MRS. SAM NYE HAS NARROW ESCAPE FROM DEATH

As Jack Vandenburg was nearing the top of the Juliaetta grade on his return to Genesee from Kendrick Monday morning, he heard cries of distress and stopped his car to make inquiry, and discovered that a car had gone over the grade and that someone needed help. He descended to the scene of the wrecked car and found Mrs. Sam Nye and son Samuel at the scene of the wreck. Mrs. Nye, who was driving, had been but slightly hurt, but the boy was pinned beneath the car in such a manner that Mr. Vandenburg was unable to release him. Mrs. Nye went to a farm house for assistance and when help arrived the boy was released and Mr. Vandenburg brought Mrs. Nye and son to the office of Dr. Christensen, at Kendrick, where an examination showed that no bones had been broken nor any permanent injury sustained. Mr. Vandenburg later took them to their home on Fix ridge.

The automobile, a Model A Ford, was almost a total wreck. The steering knuckle was said to have been the cause of the car leaving the grade.

Highway District Not Be Dissolved

It has been stated in various publications, the Kendrick Gazette included, that a bill had been passed at the last session of the state legislature dissolving highway districts within the state. There seems to have been an error in that the supposed bill was merely a resolution passed by the legislature, asking that all necessary data be obtained from road districts for future reference in making up a report for use at the next session of the state legislature.

This being the case, the Kendrick highway district will be conducted during the next two years as it has been in the past. While no definite word has been received regarding the building of the road on Big Bear to Deary, it is not likely that the highway department of the state will be allowed to forget that they have promised assistance just as soon as it is possible to give it.

Benton Dunnaway Dies of Injuries

Benton Dunnaway, 29, well known in central Idaho and previously employed in the Lewiston National bank, was fatally hurt in an automobile accident at Bakersfield, Cal., Friday morning, according to a telegram received in Lewiston by his father-in-law, J. H. Calvert.

Limited advices report that Dunnaway passed away at 10 o'clock Friday night. He had been transferred by an oil firm for which he worked from Oakland to Bakersfield only a few days ago.

Born at Craigmont, he had a host of friends in the prairie country and the body will probably be shipped there for interment.

He is survived by his widow, his parents, two brothers, two sisters and other relatives. His parents are Mr. and Mrs. Charles Dunnaway of Craigmont.

Mr. Dunnaway is a brother-in-law of Mrs. Arthur Dawald of Kendrick.

Johnson-Dammarell Nuptials

Thursday morning's Lewiston Tribune carried a news item to the effect that Miss Margaret M. Johnson of Orofino and Robert B. Dammarell of Kendrick had been united in marriage at Lewiston by Dr. E. F. Harold, pastor of the M. E. church in that city.

Miss Johnson is a very estimable young lady and will make many friends wherever they should decide to cast their lot.

Mr. Dammarell is a son of Mr. and Mrs. E. H. Dammarell and has been employed by his father in the local postoffice for the past three years.

The Gazette joins the many friends of the young couple in wishing them the very best of everything in this life.

No real "inside" information as to their future intentions was obtainable before going to press.

\$75,000 Relief Funds For May

Idaho has received \$75,000 in welfare relief funds from the Reconstruction Finance corporation for disbursing in May, Parker P. Carver, secretary to the governor and administrator of the fund in Idaho, announced.

He said he had no information whether more would be forthcoming although this was just half the amount which has been sent to the state each month during the past winter.

COMMERCIAL CLUB MEETING

The regular monthly meeting of the Kendrick Commercial club will be held in the Raby Hotel next Monday evening, dinner being served at 6:30.

There are still many things that need the attention of those who have the interest of the community at heart and it is hoped that there will be a good attendance. Much has been accomplished during the past few months, but there is still much to be done. Come out and help do your share.

AUTO LICENSE LIMIT MOVED AHEAD TO JUNE 1

The following, taken from the Lewiston Tribune of Tuesday morning, will further and fully explain the new move of Governor Ross regarding the raising of the "deadline" for auto licenses.

With a surprise order which left even members of his own office staff uninformed, Gov. C. Ben Ross postponed for another month the final date for buying 1933 automobile licenses. The order extends the time until the night of May 31, and requires that automobiles be supplied with the new licenses when they fare forth June 1.

