HIGHLIGHTS OF THE WEEK'S NEWS DISPATCHES

Washington — President Roosevelt has appealed directly to business to increase employment, declaring that upon it rested the responsibility as to whether the new \$1,500,000,000 relief fund he asked of congress would be adequate. In a special message asking that a lump sum deposit of a billion and a half be placed to the credit of WPA for the 1937 fiscal year—a request that stirred protest and brought promise of a major battle in congress—the chief executive placed special emphasis upon a call to industry to “organize a common effort” to provide more jobs. “Only if industry fails to reduce substantially the number of those now out of work will another appropriation and further plans and policies be necessary,” he said. Declaring that about \$1,600,000,000 would be available to add to the \$1,500,000,000 he requested, Mr. Roosevelt said 5,300,000 families and unattached persons are in need of public assistance, with 3,800,000 of these on the works program and 1,500,000 on local and state rolls.

Youngstown, O.—Opening his Ohio presidential campaign in the center of the nation's steel industry, U. S. Senator William E. Borah of Idaho declared himself in favor of a “stable dollar” and “complete and effective neutrality.” In making a bid for the Buckeye state delegates to the national convention, the Idaho senator also declared in favor of retaining “the American market for the American farmer.” He approved the cooperative system of farm marketing and said he favored speedy enactment of the commodities exchange bill now before congress. Striking at the new deal policy of curtailing production as a means of relieving agriculture, Senator Borah said he did not “believe in the philosophy of scarcity.”

Chicago—U. S. Senator William E. Borah of Idaho, candidate for the republican presidential nomination, said he would not bolt the party if he lost the race. Although introducing himself to the farm belt as the Moses of republicanism, the Idaho senator declared he had “no plan or purpose” of throwing his support to the democrats if his party refuses his leadership. “They say I am not a good republican,” he asserted in opening his fight against Col. Frank Knox in the Illinois republican preferential primaries on April 14. “There are rumors and reports that I intend to bolt the party if I lose this campaign. Let me say that I am the only candidate who has any chance of nomination who has never bolted the republican party.” The senator said, however, that he would “reserve the right to look over the candidate and platform,” chosen at the Cleveland convention.

Boise—If Senator Borah actually does not seek the republican renomination for senator from Idaho, the republican field will unquestionably be much larger than it is now; no matter whether the senator's withdrawal is due to his nomination for the presidency or disinclination to run again. Most Idahoans, however, are not inclined to foretell that Borah is through; they feel sure that if he fails at Cleveland he will be in the race this fall. At present there are two avowed candidates for the republican senatorial nomination—Ray McKaig, who says the senator won't run again, and Ralph Whitten, who says he doesn't care one way or the other.

Washington — Appointing a committee of three to investigate the government's administrative machinery, President Roosevelt requested cooperation of the special senate “economy” committee headed by Senator Byrd (D., Va.) Louis Brownlow of Washington, director of the public administrative clearing house, was named chairman of the president's committee. Other members are Luther Gulick, New York, director of the institute of public administration, and Charles E. Merriam, professor of political science at the University of Chicago. Both Brownlow and Gulick were announced last week as advisors for the Byrd committee, which has been given \$50,000 to conduct an investigation of useless and overlapping agencies in the government—and then the President went fishing.

Rome—Premier Mussolini, predicting the coming of a new war, abolished the chamber of deputies and all large private industries in Italy. For the chamber of deputies he substituted a council of guilds, known as the “chamber of fascists and corporations.” Il Duce left only medium and small private industries intact and said of

Troy Plans Music Festival

The Latah county music festival will be held at the Troy school May 9. Although definite plans have not been completed, the following schools have said they will participate: Deary, Kendrick, Potlatch, Bovill, Genesee, Juliaetta and Elk River. Miss Maria Marler will direct the Troy representation.

INTERESTING NEWS NOTES FROM OUR PUBLIC SCHOOLS

High School Notes

The Senior class of Kendrick High school presents their class play, “Alibi Bill,” Wednesday, April 1. The play hinges around the character of “Alibi Bill,” played by Joe Watts, who is boss of the household (except when his wife, Aimee, played by Beatrice Curtiss, is at home). Jimmy Robinson, Cecil Spekter, is the partner in crime. Mary Elizabeth Thompson plays the part of Mrs. Kennedy, the ever-suspecting mother-in-law. The plot is further complicated by two strange characters, Daisy Montaine, played by Lucille Lewis, and Miss Jones, played by Flo Kent.

