KENDRICK, LATAH COUNTY, IDAHO, FRIDAY, MARCH 8, 1935

NO. 10

## HIGHLIGHTS OF THE WEEK'S NEWS DISPATCHES

Hilarious Saarlanders staged a second New Year's celebration in the early morning hours Friday to welcome March 1—the day the Saar was officially turned back to Germany by the league of nations. From midnight on they hailed a "new and better time" with beer toasts, victory bells, frantic shouts of glee and patriotic songs. Powerful loudspeakers on street corners transmitted military tunes as the revelry continued far into the night. France and the league of nations will give up control of the rich Saar coal basin to close one of the most hotly contested chapters of the Versailles treaty.

Sen. Elmer Thomas (D., Okla.) predicts a government bond crash greater than the stock market panic of 1929 if the present government bond selling, borrowing and spending continues. His prophesy overshadowed an informal debate between him and Dr. O. M. W. Sprague, former executive assistant to the secretary of the treasury, on the monetary situation. They spoke before a luncheon meeting of the Boston branch of the foreign trade policy association. Senator Thomas asserted the banks already held between fifteen and sixteen billions in government bonds. "A decline of 10 points would wipe out a billion and a half. It would wipe out the capital stock of most banks in the United States," he declared.

Donald Richberg Monday gave the "guarantee" of the administration that there would be no monetary inflation as long as Franklin D. Roosevelt was president. "If we are to assume that President Roosevelt will be president for the next six years I can tell you this: 'I can guarantee that there will be no inflation while Franklin D. Roosevelt is president,'" Richberg declared.

Proposing an end to the "subterfuge" of "diguised subsidies," President Roosevelt gave congress by a special message three reasons why he thought this country should maintain an adequate merchant marine under an out-right subsidy plan. Two congressional committees promptly squared for action. First reactions indicated sufficient sentiment to carry his proposals forward. But with the crush of other affairs in congress there appeared little likelihood of immediate action. The presidential message put directly to congress the question "of whether the United States should have an adequate merchant marine." Then, sharply, he added that if congress decided in the affirmative "it can well afford honestly to call a subsidy by its right name."

The house was thrown into a turmoil at Olympia, Wash., when Rep. Myron Titus (King) insisted on holding the floor at a point of personal privilege and had to be twice dragged from the chamber. The row started when the King county member refused to take his seat after talking more than 15 minutes. After failing to quietly stop Titus from holding up the proceedings, Sergeant-at-Arms Pat Hooper resorted to force, pushing the member into his seat. Titus refused to stay down and the two wrestled to the floor. Several members jumped into the fracas and pulled and dragged Titus from the chamber but he came right back as the roll call was started.

A congress of leading Russian scientists and aeronautical experts decided that soviet experiments have definitely established the possibility of making rocket planes to carry passengers in the upper stratosphere, 20 to 30 miles above the earth's surface. These rocket propulsion machines will be considerably faster than the machines of today, the congress predicted, and will constitute the best means of exploring heights never before reached by man, even in balloons.

Ten thousand tons of dynamite-laden steel, known as the "jinx" caisson of the Golden Gate bridge project, San Francisco, went rampaging with four men aboard on the high seas. The immense structure, reputed to be the largest ever built, broke away from two tugs five miles outside the Golden Gate and was reported careering wildly across shipping lanes. It was loaded with dynamite at Oakland and towed out of San Francisco bay to be sunk.

### Had Tonsils Removed

Ethel Davis, daughter of Mr. and Mrs. Ben Davis, had her tonsils removed Saturday at the office of Dr. D. A. Christensen.

## Order Easter Star To Meet

Canyon Chapter No. 87, O. E. S., will meet for the regular order of business Tuesday evening at 8 o'clock. All members are urged to be present as the Worthy Grand Matron and some of the other grand officers will be here on that date.

