KENDRICK, LATAH COUNTY, IDAHO, FRIDAY, NOVEMBER 10, 1933

NO. 46

HIGHLIGHTS OF THE WEEK'S NEWS DISPATCHES

Ghosts of thousands of miners who panned millions of dollars worth of gold in nearby streams sixty and seventy years ago stirred as S. L. Godfrey told the story of his latest find at Pierce City. Godfrey, who is known to prospectors as far north as the arctic circle, took \$20,000 from Rhodes creek in 70 days, using an antiquated dredge to get down to bedrock in a spot over which hundreds of panners and rockers worked in other times.

A voluminous document compiled by representatives of all government departments and agencies concerned with the repeal of the 18th amendment was before President Roosevelt for his study. At the same time it became known that the president has begun his own study of what would happen if repeal were had. His intention not to lift the embargo on the importation of liquors from abroad was reiterated.

Shortly after Verne Miller, middle-western desperado, sought for a dozen major crimes, shot his way through a trap set by government agents at Chicago, a woman believed by authorities to be his wife was apprehended in a hotel and taken to headquarters of the United States bureau of investigation for questioning. The woman was held incommunicado and D. O. Smith, acting head of the bureau refused to make any statement. Miller, one time South Dakota sheriff who turned outlaw and is sought as leader of the gang responsible for the slaying of five men in Kansas City on June 17, shot his way to freedom in the north side of Chicago, but the car in which he fled was later found stained with blood and it was thought he had been wounded.

The sale of more than 750,000 bushels of Pacific northwest wheat by the north Pacific emergency association to foreign markets was announced at Portland by Douglas McIntyre, representative of Secretary of Agriculture Wallace on the executive board of the association. The association was created here several weeks ago to move 40,000,000 bushels of Pacific northwest surplus wheat to foreign markets in accordance with a marketing agreement reached here under which the association buys wheat from the growers at the domestic price and exports it to foreign markets at the world price, and the federal government pays the difference, now running about 20c per bushel.

The government apparently eased up on its foreign gold buying, but advanced the price of the metal when newly mined in the United States to another new high figure. While dispatches from abroad told of inactivity on the bullion markets, the domestic price was increased from \$32.57 to \$32.67. This change was accompanied by a decrease in the London price of gold from \$32.26 to \$32.08. London advices said only one purchase of gold was made there today and it a comparatively minor one involving only 1,104 pounds worth of the metal.

President Roosevelt and Great Britain's representative came to the end of the road on the proposal for downward revision of war debts that are owed this country. At a final White House conference, it was conceded there was no basis for any new agreement on debts. Soon a statement will be given out explaining the differences that prevent a solution of this vexing problem. The British, in asking for a downward cut, were unable to meet the terms of Mr. Roosevelt. So discussions were called off.

A new Jersey national guard airplane, piloted by Lieut. George R. Johnson, South American explorer and noted aerial photographer, crashed into a bungalow in Beach street at Shrewsbury, N. J., late Sunday and exploded, trapping in the flames Johnson, his passenger, and the occupants of the bungalow. Both fliers were killed and the others, either four or five in number, perished in flames that razed the structure.

Are Rebuilding Phone Line

A crew of workers for the Pacific States Telephone company arrived in Kendrick Wednesday afternoon and will remain here for the next two or three weeks. They are rebuilding the telephone line into Kendrick. Some of the crew will be quartered at the Raby Hotel, while others will have apartments elsewhere.

Pullman Is Shaped Like Bullet

A "rail-plane" car built along the lines of airplane architecture and designed to carry passengers over railroad tracks at 90 miles an hour was announced recently by the Pullman Car and Manufacturing corporation. Sixty feet long and with seating capacity for 50 persons, the car is manufactured of a heat-treated aluminum alloy weighing only one-third as much as steel. The car weighs only 25,000 pounds.

Shaped like a bullet with both ends rounded the car is built to cut down air resistance to the lowest point.