This group is ably supported by Elmer Emery as the butler, Selma Wegner as the maid, Rodney Smith as the cop, and Roy Ramey, Jr., in the role of Ned Kennedy, the much-troubled brother. The Business Science class is studying purchase and sales records. The English I class are studying early drama and Shakespeare. English II and III are studying speech.

The Sophomore class gave a short program for the student body on Friday of last week. The next program will be given by the Freshmen in about three weeks.

Grade Notes

The first and second grades are studying birds and their habits. Students who will enter the district spelling contest at Lapwai next week are: Betty Boyd, Annabel Deobald, Wallace Fraser, Barbara Long, Lois Deobald, Dale Miller, Paula McKeever, Donna Wadiace, Pauline Keyler, Jean Crocker, Lois Poindexter and Pearl Brown.

Hobby Contest of Graders

Last fall the local Parent-Teachers' association sponsored a “hobby” contest to be carried on among the children of the grade school. The hobbies included soap carving, fancy work, wood work, and the collection of various articles which might come under the head of a hobby. The best in each group in each room were to receive prizes for their efforts. Those receiving prizes for their efforts are: First grade, Delos Miller; second grade, Margaret Cook, Buddy Langdon and Jimmy Aiken; third grade, Pauline Kohler; fourth grade, Jean Crocker; fifth grade, Robert LaHatt, and Arthur Fraser; sixth grade, Evelyn Farrington, Lois Deobald, Dale Miller; seventh grade, Betty Boyd, Billy Deobald; eighth grade, Lloyd Farrington, Barbara Long and John Thompson.

Those entitled to honorable mention were: second grade, Gay Deobald, and fourth grade, Joe Davis. There were 50 children entered in the contest, under the various heads, which made competition keen.

First Future Farmer Smoker

The Future Farmers held their first smoker in the High School gym on the evening of March 19. The evening started off with a basketball game between the reds and blacks. The score was a little one-sided, but it was a good game anyway. The wrestling and boxing followed after the basketball game. The wrestling matches were: George Magee and Tarzan Thomas; Willard Schoeffler and Lawrence Kuykendall; Frank Arnett and Nolan Weeks. The boxing started off with King and Farrington in the heavyweight class. The rest of the matches were in the middleweight class with Frank Arnett and Billy Weyen, Bud Magee and Quentin Cole, Don Bencotter and Arnold Halseth, Fred Reid and John Wallace. The referee for the evening was M. C. Grover.

The evening ended with the boxing. The boys enjoyed putting it on and have agreed to put on another in the near future.

Afternoon Bridge Party

Mrs. Wm. Watts entertained the Afternoon Bridge club Thursday afternoon. Refreshments were served at the close of play. The invited guests were Mrs. J. M. Lyle, Mrs. W. B. Deobald and Rilla Davidson. High score for the afternoon was awarded to Mrs. J. M. Lyle.

ANOTHER PIONEER ANSWERS FINAL CALL

C. C. Blackburn, another of the pioneers of Idaho, died at his home in the west part of town Wednesday morning about 2:30 o'clock, the infirmities of old age being the immediate cause of death. He was 85 years, nine months and 17 days of age at the time of his passing.

Calvin C. Blackburn was born in North Carolina, June 8, 1850, where he grew to manhood. On December 12, 1869, Mr. Blackburn was married to Mary Jane Laws, at New River, Ashe county, North Carolina. In 1893 they removed to Blowing Rock, N. C., where they resided until 1899, when they turned their faces toward the west, coming to Idaho, where they settled on a homestead near Teakcan, where they resided until 1906, when they moved to Kendrick, where they had since made their home.

To this union five children were born, three of whom survive: Mrs. Bina Raby of Kendrick; Mitchell Blackburn of Cavendish, and Josie

Mr. and Mrs. Calvin C. Blackburn

Green of Wenatchee, Wash. Two children, Miniard and Marion, have been dead for many years.

On December 12, last (1935) Mr. and Mrs. Blackburn celebrated in a quiet way their 66th wedding anniversary. This privilege is accorded but few who journey along life's pathway; they were always happy and contented and Mr. Blackburn always met his host of friends, on his infrequent visits down town, with a smile and a friendly greeting.

