NO. 35

HIGHLIGHTS OF THE WEEK'S NEWS DISPATCHES

British plans to throw a tight ring of warships around the Suez canal, vital question mark in the Italo-Ethiopian dispute, were announced officially Sunday. The crack vessels of the Mediterranean fleet will leave Malta August 29 for points in and around the Suez territory. At the same time the government ordered construction of public air-raid shelters throughout the island. Leaflets were distributed instructing the public in how to take precautions against attacks from the air.

Indications that keels would soon be laid on the navy's 24 new warships were given after the high command conferred with President Roosevelt. The president went over bids submitted by six companies for 13 of the vessels, as well as cost estimates of navy yards on the remaining 11. The department is expected to shortly award contracts and designate yards to build the ships—first stage in the program to bring the navy to treaty strength by 1942.

Congress—and especially Senator Robinson, the administration leader—served notice Saturday that America is determined not to go to war to settle foreign controversies. Hardly had compromise legislation bulwarking American neutrality in any conflicts abroad been sent to the White House than Robinson arose in the senate to reprimand Senator Pope of Idaho for predicting this country might become involved in a war. Pope had made his prediction in an interview in England. A 77 to 2 senate vote sent the new neutrality policy to President Roosevelt for certain approval. It includes a ban, until February 29, 1936, on munitions shipments to all belligerents in foreign wars. Cries that the legislation placed America in an "international straitjacket" and was only a "gesture toward peace" failed to stop its swift flight through congress.

Young and old republicans of the northwest consider Sen. William E. Borah of Idaho the favorite presidential timber, an unofficial poll of the visitors to the intermountain-Pacific states conference of young republicans indicated. Borah led a field of 12 potential party leaders, some of whose names were currently heard in pre-convention gossip. Of 74 votes Borah received 52. Young republicans of 11 western states closed their intermountain-Pacific states conference in Yellowstone Park with a ringing call to young party members of the nation to "do battle for a return to a representative form of government." The resolution, unanimously adopted, struck at the Roosevelt administration and exhorted young republicans to join a 1936 campaign to restore to the people a government with both the legislative and judicial branches free from executive interference. Very quietly and without any vestige of controversy, the delegates approved another resolution which urged the "citizens of America to demand that any proposed changes in the constitution be made only in the prescribed manner."

Congress adjourned an historic session of gigantic legislative labors on Tuesday morning, but left buried under a filibuster by Senator Long (D., La.) the money for major new deal projects. The senate quit at midnight Monday under the lash of an administration warning that President Roosevelt has constitutional powers to order adjournment. The house closed its first session of the 74th congress at 12:09 a. m. (E. S. T.) after turning back the clock while waiting to learn what course the senate would pursue. When Speaker Byrns rapped the final gavel, the clock in the house chamber read only 11:57 p. m., or 12 minutes behind the real time.

America's ambassador to Russia, William C. Bullitt, Monday delivered on behalf of the United States government an "emphatic protest" against activities of the recently closed congress of the communist international. His blunt note to Vice-Commissar Krestinsky, in acting charge of foreign affairs, said these activities involved interference in the internal affairs of the United States, and called them a "flagrant violation" of the pledge made by soviet Russia at the time she was recognized by America. The American government, he warned, "anticipates the most serious consequences" if the U. S. S. R. "is unwilling or unable to take appropriate measures to prevent further acts" in disregard of its pledge to prohibit activities in its territory aimed at changing the political or social order of the United States.

Driver's Licenses Issued

Special state officers Glenn Taber and H. C. Mauvias were in town on Monday giving examinations for the new state driver's licenses, one of which must be possessed by every one who operates a car or truck. They issued 281 driver's licenses and 6 chauffeur's licenses in the course of the day. Mr. Taber stating that it was the biggest day in history so far as he was concerned, and that many were waiting and had to be turned away at the close of working hours. So great was the rush that Marshal Edgar Long assisted them. They will return again on Tuesday, Sept. 10.

