## COMMERCIAL CLUB HOLDS REGULAR MONTHLY MEET

While the attendance at the Commercial club meeting Monday evening was about the smallest it has ever been, yet there were many, important and interesting subjects handled. Dinner was served at 6:30, after which the business of the club was taken up.

After the minutes of the previous meeting were read and approved, reports of the various committees were called for, the first of importance was that of the committee appointed to look after the filling in and planting of trees on the village lots along the railroad, and it was reported that some 30 loads of dirt had been taken from the school property on the hill and put on the lot and that more dirt would be taken from behind the Methodist church and hauled to the lot, which would help very materially in the program as outlined for the improvement of the property. It was also reported that practically all holes had been dug for the setting of 18 trees around the edge of the lots. This work will be completed and the trees planted just as soon as the hauling of dirt has been completed. The village is paying for the hauling of the dirt and the work is being handled by the R. F. C. committee.

It was mentioned at this time that George Leith had done much toward the improvement of his and other lots lying east of the village lots by planting many trees and caring for them. He was at this time commended by the club for his work in helping beautify a part of town that would otherwise be an "eyesore," as most all such places along railroads are.

A communication from the Izaak Walton League, Moscow, that Latah county did not have and would not have, a game warden unless pressure was brought to bear by the sportsmen of the county was read and asked that the matter be taken up by either the Commercial club or the sportsmen of the community. It was stated at this time that C. G. Compton, living below town, had been appointed a deputy game warden by the state last fall, to trap beaver that have dammed the outlet of a slough, continuously, for the past several years and that he had the persistent little dam-builders under control.

The matter of holding a magpie contest was also brought before the meeting. The Walton League of Moscow, which has heretofore given prizes to contestants, stated they were not sure they would be able to do so this spring as their funds were tied up in a Moscow bank, the opening date of which was uncertain. However, a statement was made by Amos Eckert, state game warden, when seen at Moscow, that the state would again pay a bounty on magpie heads and eggs and the boys who intend taking part in the contest can get busy at any time. In some of the warmer canyons the magpies will soon begin nesting—and this is a chance for some of the boys to make a nice piece of pocket change. Announcement will be made next week as to who will have charge of the contest.

A report was received that squirrels were quite thick in the local cemetery and the club was asked to assist in some manner in their destruction, the information being furnished by Mrs. Leonard Wolff. An effort will be made to rid the grounds of the rodents.

The following letter was sent to Gov. C. Ben Ross regarding the rebuilding of the road between here and Arrow and the construction of the road over Big Bear to Deary:

"In anticipation of the passage by congress of the \$500,000,000 relief bill, of which Idaho will get a portion, we are very much interested in our Arrow to Deary road and hope you, knowing the dire need of a new grade from Kendrick over Bear ridge, will see fit to appropriate enough from this fund for this purpose. This project can be used for the relief of distress in our community very advantageously. Our entire Commercial club are behind this proposal, as well as all citizens in this community."

The new state school law was discussed at some length, following a report by Herman Schupfer, who had attended a meeting of school officials at Moscow. The law is somewhat complicated and there seems to be many things missing from it that might be desirable. It affects every school district in the state.

## Weather Man All Balled Up

It is very evident that something will have to be done about our weather, and it is also very evident that we should have a new weather clerk. The Kendrick section was visited Sunday night by a real winterish snowstorm that deposited some three inches on the surrounding ridges and a ground-covering in the canyon, but by Monday evening there were few traces left. However, Tuesday morning the same program was put on—snow covering the entire countryside, but only very lightly and within a few hours was entirely gone. It's a freak bunch of weather for this season of the year, to say the least.

They say that "April showers bring spring flowers," we hope that the showers show up pretty soon, we have had enough winter and could do with a little more sunshine.

## GAZETTE WILL AGAIN SPONSOR BIG EGG CONTEST

As has been our custom since coming to Kendrick—and long before—we will again sponsor a big egg contest and will give a six-months subscription to the Gazette for the largest egg brought to the office during the next 30 days, the contest ending May 15.

There is no restriction as to how many eggs may be entered and the only requirement to obtain the six-months subscription to the Gazette is that you bring to this office within the next 30 days the largest egg. Of course the contest, as in the past, is confined to hen eggs.

The first entry is that of Minnie Blankenship, who entered a Rhode Island Red egg of sizeable hize. We will not give the measurements of any of the eggs until the close of the contest.

So come on folks, watch for and save the big "cackle fruit" you get and bring them in—who knows but what you will win?

