

STATE CHAMBER TELLS IDAHO TAX HISTORY

(This is the sixth of a series of articles dealing with taxation in Idaho written by Glenn Balch, under the direction of the State Chamber of Commerce.)

During her 40 years of statehood, Idaho has experienced governmental growth that might almost be described as miraculous. It seems that our early legislators, feeling perhaps that this state was handicapped by her late entrance into the Union, concentrated on speed.

The rapid development of our government is not to be condemned. Indeed, in these rapidly changing times to stand still is to go backward. Nor is there any question but that many of our acquired governmental functions have proved of tremendous benefit to the public. But the fact remains, and never was it more clearly evident than today, that the people of Idaho have contracted for more government than they can financially afford.

None but the most radical would advocate that we return to our infant form of state government of 40 years ago; it would prove sadly inadequate for present needs. Still there can be no question but that we, in our early-day haste, purchased some governmental bargains that have turned out to be extravagant luxuries.

Government Growth

A study of our government at ten year intervals brings home emphatically its mushroom-like development. The first legislature appropriated the sum of \$385,851 for the expenses of state government for a period of two years. A total of 18 items were provided for in this appropriation.

In 1901, after ten years of statehood, the appropriations totaled \$713,971, almost double those of the first biennium. And we find that the number of governmental functions and items had by this time increased to 43.

In 1911 state appropriations jumped to \$1,832,805.40, revealing a lusty growth, to say the least, during the decade. Governmental functions and items supported by legislative appropriations had increased at the approximate rate of two each year, the total now being 62.

Expenses Jump

During the succeeding ten-year period, which it must be remembered encompassed the World War, the cost of Idaho's government increased alarmingly. The legislature of 1921 appropriated a grand total of \$5,072,722.66 for governmental expenses, almost trebling the appropriations of 1911. And the number of functions and items provided for had increased to 77.

The 1921 appropriations were apparently close to the saturation point, for we find that ten years later, in 1931, the increase amounted to only \$800,000 in round figures. Appropriations for this year totalled \$5,859,237.83. The number of functions and items had increased to more than 100.

Summed up, we find that in the 40 years since Idaho attained the dignity of statehood her biennial needs for governmental expenses have increased from \$385,851 to \$5,859,237.83. This was accompanied by an increase of from 18 to 115 in governmental functions and items.

During this forty-year period the state's population has been multiplied by 4 and the assessed valuation has increased from approximately 25 millions to approximately 450 millions of dollars.

County Costs Mount

A growth almost parallel to that of the state is noted in the costs of county government. In 1913, when Idaho had only 31 counties, the total county taxes collected amounted to \$3,782,546.14. In 1930, with their number increased to 44, the various counties collected a total of \$6,781,048.33 to defray their expenses.

In the final analysis these increases in governmental costs are the cause of our current top-heavy tax burden. Idaho's government has in a figurative sense outgrown its clothes. Inability of our citizens to pay their taxes is prime proof of the fact that somewhere and somehow there is a lack of balance between the benefits and the costs of our government.

INTERESTING ITEMS FROM JULIAETTA

Family Reunion

A family reunion was held at the E. W. Kite home, Juliaetta, Tuesday, in honor of the eightieth birthday anniversary of G. W. Kite, when several members of the family gathered to help him celebrate the event. A splendid dinner was served at the noon hour and the venerable gentleman received many remembrances in the form of a silver offering.

The children present were Mrs. J. H. Millard and family, Mrs. Fred Nye and family; Mrs. Ed. Fleschman and family; J. A. Kite and family and E. W. Kite and family. Two daughters, Mrs. H. M. Schull and Mrs. O. E. Sworden and several grand-children, who were unable to be present, sent their silver offering. Other guests were Mr. and Mrs. Geo. McClintic and Walter McClintic. (There are 33 grandchildren and nine great-grandchildren.)

