HIGHLIGHTS OF THE WEEK'S NEWS DISPATCHES

Launching, for a third time in as many weeks, plans for reconstruction of that cruelly battered and twisted city, Helena's reconstruction committee learned that federal aid for the earthquake torn area will be definitely limited. As new shocks of undamaging force rolled across the city, where 979 homes and 77 business houses and apartments were damaged by the terrific shocks of October 12 and 18, Oscar Baarson, city engineer, estimated the additional loss from last Friday's wrecking tremor at between \$500,000 and \$1,000,000.

Italy will demand neutralization of the straits of Gibraltar, Britain's strategic stronghold at the mouth of the Mediterranean, Paris naval circles said. The demand is expected at the London naval conference one month from today, which the United States will attend. Diplomatic circles said it was a "foregone conclusion" that Britain will be forced to refuse such a demand. They acknowledged, however, that it would be "extremely embarrassing for London," which has made many pacific declarations very recently. Premier Mussolini's purpose in the "bombshell," it was said, is to force Britain to declare "her intentions" in the Mediterranean, where most of her fleet is now massed.

A report on the progress of the \$4,000,000 program to end the dole revealed that it has not yet provided as many work relief jobs as the relief administration did last year. The works progress administration said the new program had transferred 1,543,000 persons from relief rolls to work relief jobs up to October 26, the latest date for which figures were available. The number of relief cases receiving work program earnings in October last year was 1,998,161. The October 26 job total announced showed the relief chiefs were still 1,956,000 jobs away from the 3,500,000 aggregate that it was hoped to achieve on Nov. 1. It disclosed, too, that WPA faced the tremendous task of providing an average of 55,000 jobs a day between October 26 and the latest dole-ending deadline of Nov. 30.

Approximately 175,000 men and women will be taken from the relief rolls of the 11 western states and placed on works administration jobs between November 5 and 11, Robert H. Hinckley, assistant WPA and FERA administrator announced upon his return from conferences in Washington, D. C. The immediate goal of placing the western quota of 252,000 at work will be reached Nov. 25, he said. "Western states programs have proceeded as rapidly as any in the nation," Hinckley declared. "Wyoming, for instance, was the first state in the union to have all its destitute employables at work. Other states in the western area will soon achieve the same results."

Greece voted with a flood of blue monarchists ballots Sunday to bring her monocoled King George II back to the throne he quit by request 12 years ago. Overwhelming majorities were reported in Athens and in the provinces—even in Crete, revolt of hot-bed of other days—for restoration of the monarchy. More than 90 per cent of the voters cast blue ballots for the monarchy.

Winter, leaving acres of northwest fruit and vegetable crops in ruins, fastened its grip Monday night upon the upper Mississippi valley. Snow and ice wrought their depredations in the middle west as hurricane winds whipped in from the Bahamas, lashing the southern tip of Florida and striking Miami at 76 to 80 miles an hour. The Pacific northwest counted losses in frozen fruit, vegetables and forage crops in the millions of dollars. Sub-freezing temperatures were general west of the Mississippi. Freezing weather blew into Oklahoma, Texas and the southwest on a strong wind. Rains were general. There was no immediate prospect for warmer weather. Denver, at 18 degrees above zero, was under four inches of snow. Seven inches of snow fell in south Idaho. California experienced the most extreme weather of the season, with temperatures in the 30's and lower. It was moderately cold in New Mexico and on the western slope of the Great divide. Cloudiness prevailed in Illinois. At Chicago the temperature was 49 degrees, a sharp drop in 24 hours. Two Kansas highways were blocked by water near Fort Scott as heavy rains of the last 24 hours brought a flood threat. Some streams in Iowa also were near flood stage.

Entertained At Dinner

Mrs. D. J. Ingle and Mrs. Thorvald Nelson were dinner guests Saturday at the James Emmett home.

Hallowe'en Quiet Here

Hallowe'en was spent in a very sane manner in Kendrick, insofar as real mischief was concerned, at least. There was very little evidence that the evening had been observed by the youngsters only that practically every window on the business street was pretty badly smeared with paraffin. Few people object to the youngsters having a little innocent fun.