There will be a school of instruction conducted by the Worthy Grand Matron, Mrs. Schoper, at 3 o'clock p. m., and a dinner will be served at 6 o'clock to all those present.

## CORN-HOG CONTRACT INFORMATION OF INTEREST

About 75 per cent of the 1934 corn-hog contract signers are signing up for 1935, according to information given out by County Agent L. V. Benjamin. Most of those who are not signing are those who either had a very small production during the base period or who did not produce enough hogs in 1934, to make them eligible for a contract in 1935.

The community sign-up meeting will be completed at Moscow on Thursday, March 7, but any hog producer who did not get to his community meeting, may sign up at the County Agent's office in Moscow at any time before March 16. All hog producers who produced hogs for market during 1932-1933 are eligible to sign a 1935 contract, provided they produced 25 per cent of their average annual production in 1934. If they had a 1934 contract, it will not be necessary to secure any further evidence, but if they did not, it will be necessary for the contract signers to furnish evidence of their production in 1932-1933.

All 1935 contract signers are required to reduce their average annual hog production 10 per cent. For this they will receive \$15.00 per head for the 10 per cent, less the local administration costs.

Under the 1935 contract, there is no restriction on the purchase of feeder pigs or breeding stock, and there is no restriction on any crop acreage. This is much more liberal than the 1934 contract.

## Processing Tax Schedule Drawn

Secretary Wallace outlined to cattle producers' representatives a proposed distribution of processing taxes if a program to control livestock through control of feed grain is undertaken.

Wallace said a study of the percentages of corn normally used as feed warranted the following processing taxes: \$1.25 a hundred pounds on hogs, 30 cents a hundred pounds on cattle, 40 cents a hundred pounds on sheep and 1½ cents a pound on butterfat. Processing taxes also would be levied on corn and barley under the proposed unified program.

G. B. Thorne of the production planning section estimated \$176,625,000 could be raised on the basis of estimated 1936-1937 slaughterings. He said the estimates indicated the proposed taxes would yield the following totals: Hogs \$103,000,000; beef cattle \$24,700,000; butterfat \$16,875,000; sheep \$2,500,000; corn \$18,750,000 and barley \$5,625,000.

## Seems Queer

It seems rather queer to the uninitiated that as many members of the formerly strong Tax Payers League as there are in the Idaho State Legislature, that it would be necessary to hire a tax expert to figure things out for them. It is safe to say that Roy Dodge, so-called "tax expert," has had more to do with shaping the taxing for the state of Idaho than all the rest of those would-be statesmen combined that go into a huddle beneath the capitol dome every now and then—just to adjourn and go into caucus over something that amounts to little as compared with the drain they are putting on the taxpayers of the state. Caucus, reconsider and adjourn, have been the three heavy items taken up at Boise during the past 60 days.

## The World Do Move

Ruth St. Dennis, intrepertative dancer, created a furore among churchgoers when she recently danced a rhythmic interpretation of the Psalms in a Park Avenue (N. Y.) Presbyterian church. The incident indicates that this church, at least, has "gone modern."

## State Legislators "Busy"

The Idaho state legislators last week passed (both houses) a memorial to Congress asking the passage of the Townsend old-age pension bill and again passed the State Liquor Store bill, with a few minor changes.

## KAMIAH WINS DISTRICT BASKETBALL TOURNAY

The Kamiah Kubs, basketball wizards coached by Sidney Schiebe, on Monday night defeated the Winchester Loggers 30-23 and won the district championship of the central Idaho section in the 16th annual tournament staged in the Lewiston high school gymnasium. The victory designates Kamiah as the team that will represent central Idaho at the state tournament at Twin Falls. Knotted in a three-way tie between Moscow, Kamiah and Winchester at the close of the designated period (Saturday night) the tournament was extended another day for the playoff, Kamiah having eliminated Moscow in the semi-finals tussel Saturday night.

The sportsmanship trophy was presented to the Grangeville high school, coached by Arthur D. Jones.

