HIGHLIGHTS OF THE WEEK'S NEWS DISPATCHES

A \$77,000,000 fleet modernization program intended to lift the United States navy to new levels of fighting efficiency within London treaty limits was announced last week by Secretary Swanson. The secretary said necessary funds would be sought from public works money along with the \$238,000,000 already allocated by President Roosevelt for 32 new ships. Simultaneously, Swanson said the navy would ask for "around \$37,000,000 for shore station construction.

Wets bent on achieving a victory they believe would presage quick death for the 18th amendment and drys fighting hard to hold traditionally dry territory of the old south have come to grips in a final struggle for votes at the repeal election in Arkansas July 18. Whirlwind speaking tours reaching to almost every hamlet and far back into the hill country are planned for the last two weeks of the campaign. Both sides predict victory.

President Roosevelt across the nation, joined with former President Hoover Sunday to open work on the \$75,000,000 San Francisco-Oakland bay bridge project. As President Roosevelt pressed a golden key in Washington to set off a dynamite blast that signaled the breaking of ground in the gigantic bay crossing, Mr. Hoover pressed a golden spade into the ground on Yerba Buena island in San Francisco bay.

A five-word message sent by Jimmie Mattern from an isolated Siberian trading post told the world Friday of the safety of the world flier, missing for 23 days in the northland tundra. The message, barren of detail, took two days to reach Moscow and the United States. It said only that Mattern was safe at Anadir, a village along the route he had mapped from Khabarovsk to Nome, Alaska, for which he had taken off June 14. The terse dispatch set into motion immediately plans for bringing home the 28-year-old Texan, who had left New York a month ago with high hopes of being the first man to fly around the world alone.

With three southern states approaching votes on prohibition repeal, President Roosevelt put his force behind the democratic campaign pledge to expel the 18th amendment from the constitution. Pointing out that he had received inquiries from Tennessee, Arkansas and Kentucky as well as Alabama, Mr. Roosevelt sent a telegram to Leon McCord, the democratic national committeeman for Alabama repeating again his stand on repeal: "I have made it clear ever since my nomination a year ago that I subscribe to the democratic platform 100 per cent." Alabama, Arkansas and Tennessee vote this month on repeal.

Farm administrators officially described their first major program to adjust American for production downward an "unqualified success" in announcing that cotton growers had signed contracts offering to plow up 5,566,169 acres of their growing crop.

"Dirtier than ever before," to use her own expression, Amelia Earhart Putman, with a new woman's transcontinental record in her hand, brought her red Lockheed Vega monoplane down at Newark airport at 8:19 1/2 p. m. (eastern daylight time), 17 hours, 7 1/2 minutes after she left Los Angeles. Her former record was 19 hours and 4 minutes. She flew at an altitude of between 6,000 and 8,000 feet, and rounded several thunder storms.

John J. O'Connell, Jr., 24, nephew of Edward J. and Daniel P. O'Connell, powerful upstate democratic leaders, has been kidnaped and held since Friday for \$250,000, New York police learned. Negotiations for his release have come to a standstill. The abductors had telephoned a warning they would kill their captive if police were called into the case. Young O'Connell, athlete and lieutenant in the national guard, is believed to have been snatched away from his home as he got out of his automobile at 1:15 a. m. Friday.

Many Attend Circus At Moscow
Several auto loads of people attended the circus at Moscow on Friday of last week. Most of the grown-ups went "just to take the children", but all seem to have been well pleased with what they saw—both young and old.

To Make Long Auto Trip

Mr. and Mrs. W. B. Deobald and children left Tuesday on an automobile trip that will take them first to Nelson, B. C., where they will visit for a time before continuing their journey eastward through Canada until they are about north of Minneapolis, Minn., when they will again enter the States, going to Chicago for a visit at the Century of Progress exposition.

While in Illinois they will visit relatives at Tonica for a time, after which they will return west through Denver and Colorado Springs, Colo.

AMERICANS IN FRANCE ARE RETURNING HOME

Americans in France, hard hit by the economic crisis and the fall of the dollar value, are streaming homeward. The existence of some American institutions in this country is threatened by the sharp reductions in income.

All activities of the Methodist Episcopal church in France, excepting the Chateau Thierry memorial, will be dropped August 1, Morris M. Ennis, treasurer of the board of foreign missions, announced today.

Five churches, three schools and a community center will be closed. Fifteen hundred Paris Americans have returned to the United States since January 1, the American consulate estimates. The census showed 13,463 Americans resident here at the beginning of the year, or nearly half the peak of post-war population.

