HIGHLIGHTS OF THE WEEK'S NEWS DISPATCHES

Washington.—Three amendments to restore to the agricultural department appropriation the full amounts recommended by the budget bureau for expenditure by the forest service on blister rust eradication, forest surveys, and fire protection were introduced by Senator Pope (D., Ida.) The house has passed a bill and it now is slated for early action in the senate. The house struck out a \$360,268 increase for blister rust extermination and control in national forests. Center of the blister rust infection is in the white pine forests of northern Idaho. Pope's amendments were drawn after C. Ben Ross of Idaho conferred with President Roosevelt on his state blister rust problem. Ross said after the conference he was "satisfied" sufficient funds would be provided to assure continuance of the blister rust eradication program. The larger amount is necessary to "keep the work going on the same scale as in the summer of 1935," Pope said. The house cut the item for payments to states and territories for protection of timber and forest land from fire from \$1,731,382 to \$1,578,632. The house reduced the item for forest surveys and inventories from \$250,000 to \$150,000.

Baltimore.—The desirability of international monetary stabilization was advanced by Secretary Hull in a speech which marked his first major appearance in the 1936 campaign arena. Addressing a state convention of young democratic clubs, he assailed "partisan criticism" of the new deal's recovery efforts, and credited the administration with having preserved "domestic tranquility" in the face of an unprecedented economic crisis. But he departed from his recapitulation and defense of Roosevelt measures to say that "the problem of permanent monetary arrangements must of course be kept constantly in view." "The monetary situation in its every essential aspect should grow increasingly more stable," he added. "Production and conduct of trade in this country and abroad require for their assurance that the value of the currency of each country shall not widely fluctuate in terms of other currencies. Such stability gives certainty to commerce."

Washington.—Despite warnings by Senator King (D., Utah) that the nation was "rushing" madly into consolidation of all power in the federal government, the senate passed the \$420,000,000 Norris rural electrification bill and sent it to the house. King vainly presented a substitute to trim the expenditures to \$40,000,000 a year for ten years, but said even as he argued that his case was "futile." At a White House conference earlier in the week Senator Norris (R., Neb.) author of the bill, agreed to scale the 10-year program from \$100,000,000 a year for 10 years to \$50,000,000 a year for the first two years and \$40,000,000 for the remaining eight years.

Norris agreed to one of King's demands by reducing from 40 to 25 years the maximum life of loans for rural power projects. The bill would establish a new rural electrification administration and empower it to lend to states, rural municipalities, utility districts, farm cooperatives, or limited dividend corporations to install and operate generating and distributing systems where none now exist. In order to provide a market for power, farmers would be financed in purchasing and installing house-hold and farm electrical equipment. "In my opinion, this bill will cause confusion and will not accomplish the results hoped for by the senator from Nebraska," King said.

Chicago.—Midwestern and southern farm leaders, anxious to be about their spring planting, speeded critical studies of the new agriculture adjustment program, which would limit major crops to an acreage of 270,000,000 for the nation. As unfolded here and at similar gatherings in Memphis, Tenn., in a statement from Secretary of Agriculture Henry Wallace, the program suggesting a \$470,000,000 soil conservation subsidy included these main points:

1.—A quota of 270,000,000 acres to be devoted to major crops in 1936 with 30,000,000 acres retired to soil building production in grasses and legumes.

2.—Distribution of payments to individual farmers in two classifications—one with a national average amounting to about \$11 an acre for land retired from major crop production; another suggested at 75 cents to \$1 an acre for land already used for

Bowling-Hodgen
Miss Gladys Bowling and Carl S. Hodgen, both of Kendrick, were united in marriage by Probate Judge J. L. Phillips at Lewiston, on Thursday, March 5.

The bride is the daughter of Mr. and Mrs. A. C. Bowling, residing in the east part of town. The groom is an employee of the Thomas Creamery, and has been in his present position for the past 18 months. They are at home in an apartment in the home of Mrs. N. B. Long.