The Kendrick boys, winners of the right to represent this conference by the defeat of Genesee behind closed doors at Lewiston, were at the tournament, as were carloads of Kendrick fans to see them play—and a right good showing they made for themselves, too, a showing of which the boys and all local fans are proud, for Kendrick was perhaps the smallest school represented. The scores of the boys and their opponents are: Kendrick 39, Troy 24; Kendrick 28, Winchester 40; Kendrick 20, Kamiah, 24; Kendrick Total 87, opponents total 88.

This is a wonderful record when one considers that outside of the first game they were playing the topnotchers of the tournament—and held them to a lower score than did some of their later opponents.

One hope was lodged in the hearts of the fans (and of the boys themselves) and that hope was that they would get the opportunity to play the Moscow five on the tournament floor—for ever since they were beaten by a six-man Moscow team (five players and the referee) they have wished for another chance—but no luck.

The Moscow Bears, eliminated by Kamiah, win the honor of being the high average scoring team of the tournament—they also win the honor of the high average of personal fouls.

At the close of the tournament the All District team was picked—it included:

- Harry Campbell, Winchester
- Bill Hunter, Moscow
- Roy Ramey, Jr., Kendrick
- Roscoe Reed, Winchester
- Dick Eimers, Grangeville
- Ellsworth Foreman, Kamiah
- George Johnson, Orofino
- Milford Jones, Lewiston.

The Kendrick boys reported they were treated like princes and that they believed that everyone got a square deal—there being no favorites present.

The Kendrick team consisted of Thomas Blevins, Jr., Oscar Hartung, Willard Schoeffler, Paul Damarell, Roy Ramey, Jr., Glen Hughes, "Red" Johnson and "Spud" Crocker.

Arthur Dawald is the team coach and is indeed to be congratulated upon the wonderful team that he built and the fine teamwork that he instilled into the boys. May we have many more teams as fine and as successful as this one.

## Death Of Thomas Weaver

Word has been received here of the death of Thomas Weaver at his home at Santa Cruz, Calif., on February 23, aged 81 years, one month and 25 days. He was born in the state of New York and was a member of the Masonic lodge. He was formerly a resident on American Ridge, but left this section many years ago. He will be remembered by many of the older residents, however.

He leaves, besides his widow, three children: Mrs. Viola Ham, Berkeley; Mrs. Edith Dieken, Santa Cruz, and Edward Weaver, Marysville, Calif.; a brother, Charley Weaver of Princeton, Idaho; a sister, Mrs. Alice Hotchkiss of New York; four grandchildren, Mrs. Marie Falconer, San Jose; Mrs. Bernice Monk, San Diego; Jackie Weaver, San Jose, and Edgar Weaver, U. S. Navy, San Diego.

Funeral services were held Tuesday, February 26, at 2 p. m., with interment in Oakwood cemetery, Santa Cruz, with members of the Masonic lodge in charge of the services.

## Has Resigned Position

Wm. Van Kleck, who has been employed at the Thomas Creamery for the past five months, has resigned his position there and has gone to Tenasket, Wash., where he will have charge of a creamery, leaving for that place on Saturday, last.

## MRS. A. H. SMITH, 78, DIES AT LELAND HOME

Mrs. A. H. Smith, 78, mother of Russell Smith, who died in an automobile accident in California a few days ago, died at her home at Leland, Tuesday. The son was buried at Leland. Mrs. Smith had been a resident of that community for 40 years. She had been in ill health for the last two years. She was a native of Canada, having been born in the province of Ontario. Mr. and Mrs. Smith celebrated their golden wedding anniversary in 1929.

Mrs. Smith was the mother of nine children, five of whom survive. She had 13 grandchildren. Among the survivors are her husband, four sons, Robert, Harry, Ralph and Howard, all of Leland and one daughter, Mrs. Clyde McGee of Clarkston.

