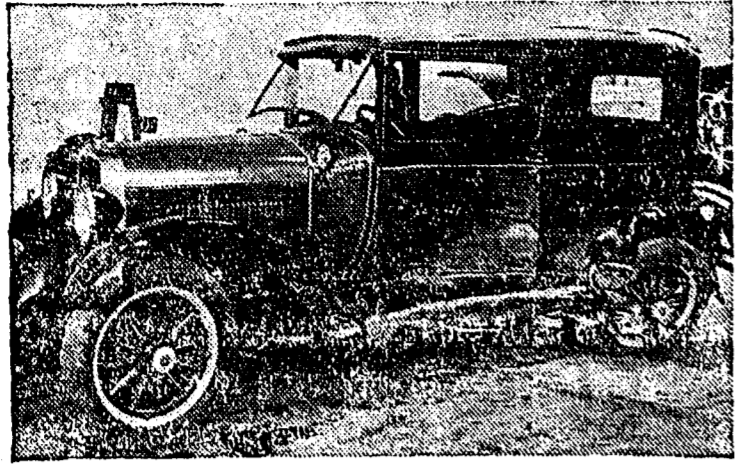

Domestic wheat markets strengthened materially during the week ending Dec. 4 despite the very unsettled situation in foreign markets, according to the Weekly Grain Market Review of the United States Bureau of Agricultural Economics. Reduced offerings, together with a good mill demand, were principally responsible for the firmer tone. Corn, on the other hand, was independently weak as a result of continued slow trade requirements. Rye, oats and barley were firmer with wheat and prices of these grains advanced 1c to 2c per bushel during the week.

The general wheat market situation remained very unsettled, reflecting the further sharp decline in the value of English currency, threatening weather damage to the crop in the northern wheat areas of Argentine and uncertainty as to available supplies in Russia. The official estimates placed the new Argentine wheat crop at 219,000,000 bushels, or about 17,000,000 bushels below last season's harvest. World wheat markets have become increasingly sensitive to the uncertain financial situation which culminated in the suspension of the gold basis in Great Britain, and subsequently in several of the other European countries and which has been reflected in the almost worldwide tightening in the regulation of currency and credit. Trade and financial transactions under these conditions have become difficult and price trends are obscured by fluctuating exchange values of currency.

Trading in Central and Eastern European markets, where the situation is particularly acute, has been greatly restricted and imports of wheat into Austria have practically ceased as a result of exchange difficulties. The depreciation of the currency of the important exporting countries of Canada, Argentine and Australia has given these countries a temporary advantage in export markets and wheat from these areas is being offered in world markets at relatively low prices, which are restricting demand for wheat from other exporting countries. At the close of the market Dec. 3 No. 1 Northern Manitoba wheat at Hamburg was quoted at 66c per bushel and at Rotterdam at 61c, or around 15c under corresponding quotations a year ago. Argentine wheat was quoted at Hamburg at 57c and at Rotterdam at 50c per bushel, or around 18c under last year. Australian wheat was selling at Rotterdam on the same date at 63c or around 30c per bushel under prices at the corresponding day last year.

Domestic cash wheat markets were independently firm, reflecting reduced

BEWARE

Smooth-worn tires skid on winter roads

Don't wait for accidents—get new rubber on every wheel now. New tires mean safety—you need them more right now than at any time in the year. It's a fact, good tires show almost no wear in cold wet weather—they'll still be "new" next spring. * * * * *

Car On Rampage

A few years ago Lewiston was thrown into a furore because a large elephant had gone on a rampage on Main street and much excitement was caused and considerable damage done until the animal was finally killed and made a good elephant.

Well, last Saturday evening shortly after Archie May had arrived in Juliaetta and he had (so he thought) securely tethered (or parked) his car on Main street and gone about his business, quite a commotion was caused by the car going "on a rampage" for it had broken loose from south down Main street without any its moorings and went careening guiding hand at the wheel. It had continued its mad career but a few hundred feet until it came to an abrupt stop against a light pole that happened to get in its way.

Not a great deal of damage was done to the car but the electric light pole was somewhat damaged and cracked. One of the wires was let down far enough to come in contact with another of its kind and the radios of the neighborhood raised an awful noise about the affair. The noise was heard as far as Kendrick—in the radios.

Long's Sale Closed

The big annual sale at the N. B. Long & Sons store, which had been in progress for the past three weeks, closed Saturday night, and Marvin Long, manager of the store, stated that he was well pleased with the results. This is the twelfth consecutive year these sales have been conducted and each one seems to be just a little bigger than the preceding one—and there must be a reason, Marvin says.

Lodges Elect Officers

At the last regular meeting of the Odd Fellows lodge the following officers were chosen for the ensuing year: Noble Grand, A. G. Wilson; Vice-Grand, A. D. Ozman; Recording Secretary, Edgar Long; Financial Secretary, Frank W. Ellis; Treasurer, E. H. Emery; Trustee, Wm. Freytag.

The Rebekah Lodge also elected the following for the ensuing term: Mrs. L. A. LaHatt, noble grand; Mrs. Frank W. Ellis, vice-grand; E. H. Emery, recording secretary; R. B. Parks, financial secretary.

At their meeting held Tuesday night the Order of Eastern Star chose the following officers for the ensuing term: Fanny B. Greene, worthy matron; H. B. Thompson, worthy patron; Mrs. E. H. Dammarell, associate matron; Thorvald Nelson, associate patron; C. A. Oppenborn, trustee; Mary Nutt, conductress; Mrs. H. B. Thompson, associate conductress.

