KENDRICK COMMERCIAL CLUB HOLDS MEETING

The regular monthly meeting of the Kendrick Commercial club was held in the Raby Hotel Monday evening, dinner being served at 6:30, with 21 interested parties present.

After the tables had been cleared the business of the evening was taken up. Geo. P. Barnum, secretary of the club, being absent, E. H. Emery acted in his place.

Few of the committees had anything to report, special business taking up most of the time.

H. B. Thompson, chairman of the committee having in charge the mothers' and daughters' banquet, to be given in the Community church basement May 12, reported that everything was in readiness and that the affair promised to be a great success. Plans were being made for an attendance of 120.

Mr. Thompson also reported on the magpie contest and stated that it was moving along in good shape and that while no announcement had been made regarding the kind and number of prizes to be given the boys for their efforts, it was thought that everything would be in readiness for them by the next meeting of the club. The contest closes June 11.

It was decided to entertain the boys at a banquet at the next regular meeting of the club, as has been the custom for the past two years. Fuller information will be published regarding the prizes as soon as the Isaac Walton League of Moscow makes announcement.

The question of cleaning up and fencing the cemetery was taken up and discussed at some length, various plans being advanced for both fencing and putting the grounds in shape before Memorial Day. It was finally decided that both should be done. The village has agreed to give \$50 toward the work and it was thought that by asking those who have relatives there to donate a small amount (or as much as they pleased) toward the work, that it could be accomplished. It was also decided to let the Boy Scouts have a part in the work as they are needing money for uniforms and other expenses. Ed. Long agreed to go up and see that the grave-stones were straightened and put in place.

The question of retaining the night watchman was also taken up and discussed. It was decided to retain the night man until things had settled down a little more. A robbery at Genesee last week and one at Leland Saturday night, both of which have no night watchman, made those interested ask that the night man be kept on for a time yet, which request was granted.

It was also stated that the dirt back of the Community church and the Cook home was in danger of sliding down and the suggestion that it be taken away and used to fill the lots just back of Main street, belonging to the village, with the view in mind that later it may be planted to shrubs and otherwise beautified.

Other smaller matters were discussed during the evening—all for the good of the community.

Next meeting will be election of officers and we hope that every business man of the town will lay aside petty jealousies and prejudices and come out and start the new year with us, with the new officers presiding.

In another article in this issue the "Work of the Commercial Club" is discussed at some length and we hope each and every one will read it.

Bobby LaHatt Hit By Truck

What might have proven to be a very different story, turned out to be only a slight hurt, when Bobby LaHatt was hit by a truck while crossing the street in the west end of town. He was said to have been knocked down and was more scared than hurt, but it might have been a different story had he fallen under the wheels.

Whether the truck was traveling fast or not we did not learn, but it is a known fact that the west end of Main street has been made a short "speedway" for some time and as there are often many children playing in the street in that end of town, it is a wonder that some of them have not been badly hurt before now.

An Explanation

We are very sorry to state that we were unable to get further particulars regarding the life of Mrs. A. G. Wilson, who passed away Thursday, May 5.

Mr. Blackburn Improving

C. C. Blackburn, who has been quite ill for the past two weeks, is reported as somewhat improved at this time.

Entertained at Dinner

The home of Mr. and Mrs. Chas. McCoy was the scene of a very pleasant dinner party on Sunday, when they entertained Mr. and Mrs. Wy Weyen and family of Linden and Mr. and Mrs. Fred Schoeffler and family, Mr. and Mrs. Otto Schoeffler and family and Mr. and Mrs. Wm. McCoy and family and Mr. and Mrs. August Meyer, all of Cameron, Mrs. August Schoeffler and Mr. Miller, of Lewiston.

CITY LAYING NEW WATER MAIN ALONG MAIN STREET

Work was started on Friday of last week digging the ditch for the new six-inch water main to extend from the Deobald garage to the Dr. Geo. W. McKeever home, and coupling on to the new hill main put in about three years ago, a total of 1080 feet to be laid. The work is going rapidly forward and the work of digging will soon be accomplished, after which the pipe will be strung and the work of laying commenced. This will give a full six-inch pipe from the reservoir to the west end of Main street, which will give a materially higher water pressure. In addition to this new approved design fire hydrants will be put in and with the larger water main will permit the use of as high as three hose within two plugs.

The fire hose connections were all standardized and put in tip-top shape last fall by Marshal Long, the tools for the work being furnished by the Idaho Surveying & Rating Bureau. Every little bit helps in fire protection and Kendrick will be among the top for pressure and good outfitting.

There were a number of sizes of pipe in the old, discarded line, and this will lessen the fire hazard materially.

The Board of Trustees felt that this was the proper time to do this work, not only as a fire safe-guard and a means of badly needed improvement, but as a help to the unemployment situation. However, they were forced to confine their list to established residents in the town, with the exception of one or two instances where semi-trained labor will be needed.

