## WORLD SERIES BALL GAME HERE TUESDAY

One of the "fastest" ball games witnessed here in many days was held on the local diamond Tuesday evening when the Business Men's Athletic club played Roy Ramey's Sluggers a game of ball. The game was replete with many errors, much boozing of the umpire and many thrills. The score, when the game was finally over stood 27 to 9 in favor of the school kids, but everyone voted it a jolly good time.

Perhaps the highlight of the game was "Doc" Christensen's stellar performance with foul balls, he knocking seven of them in rapid succession, one of which, clearing the stand, took one of John Hill's chickens "for the count." The high school boys protested vigorously about this, claiming they had a new ball coming as a result of "Doc" taking all the hide off that one.

Wade Keene and Ira Havens led the rooting for the business men, and they were quite successful at it, too, although so many good-natured personalities were present that it was almost impossible for them to get any concentrated noise.

Anyway, it was a lot of fun for all concerned, but perhaps still another phase of the game can stand mentioning, the sprinting of Ed. Deobald and F. B. Higley, who occupied right and left field. The high school boys said they believed they could use them on their track team, as they did not realize they had anyone in town who could move so fast.

The line-up for the business men (as near as we can remember, substitutions being so numerous) was: Silvie Cook, Seibert Hogarth, Gus Blum, Ira Bolon, H. B. Thompson, Ed. Deobald, Dr. Christensen, F. B. Higley and Buster Brown. Substitutions were so numerous we won't try to mention them. Anyhow, it was heaps of fun for all concerned.

This issue of the paper finds quite a number of men hobbling around the street and nursing sore arms. They say it will be different next time as they are going to practice with a baseball instead of a volleyball. They were so used to looking for the larger volleyball that the baseball was so small they could not see it.

## Drink Idaho Water, Says Governor

Answering a question whether Idaho would be given a chance to determine in the near future, if it wanted beer, Gov. Ross said Tuesday "there are 20,000 men from New York state and about 8,000 from Boston coming to work in the emergency conservation program in Idaho forests who are going to drink Idaho's water this summer."

"It's the best in the land," he added. Asked if the fact a crew was cleaning the legislative chambers of the state capitol was an indication of an early session of the legislature, he replied "the capitol has been sorely in need of a general house cleaning for some time."

Three states so far have voted ratification of the repeal of the 18th amendment which was approved by congress last session. A fourth and fifth—Wyoming and New Jersey—have selected delegates pledged for repeal. Thirty-six states must vote for repeal to ratify the amendment.

## Entertains In Honor of Husband

Mrs. L. L. Davis entertained charmingly in honor of her husband's birthday anniversary, Sunday, May 14. Mr. Davis admitted cheerfully to one hundred and fifty anniversaries, but refused to blow out that many candles. Because of the day the evening was spent in discussing current events and spinning yarns. A delicious two-course luncheon was served by the hostess and Mr. Davis contributed his special treat.

Those present were Mr. and Mrs. Fairfield and family, Mr. and Mrs. Henry Kortemeier, Mr. and Mrs. C. H. Ratliff, Don, Bob and Kathleen Ratliff, Charles Davis and the host and hostess.

## Weather Still Cool

Miss Spring still refuses to come out and smile for us—the weather remaining cloudy and cool—great weather for starting lawns and help a new stand of alfalfa—but mighty poor bean and wheat weather, and holding back all farm work doesn't help any either, most of the fields still being too wet from recent rains to permit plowing and other needed work.

## Refuses To Permit Vote

Governor Edwin C. Johnson of Colorado vetoed the resolution and companion bill calling for a special election September 16 to select delegates to a constitutional convention October 4 to consider ratification of repeal of the 18th amendment.

Sponsors of the measure in both houses said an effort would be made to pass the resolution and bill over the governor's veto, but it was not believed likely that sufficient votes could be mustered.

## GAZETTE'S BIG EGG CONTEST COMES TO A CLOSE

The Gazette's annual Big Egg contest came to a close Monday evening with only nine entries this season, whereas in former years there have been many more. However, we did not start the contest as early as we formerly have, which may account for the lack of interest in big eggs.