## High School Receives Good Rating

Kendrick High school received an excellent rating this year, according to the Idaho high school inspector's report, received by the school directors of this district from P. H. Soullin, state high school inspector. Full four-year accreditation was renewed for the ensuing year.

Favorable comments were made concerning the administration and supervision of the school, particularly in the organization of the curriculum and the arrangement of the periods. Good reports concerning the classroom teaching, financial management, and the extra-curricular program were also submitted. Community cooperation with the school was listed as considerably above the average and the care of school property was reported as good. "A constant improvement of school conditions is in progress," the report stated.

## Steelheads Are Running

Steelheads were running in the Clearwater river Sunday and great sport was afforded anglers at the dam.

Floyd Finnell made the prize catch of the day by landing one weighing 19 pounds. Others were taken by George Mills, William Brummond and M. Staples.

Deputy Game Warden Walter Harris said he expected the run to be heavier henceforth, and that plans are being made to erect fish traps at the head of the ladder at the dam to take spawn from captives.

## Had Fine Rabbit Stolen

While nursing his wrath, Quentin Dammarell was also mourning the loss of one of his fine Chinchilla rabbits, which some thief had lifted from its hutch Sunday night. Quentin was very proud of his rabbits and prized them highly and it was a "dirty trick" to say the least.

## Slide On Lewiston Road

A slide of dirt, clay, muck and rocks came down the clay point between the C. G. Compton and Grant places on the Lewiston road about 7:30 Wednesday night, blocking the road.

The slide was 25 or 30 feet long and filled the road to the level of the top of the guard fence on the outer edge of the road. At the time of going to press the highway crew and machinery and the R. F. C. crews were busy cleaning the road, but so far we have not learned just when it is expected to have it open.

## VOLLMER BANKS TO RE- OPEN IN SHORT TIME

Plans for reopening the First National bank of Lewiston and its eight affiliate banks in the region on an unrestricted basis "in the reasonably near future" are taking definite shape, it was announced Monday night by Arthur E. Clarke, president, according to the Lewiston Tribune of Tuesday morning.

Mr. Clarke returned Sunday morning from San Francisco where he had been for a conference with the chief national bank examiner and federal reserve bank officials.

Mr. Clarke said that "the reopening of the First National bank and the other Vollmer banks will be along sound lines as defined by the new administration and it will be brought about at the earliest possible moment."

"Work looking to reopening of the banks has been carried on night and day," he commented. "Thus far we have avoided naming a specific date for reopening and it is well that we have done so, but we have reason to believe now that it will be a matter of a very short time."

Mr. Clarke said that the assets of the Vollmer Security company, formerly the J. P. Vollmer estate company, have been offered to facilitate the reopening of the banks under plans formulated by the comptroller's office "and which plans will naturally have the stamp of government approval when accomplished."

Examination of the bank has been completed by R. E. Palmer, Boise, federal bank examiner, and he has sent a preliminary report to the comptroller at Washington, D. C. Mr. Palmer is still in Lewiston completing his full report of the bank's assets.

State banks in the First National group have received permits to reopen on unrestricted basis when the Lewiston bank resumes business. These affiliated banks are the State Bank of Clarkston, the Bank of Asotin County at Asotin, First Bank of Genesee, Farmers Bank at Kendrick, First Bank of Culesac, Bank of Reubens, Craigmont State Bank and the First National bank at Grangeville.

## Nearly Half Million Gold

During the past nine months \$362,050 in gold has poured into the Boise assay office and the staff predicted it would exceed a half million by the end of the fiscal year, July 1.

If this amount is reached, it will be more than double that taken during the preceding 12 months.

Of the sums received up to March 31, 58 per cent came from prospectors turning in less than \$100 worth at a time.

Only nine per cent came in deposits of over \$1,000.

Part of the increase was attributed to a better water supply in 1932 than in the preceding year, facilitating both small and large placer operations.

Old time operators came in with the bulk of the small deposits although amateurs out for their first time brought in considerable.

Gold has continued to trickle in during the winter, principally from the Boise basin and along the Snake river.

## Are Buying Beans

Both the Kendrick Rochdale and the Kendrick Bean Growers association report the purchase of several hundred sacks of beans during the past week.

The Bean Growers association reports the purchase of 1,000 bags and the shipment of several hundred bags to various points.

The Rochdale company reports the purchase of between 1200 and 1500 bags and the shipment of several hundred bags.

In both instances the price paid was \$2.00 per 100 pounds.

It is reported that beans are becoming rather scarce in this section of the country and those farmers who still have them are willing to take a chance on holding for a higher price.

## Sawmill To Be Reopened

The sawmill at Pottlatch of Pottlatch Forests, Inc., resumed cutting Monday for a short run and employment will be furnished from 75 to 100 men, it was announced Monday.

