water this summer, owing to the fact that much water is being used by those who are caring for their lawns and the further fact that the Thomas Creamery uses a great deal of water in their pasteurizer for cooling purposes. The statement was made that several springs have been looked over, but that no definite decision had been reached by the village council. That there will be a crying need for more water this summer goes without saying and it is hoped that something will be done while it is possible to get the government to furnish the labor through the relief workers.

A copy of the minutes of the proceedings of a special meeting of the Village trustees was read, reference to which is made in another part of this paper.

The next thing on the program was the election of officers, with the following result: Herman Schupfer, president; Wade Keene, vice-president; H. B. Thompson, secretary and W. A. Watts, treasurer.

There being no further business to come before the meeting, adjournment was taken until July 8.

"Carolina," a Splendid Story

"Carolina," the feature picture at the Kendrick Theatre this Friday and Saturday nights, is a fine, clean story of romance, with Janet Gaynor and Lionel Barrymore at the head of an exceptional cast. "Carolina" is dramatic without being theatric. It is located in Carolina and timed in the early years of the twentieth century and is rife with faded dreams of the glorious "Lost Cause." Against this background revolve the historical drama and romance, love interest, and comedy made uproarious by the character of Scipio (Stepin Fetchit). The story in every phase reaches right into the heart. It is a story that will be enjoyed by young and old, who love good pictures.

Then you will not want to miss chapter 11 of "Tailspin Tommy" entitled "Rushing Waters," in which Tommy crawls from the wreck virtually uninjured. Other regular features will also be shown.

This is the last Sunday before annual Conference. There is always the possibility that a change will be made in the ministry because of conditions unforeseen; but so far as any one knows, there is no plan for such a change this year.

We wish that many of the people of Kendrick would avail themselves of the opportunity of sitting in on many of the meetings of the Conference. It is no insignificant thing when a group of some seven or eight hundred churchmen meet for six days in conference. Almost all of the sessions are open to the public. Why not plan to be thereon some of these great days?

Mrs. C. H. Candler and son, Mr. and Mrs. Jim LaVoil of Lewiston and Mr. and Mrs. Weatherly and baby of Charleston, spent Sunday with the Gifford Candler family. Miss Yvonne McAllister of Clarkston was also a guest.

New Swings and Teeters In Park

A starting of play-ground equipment for the city park has been made by the city council, at the suggestion of the Beautification committee appointed by the president of the Kendrick Commercial club some time ago. Credit for this improvement goes principally to the ladies of this committee, who have been very active in the work.

Three teeter-totters and four chain swings have been erected in the city park for use of the kiddies of the town—and all others who may happen to go to the park. It is planned to also have a slide or two put in place when the proper kind can be found.

The village minutes also stated that orders for the removal of the hitching racks from their present place to different places at the rear of stores, where even more room for tying teams and unhitching for feeding purposes will be provided. The new hitching racks and feeding places will be fully as convenient as the lot now in use, and will take an unsightly place away from Main street and the park.

Woman Killed On Highway

Mrs. J. C. Morton, 38, injured Monday afternoon when she was struck by a car two and one-half miles west of Troy, died at the Gritman hospital, Moscow, at 3:30 p. m. Tuesday.

Mrs. Morton is survived by her husband and seven children, all living on the farm near Troy where they have resided for a number of years.

Mrs. Morton was walking with her husband along the Moscow-Troy road Monday afternoon near their farm when the accident occurred which resulted in her death. The car was driven by Gilbert I. Swanson of Lewiston and it was sent into the ditch in an attempt to avoid striking the woman. Her clothing was caught by belts under the running boards and she was dragged some distance. Mr. Swanson was not held.

Come Over On Our Side

"Mr. Chairman," said the speaker, "there are so many ribald interruptions that I can scarcely hear myself speaking."

"Cheer up, guv-nor," said a voice. "You ain't missin' much!"

MARKET SLIGHTLY FIRMER WITH SMALLER OFFERINGS

winter and 80c for No. 2 northern spring, a decline of 1c to 2c over a week ago. Prices at Ogden were down 2c with No. 2 soft white quoted at 64c, No. 2 hard winter at 71c and No. 2 hard white at 66c per bushel FOB Utah and Idaho common points. Marketings in the Pacific Northwest remained very light with growers continuing to sell slowly at prevailing prices, influenced by threatening crop damage. While prices declined 3c to 4c per bushel at Portland, they were still out of line for export or shipment to eastern markets and mills provided the principal outlet for current offerings. At the close of the week, Big Bend bluestem hard white was quoted at Portland at 83c to 87c, hard winter at 70c, soft and western white at 70c, northern spring at 70½c and western red at 69c per bushel.

California markets were rather unsettled. Demand at San Francisco continued dull and prices at that market declined 5c to 10c per 100. Offerings were light and trading limited with old crop supplies mostly exhausted and new crop wheat not yet available except in limited quantities. The flour trade remained slow and mills were purchasing only limited quantities. Feeders were also buying sparingly and awaiting larger offerings of new crop grain. Harvesting has begun in the San Joaquin valley but growers were generally holding for prices above current quotations.

Oats markets tended upward with light offerings meeting a fair demand. Inquiry in the Pacific northwestern areas was limited but fears of new crop damage from dry weather in the Willamette valley was a strengthening

A few samples of new crop oats of good quality from the San Joaquin valley were reported at San Francisco. Old crop oats were in light supply with trading limited and buyers and sellers ideas of new crop values far apart. No. 2 heavy weight oats from the new California crop were quoted at San Francisco at \$1.30 to \$1.35 per 100.

Must Feel Proud of Job

Members of some of Idaho's parole and pardon boards must feel pretty proud of their job, owing to the fact that some of them are responsible for the releasing of both Mayhan and Waley, ex-Idaho convicts, who are alleged to be among the kidnapers of young George Weyerhaeuser.

The present pardon board may have the "pleasure" of later hearing from some of the ones they have released, who undoubtedly should have remained behind the bars. What is the use of sending a hardened criminal to the pen and then having him released within a few months? No matter who he is, he should pay the penalty. Each and every one of them know right from wrong.

DEPOSIT INSURANCE

AN EXTRA MEASURE OF PROTECTION

The management of this Bank always has taken every possible precaution to safeguard the funds of its depositors. In keeping with this traditionally conservative policy, deposits made here are now insured by the Federal Deposit Insurance Corporation.

The insurance this provided applies to all deposits, including personal and corporate deposits, deposits of public funds, and trust funds awaiting investment.

At the present time, the maximum amount insured for each depositor is \$5,000. This does not mean that a depositor with an account of, say \$500.00, is guaranteed \$5,000.00, but it does mean that his \$500.00 is fully insured. Deposit insurance is for your protection. It is a permanent part of the Nation's law.
