HIGHLIGHTS OF THE WEEK'S NEWS DISPATCHES

New England republicans last Thursday hailed the victory of Chas. F. Risk (R) in Rhode Island's first U. S. representative district as a foretaste of 1936; democrats interpreted it to be "another sign of recovery." Col. Frank Knox, Manchester, N. H., and Chicago newspaper publisher, who has been mentioned as a republican possibility for president, said he saw in the republican victory "a foretaste of the 1936 election." On the other hand, Governor Theodore F. Green (D) after ascribing Prince's defeat to "wilful misrepresentation on the part of the opposition press," termed the electorate's verdict analogous to the decision of a patient who, having called in a physician to save him from critical illness, discharges him with returning strength because of the cost of continued treatment.

Reichfuhrer Hitler's newspaper, Der Voelkischer Beobachter, said in a front page story that all Free Mason lodges in Germany would come to an end August 10 with the dissolution of the state lodge of Saxony, the Dresden great lodge and the "German brotherhood chain" of Leipzig. Resettlement administration officials said they expect to spend about \$30,000,000 to buy from 8,000,000 to 10,000,000 acres of sub-marginal land by next January 1. Land purchases will be carried out through the administration's land utilization division, which took over the work begun by the land program division of the emergency relief administration. The lands will be used principally, officials said, for forestry, grazing and recreation. Some will be used for wild life conservation, while more than 1,000,000 acres may be added to Indian reservations.

Senator Long of Louisiana read to the senate what he said was a recording of an account of a conference of anti-Long forces in Louisiana in which it was proposed that he should be shot down on the senate floor. He charged that participants in the conference were congressmen and federal officials, preparing a ticket to beat him in Louisiana. The affair represented "blackmail," he said. "You have heard about the Rhode Island election," Long shouted to the senate, "but wait until you hear about the elections in Louisiana next January." He said Louisiana would never stand for "blackmail."

Total appropriations since congress met January 3, were boosted Monday to \$8,153,208,000 when President Roosevelt signed the second deficiency bill. As the chief executive put his signature on that bill two other significant things were happening: Chairman Buchanan (D, Tex.) of the house appropriations committee was talking about a "balanced budget" at the next session, and the last appropriation bill of the session—the third deficiency measure—was beginning to take shape. The bill approved appropriations for many odds and ends, including \$36,000,000 for the Tennessee valley authority. Normally it would be the last appropriation bill of the session.

Birthday Surprise

Mrs. Lafayette Keene was very pleasantly surprised Wednesday afternoon, her 79th birthday anniversary, when Mrs. Ira Havens, Miss Rilla Davidson and Mrs. Wade Keene entertained in her honor.

Guests were Mrs. James Emmett, Mrs. Jennie Plummer, Mrs. McAllister, Mrs. N. B. Long, Mrs. Candler, Mrs. Lucy Thomas, Mrs. Lew Thomas, Mrs. M. A. Deobald, Mrs. J. F. Brown, Mrs. Julia Brocke. A large birthday cake was served.

Caus Clark Kicked By Horse

Caus Clark, residing on Fix ridge, was quite seriously injured last Friday evening when he was kicked by a struggling mare that he and Tom Taylor had just finished shoeing, and were untying. In its struggles, the animal, in some manner, with one of its shoes, ripped open the right forearm of Mr. Clark almost the entire length. Dr. Christensen was called and took some 20 stitches to close the wound.

Entertains At Bridge

Mrs. H. B. Thompson entertained at three tables of bridge in honor of Mr. Thompson's birthday anniversary, last Thursday evening. Those present were Roy Ramey and Roy, Jr., Ethel Emery, Dr. and Mrs. D. A. Christensen, Mr. and Mrs. Wm. Watts and Mr. and Mrs. F. B. Higley.

Wheat Field Burned

A rather bad fire, said to have started in the Potlatch canyon on what is known as the old Dora Riley place, spread to the wheat field of Frank Wilken, on Texas ridge, and burned over many acres of fine wheat, of an estimated yield of 40 bushels per acre, which was said to have been partially insured.

BARNUM ELECTED PRESIDENT COMMERCIAL CLUB

The Kendrick Commercial club met in their regular monthly meeting at the Raby Hotel on Monday evening, August 12, and following the 6:30 supper, the business of the meeting was taken up, with E. A. Deobald presiding. Following the reading and approval of the minutes of the previous meeting and the allowing of bills, a letter was read from J. L. Hood regarding noxious weed control and efforts being made by the western congressmen to have money appropriated for the control of these weeds. A letter was also read from D. Worth Clark on the same subject, acknowledging letters from the club regarding the matter and assuring the club an equal chance with other communities for a weed camp if such becomes available.