MRS. ANNA LENA KING, 83, DIES AT DAUGHTER'S HOME

Mrs. Anna Lena King, 83, pioneer of Idaho, died Sunday evening at the home of her daughter, Mrs. Leola R. King, 105 North Asbury, Moscow, death following an illness of several weeks. Mrs. King was born in Hamburg, Germany, August 5, 1852. She came to the United States 77 years ago. In 1871 she was married to Charles R. King at Tipton, Iowa. Mr. and Mrs. King and family moved to Moscow 48 years ago. Mr. King died nine years ago.

Mrs. King is survived by three daughters and one son: Mrs. Leola R. King of Moscow, Mrs. George Leith of Kendrick, Mrs. Earl Price of Lewiston and Ben Randall King of Valley Ford, Wash. She is also survived by two sisters, Mrs. Chris Kahler of Marango, Iowa, and Mrs. Fred Schneitzlein of Long Beach, Calif., and by 15 grand children.

Funeral services were held from the Grice-Anderson funeral parlors, Moscow, at 1:30 o'clock Tuesday afternoon. Dr. Clifford M. Drury, Presbyterian church, had charge of the service. Miss Alice Bell sang "Fade, Fade, Each Earthly Joy," and "Jesus, Savior, Pilot Me."

Homer E. Estes, Harryrazier, Charles Summerfield, John Hill, C. E. Oliver and Perry Carter were pallbearers. The body was taken to Lewiston and laid in a mausoleum there. All of Mrs. King's children and several of her grandchildren were in attendance at the funeral.

County Officers Must Enforce Law

The following communication has been received from the Idaho Liquor Control commission, which is self-explanatory:

"The Idaho Liquor Control commission has been asked to outline its policy of law enforcement of Chapter 103 of the Session Laws of 1935, known as the Idaho Liquor Control Act.

"Section 5 of the Act provides for the creation of the Commission, and enumerates its various duties; and in the discharge of its duties, the Commission has caused to be opened 28 State liquor stores and 73 dispensaries where State liquor is sold at a reasonable price and in a dignified manner. Anyone who is eligible to purchase liquor can do so during the hours designated by the Commission. Therefore, the Act itself is the policy of the Idaho Liquor Control Commission.

"A mistaken impression seems to prevail as to the duty of the Idaho Liquor Control Commission to enforce the law relative to the illegal sales of liquor.

"The duty to enforce the law where resales of liquor are made in violation of the act clearly devolves upon the law enforcement officials of each county. The Commission could not and has not attempted to dictate or suggest to county officials their duties, and the Commission has not at any time or in any manner stated or given any indication that they sanction either open or secret violations of the law; furthermore, the Commission does not sanction any such violations."

What's The Matter With Kendrick

Last June the Remington Arms Co., of Bridgeport, Conn., announced a \$1,500.00 prize contest for the best window displays of Remington products. A photograph of each window to be sent in to the judges. Geo. P. Barnum of the Barnum Lumber & Hardware Co., was surprised last week with a substantial check and a letter with the information that he was among the first 35 winners. The Barnum Lumber & Hardware Co. of Boise, were the only prize winners in the state of Idaho.

Mr. Barnum's windows always hold nice displays of his wares, which show that George knows his hardware as well as guns and ammunition.

KENDRICK SCHOOL WILL OPEN TUESDAY, SEPT. 3

The Kendrick Public Schools, will open for the 1935-36 term on Tuesday morning, September 3, at 8:40 a. m. It is desired that all grade and high school students be on hand in order that they may register for this term and find out what materials will be needed for the respective courses. The staff will number eight teachers for this year, as follows:

High School—J. M. Lyle, Jr., superintendent, Mathematics, Science, M. C. Grover, Agriculture, Science, Miss Edith Lennox, Commercial, History, John King, English, Music, Dramatics.

Grades—A. L. Dawald, principal, 7th and 8th grades, boys' athletics, Miss Carolyn Roos, 5th and 6th grades, grade music, Mrs. E. Cook, 3rd and 4th grades, Miss Louise Hockaday, 1st and 2nd grades and girls' athletics. In the grades it is planned to do some department work which is to be arranged this week. By using this method it is possible to let the teachers who are especially trained in some field, to carry this work in grades other than her home room.