Funeral services were held Thursday at 2 o'clock from the Methodist church at Leland, with Rev. Graybeal in charge.

Interment was in the Leland cemetery.

## Will War On Hoppers

Plans are already being laid for war on grasshoppers throughout infested parts of the state. The fight made on the pests last season was conceded to be very successful and will be "waged to a finish" this season.

County Agent J. W. Thometz, who had charge of poison bran distribution for hopper control, received five tons of that material for Nez Perce county last year. A little more than 3,000 pounds were used, enough for 300 acres, there being more than usual infestation.

Last fall a survey of eight districts was made in the county and grasshopper eggs were found along the Clearwater river, in Bedrock canyon and with some indications in the Culesac region. Farmers are advised to watch early this spring for the first hatching of the hoppers along roads and fences and other favorable places where they lay eggs. If very promptly treated, they are prevented from spreading to the fields. The bran is used at the rate of about ten pounds per acre.

About 12,000 acres may need treatment this season in Idaho. In a large part of the state the grasshopper population is back to normal but in a few areas they may occur in greater number than in 1934. There are small areas in Nez Perce, Adams, Washington, Camas, Blaine, Jerome, Twin Falls, Bannock, Franklin and Bear Lake counties where a possibility of infestation is reported by Dr. Shull, who says that moderate infestations may occur in limited areas in Fremont, Madison, Bonneville, Bingham, Power, Lincoln, Elmore, Valley, Ada, Canyon and Gem counties.

Associated with County Agent Thometz in the county grasshopper campaign is County Commissioner Wayne Talbot, Lapwai, and Hinkle Cox, Leland.

## Hardware Windows

George Barnum and Frank Curtiss are making good use of their display windows these days. They have on display baseball equipment and marbles for the boys, fishing equipment, rifles and ammunition for those who like that sport—and last, but not least, painters supplies for those who want to brighten up their homes—inside or out.

## Expect Road Orders Soon

N. E. Walker, who is in charge of work in the Kendrick Highway district, says he expects an order from Moscow any time to commence work in Brady gulch, under the government program.

It is to be hoped that work can be continued until the road in the gulch is completed.

## Bridge Club Entertained

The Afternoon Bridge club was entertained on Thursday evening of last week by Mrs. W. L. McCreary in honor of the birthday anniversary of Mrs. Frank H. Rider, three tables being in play. High honors went to Mrs. E. A. Deobald and Mrs. Wm. Watts. A guest prize was given Mrs. Rider. Light refreshments were served at the close of play.

## Parents Of Son

Word has reached Kendrick to the effect that Mr. and Mrs. Irvin Slater of Pocatello are the proud parents of a fine son, born February 26. Mrs. Slater will be remembered here as Miss Mary Weaver, who formerly taught in the Kendrick school. Congratulations are in order.

## Commercial Club Meeting

The regular monthly meeting of the Kendrick Commercial club will be held in the Raby Hotel next Monday evening, with dinner at 6:30.

This is to remind all members and others interested in the welfare of our little city to be on hand at that time.

There will perhaps be a number of things brought up that you will be interested in.

## IDAHO FOODSTUFFS BE GIVEN NEEDED, SAYS ROSS

Idaho stomachs will be full as long as Idaho bins are bulging with foodstuffs, Governor C. Ben Ross declared as he announced that a special ration of Idaho products would be given to each man, woman and child on relief as soon as distribution machinery can be perfected.

Potatoes, beans, dried apples, flour, butter, salt pork and prunes, all produced in the state, will go to every needy family, he said.

Subsistence was worked out on an army garrison ration basis by W. W. Godfrey's commodity committee of the IERA at a conference with the governor. The ration will supplement provisions distributed by the federal surplus relief commodities committee, the chief executive said.

"As long as our cellars and granaries are full of good, nourishing food nobody will go hungry in Idaho," the executive said. "I feel that this is the biggest move since relief began. It is even more important than centralization of disbursing departments because it gets at the root of the problem—hunger."