The mill had been shut down for some time but shipments from the plant continued. Otto Leuschel, assistant manager, will be in charge.

## INTERESTING NEWS ITEMS FROM JULIAETTA

## Odd Fellows To Asotin

Several auto loads of Odd Fellows went to Asotin, Wash., Monday night, where they attended a meeting of the order. These excursions have been made from time to time by members of the local lodge to various communities and cities. They reported a very pleasant time in the Washington city.

## To Test Idaho Law

Down in Jerome county authorities last week had J. Howard Speer, Twin Falls cafe owner, arrested for the sale of two bottles of "near beer" to test the validity of a state supreme court decision which stands in the way of the sale of 3.2 beer in Idaho. On the decision of this case will rest the fate of the sale of beer within the state until the law is repealed by the next legislature—which is almost certain.

## HIGHLIGHTS OF THE WEEK'S NEWS DISPATCHES

President Roosevelt reached out for the president gold hoarders with a formal order providing penalties after May 1. Virtually all persons holding more than \$100 in gold or gold certificates were directed by the president to turn their supply over to the federal reserve system or face a maximum penalty of \$10,000 fine or ten years imprisonment, or both. The president acted after a conference with Secretary Woodin and Director Douglas of the budget.

To capitals of 11 great nations there sped invitations from President Roosevelt for their chiefs of government to join him at the White house in friendly conversations seeking the contributions each nation can make toward the bettering of world conditions. Bidding for the support of the most powerful figures in the foremost nations in each part of the world, the president through the state department added Germany's Adolf Hitler and Italy's Benito Mussolini to the list of famous statesmen invited here to prepare ground for the momentous London economic conference this summer.

Bearing tacit administration approval of its principle, a sweeping bank reform bill based on the Glass banking bill and providing for a \$2,000,000,000 corporation to guarantee federal reserve member bank deposits one hundred per cent will be submitted to congress this week. "This bill is not in any sense a government guarantee plan," he added, explaining that the \$2,000,000,000 corporation would be formed with an initial capital of \$500,000,000, along the line of Senator Glass' proposal which died in the last congress. His bill called for creation of a corporation for the liquidation of the closed banks.

Death—now seven days away—was not halted in its approach to Winnie Ruth Judd, confessed slayer of two women in the so-called "trunk murder" case. Her counsel's effort to obtain for her a new trial for the murder of Agnes Anne LeRoi met an abrupt end in the same courtroom in which she was found guilty before the judge who sentenced her to die.

The golden flow of beer sweeps on, washing millions of dollars into government coffers, creating thousands of jobs for the unemployed, and leaving many a brewery vat empty. A survey of taxing offices in the 20 states and the District of Columbia in which the new 3.2 brew was being sold indicated more than \$10,000,000 had been collected by municipal, state and federal taxing bodies. The editor of Brewery Age estimated 1,000,000 to 1,500,000 barrels of beer had been sold in the nation, with the federal government reaping close to \$7,500,000 in two days.

## Briton Makes 18-Day Speech

Not to be out-done by windjammers in the U. S. senate, Sir William Jowett spoke for 18 days in a London court of appeals in opening a case before the king's bench. The barister spoke for more than 90 hours—five hours a day for five days a week.

We hope he never gets into the U. S. senate. It might start some of our own windjammers out to show the London lawyer that he is just a piker.

## Parents of Son

Mr. and Mrs. Harry Smith of Leland are the proud parents of an 8½-pound son, who came to their home on Friday, April 7, for, it is hoped, a long, long stay. Mother and babe are reported as doing nicely.

## DOMESTIC GRAIN PRICES HIGHEST FOR SEASON

Domestic grain markets remained independently firm during the week ending April 7 and prices of most grains advanced to new high for the season, according to the Weekly Grain Market Review of the U. S. Bureau of Agricultural Economics.

Further deterioration in winter wheat, pending farm legislation and a more active cash demand were the principal influences. Wheat advanced 3c to 4c per bushel under an active milling inquiry which reflected the increase for flour. Rye was higher with wheat, corn and oats up 2c to 3c per bushel with feed and industrial demand the most active for the season. An active inquiry for malting barley strengthened the market for that grain and prices made further advances. Flax advanced principally as a result of the higher prices for other grains since the oil market remained weak and crusher demand was not active.