The tourist centers of one-time "gay Paris" are yawning empty. Consulate registrations indicate 15 per cent decrease in American tourist traffic for the months of April, May and June as compared with the same period last year when the crisis already had cut the number of such visitors in half.

June tourist registrations were below those of May whereas usually they exceed the earlier month, indicating the effect of dollar depreciation.

Unemployment among Americans is growing with American business houses reducing staffs as much as one-third.

Repatriation of jobless Americans has about doubled this year over last year, according to an American aid society which has sent 121 persons to the United States since January 1 while 100 others are awaiting transportation.

1934 License Plate

Idaho's automobile licenses in 1934 will be yellow with black lettering.

A. H. Abendroth, state purchasing agent, closed the contract with the Grimm Stamp and Badge company of St. Louis for making the plates which will follow generally the design and letter arrangement of the present plates. The design continues the county designation in the first two figures on the left of the plate. Under the system of numbering, no figures are larger than 10,000 as each county's numbers start from number one.

The major portion of the plates will cost 7 1/2 cents a pair, with prices varying for trailer plates and others. The total cost was \$8,270.

The order called for 89,000 pairs of passenger automobile plates, 14,000 pairs private truck plates, 900 pairs of dealer plates and an assortment of trailer, motorcycle, utility and other plates.

Gasoline Rate Again Postponed

The public utilities commission was advised the effective date on lower freight rates on gasoline to Idaho has been postponed from August 1 to September 1 by the Interstate Commerce commission to permit railroads to draw up new tariff schedules.

Ernest D. Stalm, acting clerk expert of the Idaho commission, estimated a reduction at between 2-3 and 1 cent a gallon and said it meant a saving to Idaho of about half a million dollars a year.

Shortens Distance To Portland

The Wallula cutoff highway will be opened to travel Sunday, the chamber of commerce at Lewiston was notified this week.

The cutoff between Wallula and Umatilla, along the Columbia river, will cut 30 miles off the distance from Lewiston to Portland.

The road is practically complete and is now serviceable. Oregon and Washington state highway engineers have agreed.

INTERESTING NEWS ITEMS FROM JULIAETTA

House Entered

Some one broke into Mrs. Hulda Buchanan's house Sunday night and searched three trunks, the contents being scattered over the room. A pair of house slippers and a bill fold were missed by Mrs. Buchanan, upon her return home Monday evening from Mrs. Alice Perryman's, with whom she stays at night.

The prowlers tore screens from two windows, which were locked, then broke a large window, putting a dog's quilt over the broken glass before entering. The search was evidently made for money.

Wedding Bells

Friends of Miss Gladys Gates have received the announcement of her marriage to Mr. Claud Cook, Leland farmer, at Oakland, Calif. Mrs. Cook will return to Juliaetta the last of August to resume her teaching duties.

A marriage license was issued at Lewiston Saturday to Miss Blanche Taylor and W. D. Byington of Sweetwater, who were married at Lapwai. Miss Taylor, daughter of Bert Taylor, formerly lived here.

Quilt Display

The Methodist Ladies Aid will give a quilt display in the church basement next Friday afternoon. In addition to quilts, rugs, hand work and relics will be on display. Tea will be served during the afternoon and a silver offering will be taken. Everyone is invited to enter an article and attend the display. Articles are to be left on Thursday or Friday morning at the homes of Mrs. Groseclose or Mrs. Nutt.

Millards Surprised

Mr. and Mrs. Everett Millard were surprised with a miscellaneous shower Friday evening at the J. H. Millard home. About 35 friends and relatives were present, presenting Mr. and Mrs. Millard with many beautiful and useful gifts. Lunch was served after a social evening.

Daughter Born

Mr. and Mrs. Fred Sapp are the parents of a daughter born at their home Friday. She has been named Norma Naomi.

Butterfat On Upgrade

The highest point reached by butterfat this season was last Saturday and Monday of this week when it reached 23 cents a pound.

FARMERS BANK RENEWS CHARTER FOR 30 YEARS

The Farmers Bank of Kendrick filed renewal of their Charter this week extending its existence for another 30 years. The bank was chartered in December, 1913. At that time the limitation of a corporation was 20 years. The time having elapsed this year, it has been extended for another 30 years.

At the time the original charter was granted in 1913 the bank was operating as the Farmers Bank & Trust Co. However, there not being the necessity of having trust powers, it became a commercial bank in 1913 under the title of the Farmers Bank of Kendrick, consequently, the bank has in reality been in existence for a third of a century.