Miss Roos and Miss Hockaday, who are replacing Mrs. Waide and Mrs. Adams, who have retired from the teaching field, come to our system very highly recommended. Miss Roos comes from Lewiston and Miss Hockaday from Rupert, Idaho. Mrs. Cook and Mr. Dawald are already very well known to the patrons of the school.

In the high school department the staff remains the same with the exception of Mr. King, who replaces Mrs. Briens, our English and Dramatics teacher of the past two years, who resigned at the end of the past school year. Mr. King, who did practice teaching in the Kendrick High school during the second semester last year, is well known to all of the old students and many of the townspeople. He is a graduate of the University of Idaho and did his major work in English as well as considerable work in vocal music.

Miss Lennox, who spent the summer attending school and taking advanced work in commercial subjects, will handle all commercial work and probably American history. Mr. Grover will handle Smith-Hughes agricultural work and a class in mathematics and one in science. Mr. Lyle will handle science and mathematics work. All indications point to an excellent enrollment for this term. A number of students have enrolled from sections not heretofore represented in our school.

The courses to be offered in high school, with perhaps a slight variation, will include the following: English, 4 years; algebra; physics; bookkeeping, agriculture, 1 and 2; shorthand, typing, 1 and 2; World history; U. S. history and civics; general science and probably two other courses to be selected, depending on the needs of the students. There will be no home economics courses offered this year, it being planned to offer this the coming year and have a special teacher for this work and improve the department, with some necessary materials which may be added before that time.

Mr. Lyle recommends that no books be purchased by students until after registration, when a definite list will be given in each class.

The school building has been very thoroughly cleaned during the summer by Mr. Emery, who removed all oil from the floors and has given them all several coats of a new floor finish which is coming widely into use in many public buildings. The new finish gives the floor a hard surface, which eliminates all the oil formerly used and makes the floors easier to keep in condition and more sanitary. There has been some cal-sominizing done and all woodwork has been refinished. The library will be rearranged and all old volumes will be separated from the newer ones and thus give our students access to a more modern library. There will be a student librarian in charge at each assembly period to care for those who desire to check books in or out. By using this system it is hoped to be able to keep a more accurate check on the books and give students a chance to get useful information more quickly.

A new shop building is to be constructed for the Smith-Hughes agriculture work. In this shop students taking agriculture will have an opportunity to learn to do shop work that ordinarily occurs on a farm, under the direction of one specially trained in this work. This should add

COUNCIL APPROVES FOUR WORK RELIEF PROJECTS

At a special meeting of the City Council, with the Industrial committee of the Kendrick Commercial club, represented by M. O. Raby, present, the Village Council approved four work relief projects for presentation to authorities for the winter.

The council agreed to furnish the city hall, including lights and heat, free of all expense and grant the use of the same to the Women's Sewing project, for the employment of relief women.

The second project was the replacing and reconstruction of the water main from 5th street to Mill street, approximately 1,500 feet. The village to furnish the materials. The estimated cost of labor of \$1,200 being asked for through the Kendrick Commercial Club and local W. P. A. chairman.

The third item was a request thru the same organizations for \$3,000 for the labor of laying some 11,000 feet of pipe line to the reservoir at Kendrick from an outlying spring. The materials, water rights and other expenses with the exception of labor to be borne by the Village.

The fourth request was for \$500 in labor for use in improving the parks in Kendrick, all materials costs to be borne by the Village. This request was also made by the Council through the Commercial Club and local W. P. A. committee.

Copies of the minutes were delivered to Geo. P. Barnum, chairman of the Commercial Club and M. O. Raby, local chairman W. P. A.

G. F. Cridlebaugh Married

Word has reached the Gazette that G. F. Cridlebaugh, instructor at the Cameron school for the past eight years, has taken unto himself a wife in the person of Miss Louise Schmidt of Spokane, the ceremony taking place at the Lutheran parsonage in that city, Rev. John Groschopf officiating.

Mr. Cridlebaugh is perhaps one of the best-known teachers in this section of the country and his long period of teaching at Cameron indicates his ability as an instructor. He will be in the Leland school this coming term.