Mr. Kite crossed the plains the first time with his parents, from Iowa, where he was born, in 1853, going to California. He returned to Iowa in 1865, where he was married in 1873 to Jennie M. Taylor. In 1875 he and his wife came to Colfax, Washington, where they resided for a year, going from there to Johnson, Washington, where they took up a homestead and where their nine children were born. They resided there for 26 years. In 1901 Mr. Kite came to Juliaetta, where he has resided since that time. Mrs. Kite passed away January 28, 1916.

Birthday Party

A large party of friends came to surprise Mr. and Mrs. Cecil Gruell Wednesday evening in honor of Cecil's birthday anniversary, but found a darkened and locked house. After trying windows and doors to gain admittance and doing much guessing as to where the owners were, they were finally admitted. Pinocle was played at five tables, high score being won by Mrs. Clark and Mr. Hansen. Lunch was served at a late hour, including a birthday cake with numerous candles on it.

The guests were Messrs. and Mesdames Bert Sherman, D. E. Buckalew, Wm. Spray, M. Nutt, Walter Cochran, Claud Clark, Frank Spray, Cecil Gruell, Horst Gunther; Mrs. Custer and Mrs. Biddison and Mr. Hansen.

SOUTHWICK DOINGS OF INTEREST TO ALL

Southwick, as far as car travel is concerned, is "snowed in." The hard wind which blew all day Wednesday played havoc with all the good roads, piling them high with snow. Thursday the Teakman mail was unable to go at all, and Mr. Presnell could only make a few miles of his route. Most of the men of the community combined Thursday and broke the roads, so travel is again possible, with horses. Tom Armitage is now carrying the Kendrick mail as far as Leland, where Mr. Smith meets him. This is the first time since Mr. Smith has been on the route that he has been unable to go through in his car.

Gordon Harris attended the Tax-Payers' meeting in Lewiston Wednesday and Thursday.

The Grinolds school has been closed the past week on account of deep snow and drifts.

Mr. Lyle and Harve Triplett went back Saturday and brought the car home—the only car to come into Southwick last week.

Ben McCoy went to Clarkston Saturday, where he will take treatment for his goiter, which has been giving him serious trouble for the past two weeks. We all wish him a speedy recovery. Ben Baker went with him to Lewiston.

MEN OF P. T. A. PUT ON MINSTREL SHOW

Perhaps one of the best-enjoyed entertainments of the winter season was given last Monday evening by the men of the community under the auspices of the Parent-Teachers association, after the regular business session of the association had been held, which was also of a very interesting nature.

At the business meeting William Watts, chairman of the finance committee gave an interesting report comparing school costs to other expenditures of the community. It was revealed that for every dollar raised for school purposes by local taxation, 27c is spent for theatres and dances, 14c for professional athletics, 35c for ammunition and hunting licenses, 39c for fraternal societies, 62c for highways, 27c for churches and \$1.10 for tobacco. It was shown further that only 5 per cent of the money spent in town goes toward maintenance of the school. These figures were compiled by the high school class in economics.

Mr. Watts urged for cooperation of the parents in maintaining discipline at school, declaring that the parents as well as the teachers were responsible for all misconduct.

Mrs. Cook, chairman of the child welfare committee, made a brief report on the hot lunch. B. B. Brigham, Supt. of schools spoke concerning the attitude of the teachers toward the lunch, and recommended that a new plan be adopted for the next month. A resolution was passed whereby the parent will serve the lunch instead of the teachers.

At the close of the regular business session the chairman, Mrs. W. B. Deobald, announced that the program for the evening would be put on exclusive by the men, of which committee H. B. Thompson was the chairman—and a right merry time was promised and carried out.

The entire program had been kept a secret by the men, insofar as that was possible (for no ladies were allowed in on the know) and, be it said to the credit of the men, there were many surprises sprung. The entire program was original stuff, and was given in the form of a minstrel show.