The six-months subscription this year goes to P. H. Manley of Troy, he having entered a White Leghorn egg that measured 8 1/2x7 1/2 inches. Mrs. C. H. Ratliff was second with a Rhode Island Red egg that measured 8 1/2x6 1/2 inches. All the other entries were large, none of them measuring less than 7 1/2 around the long way.

The smallest egg was brought in by Mrs. Frank Roberts, it measuring 2 1/2x1 1/2 inches. The only freak was brought in by Mrs. Henry Kortemeier. It measured 3 1/8 inches in length and was curved, but was rather small in measurement around—and "freak" is the right name for it—the hen even forgetting to close up one end of it.

We have all the measurements on the original slips if anyone would like to look them over.

## Would Unite Four Counties

Dan Ziemann, secretary of the Southwick local of the United Farmers league of Idaho, in a recent letter sent out said, in reference to consolidation of counties, for which an amendment was voted in the last general election, "let's take advantage of that opportunity even if our courthouse is put on a barge on the Snake river or in the center of the Clearwater national forest."

Ziemann said the league is asking for the consolidation of Nez Perce, Lewis, Latah and Clearwater counties, believing that in a unit of four "we will get the reduction in taxes we need."

The local passed resolutions advocating the liquidation and reorganization of railroads; favored the development of the Snake river, commending the chamber of commerce of Lewiston for its work in that direction; that a national law be passed placing ownership and control of banks in the hands of the government and remove so far as possible "all chance for a use of the power of money in the future."

## Gov. Ross Sees Good Times Ahead

An increase in commodity prices in Idaho has more than offset the amount of delinquent taxes in the state, and will result in improving business generally, Governor C. Ben Ross said in an interview.

He said the price of wool had doubled since early spring, representing an increased value on 16 million pounds or more. This year's clip is approximately 8,000 carloads.

Potatoes have almost doubled in price, he said, bringing an increase of approximately \$200 a carload to the growers. This value was placed on potatoes held over from last year in anticipation of better prices.

Five to seven million bushels of wheat were held over from last year's crop and the price increase, the governor asserted, has been nearly 100 per cent.

"This will make conditions better for business, better for people in debt, an d better for state and local governments," he said. "The people will be better able to pay their taxes."

## Bridge Club Entertained

The Afternoon Bridge club was very pleasantly entertained last Thursday evening by Mr. and Mrs. Geo. T. Keene and Mr. and Mrs. Geo. Leith, at the Keene home, when the game was played at six tables. Mrs. Helen Boyd made high score for the ladies and F. B. Higley for the men. Delicious refreshments were served at the close of play.

Mrs. Frank Lightfoot, Miss Nina Newman, Miss Edna Ferguson and Mrs. Mary Adams were invited guests.

## THINGS OF INTEREST GOING ON AT CAMERON

## Picnicked at River

The Harold Thomas family and the McCreary family drove to the Clearwater river Sunday and spent a portion of the day picnicking at the beach above Arrow. The river is a little high but there was plenty of clean sand on the beach. Hot "daws" and coffee made up the important part of the menu.

## INTERESTING NEWS ITEMS FROM JULIAETTA

**Narrowly Escape Death**  
Mr. and Mrs. D. A. Bishop and Mrs. Lulu Buchanan of this place narrowly escaped death Friday evening when coming down the grade from Fix ridge.

The car, equipped with a Ruxtell axel, gathered terrific speed, when the axel caught, and Mr. Bishop could not put it in gear.

Realizing that he could not make the corner at the high speed at which the car was traveling, Mr. Bishop decided that a collision was better than the risk of overturning, so turned the car so that it sideswiped the front of the church at the foot of the grade.

The result was that the right front wheel was torn off, fenders and running board torn off and the carry-all box at the rear also torn off.

A few feet more would have meant a plunge down a 12-foot embankment. No one was hurt.

## Mothers' Day Observed

A special Mother's Day program was given Sunday morning at the United Bretheran church, with all local Sunday schools participating. Preaching services followed by the Rev. G. W. Benjamin. A basket dinner was served in the basement at noon.