"There is no reason why anybody in the state should go hungry in the midst of plenty and I mean to see that nobody does."

## Change At Postoffice

Robert Dammarell has resigned the position of clerk in the local post office and has been succeeded by Paul Lind, the change having been made March 1.

Mr. Dammarell has been in the postoffice for nearly five years. He has always been accommodating and courteous to the patrons of the office and will be greatly missed by everyone who has had occasion to call at the office.

Mr. Dammarell and wife left Sunday evening for Orofino, where Mrs. Dammarell will make an extended visit with home folks. Mr. Dammarell will return to Kendrick soon, where he will remain for a time, at least.

Mr. Lind is well and favorably known by practically everyone in this section of the country and he will no doubt fill the place of clerk in a very creditable manner.

## Double-Eight Bridge Club

A very delightful evening was spent at the home of Mr. and Mrs. W. B. Deobald Monday evening, when members of the Double-Eight Bridge club gathered at the Deobald home for a bridge-dinner, the "Highs" entertaining the "Lows." Mrs. James M. Lyle, Jr., won high score for the ladies while F. B. Higley was high for the men. Mrs. Mary Adams was an invited guest.

The host and hostesses for the evening were Mr. and Mrs. H. B. Thompson, Mr. and Mrs. W. B. Deobald, Mr. and Mrs. F. B. Higley, Mrs. Ethel Emery and Miss Edna Ferguson.

## Entertain At Bridge

The home of Mr. and Mrs. E. A. Deobald was the scene of a very pleasant gathering last Saturday evening, when four tables of bridge were in play. High scores were won by Mrs. Edgar Long and H. B. Thompson, and low score by Mrs. R. L. Blewett.

The guests present were Mr. and Mrs. R. L. Blewett, Mr. and Mrs. H. B. Thompson, Mr. and Mrs. Edgar Long, Mr. and Mrs. Silvie Cook, Mr. and Mrs. Wm. Watts, Dr. and Mrs. D. A. Christensen, Mrs. Ethel Emery and Miss Rilla Davidson and the host and hostess, Mr. and Mrs. E. A. Deobald.

Delicious refreshments were served at the close of play.

## Sign Corn-Hog Contracts

A goodly number of local farmers signed the 1935 corn-hog contracts last Saturday when County Agent L. V. Benjamin, and C. H. Skinger, president of the corn-hog association, both of Moscow, together with C. H. Dougharty, F. C. Lyons and W. F. Heimgartner, local committee, met in the city hall for that purpose.

## WHEAT MARKET FIRMER DUE WESTERN DRYNESS

Domestic grain markets remained unsettled during the week ending on March 1, according to the Weekly Grain Market Review of the United States Bureau of Agricultural Economics. Wheat was slightly firmer with continued dryness in western winter wheat areas and diminishing supplies strengthening influences. Feed grains were mostly lower with demand only moderate. Market receipts were slightly larger and domestic offerings were supplemented by additional imports which were generally offered slightly below current prices of United States grain.

While winter wheat was in fair to good condition in the Ohio valley and also in eastern sections of the hard winter wheat belt, extremely dry conditions still prevailed in the western half of most plains states. Severe dust storms occurred in this area during the week and prospects for wheat are very poor. Prospects for the 1935 crop, however, on the whole, appear more favorable than a year ago. European crops are generally in good condition with prospects fully up to average. Parts of Russia will need additional rains to assure favorable outturns and sections of India have suffered from lack of moisture. Some areas of North Africa are still in need of moisture but rains have very recently materially improved prospects in these countries. Acreage estimates for 16 countries now total 138,803,000 acres, an increase of about 3,000,000 acres over the 1934 total for the same countries.