The first thing on the program was several "overtures" by the orchestra, which were much enjoyed by the more than 80 people in the assembly room of the school building. Next came the performers, who took their seats in true minstrel fashion and were introduced by the inter-actor (H. B. Thompson, who by the way, was attired in the traditional "till" hard-boiled shirt, cane, and other necessary equipment) as follows:

Amos Jones	Ira Bolon
Andrew H. Brown	Marvin Long
Lightning	B. B. Brigham
Bro. Crawford	Frank Rider
Madam Queen	Roy Ramey
Henry Van Porter	Norris Walker
Jack Dixon	Harold Thomas
Ruby Taylor	Lester Hill
The Kingfish	Bill Watts
Sadie Blake	Elizabeth Carlson
Attorney Collins	A. K. Carlson
Jackson-Jackson & Jackson	

It might be said here that the latter three, Mr. Carlson, Elizabeth and Bud, made up the orchestra, which consisted of violin, piano and drums, and furnished music for the entire entertainment.

Many wise-cracks were pulled on local people, all of which were fairly original, and some or them entirely so. However, no one took offense and all seemingly enjoyed the repartee. Several songs by members of the "cast" were well received, one being "Lightning" and one, with guitar accompaniment, by "Jack Dixon." "Brother Crawford" put on a dance that would indicate that he was not "too unhappy" even if his better half was nearly always in that condition.

There were also a few selections rendered by a "mixed" quartet, made up of Henry Van Porter, Lightning, Madam Queen and Ruby Taylor, which were much enjoyed.

After the entertainment was over, all who desired cats were invited to the domestic science room where a lunch of "P.-T. A. Special," sandwiches and coffee was served, 79 taking advantage of the invitation. The lunch was in charge of E. H. Dammarell, Rev. Smith and Frank Ellis.

Taken as a whole, the entertainment was much enjoyed and the men are to be complimented on their efforts and success as entertainers and chefs. It is such meetings as these that keeps the community together and makes for a better feeling between parents and teachers.

We wonder if the ladies can beat it?

Got Results

Rev. A. E. Janes called us over the phone Monday morning and said: "It isn't any use to run that ad. of mine (Hay For Sale) any longer. That one time sold all my hay. I find that if anyone has anything to sell or wants to buy anything, it pays to talk through the Gazette."

The Gazette covers the Potlatch country "like a blanket" and a blanket is a mighty good thing to have these days.

Will we see you in Leland next Monday?

The opening exercise period for the past week has been devoted to practicing for the entertainment to be given in Leland, next Monday, in commemoration of the bi-centennial birthday anniversary of George Washington. Let's have Cameron represented 100 per cent at this celebration.

The opening exercise period Friday morning, February 12, was spent in talking about Abraham Lincoln and also singing some songs. America was sung by the children, after which Willard Schoeffler gave a report on Lincoln's boyhood. "America The Beautiful," "Dixie Land," "Battle Hymn of the Republic" and "Old Black Joe" were sung, after which Selma Wegner read the "Emancipation Proclamation." "The Battle Cry of Freedom" was sung and following it Emil Silflow read the "Gettysburg Address." A few of the smaller children gave some short reports on Lincoln. After this "My Old Kentucky Home" was sung and "America The Beautiful," closed the morning exercises.

Suffers Broken Ankle

Mrs. George Davidson is suffering with a broken left ankle, having slipped on the ice at their farm home. The accident happened on Sunday, February 14—rather a distressing valentine.

Try trading at home. See if it won't increase your own business.

WHEAT MARKET FIRMER— PRICE ADVANCE MODERATE

Domestic grain markets developed a somewhat firmer tone toward the close of the week ending February 12, influenced principally by uncertainty as to the condition of winter wheat, a more active inquiry for North American grain and some strengthening in the security market, according to the Weekly Grain Market Review of the United States Bureau of Agricultural Economics. The advance in wheat prices was sufficient to offset the decline which had taken place since the beginning of the month. The strength in wheat was reflected in higher prices for feed grains. Demand for corn and oats however, continued of limited volume and the moderate offerings were easily sufficient for current trade needs. Rye fluctuated with wheat, but flax markets remained weak as a result of a continued dull demand for linseed oil and meal.