Baptismal services were held at the depot bridge in the afternoon, the following received baptism: Mrs. Fattely, Juliaetta; Mrs. Lettenmaier, Argon Wells, Mrs. Prensall, Herman Smith, Ethel Shoemaker, Fred Ferguson and Bobby Buck, of Southwick.

## Juliaetta vs. Lewiston Orchards

In a game, full of errors, played Sunday, Lewiston Orchards took the lead over the locals, leaving them scoreless until the sixth inning. With three runs in the last inning the score stood 9-4 in favor of the visitors.

The batteries were Chase and White for Lewiston Orchards and Stewart and Carlson for the locals. Case struck out 11 men and Stewart 12. Asotin will play here this Sunday.

## Mr. and Mrs. Woodruff Honored

A delightful miscellaneous shower was given Thursday afternoon at the home of Mrs. Yuel McKinley in honor of Mr. and Mrs. John Woodruff. About 50 friends were present and the newly-weds received a large assortment of practical gifts. Refreshments were served.

## Baseball Benefit Dance

A dance will be given tonight (Friday) in the Heins hall, the proceeds to go to the baseball team. Lunch will be included in the admission price.

## Baker Wins Insurance Suit

A decision was reached last Saturday evening by a jury at Moscow giving Henry C. Baker of Lucille, Idaho, a verdict against the U. S. government for \$10,000 war risk insurance. The jury deliberated for 24 hours.

Mr. Baker has spent the past winter at Kendrick and has many friends here who will be glad to hear of his successful suit. He was permanently injured by shrapnel fire during the World War.

## HIGHLIGHTS OF THE WEEK'S NEWS DISPATCHES

Government statistics indicate that for the first time in the twentieth century, production of all wheat in the United States will be less than domestic needs. The crop reporting board estimated winter production as of May 1, to be 337,485,000 bushels or 66.7 per cent of normal. If this estimate materializes, it will be the smallest harvest of winter wheat since 1904—the result of the most extensive acreage abandonment in the history of American agricultural record-keeping, 33.2 per cent.

President Roosevelt signed the farm relief currency inflation bill last Friday, signaling the assumption by his administration of the broadest powers ever delegated to an executive and his advisors in peace times. The ink was scarcely dry before Secretary Wallace set his staff to solving some of the most serious problems of the many sided farm program—the distress in the milk industry—just now most critical in the Chicago territory. The president issued a special message urging a halt on all farm foreclosure proceedings pending the setting up of machinery for a vast program of farm mortgage financing for which \$2,000,000,000 will be available.

Ernest Kirkland, 16, who admitted he hid by the farm smokehouse and shot his father, W. A. Kirkland, to death as he passed, was charged with first degree murder by County Prosecutor John D. Evans Monday. Ernest made a full confession of his act, which occurred near Pine City, in a written statement Monday. His motive, he admitted, was his father's strict disciplinary habits. Ernest's 12-year old brother, Troy, who witnessed the killing, was held as a material witness.

A forceful call for a realistic, worldwide effort to avoid war was flung dramatically into a threatening European situation Tuesday by President Roosevelt. The rulers of 54 nations were told in straightforward terms that the state which blocks the path of progress will be held accountable by all civilization. Briefly, the chief executive urged adoption of the British arms plan abolishing weapons of offense, even more far-reaching reduction of armaments later, strict observance of treaty limitations on military power in the meantime and finally, "a solemn and definite pact of non-aggression."

## Require Tickets For All Events

A warning that the management of all public events where admission is charged must issue tickets to patrons, designating the admission price, was issued last Friday night at Lewiston by Fred B. McKinley, deputy collector of United States internal revenue, says the Lewiston Tribune.

Several violations of this new provision of the revenue laws have been reported and further violators will face federal prosecution, Mr. McKinley said.

"Tickets must be issued regardless of whether the admission price is subject to tax," McKinley explained. All admission fees above 40 cents are subject to a 10 per cent federal tax. Tickets for fees in this classification must name the place at which they are valid, the admission price, the amount of federal tax and the total fee. Tickets where admission is 40 cents or less are required to only state the admission price.