The city water fund contained sufficient money to care for this work with no bonds being issued or no loans being asked.

INTERESTING ITEMS FROM JULIAETTA

Mother's Day Observed

Special union services were held Sunday morning in honor of Mother's Day. Mrs. Dora Pierce, 84, the mother of Juliaetta's Sunday school, was crowned with a wreath of flowers. Mrs. Pierce organized the first Sunday school in 1886, and was its superintendent for 13 years. It was held in a log cabin, still used as a wood-shed, on the John Draper farm. This was used until Juliaetta's first church, now the German Lutheran, was built.

"Grandma" Weatherby, 75, was also given flowers by the choir. A splendid program followed, with a basket dinner served at noon. Rev. George Benjamin of Palouse preached in the afternoon.

A large crowd attended the special Mother's Day program given by the young people of the Methodist church Sunday evening.

Lewiston Orchards-Juliaetta

Juliaetta again defeated the Lewiston Orchards team Sunday on the local diamond, with a score of 8-2. The locals bested the visitors in both strike-outs and hits, getting 12 strike-outs and 11 hits to Lewiston Orchards' nine strike-outs and five hits.

Batteries were A: Gruell and Carlson; Greps, Watson, Schlifer and Wagner.

Asotin will play here Sunday.

Improving Property

Marion Hanks is re-shingling his home this week. He has been papering, flooring and otherwise fixing the interior of the house.

Louie Huntsberger and Wilbur Larkin have been painting the fences surrounding their residence property on Water street.

Seniors Entertained

Mrs. Luna Deane entertained the Senior class at breakfast Sunday morning. Those present were Lillie Heimgartner, Ruby Spray, Thelma Spray, Xena Weatherby, Elden Heimgartner, Lawrence Heimgartner and Bill Denner of the Senior class and Alice Cochran and Agnes Eckermann.

High School Ball Games

The high school team went to Lapwai last Friday to play ball. They lost by a score of 23-18.

A return game was played here Wednesday afternoon, when the local boys won 23-5.

BOYS ARE DOING GOOD WORK IN MAGPIE CONTEST

There are now 18 boys in the magpie contest, mostly divided into groups, and they have brought in, up to Tuesday afternoon, 2446 magpie eggs and 147 heads; 15 hawk eggs and eight heads; six crow eggs and four heads.

There are several boys who are known to be gathering eggs who have not reported and it will behoove each and every contestant to do his very best because the head prize is as yet "anybody's prize."

Mr. Thompson says the boys are all enthusiastic and that he does not think half the eventual number of eggs and heads have been brought in.

These contests have proven more and more enticing to the boys of this section each year—and their efforts have saved many hundreds of game birds from destruction, from the egg stage to young birds, and they should be encouraged in every way.

The prizes this year, in addition to the one cent a head and egg bounty (on magpies only), will be fully up to the standard they have been for the past two years and the boys will be well repaid for their efforts—besides the real pleasure they get out of the spirit of rivalry.

The contest closes June 11.

The Big Egg Contest

The winner in the "big egg contest" being staged by the Gazette, will be announced next week. There have been many large specimens of "hen fruit" brought in thus far, but if you happen to have a big one on hand, between now and next Wednesday, you have a chance to get that six-months subscription to the Gazette, offered for the largest hen egg brought to this office. The contest closes next Wednesday, May 18.

Establishes Paper

Volume 1, Number 1, of the Kootenia Valley Sentinel, published at Bonners Ferry, by Richard L. Myers, has reached our exchange desk.

It is a nicely gotten up paper; both editorially and typographically and will undoubtedly do all for the Kootenia valley that is claimed for it. Mr. Myers is a newspaper man of some considerable experience and will be a great help to the community, as any good local paper is to any community.

We are glad to note that it is a real community paper and not published for the benefit of Spokane, under an anonymous heading, as so many papers throughout the Inland Empire are published.

A BIT MORE ABOUT ROADS AND POLITICS

In our paper of April 22 we discussed the bids for the so-called Cavendish-Kendrick road, concluding our article regarding the routing of the road with the following:

"Kendrick is with you from the word 'Go!'"

"This seems to be a battle of the Clearwater Timber company vs. the farmers and—well, 'Let's Go!'"

In their issue of April 29 the Elk River News gives their views on the situation as follows:

(From Elk River News)

The Kendrick Gazette must be misinformed when it comes out with a statement that "this seems to be a battle of the Clearwater-Timber company vs. the farmers and—well, 'Let's Go!'"

The timber company was not and never was for the routing of the Elk River extension of the North and South highway by way of the North Fork of the Clearwater or by way of Cavendish. BUT were in favor of a route termed farm-to-market road up the Cavendish grade. The only thing the timber company wanted was that when the contract was let for the work that it be specified that it be done by hand labor as much as possible to absorb as much of the unemployment as possible.