FRED WEYEN, PROMINENT LELAND FARMER, PASSES

Fred Weyen, 51, prominent farmer of the Leland section and among the best known residents of Nez Perce county, passed away at St. Joseph's hospital at 10:30 o'clock Friday morning after a brief illness from bronchial pneumonia. Mr. Weyen was taken ill Wednesday and his condition continued to grow worse. Thursday he was taken to Lewiston in a critical condition for treatment and failed to rally.

Mr. Weyen was born at Otham, Christian county, Ill., July 29, 1885. He came west in 1909 to Espanola, Washington. In the fall of 1911 he came to Idaho, settling on a farm, three miles east of Leland, where he had since resided. He was a man of excellent character and was respected by his neighbors and beloved by his friends. He was active in community affairs.

He was married in December, 1916, to Miss Elfrida Behrens of Juliaetta. To this union one son was born.

He is survived by his widow, Elfrida Weyen; a son, Robert Weyen; his mother, Mrs. H. O. Weyen, Espanola, Wash.; five sisters and four brothers, Mrs. Ben Plocker, Mrs. Floyd Williams, Mrs. Wally Clark, Mrs. Reinhart Thiemens, John Weyen, Henry Weyen and Ralph Weyen, all of Espanola; Weyen Weyen, Southwick and Gertrude Weyen, Walla Walla.

Funeral services were held Sunday morning at 9 o'clock in the Kendrick Community church, with Rev. George F. Calvert of Juliaetta, officiating.

The pallbearers were: R. Wilken Archie May, S. Cook, Henry Brammer, Henry Bleck and Russell Rodgers. The body was taken to Espanola, Wash., to the home of his mother. On Monday morning the body was taken to Medical Lake, where at 10:00 o'clock another service was held. Interment was made in the Medical Lake cemetery.

Card of Thanks

We wish to extend our heartfelt thanks and appreciation to our many kind friends and neighbors for their aid and sympathy during our late bereavement. Mrs. Alfrida Weyen and son, Mrs. H. O. Weyen, Mrs. Ben Plocker, Mrs. Floyd Williams, Mrs. Wally Clark, Mrs. Reinhart Thiemens, John Weyen, Henry Weyen, Ralph Weyen, Weyen Weyen, Gertrude Weyen.

Pheasant Through Window

On Thursday morning of last week, about 11:00 a. m. a native pheasant took a notion that it would cross the canyon from north to south. In doing so the bird misjudged its bearings or was frightened and it flew through one of the large plate glass windows of the N. B. Long & Sons store, breaking a large round hole, perhaps eight inches across, making almost as clean a cut as if a glass-cutter had been used. The bird dropped inside the store, with a broken neck. The bird, on being weighed, showed just under a pound and a half, and the terrific speed at which it must have been traveling can well be imagined, for the marking on the glass was not unlike that of a bullet. One explanation offered, and a very reasonable one, too, is that the windows of the store gave off the reflection of the city park, just across the street, and the bird believed himself heading into another "park."

Pictures were made of the unusual incident and perhaps Mr. Ripley will get a chance to put it in his "Believe It Or Not."

Burglars At Juliaetta

The poolroom of J. M. Hedler, Juliaetta, was burglarized on Thursday night of last week. The building was entered through the back door, the burglars having bored holes in the door until able to reach an arm through and turn the lock, thus being able to enter easily.

It was reported that a slot machine was relieved of about \$3.00 in nickels and a small amount of change taken from the till, also two cartons of cigarettes and some bottled beer.

INTERESTING NEWS NOTES FROM OUR PUBLIC SCHOOLS

High School News

The monthly P.-T. A. meeting will be held at the school on Monday evening, March 16, at 7:45 p. m. The program will be in charge of the grades. Everyone is cordially invited to attend.

A great number of the students were in attendance at the basketball tournament at Lewiston last week.

The photographer, from a Spokane studio, was here on Wednesday and took the pictures of the students for use in the Senior Annual, as well as individual pictures of the members of the Senior class.

The Juniors are beginning preparations for the annual Junior Prom. The date of it will be announced later.