Taxpayers Meeting

There will be a meeting of the taxpayers of Latah county held in the court house at Moscow on Saturday, December 19, at 1 o'clock, when officers of the league will be elected and arrangements made for holding meetings during the winter months. All interested are invited to be present.

Fine Line Christmas Cards

For one of the finest and most complete lines of Christmas Cards ever shown in Juliaetta, see Mrs. Cecil Gruell. Priced from \$1.75 up, for 25 cards, your name imprinted. 48-3x

PERSONALS

Otto Schupfer transacted business in Lewiston Tuesday.

Mrs. Mary Adams was a Juliaetta visitor Monday evening.

Miss Doris Gilmore of Lewiston was a visitor in Kendrick Wednesday.

F. W. Jarvis came over from Moscow and spent the week-end with his wife.

Kenneth Brocke, Robert Smith and Loveck Walbeck went to Lewiston Monday evening.

Mrs. C. S. Biddison of Juliaetta was a visitor at the H. B. Thompson home Tuesday.

Dean Wright of Agatha was a business visitor in Kendrick Wednesday of this week.

Mr. and Mrs. Claud Browning were in town Tuesday doing their Christmas shopping.

Mrs. A. M. Hardman of Peck is visiting at the home of her sister, Mrs. Wade Keene, and family.

Walter Harris, deputy game warden for Nez Perce county, was a Kendrick visitor Tuesday afternoon.

Misses Elsie Ferguson and Tekla Jarvis and Mrs. Silvie Cook and Mrs. Mary Adams and B. B. Brigham attended the teachers' meeting at Moscow Saturday.

Geo. P. Barnum was a passenger for Spokane last Friday where he went to be in attendance at a meeting of the United States Chamber of Commerce, held in that city last Friday and Saturday.

Mr. and Mrs. Jas. Rogers arrived Friday from Berkeley, Calif., for a few days visit with Mr. and Mrs. Leonard Davis and family. Miss Irene Davis, who is attending the Lewiston Normal, came to Kendrick with them. Mr. Rogers was a former resident of Kendrick for a number of years.

Bean Association Busy

The Kendrick Bean Growers' association warehouse is a busy place these days, with machinery running practically all the time, giving employment to five and six men almost steadily.

Although the price of beans has again been "shot" by the flooding of the market in southern Idaho, caused by the closing of two banks at Twin Falls recently and with the farmers selling to get tax money, the Kendrick association is not discouraged and are getting their beans ready for the market as rapidly as possible.

Several interior changes are being made in their warehouse for the convenience of handling their product. The office is being moved to the south side of the building to be near the scales and other necessary changes made.

Coast Visited by Windstorms

A heavy windstorm visited the western coast country on Monday, uprooting trees and tearing down electric power and telephone lines, a 37 to 60-mile an hour gale swept the coastal region of Washington.

The heaviest wind was reported at North Head, near the mouth of the Columbia river, where the velocity was said to have reached 60 miles an hour.

Trees and wires were reported to have been blown down in several towns along Puget Sound and the Columbia river regions.

Democrats Are Happy

Almost every good democrat in this broad land is now wearing one of those smiles that won't come off. A democratic speaker was elected in the national house of representatives on Monday, showing that the democrats have a working majority in that body—the first time in twelve years.

CHILDREN'S HOME APPEALS FOR AID

The Children's Home Finding and Aid Society of Idaho is appealing for funds with which to carry on its work. This appeal is in the form of a little red Christmas stocking and the ones who receive it are asked to give what they can. Lack of employment has meant that many homes have been broken and large numbers of children are going without the bare necessities of life. Many probate courts throughout the State are sending children to the Children's Home. During the last few weeks a large number of children have been received in the Children's Home in Boise and also in the Lewiston Home which is a branch of the Society.

These children have come in a very pitiable condition, suffering from privation and greatly in need of medical attention, food and care. Part of them are half orphans and others are victims of desertion of fathers, and broken homes caused by poverty.

At present both Homes are crowded, the Boise Home has 102 children and the Lewiston Home 48. The children range in age from nine months to 15 years. Besides the children in the Children's Home, the Society supervises nearly 200 children who are placed in foster homes. When children are adopted or reach 18 years of age the Society stops its supervision.

About half of the children who pass through the Children's Home are returned to their parents and the others are for adoption.

While in the institutions they are sent to the public schools of Boise and Lewiston, are given medical attention and hospital care, if necessary, and are allowed to attend the church of their choice as the Children's Home is non-sectarian. They are given very fine training in the Children's Home and are corrected of bad habits formed by living in very poor environment. Within a few months they are built up to normal weight by giving them well balanced meals and plenty of milk to drink.

Many children's lives have been transformed from homes of poverty, crime and bad environments to a life of opportunity and many advantages through the services of the Children's Home.

The Society is managed by a Board of Directors made up of some of the outstanding business and professional men and prominent women of Boise and Lewiston. It is financed partly by the State and Counties, but nearly half of its income is raised by charity, and the depression has hit the Children's Home in two ways—the demands have been unusually heavy and funds have been very hard to raise.

For this reason Mrs. Kathryn C. Wolfe, district superintendent, is sending out a Christmas appeal in the form of a little red Christmas stocking. A coin, a dollar, or a substantial check will all be very acceptable and will help the Society to rescue children who will suffer of neglect without some assistance. The Children's Home is also looking for good homes for children of all ages.