As far as the timber company taking any active part in designation of routes for the state, it is out of the question. And, anyway, if the Clearwater Timber company put up the \$32,000 of the money, shouldn't it be entitled to some consideration?

The News feels that the governor is spoofing on the Kendrick road announcement by giving it the name "Ahsahka-Kendrick," as he knows it will make the farmers of the Kendrick section feel they are going to get something, when in reality they won't.

The News has always been of the opinion that the Kendrick region needed a road badly to the ridge and is still in sympathy with the idea. But as to making it a through highway or a part of the Elk River extension, it is out of the question. It just isn't in the cards.

The News would like to ask this question, to be answered from anywhere in Idaho.

Is there a town of 690 population in Idaho that has not a surfaced highway leading to some through highway?

We would guess offhand that there is not. Elk River is, to the News' contention, the only town in Idaho of its size without a surfaced highway. Yet no one throws out the life line, although we have been up to our necks in mud for several years.

We are glad the timber company is in favor of a farm to market road system but feel that that system should reach the farmers. We say let this road cross from Cavendish to come down Waucher gulch, 1 1/2 miles east of Kendrick, thence across the ridge to connect either at Deary or Bovill and on to Elk River, which would put both towns on a surfaced road, to the mutual advantage of both. Should this road cross farther to the south it would hit far fewer farmers and would be in great danger of snow blockades for months of each year. Fighting snow costs money and lots of it.

We do not know whether or not Gov. Ross was spoofing us (actions speaking louder than words) but we do know that 2,000 and more votes hang on what he does or does not do in this section of the country. We want a road; we need it and we sincerely hope we will get it.

We are glad the News agrees with us that we need such a road. They too, need a road, but why not the routing suggested above. We can both benefit.

We agree with the News—we do not know of another town of 690 population in Idaho that has not a surfaced highway leading to some through highway—BUT we know of two towns, Juliaetta and Kendrick, totaling 894 population who have no surfaced highway leading to some through highway. We too, have been up to our necks in mud for years and can get no one to throw us the life-line.

Again we say "Actions speak louder than words". Time will tell what Gov. C. Ben Ross wishes to do, 2,000 and more votes hang on what he does—and every mother's son and daughter in this whole section of the country entitled to the vote will use it!

WHEAT MARKETS FIRMER FEED GRAINS IN DEMAND

Grain markets strengthened slightly toward the close of the week ending May 6, influenced by light offerings and some improvement in demand, according to the Weekly Grain Market Review of the U. S. Department of Agricultural Economics.

Wheat turned firmer with the advance in security markets and the sale of several cargoes of Canadian wheat to Russia. Feed grains advanced as a result of lighter marketing and a material improvement in the shipment demand for corn. Rye was independently active. Flax was weak and lower under the influence of more favorable conditions for seeding the new crop, slightly larger offerings and continued dull demand for oil and meal.

Domestic winter wheat made generally favorable progress during the week except in western Nebraska and the western third of Kansas, where prospects are still poor. Private estimates May 1 indicated an outturn about the same as was officially forecast from conditions April 1. Abandonment was placed at over 14 per cent. European wheat conditions were somewhat variable. Reports from Germany indicated winter killing somewhat below normal, with the condition of the crop May 1 a little above average. Cool weather retarded growth in France and northern and central Italy. Seeding of winter wheat proceeded with generally favorable soil conditions in Argentina. Weather was also favorable for fall seeding in Australia.

Spring wheat is getting a late start in both North America and Russia because of delayed seedings on account of wet soil. The moisture however, favors growth when the weather becomes warmer. The spring wheat crop in the U. S. made generally favorable progress during the week. Much of it was up to good stands and growing nicely in southern portions of the belt. Wet soil delayed seeding operations in Canada, but prospects for germination have been much improved throughout the prairie provinces. Seeding was well along at the close of the week in western Manitoba and southern Alberta, but just started in northwestern Saskatchewan and northern Alberta. Russian spring wheat seeding has been retarded by rains but is somewhat ahead of last season, when it was very late. In the lower Volga region and northern Caucasus the combined seedings totaled only 3,840,000 acres to April 25, compared with 3,983,000 acres last year and 10,958,000 acres two years ago to that date. Final spring wheat acreage in these regions totaled 12,815,000 acres last year.