The Gazette, with his host of good friends, extends congratulations and best wishes.

New Wide-Range Speaker

The Kendrick Theatre company has recently installed a new wide-range speaker, which gives this popular show house one of the most up-to-date equipments to be found anywhere, everything now being of the very latest type. And their ever increasing attendance indicates that the public are generally satisfied with the shows they are putting on.

Return From Vacation Trip

Mr. and Mrs. Harley Perryman returned last week from a two-weeks' vacation trip. They spent a week in Glacier National park; they visited Calgary, Alberta and various points in Canada, including three Canadian National parks. On their return they visited in Spokane and Dishman, Wash. They report a very enjoyable trip.

Fire In Brier Building

Lewiston came near losing its largest office building last Friday afternoon, when fire broke out on the fifth floor in the Brier building on the Seventh street side. To quell the blaze it was necessary to cut a hole approximately 25 feet square in the roof. Much damage was done by smoke and water on the lower floors.

Road and Bridge News

Sunday's Lewiston Tribune carried considerable road and bridge news, among which was the following: "Reconstruction of some six or seven miles of the Arrow-Kendrick route, badly damaged by flood waters in 1933, is another project that will probably be let this fall, according to District Engineer E. A. Johnston."

Believe It Or Not

Eugene Elliott left by train on Thursday of last week for Spokane to spend a few days in that city. He said that he has lived in this vicinity for the past 50 years and has never been farther away from Kendrick than Moscow and Lewiston. (This would be a good item for Ripley.)

On Camping Trip

Mr. and Mrs. Harold Thomas and family left early Sunday morning for the Walton Lakes country in the Selway national forest. They expect to be gone about a week.

Bird Season Opens Sunday

The open season on upland game birds starts Sunday, Sept. 1, with native pheasants and blue grouse on the list, and the hunting dates in Latah, Clearwater, Nez Perce and Lewis counties are from Sept. 1 to 30. Shooting is allowed on Wednesdays, Fridays and Sundays and legal holidays, making a total of 14 days for shooting during September. The bag limit is a total of four birds of any kind, or a mixed bag of four.

OROFINO TO HOLD RODEO SEPTEMBER 2, 3 AND 4

Three big days of entertainment and amusement are in store for visitors who attend the annual Orofino Rodeo on Monday (Labor Day), Tuesday and Wednesday, September 2, 3, 4, according to plans announced by the Orofino committee. The daily program will include bucking events, steer riding, racing, calf roping, bulldogging and other cowboy maneuvers in line with this character of program. One of the best rodeo clowns in the business has been offered an enticing purse to make this show with his trick mule.

A special added local feature to take place each afternoon is a tug-of-war between ten-man teams from the various lumber camps of Clearwater county. This pulling potpourri is attracting considerable attention, almost on even terms with the rodeo itself, because of keen rivalry over the prowess among the man-power in the camps and the enticing purse offered the winning team.

With the advent of better times larger purses have been oered for the rodeo contests. This has resulted in attracting many more cowboys from distant points to the Orofino show, which this fall promises to be the best ever put on. The bucking horses will be of better calibre also for they have been in pasture near Orofino three weeks resting up for the big event.

Entertainment outside the rodeo program includes a fine carnival company with three rides for the kids, some shows and the usual stands, three Bigelow-Johnson airplanes to give commercial rides, special picture shows and daily dances on the best floor in this section of Idaho.

The people of this community are cordially invited to attend one day or more of the Orofino rodeo, which is developing into one of the outstanding shows of the Inland Empire.

MARKET FIRMER—MODERATE OFFERING IN DEMAND

Domestic wheat markets were somewhat firmer during the week ended August 23, influenced by advances in foreign prices and a good local demand for the moderate offerings, according to the Weekly Grain Market Review of the U. S. Bureau of Agricultural Economics. Corn did not share with wheat but lost. Oats were fairly steady despite continued heavy receipts and with demand more active. Barley was slightly firmer with a good inquiry for malting types.