The Seniors are working hard on their play, which will be given April 1.

Spoof's Farewell Address

Friends, Romans, Countrymen! Lend me your ears. I come to praise the Tigers, not to bury them. Yes, those Tigers are honorable men. Last week the Tigers journeyed to Lewiston and gave a worthy account of themselves in the district basketball tournament. They were fortunate in drawing into the fourth bracket, which pitted them in their first game against Weippe. The boys won the Thursday morning tilt quite handily, the score being 39 to 22. Our second game was played Thursday evening with the Ferdinand Eagles. This was a see-saw affair, with the Eagles pulling away in the last minute to win 29-26.

With one defeat tacked against them the Tigers came back to play a near-perfect game and lead Bovill at the final gun 46-43. Saturday morning the Tigers again donned their war suits and leveled their guns on Ferdinand. The strain of four games in three days began to show and Ferdinand pulled away in the last three minutes to win 34-25.

Although the fellows did not win the title, we are mighty proud of the showing they made. Especially after we consider the conditions under which they played. Ramey, Tiger captain, was one of two men to receive a unanimous vote by the district coaches for the district All-Star team. Roy scored 58 points in four games; his best was 22 points against Bovill. In closing, let us tip our hats and give a hearty handshake to each member of the Tiger squad for the fighting spirit they have shown throughout the season. We are proud of the way in which they represented our school.

Here is a brief summary of the season total: Games, 23—won 18, lost 5. Awards—First place in Valley conference. Possession of Valley cup for second year. Vandal Booster cup for playing in tournament. Ramey receives All-Star award.

Hawkshaw On Duty

Although ye old super-snooper didn't break into print last week, he was plenty busy just the same. Things were happening both at home and around at the tournament. I saw:

Ramey making futile attempts to "ditch" his crowd of admirers — Hank rooting for the home team — Henry and Henderson, broke — Fry wearing a big sparkler — Lyle raving in the coin — Keene and Reid, trying to rate Mary Elaine — Specker in the Wonder?? Dawald, dressed up — All the boys and Mae West!!! If you, or you, or especially you, have been missed, I beg your humble pardon, because I've been just too darn busy — Hawkshaw?

Grade Notes

All of the grades are practicing for their part in the P.-T. A. program to be held Monday evening.

The fifth and sixth grades are making a very pretty chart on wild flowers.

The fifth graders are making maps of New England, while the sixth graders are constructing relief maps of Europe.

Gave Bridge Party

Mr. and Mrs. Edgar Long entertained a number of friends in their home Tuesday evening. After dainty refreshments were served by the hostess, bridge was played at five tables. High family score for the evening was won by Mr. and Mrs. Roy Ramey, while low went to Mrs. D. A. Christensen.

The guests were Messrs. and Mesdames R. L. Blewett, W. J. Carroll, W. A. Watts, D. A. Christensen, W. L. McCreary, R. H. Ramey, George Leith, S. Cook and W. B. Deobald.

ROY RAMEY, JR., HEADS FIRST BASKETBALL TEAM

In the basketball tournament held at Lewiston during the latter part of last week and which closed Monday with the deciding game between Lewiston and Moscow (in which the former won by a score of 24-23) Roy Ramey, Jr., son of Mr. and Mrs. R. H. Ramey of Kendrick, won the highest individual honors of the tournament by being the first man to be selected for the all-star teams, as a result of the tournament showings, and everyone in Kendrick and surrounding territory will rejoice with his team-mates and friends on the splendid showing made during the tournament.

The following, taken from Tuesday's Lewiston Tribune, gives full details:

Eight central Idaho basketball players, whose performance rated them outstanding among the 10 eight-man squads entered in the 17th annual district tournament which closed at Lewiston last night, were awarded gold basketball watch charms following the Moscow-Lewiston championship game. Eight others were given silver basketballs emblematic of their selection on the second eight. The sixteen players were named at a meeting of coaches Saturday at noon in the Lewis-Clark hotel and announced last night.