European wheat markets were about steady during the week, with native wheats quoted slightly higher than a week ago at important Continental markets. A new Spanish decree, permitting a total importation of 100,000 tons of wheat, with the duty to be adjusted every ten days to conform to changes in exchange. Importation however, is subject to approval of the Ministry of Agriculture. Russia purchased five cargoes of Canadian wheat during the week for May and June shipment from Vancouver to Vladivostok. Black Sea shipments totaled nearly 600,000 bushels of wheat during the week, but included no Russian grain. Southern Hemisphere shipments continued of good volume, totaling 4,435,000 bushels from Australia. North American shipments were also fairly large and consisted principally of Canadian wheat. At the close of the market May 6, U. S. No. 1 hard winter was offered at Liverpool for May shipment at 60½¢, compared with quotations of Australian wheat afloat at 61¢, No. 3 Manitoba for May shipment at 60½¢ and Argentine Rosáfé at 56½¢ per bushel. Native milling wheat was quoted May 6 at Hamburg at \$1.78, at Paris at \$1.78½ and at Milan at \$1.67. Italian durum was selling at Naples at \$1.88 and at France, durum at Marseilles at \$1.59 per bushel.

Domestic cash wheat markets were mostly slightly firmer with futures, but were influenced also by lighter offerings. Receipts of winter wheat at the principal central and southwestern markets totaled only 1280 cars. Receipts at Kansas City dropped to 494 cars, with the protein of the inspections averaging 12.23 per cent. The average protein of the receipts for the crop year to date was 11.86 per cent, compared with 12.21 per cent for the same period last season. The smaller receipts met a more active and general demand, with mills,

SOUTHWICK SCHOOL NOTES

The Junior banquet was held last Friday night and was given in the form of a radio program. Warner Ziemann presiding as toast-master was Walter Winchell, announcing. The tables were decorated in daffodils, pink snap-dragons and tulips.

Saturday night practically all the grade pupils took part in the County Musical held in Lewiston at the high school. The program consisted of individual numbers and group numbers by the harmonica and rhythm bands.

A large crowd attended the Baccalaureate services in the gymnasium Sunday night. Following a preliminary service of local music Prof. C. W. Chenowith addressed the graduates on the subject of "The New Man." Warner Ziemann and Frank Triplett acted as ushers.

Monday the Senior class took their annual sneak. They went to Walla Walla and visited the Washington State penitentiary.

The final tests were given Tuesday and Wednesday. Edith Bateman made high grade in the fifth objective test in Civics.

Dr. Barton of the U. of I. will give the Commencement address on Thursday, May 12. We expect a chorus of singers from the U. of I. also.

A Closing Day picnic is planned for the whole community and the school. Everyone is invited to bring a picnic dinner and come.

In behalf of the faculty and student body of the Southwick school, we take this opportunity of thanking the Gazette for publishing our school items the past months.

John L. Woody Candidate

As stated last week, John L. Woody, a resident of American ridge for many years, and perhaps one of the best-known residents of this section of the country, has filed for the republican nomination for commissioner in this, the third district, subject to the primaries of May 24.

Mr. Woody has had a political career that has extended over many years, having served as commissioner for many years and also as sheriff of Latah County. He has been known as a fearless officer in whatever capacity he may have acted, and he is probably one of the best posted men on the needs of Latah county to be found and it is on his record of efficiency in the past that he asks the voters of the county to again place him in a position that requires knowledge and this same efficiency to pilot the county through the trying times yet to come.

STATE CHAMBER TELLS IDAHO TAX HISTORY

Law-making, as does most other governmental functions, comes higher these days than it used to. Every two years the legislature convenes, holds a 60-day session during which it makes, repeals and amends the laws that govern our daily lives. The cost of these sessions is borne by the public purse.

The cost to the tax payers of these biennial gatherings of state senators and representatives has practically doubled during Idaho's 40-year period of statehood.

Expenses incidental to the first legislature, which met in 1891, totalled \$500. The law-makers themselves received a salary at the rate of \$5.00 a day for their services. The secretary of the senate and the chief clerk of the house received \$7 per day; the assistants and the sergeant-at-arms received \$7 per day, their assistants were paid \$6. The doorkeepers and clerks received \$5; the janitors \$4; the messengers and pages, \$3; and the chaplains, \$2.

It is noteworthy that this is one of the few items of government in which expenses have not been increased. The salaries of senators and attaches of today re-

ceive practically, and in many instances indifferently, the same compensation received by the law-makers and their helpers of the First session.

Despite this, however, we find that a grand total of \$96,460 was required to pay the expenses of the 1931 session. In other words, it costs the tax payers of Idaho slightly more than \$1,500 every day, including Sundays, that the legislature was in session.

In considering the increased expenses of the legislatures it must be remembered that our present law-making body is much larger than that of 1891 and that government is a much more complex business.

First Session

In 1891 there were 18 senators, one for each county, and 36 representatives, making a total of 54 members in all. At present, each of the 44 counties has a senator and the number of representatives has increased to almost 80. From these figures it becomes apparent that the current legislature wage is more than twice as much as it was in 1891.

