WE NEED MORE CONTENTED COWS HAROLD THOMAS, Editor

EDITORIAL

October has again arrived-and that means that Old Man Winter will soon have full sway-but there is one thing that he must not control of and that is the amount of butterfat Old Bossy produces each day. Now that crops are all taken care of, more attention can be given to that good old mortgage-lifter, the cow. And remember, too, that we pay you right-now cash for your cream and that when we hand your can back to you, it is again ready for fresh cream—thoroughly sterilized. Drop in and see us.

And, remember, too, that we are paying 25c cash for butterfat.