All types of public events, sports and entertainments where admission is charged come within the provision of this law, Mr. McKinley said. Violators are subject to an arbitrary fine of \$100.

## To Ban Girl Hitch-Hikers

Girl hitch-hikers and those who give them lifts are to be arrested on sight down in Okmulgee county, Oklahoma. Officials said the drastic action was taken in an effort to break up an "epidemic" of young girls running away from home.

## WHEAT MARKET MAINTAINS RECENT GAINS

A further sharp advance in corn prices, with rains and wet soil delaying planting and cool weather retarding germination and growth, was the outstanding feature of the domestic grain market during the week ending May 12, according to the Weekly Grain Market Review of the U. S. Bureau of Agricultural Economics. Marketings of corn continued heavy, but offerings were readily taken at higher quotations and market stocks were not materially changed. The advance in corn has a strengthening influence on wheat and recent gains in the market were well maintained. The exceptionally poor condition of winter wheat, an indicated reduction in Canadian spring wheat acreage, unfavorable prospects on the Russian crop, advances in securities markets and the final enactment of farm relief legislation, were further helpful factors. Rye was independently firm with May 1 conditions, indicating a crop nearly 25 per cent under last season and the smallest acreage for harvest since 1914. Oats and barley were firmer with corn. Flax was steady with the crushers absorbing the moderate current offerings.

Prospects for winter wheat in the United States have not improved materially from a month ago and the record low May 1 condition of 66.7 per cent indicated a crop of only 337,485,000 bushels or 125,000,000 bushels below last season's small harvest. A little over 32 per cent of the total acreage sown last fall has been abandoned with losses in acreage running as high as 75 per cent in Oregon, 70 per cent in Colorado, 60 per cent in Washington, 48 per cent in Kansas, 45 per cent in Texas and 30 per cent in Nebraska and Oklahoma. Indicated production of hard winter wheat is 164,064,000 bushels of soft winter, 144,270,000 bushels and of fall-sown white wheat 29,151,000 bushels. Stocks of old wheat in the United States are about 22,000,000 bushels below a year ago with the larger supply on farms, in country elevators and in mills more than offset by the smaller market stocks. While present indications are for reduced domestic wheat supplies, this season, world supplies are still large and new winter wheat prospects are mostly favorable outside the United States.

Canadian wheat stocks are around 65,000,000 bushels larger than a year ago, giving a total North American supply, including bonded wheat, of nearly 20,000,000 bushels greater than at this time last season. In the other important exporting areas, including Argentina, Australia and the Danubian countries, about 23,000,000 bushels more wheat is available for export than a year ago with larger supplies in Argentina and the Danube Basin more than offsetting the smaller stocks in Australia. In the normally deficit countries of Europe supplies appear to be nearly as large or possibly as large as a year ago. German farm stocks at the first of April were nearly double those of last season and the maintenance of drastic milling regulations in France and Italy indicate abundant wheat supplies in these countries.

Seeding of spring wheat is nearing completion in the principal areas. Rain and cool weather have delayed seeding of the domestic crop but a nearly normal percentage of the acreage has now been sown. Recent rains improved soil moisture and conditions in the major wheat producing sections of the Northwest are reported the most satisfactory in three years: Spring wheat seeding in Canada is also backward and a large reduction of acreage is indicated.

Domestic wheat markets were somewhat unsettled but recent price gains were well maintained. Marketings were of moderate volume and current arrivals were readily taken by mills and elevator operators. Receipts at the principal winter wheat markets totaled 1,686 cars, compared with 1,541 cars a year ago. High protein milling wheat was in best demand and sold at substantial premiums over ordinary types. Ordinary No. 2 hard winter sold at Omaha at 69c. No. 1 hard winter sold at Fort Worth at 86c, delivered Texas common points. Receipts at Chicago totaling 231 cars were readily taken under a good demand from mills. No. 2 hard winter was quoted at 76c at the close of the week. The same grade sold at St. Louis at 78c with offerings mostly

