HIGHLIGHTS OF THE WEEK'S NEWS DISPATCHES

Helena was jolted anew last Friday by shocks that ranked with major earthquake tremors of the past several weeks. There was cause for Thanksgiving, however, in that what little damage appeared was evidently confined to structures already weakened and to chimneys. The jars started at 7:41 a. m., extending over a 250 mile radius, crossing the continental divide, and were recorded for 10 to 15 seconds. Weather bureau officials called them the fourth most severe in the series of 1,052 earth movements felt in Helena since Oct. 12. Helena newspapers said some persons telephoning from Great Falls and Butte termed the quakes the hardest felt so far in those cities. Great Falls is about 100 miles north and Butte about 70 miles southwest.

A virtual French ultimatum, warning Benito Mussolini directly and officially that any unprovoked attack on the British Mediterranean fleet would be regarded as an attack also on France was disclosed by high sources in London and Paris Friday night. This action by Premier Laval of France was regarded as dashing Italian hopes for further delay in imposition of an embargo on oil shipments to Italy—something which high fascist sources have conceded may seriously affect the Ethiopian war. In Geneva, discussion of the embargo by the league of nations sanctions committee was set officially for Dec. 12. Premier Laval, at whose behest the original discussion was deferred from Friday, was said by league officials to have asked that the meeting be held on December 12 instead of on December 5.

Diplomats speculated upon possible formation of a "new central European power" after discussions this week between Austrian and Hungarian statesmen at Vienna. In official quarters it was said a unity of objective has been established between the members of the pre-World-war empire. Representatives of the two considered "common" military, political and economic problems and officials said fundamental and far-reaching agreements had been reached. These agreements, it was reported in well-informed quarters, included an understanding amounting to a mutual military assistance pact, a decision to stick to the league of nations even if Italy withdraws from Geneva, and upon trade and financial cooperation. Officials of both Austria and Hungary insisted friendship with Italy remained an essential principal of their foreign policy.

President Roosevelt Monday completed the formalities which will put into effect on January 1 the reciprocal trade agreements with Canada and Brazil. He proclaimed both compacts shortly after American and Brazilian government representatives had exchanged ratifications of the Brazilian treaty at Rio de Janeiro. At the same time, the chief executive directed the secretary of the treasury to make available to all countries except Germany the American tariff reductions granted in these and similar reciprocal trade agreements negotiated with four other countries. Germany abrogated the "most-favored-nation-treatment" clause of her treaty on October 15 and thereby was prevented from benefitting from reduced rates granted by the United States to other countries.

A 14-year-old boy was rescued from the terror of a 10 days' imprisonment without food or water in a dark, cold ice compartment of a railway refrigerator car as it rattled slowly across the continent from California. So desperate was the plight of the youth—Glenn Boldan of Motley, Minn.—that he chewed his wet cap and shoe top and ate seed from cotton socks. He told his story at Union Memorial hospital, Baltimore, where he was taken for treatment from starvation and frostbite. A produce man found him semi-conscious after hearing moans coming from the ice compartment. The lad had crawled into the compartment at Roseville or Tracy, Cal.—he couldn't remember which—Nov. 22 to hobo back to his Minnesota farm home. He had run away on Labor day to escape school.

To Southern Clime

Mr. and Mrs. Fred Bailey and daughter Artalee left Monday evening on the first leg of their journey to California, where they will spend the rest of the winter, expecting to be gone about three months. Leaving Lewiston, they will go via Spokane, Portland and other places of interest enroute. No address was left with the Gazette.

Bridge Party

The members of the Afternoon Bridge club and their husbands gathered at the home of Mr. and Mrs. Roy Ramey Friday evening to enjoy a pick-up supper and play bridge.

The game was played at six tables with the high score award for the ladies going to Mrs. E. A. Deobald, while Norla Callison took high honors for the men.

Mr. and Mrs. Norla Callison were invited guests.

LATAH COUNTY FIRST IN WHEAT-OAT PRODUCTION

Preliminary figures from the 1935 Federal Farm Census released by Director William L. Austin, Bureau of the Census, Department of Commerce, indicate that Latah county, ranked first in Idaho in the production of wheat and oats in 1934.

The 718,241 bushels of oats threshed from 20,275 acres in 1934 were far in excess of the 240,767 bushels threshed from 5,175 acres in Canyon, the second ranking oat producing county. Latah, with 1,635,780 bushels of wheat harvested from 63,921 acres, had over 20,000 bushels more than Idaho, the second leading wheat producing county.