We quote from a recent article in the Gazette upon the celebration of their wedding anniversary: Mr. Blackburn was always a frontiersman, having lived on the outposts of a new country all his younger years. He was a blacksmith by trade, and while living back in North Carolina he forged many articles that few of the blacksmiths of the present day would dream of undertaking.

There was no dentist near his Carolina home and he conceived the idea of forging out some dentists' forceps and relieving sufferers of their bad teeth. He said he had pulled literally hundreds of teeth for the mountaineers of his native state, for which he neither asked nor received pay. Thus his generosity was shown in the true pioneer spirit of his day.

Mr. Blackburn had been in poor health for the past several years, but his passing nevertheless will be a shock to his host of friends here and elsewhere.

Funeral services will be held from the Kendrick Community church Friday morning at 10 o'clock, with Rev. T. E. Poindexter in charge of the services. J. J. Pickerd had charge of arrangements. Interment will be made in the Kendrick cemetery.

The pallbearers are: Ed. Estes, Joe Davis, C. G. Compton, Archie May, Claud Stanton and Ira Foster.

What Would You Do?

As the train pulled into the depot a traveling man stuck his head out of the window, and calling to a boy standing near, he said: “Here sonny, bring me a sandwich, and here's another dime, get one for yourself.” Just as the train started to pull out, the boy returned, munching a sandwich, handed the man a dime, and shouted: “Here's your dime, Mister, they only had one.”

NEZ PERCE COUNTY TO MAKE WAR ON RODENTS

What is expected to develop into one of the most intensive one-day drives against rats in the history of the United States, in which possibly 5,000 citizens will be active participants, will be staged in Nez Perce county April 1 under the direction of the county agent and United States biological survey, Owen Morris, director, says The Lewiston Tribune. Not only will farmers enlist in the battle to rid the county of the destructive rodents estimated to cause an annual loss in Lewiston and elsewhere in the county in excess of \$10,000, but business men, students, professional men and women, and citizens in general will be expected to take part in the drive, according to the program being outlined.

While it is believed that farmers are the chief sufferers from rats, the county agent calculates that business men bear a comparatively heavy loss each year on the stocks.

It is estimated that the loss in the United States each year on farms alone from depredations of rats is not less than \$200,000,000, representing the production of 200,000 men,” County Agent J. W. Thometz declared yesterday. “Rats are found on almost every farm in large numbers and statistics show that each rat consumes \$2 worth of property a year.”

With Thometz as director, the campaign will be conducted along lines outlined by biological survey. The bait to be used is prepared under the supervision of the federal bureau and in each community there will be a distributor of bait to facilitate matters for those taking part in the campaign. Under a cooperative agreement, the bait will be furnished at actual cost, but to be insured of a supply it is necessary to order early, Thometz said. Yesterday it was reported that more than 100 farmers had reserved a supply for the war to be staged April Fool's day.

The methods to be used will make it easy for everyone to get rid of rats, Thometz said. Three kinds of bait will be furnished, fresh hamburger, fish and cereal.

“This variety should appeal to the rats of whatever taste, if they do not take to one they will another.” To each of these baits the biological survey's “raticide” will be added in powdered form. The poison, if directions are followed, is harmless to dogs, cats, poultry and human beings, but is death to rats and mice, according to Director Morris. Each package contains a quantity equal to 100 baits.

“To be rid of rats would be worth a thousand times what it might cost,” Thometz said, “and it is of interest to every citizen to cooperate earnestly in furthering a sentiment of intolerance against this filthy and destructive pest, a disease carrier as well as a destroyer of property.”

\$100,159 Security Checks Mailed

W. L. Murdock, comptroller of the Idaho cooperative agency for relief, has reported that \$100,159 was distributed to the aged, the blind and dependent children under provisions of the federal social security act for the month of February.

Of the \$100,159 counties proided \$19,080, the state \$33,387 and the federal government \$47,692.

Checks were sent to persons in all the 44 counties. Checks totaling \$84,424 went to 3,847 aged persons. They received from \$5 to \$30. One hundred thirty-one blind people received \$3.386. Their checks ranged from \$7 to \$30 each. A total of 546 checks amounting to \$14,342 went to dependent children. The average payment per child was \$5.56.

