The Afternoon Bridge club was very pleasantly entertained Thursday afternoon of last week by Mrs. A. K. Carlson, when the game was played at the usual number of tables. High score for the afternoon was won by Mrs. W. J. Carroll. A dainty lunch was served after play.

Train Travel Increasing

R. H. Ramey, local agent for the N. P. Railway company, states that since the reduced fares have gone into effect train travel has increased very materially and that he is selling more tickets than at any time for many months, with the exception, perhaps, of the one-cent rate fare during holiday excursions.

Work is the world's richest gold mine.

Match Block Plants Start

The Federal and Ohio match block plants just east of Spokane have resumed operations on a definite part time schedule and the Diamond Match will resume February 13. All three of the mills hope to be operating on full time by next month.

This is one of Spokane's largest industries and most satisfying in that these plants supply virtually all the match blocks produced in the United States.

The town team of basket-tossers will play the Snake River Pirates at the local gym on Saturday evening, February 18, at 7:30.

TEAKEAN GOSSIP

Mrs. Joe Choate and Mrs. Edgar Weakley called on Mrs. Wm. Groseclose one day last week. They made the trip on skis.

The Huffman and Carey families are able to be about again after a siege of flu.

L. Clanin has his pump in good working order once more. It has been giving trouble for several weeks and part of the time refused to work at all.

Mrs. Lethco Reece and Mrs. Avery Miller have been carding wool for quilts this winter. Mrs. Reece has completed nine quilts and Mrs. Miller, eight.

Mr. and Mrs. Pete Olsen and family spent Sunday visiting with Mrs. Olsen's sister, Mrs. Wajciehowski at Ahsahka.

Cecil Huffman, Alden Carey and Arlos Wells are hauling post timber from the east woods.

Cecil Choate and Sven Frederickson are making shakes up on the mountain. They go to their work on skis.

Carroll Groseclose came home on Monday from Sweetwater, where he had spent a couple of weeks with his brother Bruce, and wife. Bruce and his wife came home with him for a few days visit. Marvin Ingram, of Willamette, Oregon, is with them. He has been visiting with them at Sweetwater for some time.

Arlos Wells of Cavendish is staying with his aunt, Mrs. F. Carey.

Rebekahs and Husbands Entertained

The members of the Rebekah lodge and their husbands were delightfully entertained Tuesday evening by a committee consisting of Mrs. Frank Ellis and Mrs. Mary Adams.

Bridge and pinocle were played. Delicious refreshments were served at the close of play.

Wax-Wings, Robin and Pheasant

That some of the birds, at least, have very evidently been fooled by reports of Spring being "just around the corner," is evident by the fact that already bluebirds have been seen in this vicinity and on Tuesday morning, while the mercury was hovering around the zero mark, or slightly above, a lone robin was discovered sitting in a very cold and bare tree, very much "fuzzled up," trying to keep warm. At the same time a large flock of wax-wings were getting their breakfast from locust seeds.

Monday morning a large Chinese pheasant rooster walked slowly across the street and entered the E. H. Dammarell yard, where he crawled under a bunch of old flower stalks and made himself comfortable for some time.

While we haven't much faith in these "harbingers of spring" signs, it is evident that some of the birds, at least have been misled about the weather.

Roosevelt Americanization Plan

President-elect Roosevelt cast his eyes at the Ohio and Arkansas watersheds as the next step in his new Americanization ideal he will try out in the Tennessee river area.

He told newspaper men that if his plans for spreading population and employment by reforestation, flood control and agricultural development in the Tennessee section prove up he will be ready to go ahead on other projects.

The president-elect believes it will be three or five years before a good test can be measured on the Tennessee proposal, but if it "proves" he is willing to go ahead on others without waiting for full completion of the whole proposition. Ten or twelve years for completion are believed necessary.

New R. F. C. System

A new system of report has been evolved by those in charge of the management of the R. F. C. relief work for the various communities receiving benefits.

The local chairmen are now required to make a full and complete report of all activities to the chairman at Moscow; he in turn makes a similar report of the county to the state, and the state to the national headquarters, therefore placing the entire activities of the sections served before the national headquarters, giving them a complete compilation of all activities throughout the entire country.

This Is News

It is said that when a dog bites a man, it isn't news, but when a man bites a dog, that's news—so is the following item:

"Wanted: A fighting cat with a lion's heart. A large, insolent rat has been prowling a grocery store at Goldendale, Wash. A cat was put in the store during the night. The next morning the cat, bitten and clawed, was found dead."

This is likewise news:

An item appeared the other day wherein it was stated that a bull had thrown a congressman.

Just Try Some
Continuous advertising like continuous work is most effective. If there is any enterprise in the world that a quitter should leave severely alone it is advertising. Advertising does not jerk, it pulls. It pulls in very gently at first, but the pull is steady. It increases day by day, year by year, until it exerts an irresistible power. To discontinue advertising is the same thing as taking down your sign. If you want to do business, you must let the public know it.—John Wanamaker.