If people in Idaho cannot send money to the Children's Home, a donation of practical things, such as clothing for children, from babies up to 15 years of age will be gratefully received, also canned fruit, popcorn, vegetables, blankets, soap, or anything that can be used in caring for over a hundred children. If people desire to adopt children, they are advised to write to the Children's Home, Boise, Idaho, for information.

An official receipt is sent to everyone who sends money to the Society. The state auditing department audits the book each year and every penny is accounted for.

Do not forget to remember the homeless and destitute children who need your help.

A "High-Up" Christmas Tree

Bill Watts, manager of the Kendrick-Rochdale warehouse and elevator, has become rather high-minded and has placed a 12-foot Christmas tree atop the elevator and has covered it with 30 25-watt lights.

Bill says he expects old Santa to come in an airplane this year because the snow will be so deep he just can't get through.

It is indeed a very pretty sight.

Christmas Paper

The Gazette will next week issue its regular Christmas paper, and you will find therein many bargains and just the things you will want for every member of the family.

Don't fail to read each and every ad.—both this week and next.

Will Show Rabbits

Mr. and Mrs. Frank Ellis have this week taken several of their fine rabbits to the Panhandle Poultry show, being held at Lewiston this week from Thursday until Saturday.

Return From Spokane

Mrs. Lucy Thomas and brother, Louie Lemons, returned Sunday night from a two-weeks visit with relatives in Spokane.

Eggs are High --and Scarce

Are Your Hens Producing As They Should Be?

If they aren't, then it's time you "forced" production by proper feeding. Let us suggest some of our Oyster Shell, Grit and Egg Mash. Just a few pennies invested in the proper feed more often than not brings in the eggs and eggs mean dollars. Prove it for yourself.

WHEAT MARKET UP — MILL DEMAND CAUSE

offerings and a good mill demand. Receipts at the principal winter wheat markets decreased 1,493 cars. Offerings at Kansas City were hardly sufficient for current trade needs and warehouse stocks were decreased over half a million bushels. The bulk of the shipments, however, represented deliveries on previous sales. Prices at that market advanced 3c to 6c per bushel with high protein wheat in active demand. The five months' receipts as tested at the Missouri and Kansas Inspection departments averaged 12 per cent protein this season, compared with 12 1/4 per cent last year. This reduction in protein accounts for the increased premiums paid for high protein wheat this season. At the close of the market Dec. 4 No. 2 hard winter wheat, ordinary protein was quoted at Kansas City at 52c to 54c.

Most of the receipts at Omaha were arrivals on previous purchases by mills or of wheat being moved from country points to terminal markets for storage. Current offerings were hardly sufficient for trade needs and wheat was being sold out of storage to mills in northwestern, eastern and southeastern areas. No. 2 hard winter was quoted in that market at 52c to 53c. Markets in the Denver territory were smaller, with a fair demand reported from both local and western mills. No. 2 dark hard winter was quoted at 48c. Mills in the Fort Worth territory were paying 59c to 60c for local ordinary protein No. 1 hard winter, basis, delivered group 3 rate points. Current offerings were light and readily taken, with considerable amounts of high protein wheat reported sold to Kansas City.

Pacific Coast wheat markets were rather unsettled during the week, but prices tended to strengthen along with the advance at eastern points. Quotations at Portland were about 1 1/2c higher on both futures and cash grain at the close of the market on Dec. 4, compared with a week ago. Big Bend bluestem or early baart hard white was quoted at that market at 81c and other varieties at 62c to 63c per bushel, sacked, basis No. 1. Western white was quoted at Seattle at 63 1/2c, western red at 64 1/2c, hard winter at 65c and bluestem hard white at 79c, sacked, basis No. 1, while No. 1 dark northern spring in bulk, from Montana, was quoted at 98c per bushel. Trading at both of these markets was rather dull, since no export business was possible at

prevailing quotations. Australian No. 1 wheat was reported being offered freely in Shanghai at 69c C. I. F., which was less than F. O. B. prices at either Portland or Seattle. Domestic flour mills took only moderate amounts, but inquiry from domestic mills was slow, since bids from the Orient for Northwestern flour were reported around 80c per barrel below prevailing prices. Premiums for choice milling wheats has been increased as a result of the small supplies of spring and hard white wheats and the relatively high percentage of the offerings that are grading smutty. Some wheat from Washington and Oregon was reported shipped to southern Idaho mills to supplement light supplies in that area. Sales to California were very light during the week, with buyers reported well supplied for immediate needs.

California markets were dull, but prices held about steady at San Francisco compared with a week ago. Mills were generally using stocks purchased earlier in the season and making few new purchases. Feeders and industries were also taking small amounts and reducing stocks prior to the inventory period. Offerings of local wheat are negligible at San Francisco and sales of California wheat were confined almost entirely to feeders in the interior valley points, where competition from northern wheat was less marked because of freight rates. Receipts of wheat at San Francisco during the period of June through November totaled 71,174 tons, of which 64,299 tons were northern wheat. Corresponding receipts last year totaled 53,326 tons, of which 30,185 tons were northern wheat. At the close of the market Dec. 4 local No. 1 hard white wheat was quoted at San Francisco at \$1.45 and No. 1 soft white wheat at \$1.32 to \$1.35 per 100. No. 2 soft white and No. 2 western white from Washington and Oregon were quoted at \$1.19 to \$1.20. Big Bend bluestem hard white at \$1.45 to \$1.48 and No. 1 dark northern spring from Montana at \$1.83 per 100, sacked, delivered dock San Francisco. Utah and Idaho No. 2 hard winter, 13 per cent protein was quoted at \$1.32 per 100 in bulk delivered central California.