In a few places it was evident that some of the older ones had had bad luck, in that broken glass was found in various places that had evidently "slipped" and hit the sidewalk with disastrous results—to the container.

INTERESTING NEWS NOTES FROM OUR PUBLIC SCHOOLS

The Junior class play, "Yours Truly Willie," presented Wednesday, Nov. 6, proved to be a brilliant success. The large crowd that was in attendance enjoyed both story and characters immensely. The cast included Willard Schoeffler, Jean Bigelow, Francis Locke, Lawrence Kuykendall, Tom Keene, Margaret Schultz, Madeline Schultz, Nolan Weeks, Mr. King, and John Wallace. It was directed by Mr. King. Both the cast and director are to be congratulated on its fine presentation.

The first meeting of the girls' basketball team, delayed because of the Junior play, will be held in the near future. All girls are asked to turn out this year, as it will be made as interesting as possible.

Honorary guests at the Freshman-Sophomore party included Wanda Johnson, Floyd Crocker and Ed. Juzeler. Both Miss Johnson and Floyd Crocker are former class members.

Those attending the Passion play were Mary Elizabeth Thompson, Harry Wegner, Emil Siffow, Marvin Siffow, Mary Davidson, Roy Thomas, Quentin Perryman, Herman Renfro, Roy Johnson and Gerald Hill.

The following conversation was heard at Junior play practice. Mr. King: "Louder please. People in the back can't hear you. I was just back there and it sounds like a talking picture with the sound out of order. Here now, don't be stiff. Smile a little, it won't hurt you. Don't turn your back to the audience—the people aren't back-stage you know. Now keep your head up. Hold your character. Try and smooth over your mistakes so the audience will think you know your part. Now it's time for Bob to come in. Bob! Oh Bob! Come in now, hurry!" Voice from back-stage: "What is wrong with you? You're Bob yourself." So all the Juniors, being very disgusted, decided to call it a day.

HawkShaw On Duty?

Help! Ye old Super-Snooper was almost snowed under by errors of the Junior class this week. How one group of students could make so many blunders is too deep for me. But, here they are:

The most played "tune" of the week is "chopsticks," which was played 8,000 times on the theatre piano by the official class pianist. * * * The waffles were plenty tough. * * * Official gum-chewer is Margaret Halseth. * * * You can't keep the Seniors out! * * * Flash—King and Grover demoted! Ah—sweet revenge!!!

Everyone should have been there Sunday afternoon. We—, My friendship for the Juniors (???) prevents me from going further. Remember—Ye old super-snooper never forgets a face or action. He is always on duty. HawkShaw?

Earthquake Felt In Kendrick

While the earth was rolling (or slipping) heavily in the Helena, Montana, area and felt in 17 states, Kendrick was not passed up. Several people felt the shock, which occurred at 10:35 a. m., quite distinctly. Wade Keene said it was sharp enough to loosen a few rocks on the steep hillside above the old Vollmer-Clearwater warehouse and cause them to roll down. Mrs. R. H. Ramey said she felt the shock quite distinctly in her home and others in different parts of town report having felt the quiver. Ben Cummings reported the jolt loosened the sides of the sand pit up Bear ridge, where a road crew was at work.

WHEAT MARKETS WEAKER WITH SLOW DEMAND

Grain markets weakened and prices made further declines during the week ended November 1, according to the Weekly Grain Market Review of the U. S. Bureau of Agricultural Economics. A slow world demand for wheat with lower prices abroad were largely responsible for declines in domestic prices, since important milling types of spring wheat are now on an import basis. Generally favorable conditions for germination and growth of the domestic winter wheat crop were further weakening influences. Rye tended to follow declines in wheat. Corn turned sharply downward toward a new crop basis with increased offerings and marketings of new corn. Oats and barley held about unchanged. Inquiry for oats and feed barley were slow but malting barley sold readily at steady prices. Flax maintained a firm tone altho crusher demand slackened slightly toward the close of the week, with a less urgent inquiry for oil.