Players on the first team were Roy Ramey, Kendrick; Howard Smith, Moscow; Finlay Petrie, Lapwai; Earl Carman, Bovill; Don Peterson, Lewiston; Alvin Amera, Ferdinand; Dale Meginity, Craigmont, and Seymour Teed, Weippe.

On the second team were Robert and Kenneth Woods, Moscow; Bernal Oylear and Eddie Stone, Craigmont; Don Kirby and Russ Mann, Lewiston; Obed Moody, Ferdinand, and Louis Bunting, Grangeville.

With each of the 10 tournament squads boasting one or more outstanding players, no school in the district placed more than one man on the first team. Moscow, Lewiston and Craigmont, with one each on the first team and two on the second, led in the total number of all-stars placed. Peck, eliminated in its second game of the tournament, was the only school which failed to place a player either on the first or second team.

Roy Ramey, Kendrick center, was one of two players in the tournament who was given a unanimous vote by the coaches participating in the selection. Only two juniors, Howard Smith of Moscow and Alvin Amera of Ferdinand, were named in the first eight, the remainder being seniors. Amera, however, will be lost to Coach J. D. Doak's squad next year for having passed the age limit, leaving Smith as a prospective repeater in 1937. Smith was the other unanimous choice.

One freshman, Obed Moody of Ferdinand, won a place on the second eight. He and Amera, both Indians, formed a combination which kept the Eagles in the thick of the tournament fight until the semi-final in which they were eliminated by Moscow. Kenneth Woods of Moscow and Bernal Oylear of Craigmont were the only sophomores to be placed on the second team all-star roster.

The selections were made by Coach E. J. A. "Babe" Brown, Moscow; John Vesser, Lewiston; Ward K. Howell, Craigmont; J. D. Doak, Ferdinand; Kenneth Dean, Weippe; W. E. Barney, Peck; Art Dawald, Kendrick; Arthur Jones, Grangeville; Earl Heidel, Bovill, and W. G. Gnaedinger, who cast a proxy for Garfield Sorenson of Lapwai, who was absent. Gnaedinger coached the Lapwai team until three weeks ago when he accepted a teaching position in the Lewiston school system.

Art Barnes, of the Lewiston Chamber of Commerce, presented the champion trophy to Capt. Don Peterson of Lewiston and the runnerup cup to Coach Brown of Moscow. The sportsmanship trophy was received by Capt. Eddie Stone of Craigmont and Lewiston players were given individual gold basketballs.

The 10 Vandal Booster club cups were given the participating teams and hearing the names of the players voted the greatest inspiration to their teammates were presented by Ray Durham to Walter Currin, Weippe; Dale Meginity, Craigmont; Bud Nogle, Bovill; George Haener, Grangeville; Finlay Petrie, Lapwai; Alvin Amera, Ferdinand; Roy Ramey, Kendrick; Elmer Parks, Peck; Robert Woods, Moscow, and Jack Roessell, Lewiston.

Senator Borah (R-Idaho) wants to receive no more telephone calls asking if he is dead.

A rumor that he had died spread through the capital Wednesday night. Anxious people began telephoning to him.

At first Borah treated it as a bit of fun but when the telephone calls continued he began to be wrathful. He promised dire things for the person who started the rumor.

KENDRICK COMMERCIAL CLUB HOLDS LIVELY MEET

The regular monthly meeting of the Kendrick Commercial club was held in the dining room of the Raby Hotel Monday evening. Mrs. Minnie McCoy served one of her famous dinners, which was thoroughly enjoyed by everyone.

Two members of the Future Farmers of America, an organization of farm boys taking instruction from M. C. Grover under the Smith-Hughes act, were present and spoke before the meeting as a forerunner of a contest to be held soon, the boys being Donald Bencotter, whose subject was "Importance of Farming," and Irvin Halseth, whose subject was "Soil Erosion." The judges were Wade T. Keene, Ira Havens and Otto Schupfer. Each boy received the same number of points—70 out of a possible 100. The subjects were well handled and showed the boys had worked hard on their speeches and they deserve much credit for the showing made.