Prices at Los Angeles were generally steady to unchanged on feed types but slightly higher on milling grades. Buyers were generally well supplied from heavy purchases in October and November and current demand was light. Offerings were principally from Colorado, Texas, New Mexico, Washington and Oregon.

Soft winter wheat markets strengthened along with other classes of wheat and prices advanced 3c to 4c per bushel. Receipts at St. Louis were of only moderate volume and were readily taken by local elevator interests. Outside mill demand was light. At the close of the market on Dec. 4 No. 2 soft red winter was quoted at 58 1/2c or around the Chicago May price to 1/2c over. No. 2 soft red winter sold at Kansas City at 57 1/2c to 59c. Demand at Cincinnati was very active, with elevators buying to replace stock and mills in the market for wheat as a result of improved flour demand. Offerings continued very light and prices were advanced to premiums of 8c over the Chicago December delivery. No. 2 soft red winter was quoted at 60c to 62c at the close of the market Dec. 4. Receipts at Chicago were very small and were practically all applied on previous purchases, so that current offerings were negligible.

Spring wheat markets advanced 3c to 4c per bushel, with receipts the smallest of the season. Only 420 cars, of which 100 were winter wheat were received at Minneapolis. This, with 41 cars at Duluth, made a total of 461 cars for the two markets. Premiums were increased slightly and at the close of the market Dec. 4 12 per cent protein No. 1 northern was quoted at Minneapolis at 3c to 5c over the December price of 70 1/2c. Canadian spring wheat markets were also firmer, influenced by a moderate decrease in county marketings and fairly active export demand. No. 1 Manitoba northern closed Dec. 4 at Winnipeg at 62c per bushel in Canadian currency.

Durum markets advanced with other classes with December delivery closing at Duluth Dec. 4 at 65 1/2c, an advance of 4 1/2c for the week. Outside mills were drawing upon elevator supplies, since local offerings and arrivals at division points were insufficient for current cash demand. High protein milling durum was in best request and sold at steady premiums. No. 1 amber durum was quoted at Duluth on Dec. 4 at 69 1/2c to 85 1/2c. No. 1 durum at 65 1/2c to 69c and No. 2 red durum at 57c per bushel.

Hot Work

A firm of shipowners wired one of their captains: "Move heaven and earth; get here Friday!" Just as they were becoming anxious they received this reply: "Raised hell and arriving Thursday."

If optimists are to be believed, business has turned the corner so often lately that it must be dizzy.

BRUCE GROSECLOSE WEDS OREGON MAID

The following item, taken from the Oregon City Enterprise, will be read with interest by the many friends of Bruce Groseclose, son of Mr. and Mrs. Wm. Groseclose of Teakean: "Miss Elsie Mildred Ingram, second daughter of Mr. and Mrs. Milo Ingram of Wilamette, became the bride of Bruce Bernard Groseclose of Sweetwater, Idaho, at a large and beautiful service which took place Wednesday evening, November 25, in the Willamette Methodist Episcopal church.

"Relatives and friends were guests at the wedding ceremony, read by Rev. Earl B. Cotton.

"Mr. and Mrs. Albert Hopp sang 'I Love You Truly' and 'O Promise Me,' and Miss Clara Bartholomew played the wedding music. To the strains of Wagner's 'Bridal Chorus' the bridal party passed down the aisle and met the groom and his attendant under an archway of ferns and chrysanthemums. In the setting of palms and flowers, vows were exchanged. The bride was given away in marriage by her father, Milo Ingram.

"The bride was lovely in a gown of white satin. The long tulle veil was caught with a spray of orange blossoms and she carried a bouquet of roses and baby chrysanthemums.

"Her sister, Miss Hettie Ingram, was bridesmaid, and her brother, Elmer Ingram, was best man for Mr. Groseclose. The bridesmaid's frock was of peach georgette and she carried pink carnations.

"Ellen Ingram, sister of the bride, and Phyllis Gladney of Portland, the bride's cousin, were flower girls. They were dainty in their frocks of yellow and blue.

"Marvin and Charles Ingram, brothers of the bride, were ushers.

"After the wedding a reception was held in the social rooms of the church. Covers were placed at the bride's table for members of the bridal party, Mr. and Mrs. Milo Ingram, Rev. E. B. Cotton and Mrs. Cotton, Miss Bartholomew, Mr. and Mrs. Hopp, and the bride's grandmother, Mrs. S. E. Brown of Portland.

"Assisting during the reception were Misses Gracia Ingram, Anna McInnis of Aurora, Mary Brown of Portland, Adelaide Gupitill and Betty Larson.

"The reception was attended by Mrs. Wm. Groseclose, mother of the groom, who was also present at the ceremony.

"Mr. and Mrs. Groseclose will leave this week for Sweetwater to make their home. Mr. Groseclose is pastor of the Methodist church at that place. Both of the young people are graduates of the West Linn Union high school."

Married Women Dismissed

All married women whose husbands have employment will be dismissed from jobs in the various state departments under the control of Gov. C. Ben Ross. This order was issued last week with the explanation that the Governor hopes to spread the "bread winning opportunities in the state house over as wide a range as possible in view of the current unemployment."

