

THINK OF IT!

FEDERAL GASOLINE TAXES COST \$180,000,000 A YEAR.

ONE YEAR'S TAX WOULD BUY 300,000 MOTOR CARS AT \$600 EACH!

BUILDING THE CARS WOULD PUT 1,000,000 MEN TO WORK FOUR NRA WEEKS!

STATE TAXES PAID ON THEIR FUEL WOULD MAKE \$7,200,000 AVAILABLE FOR ROADS!

DRIVERS OF THE CARS WOULD SPEND \$300,000,000 IN TRADE!

REPEAL THE FEDERAL GAS TAX

LOAD CONSTRUCTION WOULD KEEP 100,000 MEN WORKING FOR FOUR NRA WEEKS!

GRAIN MARKETS FIRMER — DROUGHT UNRELIEVED

mills were closed pending settlement of the strike.

California markets were slightly firmer, reflecting principally the advance at Eastern points and the shutting off of supplies by water from Northern markets. Bay region mills operated at a relatively high percentage of capacity, since local flour demand was stimulated by higher prices from Northern mills as a result of increased transportation costs. Inquiry for feed wheat was somewhat more active with dealers inclined to hold supplies in spite of the approaching new seasonal storage period, June 1. Harvesting of new wheat began in the San Joaquin valley, while cutting was practically completed in the Imperial valley. Current trade needs at Los Angeles were being supplied principally with new crop grain from the Imperial valley but moderate quantities of old wheat were being offered from the San Joaquin area. Northwestern wheat and grain from the Intermountain states were generally quoted too high to compete with local grain, except for high protein lots. On May 25, California soft and hard wheat, sacked, was quoted at Los Angeles at \$1.25 to \$1.30, No. 1 hard white at San Francisco at \$1.20 to \$1.25 and No. 1 soft white at \$1.17½ to \$1.20 per 100.

Maynard in "Strawberry Roan"
All Western picture fans are particularly partial to Ken Maynard and his horse, "Tarzan." They will appear in "Strawberry Roan" at the Kendrick Theatre this Friday and Saturday nights. If you like real Westerns, you'll like this one.

Ken Masters and his two musical pals, Shanty and Curley are idling around when Big Jim, ranch owner, his daughter, Alice, and his foreman, Bart, come to town with the news that the Strawberry Roan, a wild stallion, is on the rampage again and luring Big Jim's mares to join his wild herd. He offers any cowboy a job who will help him round-up the wild herd. Ken, Shanty and Curley join up.

Colonel Brownlee, a big cattleman, also offers his prize ranch to the man who is good enough to ride the Strawberry Roan. Ken resolves to try for the prize. He incurs the early enmity of Bart, the foreman, who sees in Ken a possible rival for Alice. Then the fun starts—and of course you will want to see how it ends.

Notice Of Telephone Meeting
In publishing the notice of the annual stockholders' meeting of the American Ridge Telephone company the date of the meeting was omitted. It should read: "The meeting will be held at the Harland school house on Tuesday, June 5, at 1 o'clock p. m."

Should Have Lived In Kendrick
Not long ago an article appeared in the news columns dated at Santa Ana, Calif., where a woman who was 120 years old had eaten beans all her life—but was getting a little tired of them.

Now, if she had lived in the Kendrick section, where really good beans are raised, she probably would still have been fond of the fruit and she might have prospects of doubling her life span.

The Kendrick Commercial club might look into the matter and extend the old lady an invitation to try out our life-giving (and undoubtedly) life lengthening non-irrigated fruit.

Foreign grain markets were firmer but price gains, except in Canada, were not large. The Winnipeg market advanced about 4½¢ during the week, influenced by a better export inquiry and unfavorable prospects for spring wheat in the Prairie provinces.

Pacific Northwestern barley markets were dull with trading of moderate value. Mating quality barley from the Willamette valley held firm at \$1.10 per 100 but trading in this type was light since supplies are now low and remaining stocks firmly held. Inquiry from Eastern points was moderate. The more active interest from Eastern points for Willamette barley this year is reflected in the higher receipts at Portland, which have totaled for the season to date 454 cars against 166 cars during the corresponding period last year. Demand for feed grades was dull, but prices held steady, with No. 2 bright western quoted at 92½¢ per 100 and occasional offerings at 90¢.

Oats markets were unsettled with other grains and somewhat unfavorable prospects for the new crop. Light supplies of old grain, however, continued at strengthening market influence. The Portland market was steady with moderate offerings the principal strengthening influence. Trading and movement were restricted by the longshoremen's and grain handler's strike. Receipts at Portland totaled 12 cars, but some of these remained unsold on track. The Eastern movement was also restricted with ocean shipping at a standstill and grain quotations mostly nominal as a result of the prevailing strike. Middlewestern markets were unsettled, reflecting the uncertain situation prevailing in all grain markets. Demand at Minneapolis was fairly active but small daily offerings which were hardly sufficient for current needs were the dominating influence in the market.

T. O. Greene Resigns
T. O. Greene of Juliaetta, who has been field writer for the Lewiston Tribune for the past 26 years, has resigned from his position and will make his home at Juliaetta, where he has resided for many years and where he has a very pretty and comfortable home.

Of the 26 years that Mr. Greene has been serving the Tribune, the Gazette man has known him for probably 20 years of that time. We have always found Mr. Green courteous and a very pleasant man with whom to hold an intelligent conversation. His host of friends will miss him very much but will wish him many happy years of retirement and ease, which he has so justly earned.

Shipping Slow
The Kendrick Bean Growers association reports that no beans are being shipped by rail, but that small shipments are being made by truck at intervals. The longshoremen's strike on the Pacific coast is hindering shipping of all kinds, the association reporting a shipment ready for export as soon as they can be loaded on boats.

The big flag pole standing in the city park received a coat of paint, the last being applied Tuesday evening. The pole is 101 feet above the ground, with an 18-inch ball on top, making the total height 102½ feet from the ground to the top. It is set in six feet of concrete.

Roosevelt In 1932 And Now
"A distinguished Southern Democrat, prominent in the councils of his party since 1886 and an enthusiastic supporter of the Roosevelt candidacy, was invited recently to become a member of the American Alliance, an anti-Communist organization. His reply to this invitation, not written for publication, is fairly indicative of the state of mind to which conservative members of the party and honest believers in the Roosevelt platform now find themselves. 'If the Democratic Party,' says this man, 'had declared for the things that our party is now doing in Washington, how many states do you suppose it would have carried? Suppose the platform had declared for the killing of pigs, the plowing under of cotton and wheat, the deliberate debasing of our currency, the teaching that the way to return to prosperity is to work as little as possible, spend more than we have, and borrow what we cannot repay, it probably would not have carried one state. So what is the use of having more organizations protesting against the spread of Communism when Communism is not worse than what we have!'—Los Angeles Times.
