

THE WHOLE COUNTRY HAS GONE G-3

Tremendous welcome—huge sales—follow announcement of sensational new Goodyear tire—keeps us and factory on jump—Users say "43% more non-skid mileage" understates it.

MARVELOUS NEW "G-3" GOODYEAR ALL-WEATHER

Look What You Get—No Extra Cost: 43% More Miles of real non-skid safety . . . Flatter Wider Tread . . . More Center Traction (16% more non-skid blocks) . . . Heavier Tougher Tread (average of 2 lbs. more rubber) . . . Supertwist Cord Body (supports heavier tread safely)

We've never seen the equal of it—the way car owners have flocked in, looked, listened, bought new G-3's these last ten weeks—and it's the same everywhere we hear. What's more, people who got G-3's months before the public announcement, report it's better than claimed! They cite mileage records to prove they're getting better than the 43% more non-skid mileage averaged by Goodyear's test fleet. Buy no tires until you let us show you this wonderful new Goodyear All-Weather which gives so much more safety and service without costing you a cent extra!

Sure, we have Goodyears at ALL Prices! Because Goodyears are the largest selling tires, you get more for your money no matter what you pay.

Search For Beauty
 Laughs and beauty abound in the picture, "Search For Beauty," which will be shown at the Kendrick Theatre this Friday and Saturday nights, and which features the 30 perfect young men and women chosen by the studio from among more than 176,000 contestants in all English-speaking countries of the world.
 James Gleason and Robert Armstrong furnish a riot of fun and are convincing in their roles of crook promoters. Leading honors are shared by Ida Lupino, young English actress, and Larry "Buster" Crabbe, former Olympic swimming champion. Gertrude Michael and Toby Wing give excellent performances.
 The story deals with the efforts of crooked promoters to cash in on a health and beauty racket, using Crabbe and Miss Lupino as unwitting come-ons. The crooks lose out on their own scheme as their "fronts" assert themselves in surprising manner with amusing results.

Wonder if They Were Red
 "Yes, I was fined \$200 for putting coloring matter in the artificial butter."
 "Well, didn't you deserve it?"
 "Perhaps. But what made me mad was that the magistrate who imposed the fine had dyed whiskers."

Dredge Big Pond

Equipment is being conditioned by the Washington Water Power company for a six months' hydraulic project to remove silt from the forebay of the Clearwater unit mill at Potlatch Forests, Inc.
 Al Sahn, engineer from the power company's Spokane office, is on the scene with a 10-man crew to assemble machinery which is expected soon. Building of the dredge boat will proceed at once.
 Preparation for the actual dredging will occupy approximately two weeks time, it was said.
 Silt pumped from the log pond will be discharged into the river channel above the main dam. The current is expected to wash the mud down the river.
 Approximately five men will be employed in the dredging operations, which are expected to last from six to eight months. The work will be started as soon as possible to take advantage of the reduced river flow.
 Around 450 acre feet of mud will be dredged from the forebay basin, it was estimated. The silt lies three feet deep over approximately 150 acres of surface, officials said.

Heavy Wheat Yield
 Harry Langdon of American ridge is hauling wheat, and it is testing 60 pounds, making 52 bushel to the acre. It is of a very fine quality.

MARKET SHARPLY HIGHER OLD GRAIN INFLUENCE
 12-15c per 100, to the highest point since last August. Sharp gains in Northern and Eastern markets and a more active local demand, together with limited sales by growers, were principally responsible for the strength in the local situation. The quality of much of the Sacramento Valley crop is reported unsatisfactory because of rust and drought damage. Harvesting is expected to be completed within the next two weeks. Feed grades sold more readily because of higher prices of feed barley and Eastern corn. Mills were more active buyers, particularly of best milling grades, which were in rather light supply. Practically no Northern wheat was received and shipments from Intermountain states were light. At the close of the market July 13, No. 1 hard white was quoted at San Francisco at \$1.40-1.45 and No. 1 soft white at \$1.35-1.40. No. 2 Western soft white sold nominally in bulk at \$1.42 per 100.
 Feed grain markets strengthened as a result of unfavorable new crop prospects but demand remained only moderate and the relatively light offerings were about sufficient for trade needs. The July 1 forecast placed the 1934 corn crop at only 2,113,000,000 bushels. Farm stocks were down to 470,000,000 bushels and market stocks to 38,000,000 bushels, giving a total prospective supply for the remainder of the current season and next year of only 2,621,000,000 bushels compared with 3,020,000,000 bushels for the corresponding period last year. The oats harvest promises to be the lowest in many years, with a total output of 568,000,000 bushels. Only 107,000,000 bushels remained on farms at the first of July and 23,000,000 bushels in market stocks, giving a total supply of slightly less than 700,000,000 bushels against about 965,000,000 bushels last season. This is much below the average domestic utilization of 1,185,000,000 bushels the past five years. The barley crop is estimated at only 125,000,000 bushels with 11,000,000 bushels in market stocks, giving a total supply, exclusive of farm stocks, of 136,000,000 bushels compared with about 170,000,000 bushels last season.
 Pacific Northwestern oats markets were firm although trading and movement continued at a standstill as a result of the longshoremen's strike. Receipts at Seattle where unloading was possible, continued heavy. Uncertainty regarding the outcome of the Willamette Valley crop was reflected in a firm holding tendency among growers. At the close of the market July 12, No. 2 white oats were quoted at \$1.35 per 100, and No. 2 gray oats at \$1.20, both sacked basis. Middle-western oats markets shared the strength in other feed grains and prices tended upward with current offerings moving readily at the higher price level. On July 12 No. 3 white oats were quoted at Minneapolis at \$1.34-1.37 per 100, and at Kansas City at \$1.36-1.41.
 Pacific Northwestern markets were quiet reflecting the usual seasonal dullness, but prices were largely unchanged from a week ago. Firm holding of the light remaining supplies from the old crop was a strengthening factor in the market. The strength in Eastern markets was reflected in a stronger undertone in the Pacific Northwest. At the close of the market July 12, No. 2 Bright Western barley was quoted at Portland at \$1.00 per 100, with malting barley at \$1.25-1.30 per 100.