Domestic cash wheat strengthened along with futures but offerings were slightly larger and demand was not urgent. Arrivals at the principal winter wheat markets totaled 704 cars against 412 cars for the previous week and 978 cars a year ago. Offerings of ordinary protein wheat were scarce and mills competed actively for this quality with the result that premiums on the low protein wheat were increased while those on the higher protein offerings were being lowered. At the close of the marketing (March 1, ordinary No. 2 hard winter was quoted at \$1.00 to \$1.01. Premiums on cash wheat were well maintained at Chicago where receipts were materially larger than during the previous week. No. 2 hard winter was quoted nominally at \$1.05 per bushel. Offerings at St. Louis were small and were readily taken by mills and elevator interests. No. 2 hard winter sold in that market at the close of the week at \$1.04 per bushel. No. 1 hard winter was quoted at Fort Worth, delivered Texas common points at \$1.13 per bushel. Marketing of soft winter wheat was still below trade needs and prices held steady, with No. 2 soft red winter quoted at Chicago at \$1.00 to \$1.01, at St. Louis at 98c and at Kansas City at 99c per bushel.

Offerings of spring wheat remained light but demand was rather dull and premiums for cash grain were barely maintained. Total Minneapolis arrivals were 229 cars of which 56 cars were winter wheat. Receipts at Duluth totaled only 26 cars. At the close of the week No. 1 dark northern, ordinary protein, was quoted at Minneapolis at 5c to 7c over the May price of \$1.05. Durum wheat was independently weak with the May durum at Duluth down 1½c per bushel compared with a week ago. Premiums held about unchanged with ordinary to choice milling lots of No. 2 hard amber quoted at 8c to 14c over the May price of \$1.19. No. 1 red durum was quoted at \$1.00 per bushel. Only 14 cars of durum were received at Minneapolis during the week.

Intermountain wheat markets were rather quiet with only moderate receipts. Denver mills were bidding 90c for No. 2 hard winter and 92c for No. 2 northern spring, FOB Colorado common points. Ogden mills were paying 75c for No. 2 soft white, 82c for No. 2 hard winter, 85c for No. 2 northern spring and 77c for No. 2 hard white, FOB Utah and Idaho common points, an advance of about 1c from the previous week's quotations.

Pacific Northwestern markets were slightly lower despite gains at the eastern points. Country marketings were not large with receipts at Puget Sound and Columbia river terminals totaling 547 cars, but demand was dull and confined principally to local mills. Local quotations were mostly too high for shipment to central western or Atlantic Coast points. At the close of the market March 1,

**Blowout Protection? Sure! But—  
NON-SKID GRIP**

is 5½ times more necessary to safety

Your big worry should be skidding—the cause of 5½ times more accidents than blowouts. Smooth tires skid 77% farther, other new tires skid 14 to 19% farther, than new "G-3" Goodyear All-Weathers (proved by 8400 tests). Since this "Goodyear Margin of Safety" costs nothing extra, get it now—ride safely during the slippery driving months.

**43% More Miles of Real Non-Skid** because "G-3" All-Weather Tread is flatter, wider, heavier, tougher. Blow-out-Protected in EVERY Ply because Patented Supertwist Cord is up to 61% more elastic—absorbs shocks!

The first six-weeks' report cards were handed out this week. The attendance during the tournament was somewhat disrupted, but it is believed that it will improve now.

The Seniors met on Tuesday afternoon to discuss plans for the Senior play, work on the annual, and other matters of interest to the class. English II class are reading "Silas Marner."

The Sociology class, in 20 minutes, listed 74 superstitions that are common today.

Children of the first eight grades were given intelligence tests last week.

**Sports**  
After defeating Troy 37-24, the Kendrick Tigers were eliminated from the district tournament Friday when they were beaten by Winchester 40-28 and by Kamiah 24-20. The fact that these two teams were the only ones to enter the finals proves that Kendrick made a very good showing. The boys played hard and fast basketball up to the finish and are to be congratulated upon their excellent record. Ramey, Kendrick's outstanding scorer of the year, was awarded a trophy for his remarkable qualities as a player.  
Coach Dawald is to be congratulated upon his success with this year's squad, as it was by his work that they were able to establish this high record.