European wheat markets were generally more active during the week, and prices were slightly firmer. The French milling quota for foreign wheat is now 15 per cent, but there was a good mill inquiry for native wheat and prices held firm. Trading in foreign wheat, particularly in nearby positions, was also active in Italy.

Trading in foreign wheats in Germany was of insignificant volume, but prices of native wheats held steady. Austrian markets were inactive and a weaker situation was reported in Czechoslovakia. Some damage due to lack of snow cover has occurred to winter wheat in Austria, according to official reports; but crop conditions in Germany are reported good although present low temperatures and lack of snow cover threatened damage. Italy has experienced a dry winter, but no damage to grain crops has been reported. Weather in Spain is favorable during the week, except in the Aragon region, where shortage of moisture was retarding growth.

The situation in the Orient remains unchanged. Very little foreign wheat has been discharged at Shanghai during the past two or three weeks and no native wheat has arrived for some time. Stocks of foreign wheat are reported sufficient for a few weeks. About 200,000 tons of Australian wheat has been bought, but no new business is now being done, according to Agricultural Commissioner Dawson. Flour stocks are moderate and prices have advanced very slightly as a result of increased local demand. The flour exchange at Shanghai remains closed and little flour has moved out as a result of disrupted shipping conditions. Quotations on foreign wheats are largely nominal because of lack of trading, but have not changed materially during the past week or two.

Pacific Northwestern markets were weak and lower, reflecting the slow demand for flour and the lack of export outlet for both wheat and flour. The trade with the Orient was being supplied with wheat from Canada and Australia at prices well below domestic quotations, while Argentina was underselling Pacific Coast wheat in European markets. Export mills continued operations on the Chinese flour sale but reported no new export business. Domestic mills were taking only sufficient wheat for immediate needs. Receipts at Columbia River and Puget Sound markets for January totaled 4,696,000 bushels, making a total for the season of 39,634,000 compared with 33,022,000 during January 1931 and 34,104,000 for the seasons total through January last year.

Additional snow fall over producing sections of eastern Washington and Oregon during the week were favorable to winter wheat. Approaching increases in freight rates and tax assessment time apparently influenced farmers to sell more freely during the week, although many growers were reported holding for higher prices.

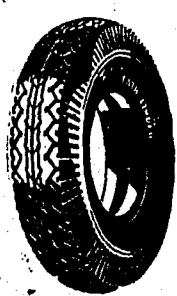

At the close of the market February 11 Big Bend bluestem hard white was quoted at Portland at 72½c, soft and western white at 60½c, western red, hard winter and northern spring at 58c and 12 per cent protein dark hard winter at 70½c, sickle, basis No. 1. Western white and hard winter were quoted at Seattle at 60c, western red at 57c and Big Bend bluestem hard white at 72c per bushel, sacked, basis No. 1.

Moderate quantities of Canadian wheat were reported sold to Europe from Vancouver during the week, with some sales also to the Orient. Considerable quantities of freight space were also reported taken for February-March shipments from that market.

A Valentine party was given for Donald Gooch, last Saturday, February 13, at the home of Mrs. Jennie Plummer. Silver and red hearts were used as decorations and small valentines as place cards. Ice cream and cake were served and little heart baskets filled with valentine candies were distributed to each child.

The invited guests were the Misses Betty Boyd, Betty Thomas, Marie and Marjorie Baker, Arlene and Annabel Deobald, Marie Sloan, Maxine and Jean Biglow, the Messrs. Lawrence, Jimmy, Stanley and Donald Kuykendall, LaVerne Kite, Dick Carlson, John Thompson and Dick Reed.

Several games were played, with Arlene Deobald winning first prize and Marie Sloan second prize. A good time was had by all.

Kendrick Wins

In a fast-running game last Wednesday evening on the home floor the Kendrick boys defeated the Culdesac squad by the huge score of 39 to 19. Both teams played well, but the fates seemed to be against the Culdesac team, and Kendrick kept the lead all through the game.

Kendrick Loses

Last Friday night the boys' team journeyed to Southwick. By the time they reached their destination they were half frozen—perhaps that is the reason why they lost. At any rate they were defeated by almost as large a score as the one by which they whipped Culdesac.