The departments of the elective officers, the state land department, the industrial accident board, the board of education and the supreme court are not affected by the order. Widows, wives of disabled war veterans and wives whose husbands are not now employed will not come under the ban.

An unofficial count revealed eight women in the departments under the governor's supervision who will lose their jobs.

Should Be Quite Easy

Cuticura—The doctor says I must throw up everything and take a sea voyage.
 Palmolive—That should be easy if you take the voyage first.

COMMERCIAL CLUB HOLDS REGULAR MONTHLY MEET

bery that took place a week ago would have been pulled, but the matter received an adverse vote at the last meeting.

Rev. Edward J. Smith, pastor of the Kendrick Community church, was present and was called upon for a few remarks, and in response stated his pleasure at being present and commended the club for the interest they were taking in local affairs.

Dr. Field of Genesee was also present and made a short talk on the unpleasantness now going on between China and Japan in Manchuria. While his talk was short, it was very interesting, he showing from an imaginary map on the window, the location of the present strife.

Geo. P. Barnum made a report of a trip made to Spokane last week where he attended a meeting of the United States Chamber of Commerce. He stated that it was a very interesting and instructive meeting and that it was addressed by some of the best posted men on national affairs to be found today, the statement being made that no matter how many resolutions were passed about the present world situation, the only way that anything could be accomplished was for each individual to get his "shoulder to the wheel" and give individual aid.

It was decided to sponsor another community Christmas tree this year and the matter was referred to the proper committee. The tree and entertainment will be given on Christmas eve—a large tree to be erected in main street, the same as last year. All the kiddies will be given a free treat.

Taken as a whole, the meeting was one of the best the club has ever held and it is felt that much good was accomplished and the result will be felt in several different ways.

There is nothing that takes the rough edges off as well as "rubbing shoulders" with the other fellow and getting his ideas and comparing them with your own. Much good has been, and will be, accomplished by these meetings.

Tractor Short Course at "U"

The annual farmers' tractor short course, given by the department of agricultural engineering of the University of Idaho, will be held in February instead of December, as previously announced, according to Prof. Hobart Beresford, head of the department. The course will open February 1 and continue for two weeks. It is intended primarily as a practical course for farmers.

The first week's work will consist of the farm shop and motor repair jobs, including valve grinding, honing and the use of reboring tools. Fuels and lubricants will be discussed, and the standard laboratory tests explained. A demonstration of the use of the oxy-acetylene torch for treating plowshares, welding and brazing will be given.

During the second week the latest models of the leading tractor manufacturers will be demonstrated. The principles of operation and the construction of the latest type Diesel tractor engines will be included in the work. Talking pictures on tractor operation will be shown during the course.

Play Was Success

The play given last Friday evening for the benefit of the Community church was well received, but the audience was not as large as the play merited. The theme had been chosen with much care and the players had given their best efforts to make it a success—and it was. The weather conditions and the general depression, more than any other one thing, evidently had to do with the size of the crowd.

The violin numbers given by Miss Nina Newman and the vocal solos by B. B. Brigham were much enjoyed.

is performed by the Secretary of State are Illinois, Ohio, Michigan, Wisconsin, Minnesota, Indiana, Colorado and Oregon. This list of states, several of which have more than a million cars registered, would convince one that there is not danger in Idaho, as has been stated, that the Secretary of State may be given too many duties.

There is no reason for a centralized law enforcement agency of the state other than a state traffic force to enforce the motor vehicle laws. This is justified because of the state-wide inter-county operation of these laws. The sheriffs of the counties are able to perform their local duties without any direction from a state officer, and the Commissioner of Law Enforcement has never functioned as a super-sheriff.

Thus it would be possible to eliminate this one department of state government and thus save from \$10,000 to \$15,000 per year, and at the same time simplify the state's affairs.

Buy for Christmas — Buy at Home.

Idaho's New License Plates
Idaho's 1932 automobile license plates, besides being different in color from 1931 plates, will inaugurate an innovation in design and numbering system, it was reported by County Assessor J. L. Armstrong, Lewiston, who said the new plates should arrive in one week. They will not be on sale, however, until after January 1, says the Lewiston Tribune.

Each county will have a different letter and numeral combination, with the license number starting at one in each county.

Plates assigned Nez Perce county will bear on the left side the designation "K8" and the numbers will range from 1 to 4000. Above the license number, which occupies the center of the plate, appears "1932," while at the right side is "Ida." The plate is orange with black lettering. Truck licenses for Nez Perce county are numbered from 1 to 750; commercial car licenses, 1 to 75; private trailers from 5,726 to 5,825; commercial trailers, 324 to 338.

Designation for other central Idaho

counties follow:
Idaho, H7, 1 to 600; Clearwater, B9, 1 to 1,150; Lewis K4, 1 to 1,100; Latah, K2, 1 to 4,200.

Mail Christmas Packages Now
If you want to be certain of the delivery of your Christmas packages, better get them ready now and have them on their way before the big Christmas rush crowds the mails.

Wrap your packages thoroughly, address them plainly and mail them early. Place your name and address in the upper left-hand corner to make sure that it will be returned to you in case anything should happen to the address or if it cannot be delivered.

Do it now.

Now Has Washington License

Jack Pickard was in town the other day from Troy looking after business matters. While here he stated that he had been licensed to do work in the state of Washington and will no doubt extend his duties to that state.