Growth of the legislature has been gradual. In 1895 the number of senators was increased to 21, and the number of representatives to 49. One more representative was added to the

list in 1903, and four years later two new counties necessitated two new chairs in the senate chamber.

Cause of Increase

The increase in the size of our legislature can be directly attributed to our increase in population and to the late penchant in government circles for creating new counties. Under the constitution, every new county means an additional senator and each group of voters totaling a specified number must have a representative in the house.

If our legislature, as some seem to believe, is too large and unwieldy, the matter can be remedied by an amendment to the constitution. There is already a move under way for the consolidation of counties that will, if successful, reduce the size of the senate.

There have been in recent years two extraordinary sessions of the state legislature. One was called by Governor Baldrige in 1930 to consider imperative matters relative to the state's highways. It cost \$12,000. The second special session was called by Governor Ross in 1931, immediately following adjournment of the regular session, to enact tax legislation. The appropriations for it totalled \$16,000.

TOWNS COMMIT SUICIDE — TRUER THAN IT SOUNDS

Towns do not die; they commit suicide. Take a town like Appleton City. If grocers would handle only local products the baker could hire another baker and another clerk and a vacant house would fill up. If a printing office could have all the work sent out of town, it would employ two more printers and two more house or apartments would fill up. If housewives did not buy from peddlers and mail order houses 12 clerks would be needed in the business district and 12 empty houses would fill up. If towns-people did not go to neighboring cities to trade, six more clerks would be needed, all vacant buildings would be occupied and six more houses would be filled.

If everybody who makes his money in his community would spend his money in that community his home town would double its population within a few years and everybody in and around it would be prosperous! —Appleton City (Mo.) News Journal.

Senator Hattie Caraway says the tasks of a Senator are "very taxing." The whole nation is becoming painfully aware of the fact.

CRESCENT CLIPPINGS

(Last week)

Most of the neighborhood attended the track meet at Southwick and some ribbons were won by the school children. A few stayed for the play presented in the evening.

The community picnic, held at the school house Sunday in honor of the teacher and pupils was well attended and a good time was had by all.

Miss Gropp and most of the school children enjoyed a hike and picnic dinner Friday, the last day of school.

Miss Zella Harris visited a few days with the Rose Farrington family.

Mrs. Earl Kulick spent several days with her parents, Mr. and Mrs. Axel Swanson. Her sister, Gloria, accompanied her home to Cascade when she returned.

(This week)

Mr. and Mrs. Claud Craig and Davida went to Lewiston Saturday. Bill Dorendorf and John Darby were Lewiston visitors Friday. While there Bill consulted a doctor. He has not been well since he had the flu, some time ago.

Mr. and Mrs. Albert Bailey of Moscow visited Mrs. Bailey's parents, Mr. and Mrs. C. L. Trail, Sunday. Mr. and Mrs. Trail accompanied them home for a visit.

Miss Geraldine Gropp left Saturday for her home near Clarkston after having taught the Crescent school the past year. School was out April 29, but she remained until she heard from the state examinations, so that she might help the seventh and eighth graders review for the May examination. The seventh graders all passed in physiology, but owing to the new kind of exams in geography and the eighth grade subjects, they are taking them again this week.

Ben Baker from Southwick was in last week to fix up the saw mill for John Darby. The mill started work Tuesday morning.

Mr. and Mrs. Birl Kloster of Lewiston are moving to their place here. They own the place formerly owned by Mrs. Effie Eaken.

shippers and elevator operators in the market for supplies. Premiums on the intermediate types strengthened slightly and at the close of the market, May 6, ordinary protein No. 1 hard winter was quoted at 51c to 53c. No. 2 hard winter sold at Omaha at 49c and No. 2 yellow hard at 50c per bushel. Local mills absorbed most of the offerings in that market.

Western mills continued to provide the principal outlet for wheat at the Denver market, but receipts were light and readily taken. No. 2 hard winter was quoted at 48c to 41c and high protein at 48c to 49c FOB eastern Colorado points. Export inquiry continued inactive at Fort Worth, but mill demand was fairly active, with medium protein No. 1 hard winter quoted at 60c to 61c delivered Gal-

veston export rate points. Hard winter wheat brought a premium of about 2½c over the soft wheat at St. Louis because of an active mill inquiry from that point. No. 2 hard winter was quoted in that market May 6 at 56c. Soft winter wheat was quoted at 53½c for No. 2 red, with demand only fair and principally from local elevators. Milling inquiry for soft winter wheat was also less active at Cincinnati. Most of the offerings at that market were going directly to elevators. No. 2 soft red winter was quoted at the close of the week at 52c to 56c per bushel.