The Bank still exists as a monument to its organizers as a sound financial institution, which, like the "Rock of Gibraltar", has withstood the storms and vengeance of the elements of destruction. It has stood the test of time, of the early boom days, the reaction which followed, the lean years and the fat ones, inflation of land values and readjustment periods, experiencing the highest prices as well as the lowest prices for farm products in history.

The officers and directors, like the successful captain that puts out to sea, guides his ship through the narrow and the rough spots with safety, so has the Farmers Bank been safely guided. They deserve much credit and the bank can well boast on having served the people of the community during all of this time, ready and prepared to meet the demands upon the bank on any occasion. No stockholder has ever been called upon to pay an assessment, nor has a single depositor ever lost a penny. The history alone reflects credit to its officers and directors, the town and the community.

To Watch Bread Profiteers

A new warning came from the department of justice that it would stand between the consumer and profiteers who take advantage of the recovery drive for personal gain.

Discussing reports of bread price increases exceeding the fair amount the new processing tax was estimated to cause, Attorney General Cummings said prosecutions under the anti-trust laws would be instituted wherever an organized attempt to increase bread prices was unduly shown. He said an agent was in North Dakota investigating reports by the governor that prices were being charged for bread in that state that were out of proportion to the wheat price increase.

"Selfish persons should not be permitted to seize upon the returning prosperity to reap personal profit," Cummings said.

"The department of justice insofar as it has the power will curb the selfish."

Institute Well Attended

The Methodist summer institute, held at Grizzly Camp, July 3 to 9, was well attended and much interest manifested by a crowd of from 130 to 150 young people in attendance.

Rev. and Mrs. E. E. Beckman returned to Kendrick Saturday evening and reported a very pleasant and profitable meeting. Both Mr. and Mrs. Beckman took an active part in the proceedings during the week. Mr. Beckman handling the subject "Use and Purpose of Leisure Time" very ably.

Grizzly Camp is only one of a large number of such institutes held in every section of the United States by the Methodist church each summer. A number of such institutes are held in Washington as well as in Idaho and Oregon.

Ship Car of Beans

The Kendrick Rochdale company shipped a car of white beans to the Coast market Wednesday evening.

There has been very little market for beans from the fact that holders are not willing to sell at the present price (\$2.50)—when there is a market. There are yet many hundreds of sacks in storage in the three warehouses.

Paint Store Fronts

The fronts of the places of business of A. K. Carlson, N. E. Walker, The Farmers Bank and George P. Barnum have received new coats of paint during the past week, improving the appearance of the buildings very materially.

Indian Agency at Moscow

The merged Indian agency to serve the Lapwai and Cour d'Alene reservations will have its headquarters at Moscow, according to word received from T. A. Walters, first assistant secretary of interior in charge of Indian affairs.

No details were included, but the mere statement that "Indian agencies at Lapwai and Plummer to be established at Moscow."

It is presumed that headquarters will be established in the federal building there.

KENDRICK STATE BANK OPEN FOR BUSINESS MONDAY

The Kendrick State Bank opened for regular business Monday morning after having closed its doors January 2 after a run that took from it more than \$160,000. Regardless of this fact the bank put itself in such shape that it received permission from the State banking department on April 2 to receive special trust funds, which it continued to handle until last Monday, July 10, when it received permission from State Commissioner of Finance Ben Diefendorf to open its doors for regular banking business.

The bank was recently reorganized and a new board of directors elected and H. B. Thompson was chosen cashier and secretary.

When the bank opened its doors for regular business last Monday its cash and securities, at present market value, was equal to 125 per cent of its deposits, besides bills receivable of \$19,000. The first day's business showed an increase in deposits of 66-2-3 per cent and continues to show an increase, according to Mr. Thompson.

Conforming to the suggestion of the Idaho State Bankers association, and realizing that the depositors' primary interest is in knowing that his funds will be safe and available at all times, the directors have lowered the interest rate on savings deposits to 3 per cent, because they feel that investments made by the bank must in a large measure be of the highest type low-interest yielding securities.

The depositors' committee and board of directors wish to express their appreciation for the cooperation of the depositors in making it possible to reorganize the Kendrick State Bank and "no little credit" is due H. B. Thompson for the successful termination of what seemed for a little time a very serious situation for the depositors.

Mr. Thompson states that he is well pleased with the business done at the opening of the bank and wishes to express his appreciation for the cooperation he has had both from depositors and the general public.

Both of Kendrick's banks are now in operation and an atmosphere of optimism prevails throughout the village and the entire community.