Southwick Defeats Kendrick

Kendrick suffered defeat at the hands of Southwick last Friday, February 3, by a score of 24-25 in a fast game at Southwick. The game was a hard fought one from start to finish. The score at the half was 8-15 in favor of Southwick, but the local boys came back strong in the last half to even the score and take the lead in the last minutes of play. Hoduffer sank a long one shortly before the gun however, and Triplett cinched the game with a free throw. Hoduffer was high for Southwick with 7 and Emery for Kendrick with 8. A large crowd was in attendance. The lineup was as follows:

Kendrick 24		Southwick 25
Long 0	F	6 Triplett
Emery 8	F	2 Armitage

WHAT MARKETS BARELY STEADY—FEED GRAINS DULL

and Columbia River terminals totaling only 414 cars for the week, compared with 765 cars for the corresponding week last year. With prices at Vancouver from 3c to 4c below comparable quotations at Portland, no export business was possible during the week. California buyers were mostly out of the market and inquiry from local domestic mills was less active. At the close of the market Feb. 3, bluestem hard white was quoted at Portland at 53c to 54½c, soft white, hard winter and northern spring at 44½c, western red at 43¾c, western white at 42¾c, basis No. 1. California markets were quiet and slightly lower. Offerings of local wheat were slightly larger, but mills were supplying most of their needs from Washington and Oregon. Of the 12,127 tons received at San Francisco during January, all but 1,060 tons were northern wheat. Of the season's shipments to date, 55,731 tons, 45,556 tons was northern wheat. This compared with total receipts during the corresponding period last year of 89,923 tons of which 80,909 tons was northern wheat. The flour trade of the Bay region area was fully up to normal but mills are using accumulated supplies and limiting new purchases to high protein types to complete milling mixtures. Inquiry for feed wheat was very dull with dealers and industries using previously purchased grain or cheap feed barley. Soft winter wheat marketings were very light and arrivals at the principal markets were below trade needs. No 2 soft red winter wheat was quoted nominally at Kansas City at 44¼c to 47c and at Chicago at 50c per bushel. Intermountain wheat markets held about unchanged with offerings very light. Receipts at Denver totaled only 8 cars with arrivals during the entire month of January amounting to only 62 cars, compared with 276 cars received during January, 1932. Considerable quantities of wheat, however, arrived by truck during January with from 50 to 70 cars of such grain coming from Nebraska and fair amounts from Kansas. Practically all of the arrivals by rail and truck were taken

A new office of Pep Critic was created upon motion of Maxine Keene, and Miss Newman of the faculty was elected to this office. Following are the officers:

President, Ralph Blevins; Roy Long, vice president; Hazel Reid, secretary; Lawrence Schwarz, treasurer; Karl Emery, student manager; Kathryn Emery, student rpr.; Doris Crocker and George Davidson, yell leaders; Mrs. Lightfoot, critic; Miss Newman, pep critic.

Student Opinion

Second semester officers were elected on Thursday, Jan. 26, a total of ten officers being elected at large in the student body, but it would seem that the officers elected should at least have their student tickets. There is a clause in the Constitution that says in order to hold office one must pay all dues or assessments levied by the student body. Student tickets fall under the classification of dues and assessments. At the election officers were elected who do not have their season tickets, and it would seem that these officers should buy their tickets or resign.

WHAT THIS COUNTRY REALLY NEEDS

"We do not need more Law, we need more religion."—Calvin Coolidge
We'd surely have a job on hand to follow all the "Leads" And listen to suggestions as to what this country needs. The remedies are pouring in, they come from near and far. One wag suggests that what we need is a good five-cent cigar. But ah! the times are serious, it is no time to joke. But welcome any remedy to end depression's yoke. When Israel in the days of old was "smarting 'neath the rod" The Prophets cried, "There's no relief, till you return to God." And so I've just been thinking (I say it with all grace). I wonder if our country's plight is but a similar case. Then if it is, "America" should change her aim and goal, Should rid herself of grafts and crime and "purify her soul." Her populace are sinners all (and here I'm getting bold), We've spurned our Great Creator and worshipped gods of gold. Religion's what this country needs, in office, home and state, 'Tis Righteousness, not piles of gold that makes a country great. Believing then that Calvin's right, I send this word abroad Prosperity will come again, when folks turn back to God. —John Dale Kempster.

Many Delinquent Taxes

A statement from County Treasurer Leola R. King states that more than \$77,000 in taxes are in arrears—the exact sum being \$77,159.66 this out of a total tax of some \$250,000. Under these circumstances it is probable, county officials state, that it may be necessary to issue some county warrants after next June.