Pacific Coast markets remained al-

most unchanged. Trading in the Pacific Northwest was dull and featureless, with demand light and offerings of small volume. While spring wheat seeding in Washington and Oregon was delayed, crop conditions were reported mostly favorable. Marketings remained light, receipts at Puget Sound and Columbia River terminals totaling only 339 cars for the week. Demand was quiet and principally from local mills. Exporters were not actively in the market because of the lack of export sales. One sale of 250 tons of wheat to the United Kingdom was reported at Portland, which was the first export business at that market for some time. Demand from California was slack with millers in that area taking only sufficient for immediate needs and feeders turning more to lower priced barley. At the close of the market May 6 Big Bend bluestem hard winter wheat was being quoted at Portland at 74c, soft and western white at 64c to 65c, hard winter, northern spring and western red at 63c, sacked, basis No. 1. Western white sold at Seattle at 65c, western red at 64c and bluestem hard white at 75c, sacked. The outstanding feature of the Vancouver market was the sale of five cargoes of wheat to Russia at prices around 13c per bushel under the Portland quotations. At the close of the market May 6, No. 1 Manitoba Northern was quoted at Vancouver at 64c and No. Manitoba at 60c, which is equivalent in United States currency to 57c and 53½c, respectively.

California markets were fairly steady but demand was of only moderate volume and principally for milling grades. Mills, however, were taking only sufficient wheat for current requirements. The flour trade was abnormal but mills were reducing stocks in preparation for the arrival of new crop grain early in June. Feed manufacturers were using stocks accumulated earlier in the season while feeders were using mostly low priced barley. Recent rains and favorable growing weather improved prospects for California wheat, especially late-seeded varieties. California wheat supplies are running very low and trade requirements were being supplied principally from Washington and Oregon. San Francisco wheat receipts during April totaled 8,531 tons, of which 7,011 tons were Northern wheat. Of the season's total at San Francisco of 114,720 tons, 101,579 tons were from Washington and Oregon. At the close of the market May 6, No. 2 soft white wheat, ordinary protein from Washington and Oregon, was quoted, delivered San Francisco, at \$1.25 to \$1.27½. Local No. 1 hard white wheat sacked was quoted at \$1.30 and No. 1 soft white wheat at \$1.22 to \$1.25 per 100. No. 2 hard winter, ordinary protein, from Texas and New Mexico, was quoted at Los Angeles at \$1.25 and No. 2 dark hard winter at \$1.35 to \$1.40 in bulk. Receipts of spring wheat were of only moderate volume, totaling 448 cars at Minneapolis and 121 cars at Duluth. A steady demand prevailed for cash wheat and high protein qualities were readily taken. At the close of the market, May 6, No. 1 dark northern spring were readily taken. Canadian spring wheat markets were firmer than domestic markets under the influence of liberal offerings and takers of Canadian wheat. May wheat advanced about 2c during the week and Winnipeg.