Much Wheat Being Sold

Much wheat has been sold during the past week, and more especially since the price has taken a decided upward trend. The Vollmer-Clearwater Co. estimates they have bought about 40 cars since the first of July and the Kendrick Rochdale company has bought about the same amount (estimated), nine cars having been bought by them last Saturday, the largest amount bought by them in any one day, although Tuesday was a close second. Many who are holding wheat hesitate to sell on a rising market, else there would have been a great deal more wheat moving.

It is estimated that on the first day of July the Vollmer-Clearwater company's warehouse contained some 90,000 bushels of wheat and the Kendrick Rochdale company had an amount estimated at 77,000 bushels stored in their warehouse and elevator.

The above does not include several thousands of bushels of barley and oats in storage in both houses.

New Arrivals

Mr. and Mrs. Fred O. Sapp, Juliaetta, are the parents of a baby daughter who came to their home on July 8. The little miss tipped the scales at nine pounds.

Mr. and Mrs. C. E. Johnson, residents of Kellogg, are the parents of a nine-pound daughter, born at the home of Mrs. Johnson's sister, Mrs. R. C. Smith, at Leland, July 10.

Car Hogs To Coast

Dave Gentry shipped a car of fat hogs to the coast market Monday night.

KENDRICK COMMERCIAL CLUB IN MONTHLY MEET

The regular monthly meeting of the Kendrick Commercial club was held in the Raby Hotel Monday evening, with 18 in attendance. A fine fried chicken dinner was served by Mrs. Raby and her assistants which was very much enjoyed by those fortunate enough to be present.

In the absence of President E. A. Deobald, H. B. Thompson, vice-president, presided and the business of the evening was taken up.

A report was made that \$25.00 had been sent by the local Red Cross to the flood sufferers at Bonners Ferry, which was very commendable.

A communication from Habana, Cuba, asking for information regarding local beans was ordered turned over to the bean handlers of the town. The communication is indicative of the fact that Kendrick beans have a reputation far and near as being among the finest grown.

Chairman Thompson, asking for committee reports, commended W. J. Carroll, chairman of the entertainment committee, for the fine history of Kendrick prepared by him and broadcast recently from KHQ in Spokane.

N. E. Walker, chairman of the highway committee, made report that progress had been made toward securing rights-of-way on Bear ridge for the proposed new farm-to-market road that will be built from Kendrick to the top of the grade, some four and a half miles. The road will be built with government money, procured through the state highway department and it is expected that work will start in about six weeks. The road will also be surveyed from the top of the hill through to Deary, according to information received from authoritative sources. This work will take approximately two weeks.

The information has also been received that Nez Perce county has asked for enough money to at least repair the road from Arrow Junction to the Latah county line, from where it is hoped that it can be at least resurfaced through to Kendrick.

It would seem that at least a portion of the "dream" of the Kendrick community for a good road through from Arrow to Deary. N. E. Walker and his assistants have put in much time working on this project for the past several years and Gov. C. Ben Ross has evidently seen the feasibility and the benefit of a road through this territory and gave it his sanction.

It will eventually open a territory that has been hard to reach and it is the ambition of those who have the best interests of the entire territory at heart that later feeder roads will be built to connect with his highway that will reach practically every farm in the district which it will serve.

There is a need of a road over American ridge to connect with the Troy road and this will undoubtedly be taken care of as soon as possible. Contemplated roads will later be built where they will do the most good for the largest number of farmers—and "let the tourists fall where they may."

There is also an urgent need of the proposed road leading down Wauncher gulch from the Southwick and Cavenish sections and it is hoped that those interested in such a road will get busy at once and ask for the necessary funds. Farm-to-market roads are one of Gov. Ross' hobbies and it is hoped progress can be made along that line.

Rev. Elmer Beckman, newly-appointed pastor of the local Methodist church, was present and made a few pleasing remarks which were well received and he was given the glad hand by the club. Rev. Beckman is a young man of pleasing personality and was heartily welcomed.

Reference was made of a harvest festival and sales day to be held some time this fall. The idea was given hearty support by those present and there is little doubt but that something of that kind will be put on this fall. The matter will be discussed further at the next meeting of the club.

The meeting was rather short but very interesting. It is such meetings as these that serve to cement a community together and the only regret is that more people of the town are not interested enough in our little city to come out and do their bit toward making it a better place to live and keeping it on the map.

Make it a point to be present next time. You will be welcome. It is the community as a whole that should be considered—not individuals.