Dessert Bridge Party

Mr. and Mrs. J. M. Lyle, Jr., entertained at a dessert bridge party Friday evening honoring the teachers. High score for the ladies was won by Mrs. Silvie Cook and high for the men went to M. C. Grover, while Mrs. Edith Tulley was low. Those present were Mr. and Mrs. M. C. Grover, Mr. and Mrs. Arthur Dawald, Mr. and Mrs. Silvie Cook, Mrs. Edith Tulley, Allene Rider, John King and Miss Roos.

Road Work Now Moving

Work has begun in earnest on the Cedar creek road last Monday morning and things are now humming—as rapidly as circumstances will permit, at least. It was expected that 24 men would be put to work at that time. We have no accurate information as to the number.

No License Plate Moratorium

Word has been received by law enforcement officers from the department of law enforcement, Boise, that Governor Ross has definitely declared that no moratorium on the 1935 license plate deadline of March 31, can be expected this year. After that date all Idaho cars must carry 1936 plates, the announcement said.

MRS. NICK BROCKE DIES AT HOME NEAR KENDRICK

Mrs. Nicholas Brocke, a resident of the Kendrick and American ridge sections for the past 48 years, passed away at her home near Kendrick, March 19, death resulting from the infirmities of old age. Mrs. Brocke was among the best-known and beloved people of this entire section and many are those who express deep regret and sorrow at her passing.

Anna Grieser was born November 17, 1859, at St. Louis, Mo. With her parents she moved to Nebraska in 1871, where she resided until she was married to Nicholas Brocke in 1877. In the fall of 1877 she and her husband came to Idaho, settling on a homestead in the Thorn creek section, south of Moscow, where they resided for eleven years. In 1888 they moved to American ridge, settling on a farm just at the head of Brady gulch, where they resided until 1911, when they moved to the home near Kendrick, where they had since resided.

To this union was born three daughters and five sons, six of whom, with her widower, survive. They are: Mrs. Etta Hagist, Portland, Oregon; Mrs. Caroline Wilcox, Lewiston, Idaho; Mrs. Amelia Leland, San Francisco, Calif.; Joseph, Spokane, Wash.; Charles, Oakland, Calif.; and Nicholas, Jr., Mariposa, Calif. There are 16 grandchildren and a number of great-grandchildren. Frank and John, sons, died many years ago. Three sisters and three brothers, Mrs. Kate Peterson, Addy, Wash.; Mrs. Amelia Wernicke, Mrs. Lizzie Hasfurther, Frank, Adolph and Charles Grieser, all of Genesee, also survive.

Funeral services were held at the home at 1:30 o'clock Saturday afternoon, conducted by Rev. Fr. B. J. Carey, pastor of the Genesee Catholic church. Interment was made in American ridge cemetery, with committal services in charge of the Kendrick Rebekah lodge. The singers for this service were N. E. Walker, Thos. McDowell, Mrs. D. A. Christensen and Mrs. R. H. Ramey.

Pallbearers were Ben Callison, John L. Woody, Wm. Cox, W. A. Watts, Ira Havens and George Davidson. There was a large attendance of relatives and friends from Genesee and Lewiston and many were those from Kendrick who went to pay their last respects to this splendid woman.

We wish to extend our since thanks and gratitude to those friends who aided us in our hour of need, and especially do we wish to thank those who gave the beautiful floral offerings.

N. Brocke and Family.

How Are Yours?

If your brakes and lights are not as good as they should be, better have them looked after at once or you may be called upon by a traffic officer to tell just why you neglected to do so—and just a red string won't get you by! And, too, you had better have the tail light of your car in shape—they draw just as big fine as the others for being out of order—and your brakes are very important as well. Better have them checked and given an O. K.

The Deobald garage is the official state station in this section. They are officially qualified to test, adjust and repair your lights and brakes.

Much Farm Machinery

There have been three carloads of farm machinery received in Kendrick during the past few weeks, which means that active farming will be going on in earnest as soon as the ground will permit. The Kendrick Bean Growers association have received two carloads, the Kendrick Rochdale a car and the Barum Lumber & Hardware company has also received several smaller shipments.

This is an indication that it will not be necessary for any farmer, whether a member of one of the associations or not, to go away from Kendrick to buy his farm machinery. Better look here for what you may need—you are almost certain to find it.