**COMFORT
for COLICKY BABIES**

... THROUGH CASTORIA'S GENTLE REGULATION

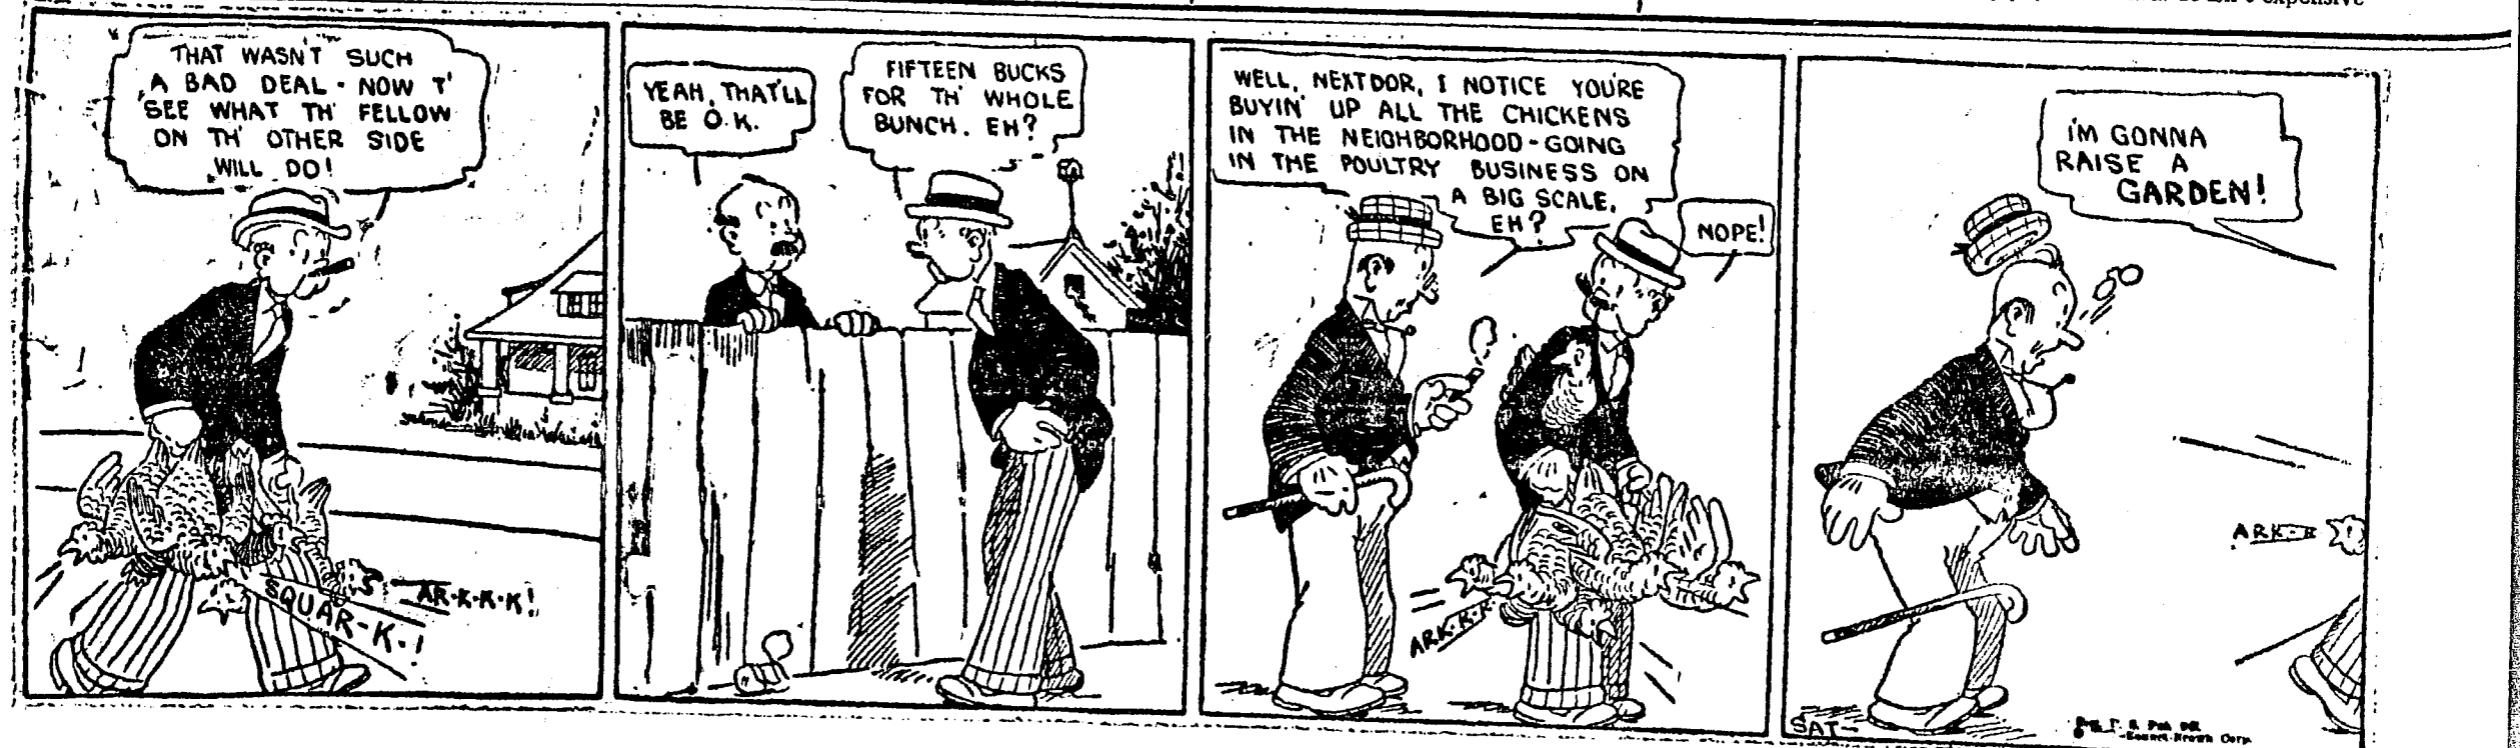

The best way to prevent colic, doctors say, is to avoid gas in stomach and bowels by keeping the entire intestinal tract open, free from waste. But remember this: a tiny baby's tender little organs cannot stand harsh treatment. They must be gently urged. This is just the time Castoria can help most. Castoria, you know, is made specially for babies and children. It is a pure vegetable preparation, perfectly harmless. It contains no harsh drugs, no narcotics. For years it has helped mothers through trying times with colicky babies and children suffering with digestive upsets, colds and fever. Keep genuine Castoria on hand, with the name:

Charles Fletcher
CASTORIA
CHILDREN CRY FOR IT

They've Never Tasted a Tonic!