N. E. Walker, chairman of the highway committee, reported that he had been in touch with Mr. Chamberlain of the bureau of highways, Boise, and that Mr. Chamberlain was of the opinion that more feeder roads into Kendrick were out of the question until a trunk highway had been constructed, meaning the Arrow-Deary road. It was hoped, Mr. Chamberlain said, to complete this road from Arrow to the Latah county line this summer, but as yet no funds were available.

Mr. Walker also said that he had been in touch with Mr. Johnson of the Lewiston engineer's office regarding the Southwick-Kendrick road, and believed that we stood an excellent opportunity too, of getting this road. He stated that this very section of road was causing the federal government to change a number of its required specifications, among them cutting the width from 18 to 16 feet, and the ditches to 2 feet, and the allowing of a 9 per cent gradient for short distances. Mr. Walker further said that all must keep boosting for these roads if we are to see their construction, but that there was hope of seeing them built soon.

Marvin Long of the Fish and Game committee reported that 100 Chinese pheasants were planted Saturday morning, but that the place of planting must of necessity be kept secret. He did state, however, that any small boys (or big ones, too) caught killing any of these birds, or any others, before the season opened, would be reported and prosecuted.

This cleaning the slate of all old business nominations for president were in order. G. P. Barnum was nominated and unanimously elected by the club.

President Barnum has announced the following as chairmen of the several committees: Highways, N. E. Walker; Agriculture, Wade Keen; Industrial, M. O. Raby; Finance, E. A. Deobald; Membership, Edgar Long; Fish and Game, Marvin Long; Merchants, W. J. Carroll; Entertainment, H. B. Thompson; Educational, J. M. Lyle, Jr.; Relief, Herman Schupfer; Publicity, Rev. T. E. Poindexter.

The matter of club finances was then taken up and a levy of one-half mill per dollar of invested capital was decided upon as necessary to carry the club the rest of the year. This matter will be cared for by the finance and membership committees following their appointment.

It was further decided by the club and president that the new Industrial committee be asked to co-operate with the town council and highway district in the handling of WPA projects. There being no further business this meeting, it adjourned.

Honor Mrs. MacPherson

Last Thursday evening a picnic supper was held in the yard at the home of Mr. and Mrs. Geo. Leith in honor of Mrs. O. E. MacPherson and son Jerry of Salmon, Idaho, who are visiting her parents, Mr. and Mrs. N. E. Ware, and other relatives.

It was a no-host or hostess supper. Those present were Mr. and Mrs. Harold Thomas and family, Mr. and Mrs. Wade T. Keene and family, Roy Ramey and Roy, Jr., and Mr. and Mrs. F. H. Rider and family.

See the home merchant first.

FARMERS IDEAS SHAPE NEW WHEAT PROGRAM

The new wheat adjustment plan asked for by wheat producers in their referendum May 25, is expected to be ready to offer farmers soon in substantially its present form. The new contract follows the lines worked out in conference between the Administration and representative wheat farmers. It will cover the four-year period, 1936 to 1939 inclusive. The contract will become effective on the wheat crop for 1936. So that winter wheat growers may start their planting plans it was announced that the required reduction with respect to the 1936 crop year will be 15 per cent of the base acreage.

With the adjustment of 15 per cent any contract signer may plant not more than 85 per cent nor less than 54 per cent of his base acreage for 1936. Plantings in subsequent years can be varied up or down within a 25 per cent maximum, as demanded by conditions. The new program is expected to divert excess wheat acreage to soil improving and erosion-preventing crops and to return some of it permanently to grass or to tree crops. Under the contract the producer has the option of withdrawing from the contract at the end of 1937, if he has met all requirements up to that time. The contract may also be terminated by the Secretary of Agriculture at the end of any contract year by proclamation before July 1 of such year. The producer agrees to adjust his acreage as may be required in any one year, but not by more than 25 per cent of his base acreage. Producers also agree to plant at least 54 per cent of their base acreage, and if they have other farms under no contract, they agree not to increase acreage on these farms.

As consideration for his performance under the contract, the Government agrees to make adjustment payments to producers in such an amount as will tend to bring producers as a whole a parity of fair-exchange value return on their allotments, which are 54 per cent of their adjusted average base production. Adjustment payments are to be made in two installments. The first payment is to be approximately two-thirds of the difference between the average farm price and parity price on a representative date before July 1 of the year for which the payment is to be made. The second payment, at the end of the contract year, will be adjusted upward or downward, depending upon the average price of wheat during the marketing year, and will be in such an amount as will tend to complete payment to give the producer a parity return on his allotment, which is the share of his average production consumed in this country.