NO "HELP" NEEDED TO APPLY FOR FARM LOANS

Despite the fact that the Farm Credit Administration's statements to the press, over the radio and in pamphlets emphasize the fact that farmers should apply for loans directly to secretary-treasurers of national farm loan associations, authorized correspondents of the Federal land bank or to the bank itself, a number of unofficial and unauthorized individuals have sought to collect fees or commissions from farmers for the so-called service of helping them to obtain loans, according to an announcement made recently by the Farm Credit Administration.

These individuals told prospective borrowers that they could aid them in obtaining loans or increase the amount which they would be able to borrow, neither of which they could do. Some individuals have offered to perform this so-called service for a commission or fee. The statement is repeated by the Farm Credit Administration that no official intermediary is necessary for farmers to make application for loans and no such person will have any influence upon the amount of the loan which will be made.

The form of application adopted by the land banks some months ago was very much simplified compared to the former application and an ample supply of the blanks is always in the hands of the secretary-treasurers of national farm loan associations or authorized correspondents of the banks. The initial deposit which a farmer must make when applying for a loan also has been reduced and only one deposit is required whether the application is for a land bank loan, a commissioner's loan or both. In fact, the procedure has been so simplified that the borrower does not have to designate whether he desires one type of loan or another. The property which the farmer offers as security is so appraised that when the appraiser's report is before the loan committee of the bank, it can determine whether one or two loans may be made and the applicant is so notified and told of the amount or amounts.

A few weeks ago when applications were being received by the banks much more rapidly than appraisals could be made, farmers were notified that, should they desire to have their initial deposits returned to them pending the time when the appraisal of the property could be made, it would be returned. Relatively few farmers requested returns. Recently the number of appraisals has exceeded the number of applications. Last week it was exceeded by 5,500.

The initial deposit required of borrowers is \$11 which includes the one dollar charged by the secretary of the national farm loan association or the authorized local correspondent of the bank. If it appears obvious to the bank, after careful study of the farmer's statement, that no loan can be made, and if no appraisal of the property is made the \$10 is returned to the applicant. If an appraisal is made any unused part of the deposit is returned to the applicant. If the loan is made the initial deposit, of course, is applied on the cost of making the appraisal and other expenses incident to the farm mortgage loan.

Samuel Maxwell At Rest

Funeral services were held in Julietta at the Methodist church Sunday morning at 10 o'clock for Samuel Maxwell, the Rev. M. Sapp officiating. Music was furnished by Mr. and Mrs. Claud Clark, Miss Alice Cochran, Mrs. W. J. Cochran and Mrs. Gladys Millard, accompanied by Mrs. M. C. Halliday.

The body was laid at rest in the Fix ridge cemetery. The pallbearers were: Melzer Eaton, Ed. Grant, Frank Spray, Robert Douglas, Thomas Taylor and Wayne Steele. The Brower-Wann company had charge of arrangements.

INTERESTING NEWS BITS FROM OUR SCHOOL

Senior Nut Party

The novel idea of the Senior Nut party was a big factor in the success of the event. Invitations written on shipping cards with a nut attached by a cord, invited the guest to an evening of "coming crazy and acting natural." They did, and everyone went home wishing for a chance to repeat the fun.

Basketball

Only a little over a week remains before the first game of the season. Those who wish to get in on the bargain ticket sales for the whole season will see that they have very little time to do so. These tickets are well worth the price—admission to at least ten boys' games and additional girls' games—all for \$2.50 (or \$2.00 if two adults in the family buy). The price for adults to each game has been settled by the Finance Committee to be 35 cents. Since there are to be ten boys' games besides the girls' games, one can see that he will save a considerable amount of money by buying a ticket now. Six individual games will buy one ticket.

Student body tickets for the High school will be \$1.50. The price for the student to see each game is 25c. Students will save as much as town people. Remember—the first game is next Friday, November 17.

Short Items

Margaret Cook's name was omitted last week from the group who took part in the ceremony of crowning the Queen at the carnival. She was the crown-bearer.

Sample pictures of the various classes, taken last week, have arrived. All who want copies may order this week.

Representatives from the Kendrick school staff attended the teachers' institute in Moscow last Saturday. Plans were made to have, next spring, a music festival for all Latah county grade pupils. The possibility of having a grade track meet at the same time was discussed.

Phyllis Cummings has been appointed student librarian. This is an effort to keep the library in order.