**Grade Notes**  
The second grade have begun work on the Field Advanced Second Readers. This is their fifth reading book this year.  
The first grade are working hard on their number stories.  
The third and fourth grades are planning a program to be given in the near future. Both grades have started reviewing the first half of their spelling books.  
The fourth grade illustrated Stevenson's "The Land of Story Books" by pictures.  
The third grade geography class has studied the process of commercial bread baking.

**Boy Scout News**  
The Scout Oath—"On my honor I will do my best: To do my duty to God and my country, and to obey the Scout Law; to help other people at all times and to keep myself physically strong, mentally awake, and morally straight."  
Every boy must learn this oath before becoming a Tenderfoot Scout, and must abide by the oath to be permitted to pass higher in rank.  
Thirteen boys attended the meeting Monday night and spent most of the evening tying knots, nine common, everyday knots being required in the Tenderfoot test.  
Frank Rider has completed his Tenderfoot tests and John Wallace is working on his First class.  
Mr. Poindexter helped with some physical exercises and a lively game was played before the usual taps.  
From now-on the boys will be meeting in the old Presbyterian church on the hill. They will have more room for games and a permanent place to keep their equipment.

deal with a wild horse of the western plains and his cow-boy master. The picture is beautifully photographed and dramatically screened. "Smoky" is the story of a wild horse, foaled on the plains of the west. Branded as a killer, he is known for his hatred of men. Only one man can understand him, and to him the horse shows undying devotion. There is also a love-story thread running through the picture—just enough to make it interesting and give it a human interest. If you love horses and admire brave men, you will like this picture. There will also be shown Chapter 11 of the "Red Rider," entitled "The Lost Diamonds." There will also be other interesting features to fill out the evening.

**TEAKEAN GOSSIP**

We are having regular March weather here this week. Mrs. Wm. Groseclose and Carrol were Lewiston visitors last Thursday. Elwood Brock recently purchased about 70 pounds of grass seed to sow on his place.

The Fred Sansome family and the Gus Harless children have whooping cough. The Ladies Aid met at the home of Mrs. L. Schliefer last Thursday and did some quilting for Mrs. Fred Schliefer.

Mrs. Joe Choate is taking care of 200 baby chicks, which came by mail from Corvallis, Oregon, last week.

Mrs. Elwood Brock spent last Wednesday night with Mrs. L. Clanin. Mr. and Mrs. John Lind were Kendrick visitors last Saturday. Mr. Lind went to consult Dr. Christensen, as he is not improving from his recent illness as fast as he should.

This would be a good place for a junk man to visit now, as so many folks here have junked their aluminum kitchen ware.

L. Clanin has been having some work done on his barn. He failed to get it finished last fall.

Mr. and Mrs. J. S. Lehman came home from Lewiston last week. They spent a couple of weeks there taking chiropractic treatments.

Mrs. Chas. Sewell and daughters, Ida and Laura, and son Wallace, were visitors at the Wm. Groseclose home Sunday afternoon.

**WHEAT MARKET FIRMER  
DUE WESTERN DRYNESS**

bluestem hard white was quoted at Portland at 92c, dark hard winter at \$1.01, soft white at 85 1/2c, northern spring at 87c, western red, hard winter and western white at 84 1/2c per bushel, basis No. 1 sacked. Western white was quoted at Seattle at 86c, western red and hard winter at 85 1/2c and baart hard white at 94c per bushel, basis No. 1 sacked.

California markets were steady with relatively light offerings and a fairly active inquiry from local mills and feeders a strengthening influence. Flour business was about normal in central California and bay-region mills continued to absorb local offerings of milling wheat. Increased poultry feeding operations were largely responsible for the improved demand for feed wheat. Intermountain offerings were still too high to compete with local wheat but slightly larger quantities of northwestern high protein wheat were taken by California mills.