After the reading and approval of the minutes, committee reports were in order. F. M. Long of the Fish and Game committee reporting that he had paid out \$9.47 for feed for game birds during the deep snow and that many farmers had also fed the birds, which was much appreciated by the club.

N. E. Walker of the Highway committee reported that he had received a telegram to the effect that the big gas shovel would be loaded at once and should reach Kendrick by Thursday morning of this week and that as soon as it could "ford" the river work would start on the Cedar creek road. Mr. Walker stated that there would be about 32 men to start on the project.

M. C. Grover reported for the Educational committee that practically all students were in school again after the cold weather, heavy snow and basketball tournament were over and that things were running smoothly again.

At this time the question of whether or not a magpie contest would be held this year was brought to the fore. After considerable discussion it was decided not to sponsor a contest this year as the Erb Hardware, Lewiston, is sponsoring a contest for predatory animals and birds, offering many merchandise prizes for everything from cougars to sparrows' eggs, with rattlesnakes in between. No mention was made whether rattlesnake eggs would count or not. However, cards may be obtained at the Barnum Lumber & Hardware company's store giving full instructions and all boys interested should call there for one of these cards.

The question of whether or not Kendrick would celebrate the Fourth of July was brought up and discussed. A committee composed of F. M. Long, Everett Crocker and W. L. McCreary was appointed by Chairman Barnum to interview the business men of the town and report at the next meeting of the club.

Another important question that has been discussed many times at commercial club meetings and in the community at large is the establishment of a cannery in Kendrick for the canning of all kinds of vegetables, including tomatoes, peas, beans and fruits of all kinds that can be raised here in quantity and the matter was referred to the Industrial committee, which will make a report at the next meeting of the club.

During the discussion, Harold Thomas reported that he had already made arrangements to put in a cannery on a small scale to handle several varieties of fruits and vegetables and that he expects to gradually enlarge the business as circumstances warrant.

Mr. Thomas is to be congratulated upon his progressiveness and it is up to the entire community to get behind the cannery movement and put it over. Mr. Thomas is not asking assistance from the Commercial club, but states that there is plenty of room here for another cannery to take care of the large quantity of vegetables and fruits than can be raised here.

BETTER CROP PROSPECTS WEAKEN GRAIN PRICES

Domestic grain markets turned downward during the week ended March 6, influenced by larger marketings, with the return of more seasonal weather and some improvement in the condition of winter wheat, according to the Weekly Grain Market Review of the U. S. Bureau of Agricultural Economics. Relatively large remaining stocks of feed grains compared with reduced numbers of livestock were further weakening influences. Wheat declined 2c to 4c per bushel, with the greatest loss in hard winters at Kansas City where favorable new crop prospects and better road conditions influenced growers to sell more freely. Oats declined sharply as a result of the heaviest offerings since October and only a moderate demand.

Some improvement in prospects for winter wheat with fields beginning to turn green in Missouri and eastern Kansas as a result of the warmer weather, contributed to the easier domestic wheat situation during the week under review. Trade agencies forecast a winter crop of around 525,000,000 bushel from March 1 conditions. This compared with 433,000,000 bushels harvested last season, and 405,000,000 bushels in 1934. Stocks outside of merchant mills were placed between 15,000,000 and 20,000,000 bushels above a year ago, with smaller stocks in terminals and in country mills and elevators more than offset by larger supplies on farms. Farm stocks were unofficially estimated at 118,000,000 bushels against a corresponding estimate of 92,000,000 bushels a year ago. Prospects in Europe are still uncertain with rains delaying field work in France and with indications that the season's crop may be below domestic needs.