Rising Taxes and lowering cost of Electric Service

OUT of every dollar received from consumers by electric light and power companies in 1930, more than 10 cents was paid out again in the form of taxes.

From 1902 to 1930 taxes increased 200 per cent. In the same period, the cost of electric service decreased 55 per cent.

Increase in taxes as paid out of consumer dollar

1930	10.2 cents
1927	9.4 cents
1922	8.4 cents
1917	6.9 cents
1912	5.2 cents
1907	4.2 cents
1902	3.4 cents

Decrease in national average price of domestic electricity

1902	13.3 cents
1907	10.5 cents
1912	8.9 cents
1917	7.5 cents
1922	7.4 cents
1927	6.8 cents
1930	6.0 cents

There is a mistaken notion that taxes levied on business are actually paid for by business. When taxes are increased on dwellings they are passed on in the form of rent. When there is a sales tax on any commodity, the buying public pays. A tax on utilities likewise must be paid by the public.

● Through increased economies, through efficient management and wider use of electric service, the electric light and power companies, in spite of a tax increase of 200 per cent in 28 years, have been able to steadily decrease the price of domestic electricity.

Mother of 7—Still Young

THE woman who gives her organs the right stimulant need not worry about growing old. Her system doesn't stagnate; her face doesn't age. She has the health and "pep" that come from a lively liver and strong, active bowels.

When you're sluggish and the system needs help, don't take a lot of "patent medicines." There's a famous doctor's prescription for just such cases, and every druggist keeps this standard preparation. It is made from fresh laxative herbs, active senna, and pure pepsin. Just ask for Dr. Caldwell's syrup pepsin. Take a little every day or so, until every organ in your body feels the big improvement.

The next time you have a bilious headache, or feel all bound-up, take this delicious syrup instead of the usual cathartic. You'll be rid of all that poisonous waste, and you haven't weakened the bowels. You'll have a better appetite, and feel better in every way. The constant use of cathartics is often the cause of a sallow complexion and lines in the face. And so unnecessary!

Would you like to break yourself, of the cathartic habit? At the same time building health and vigor that protects you from frequent sick spells, headaches, and colds? Get a big bottle of Dr. Caldwell's syrup pepsin today. Use often enough to avoid those attacks of constipation. When you feel weak and run-down or a coated tongue or bad breath warns you the bowels need to be stimulated. Give it to children instead of strong laxatives that sap their strength. It isn't expensive.

Cameron folk join with the Leland townspeople in a joint observance of the bi-centennial birthday anniversary of George Washington, on February 22.

Tentative plans are for an all-day celebration with program presented by the schools and community organizations and a basket dinner at noon. All Cameron folk are urged to plan to take this day off and help in this celebration.

Two mid-year promotions were made as follows: Edwar Wegner was promoted to third grade and Helen Newman was promoted to the fourth grade.

NOTICE TO TELEPHONE USERS

Owing to the decrease in telephone rentals, we are compelled to make the following changes: That every non-subscriber pay 5c per call for all local calls; that it will be against the rules to call a subscriber and have them go and call someone in the neighborhood to the telephone. There will be messenger service available by calling the operator and a small charge will be made for this service. If you have no phone and must use one, go to the Central office. Place your call from there and do not disturb your neighbors.

There has been a large decrease in telephone rentals, owing to a large number having been discontinued, and we feel that rather than to raise the rental on the phones now in use, it is fairer to have everyone getting telephone service to help pay for the same. The government will not let the mail-carrier take your letters out to your friend without postage, even if it does not cost the government anything extra to do so; nor will the railroad let you ride free even if they do have a lot of empty seats, and they go down hill where it does not take any fuel. Then why should you expect to use the telephone equipment without helping pay for the upkeep of the same.

By non-subscribers, we mean persons not having a telephone in their place of business or in the residence where they live.

POTLATCH TELEPHONE CO.

Banks Be Closed Monday

In observance of Washington's birthday anniversary, both local banks will be closed all day Monday.
