HIGHLIGHTS OF THE WEEK'S NEWS DISPATCHES

The civilian conservation corps has sent out a call for more recruits in a drive to boost its enrollment to the legal limit of 600,000. To help swell enlistments the minimum age limit was dropped from 18 to 17 years and ranks were opened to re-enrollment of youths who have served at least four months in the camps and whose families are still on relief. Coincidentally, officials of FERA's rural research division estimated that 400,000 families embracing 1,750,000 persons were dropped from relief rolls in rural areas between February and June.

Sharply attacking many phases of the new deal, Hugh S. Johnson has revealed plans for taking the stump as a friendly but vigorous critic of the administration. Soon to retire from his second new deal post, the general in an interview outlined plans for an extended speaking-lecture tour for the frank purpose of discussing publicly the "futile aspects of this administration in the hope that some good will come of it." He expects to retire as works progress administrator for New York state on October 15. He will begin his tour with an address at the San Diego exposition on October 2. After the middle of the month his engagements will take him to all points of the compass. The tour will be completed about January 1.

A telegram received Friday night at the federal transient bureau office at Spokane from Yeteve E. Taake, transient service director for the state, ordered continuance of service at the billet, N210 Bernard. This was a complete reversal of an order issued Sept. 11 by Miss Taake that nonresidents of the state would not be accepted for relief at the billet after midnight Friday. The September 11 order followed out instructions from Washington, D. C. Forty-five to 70 transients are registering daily at the central registry, 241 Trent, for one night's stay at the billet and three meals.

From the "vantage point" of more than a quarter of a century in politics, United States Senator William E. Borah of Idaho, denounced "intense partisanship which sometimes places party interests above country" as "the greatest danger" that now besets constitutional government, in a speech made last Sunday night at Boise. "I am speaking," he declared, "of that partisanship which, under the lash of party interests and the insatiable appetite for political power does not hesitate to assail our most essential institutions, submerges or takes away the liberty of the citizen and rides rough-shod over the national charter itself." The noted statesman, mentioned frequently as a prospective republican candidate for the presidency, spared no political creed or faction in his address which was broadcast nationally.

Mr. and Mrs. A. D. Wilcox of Garfield, and Mrs. Marvin Burton of Moscow, were visitors at the J. B. Helpman home Tuesday. Mr. Wilcox, who is a brother of Mrs. Helpman, remained for a longer visit.

Mr. and Mrs. W. L. McCreary spent the week-end visiting relatives in Seattle, returning home Monday evening. They were accompanied home by Mrs. Laura Scholey, an aunt of Mr. McCreary, who will visit for a time in the McCreary home.

More Beans Moving

The Kendrick Bean Growers association has shipped five cars of beans during the past week; the Kendrick Rochdale company has shipped three and the Farmers National (Volmer-Clearwater) has shipped one or two cars.

Do You Wonder?

Do you often wonder why the price of wheat does not rise in this country, particularly in this section, with a short world crop at hand, and a short U. S. crop just through harvest? If you have, read the market report of this week. The question is answered in just one short paragraph.

Fat Cattle To Spokane

Dave Gentry has shipped five cars of fat cattle to the Spokane market during the past two weeks, the last two cars going out Saturday night.

INTERESTING NEWS NOTES FROM OUR PUBIC SCHOOL

Both boys' and girls' clubs are new fully organized. The music has arrived and all indications point toward a most successful year. The students are taking a greater interest in music this year than for several seasons, and under the direction of Mr. King, they may be expected to provide a large amount of entertainment for both themselves and the public.

Last Thursday the Sophomores provided the high school with some good entertainment at the expense of the "evergreen" freshmen. On that day all of the Frosh came dressed in bathing suits. The boys, wearing rouge and lipstick, carried dolls. The girls, decorated with false mustaches and beards, rolled old tires. All looked as if their last friend were gone. It was this group that provided the students with the best impromptu vaudeville act they have had so far this year. Many good features were presented, including a square dance lead by Mr. King. It was conceded that the Freshmen put on a better act than the Sophomores, and they are now fully accepted as "Green Freshmen" of good standing.

Mr. Lyle has asked all parents to cooperate in getting the students to school on time. It is also requested that students leave all telephoning until after school, since it interrupts the study periods and more or less breaks up classes. All incoming calls, unless they are very urgent, will be answered by students in their first vacant period.

There will be only three days of school next week. School is dismissed Thursday and Friday for the Idaho Educational meeting at Lewiston.

Manuscripts for the Junior play, "Yours Truly Willie," have been ordered and work will begin about the first of next month.

Members of the English classes are working on term projects in literature.

Ag. III and IV class is working on judging, while Ag. I and II class has been trying to landscape the school grounds.

In the summer the leaves on the trees are fresh and green. Then fall comes. They slowly change to different hues, red, yellow, and finally brown. When they reach this state we say they have died from lack of moisture. So it is with the student. At the beginning of school he is fresh and green. Soon the teachers "turn on the heat." Questions are asked that turn the student red, yellow and finally brown. Upon reaching this state it is said that they have flunked because of lack of study. A word to the wise is sufficient.