EDITORIAL

Well, Folks—Here it is getting along toward the last of July and harvest is near at hand—in fact we're almost in the middle of it—and a little cash to help with harvest extras is always handy. Here's a thought on how to get it—bring us in a can of cream and take home the cash and a steam sterilized can—one that's ready to use. You don't have to wash or scour it. Another thought—You haven't time to bother churning at home—so use our butter. It is made from specially selected cream and pasteurized before it is churned. One try convinces.

Uncle Sam To Help Students

Uncle Sam is going to make it possible for 200 or more young men and women unable to finance their college education to come to the University of Idaho this fall, according to word received by President M. G. Neale from J. W. Condie, state superintendent of public instruction. The federal emergency relief administration has announced an allotment of \$15 per month per student on 12 per cent of the enrollment at the beginning of the university year this fall. This federal money, Dr. Neale explains, will be for the assistance of students who otherwise could not attend college. Students eligible are employed throughout the university at rates of pay approved by the federal administration.

The 1934-35 allotment starts with the opening of the university and carries through the entire university year. An opening enrollment of 1800, a conservative estimate on the basis of last year's registration, would make it possible for the university to assist slightly over 200 students who could not otherwise attend college. The new allotment will amount to between \$20,000 and \$30,000, depending upon opening enrollment. Last year federal assistance to university students amounted approximately to \$20,000, a large number of students being benefited.

Dr. Neale has already set machinery in motion so that young men and women interested may take advantage of this federal project. Men students are to send application to Dean T. S. Kerr of the junior college, chairman of the men's employment committee; women are to make application to Miss M. Belle Sweet, university librarian, chairman of the women's committee. Dean Kerr and Miss Sweet were chairmen of committees handling student employment last year.

Improving Raby Hotel

M. O. Raby is giving his hotel its annual going-over in the form of calcimining, painting, re-roofing portions—in fact, giving it its annual "bath", which, when completed, will make a decided improvement in many parts of the building.

To Survey Snake River

R. H. Kipp, executive vice president of the Columbia Valley association, expressed great satisfaction when advised by the office of the district army engineer at Portland that the \$77,000 requested for a survey of the Snake river from its mouth to Asotin, Wash., is available. Work will be under way within a week, he said.

This will make possible the first complete survey ever made in that section of the Snake river, Kipp said. Kipp said further that within a week the water will have receded in the Columbia river so that boats can again navigate Three Mile rapids, and that temporary repairs will have been made on the Celilo canal so that river steamers can operate as far upstream as Umatilla.

Scouting

The Wolf Patrol in charge of Patrol Leader Wayne Wegner and assistant patrol leader Emil Silflow held a very interesting meeting at the scout hall Wednesday evening.

After practising a number of first class requirements, the patrol conducted an interesting business session.

A number of goals were decided upon toward which the members of the Wolf Patrol will strive.

The Wolves challenged the Eagle patrol to a contest to see which patrol will have the highest per cent of attendance and best furnished patrol quarters. The contest will last from July 18 to August 29.

On Sunday morning the Wolves, each mounted on horseback, assembled 100% strong at Scoutmaster Cridlebaugh's home for a trip to the Potlatch. They spent most of the day in the water, learning the rudiments of swimming and receiving a good sun-tan, or would you call it just plain sun-burn?