Orders were sent in this week for rooters' arm bands. Those who wanted them, ordered bands with their class number on them. These flashy bands will be worn at all games and will add greatly to the spirit of the student body organization.

The Home Economics class is putting into practice their last week's study of leavening agents and quick bread by making pop-overs, griddle-cakes, and waffles.

United States history class studied why the United States is planning to recognize Soviet Russia, and they also discussed the President's new Monetary system.

The General Science class is now studying the theory of the earth's origin.

Some of the students in bookkeeping have begun their first practice set.

Advanced typing class has begun practical business studies, conducting sales correspondence, and studying the writing of invoices.

Elmer Emery is constructing a new desk in manual training. It is to be used in the office.

The Boys' Glee club plans to appear before the assembly soon.

Mr. Wheelchel has received his first copy of the "Bulletin of Pan-American Union." The Spanish class will have access to this foreign publication.

In the class basketball tournament last week the Seniors emerged victorious in their games with the Juniors and with the Sophomores. The Sophomores defeated the Freshmen.

About fifteen girls are reporting regularly for girls' basketball practice.

This year in their music study the grade school children will follow the program suggested in the new Idaho chorus plan.

The first and second grades, looking forward to Thanksgiving, have decorated their room with pictures of turkeys and pumpkins.

A poster on health is being made by the third and fourth grades.

The fifth grade entertained the sixth grade with a belated Halloween party last Friday afternoon. The sixth grade earned this by winning the Health contest during October.

KENDRICK PIONEER PASSES TO BEYOND

Perhaps one of the best-known pioneer women of this section passed away to the Great Beyond at her home in Kendrick Wednesday night about 10:30 when "Grandma" Catlett (Stanton) closed her eyes in the last long sleep.

Grandma Catlett (Susan Gaffney) was born in Kentucky on August 27, 1844 and passed away November 7, 1933, at the age of 89 years, 2 months and 10 days.

In 1862 she was united in marriage to William Howard Stanton and to this union eight children were born, seven boys and one girl, all but three of which have preceded her in death. Those still living are: Claude of Elk River, James of Nez Perce and Samuel of Kendrick.

Mr. and Mrs. Stanton moved to Kendrick in 1887 and settled on Texas Ridge, later moving to Kendrick, which has since been her home.

"Grandma" Stanton was united in marriage to Mr. Joseph Catlett on September 3, 1930 and leaves to mourn their loss her husband and three children, besides 18 grandchildren and 28 great-grandchildren. "Grandma" Stanton Catlett was one of the early pioneers of this section and was known over its entire length and breadth—known and loved by almost everyone. She saw Kendrick grow from a single store and postoffice to what it is today—saw depressions come and go—and could tell many interesting stories of pioneer days, and it is with sincere regret that we are forced to say that to date we have been unable to obtain a more detailed account of her life and pioneer history.

The funeral was held Thursday afternoon at 1:00 o'clock from the Kendrick Community church, with the Rev. E. E. Beckman in charge.

Funeral arrangements were in charge of Wayne S. Herres of Orofino.

Celebrate Wedding Anniversary

A lovely capon dinner (with all the trimmings) was given by Mr. and Mrs. R. B. Parks at Leland on Sunday, November 5, in honor of their thirty-fifth wedding anniversary. The children and their families were their guests, which were: Mr. and Mrs. Hugh Parks and family, Mr. and Mrs. Homer Parks and family and Mr. and Mrs. Harold Parks and baby.

Mr. and Mrs. R. B. Parks are well-known residents and prosperous farmers of this section, having lived in and around Leland since they were married.

Mrs. Parks moved here with her parents, Mr. and Mrs. Charles Hamilton, in the year of 1887, and Mr. Parks moved here with his parents in the year of 1897.

Mr. and Mrs. Parks were married in Lewiston on Nov. 5, 1898.

The community joins in wishing them many more happy anniversaries.

Be Closed Armistice Day

Both the Farmers Bank and the Kendrick State Bank will be closed all day, as will the post office and the Gazette office.

At the request of the American Legion it has been announced that all stores in Lewiston will be closed during the day.