The first installment for each year is to be made after the producer submits proof of compliance with the contract for that year, and the second payment is to be made after similar proof of compliance has been submitted for the crop of the following year. Reasons why wheat farmers may launch their new program with confidence despite processing tax litigation, according to officials, are: first—the new amendments to the Adjustment Act specifically enact the rates of processing tax; second—the provisions in the new contract permitting termination by the Secretary at the end of any year, and allowing grower withdrawal at the end of the first two years, give ample machinery for ending the program in the event of an adverse decision in the Supreme Court; third—signers will be fully protected as to compensation for the actual performance of compliance with the contract, up to the time of termination.

Open Beauty Shop

The Moderne Beauty Shop was officially opened to the trade Monday morning. Miriam Skina and Zelva DeGowin being the operators and proprietors. It is located in the old postoffice building and has been transformed by the ladies into a very inviting place, where the ladies of this community may have their beauty requirements attended to at reasonable prices.

Has New Water Works

Herman Schupfer now has a full-fledged water system of his own, pumping water from the Potlatch. He now has six sprays connected at once and flood his entire yard within an hour at a cost for electricity of 2c.

This is the third private water system to be working in Kendrick and others are contemplated.

KENDRICK FOLKS NEED HIGHWAY, SAYS GERTJE

And while we are concerning ourselves about roads not in our own territory, let us briefly consider the road from Kendrick to Arrow. We are a bit inclined to think that this is a terrible road from Bovill to Moscow, but we would all have a first mortgage on a right to grow if it was like the road from Kendrick to Arrow. That road is a concrete (or was it bedrock) example of how rough a road can be when it gets to be only a road in memory. Of course our readers want good roads in this territory, but it seems only proper to take time out and remember that C. Ben didn't need votes from Kendrick to win with. And if people use good judgement, a cow trail full of boulders and chuck holes should be monuments to votes wasted and how to use them next time.—The Latah Journal (Deary).

Pursuing the road subject further and taking up the endorsement of the Moscow Chamber of Commerce on roads leading to Moscow, let us say: While Kendrick has no objection to the Moscow Commercial club endorsing roads that lead directly to Moscow—yet, who ever heard of the Moscow Chamber ever endorsing a road or anything else that did not directly concern them. All roads endorsed by Moscow must lead directly, or indirectly, to that city. It has been the attitude of Moscow toward any other community. We have watched the movements of Moscow for the past 20 years and we have the first time yet to know of their ever doing anything to assist any other community that did not first assist their own. It is natural that Moscow does not want a road from Arrow through Kendrick to Harvard or one across Big Potlatch ridge from Orofino to Kendrick, via Southwick. It might accidentally cause some misguided tourist to miss their town and shorten his distance to a northern destination by many miles.

Kendrick is not asking that the North and South highway be rerouted through Kendrick to Harvard (the logical way), but we are asking that we at least have roads that will allow farmers to get their grain to market over roads that have been built since the Civil war. Kendrick has always received and always will receive, just such treatment from the Moscow Chamber of Commerce, whose policies are guided by a few self-centered individuals who have had a hand in the doings of that city since years ago when the water was shut off in the city drinking fountains and the city park in order to make visitors to their "celebration" buy lemonade—and even ice water—so they could return money to the donors for the celebration.

There are still many in this section whose memories go further back than the last election.

Wheat Rolling In

Warehousemen in Kendrick are about as busy now as they have ever been as wheat is coming in at a rate that taxes the capacity of both warehouses. The statement is made that the grade of wheat this year is about the best ever, most of it grading No. 1. The yields are said to be up to normal, which should give the farmers of this section a better break than they had last season—so far as wheat is concerned.

Word From The Carrolls

A postcard received by the Gazette from the Carroll family states they will be home and ready for work Monday morning. The card was mailed at Mason City, Wash., one of the mush-room towns near the big Coulee dam, and bore a picture showing the progress being made on it.

Breaks Right Wrist

While cranking a tractor Monday Gerald Schmidt had his right wrist broken when the engine "kicked." Dr. Christensen fixed him up, but it will be some time before he tries cranking again.

Employed In Creamery

John Lang of Moscow is now employed in the Thomas Creamery. He is residing at the home of Mrs. Ethel Emery.

Neighbors of Woodcraft Meet

The Neighbors of Woodcraft met at the home of Mrs. J. B. Helpman Wednesday night.

Had Tonsils Removed

Miss Ruby Heffel had her tonsils removed at the office of Dr. D. A. Christensen Wednesday morning.