It was the second extension the governor has made since he vetoed the bill passed by the last legislature extending the "deadline." On the afternoon of March 31 scores flocked to the office of County Assessor J. L. Armstrong and bought licenses to avoid having their cars tied up until new plates were had, and later that day came information that the "deadline" had been extended to April 30.

Since January 1, 2,088 licenses were sold here, averaging \$15.85 each, a total of more than \$33,000.

As late as noon Monday Traffic Officer Harry L. Clark received a telegram from State Law Enforcement Commissioner Emmitt Pfost instructing him to "get assistance of sheriff and police and give violators notice to get license for all motor vehicles found operating on streets or public highways with 1932 plates."

Explaining the extension, Gov. Ross made the statement as before that "there exists in Idaho a temporary financial condition which makes it exceedingly difficult if not impossible for a large percentage of motor vehicle owners within the state to comply with the requirements of the licensing act."

Assessor Armstrong and Traffic Officer Clark said last night the order granting an extension until June 1 was a complete surprise to them. Each was plying with questions for the last week whether there was any chance that the time would be extended. At their homes the telephones rang constantly since Friday, they said, owners in many cases declaring it would work a hardship to buy a license at this time.

Many Hours Gentle Rain

The entire Kendrick section received its share of the gentle rains that visited the Inland Empire, beginning Saturday morning and continuing intermittently for several days. However, there was a let-up Sunday night and a light frost was visible on Monday morning. This soon disappeared and rain clouds soon gathered and a gentle rain fell for many hours. It was a boon to garden-growers as well as farmers for a hard crust had formed and the moisture was needed to break it.

Ship Many Beans

The Kendrick Bean Growers association reports the shipment of 1800 bags of cleaned beans during the past week, one carload of which went to southern California.

The Kendrick Rochdale company did not report any shipments during the week but stated that they had bought a large quantity, which they have started cleaning.

Seniors (And Others) Sneak

Wednesday was a regular "sneak day" sure enough for the Kendrick High school. First the Seniors took off about 5:30 in the morning. Later the Juniors followed them—and to make the thing complete—many of the Sophomores and Freshmen also took off during the morning.

Just what the reaction will be has not been learned.

Julietta Drops Game

Julietta, after winning the first game of the season from Lewiston Orchards found Asotin not so easy in the game of April 30, played at Asotin, and came home with the little end of the 9 to 4 score.

Asotin's pitchers, Weeks and Gilkey, each struck out four men.

Our pitchers, Gruell and Glen, struck out 6 men, Gruell four and Glenn two.

Julietta Wins 1-0

Julietta started off where the quit last year with their ball team, by winning from Lewiston Orchards on the Lewiston Orchards grounds on Sunday, April 23.

Tilden was in mid-season form and set the Lewiston team down with one hit. He struck out 20 men and allowed but one base on balls.

Stewart, pitching for the Orchards, held Julietta to seven hits and struck out 11, giving no bases on balls.

Julietta plays the first game at home on May 14 against this team. A real game is promised.

Next Sunday's game will be played at Genesee.

The meeting took place before quite a number of taxpayers, who displayed considerable interest in city appointments.

HIGHLIGHTS OF THE WEEK'S NEWS DISPATCHES

France and the United States have reached an understanding for a tariff truce and on the principles of disarmament and security. President Roosevelt and M. Herriot, the French envoy, in concluding their conversations in a spirit of mutual enthusiasm took up the delicate war debts issue but postponed any effort to reach an understanding. It became definitely known that no deal for the December 15 payment still owed by the French was proposed and no offer was made by the president on the installment due June 15.

Franze Seldte has turned over the command of the Steel Helmet war veterans organization to Chancellor Adolf Hitler, thereby giving the Hitlerites a final victory over the Steel Helmet rivals. Less expected but no less sensational was Herr Seldte's announcement that he had joined Hitler's nazi party and had given up his affiliation with the nationalists. The change was another step toward making the cabinet 100 per cent nazi.

Her neck bound tightly with her own jumping rope, the body of six-year-old Nadine Vogel Love, Kansas City, Kansas, was found in a clump of woods a mile from Bonner Springs, Kansas, Sunday. The girl disappeared April 20 while enroute to her home from school. She was a first grade pupil.

Ranchers of the high mountain ranges of Umatilla county, Oregon, counted thousands of dead sheep, the aftermath of a bitter, blasting blizzard that had swept over the country Saturday night and Sunday. Estimates by the sheep men revealed that probably as many as 8,000 animals had perished in the storm. Most of those that died from cold and chill had been recently shorn and were being returned to the mountain range lands.