Afternoon Bridge Club Entertained

Mrs. Harold Thomas was hostess to the Afternoon Bridge Club on Thursday afternoon of last week when a very delightful time was spent by the ladies: Mrs. H. B. Thompson won high score for the afternoon. Mrs. E. H. Trump was an invited guest.

Rebekahs Entertain

The Rebekahs entertained their husbands and the Odd Fellows and their wives Tuesday night after lodge, at which time the assembly reports were given. Bridge and pinocle were played until a late hour. Lunch was served at the close of play.

Have Taken Apartment

Mr. and Mrs. David Jones have taken an apartment in the Kendrick Hotel Building for the winter. Mr. Jones is a member of the state surveying crew working out of Kendrick.

Were At Juliaetta

Mr. and Mrs. Silvie Cook and daughter Margaret were dinner guests at the home of Mr. Cook's brother and family, Mr. and Mrs. Claude Cook, at Juliaetta Sunday.

Old Settler Reports

In mentioning the old settlers who had registered for Market Day at Kendrick last week, the name of S. S. Taber, Juliaetta, was omitted, he having arrived in this section March 20, 1878. However, as Mr. Taber was not in Kendrick on that day, so far as known, it was given to the oldest one registered who was in town on that day. We are only too glad to make these little corrections—and had Mr. Taber been in Kendrick on Market Day he would have been just two dollars ahead.

SPECIAL KENDRICK COMMERCIAL CLUB MEETING

The regular monthly meeting of the Kendrick Commercial club will be held Monday evening, November 13, but in place of the regular dinner, the meeting will be held in the Fraternal Temple and will take the form of an entertainment and general good time, when the farmers and their wives are asked to be the guests of the Commercial club at the entertainment and the luncheon that will follow the program.

The entertainers, the "Harmony Busters," from Lewiston, are said to be among the best to be found and from all information given out, will take the form more of a regular "Hill Billy" entertainment, enjoyed by so many people. They are said to be past masters in their special line and everyone who may have the privilege of hearing them will undoubtedly be repaid for the time spent.

The Commercial club asks the farmers and their wives to come in and see, as guests of the club.

Still Making Violins

Tom Sturdevant, our local Stradivarius maker, has one of the finest displays of violins to be found anywhere—and they are not only nice looking, but have a tone that one would hardly expect to be found in a violin of local make. However, Mr. Sturdevant surely knows his violins and it is well worth the time of any lover of those instruments to see them and hear their beautiful tone.

Mr. Sturdevant has now made nineteen violins during the past two years. He says they will not reach their best tone for another year yet as they have to dry and the special oil finish penetrate the wood thoroughly before they come to their finest tone.

Death of Brother

Henry Clay Barr, 60, who came from Pennsylvania to Whitman county, Wash., 40 years ago, died Thursday, Nov. 2, at St. Ignatius hospital, Colfax, after a three-month illness. For the last 26 years he has lived on a ranch 14 miles south of Colfax.

Surviving are his wife; one son, Henry; four daughters, Edna, Lola, Mabel and Pearl, all at home; three brothers, Bruce, Colfax; Ira, Green-castle, Pa.; and Harvey, Riparia, Wn.; and four sisters. Mrs. Dave Klopftenstein, Kendrick, Idaho; Mrs. Harvey Snively, Umpvieve, Ore.; Mrs. George Moys, Almota, and Mrs. Lee Abbott, Conrad, Montana.

Beans and Wheat Moving

The Kendrick Bean Growers Association state that they have shipped only about 900 bags of beans this week, while the Kendrick Rochdale report the shipment of a large car since our last report. They also report the shipment of three cars of wheat and one of barley.

The Vollmer-Clearwater company manager, Wade Keene, states that they have shipped no wheat this week but that last week they sent out six cars.

Farmer Commits Suicide

Louis M. Odberg, 46, prominent farmer of the Genesee section committed suicide Monday by placing the muzzle of a 30-30 calibre rifle in his mouth and pulling the trigger.

Mr. Odberg was known by practically everyone in that section of the country, having farmed there for the past 25 years. He was a bachelor and lived alone.