TEAKEAN GOSSIP

We were visited with an electric storm Sunday afternoon, with rain and hail.

Mrs. Paul Lind and little son Bobby of Kendrick are spending the week at the home of Mr. and Mrs. John Lind. Ike Morgan traded his place here to Mr. Harrington of Lewiston. The new owners have not yet moved in.

Folks are very busy making hay now. The timothy seems to be light in most places, but the orchard grass is heavy.

Wallace Sewell reports a very interesting and helpful trip to the southern part of the state, where he went as a delegate to the district conference of the Brethren church.

Mr. and Mrs. Orval Choate and family spent last Sunday at the Ed. Choate home.

Next Sunday we are expecting a crowd of young folk from the Brethren church at Moscow to come and spend the day here and give us a program. There will be a basket dinner at the church. Mr. Fike will preach in the morning and evening. The program will be in the afternoon.

Mrs. Merton Preussler spent Tuesday with Mrs. Wm. Groseclose.

Joe Choate has been hauling lumber to build a new barn.

L. Clanin steamed up his engine

and moved a small building from another place down where he could use it as a shop.

Wm. Groseclose and son have made about ten thousand shingles, but had to quit this week to make hay.

Carroll Groseclose and Merton Preussler are working together haying. They began at Grandpa Olsens and then to Preusslers, then to Edward Brocks, and now on to the Groseclose place. They will also cut for Mr. Lansing.

Mrs. John Lind and Mrs. Paul Lind visited with Mrs. Wm. Groseclose Tuesday afternoon.

Malice Aforethought

The cowpuncher had applied for a policy and the insurance agent was catechizing him in the usual manner. "Have you ever met with any accidents?"

"No," said the cowboy, but added, in an effort to give some helpful information. "A bronc kicked two of my ribs in last summer and a rattlesnake bit me on the ankle a couple of years ago."

"My word!" faintly expostulated the insurance agent, "don't you call those accidents?"

"Naw," said the knight of the branding iron, "they done it a-purpose."

Soothing-Rousing-Satisfying

A man reported to his friends that a lecture which he had delivered the evening before had proved soothing, rousing and satisfying to his audience.

His skeptical comrades jeeringly demanded an explanation, which was given in the following terms:

"It was soothing for half the folk fell asleep; it was rousing for the other half got up and went away; and it was satisfying, for they all declared that they wished never to hear that man again."

8 p. m. Evening worship: Subject, "The Twenty-first Amendment."

7 p. m. Young People's Forum led by Paul Lind.

A number of the young people met in the cool basement of the church last Sunday evening to consider the question of War. There are many phases to the question and the subject was little more than introduced last Sunday. You will want to get in on these discussions from Sunday to Sunday.

There will be an important meeting of the official board of the church on Monday evening at 8 p. m.

The tactful Mexican artist who painted Lenin on the Rockefeller building would probably paint Luther on the walls of the Vatican.

Wheat has hit 67 cents a bushel in Kendrick, with
conditions in general pointing to a rapid recovery
from the depression.

Many of you have had your trials and hardships,
as we have had ours, but with that spirit of

Prosperity

We have heard about PROSPERITY being
"Just around the corner." It appeared that we
would never reach that corner, but from the trend
of prices and conditions, we have evidently round-
ed the corner and the future never looked bright-
er for the Potlatch country.

The Farmers Bank, which has served the ter-
ritory for a third of a century, has just extended
its charter for another 30 years. The Kendrick
State Bank has resumed business after the Bank-
ing Holiday. We not only extend to them, but
to the people of the community, our best wishes
on this occasion.

LIBERTY OR DEATH
Besides, sir, we shall not fight our battles alone. There is a just God who presides over the destinies of nations, and who will raise up friends to fight our battles for us. The battle, sir, is not to the strong alone; it is to the vigilant, the active, the brave. Besides, sir, we have no election. If we were base enough to desire it, it is now too late to retire from the contest. There is no retreat but in submission and slavery! Our claims are forged! CAVENDISH NEWS ITEMS

Why They Call It Cavendish
In the early '80s Alonzo E. Snell felt the call of the then undeveloped west and started out from his birthplace, Cavendish, Vt., to seek his fortune in the land of which Horace Greeley made his famous reference. Snell was delighted with the prospects offered by the Potlatch ridge country and he traveled on until he came to a site suitable to his purpose—well timbered and of rich soil—and located. His first thought was for a name for the station he planned to establish, and his thoughts wandered back to his Vermont home, and he called it Cavendish.