**Fishing Good—But No Fish**

Two disciples of Izaak Walton, Bill Watts and Dr. Christensen, who have been waiting all spring and thus far into summer, for a good Sunday to go fishing, finally chose last Sunday—and went down to the big fishing pool below the dam at Lewiston. The weather was fine for fishing and everything seemed to be all right until the got to the river, when they found the water was not in proper condition. They launched their boat anyway and climbed into it. After sitting there for a time and discussing the situation they decided it was time for their "siesta"—and if they hadn't been thoughtful enough to take an alarm clock with them—well, they might be sleeping yet. Bill says this was only their first round with members of the finny tribe—they'll get one yet.

**Renewed Confidence**

Under date of March 27th the Commissioner of Finance, Boise, Idaho, granted this bank the privilege of taking new deposits — allowing the depositor the privilege of checking against these new deposits, clearing checks, and in a general way provide for the banking needs of the people as far as new business will permit.

We are able to offer you the protection of the Federal Reserve Bank for funds deposited, and we assure you it is our wish to be of service to this community in so far as it is possible.

Many have already taken advantage of this privilege and we are more than pleased with the feeling of RESTORED CONFIDENCE, GOOD WILL, and the CO-OPERATION of the public in this program.

**Another Egg Record Broken**  
Just the record—not the egg. Mrs. Frank Roberts brought to this office Friday a White Leghorn egg that measured 3x2 1/2 inches—at least a size smaller than a pigeon's egg. It is all right as a freak, but wouldn't be much good for a hungry youngster on Easter morning.

**Stemmer Goes To Washington**  
Governor C. Ben Ross said he expected that between \$15,000,000 and \$20,000,000 in federal emergency public works funds would be spent in Idaho and that he was sending J. H. Stemmer, director of highways, to Washington, D. C., to press the state's request for the funds.  
The public works, he added, will include highways, municipal water and sewage systems, lake and stream improvements and other public works other than in forests. Forest work apparently will be cared for by the civilian corps.  
"The public works program," he said, "calls for a national expenditure of \$3,500,000,000, and if the full amount is put up for work, Idaho should receive between 15 and 20 million dollars."  
The governor already has sent to President Roosevelt a list of public works project which might be started soon with a maximum employment of men.

**"Ramey's Sluggers" Win Two**  
Thursday of last week "The Sluggers" met the Leland town team on the local diamond and won by a score of 12 to 5 in a full nine inning game. This win partly evened up for the two games lost to the Leland team at Leland by one score each time.  
Considerable interest was taken in the game and a good sized crowd turned out to root for the boys.  
Kendrick's Volley-ball team having had such a successful season with vollyball and had become so efficient in that line they decided to branch out into baseball and so issued a challenge to the "Sluggers" for a game Tuesday evening, an account of which will be found elsewhere in this issue.

**Another Fast For Ghandi**  
The Mahatma Ghandi of India, who occupied considerable front-page space in newspapers a year ago, has decided to start another fast and has announced that it will be for three weeks, all for the benefit of the "untouchables" of his native land. Just how he figures it is going to help them is beyond the ken of the ordinary layman, but he seems to think it will help some. Those in a position to know say the Mahatma cannot survive a fast of that length.

**PUBLIC SCHOOL NEWS**  
Written and Edited by the Senior Class in English  
Editors—Jack Bailey and George Davidson.  
Typists—Rowena Ramey and Nettie Mae McDowell.  
Advisor—Supt. B. B. Brigham.

**School Exhibit Held Monday**  
The school exhibit and P.-T. A. meeting was held at the school on Monday evening, May 18. Officers elected for the coming year were as follows: President, Mrs. A. K. Carlson; Mrs. Lightfoot, vice-president; Mrs. W. T. Keene, secretary; Mrs. W. A. Watts, treasurer.  
An interesting program was given by the school orchestra and J. M. Lyle of Southwick spoke concerning the program of studies.  
Immediately following the Parent-Teachers meeting the rooms of the school were opened for exhibit. A varied array of hand work done during the year was on display. The largest crowd of the year attended this meeting, it being estimated that 125 were in attendance.