Attend Masonic Meet At Moscow

Frank H. Rider, Dr. G. W. McKeever and F. B. Higley attended a meeting of the Masonic order at Moscow Monday evening, a dinner being served at 7 o'clock. The meeting had been called by the state grand master and was attended by several of the higher officers.

GRAIN MARKET UNSETTLED — DECLINES—THEN GAINS

Domestic grain markets were quite unsettled during the week ended on Nov. 3. Prices fluctuated sharply, but early declines were partially offset by later gains, according to the Weekly Grain Market Review of the United States Bureau of Agricultural Economics. Weakness in security markets and some liquidation of grain futures holdings, together with a slack demand for cash grain, were weakening influences, early in the period, while continued dryness in the winter wheat belt, sales of wheat for export in the Pacific Northwest, and light offerings of cash grain, strengthened the market and brought about an upturn in prices toward the close. Prices of most grains, however, remained 2c to 3c per bushel below a week ago.

While winter wheat made good progress in the soft winter wheat belt, dryness restricted growth in hard winter wheat areas. In Kansas, wheat was reported in good condition in the eastern third of the state, but poorer to only fair in central and western sections. In the western part much of the wheat has not yet come up. Moisture is generally deficient throughout the southwest and most central western sections of the winter wheat area. In California and the Pacific Northwest conditions are most favorable as a result of recent rains which have been beneficial to growing grain and for the germination of seed. Under the wheat reduction program farmers have signed agreements to take nearly 8,000,000 acres of wheat out of production in 1934. About 3,250,000 acres are in hard winter wheat belts, 2,750,000 acres in the spring wheat states, about 500,000 acres in the soft winter wheat area and close to 1,000,000 acres in the Pacific Northwest, Colorado, Idaho and California.

The general wheat market situation strengthened somewhat during the week. Wheat prices at Liverpool advanced about 2c per bushel, but prices of native wheat in Europe held about unchanged in terms of local currency. French wheat at Paris advanced 2c while Italian wheat declined 1c at Genoa and German wheat held unchanged at Hamburg. In terms of U. S. currency, however, these wheats were 7c to 10c per bushel higher than a week ago. A feature of the European markets was the cheap offerings of Hungarian wheat in Italy and Liverpool and the relatively low prices of German grain. On Nov. 3, German wheat was quoted at Liverpool at 51c, Hungarian wheat afloat at 52c, Russian wheat at 53½c, Argentine wheat at around 59c and Australian wheat at about 67c per bushel. An English purchase of a part cargo of Pacific Coast white wheat for December shipment at the equivalent of 71c per bushel including the British tariff was reported. The sale of a cargo of Plate wheat and one cargo of Australian wheat to Shanghai mills was also reported during the week.

The oats markets were somewhat easier in sympathy with other grains, and a continued dull demand. Pacific Northwestern markets were practically steady, with the heavy early movement of Oregon oats almost completed, and with lighter offerings from growers. Inquiry both locally and from Atlantic coast markets was only moderate. Receipts at Puget Sound and Columbia river terminals for the season, July through October, totaled 673 cars, compared with 336 cars for the same period a year ago. No. 2 white oats were quoted at Portland at \$1.10 per 100, with No. 2 gray oats at \$1.15 per 100, both sacked. Middlewestern oats markets declined with the limited demand, although offerings were light. No. 3 white oats were quoted at Minneapolis at 94c to 97c and at Kansas City at \$1.00 to \$1.03 per 100.

Confirmation Telegram Received

A telegram from the state highway department was received last week by N. E. Walker confirming the statement that bids for the construction of the Big Bear ridge road would soon be called for. The telegram follows: "Boise, Nov. 2, 1933. With reference to your letter, will take bids Bear ridge road latter part of this month. (Signed) Roy G. Gartner, Acting Office Engineer."

There is little more that can be added at this time, but it would seem that we are at last on the right track and that the road will be built this winter—weather conditions permitting, of course.

"Song of the Eagle"

The feature film at the Kendrick Theatre for Friday and Saturday nights of this week will be "Song of the Eagle," the story of your generation.

What America may expect from the gangster now that beer, his principal source of income, has been legalized, is shrewdly predicted in "Song of the Eagle," drama portraying the march of events in America during the past two decades and in the months to come.