The general wheat market situation continued weak with further declines of 1c to 1 1/2c per bushel at Liverpool where fairly heavy offerings from Australia and Canada were more than adequate for the limited trade needs. World trade continues to be restricted by trade barriers, including the regulation and control of exchange. The suspension of the gold standard in most countries has been followed by restrictions in dealing in exchange. Restricted industrial activity and the continued low level of foreign trade has been a feature in the grain situation in France where subsidized exports to move surplus wheat stocks has added to the financial difficulties. The devaluation of Belgian currency has disturbed the grain market in that country. While the Dutch government has maintained a gold standard, the "intransit" grain trade of the Netherlands has remained at relatively low levels because of trade barriers in important consuming areas. In Germany and Italy all foreign exchange dealings are under government control and these countries, formerly large importers have become largely self-sufficing in the matter of bread grains.

Spring wheat markets were unsettled but prices closed about 2c lower than a week ago. Market receipts increased with larger arrivals of Canadian wheat. Receipts at Minneapolis totaled 594 cars with 62 cars taken in at Duluth. Of the Minneapolis inspections, 122 cars were durum, about half of which was from Canada. With the arrival of some heavy test weight Canadian wheat, the test weight of all spring wheat increased to an average of 51.5. About 500,000 bushels of Canadian bread wheat was reported purchased for all rail movement to Minneapolis. Over 375,000 bushels of Canadian bread wheat arrived in Buffalo during the week, together with about 54,000 bushels of feed wheat.

Intermountain and Pacific Coast markets declined along with eastern markets but were influenced by local supply and demand conditions. Denver mills were bidding 98c for No. 2 hard winter and No. 2 northern spring. FOB Colorado shipping points, while mills at Ogden lowered prices of No. 2 soft white wheat to 75c and No. 2 northern spring to 93c and No. 2 hard winter to 89c, FOB Utah-Idaho common points.

The Portland market declined 1c to 2c but milling inquiry was more active, reflecting the better flour business as a result of the subsidy on shipments of flour to the Philippines. Local mills will be paid an indemnity based upon the difference between Philippine flour prices and the cost of production and transportation of the flour from the Pacific Coast terminals. The indemnity payment in

3.—Total cost would be limited in 1936 to \$47,000,000, with administration "democratic in principle" through county AAA groups and a state board.
4.—The maximum acreage of major crops would be set for each farmer, seeking a benefit payment.

"So Red The Rose"

"So Red The Rose" is a beautiful story of the old South, just previous to and during the Civil war. It is a story of the humbling of a once proud Southern family.
"So Red The Rose" is not primarily a war story, although the War serves as its exciting background. Rather, it is the story of life on a great plantation before and after the

war, revealing the conflict of love and duty that suddenly swept down upon a generation of gentle and peace-loving family.

The film is an adoption of Stark Young's novel of the same name, which, since its publication over a year ago, still retains its position on the national best-seller list.

There will also be other regular features to fill out the evening's entertainment.

The Eight-Eight Bridge Club

The Eight-Eight Bridge club met at the home of Mr. and Mrs. W. B. Deobald last Thursday evening. After refreshments were served bridge was played at four tables. E. T. Long made high score for the men and Mrs. D. A. Christensen for the ladies. Low scores were awarded Mrs. Ethel Emery and P. B. Higley.

Mr. and Mrs. E. T. Long were invited guests.

Oldsters Continued Political Fued
In the Magazine section of the Sunday Spokesman-Review appeared the following article, written by Mrs. John Hoyt, for many years a resident of Kendrick, but whose residence is now W1014 Sixteenth, Spokane:

Kendrick, Idaho, is a village of some 600 souls. It is a quiet town shrouded in between deep ridges. The Pollatch river, a mere stream in summer, flows in the canyon, through this little town.

Here two old men sat, each sunny day in summer, on opposite sides of the one long street that paralleled the river. They sat and thought of by-gone days and were lonely.

One was a lifetime republican, Aaron Bradbury, the father of two sons, who ran the bank.

The other, Michael Byrne, a farm owner and father of two sons, who ran a general store and the bean warehouse, was a lifelong democrat.

Aaron, a genial fellow, always smoked a big cigar, was without diplomacy, yet well liked. Upon accompanying my husband home to lunch, he remarked apropos of my dessert: "I always said the biggest waste of good eggs and milk was to make them into custard."