Domestic cash wheat markets continued to advance during the week with offerings only moderate and mills active buyers of milling lots. Receipts at the principal central and southwestern markets totaled only 785 cars compared with 1,258 cars during the previous week and 1,189 cars during the corresponding week last year. Growers were holding their grain on the advancing market and because of poor crop prospects. Current offerings were readily taken at prevailing quotations. At the close of the market April 7, No. 2 hard winter wheat was quoted at Kansas City at 53c to 54c. Wheat stocks at Omaha were further decreased by fairly heavy shipments to St. Louis and Kansas City and to nearby mills.

High protein wheat was in good demand and No. 2 hard winter, ordinary protein was quoted at 51½c. Premiums on cash wheat were increased about 1c per bushel in Chicago in addition to the advance in future prices. Mills and shippers were the principal buyers. No. 2 hard winter was quoted April 7 at 59c per bushel. No. 2 was quoted at St. Louis at 60c per bushel. This represented an advance of about 4c per bushel at the latter market under a good local milling demand for the reduced offerings. The Fort Worth market advanced along with other points and No. 1 hard winter was quoted at 65½c to 66c, delivered Texas common points. Receipts were light and mills were filling requirements from local storage stocks.

Pacific Coast prices were 3c to 5c higher, reflecting strength at eastern points and a more active local demand. Domestic mill demand continued to improve at Portland and Seattle and was principally responsible for a strong cash situation. Inquiry from California buyers was also increased but no export business was possible at prevailing prices. The recent advance in wheat was reflected in larger country marketings and receipts at Puget Sound and Columbia river terminals totaled 478 cars for the week compared with 235 cars for the corresponding week last year. 35,000 bushels additional arrived at Portland by river boat. Shipments from Puget Sound and Columbia river terminals continue below last season and totaled only 2,389,000 bushels during March, bringing this season's whole total to 21,956,000 bushels compared with 47,262,000 bushels for the corresponding period last year. At the close of the market April 7, Big Bend bluestem hard white was quoted at Portland at 64c to 65½c, soft white at 58c to 59c, western white at 55c to 56c, hard winter at 57c to 58½c, northern spring 56c to 59c, western red 55c to 56c and dark hard winter 63½c to 64c per bushel, sacked, basis No. 1. Baart hard white wheat was quoted at Seattle at 66c, western red and hard winter at 60c and western white at 58c per bushel, sacked, No. 1 wheat.

California wheat markets advanced 7½c to 10c per 100 and reached a new high point for the season. The strength in outside markets was principally responsible for the advance at San Francisco and Los Angeles but a strong holding tendency on the part of California growers was also a strengthening factor in the local situation. Sacramento valley growers were asking \$1.00 per 100, warehouse receipts basis, which was 5c to 10c under current terminal quotations. Receipts at San Francisco during the month of March totaled 10,500 tons, only 200 tons of which were local wheat.

## Renewed Confidence

Under date of March 27th the Commissioner of Finance, Boise, Idaho, granted this bank the privilege of taking new deposits — allowing the depositor the privilege of checking against these new deposits, clearing checks, and in a general way provide for the banking needs of the people as far as new business will permit.

We are able to offer you the protection of the Federal Reserve Bank for funds deposited, and we assure you it is our wish to be of service to this community in so far as it is possible.

Many have already taken advantage of this privilege and we are more than pleased with the feeling of RESTORED CONFIDENCE, GOOD WILL, and the CO-OPERATION of the public in this program.

 Typists—Rowena Ramey and Nettie Mae McDowell.  
 Advisor—Supt. E. B. Brigham.

**Junior Play a Success**  
 A large crowd attended the Junior play presented at the theatre last Friday night. The play, "Be An Optimist," was well presented and was full of thrills and excitement from start to finish. About 165 people attended with a total gate receipts of \$46.65. The expenses amounted to \$22.25, which left a total profit of \$24.40. This money will be used to finance the Junior Prom.

**Juniors Prepare For Prom**  
 As the Junior play is over, the class has turned their attention to the annual Junior Prom, which will be given on May 5. As yet no orchestra has been chosen to play for the occasion, but plans are being made to secure Chief White's dance band of Lapwai. The Juniors intend to use an original scheme of decorating, much different from that of previous years. They expect to begin work soon in order to have ample time to complete all decorating.

**Seniors Work On Play**  
 The Seniors have been working hard on their play, "Tea Toper Tavern," which they intend to present April 28. Most of the cast know the third act and practice on all three acts will begin soon. Mrs. Carroll, director, is well pleased with the progress of the cast thus far.

**Senior Letter Up**  
 The Seniors put their letter up last Monday night with practically no trouble. The Juniors came into the Senior camp about 1:30 and were given a hearty reception. Most of the time was spent in shivering and trying to keep warm, as the night was rather chilly. Good sportsmanship was shown by both classes.