Whether the bootlegger will be content to sit back and permit the government to "muscle in" on his strongly entrenched business, or whether he will fight back, is a question facing the American public and police authorities today. The picture boldly attempts an answer.

Action of the picture centers around a respectable middle-class brewing family, which faces war, peace, enactment of prohibition, prosperity, depression and finally the legalization of beer with as much dignity and fortitude as it can muster. Legalization of beer and the prospect it opens for recreating the prosperous business they once owned seems to atone for the sorrow and suffering of the previous decade, but they immediately find themselves confronted with the gangster question. The picture's answer to the problem is a daring one.

Game Warden Visits

Walter Harris, deputy game warden, was a Kendrick visitor last Saturday. Mr. Harris stated that very few infractions of the game laws had been discovered, but that they were keeping close tab on what is going on in that line.

Money Up In Smoke
Over at Portland, Oregon, the other day a cigarette, believed by firemen to have started a fire in a davenport, cost Ward F. Dean \$4,000 in currency.
Called to the Dean residence, in answer to an alarm, the fire-fighters found the davenport in flames and after extinguishing the blaze, which they believed caused but slight damage, they were informed that the article of furniture had been used by Dean as a hiding place for his savings.
A frantic search of the charred davenport revealed no trace of the money. Even sifting of the ashes revealed not one piece of the currency.

Dated this 23rd day of October, 1933.
CHARLIE SUMMERFIELD,
44-4 Sheriff.

SLEEP ALL NIGHT WITHOUT WAKING SLEEP UNDISTURBED
It's easy. Make this 25c test. Drive the impurities and excess acids from the bladder which cause the irritation that wakes you up. Get a 25c box of BUKETS, the bladder physic, from any drug store. After four days test if not satisfied go back and get your 25c. They work on the bladder similar to castor oil on the bowels. You are bound to feel better after this cleansing and you get your regular sleep.

Reopen Indian Office At Lapwai
Arrangements are being perfected to maintain an office of the Indian agency in Lapwai for the transaction of business pertaining to the reservation and the affairs of the Nez Percés and hereafter it will not be necessary to go to Moscow.
Under the new arrangement it will be possible for the Indians to secure their money through the Lapwai office, a continuance of a policy of the past, and payments of leases may be made in Lapwai or in Moscow; also applications for leased land can be made at Lapwai.

Last June the Indian department announced that all business of the agency would be handled at Moscow. This brought objections from whites and Indians. Last week a committee on Indian affairs of the United States senate met at Lapwai and the tribal people raised a serious objection to being inconvenienced by traveling to Moscow to transact business.
Mr. Powell and Mr. Maxwell will be the officials in charge at Lapwai. Corbett Lawyer, for 17 years lease clerk at the agency, has been transferred to Moscow. He will hold the same position there.

WHY MOTHER, THERE'S NOT A SINGLE REASON WHY YOU SHOULD CONTINUE TO STRAIN YOUR BACK AND RUIN YOUR HEALTH OVER AN IRONING BOARD. A THOR IRONER SAVES ALL THAT HARD WORK. YOU ACTUALLY SIT DOWN AND REST WHILE YOU FEED THE PIECES THROUGH.

Heavy weight lifters

belong in the circus...not in the home!

She lifts 12,000 pounds of dead weight! No, not the circus strong woman with bulging biceps and shoulders like an ox...but the average woman doing the average week's ironing the old-fashioned way. It is a back-breaking, disposition-spoiling, health-ruining job. Why go on doing it, when the Thor automatic ironer costs so little and saves so much? You do in two short hours the ironing that took you eight hours to do by hand. There's no lifting, no pushing, no standing. You actually rest while you are working.

With the new Thor Washer, the Thor Ironer gives you a complete modern home laundry. See them at once. Buy yours before prices go up.

EDITORIAL

Hello, There Folks—Well, we see by the big daily papers that the 18th amendment has been repealed. Our nation will again be among the wet ones—and it may effect the price of corn andrye—but while we're waiting for that let's just continue to sap old Bossy and sell the cream. That's a sure source of income—and while money may not always be a necessity—it's a mighty handy thing to have about.