ECONOMY IN GOVERNMENT IN IDAHO

(By F. E. Lukens, Sec. of State)
The State of Idaho has learned through experience since 1919 that the cabinet form of government, worthy as its aim may have been, was framed on a scale too large for a state so small as Idaho in population and wealth. The several articles of this series have been printed thus far have pointed out possible consolidations. The effect of such consolidations is evident because in practice, for twelve years following 1919, the Department of Law Enforcement was operated as an adjunct of another department, namely, the Department of State. It is only this year that it has been a separate entity.

The suggestion was made several years ago by the writer and again five years ago that the Department of Law Enforcement as a separate department should be abolished. It was largely designed as an agency which should unite all the law enforcement activities of the state. The Fish and Game Department, the licensing of the professions, the licensing of motor vehicles and the enforcement of regulatory and penal laws of the state were placed in the Department of Law Enforcement. Since that time the department has continued as something of a "catch-all" for any activities, unrelated though they may be, for which the Legislature found no other place. Thus in 1921 the enforcement of the real estate license law, in 1923 the

collection of the gasoline tax and in 1931 the collection of the kilowatt tax were placed in this department.

There is no good reason why there should be any one department to which should be assigned the duty of administering a great many unrelated functions. Therefore, the suggestion is made that the department be entirely abolished and that its duties be assigned to departments where there is a closer relationship existing. For example, the issuing of professional and occupational licenses to physicians, dentists, nurses, civil engineers, barbers, etc., should be carried on by the Department of Public Welfare, because practically all of these licenses have to do with the enforcement of rules for public health and sanitation. The control of real estate licenses should be in the Department of Finance, the principal duty of which is the regulation of financial institutions, investment companies and insurance companies. (This department will be discussed in a subsequent article).

The tax collecting duties of the Department of Law Enforcement including the collection of gasoline tax and kilowatt tax, should be performed by the Tax Commissioner, as suggested in the article of last week. The licensing of motor vehicles should be performed by the Secretary of State, primarily because of the fact that the work can be more conveniently carried on in that office than in any other. This duty is assigned to the Secretary of State in more states than it is to any other one department. Included in the states where the duty

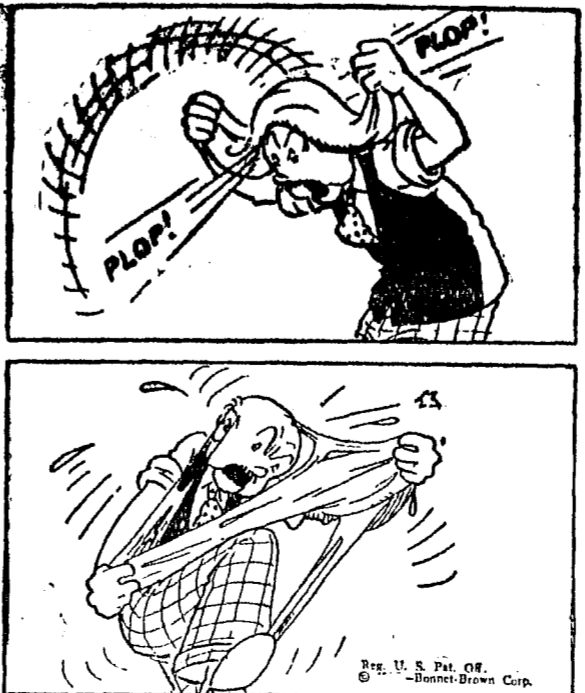

How to train BABY'S BOWELS

Babies, bottle-fed or breast-fed, with any tendency to be constipated, would thrive if they received daily, half a teaspoonful of this old family doctor's prescription for the bowels.

That is one sure way to train tiny bowels to healthy regularity. To avoid the fretfulness, vomiting, crying, failure to gain, and other ills of constipated babies.

Dr. Caldwell's Syrup Pepsin is good for any baby. For this, you have the word of a famous doctor. Forty-seven years of practice taught him just what babies need to keep their little bowels active, regular; keep little bodies plump and healthy. For Dr. Caldwell specialized in the treatment of women and little ones. He attended over 3500 births without loss of one mother or baby.

Typist—Hazel Reid.
Advisor—Miss Deagen.

Allister, Lizzie Hoffman and Robert Smith were appointed as a committee to arrange for serving lunch to the Bovill players after the games Saturday night. The refreshments which were decided upon were: fruit salad, wafers and coffee. We feel that the serving of lunch to the visiting teams will help to advance a feeling of fellowship and good will between the schools.

High School Gave Dance

Saturday night immediately after the basket-ball game the High school gave a dance in honor of the Bovill players. The Parr orchestra of Troy furnished the music. It was quite well attended considering the weather. A very enjoyable time was had by all.

Girls' Game

A very exciting basketball game was witnessed last Saturday night when the Kendrick girls defeated the Bovill girls with the close score of 18 to 16. The score at the half stood 10 to 7 in Kendrick's favor. High point man for Bovill was Alma Hall.

For Kendrick, Nettie Mae McDowell.

Victory

In the fast game of basketball played Saturday night, Kendrick was victorious over Bovill by a narrow score of 25 to 26. Although holding a lead of 8 points at the start of the fourth quarter, the boys weakened somewhat at this crucial point and several set-up shots made good by Bovill nearly spelled defeat for Kendrick. The regular time expired with the score 24 to 24, so a three minute overtime period was favored, in which the basket that won the game was made.

Ralph Blevins was high point man for Kendrick, scoring 14 points. Karl Emery came second with 8 points.