MARKET WEAKER WITH LIBERAL OFFERINGS

Grain markets turned downward during the week ended March 20, influenced by continued liberal offerings and some slackening in demand and improved new crop prospects, according to the Weekly Grain Market Review of the United States Bureau of Agricultural Economics. Wheat declined sharply toward the close of the week with improvement in winter wheat and prospects of increased spring wheat acreage. The weakness in foreign markets, reflecting less tenseness in the European political situation, attended by some slackening in demand, was a further weakening influence. Relatively heavy offerings of feed grains from abundant remaining supplies, together with indications of increased acreage this season, weakened oats. Barley declined with other grains.

Preparations for seeding spring wheat in the northern hemisphere has begun with present prospects for some increase in acreage. A spring wheat acreage of 22,400,000 acres for harvest in the United States this season is indicated by farmers intentions to plant. This compares with a harvested acreage of 18,826,000 acres in 1935 and the five-year average of 20,431,000 acres. The acreage of spring wheat other than durum, is placed at 19,128,000 acres as compared with 16,182,000 acres harvested in 1935 and the average of 15,626,000 acres. Much of the spring wheat area is too wet to seed with some sections still covered by snow and seeding will be much later than average. Winter wheat prospects at present tend to substantiate the department's December forecasts of an abandonment of 15 to 20 per cent and suggest a total wheat acreage of 61,000,000 acres for harvest in 1936 compared with 49,826,000 acres harvested in 1935 and the five-year average of 59,885,000 acres.

No official data are yet available as to Canadian spring wheat acreage, but land prepared last fall for spring seeding totaled 19,760,000 acres against 21,943,000 acres a year earlier.

Domestic cash wheat markets turned downward with futures and premiums were barely maintained. Marketings continued fairly heavy while milling inquiry was only moderate. Receipts of spring wheat increased with 750 cars reported at Minneapolis and 114 at Duluth. The Minneapolis arrivals included a large proportion of Canadian durum. Shipments of durum billed from western Canada for rail shipment to the United States during the month of February were reported at 332,964 bushels, with March shipments expected to total about twice this quantity.

Winter wheat markets were 2c to 4c lower and current offerings were easily sufficient for trade needs. Receipts fell off slightly with a total at the principal markets of 927 cars against 1,051 cars last week. More favorable prospects in the eastern part of the winter wheat belt induced country holders to release old crop grain and this accounted for the relatively liberal movement.

Intermountain and Pacific Coast markets were also lower. Denver mills were offering 97c per bushel FOB Colorado shipping points for No. 2 hard winter and No. 2 northern spring. Mills at Ogden were paying 74c FOB Utah-Idaho common points for No. 2 soft white, 93c for No. 2 hard white and 87c per bushel for No. 2 hard winter.

Cash prices at Portland declined about 3½c per bushel as a result of limited demand from millers and shippers. Receipts at Puget Sound and Columbia River terminals dropped to 302 cars for the week, but offerings were adequate for current trade needs. Local milling inquiry was only moderate despite the subsidy on flour shipments to the Philippines. Moderate sales of both high protein hard wheats and also of soft white wheats were made to California and some soft white wheat was sold to gulf coast ports, according to the trade reports. At the close of the market March 20 soft white and western white were quoted at 86½c, northern spring and hard winter at 85½c and western red at 86c per bushel, all basis No. 1, sacked. At Seattle western white was quoted at 86c, western red and hard winter at 85½c and hard white (baart) at \$1.20 per bushel, basis No. 1, sacked.

Pacific Northwestern oats markets were barely steady with local demand for white oats limited and moderate offerings of gray oats moving readily to cereal mills. A shipment of 500 tons of oats to Italy from the Puget

The Quaker Way

It is contrary to the religion of the Quakers to call any of their brethren names but it is related that on a certain occasion one of them said to another:

"William, thee knows I never call anybody names; but William, if the mayor were to come to me and say, 'John, I want thee to find me the biggest liar in all Philadelphia,' I would come to thee and put my hand on thy shoulder and say to thee, 'William, the mayor wants to see thee.'"

Basketball Players Honored

Roy Ramey, Jr., his father, R. H. Pamey, and coach Arthur Dawald, were invited guests of the Vandal Booster club at a banquet Wednesday evening held in the Lewiston High school cafeteria. More than 150 Lewiston business men and sport fans attended the banquet, honoring the Lewiston High school and Normal basketball players and the ten outstanding players representing the ten high schools that took part in the tournament this year, together with their coaches and the fathers of the ten boys.