So bring us in a can. We pay spot cash—and just as important—return a thoroughly sterilized

can, ready for use.

The girl who falls in love with movie stars is almost as hopeless as the cow that falls in love with a Bull Durham advertisement.

Mrs. Geo. Leith—"What dreadful language your parrot uses!"

Mrs. H. B. Thompson—"Yes, Hugh brought it home in the car and I understand he had three blowouts and engine trouble on the way."

There's many a slip twixt the tip and the sip.

W. W. P. Agent Visits

W. Foster, formerly manager of the Washington Water Power company at Kamiah, but who was recently appointed agent for the company at Troy, to succeed Mr. Campbell, was in Kendrick the latter part of last week meeting the business men and looking after business here.

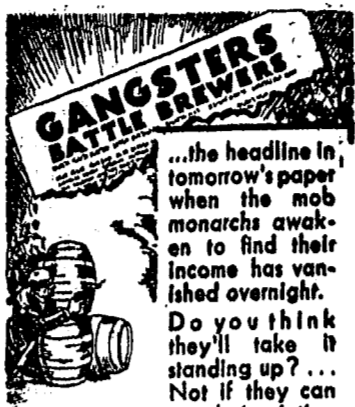

Mr. Foster is a very pleasant man and no doubt will make many new friends in this territory.

Weather Still Fine

If California has any finer weather than we have been having in the canyon for the past few weeks—well, we just couldn't stand it, that's all. For who would ask for anything better. There is just enough tang in the air each morning to make one step lively and feel that he is glad to be alive—and have the privilege, as well as the pleasure, of living in the Potlatch community.

(Delayed)

We are having very good weather for the time of year. A little snow fell a week ago but melted in a short time. We've had plenty of rain since and some frost, but it is good plow weather, which is very acceptable.

Elwood Brock has been going around on crutches for a couple of weeks. He has an injured knee, which has given him some trouble for a good while, and recently he twisted it somehow and it has been stiff since.

Harry Sampson of Arrow has been here for some time rounding up his cattle. He pastured them in this locality this summer.

Mr. and Mrs. Wm. Groseclose and Carroll returned Monday from Wilamette, Oregon, where they had been visiting their daughter, Laura Groseclose of Juliaetta accompanied them.

John Lind and Mr. and Mrs. Elwood Brock were Lewiston visitors one day last week.

Mrs. Gifford Brown is spending a while in Clarkston with her parents, Mr. and Mrs. Martin.

Mrs. Orval Choate went to Orofino to consult a doctor, as she had had an attack of appendicitis.

E. M. Harrington has been suffering with lumbago for the past week.

PILOT ROCK NEWSLETTERS

We surely didn't need anyone to tell us "Chink" season was open early Wednesday morning (and when we say early we mean just that). We were awakened by numerous shots and we are sorry to say our supply of birds is somewhat scarce.

M. L. Albright, Emery Wilson and Geo. Steele were called to Lewiston Friday as witnesses of the car accident in which Sam Maxwell was fatally injured, and Mr. Steele received a deep cut on his right hand and three fractured ribs.

A large number of the parents and friends of the school children attended the program at the school. Everyone enjoyed it, especially the refreshments, which consisted of cider and doughnuts.

Mr. and Mrs. R. W. Albright went up to Bed Rock last Thursday to get a load of corn.

Laura Blum and Wilbert Brunseik were Sunday guests at the Clay Albright home.

Miss Virginia Lee Ward was a Moscow visitor Monday evening.

Mrs. A. Alexander and cousin, Conrad Henning, were Lewiston visitors Saturday.

Night Club Queen Passes

Texas Guinan, the glamorous night club queen, who was known best for her contributions to Broadway's vocabulary, died at a hospital in Vancouver, B. C., Sunday of an intestinal illness. New York relatives said said she was about 49. The robust entertainer sent the phrase, "Hello, sucker," and "Give the little girl a great big hand," virtually around the world. Born Mary Louise Cecelia Guinan in Waco, Texas, she experienced a kaleidoscopic career that ran from the plains to the picture making of early Hollywood and then to a noisy New York climax that was studded with courtroom battles with the prohibition law.