Static

Mr. Brigham—I would like to go through one whole day without scolding or punishing you.

Homer Emmett—You have my consent.

Bud Carlson—What makes more noise than a pig under a fence?

Clem Lyons—Two of 'em.

Honor Roll

The ranks of the honor roll were greatly swelled this six weeks' period. Those students making the 90 percent average requirement are: Seniors—Nona McAllister, Burneda Cummings, Lois Fry, Ruby Heffel and Ethel Cummings; Juniors—George Davidson, Jack Bailey, Hazel Reid, Mary Johnson, Elma Jones and Nettie Mae McDowell; Sopomores—Maxine Keene, Kathryn Emery, Lawrence Schwarz; Freshman—Bud Carlson and Clem Lyons.

The Freshies managed to place two students this time, so they must be getting used to high school.

N. E. Walker Again Commissioner

At the highway election, held in Kendrick on Monday of this week for the purpose of electing a commissioner in District No. 3 for a term of four year, N. E. Walker was elected to succeed himself. There were 53 votes cast and Mr. Walker received 50 of them—not a bad recommendation.

Advertisers appreciate your trade!

When BABIES are Upset

BABY ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight? Have you a bottle of Castoria ready?

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. It's gentle influence will ease and soothe the infant who cannot sleep. It's mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

BUSINESS CONDITIONS IN TWELFTH DISTRICT

Industry and trade in the Twelfth Federal Reserve district continued to mark time at low levels during September, while the harvesting of farm products proceeded satisfactorily. The number of employed decreased by at least the full seasonal amount. Average commodity prices remained about the same during the month. Changes in the banking and credit situation were of considerable significance, currency circulation and the volume of Reserve Bank credit in use increasing by mid-October to the highest levels reached since the immediate post-War period. Deposits and loans of reporting member banks continued to decline.

Harvesting of most crops was nearing completion early in October, having been attended in September, as in August, by favorable weather conditions. As in 1930, there is a tendency on the part of farmers to delay shipments at current low prices in the hope of receiving better crop returns at some future time. Actual harvests of most deciduous fruits have been somewhat below earlier estimates, reflecting the effects of inadequate water and abnormal temperatures during the growing season. Despite the semi-drought conditions of the past year, yields of grain and field crops and of deciduous fruits will approximate the average of recent years, although they will be well below the large crop of 1930. September 1 estimates of the 1931-1932 naval orange crop are somewhat smaller than packed box shipments of the preceding year.

Twelfth district industrial activity declined slightly, after allowance for seasonal variations. Crude oil production and refining activity in California were further reduced during September and substantial decreases were recorded in inventories of petroleum products. Output of lumber was curtailed slightly more than is usual between August and September, while orders and shipments also declined resulting in little change in

lumber stocks. Flour production expanded more than seasonally. Notwithstanding a slight decline in production of copper during September, further additions were made to inventories of copper, which were already higher than at any previous time. Construction activity advanced slightly from the low levels of August.

Trade activity was about the same in September as in August. Neither retail nor wholesale sales increased by the full seasonal amount. Adjusted carloadings remained unchanged. A substantial increase was recorded in the volume of intercoastal traffic during the month, however, reflecting principally a rise in general cargo shipped from Pacific to Atlantic coast ports. Registrations of new automobiles decreased less than seasonally.

Between September 16 and October 21, credit extended by the Federal Reserve Bank of San Francisco increased further by \$142,000,000 to the highest level in more than ten years. Discounts at the Federal Reserve Bank advanced sharply and the volume of bills bought in the open market, most of which were purchased in New York rather than in local markets, expanded rapidly to the highest levels (\$84,000,000) recorded since April, 1920. Loans and deposits of member banks declined during the five weeks ended October 21. The withdrawal of deposits from commercial banks was accompanied by a further rise in the demand for currency. Interest rates increased in the Twelfth district following their firming in national money centers.

A slave driver is one who tries to get more out of his employees than he pays for by holding the whip of discharge over them.

When a man ceases to worry about his bills he is in a bad way and then you will have to do the worrying.

A man who is desperate is dangerous. One who has comfort and security is usually a safe bet in business.

Mrs. Theresa Schultz called on Mrs. William Wolf Monday evening.

Cameron School Notes

The third month of school came to an end last Friday. The percentage of attendance last month was 98.5.

Those on the sick list this week were Emil Silflow and Robert Wegner.

The Christmas program of the school will be given on Friday evening, December 18, in order that it will not conflict in any way with the church program, to be given the following week. The school program will start promptly at 7:30. The program will consist of Christmas songs, a few recitations, two short playlets and the rhythm band. The band will appear in new uniforms and will contain a number of new and different instruments.

College Girl Lags In Love—Business

In love and business, the college girl lags, says Dr. Roy N. Anderson, personnel investigator of Teachers college at Columbia university.

He observed that the college girls have about 20 per cent less chance to get married than have the non-campus ladies, and that girls with degrees get salaries ranging from \$950 to \$1,600 as compared with \$905 and \$2,275 earned by business and professional women.

Dr. Anderson, who has made a survey of 891 college girls in 225 schools, said they ought to learn a business or profession in addition to their college education, both to make up for their reduced chances in the marriage mart and to compete with less learned women.

Ladies Aid Holds Meeting

A very interesting meeting of the ladies aid of the Kendrick Community church was held in the Community church Friday afternoon of last week, with Mrs. Aikin and Mrs. Bolon as hostesses. During the business session, December 18 was set as the date of their annual bazaar and supper.