Wheat acreage was about 35,000 acres less, and production 823,807 bushels less in 1934 than in 1929. Oats increased about 2,300 acres and hay 3,000 acres during the five years.

The 15,088 cattle reported in 1935 represented an increase of 5,081, or 51 per cent over the number in 1930. Cows increased 2,407, while hogs declined 4,715, or 39 per cent, during the same period.

Farms and ranches numbered 1,888 in 1935, or 200 more than in 1930. The average size was 188.7 acres and the average value, \$9,029 in 1935.

General Science class is working hard on some very interesting experiments, which will prove useful to everyone.

The Business Science class have taken up the study of the post office and mailing systems.

The first of the weekly entertainments for the benefit of the student body was given this Friday by the Senior class. Many of the Seniors brought to light hidden talents and the program was enjoyed by everyone.

The Juniors and Sophomores were the first two classes to go over the top in the drive for a complete sell-out of student body tickets. These two will each receive a one day holiday. The other two classes are hoping to go over soon.

The school is sponsoring an examination of the eyes of all school children who have poor sight. This examination will be held sometime during the next week.

The first meeting of the girls interested in athletics was held Tuesday afternoon. A new system of athletics and awarding of letters was introduced by the girls' coach, Miss Hockaday. Under this system the girls may not only play basketball, but may also take hiking, bicycling, tumbling, volleyball, baseball and horseback riding. Each sport engaged in nets each girl a certain number of points. Letters of various values will be given according to the number of points each girl gets. Meetings of the association will be held each Monday. Practice for the basketball team will begin on Thursday.

The Tiger's Lair

By Spool Pumpernickle
Things around the Tiger's lair were more or less quiet last week-end, due to the difficulty of moving rapidly when filled with turkey. However, the boys came home with the bacon earlier in the week.

It was Bovill again. (This seems to be a habit.) The lads journeyed to Bovill Tuesday, Nov. 26, and came out on top to the tune of 26-23. The game was marked by spurts on the part of both teams. Kendrick turned on the steam in the second quarter and lead at the half 16 to 6. The third quarter was all Kendrick, but the attack which was rolling so nicely, was almost sunk in the final quarter by a barrage of Bovill baskets. The hoop became larger, the ball smaller, or something for the Bovill boys plugged the basket from every angle and were within striking distance when the final whistle blew.

The lineup:
Kendrick
Johnson.....F..... Bovill
Abrams.....F..... Carmon
Ramey.....C..... Donner
Hartung.....G..... Nogle
Wallace.....G..... David
Nicholas
Substitutes were Hall for Bovill and Emery for Kendrick. High point men were Johnson and Donner.

The Tigerettes (second team) didn't upset the dope bucket, but they kicked it so hard that it hasn't landed yet. After losing to Bovill on their home floor, 17-4, they played the Little Loggers to a standstill. Bovill nosed them out in the closing minutes 26-27, but the score does not mar the grand fight put up by the locals.

This Friday the Tigers go to Peck. The boys from over on the river are almost unknown as far as the dope is concerned. However, the fog which blew in last evening carried the news that they have a forward by the name of Parks of all-star calibre and from all reports can shovel the ball through the hoop. He is a man that will bear watching.

Ladies Aid Meeting

The Ladies Aid of the Community church will meet this Friday with Mrs. Wm. Watts. This is a business meeting and the ladies are urged to come as the plans for the bazaar and supper must be completed.

Measles At Southwick

Dr. J. M. Lyle of Lewiston, county physician for Nez Perce county, was in Kendrick Monday evening on his way home from a visit to the Southwick section, where he says there are too many cases of measles to enumerate. He said it would take a blanket quarantine to cover all the cases and that most everyone would have to stay in. However, he said that he left many a sign tacked alongside many a door. No really serious cases have been reported.

Dr. Christensen of Kendrick said the last record he had there were 38 cases—and still increasing.

TWO YEAR ADJUSTMENT PLAN FOR CORN AND HOGS

A two-year adjustment program for corn and hog producers was announced following a formal proclamation of a new program by the Secretary of Agriculture. An investigation, which included the public hearing in late September, constituted the basis upon which the economic justification and need for the new program was determined. Adequate participation in another program was apparently assured when approximately 950,000 producers voted 6.3 to 1 in favor of continuing corn and hog adjustment. Though drafting of the new voluntary contract will soon begin, the extent of adjustments to be required, the amount of adjustment payments, and other fundamentals and details of a new contract will not be determined until some time after the conference of farmers, state agricultural specialists and Agricultural Adjustment Administration officials, which is being held in Washington, D. C., this week.