Michael, born in Dublin, had without doubt kissed the Blarney stone. He would flatter men by long recitals of life as it used to be in Erin's isle and at the English court, for his brother was a harpist who entertained the queen. Michael was a staunch democrat.

Aaron, a republican; Michael a democrat. We used to coax these two old friends of ours to move their chairs across the narrow street, to sit side by side and visit in the sunshine, but to no avail. Each in turn would exclaim in no uncertain tones: "No, I can't do that. He's too dum radical."

Both are now gone to their reward but politics still goes on.

Mix Look For New Job

The next Lieutenant governor of Idaho will not be G. P. Mix of Moscow, the commonwealth's present acting chief executive said.

"If I seek any nomination it will be for the position of governor. As to the later, My plans still are indefinite," he declared.

He is a democrat and frequently has been mentioned as a prospective candidate for the office. Governor Ross, who is now out of the state, has held three consecutive terms.

Perry W. Mitchell of Nezperce and C. C. Gossett of Nampa, both members of the state legislature, seek the nomination for lieutenant governor on the democratic ticket.

NEZ PERCE COUNTY AGED TO RECEIVE PENSIONS

Applications of 118 seeking state and federal assistance through the old age pension provision, dependent children and blind, have been approved by the Nez Perce county board and forwarded to Boise, according to a summary of the situation yesterday by Capt. Arthur Ward, district and county supervisor, said the Lewiston Tribune.

These 118 were selected from the group of about 400 applications filed because of familiarity with the cases, according to Capt. Ward. Applicants who have been on direct relief, on county relief or otherwise have been receiving public assistance were placed at the head of the list and their pleas were heard first.

Out of the total of 118 there were 67 applicants for old age pensions, 46 for dependent children and five by blind persons. It is expected that an additional 100 applications will be filed, bringing the total in the county to 500.

"Out of the 118 applications considered only three were turned down," said Capt. Ward. "Because of the fact that those acted upon formed a selective group with which we were conversant, that is not a fair percentage, however, to base future application approvals on. Indications are that a larger percentage of the remaining applications will not be approved. It is expected that the first checks on these applications will reach Lewiston the first of the coming week."

"The Nez Perce county board has made a rule that will prevent those who are granted pensions from receiving further assistance in work relief. If a man is able to work despite the fact that he may be eligible for an old age pension it is the policy of the board to deny his application for a pension. On the other hand, if the pension is granted, the board feels that the applicant should not also be privileged to secure work relief or to double his income from public funds."

Members of the Nez Perce county board charged with investigating each pension application are Capt. Arthur Ward, chairman; County Commissioner Henry Heitfeld, Probate Judge John L. Phillips, Charles Parker and Frank Morris.

BETTER CROP PROSPECTS WEAKEN GRAIN PRICES

effect on March 7, was 95c per barrel on business confirmed up to noon on that date. Marketings increased slightly as a result of the better demand and receipts at Puget Sound and Columbia river terminals totaled 601 cars. Outside business was small except for scattered cars of high protein wheat to California mills and current offerings were being taken mostly by local mills. On March 6 soft white and western white were quoted at Portland at 88c, northern spring and hard winter at 87c and western red at 87½c per bushel, all basis No. 1, sacked. At Seattle, western white, western red and hard winter were quoted at 86½c and hard white (baart) at \$1.22 per bushel, basis No. 1, sacked.

Pacific Northwestern barley showed no new developments during the week and trading and movement continues light with a dull demand from all classes of buyers. Mixed feed manufacturers provided the principal outlet for feeding barley but little interest in malting grades was shown. No. 2 bright western barley was quoted at Portland March 5, at \$1.18 per 100 pounds, sacked.

Oats markets fluctuated with other grains but were also influenced by a dull demand for the moderate offerings. Northwestern markets held steady and on March 5 No. 2 white cats were quoted at Portland at \$1.15 to \$1.20 per 100, with No. 2 gray oats at \$1.20 to \$1.23 per 100, sacked basis.