Exams For Drivers License

Word has been received by the Gazette that H. C. Mauvias and Glenn Taber will be in Kendrick on Saturday, August 24, to hold examinations for automobile drivers' license. The place for holding the examinations and the hours will be announced next week. If you haven't already gotten your license, better make arrangements to be on hand at some hour during the day—Aug. 24.

E. H. DAMMARELL TO ENTER BUSINESS AT WALLA WALLA

Mr. and Mrs. E. H. Dammarell and sons Paul and Quentin left Thursday morning for Walla Walla, Wash., where they will make their home, after a residence in Kendrick of 24 years. The Dammarells came to Kendrick February 4, 1911, from Asotin, Wash., where Mr. Dammarell resigned the position of county treasurer of Asotin county to go into business for himself. He, with John Florence, now a resident of Clarkston Heights, entered into partnership and conducted the Kendrick Store company for a number of years. After another deal or two, Mr. Dammarell became sole owner of the business, which he conducted until 1929. On October 19, 1929, he was appointed postmaster at Kendrick, which position he held for nearly five years, serving the community faithfully and well in that capacity.

Mr. Dammarell will enter business again at Walla Walla, having taken up the John F. Class Vapo-Path System of mineral fumes, which has made great strides in several cities and is fast becoming a favorite remedy with many.

A farewell gathering of friends and members of the church was held in the basement of the Community church Wednesday evening, there being some 50 present to wish Mr. and Mrs. Dammarell the best this world affords and health and happiness in their new home. They will be greatly missed in the community, and especially in the church, where they have been untiring workers for many years.

Woman Dies Of Injuries

Mrs. Mary Jane Williams, 79, succumbed Monday night at 8:40 o'clock to injuries received Sunday morning at 9:15 o'clock when struck by an automobile driven by James Emmett of Kendrick. Mrs. Williams' skull was fractured and she was severely hurt internally, which resulted in hemorrhages. She was rendered unconscious and remained in that state until the end came.

Mrs. Williams, who lived at Hatwai, was crossing the North & South highway in front of her home to enter a car and come to Lewiston for church services. Emmett, traveling in the direction of Lewiston, and at a speed of not more than 30 miles per hour, a grandson of Mrs. Williams estimated, apparently became confused. State Traffic Officer Harry Clark, who investigated the accident, said Emmett believed Mrs. Williams intended to wait until he passed.—Lewiston Tribune.

No blame has been attached to Mr. Emmett for the unfortunate accident. He stated that as Mrs. Williams started to cross the road he slackened his speed and that she had stopped, seemingly waiting for him to pass, when she suddenly started to cross the road right in front of the car, which Mr. Emmett stated could not have been moving more than five miles an hour when the accident occurred.

The accident was indeed unfortunate and Mr. Emmett feels it deeply. It seemed to be one of those unavoidable things that very often happen and no one could regret such an unfortunate affair more than Mr. Emmett.

Got Fish and Huckleberries

The Lester Crocker and Don Miller families returned Sunday night from a week's camping trip on the Little North Fork at Twin Creeks. They report a wonderful time, brought back 25 gallons of fine huckleberries and caught all the fish they wanted—an ideal outing for most people who like the big outdoors.

Taken Home In Ambulance

Mrs. Annie King, mother of Mrs. Geo. Leith, who had been visiting here for some time, was taken to her home at Moscow Saturday evening in an ambulance. She is residing with her daughter, Mrs. Leola R. King, county treasurer. She is 84 years of age and is getting rather feeble.

Mr. and Mrs. M. C. Grover returned Wednesday night from Moscow, where they had spent the summer.

WHEAT MARKET FIRMER—FEED GRAINS WEAKEN

Wheat markets continued firm but feed grains declined during the week ended August 9, according to the Weekly Grain Market Review of the U. S. Bureau of Agricultural Economics. Official confirmations of very sharp losses in spring wheat from rust and heat damage and of smaller outturns of winter wheat than were expected earlier in the season, was a strengthening influence in wheat. The weakness in foreign markets, however, and the failure of Canadian prices to follow the advance in the United States, placed Canadian milling wheat on an import basis to this country and tended to check further price gains. Improved prospects for corn and indications that outturns of oats and barley would be about on an average were weakening factors in feed grains.

Prospects in the southern hemisphere are much less favorable than a year ago. In Argentina, about 50 per cent of the wheat sown has been affected by the drought and it is estimated that not more than half of the sown acreage in drought areas has germinated, so the outlook for the coming harvest is very poor.