THESE are not patent medicine children. Their appetite needs no coaxing. Their tongues are never coated, cheeks never pale. And their bowels move just like clockwork, because they have never been given a habit-forming laxative. You can have children like this—and be as healthy yourself—if you follow the advice of a famous family physician. Stimulate the vital organs. The strongest of them need help at times. If they don't get it, they grow sluggish. Dr. Caldwell's syrup pepsin is a mild, safe stimulant. When a youngster doesn't do well at school, it may be the liver that's lazy. Often the bowels hold enough poisonous waste to dull the senses! A spoonful of delicious syrup pepsin once or twice a week will avoid all this. It contains fresh laxative herbs, active senna, and pure pepsin, and does a world of good to any system—young or old. You can always get this fine prescriptive preparation at any drug store. Just ask them for Dr. Caldwell's syrup pepsin. Get some syrup pepsin today, and protect your family from those bilious days, frequent sick spells and colds. Keep a bottle in the medicine chest instead of cathartics that so often bring on chronic constipation. Dr. Caldwell's syrup pepsin can always be employed to give clogged bowels a thorough cleansing, with none of that painful griping, or burning feeling afterward. It isn't expensive.

The commencement exercises will be held in the Methodist church on Thursday evening, May 19. Rev. J. Edgar Purdy of Moscow, will be the principal speaker.

Kid Day

Razzle dazzle! Ain't this funny!
The Seniors act just like dummies.
They jump and eat and cry and pout.
Really I don't know what it's all about.

Lizzie with her great, big eyes,
Nona, with her doll that cries.
Lovick with his feet so bare,
And Dorothy, with her curly hair.
Clarence Hund is dressed up, too
Allie, Otto, and Lois Lou.
They act just like two year olds,
Or little bears with awful frowns.

The teachers think they're awfully
crazy,
And, believe you me, they sure look
hazy.
Ruby has a bright red bow,
And one can see Red's big toe.
Edna has a dress that's small,
Burneda giggles in the hall.
Jack's dressed up and looks a fright,
That's why he's hidden from sight.

Senior Version of the Sneak

Despite the glum predictions which the Juniors made for the Senior sneak a good time was had by all as the old saying goes. The real reason why the Juniors didn't follow us was that they didn't know we had gone.

We made the occasion an educational one as well as hilarious, by visiting the Lewiston mill.

Baccalaureate Services Success

The senior baccalaureate service, which was conducted in the Methodist church Sunday evening, was well attended. The church was beautifully decorated with lavender and white flowers, representing the class colors. We seniors wish to thank those people who helped with our program.

Jokes

Otto: Television will soon be here.
Lovick: Yes. And just think what a nuisance it will be to shave before you answer the telephone.

Parent-Teachers Meeting

The Kendrick Parent-Teachers association will hold its last meeting of the year in the school gymnasium next Monday evening at 8 o'clock.

A program of music by the High School orchestra and Glee club has been arranged, with Miss Newman of the high school faculty in charge. In connection with the meeting, there will also be a school exhibit. Articles constructed by students in the domestic science, manual training, typing, English and history classes of the high school will be on display. In addition to this, each of the lower grade school rooms will display work done during the year.

In addition to the exhibit and program, matters of vital interest to patrons and parents will come before the meeting.

Everyone interested in the school is urged to attend.

Have Built Boat
Joe Watts and Roy Long have built and launched a second "Leviathan" on the Potlatch, the runway having been built near the Kendrick Rochdale warehouse and the craft is now gracefully floating on the classic waters of the creek (when they keep it bailed out). The launching grounds were visited Tuesday afternoon and the craft was right-side up all right, but looked as though it was badly in need of a bilge pump and a hair-cut—but it was mostly floating, all right, and that is said to be the main thing about a boat.
Just when the trial trip will be made was not learned as the boys seemed to be somewhat pre-occupied and did not care to be interviewed.

LOCAL BOY SCOUTS DO THEIR "GOOD TURN"

One of the teachings of the Boy Scout organization is to "do a good turn daily." The local organization, under the guidance of Everett Frazer, scoutmaster, Rev. Smith and E. H. Dammarell, all did a good turn for the village Tuesday evening when they gathered at the town lot, near the depot, and, with the aid of Mr. Frazer's team and wagon, removed all the rock from the lot, making a vast improvement in its appearance.

These youngsters expect to keep right on doing their good turn and later hope to be able to help plant trees around the village property and help to beautify it.

The boys should be encouraged in every way—not for the work that can be gotten out of them while doing their "good turn," but because there is no more worthy movement than that of Scouting—and there is a nice lot of material here to make good Scouts out of.

The following boys assisted in the work Tuesday evening: Junior Ramey, Garth Hill, Wayland Davis, Harold Abrams, Franklin Abrams, Karl Emery, Elmer Emery, Tommy Keene, Paul Dammarell and Keith Dammarell.