A delegation typifying President Roosevelt's "new deal" in international politics sailed aboard the Bremen early Monday to participate in a wheat conference at Geneva preliminary to the international economic conference to be held at London in June.

Passage of a bill to shorten the work week to 30 hours still is a possibility, although President Roosevelt has omitted it so far from the things he wants congress to do before it goes home. Despite a statement by Senator Robinson (D., Ark.), following a talk with the president, that the bill was "not in the picture," the house labor committee continued on the 30-hour work day proposals.

High School Play Great Success

The Senior class play, "Tea Topper Tavern," was given in the Kendrick theatre Friday night, April 28, to a crowded house. The parts were well taken and each and every one taking part showed that they had given their best effort to the production of the play—and their efforts were applauded heartily. To say that one did better than the other would hardly be fair to those taking part.

Those making up the cast were Ellen Woody, Nettie Mae McDowell, Elizabeth Carlson, Allene Rider, Ralph Blevins, Elma Jones, Ethel Cummings, Karl Emery, Jack Bailey, Vern Speker, George Davidson, John Jones, Rowena Ramey and Hazel Reid.

Two numbers between acts, a dance by Rosebud Brown and a duet by Miss Brown and George Davidson, were both well rendered and very graciously received by a large audience of well wishers.

Mrs. W. J. Carroll was coach and the music was under the direction of Mrs. Harold Thomas.

GRAIN PRICES HIGHER BUT MARKETS UNSETTLED

Domestic grain markets became rather unsettled during the week ending April 28 and prices of most grains declined moderately from the new high standards reached early in the period, according to the Weekly Grain Market Review of the U. S. Bureau of Agricultural Economics. Improved prospects for winter wheat resulting from recent heavy rains in western sections of the main belt, together with better weather for spring seeding, some slackening in cash demand and uncertainty as to the outcome of pending currency and farm aid legislation, were the principal unsettling influences in the wheat market. The heaviest market receipts this season, together with a less urgent demand, weakened the corn market. Rye and oats were weaker with wheat and corn. Barley markets were irregular with firmness at some points offset by declines at others. Flax was independently firm with an improved crusher demand.

There were no marked changes in the general wheat situation during the week and the recent sharp fluctuations in domestic markets may be attributed largely to the varying trade interpretations of the probable influence of pending currency and farm relief legislation. Heavy rains in the western areas of the main winter wheat belt improved the crop where the grain had germinated but were too late to be beneficial in much of the drought area of western Kansas and Nebraska. Wheat was in need of rain in eastern Washington and Oregon where freezing temperatures recently have retarded growth. The spring seeding made good progress under favorable weather conditions but the soil remains dry in large sections of South Dakota and southwestern Minnesota. In Montana, N. Dakota and northern Minnesota ample moisture is present for starting the crop. Seeding has been nearly three-fourths completed in the main spring wheat states with about one-half of the sowing completed in North Dakota and Montana, around 90 per cent in Minnesota and slightly over 95 per cent in South Dakota.

The conditions of the Northern hemisphere winter wheat crops which account for roughly one-half of the total world production is mostly satisfactory and suggest another good harvest for the current year. Taken as a whole, however, the outturns are not likely to equal the large crops of last season. Official reports of abandonment are not yet available but seedings were only moderately under those of a year ago and outside of the United States, no serious winter killing is in evidence. Conditions in Europe, outside of Russia, are favorable and somewhat better than at the same time last year. Abandonment in the Danubian countries apparently was not nearly so heavy as last season with the condition now reported as good to very good. In Spain, France and Italy, where nearly half of the winter crop outside of Russia is produced, conditions are good to excellent. In the northwestern countries conditions are average or better. The conditions of winter wheat in Russia is good and spring seeding has made good progress but low temperatures have checked germination.

India, which ranks next to the United States in winter wheat production, has just completed harvesting a crop estimated at 340,480,000 bushels, which is seven million bushels under last season's outturn and over fifty million bushels under the record crop of 1931. This season's harvest will be only about sufficient for domestic consumption with little, if any, wheat available for export. The extension of the Indian tariff on wheat imports until March 31, 1934, suggests that wheat imports into India during the coming year will be kept at a minimum, as has been the case during the past two crop seasons. Recent rains in North Africa have benefited crops and prospects are for fairly good outturns from the harvest, which will begin next month.