Another meeting of the aid will be held in the church this (Friday) afternoon for the completion of arrangements.

Believes In Him

"Jones' wife thinks the world of her husband."

"Does she?"

"You bet. She even believes the parrot taught him to swear."

It Sure Was

He—Do you remember when we met in the revolving door?

Bright Young Thing—Yes, that's when we started going around together, wasn't it?

The action of the American Legion in voting not to press for full payment of the adjusted compensation certificates, increases the general respect for the American Legion.

STATE INCOME TAX RETURNS MUST BE MADE

The Property Relief Act of 1931, better known to Idaho citizens as the "income tax law," has receded in the public's attention to a place of comparative unimportance and many individuals are doubtless negligent of the fact that a future accounting will in all probability be demanded, says the State Chamber of Commerce in calling the attention of the general public to the law, which is now in force. Every day checked off the calendar is an additional day's record that must be taken into consideration when the income tax reports are made out next March—and woe unto him who finds his records wanting!

Records Necessary

One provision of the law, Section 62, paragraph (a), reads in part as follows: Any person required to keep any records who willfully fails to keep such records shall be guilty of a misdemeanor, and, upon conviction thereof, be fined not more than \$300, or imprisonment for not more than six months, or both.

That is the law, stripped of its superfluous legal terms, regarding the necessity of keeping records, and it is to this that the State Chamber would call attention in order that such records may be kept, thus eliminating considerable wailing and gnashing of teeth that might otherwise ensue.

"Persons required" to keep records are those individuals, corporations, partnerships, firms and so forth whose incomes are such as to be likely to place them in the taxable bracket under the provisions of the law.

In order to make this more definite in the case of individuals the percentage rate on individual incomes is herewith quoted: (a) On the first \$2,000 net income, or any part thereof, at the rate of 1 per centum; (b) On the second \$2,000 of net income, or any part thereof, at the rate of 2 per centum; (c) On the third \$2,000 of net income, or any part thereof, at the rate of 3 per centum; and (d) On any net income in excess of \$6,000 at the rate of 4 per centum. "Per centum" means per cent annually.

And in regard to net income, the law provides that "personal, living or family expenses" shall not, along with other things, be deducted.

Credits, however, are allowed individuals and those which will likely affect the largest number of persons are herewith quoted: in the case of a single person, an exemption of \$1,000; in the case of the head of a family or married person living with husband or wife, an exemption of \$2,500 (only one such exemption to each family); and \$300 for each dependent person.

In other words, if you are single, and making over \$1,000 a year, or married and making over \$2,500 a year, allowing an additional \$300 for each dependent, you will be likely to be called upon for an income tax report next March.

And that report will cover the period from July 1, 1931, the date the law went into effect, to December 31, 1931. That is now—so now is the time to keep such records as will be required in making out your report.

Of course any newspaper account of the provisions of the income tax law must, because of space limitations, be sketchily presented, and those persons, corporations, firms, organizations and so forth whose business negotiations, dealings, and transactions are of a complicated nature are urged to provide themselves with a copy of the statute—one may be secured from the state commissioner of finance—and study the provisions and regulations which pertain to their specific cases. Such a precaution may prove a time and money saver next March.

Attacks on the constitutionality of the income tax law have been rumored from time to time, however as yet no such case has appeared in the courts and it is therefore the part of discretion to presume that the legal machinery of collecting will be put into motion next year.

The Better Way

It is better to prevent a crime than to punish someone for having committed it. And, on the same principle, it is better to enforce a few basic laws than to pass new and restrictive ones which are unenforceable, and serve only to make law-breakers of otherwise law-abiding citizens.

This is a fact of which we seem to have lost sight in our passion for passing laws. Probably no other civilized people are bound by so many legal restrictions as we are—and it is certain that no other civilized people are plagued by so much crime, or have so conspicuously failed in apprehending and convicting criminals. That is something legislators and voters might take into account when the time for consideration of new laws comes again.

Is Much Better

Mrs. Wade Keene, who has been quite ill for the past several weeks, is much improved at this time.

JULIAETTA NEWS ITEMS

Clarkston were Friday evening and Saturday guests at the J. H. Millard home.

Mr. and Mrs. Fred Gritman were Sunday visitors from Clarkston at the Bert Sherman home.

Mr. and Mrs. Andy Cox and son of American ridge were Sunday guests of Mr. and Mrs. Edgar Carlson.

Mrs. Venice Hanson and children of Seattle are visiting Mrs. Hanson's father, Elmer McAllister.

Rev. Billy Nigh and wife are holding meetings at the Methodist church. They began Wednesday evening.

Will Give Christmas Program

An elaborate Christmas program is being planned in the Kendrick public schools this year. It will be presented in the high school gymnasium on Tuesday evening, December 22, and will display talent from the entire school system. No admission will be charged.

Miss Newman, music supervisor, will be in charge, with practically all of the faculty assisting. The program will comprise a series of Christmas songs to be sung by school children, with appropriate dramatic scenes to illustrate the themes of each. Children in the lower grades will act out the parts, while those in the upper grades and in the high school will provide the music.

Stage fixtures are being installed at present. All school patrons are urged to attend.

Parents of Daughter

Mr. and Mrs. Phil John of Juliaetta are the proud parents of a baby daughter, born Sunday morning. Mother and babe are doing nicely.