California markets were weak and lower, influenced by a limited demand and lower values at outside markets.

Stocks of wheat in Idaho interior mills, elevators and warehouses on October 1 were estimated at 11,300,000 bushels, or about 55 per cent of the State's 1935 crop. This year's holdings were indicated to be 17 per cent greater than last year at this time, when they were estimated to have been 9,660,000 bushels.

Farm stocks on October 1 were indicated to be 665,000 bushels, compared with 8,039,000 bushels on October 1 last year and 14,133,000 bushels in 1933.

Thus, combined farm and warehouse stocks on October 1 were indicated to be 17,465,000 bushels, as compared with 17,699,000 bushels held in the combined position at this time a year ago.

Pacific Northwestern barley markets held steady with the moderate demand from local and nearby mixed feed manufacturers and light offerings from growers the principal strengthening factors. California barley suitable for feeding was quoted at Seattle October 31, at \$1.08 3/4 per 100 as compared with No. 2 bright western from eastern Washington at \$1.17 1/2 per 100, sacked. Trading and movement at Portland were light with offerings about equal to current market needs, and No. 2 bright western was quoted at Portland October 31, at \$1.17 1/2 per 100 sacked.

Oats markets were somewhat unsettled reflecting the weakness in other feed grains and a continued dull demand. Pacific Northwestern markets tended downward influenced to some extent by lower wheat quotations and a slackening in local inquiry. Bids from the Atlantic Seaboard for the Northwestern oats were generally below a working basis. Cereal mills continued to provide the principal outlet for gray oats but demand was somewhat less active than in recent weeks. At the close of the market, October 31, No. 2 gray oats were quoted at Portland at \$1.22 1/2 per 100, sacked bass, with No. 2 white oats quoted at \$1.17 1/2. Trading at San Francisco was slow with most sales near the lower limit of the price range. Red feed oats were quoted October 31, at San Francisco at \$1.00-1.10 per 100.

"The Lives of a Bengal Lancer"
A picture which combines magni-
tude, sheer spectacle, and breath-tak-
ing action with the poignance of
human drama—"The Lives of a Ben-
gal Lancer"—will be shown at
the Kendrick Theatre this Friday and
Saturday night.

There have been any number of
screen spectacles based on the lives
and adventures of fighting men, but
never one of the calibre of "The Lives
of a Bengal Lancer." Over four years
in the making, it employed more than
four thousand actors in scenes shot
in the mountain fastnesses of India
and in five separate locations in Cali-
fornia.
Gary Cooper, Francot Tone, Rich-
ard Cromwell and Sir Guy Standing
head the cast of this picture as of-
ficers of this colorful regiment. The
drama arises from the conflict between
Sir Guy Standing, who plays a crusty,
hard-shelled colonel, and his subor-
dinate officers.
There will be the usual features and
an installment of the Serial, "Call of
the Savage."

WE NEED MORE CONTENTED COWS
HAROLD THOMAS, Editor

EDITORIAL

WELL, FOLKS—Winter's here and that means more milk for the kiddies—and you naturally want pure, disease free milk—and you can get it from us. We just received returns from our T. B. and Bang's disease tests—and our cows were reported as 100 per cent disease free—and that means a great deal.

Milk is bottled sunshine for the kiddies—see to it that they have all they can drink—for it produces sturdy limbs, strong bodies and sound teeth—and where can you get more real nourishment for the money, than in pure milk?

Salesman: "How about this firm of Chambers & Potts; any good?"
Credit Manager: "Sure; best in the world. All assets and no liabilities."

"What model is that Dodge you drive?"
Ed. Deobald: "It's not a model, it's a horrible example."

He: "On my trip to South America I saw a lot of beautiful panoramas."

She: "I thought you told me you wouldn't run around with those native girls."

Read the Bullitin—keep posted.

TEAKEAN GOSSIP

Mr. Melcher's mother has been visiting here for a few days.

Rev. Metcalf didn't get here for services last Sunday. He was unable to get his car started. He will probably come up next Sunday afternoon and preach for us.