**Baccalaureate Sermon**  
The Baccalaureate exercises were held Sunday night, May 14, in the M. E. church, with Rev. Smith conducting the services. A large crowd attended. An interesting program consisting of selections by the Kendrick male quartette and a violin solo by Miss Newman of the high school faculty was presented.  
Rev. Edward J. Smith delivered the sermon and Rev. Paul Lind and Rev. A. E. Janes assisted with the service.

**Commencement May 18**  
Commencement exercises for 19 Seniors will be held in the Community church on Thursday evening, May 18. An interesting program has been arranged in which the students themselves will conduct the performance. The Kendrick Male quartet and the High School Girls' sextet will furnish the music. Allene Rider will play the professional and recessional and Rev. Edward J. Smith will pronounce the invocation and benediction.

**Senior Class Day**  
Monday, May 15, was the Senior class day. A class day program was given at 2:00 in the gym. The program consisted of the reading of the class history, will and prophecy.  
After the program a student assembly was called by President Ralph Blevins for the purpose of making plans for a school picnic to be held Friday.

**School Picnic**  
A high school picnic has been planned by the students of Kendrick high school for Friday, May 19. It was decided to go to Atwater lake. An eats committee was appointed by Ralph Blevins. Transportation will be provided by several of the students who have trucks.  
All are looking forward to having a good time.

**Glee Club Gives Program**  
The Glee club gave a program to a full house last Friday. The program was composed of several songs by both glee clubs and a sextette sang several sailor songs. The last two songs were sung by both glee clubs.  
This program was well balanced and cleverly arranged. \$3.70 was taken in as a free will offering.

**Seniors Will Get Picture**  
All the Seniors have had their pictures taken at the Engstrom Studio in Lewiston. The class has recently purchased a frame for the pictures, and these will be presented to the high school as a gift.

**Grade School News**  
The grades for the state Exams, that were given two weeks ago were received Tuesday. Seven out of eight of the students secured passing marks and will be given their diplomas on Thursday evening.

**Editorial**  
Nineteen Seniors of the Kendrick High school will bid goodbye to school days on Thursday evening of this week, this making another milestone in their life history. Graduation is a thing that every student looks forward to, as it is the most important occasion of the school year. It is a time when every student looks back with fond recollection upon his high school career and looks forward into the future to see what life may hold for him. It is the crisis of every student's life—the breaking point between failure and success.  
It is indeed a cruel world for a high school senior to step into. But the Seniors have a background of good training that will prove of value to them in many ways. Though they may not be able to realize materially

from a high school education during the coming year, such training will eventually be a determining factor in their success.

Mr. and Mrs. Guy Foster went to Southwick where Guy did some sheep shearing and Mrs. Foster visited with relatives.  
**Must Be Harmless**  
The explosive qualities of the new "three-point-two" near beer must have been found to be rather low since Spokane has removed all barriers from its sale, either day, night, or Sunday, the only restriction remaining is that it cannot be sold within 140 feet of any church or school. Those who have tasted it say that it is a rather poor imitation of the old-fashioned beer, regardless of what may be said regarding its qualities.  
If we do not miss our guess, Uncle Samuel will be as badly fooled on the revenue he expects to derive from its sale as he was in the expected increase in receipts from the three-cent postage on letters.

**WHEAT MARKET MAIN-TAINS RECENT GAINS**

from local elevator stocks. Soft winter wheat prices were also steady with moderate offerings about sufficient for current trade needs. No. 2 soft red winter was quoted at St. Louis May 12 at 82 1/2c to 83 1/2c and at Cincinnati 85 1/2c to 87c per bushel.  
Pacific Coast markets were relatively firmer than Eastern points. An active milling demand at Portland and Seattle strengthened wheat prices at those markets despite the continued lack of export trade and only fair shipments to California points. Receipts at Puget Sound and Columbia river terminals totaled 563 cars for the week, compared with 202 caars for the corresponding week last year. Domestic mills took a good proportion of the arrivals, particularly of soft white milling grades. A considerable volume of new flour business was booked at Eastern and Southeastern markets by Northwestern mills and this was largely responsible for the active milling inquiry.  
California wheat markets were rather quiet but prices were slightly firmer, reflecting principally the higher quotations on northern wheat. Local growers continued to hold their grain, influenced by uncertainty of new crop prospects. The May 1 condition indicated a California crop of only 249,800 tons compared with a five-year average of 343,770 tons.