The assembly hall has the honor of having a large number of hornets for permanent guests. They find housing facilities in the lights and spend much of their time haunting the innocent students, who must try to keep from getting stung when they should be studying. As yet they have not been initiated—as have the frosh.

Hawkshaw On Duty

Well—I warned ye and ye didn't listen so I got ye down in black and white.

Weeks was almost kicked in the head by a horse—what a close shave (for the horse). My, oh my, did you see a certain Chevrolet truck dashing around town Friday after school? I wonder what Margaret, Madeline, Keene and Cardinal were doing on the back platform? Yellow Jackets—eh?—well, it looks as if they are getting more out of school than the 84% people that we see every day. The saying goes, "As go the Dean's so go the Cardinals." In schools it's different, "As goes Mary, so goes Veva." Ye all better be keeful—ye old super-snooper is on ye trail every day. Hawkshaw?

Grade Notes

Gay Deobald is back in school again after being ill for several days.

The third and fourth grades are starting on their new workbooks.

Pearl Brown has started to school after having just returned to town.

The table and chairs in the fifth and sixth grade room are being repainted in a color scheme of red and black.

The sixth grade is ahead in the health contest.

The seventh and eighth grades will start on their new work books soon.

Attended Round-Up

Mr. and Mrs. T. A. Nelson, Ed. Lien and Ingvold Aas drove to Walla Walla to spend the week-end with friends and attended the Pendleton Round-Up.

IDAHO TO RECEIVE \$8,000,000 WPA CASH

Carrying a promise from relief officials that \$8,000,000 would be allocated to Idaho, J. L. Hood, state works progress administrator, has returned to Boise.

"Our program is coming through in great shape," Hood said on leaving for home, where he arrived Wednesday. "I have been assured there will be ample funds to care for all the unemployed in the state and that the \$8,000,000 will be available just as soon as the necessary routine is covered."

Hood said the state already had received \$405,000, which is now at work and allocations totaling \$1,600,000 which will be ready just as soon as it clears the treasury department. These allocations cover dozens of small projects.

While still unwilling to name any specific projects, Hood said he could say that the prospects for water conservation and road work were bright.

"It may be possible that we also will take over some of the projects which have been rejected for public works," the administrator said. "This all depends on the number of unemployed in the various communities in which the projects are located and the man-year cost of the projects."

Among the projects rejected by Harry L. Hopkins, works progress administrator, were several for improvement of school and public buildings, road work and drainage areas.

Hood explained that the \$8,000,000 merely would be an initial allocation and if needed more funds would be made available in the future.

A million dollar mine-to-market road construction program was said by Representative Compton I. White of Idaho to have been added to the work relief plans of Idaho.

White made the statement after a conference with officials of the federal relief administration and United States forest services at which plans were discussed for naming a group of Idahoans to administer the road program. It is probable, White said, that J. L. Hood, state works progress administrator, will name the man to supervise the relief angles of the project.

Death Of Mrs. H. Schetzle

Phoebe Ann Dygert was born at Elmdale, Kansas, January 8, 1879. She came to Idaho with her parents at the age of nine. She was married to Henry F. Schetzle at the old home place on Fix ridge, October 13, 1897. In 1904 they moved to Bed Rock canyon, where they had since made their home, until the time of her passing, September 19, 1935.

She leaves to mourn their loss her widower, one son, one grandson, two sisters and four brothers, besides a host of friends and neighbors who extend their sympathy to the bereaved ones.

Funeral services were held in the Lower Cream Ridge school house on Saturday, September 21, at 1 p. m., with Rev. George Calvert of Juliaetta officiating. Singing was by Mrs. Bruce Hersey and Mrs. Redagast of Lenore, with Mrs. Cook at the piano. Pallbearers were Neal Vaughan, Myrt Lee, Bud Barnett, Boyd Cook, Lloyd Cook and Victor Haag. Interment was made in the Fix ridge cemetery, under the direction of J. E. Pickerd.

Three Public Sales

Howard and Ralph Smith, residing three miles southwest of Southwick, will hold a public sale on Friday, Oct. 4, when they will offer for sale cattle, horses, hogs, farm machinery and miscellaneous articles.

A sale of the C. E. Fonberg personal property will be held at the Fonberg place, 12½ miles northeast of Kendrick on Saturday, October 5, when the usual farm equipment and household goods will be sold.

Virgil Flesman will hold a public auction at his place in Leland on Thursday, October 10, when several horses and mules and farm machinery will be offered for sale.

The usual sale terms apply to all three sales.

Future Farmers To Portland

The class of Future Farmers of America of the Kendrick High school will make a trip to the Portland Livestock Exposition and they are working hard these days learning to judge livestock. A trip to the exposition will be worth all the effort the boys can put forth. They are improving every day and it is hoped they will make a good showing in the judging contest.

Many Auto Drivers' Licenses

Glenn Taber of the state law enforcement department was in Kendrick again on Tuesday of this week gathering up the loose-ends—those who had not yet made application for auto driver's licenses. He issued 48 during the day, making a total of 430 that have been applied for in Kendrick thus far this year.

The deadline is October 1, and it might be a good idea to have one of the little papers in your pocket, in case you are asked to show one to an officer.