Foreign wheat markets were rather irregular. Canadian markets were independently firm with the May wheat at Winnipeg up about 1c for the week. Winnipeg prices are relatively high compared with those in other exporting countries but holders were not disposed to lower quotations to effect sales. No. 1 Manitoba northern was quoted at Winnipeg March 1 at 81c, in terms of U. S. money, and No. 5 and 6 Manitoba northern at 62c per bushel. The Liverpool market was slightly lower, reflecting increased selling pressure by Argentine shippers and continued dull import demand from the Continent.

Pacific Northwestern barley markets were practically unchanged with the light trading and movement reflecting the slow demand from all classes of buyers for both feeding and malting types. At the close of the market on Feb. 28, No. 2 bright western barley was quoted at Portland unchanged from a week ago at \$1.50 to \$1.52 per 100, and at Seattle at \$1.42 per 100, sacked. Inquiry from middle-western markets for malting types was dull and malting barley was nominally quoted at Portland at \$1.85 per 100.

Oats markets continued dull with a light inquiry for current offerings and also influenced by the downward trend in other grains. Pacific Northwestern markets were quiet with a slow inquiry from both local and outside buyers. No. 2 white oats were quoted at Portland Feb. 28 at \$1.57

to \$1.60 per 100 and at Seattle at \$1.55 per 100, sacked. No. 2 gray oats were quoted at Portland at \$1.55 per 100 with offerings moving readily to cereal mills. Oats from Puget Sound areas were quoted at Seattle at \$1.45 per 100, sacked basis. Mid-western markets were dull but demand for the light receipts was very slightly more active.

### LELAND ITEMS OF INTEREST TO EVERYONE

Russell M. Smith

One of the largest gatherings of friends and neighbors to ever attend a funeral here, gathered to pay tribute to the memory of Russell M. Smith, Saturday afternoon. The church was packed to capacity and many were unable to gain entrance. The profusion of flowers gave mute evidence of the high esteem friends and neighbors held for him.

Marwood Webster, Palouse, Wn., Theodore Oylear, Lewiston; Robert, Rodney and Waldo Smith, nephews of the deceased, and Clifford Woodward, a cousin, acted as pallbearers. Roy Southwick, Joe Piper, Jesse Hoffman, Roy LeBaron and Roly Parrat, Lewiston, were honorary pall bearers. Rev. G. H. Gibbs of Arrow assisted Rev. Graybeal with the services.

Out of town relatives attending were Mrs. Addie Webster and son Marwood and Mr. and Mrs. Dick Hill, Palouse, Wn., Mr. and Mrs. Clyde McGee of Clarkston, Ralph Oylear and family, Mrs. Greer and Mrs. Pratt, Lewiston.

Out of town friends attending the funeral of Russell M. Smith were: Mrs. Ross Hoffman and son Nelson, Chas. Walker, Ed. Denton, Kooskia; Mrs. Burgess Ward, Mrs. Wellman, Mr. and Mrs. Harry Thompson, Lewiston; as well as friends from Juliaetta, Kendrick, Cameron, Southwick, Lenore, Cavendish and Ahsahka.

### CARD OF THANKS

We sincerely wish to thank the kind friends and neighbors who so willingly aided us in our hour of bereavement. We also wish to thank the donors of the beautiful floral offerings.

### A Real March "Lamb"

Of course March is only a week old—and there is no telling just how it is going to act before its demise—yet the first day of the month was as bright and sunny as one could ask and there were many embryo cases of spring fever in evidence. However, if the old saying that "if March comes in like a lamb it will go out like a lion," or vice versa, holds true, better not trade off your rain coat or earmuffs yet.

One of the troubles of this modern age is that too many people are spending money they haven't yet earned for things they don't need to impress people they don't like.

Easy Visitor to Asylum—How do your patients manage to keep busy? Keeper—They're all writing scenarios for the movies.