February Tax Collections
Collection of delinquent taxes for
Latah county totaled \$12,958.19 for
February, according to H. H. Hoag-
land, deputy in the county treasurer's
office.
Delinquent taxes for six years
back were paid last month. \$48.48
being paid for 1930. The total for
February of this year is much be-
low the \$50,240 collected in the same
period last year, and is explained
by the large tax bills paid by two
large corporations within the county
last year, who did not pay during
February of this year.
\$193.58 for 1931, \$428.53 for 1932,
\$223.05 for 1933, \$649.85 for 1934

Cooperative Advertising

Many merchants, some of them in
Kendrick, are accustomed to think of
advertising as a means of taking
business from competitors instead of
looking upon it as a proper method of
stimulating sales of the commodities
advertised. This being illustrated forc-
fully in many national campaigns,
where manufacturers of certain things
have banded themselves into nation-
al associations for the purpose, not
of fighting the other man's product,
but of selling the consumer the ma-
chine that both make.
The same idea should apply to local
advertising. Merchants who advertise
in the Gazette do not necessarily com-
pete for a minimum amount of busi-
ness, which one must take from the
other. Rather, it is true that their
up-to-date advertising will create an
impression throughout our shopping
area and much business will come in-
enough to give all worthwhile busi-
ness a share.

Too Much Intermision!

There has been too much intermis-
sion and not enough dancing at so-
cial functions on the campus of the
University of Idaho. Dean of Women
Farneal J. French decided.
So she posted this warning:
"Couples leaving organized house
dances during the intermission must
return more promptly or the house
dances will be curtailed."

RAISE FLAXSEED

In Place of Wheat and Other Surplus Grains

Flaxseed is the major deficiency field crop in the United States.
Over half our requirements are imported annually — 18 Million
Bushels in 1935. Tariff duty of 65c per bushel on all imports pro-
tects against foreign competition and insures good prices to the
American grower.
This locality can produce good crops of flaxseed. It is easy to
grow, is not hard on the land, and no special equipment is neces-
sary. Seed expense is small. Sown in spring, matures in about
125 days.
Ready market is guaranteed by one of America's largest linseed
oil manufacturers; we will contract with you now to pay spot cash
on delivery for your entire crop at full Duluth Board of Trade
quotations f. o. b. mill, Portland. Present market is around \$1.80
per bushel.
Write at once for free bulletins giving full information, also copy
of contract, and prices on seed for planting.

the winter.
The pupils of the Yellow Rose
school have been busy taking their
quarterly examinations the past week.

To Battle Mormon Crickets

J. L. Hood, Idaho works progress
administrator, said that \$136,000 in
WPA funds has been set aside for
cricket elimination work that will be-
gin in 15 counties as soon as weather
permits.
Sponsors of the projects on which
the money will be spent will be re-
quired to contribute an additional 10
per cent of that amount, Hood said.
"To indicate seriousness of the
cricket problem, University of Idaho
entomologists recently estimated,"
Hood said, "that cricket infested ter-
ritory in this state has increased
from 100,000 acres in 1932 to nearly
2,000,000 acres in 1935."
Under the program announced by
Hood, the WPA and the counties will
furnish the funds for the war and the
state agricultural extension division
will direct the field activities, with
Dr. W. E. Shull, of Moscow, assist-
ant entomologist of the extension
division, in charge.
Between 300 and 400 men will be
employed and the work is expected
to require between three and four
months.

Not In Contest — But

While the egg was not saved, (because of breakage) to enter the Gazette's big egg contest, now going on, in making the rounds of her henery one day last week Mrs. Alex Larson found a real freak. The egg was of large size; within the outer shell there was a full-sized egg with a hard shell, and floating in the white of the larger egg, between the outer shell and that of the smaller egg inside, was found two small immature eggs, with soft shells—which naturally places the egg in the freak class.

Several eggs with smaller eggs inside have been reported, but this is the first instance we have heard of where there were practically four eggs within the outer shell.