Foreign markets held steady during the week with prices of native wheat in France and Germany slightly higher and in Italy slightly lower than a week ago in terms of local currency. Supplies of native wheat in Italy are reported to be running low in some localities which has stimulated inquiry for foreign wheats, principally for Canadian grain. German farmers were offering wheat more sparingly but

GRAIN PRICES HIGHER BUT MARKETS UNSETTLED

milling demand was quiet. Russia was
said to be negotiating for the pur-
chase of Argentine wheat and a cargo
of Argentine grain was reported pur-
chased during the week by Rumania
at the equivalent of 50 1/4c delivered
at Bralia. Argentine shipments for
the week were large, totaling nearly
five million bushels. Australian ship-
ments on the other hand, totaled very
little less than 2,000,000 bushels. At
the close of the week foreign wheats
were quoted at Liverpool in terms of
United States money at 47 1/4c for
Argentine Rosafe afloat, 55 1/4c to
57 1/4c for Australian wheat and 52 1/4c
to 60c for No. 1 and No. 2 Canadian
Manitoba for immediate shipment.
California markets were unsettled
but averaged slightly lower than a
week ago, reflecting lower quotations
from outside markets. Both milling
and feeding inquiry slackened toward
the close of the week as buyers hesi-
tated to follow the rapid recent ad-
vance. Demand for milling grades
was somewhat lighter as a result of
some slackening in flour trade. Bay
region mills were placing their orders
mostly in northern markets. Feeders
and industries were largely using pre-
vious purchases and were buying only
for nearby needs. The drought in the
principal producing sections was large-
ly unrelieved although light showers
received in Southern California dur-
ing the week helped a little. Grow-
ers were not releasing remaining sup-
plies freely in view of unfavorable
prospects for the new crop. Bids to
growers were mostly on a basis of
\$1.00 per 100, net, Sacramento valley
points for top grades.

Williamson Store Sold At Auction

The Williamson store at Troy,
once one of the largest and best
known mercantile establishments in
central Idaho, was sold for \$2,250 at
an auction conducted Thursday after-
noon by O. Bohman, special admin-
istrator of the N. Williamson estate.
The property was purchased by F.
M. Green, Troy, subject to confirma-
tion by the probate court.
A large crowd attended the sale.
The property included accounts re-
ceivable of \$9,000, now valued at \$400,
and a stock originally inventoried at
\$12,000, since heavily depreciated. The
estate is considered insolvent.

Mr. Bohman was appointed admin-
istrator by probate court a few days
before the sale, succeeding Mrs. Car-
rie O. Williamson, who resigned. Mr.
Green did not state what disposition
he would make of the property.

Boys Building Boat

Joe Watts and Roy Long, Ken-

about completed a new "kayak",
which they have named the "Sea
Devil." It has a sturdily built frame
covered with waterproofed canvas,
which has also been given a coat of
aluminum paint.
It is a neat little craft and the
youngsters are to be complimented
on their workmanship. It was built
at the Watts Ship Yards, just off
short from the turbulent Potlatch.
The date for launching has not as
yet been set. And it has not been
fully decided whether a bottle of the
new 3.2 will be used for the purpose
or not.

Renewed Confidence

Under date of March 27th the Commissioner
of Finance, Boise, Idaho, granted this bank the
privilege of taking new deposits — allowing the
depositor the privilege of checking against these
new deposits, clearing checks, and in a general
way provide for the banking needs of the people
as far as new business will permit.

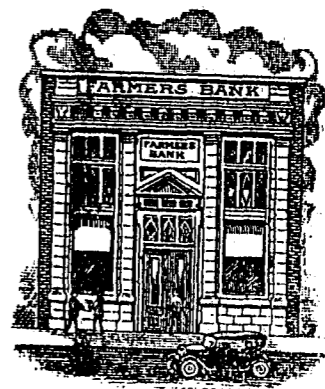

We are able to offer you the protection of
the Federal Reserve Bank for funds deposited,
and we assure you it is our wish to be of service
to this community in so far as it is possible.

Many have already taken advantage of this
privilege and we are more than pleased with the
feeling of RESTORED CONFIDENCE, GOOD
WILL, and the CO-OPERATION of the public
in this program.