The firmer situation both in domestic and foreign grain markets reflected further deterioration in the Canadian crop and rather poor prospects in Argentina. Frost in sections of the prairie provinces of Canada caused heavy damage. Very little bread wheat will be worth threshing in Manitoba, according to an official report of the Dominion, since yields are low and grades poor.

Governmental regulations, which have been an important influence in reducing world wheat trade to the lowest levels since the war period, remain an important factor in the wheat situation. The closing of the Italian commodity markets to bring them more directly under governmental control is evidence of the strong nationalistic policies which have brought fundamental changes in the world wheat markets since 1929. The Italian Grain Commission created by the decree of February 2, 1935, is in complete control of the grain trade in Italy. Germany also has complete governmental control of the grain trade and has fixed prices for domestic grain.

Domestic cash markets strengthened with futures, influenced also by a good milling inquiry for the moderate offerings. Marketings of spring wheat increased with receipts totaling 1,557 cars at Minneapolis and 370 cars at Duluth. Demand for flour improved materially and mills were active buyers of grain. Test weight remained low.

The Portland market advanced about 1c per bushel on soft white wheat and around 4/8c on high protein types. Marketings showed seasonal increase with growers selling more freely following the advance in prices. Yields of both winter and spring wheat were turning out better than expected earlier in the season.

An active demand was reported from middlewestern markets for heavy weight high protein grain for shipment direct from country points. Northwestern mills were also active buyers to cover recent heavy flour sales to the southeast. At the close of the week 13 per cent protein No. 1 hard white was quoted at Portland at \$1.00, ordinary protein hard white at 92c, soft white and northern spring at 76 1/2c, western white at 76c, hard winter at 79c and western red at 75c per bushel, sacked. At Seattle, western white was quoted at 78c, western red at 79c and hard white (baart) at \$1.03 per bushel, sacked.

Oats fluctuated with the other unsettled situation in other grains. Pacific Northwestern markets tended to go downward with a slow demand from both cereal millers and feeders. On August 22, No. 2 white oats were quoted at Portland at \$1.00 per 100, with No. 2 gray oats at \$1.02 1/2 per 100, sacked basis.

Oh, Boy! "McFadden's Flats"
"McFadden's Flats," it's the Irish
in us! In the McFadden family it is
either a fight or a frolic—and you'll
enjoy whichever one it happens to be
when you see it at the Kendrick
Theatre this Friday and Saturday
nights.
Dan McFadden, one-time hod-car-
rier who has risen to become a build-
er in a small way, has one ambition—
to build a modern flat which shall
house his friends in the neighborhood
and be a monument to himself. His
money gives out while the building is
still uncompleted. The bank refuses
to extend additional credit. "McFad-
den's Flats" bids fair to be known
as "McFadden's Folly."
Then there'll be Chapter 11 of the
"Rustlers of Red Dog" and other
regular features.

EDITORIAL

Well, Folks—Here it is almost the first of September and harvest will soon be over—that is, the grain harvest. Beans will soon be on and after beans, what? Some will say nothing—but they are wrong. Continue your harvest throughout the entire year with old Bossy. She can and will provide you with a year-round income, if you will do your part by proper yearning for her. Then just bring the cream to us. You get the dough. No waiting, no fuss, no bother. Right now payment—and a ready-to-use can returned.

KENDRICK SCHOOL WILL OPEN TUESDAY, SEPT. 3

THIS YEAR — AS LAST — WE ARE HANDLING THE BOOKS NEEDED IN THE KENDRICK SCHOOLS

greatly to the practical value of this course.

Should any of the parents or students desire more information concerning the courses to be offered they may call Mr. Lyle at 422 between the hours of 9 and 4, during the day.

It is hoped and expected that the parents of students attending the Kendrick schools will give the same loyal support to the school that has been so prevalent in the past. This makes for a better school system both from the point of the parents and from the point of those connected with the school. Any of the school staff will welcome at any time any suggestions that you, as parents, may have to offer.

Supt. J. M. Lyle has stated that several girls from other sections are wanting places to work for their board and room while attending school. Anyone needing such help should get in touch with Mr. Lyle.