Dean Crawford of the U. of I. engineering department was the principal speaker of the evening, also remarks by the coaches and players were made.

The Booster club awarded the cups, of which they were the donors, to the boys who were voted the most valuable players by the selecting committee. The cups bore the name of the player.

A very pleasant evening was enjoyed by all attending and the fine spirit of Lewiston's business men, and especially members of the Booster club, are to be highly commended.

The reason a lot of politicians are so concerned over the "human rights" of the fellow on relief is that one of those rights is the right to vote.

When a babe of today grows up to be a politician he can't even claim that he was born in a log hospital.

"The Eagle's Brood"
 Here's another of those famous
 Hopalong Cassidy Westerns that all
 have liked so well, with William Boyd
 as "Hopalong," which will be shown
 at the Kendrick Theatre this coming
 Friday and Saturday nights.
 "The Eagle's Brood" is a yarn with
 a punch like a forty-five! Outlaws in
 the iron days of the old Southwest—
 looking for trouble, and finding it in
 the straight-lipped smile of an honest
 guy whose two guns spoke the truth
 —they were splitting the swag and
 duckin' town—when along came Cas-
 sidy! Those outlaws were getting
 away with plenty until that six-gun
 of old Hopalong broke up their parade
 —that's Cassidy.
 There will also be the usual cartoon,
 shorts and other features.

**MARKET WEAKER WITH
 LIBERAL OFFERINGS**
 Sound area was reported during the
 week with a small carlot movement
 to Texas and Montana for seed pur-
 poses. Heavy white oats from eastern
 Washington were quoted at Seattle
 at \$1.15 per 100 and Puget Sound
 oats at \$1.10 per 100 sacked basis.
 No. 2 white oats were quoted at
 Portland at \$1.12 to \$1.14 with No.
 2 gray oats at \$1.17 to \$1.20 per 100.
 Pacific Northwestern barley mar-
 kets continued extremely quiet during
 the week as only two cars of barley
 were reported arriving at Portland
 during the period. A feature of the
 week was the offering of feed barley
 from Minneapolis at around 5c
 per 100 under Portland prices. No. 2
 bright western barley was quoted at
 Portland March 19 at \$1.16½ per 100
 and heavy weight barley from eastern
 Washington at Seattle at \$1.15 per
 100 pounds, sacked.

Idaho Acreage
 If farmers' intentions as reported
 about March 1 materialize, the 1936
 harvested acreage of spring wheat,
 potatoes and corn will be greater
 than were harvested in 1935, but the
 acreages of dry beans, dry peas, oats,
 barley and hay will be smaller than
 last year. The total acreage of these
 crops now indicated for harvest this
 coming season is 2,041,000 acres. This
 total compares with 2,036,000 acres
 harvested in 1935, 1,985,000 acres in
 1934, and the 1928-1932 average of
 2,135,000 acres.

While the 1936 acreage of spring
 wheat is indicated to be 492,000 acres,
 or materially larger than in either of
 the past two years, this intended
 acreage would be about eight per
 cent smaller than the 1928-1932 aver-
 age. Most of the intended increase is
 reported in the wheat sections of
 northern and eastern Idaho. The
 planted acreage of winter wheat was
 also larger than that planted for the
 1935 crop, but acreage losses due to
 winter kill and other similar factors
 is as yet unknown.

Growers now intend a potato acre-
 age slightly larger than harvested
 last year, but smaller than planted in
 either of the past two years. The
 bean acreage is indicated to be about
 109,000 acres, or 15 per cent smaller
 than the 1935 planted acreage. Dry
 pea growers expect to decrease the
 acreage of this crop about 20 per
 cent below the 1935 acreage. The
 acreage harvested for hay probably
 will not be much different from that
 cut in 1935, while both oats and bar-
 ley acreage are now indicated to be
 about 10 per cent smaller than last
 year.

There is a type of automobile acci-
 dent in which the explanation com-
 monly offered is that "the car went
 out of control." In many cases, how-
 ever, according to Yandell Henderson,
 in an analysis of the reflexes of
 drivers of automobiles, subsequent
 examination demonstrates that the
 steering gear, motor and brakes were
 in good order. It is hence really the
 motorist who "goes out of control"
 and the explanation for his action
 lies in an instinctive reflex, which
 submerges the conditioned reflex built
 up by driving a car.

