JULIAETTA NEWS NOTES

Julietta Wins Over Cottonwood
Julietta base ball team won the ninth game of the league over Cottonwood last Sunday by a 3-2 margin. The game was an exciting one, as the teams were well matched. Julietta scored their three runs in the first inning when Ralph Millard came up to bat and made a three-base hit with 2 men on bases. Art Tilden came up next and made a 2-base hit, bringing in the third score. Neither side scored then until the eighth inning, when Cottonwood made their two runs.

The batteries for the day were: Julietta—Tilden and Carlson; Cottonwood—Jones and Case. Art Tilden was credited with 14 strike-outs, while Jones was credited with 10.

This victory tied Julietta and Orofino for first place in the league. The Lewiston Orchards' nine is to play on the local diamond this Sunday.

"Home On The Range"
Zane Grey's "Home On The Range" is a real western—full of the galloping action that has always made this type of picture a success. It has all of the dash the western fans love—the round-up, the hold-up, the forest fire, the gold rush—and even packs in a gripping horse race for good measure. The well-known song, "Home On The Range," is the theme song and will be sung by Joe Mor-

ison, famous tenor, who introduced "The Last Round-Up." Jackie Coogan, Randolph Scott and Evelyn Brent have the feature roles.

The twelfth and last chapter of "Tailspin Tommy" will be shown, entitled "Littleville's Big Day."

In addition to the above, the first chapter of "Rustlers of Red Dog" will be shown. This is another great Western serial and will give you three months of real western suspense. John Mack Brown and Joyce Compton have the leading roles. All the thrills and excitement of Indian attacks and covered wagon days are in this picture.

Other regular weekly features will be shown.

A Westinghouse Electric Range

MAKES CANNING CHILD'S PLAY

Merely fill jars with washed fruit or vegetables, adding sugar or seasoning as you fill. Cover with water and screw tops on loosely.

Put jars in oven; set the Westinghouse automatic temperature control; close oven and forget it until processing time is completed.

Then tighten tops, and set jars aside to cool slowly. That's all you do. Isn't it easy, this modern Westinghouse electric way?

All your cooking becomes Easier

Cook in Your Prettiest Frook. No other cooking method so clean. Not a speck of soot to scour—or to soil walls or ceilings. Saves cleaning bills.

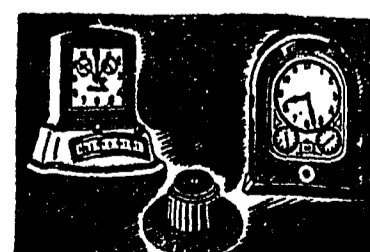

All Your Cakes Are Twins. No "off day" failures and wasted ingredients. You'll have a lot of fun baking better than mother did... and more easily.

Juicier, Larger Roasts. No flame to dry out oven air; no flue carries off evaporated juices. A 4-lb. roast can provide as much meat as 5 lbs. cooked by old methods.

More Minerals for Bone and Muscle. The accurately measured electric heat permits "waterless" cooking; saves minerals your family needs for health.

The Clock Does Your Cooking. You can take every afternoon off. The Westinghouse Dual-automatic control will even sear your roast, then turn down the heat.

Cheaper Than Matches. Westinghouse has actually made it cheaper to light a cigarette this way than to use a match! Electric cooking is now economical.

Mrs. Bryan Trail and children
spent last week with Mrs. Nettie
Trail. Mr. Trail came after them
Sunday, but Cecil and Roy stayed
for a longer visit.

Had Fine Rain
The Potlatch section was last week
treated to a very fine rain, which
was much needed for beans and the
maturing of wheat. Considerable hay
was down at the time, but the good
done by the rain was said to have
been much more than the loss of hay
sustained by those unfortunate enough
to have it laying on the ground in-
stead of on the stem.

**Farmer's Interests at Stake
in Twine Situation**
To Farmers Who Use Binder Twine:

We, the undersigned dealers, feel that we would be unmindful of your welfare if we failed to bring to your attention the danger to your interests of the increasing sale of foreign-made binder twine.

We have no selfish interest to serve, for we can sell foreign twine if we wish and can make just as much profit on it as on American-made twine, but we are convinced beyond doubt that there are two vital reasons why we should not sell and you should not buy the foreign product.

During recent years these sales of foreign twine have greatly reduced employment in American twine plants, thereby affecting the sale of the products of the farm. Every increase in the sale of foreign twine reduces this employment still further. These sales are retarding the progress of recovery. Let's remove this obstacle.

The foreign producers and their employers are not buying your products, but the American manufacturers and their employes are.

We are sure you do not consider it advisable to give these foreign producers a monopoly of the American market, thereby placing them in position to charge you exorbitant prices.

We are sure you do not want to run the risk of heavy loss through a shortage of twine, which would result from an incorrect estimate of the amount of twine required, or from other causes which might appear if foreign mills controlled the American market.

We ask that you give us an opportunity to discuss this important matter with you before you buy your supply of twine for next harvest.

WE NEED MORE CONTENTED COWS
HAROLD THOMAS, Editor

Well, Folks—That certainly was a "million" dollar rain for this section—it was just what we were needing—and it must have helped the pastures, too—and good pasture brings more cream—and more cream means more income for you. If you doubt it, just bring a can to us and see—try our service—get our money—and money will buy a lot these days.

And then—try our butter. You're sure to like its fine, sweet flavor—for it's made of selected cream only.

And ice cream—you bet we make it—and use only the finest of fine cream. Try a dish or take

home a quart—today.

Gimp: That fellow had a bad limp. Was he wounded in the war? Simp: He got that at his wedding. His father-in-law got excited and accidentally dropped his shotgun!

Talk about service—at a night club the other night we complained that the soup was too hot so they had a girl do a fan dance at our table.

Says Tom Long—business officials use twine to tie things up, while government officials continue to use red tape!