**Weather Interrupts Athletics**  
 Bad weather conditions have held up the athletic work this week, with little practice being possible. On such nights the boys play indoor baseball in the gymnasium.

**Girls Playing Baseball**  
 The high school girls have started playing baseball under the supervision of the girls' athletic coach, Miss Ferguson. So far those turning out have been only Freshmen and Sophomores, but now that the Junior play is over the Junior girls have been turning out. The girls are taking an active interest in the sport.

**Biology Students Making Posters**  
 Students of the biology class are constructing posters on which they will mount specimen of various kinds of flowers, leaves and grains that are grown in and around the region of Kendrick. The completed posters will be put on exhibit May 15. Many other classes are beginning work on exhibits that will be displayed at this time. All the work is being done in addition to the regular work of the classes.

**Orchestra May Get Uniforms**  
 Thursday, April 6, the advanced orchestra class held a business meeting in which it was decided that the members will have uniforms in which they will make their last appearance this term. Various styles and appropriate colors were discussed and voted upon. It is being suggested that orchestra emblems shall be awarded to the students, however, this must be presented before the student body and voted upon before they can be awarded.

**Grade School News**  
 The first grades are reading in their first reader.  
 Last Wednesday the First and Second grades gave a Holland and Spring program. Fifteen of the mothers came to see it.  
 The third and fourth grade girls are making silhouette pictures and the boys are making various objects out of bark.  
 Last week the fifth and sixth grade pupils had a thorough spring house cleaning in their room. After this cleaning they brightened the room with beautiful Easter decorations.  
 Each pupil will make water color paintings this week.

**Alumnae Visit School**  
 Nona McAllister and Burneda Cummings of the class of '32 and Doris Emery, Alcie Ingle, Marie Schwarz and Raymond Lyons of the class of '31 all visited the Kendrick High school last Thursday.  
 Nona, Alcie, Doris and Raymond are attending the U. of I. at Moscow

and were home for spring vacation at the University. Burneda and Marie are both at home this year.

**Student Opinion**  
 In every high school or educational organization there are certain traditions that are handed down from one year to another. In the case of the graduating Seniors this year they have had their "kid day," put up their number and in so doing have kept these traditions alive.  
 Undoubtedly they had a lot of fun and enjoyment out of the various events, but what, after all, is the practical value of such traditions as these. They doubtless furnish the student a great deal of pleasure at the time, and even in later life he may receive a lot of enjoyment out of re-living days gone by.  
 If one of the Seniors of this year's class was to come back here after a period of 20 years and look upon the hillside and see the number he had helped to put there long years ago, it would bring back pleasant reflections which would certainly not be harmful.  
 There is such a thing as carrying the traditions too far, in which case it may be harmful. For instance, in the case of the Seniors of this year, it was carried too far, because some failed to report for afternoon classes as required. Such action merits a penalty, and the faculty is justified in requiring that additional work be done to pay for such actions. However, despite such irregularities as the above, there is a certain something about such traditions that contribute to the enjoyment of school life, and are of actual benefit to the student.

**JULIAETTA ITEMS**

**Depression "Ended" March 19**  
 The following, taken from the Tonica (Ill.) News, under date of February 3, 1933, may give a slant on just how we are coming out:  
 "Cher up! Listen to these words of J. M. Funk of Ottawa: 'The nation's depression will officially end on Feb. 6, 1933, with a minor reaction and the major reaction will follow March 19.' Mr. Funk has figures dating from 1817 to the present time to substantiate his statements and has made several talks before chambers of commerce and other organizations, and most of those who have listened have been impressed. Many who came to hear him with doubting frame of mind, left with entirely different feelings."

**Rebekah Benefit Dance**  
 There will be a Rebekah benefit dance given at the Fraternal Temple, Tuesday evening, April 18, starting at 9:00 p. m. Parr's Perry dance orchestra will furnish the jazz. Admission is 40c per couple, ladies free. Come and have a really good time. 16-1.

The Sewing club will meet at the home of Mrs. C. Browning this week.

Misses Della and Stella Herring visited at the John Lind home Sunday afternoon.

A farmers' meeting was held at the school house Saturday night. There was a good attendance, quite an interest being shown and several joining the organization.

Mrs. Carrie Herring and son Clarence spent the day Tuesday at the Merton Preussler home.

### Has New "Red Flash"

F. B. Higley, manager of the Morgan Grocery, is now using a fiery red gas wagon for the delivery of his wares. When you see that wagon in front of a home, it will not be necessary to ask who it belongs to for it says "Morgan's Grocery Market" right on the side of it. Higley said he had it painted that color to obviate the use of a horn.