The principal objective of the new program will be to maintain a balance between the production and consumption of corn and hogs. Since a major adjustment problem is to prevent an excessive production of hogs in 1937, Administration officials are of the opinion that farmers will welcome a two-year contract in order that they may know what adjustments will be required and thus plan their farming operations over a long period of time. Likewise it is pointed out that a longer program would be more economical from an administrative standpoint. The Adjustment administration has recommended that corn production next year be limited to 95 million acres, or about 10 million to be harvested without adjustment. This would require an aggregate adjustment of approximately 20 per cent on the part of all contract signers. Depending upon the 1936 corn crop and the demand expected next fall for the 1937 crop, it has been proposed that the maximum aggregate corn reduction for 1937 be placed at 25 per cent. Proposed hog adjustments are calculated to provide for a 30 per cent increase in federally inspected slaughter in 1936-37 above the slaughter expected in the present year which began October 1, 1935. It is proposed that contract signers be permitted to produce a maximum of 100 per cent of their production in the base years, 1932-1933. Maximum and minimum hog production requirements will be imposed under the new contract particularly to prevent regional dislocations in production next year, which, officials state, would be certain to develop in the absence of a new program because of maladjustments in feed supplies and hog numbers brought about by the 1934 drought. The new corn-hog contract will require that an area at least equal to the number of acres withdrawn from production of corn be added to the usual area of the farm devoted to soil-improving and erosion-preventing uses.

WHEAT LOWER WITH A SLOW MARKET DEMAND

Intermountain and Pacific Coast markets held unchanged but trading was dull. Mills at Denver were bidding \$1.05 for No. 2 hard winter and \$1.08 for No. 2 northern spring. FOB Colorado shipping points. Mills at Ogden were offering 75c for No. 2 soft white, 92c for No. 2 northern spring, 93c for No. 2 hard white and 85c for No. 2 hard winter, FOB Utah-Idaho common points.

Prices at Portland held unchanged with hard white at \$1.20, soft white and northern spring at 85½c, western white and western red at 84½c and hard winter at 87c per bushel, basis No. 1 sacked. At Seattle western white was quoted at 85c, western red at 85c, hard winter at 86c, hard white (baart) at \$1.23. Marketings were only moderate with receipts at Puget Sound and Columbia river terminals totaling 503 cars. Local mills provided the principal outlet but took principally special protein lots. Occasional sales of high protein hard white and hard winter wheats were made to California, but demand from eastern markets was very light. Lack of boat space and labor difficulties at gulf ports tended to restrict business and shipments were mostly on previous sales.

"Every Night At Eight"

It's the story of three girls—Dixie, Daphne and Susan, amateur performers, thirsting for recognition—and very little quenching their thirst gets, although they work in a mint-julep factory.
At the factory's "home talent" show, doing a sister act, they were very successful, and their exuberance the next day, back at work, leads them to ridicule their pompous boss—and out they go. They go to the beach to spend the day. They're out of luck and cash both and have to walk back to their drab boarding house. On their way home they heard a truck ballyhooing an amateur night at the local radio station. They go, but miss out, but finally land a job with a band as signers—and their luck starts on the upgrade. It's a splendid, tuneful comedy. Among the songs featured are "I'm In The Mood For Love," "Speaking Confidentially," and others.
And the first installment of Buck Jones in "The Roaring West," and other features to round out the evening's entertainment.

WELL, FOLKS—Winter seems to be at a standstill so far as the temperature goes—but how about your income—is it at a standstill, also? If it is, it shouldn't be—for winter incomes are now possible—not only possible, but a source of real money and profit. It is so easy to bring cream to us—and we do all the work—even to a steam sterilizing of your cream can. It's ready to use when you get it with the check just a short time after you bring us the cream. Try a bit of our butter—once you use it—you will always.

"If he asks me I'll say 'Yes.' It doesn't make much difference. He's clever and good-looking. His hands are gentle. I like to feel them in my hair. I think he would treat me all right. If he doesn't ask me, all right—but if he does, I'll say 'Yes.'"
"Shampoo, Madam?"
"Yes."

She—Oh, I simply adore that funny step. Where did you pick it up?
He—Funny step, hell, I'm losing my garter!