Pacific Northwestern wheat markets moved within narrow ranges during the week and prices at the close of the period showed little change from those of the previous week. On August 1, No. 1 hard white was quoted at Portland at 91½c, dark hard winter at 91½c, soft white, hard winter and northern spring at 76c, western white at 75½c and western red at 74½c per bushel, basis No. 1, sacked. Wheat receipts at Puget Sound and Columbia river terminals totaled 1,068 cars as compared with 1,623 cars during the corresponding week a year ago. Demand was fairly active during the week from millers and elevator operators, but farmers offerings were only moderate. Demand for Pacific Northwestern wheat in the Kansas City territory continued active—and considerable quantities were reported sold to that area during the period.

Oats markets weakened with heavier new crop offerings. Pacific Northwestern markets were only moderately active as demand from all classes of buyers was limited. Outturns in the Willamette valley appear somewhat above earlier expectations. Heavy white oats from eastern Washington were quoted at Seattle at \$1.20 per 100 for both old and new crop, with No. 2 white oats at Portland quoted at \$1.07 and No. 2 gray oats at \$1.05 per 100.

Pacific Northwest barley markets continued quiet although prices were fairly steady and about unchanged from a week ago. No. 2 bright western barley was quoted at Portland at \$1.10 per 100, sacked basis. At Seattle California barley was quoted at \$1.02½ and No. 2 bright western from eastern Washington, at \$1.07 per 100, sacked basis. Trading and movement were very light.

The Budget S-T-R-E-T-C-H-E-R!

Speaking of stretching exercises, there is nothing quite like 2c electricity for keeping the household budget at a trim figure!

In many cases 2c electricity enables you to take advantage of the economies and conveniences of electric cooking and refrigeration with little if any increase in your electric service bill. With 8/10c water heating it makes a house a home and not a sweatshop.

Electricity is the cheapest thing you buy...use more of it! Why make a horse out of mother when electric motors can do her hard work and keep her sweet as a June bride?

Let electricity modernize your home. Electrical appliances never cost so little. And now you can buy under the FHA Plan with nothing down and up to 3 years to pay!

Still Have Hope For Stamp
Those interested in the printing of
a special stamp commemorating the
one hundredth anniversary of the ar-
rival of Whitman and Spalding at
Spalding. The postal department at
first refused to consider the request,
but have later taken the matter under
advisement and those having the big
event in charge are very much en-
couraged over the prospects of the
commemorative stamp being used.

**HAPPY DAYS
ARE HERE
AGAIN**
...with 8/10c
water heating!

Yes sir, the family will be "sing-
ing in the bathtub" once again,
when your home is equipped
with modern electric water heat-
ing. 24-hour hot water service
just naturally breeds "harmony!"
At 8/10c per kilowatt hour you
heat 40 gallons of water to 150
degrees Fahrenheit for a thin
dime! You pay for only what you
actually use.
Try singing in your bathtub with
this service. If, after 30 days,
you are satisfied...ok! If not,
your down payment will be re-
funded and your former system
reinstalled...all at our expense.
Let us make a water heating
survey of your home. What do
you say?

Enjoy summer to its fullest by letting
the "Chef's Brain" in the new Hotpoint
Electric Range watch the cooking while
you are out of doors.

It is needless to spend hours in a hot kitchen.
With an electric range the automatic timer clock
turns the oven on and off at a predetermined
time...cooks entire meals of meat, vegetables,
dessert, rolls in the thoroughly insulated oven
without heating up the kitchen. When you are
ready to eat, the meal is completely cooked...
ready to serve.

Under the FHA Plan you pay...
Nothing down!
with monthly payments as low as \$5 and up to
three years to pay. All details handled through
your nearest Electric Shop.

WE NEED MORE CONTENTED COWS
HAROLD THOMAS, Editor

EDITORIAL

Well, Folks—Eome burst of hot weather we have been having the past few days, isn't it. It surely ripened the wheat and shriveled the beans, placing hob in general with all green crops, including the famous Juliaetta tomatoe by cutting the crop rather short.

You can partially recoupe your losses, however, by being a bit kinder to Queen Bossy, for her products are cash in your pocket. Bring the cream to us—get the cash and take home a steam sterilized, ready to use can!

Try our butter—it's sure to please and you'll find its flavor

A census taker asked the woman at the door:

"How many in your family?"
"Five," snapped the woman, "me, the old man, kid, cow and cat."

"And the politics of your family?"
"Mixed. I'm a republican, the old man's a democrat, the kid's wet, the cow's dry and the cat's a populist!"

Miss Stepper: "Don't you just love sports?"

Miss Slow: "Yes, but not enough to marry one."

More fools and their money might help the financial situation.
