

"I'll Tell The World" ...

KENDRICK

Is a MIGHTY GOOD Place To Trade!

There are lots of good towns and some bad ones, perhaps, owing to the point of view. However, we are not knocking any town on earth--but simply BOOSTING one of them--your home town and mine--Kendrick.

Co-operation among the residents of a community is what counts for most in building a town of which all may well feel proud. The men who are devoting their every effort and investing both time and money to provide a home-town market where you may come and do your buying and selling seek your cooperation.

When times are good the home-town merchants rejoice with you — and they stand by you when times are hard. They are friends who want to give you a full dollar's worth for every dollar spent with them.

"BUY IT IN KENDRICK"!

We are prompted to sponsor this message to the people of Kendrick and vicinity through our interest in community welfare.

Beautiful Sylvia Sidney in "Mary Burns, Fugitive," will be the feature picture at the Kendrick Theatre this Friday and Saturday nights. The story is of a crook who fell in love with the beautiful girl, then the owner of a tea shop, Sylvia, who did not know that her would-be lover was not on

the level. Cornered, the crook forces Mary Burns to help him destroy thousands of dollars' worth of stolen bonds. The crook escapes and Mary is caught, of course. The story is one of the most interesting stories of this character you have ever seen. The 14th installment of the serial

barley and favorable new crop prospects, together with a slow demand, both from milling and feeding interests were weakening influences.
Oats markets displayed some independent firmness although current inquiry was only moderately active. Pacific Northwestern markets remained steady despite the light volume of trading. Mixed feed manufacturers provided the principal outlet for white oats and cereal mills readily absorbed offerings of gray oats. Receipts of oats at Portland since July 1 totaled only 187 cars compared with 874 cars for the same period last year. At the close of the market February 27, No. 2 white oats were quoted at Portland at \$1.15 to \$1.20 per 100, with No. 2 gray oats at \$1.20 to \$1.22½ per 100, sacked basis.
Pacific Northwestern barley markets were quiet with light trading and movement reflecting the slow demand from all classes of buyers. Lack of selling pressure from growers was a sustaining influence which largely offset the dull demand. Prices were generally unchanged from a week ago. Receipts at Portland July 1 to date have totaled only 193 cars as compared with 348 cars for the same period last year. No. 2 bright western barley was quoted at Portland Feb. 27 at \$1.18 per 100 pounds, sacked.

**Another washday...
Another beauty
treatment**

But beauty treatments won't erase the effects of strain and fatigue caused by long hours over a steaming scrub board or the back-breaking labor of hand ironing.
Beauty that allures reflects health and vitality in its smile. Washday fag is a despoiler of beauty. Even many serious illnesses can be traced to the long hours of standing, pushing, lifting, straining that are necessary parts of washing and ironing by hand.
Don't sacrifice the youthful freshness of your smile on a washboard or hand iron. Let cheap electricity help preserve that freshness. See the efficient new labor-saving washers and ironers at your favorite store. Turn to this better, easier method of washing and ironing now.
This is the modern laundry equipment by Thor that thousands of women are using to lighten their washday labor.

WELL, FOLKS — We've certainly had some glorious weather — and that brings a more important problem — how about keeping your meat? In this warm weather you can't keep it at home — and that's where a storage box comes in handy. Keep it the year round — fresh and good — and mighty near home, too. Just see us for that storage box. We still have some big fellows left — or small ones, if you prefer.

How about your table butter? Does it suit you? We'd just like to have you try ours — we believe you'd like it. Won't you try some?

The estimated value of the loss is around \$3,500. The heroic efforts of friends and neighbors saved the old barn, granary and machine shed just a few feet away.