PUBLIC SCHOOL NEWS

Written and Edited by the Senior Class in English

Editors—Jack Bailey and George Davidson.

Advisor—Supt. B. B. Brigham.

School Exhibit May 15

As a climax to the spring school activities an all-school exhibit will be staged in connection with the final Parent-Teacher meeting of the year, May 15, 7:30 p. m.

Practically every high school class and all of the grade school classes will display work done during the year.

The Parent-Teacher meeting will be held first, after which all rooms of the school will be opened for exhibits. The main business in line for the evening will be the election of a P.-T. A. president and the formulation of plans for the next school year.

J. M. Lyle, recently elected Supt. of the Kendrick school for the coming year, will speak briefly concerning the program of studies to be offered. The program will be furnished by the school orchestra.

Senior Sneak

Wednesday morning the Seniors disappeared from the ranks of toil and spent a very pleasant day and evening at Lewiston. They left at 5:30 from Kendrick and were taken to their destination in Clyde Daugherty's large dray truck. The day was pleasantly spent in the park, where they played games and ate their dinner.

In the afternoon some of them went to a show while others had their pictures taken. The Seniors reported it as a day to be remembered.

Grade School News

The First and Second graders have completed sixteen sets of phonics this year.

In the "Clean Teeth" contest held recently the sixth graders were the winners. As a punishment the fifth grade is giving their "betters" a party this week.

The Eighth grade number was put up on Bear ridge grade last Thursday night.

As yet the returns of the state exams have not been received.

Palmer Method Returns Received

The grade students under Mrs. Cook are reported to have been very successful in Palmer method writing exercises given them recently. The exercises were given in the class room and the results sent away to be graded. The grade school was ranked among the highest in penmanship.

The children are to be rewarded for their achievements by the presentation of small pins and certificates bearing the Palmer insignia.

Junior Prom

Plans for the Junior prom were begun in earnest this week. Necessary decorations and fixtures having been procured and the class, under the supervision of Mrs. Lightfoot, is getting the floor in shape, sending out invitations, negotiating for the orchestra and preparing the refreshments and entertainment.

The prom will be given Saturday evening, May 6. Admittance will be by invitation only.

Senior Play A Success

The Senior play, "Tea Toper Tavern," was presented in the Kendrick Theatre on Friday evening, April 28, with a large crowd in attendance. The play was a decided success, the gate receipts totaling \$64.50. After all expenses had been deducted the class cleared approximately \$45.00. It is one of the largest totals ever recorded for class plays. This money will be used to finance the senior commencement activities.

Glee Club At Work

The High School Glee club, under the supervision of the music teacher, Miss Newman, is hard at work on various songs to be given at the last public appearance of the group, to be staged on Friday evening, May 12, at 7:30.

The Girls' sextette, composed entirely of underclassmen, will also perform at this time.

Student Opinion

Every one is more or less interested and acquainted with the social functions of our school and owing to the financial problems presented this year it has been necessary to give several school dances and now as a climax to social affairs, we are giving the Junior Prom.

The Prom is an affair of great importance for several reasons. First, it must be noted that it is not undertaken as a money making venture. Expenses are so high that it often takes clever management to make

the receipts total expenses.

As practice training, this sort of an affair holds great value for the students. Each is forced to shoulder responsibility and everyone is given minor details to care for. There are committees for advertising, for invitations, for preparing the floor, for decorating, for refreshments, for entertainment, and all other phases. Every student is given some duty to perform and thus he learns something of co-operative endeavor.

LELAND ITEMS (Delayed)

The District Conference of the Northwest met here April 21, 22 and 23. A very profitable and instructive time was had by all attending. Joe Gibbons of Troy preached Thursday evening. Many Sheep Die In Blizzard
Ranchers of the high mountain ranges of Umatilla county counted thousands of dead sheep Monday, the aftermath of a bitter, blasting blizzard that swept of the country Saturday night and Sunday.

Estimates by the sheep men revealed that probably as many as 8,000 animals perished in the storm. Most of those that died from cold and chills had been recently shorn and were being returned to mountain range lands.

The sudden storm which blew out of the mountains without warning sent the temperature as low as 44 degrees and piled mountain passes deep with snow. Many automobiles were stalled and traffic in the Blue mountains was held up by 16 inches of snow until the highway department could clear the way with plows.