**Condition of Wheat In Idaho**  
Production of winter wheat in Idaho is estimated at 9,392,000 bushels, based on a May 1 condition of 66 per cent of normal, which indicates a yield of about 16 bushels per acre on 587,000 acres remaining for harvest. In 1932, production was 14,996,000 bushels and the 1926-1930 average was 12,867,000 bushels.  
Of the 707,000 acres (revised) planted to winter wheat last fall in Idaho, it is estimated that 120,000 acres, or per cent, was winter killed. This is the heaviest acreage abandonment on record and exceeds that of 1925, when 15 per cent was lost.  
The May 1 condition of 66 per cent of normal is the lowest on record for that date. It is a result of unfavorable soil and weather conditions at planting time, a severe winter and late spring. Up to May 1 the crop looked spotted and sick. There had been no chance for recovery. The soil carries considerable moisture and if warm weather is not delayed too long, there

is chance for improvement.  
**Stocks of Hay Larger**  
The amount of hay on farms May 1, 1933, held over from the 1932 crop totals 339,000 tons in comparison with 186,000 tons May 1, 1932, and 174,000 tons, the 1926-1930 five-year average. Condition of all tame hay is reported at 79 per cent of normal against 87 per cent May 1, 1932, and a 10-year average of 92 per cent.

## EDITORIAL

Well, folks, here we are again, it's still raining daily and the weather (as we all know) remains too cool to suit us. It isn't good growing weather, even hens aren't doing as well as they might in the egg line, but—we're right here on the job to pay you SPOT CASH for your cream.

It helps a lot to know that you can always have that, anyway. Old bossy doesn't quit when it rains. Try our "right now" service and we believe you'll become a steady customer.

## A True Depression

Mrs. Crabber—Don't try to sell me any more of that horrid milk. It is positively blue.

Milkman—It ain't our fault lady. It's these long, dull evenings as makes the cows depressed.

## He Sure Did

Ed Deobald—Did yo umake the most of it when your wife was away?

Doc. Christensen—Did I? Say, I dropped ashes all over the rugs, brought mud in on my feet and never took off my hat until I felt like it.

## Should Be Abolished

The two old box cars near the depot, which have housed transients for the past several years, should be done away with. Of course there are a few who stop there, perhaps, who may be entitled to some consideration, but the majority of them will not work under any circumstances. The town has been overrun with this class of transients since the partial closing of the "Hotel de Gink" at Spokane, where they informed those who were lodged there that they must work two days a week for their keep. The result was a strike and a lock-out. Later it was decided to feed them but they must find other sleeping quarters.

Kendrick has had many of these undesirable who are very much offended when they are informed they must work a short time for something to eat, some declaring they will not work for anyone. They are not only a decided nuisance, but a dangerous element to have around and their stopping place should be abolished, or nailed up. The N. P. Railway company indicated last year that they would not care if the old cars were burned. It might be a good idea to get the necessary permission and attend to the job at once.

The Vollmer-Clearwater warehouse was recently broken into and many sacks taken, which were used as bedding by the "bo's", and we think it high time something was done to prevent them stopping here.

## Lights Must Be Tested

According to information at Deobald's garage the state light law will be more intensively enforced this year than ever before. It makes no difference who you are or what you do—if you drive a car or truck you must have the lights tested and adjusted. Last year's light sticker simply won't do, and you must carry a properly filled out receipt with you. The time of warning on lights is drawing to a close—arrest is the next step.

Deobald's is the official light testing station for this section.

Could the New Jersey man who was discovered with three wives, be accused of hoarding?