The reflex concerned is the "self-
 righting reflex," explains the Journal
 of the American Medical Association.
 This is excited by any sudden distur-
 bance of equilibrium. It is a com-
 plex reaction in which the head, body,
 arms and legs are all involved. When
 it occurs in the driver of a car, the
 impulse that dominates him is to
 steady himself in his seat. He grasps
 the wheel with his whole strength.
 His arms stiffen, and he is as likely
 to steer off the road as along it.

Simultaneously, and as a part of the
 same nervous and muscular complex,
 he performs another act so instinctive
 that in most cases he is entirely un-
 conscious of it. His legs are forcibly
 extended and his feet are pressed
 down hard. It is the muscular act
 that Sherrington, who discovered it in
 the dog, named the "extensor thrust."
 It is thus obvious that in drivers it

will result in sudden hard pressure
 on the accelerator* pedal.
 Since it is impossible to change this
 reflex, which may occur following an
 initial jolt or even a mental start, some
 other means of preventing this type
 of accident must be discovered.
 On reviewing a considerable num-
 ber of accidents, Professor Henderson
 feels that at least 10 per cent are due
 to the initiation of this reflex. It is
 characteristic that the thrust occurs
 in both legs and hence a clue to the
 necessary safety measures is readily
 available.
 There are some obvious disadvan-
 tages in introducing a method by which
 heavy pressure on the accelerator
 pedal will close the throttle and slow
 the car rather than speed it up.

How Cars Get Out Of Control
 Gives Up In Despair
 A Frenchman was relating his ex-
 perience of learning the English
 language. "When I discovered that if
 I was quick I was fast," he said,
 "and that if I was tied I was fast,
 if I spent too freely I was fast, and
 that not to eat was to fast, I was
 discouraged. But when I came across
 the sentence, "The first one won one
 one-dollar prize," I gave up learning
 to learn the English language.
 Those ill-armed Ethiopians who go
 up against Italian machine guns and
 armored tanks now know how a
 bachelor feels after he has married a
 widow.

Well, Folks—We've certainly been treated to all the weather of which March is capable—from balmy days that gave us spring fever to snow, rain, wind and what have you—but spring is on its way—and its time to think even more seriously about income for the necessary spring expenses—and old bossy can supply the cash. Just bring the cream to us—we'll do the rest.

Have you tried our butter? It's quality will more than please—and you will buy again and again.

Have you tried our ice cream? Its delicious flavor will please—

Diner: "Waiter, are you sure this ham was cured?"
Waiter: "Yes, sir."
Diner: "Well, it's had a relapse."

Lem Podunk says: "A countryman may dress like a city slicker, but you can always tell him by the kitchen matches in his pocket."

Tim Wiseacre: "Is your wife changeable, old man?"
Jimmy Wisemore: "I've never tried—but I shouldn't think so."

Tim Prophet says: "Before marriage the man takes the girl to places. After marriage he goes with her."

On Account

A tradesman had difficulty with a doctor who was slow in paying his bills, so he put the matter in the hands of a collector. The man returned looking worried.

"What's the matter?" asked the grocer. "What did the doctor say when you asked him?"

"Well, replied the collector, "he said I wasn't looking well, then he examined my tongue, and finally he advised me to stay indoors for a couple of weeks."

See the home merchant first.

AMERICAN RIDGE NEWS

A program, including a one-act comedy, songs by the Johnson girls, and a reading was presented to a capacity audience at the school house on Saturday night. Players in the comedy are to be congratulated on their excellent interpretations, which were thoroughly enjoyed by the audience. George Davidson made a very convincing minister, and the part of his wife was very capably played by Minnie Cox. Lending comedy to the production were Martha Havens and Alice Cox as the inquisitive old church worker and her daughter. George Davidson, Jr., did an extremely nice characterization of the polished actor. The smoothness and finish with which the whole play was produced showed careful attention to details and conscientious rehearsals of the members of the cast. Following the play the Johnson sisters sang a delightful medley of songs. Mary Alice McIntosh read a clever, humorous story, "Here We Are." Proceeds from the entertainment were \$17.50—

Ted Davidson went to Spokane on Monday to complete his application for the navy.

On Monday evening Mr. and Mrs. Warney May entertained Mr. and Mrs. Norla Callison, Ben Callison and Mary Alice McIntosh at the dinner hour. Miss McIntosh was an overnight guest.
