IHE HAND THAT PROTECTS THE HOME ...

Light is the hand that protects your home. It warns the intruder that the piercing eye of light is ready to expose him.

Prowlers seldom enter a home where a light is burning.

The cost of this protection is insignificant. It costs less than a penny to burn a 40-watt lamp for several hours.

Slippery, Sloppy, Gommy, Gooyey mud—we surely have had it with us this year, but it's made it mighty easy on the coal pile and mighty fine for the cattle— and while we're on the subject of cattle let's talk about cream and more cream—we want your cream—we need that cream—so we don't ask you to wait for your we don't ask you to wait for your money—we pay right now. It's a part of the service we give—the finest we know how to give. By the way, have you ever seen a cream test made? Many folks haven't, but whether you have or whether you haven't, we're al-ways glad to have you watch us make a test—watch us put a can through it's paces, including steam