Cavendish is now a settlement around the postoffice of that name, about four miles southwest of Southwick and six miles north of Peck. It was once the site of the old Snell and LeBaron sawmill, operated for many years by the original settler and William LeBaron, who followed the gold rush to Lewiston in 1862. LeBaron settled in 1863 on a pre-emption claim four miles east of Lewiston, which later became the old Porter ranch. In 1880 he sold his property and engaged in rafting timber down the Clearwater, being the first in that business. He went to Cavendish in 1890, buying a half interest in the Snell mill and later becoming sole owner.

Timber became scarce around Cavendish after the turn of the century and the mill was abandoned, but the richness of the soil was unchanged. Snell, who has a daughter, Mrs. Ben McCoy, living at Southwick, one time made his home in Lewiston. The large residence back from Main street on the lot adjacent to the west of the Brower-Wann mortuary was where he lived. Leslie Thompson, who came to Lewiston in 1883, stayed at Snell's home for a year or more.

Cavendish is noted for raising quality beans, peas and wheat along with other products of the soil. Two of William LeBaron's sons, Roy LeBaron and Frank LeBaron, still farm there.

The postoffice and sawmill occupied the Snell farm. Cavendish does not appear on the township plats of Nez Perce county, of which it was a part until 1911 when Clearwater county was carved out of Nez Perce.

Wheat seems to be tied to a sky-rocket—and do we like it? I'll say we do! The higher it goes the better off we will be. But don't forget what old Bossy did for us when wheat was netting about 16c a bushel. Wheat may make you a living, but old Bossy gives the "cream" of our living and still will bring in the good old hard cash at this station.

This hot weather makes it hard to keep cream in good condition, so we always return a steam-cleaned, sweet, cream can, and we try

our best to give you real service—so give us a try, too.

The Wheat Process Tax

Here are some facts about the wheat processing tax which went into effect at midnight, July 8:

Rate—30 cents a bushel on wheat processed by flour millers and other manufacturers of food who are primary processors of the grain.

Estimated yield—\$150,000,000.

Purpose—To provide funds to pay growers benefits in return for agreements to reduce their wheat acreage in 1934 and 1935.

Time—The tax will be in effect for one year and may then be continued under a new order by the secretary of agriculture.

Tax in terms of flour—It will amount to \$1.38 per 196-pound barrel of flour.

Bread—Secretary Wallace estimates that if the tax is reflected directly into the price of a pound loaf it should be not more than half a cent.

This is exclusive of recent rises in wheat prices and other ingredients of bread.

Good Old Summertime

The past week or more has been the "good old summertime" sure enough, although the mercury has played tag with the 90s it has not been hot enough to cause much discomfort—and it always cools off at night.

Back in the Central states the mercury touched the 100 mark on several occasions and many deaths have been the result.

Again we make the assertion that it is a pleasure as well as a privilege to live in the Potlatch country.

Lewiston Weather Office To Close

The United States weather bureau in Lewiston and 22 other observation stations in 17 states will be closed on August 1 as part of the department of agriculture's effort to cut expenditures this year \$15,000,000 below its appropriation of \$75,000,000. Notification of the change was received in an Associated Press dispatch to the Tribune.

Picnicked in Park

A picnic party in the park last Monday was made up of Mr. and Mrs. Dean Wright of Agatha, Mr. and Mrs. Silvie Cook and Margaret, Mr. and Mrs. Enoch Harrison of Leland and Mr. and Mrs. Wm. Clem and Junior of Leland. A picnic dinner was spread at the noon hour.

ABANDONMENT OF HORSE IS DEPRESSION CAUSE

The census bureau believes that man's abandonment of his old friend, the horse, was a main contributing factor to the depression.

In a pamphlet entitled "the farm horse" farmers were invited to turn their attention to the raising of horses and mules as a good business proposition in the present economic situation.

The manner in which the pastures where horses formerly cropped and the oat-fields that filled their nose-bags figured in causing surpluses was set forth by Z. R. Pette, author of the brochure, as follows:

"The decline of 6,313,696 in the number of farm horses and mules in the last decade is one of the main contributing factors of the present economic situation.

"At least 18,000,000 acres of crop land, formerly required to produce horse feed, have been put into other crops in the last decade

"This added acreage, augmented by the release of that part of 3,000,000 acres of plowable pasture formerly devoted to horses, has resulted in surpluses of various crops and livestock; in many crops the surpluses have resulted in decreased prices for these farm products, greatly lowering farm purchasing power; and the reduction in the latter has affected the entire country."