DOMESTIC WHEAT MARKETS CONTINUE UPWARD TREND

Domestic grain markets made further gains during the week ending Sept. 20, with wheat prices continuing their sharp upward trend, according to the Weekly Grain Market Review of the U. S. Bureau of Agricultural Economics. Unfavorable new crop prospects in Argentina with rapidly diminishing supplies of old grain, together with the unsettled political situation in Europe, and a sharply increased demand at Liverpool, were the principal strengthening influences in the wheat market. Corn and other feed grains were firmer with wheat but an active inquiry for the limited offerings of cash grain were further strengthening influences in corn. Oats and barley were only slightly higher, with current market receipts easily sufficient for trade needs.

Domestic cash wheat markets gained with futures, but inquiry for cash grain slackened somewhat at the higher levels. Marketings of spring wheat remained large with a total of 3,214 cars received at Minneapolis and 773 cars at Duluth. The quality was slightly lower than in recent weeks, with the average test weight light. Inspections of hard red spring wheat during August showed only 29 per cent grading No. 2 or better, compared with 90 per cent for the same month last season. At the close of the week, 60 pound No. 1 dark northern was quoted at Minneapolis at \$1.37, 58 pound wheat at \$1.30.

The Portland market advanced about 8c per bushel with an active inquiry from local mills and elevators and a good demand from middle-western markets. Good business was reported daily in hard winters and soft whites to the Kansas City territory and shipments to that area tended to reduce receipts to Pacific Northwestern terminals. At the close of the week No. 1 hard white was quoted at \$1.10, soft white and northern spring at 84c, western white at 83c, hard winter at 87c and western red at 83c per bushel, basis No. 1, sacked. At Seattle western white and western red were quoted at 84½c, hard winter at 88c and hard white, (baart) at \$1.14 per bushel, sacked.

Receipts of foreign wheat increased, with about 212,000 bushels of Canadian milling wheat received at Buffalo, 360,000 at Toledo and 226,000 bushels at Milwaukee.

Intermountain and Pacific Coast markets generally followed the advance in the central west. Denver mills were bidding \$1.06 per bushel for No. 2 hard winter and \$1.11 for No. 2 northern spring FOB Colorado common shipping points, while Ogden mills were offering 78c for No. 2 soft white, 93c for No. 2 northern spring, 86c for No. 2 hard winter and 92c for No. 2 hard white FOB Utah-Idaho common points.

"Ruggles Of Red Gap"
No, this isn't a western, as the name might imply, but one of the best comedies you have laughed at in many moons.
Effie Floud of Red Gap, Wash., on her first trip to Paris, acquires what she excitedly believes to be a priceless possession when she wins, at stud-poker, the most perfect gentleman's gentleman in all Europe, Ruggles, himself, from his fashionable master, the Earl of Burnstead. Her husband, Egbert Floud, however, who accompanied his wife to Paris for an entirely different purpose than the acquisition of culture and stylish butlers, is of a different opinion—and then the fun starts.
The cast is headed by Charles Laughton, as Ruggles, and then there's Charles Ruggles, himself, with

Mary Boland and the inimitable Zasu Pitts, as the fluttery Widow Judson. No one really knew what became of her husband, but everyone had an idea!
Then there's the third installment of "The Call of the Savage" and other entertaining features.

WE NEED MORE CONTENTED COWS
HAROLD THOMAS, Editor

EDITORIAL

WELL, FOLKS—Here it is the last week in September—and what a month this has been—hot and cold—and mostly dry, but with the advent of later fall increased moisture will green the pastures—and you should cash in on it—by taking better care of the cows and bring the cream to us. Remember—there's no waiting, fuss or bother when you sell cream to us—it's a right-now proposition. Your cash and your can.
Try a pound of our butter—it's sure to please. Made only from selected cream.

No man with a poor memory has any business being a liar.

"Well, son, what have you been doing all afternoon?"
"Shooting craps, mother."
"That must stop. Those little things have just as much right to live as you have."

Tired Business Man: "Last night I dreamed I married the most beautiful woman in the world."
Blonde Stenog: Were we happy?

THIS YEAR — AS LAST — WE ARE HANDLING THE BOOKS NEEDED IN THE KENDRICK SCHOOLS

**GOOD!
BETTER!
BEST!**

Back in school days "GOOD—BETTER—BEST" was merely a part of our language lesson—to be mastered and was all a part of the days' work — but when those phrases are applied to food they possess a far greater meaning — especially when the matter of price is concerned.

MOST FOOD IS GOOD — That is — wholesome — edible!
SOME FOOD IS BETTER — that is — more delicious to the taste.

SOME FOOD IS THE BEST — and that, we believe, is the kind we are handling. We have long striven to offer the finest quality of food — at a reasonable price — and a constant rise in our trade would indicate that we are succeeding. Come in and try out our statements for yourself. We are not a big store—but we hope to grow.

MEATS —

TRY SOME OF OUR PRIME MEATS — Tender, juicy steaks — delicious roasts and meats for stewing, chops, ground meats. Try them. CURED MEATS — Certainly, a full line. They're delicious, too.
