

KENDRICK GAZETTE

VOLUME XXXV

KENDRICK, LATAH COUNTY, IDAHO, FRIDAY, JULY 3, 1936

NO. 27

HIGHLIGHTS OF THE WEEK'S NEWS DISPATCHES

Philadelphia.—Franklin D. Roosevelt was nominated by a shouting democratic national convention at 12:24 a. m., eastern daylight time, Saturday for another four years in the White House. By acclamation—foregoing the formality of a record vote for the first time since Wilson was so named in 1916—the convention welded in the heat of a final post-midnight demonstration the first half of the Roosevelt-Garner ticket of 1936. John Nance Garner, arriving on the scene of victory will be renamed at another session today for the vice-presidency.

San Francisco.—Ralph E. Crislie, 60, a bank collector, told police two men escaped with his satchel containing \$102,000 in cash and checks after severely beating him in the lobby of a wholesale grocery warehouse on Friday. Carlisle said the attack, first daylight robbery reported here in over a year, occurred about 2:10 p. m., after he had picked up \$30,000 in checks from the cashier at the warehouse, located in the south-of-Market street wholesale area. The collector, enroute to the Wells Fargo bank and Union Trust Co., said he saw the two men watching him as he came into the lobby, in which there were no other persons. "As I came to the bottom of the stairs, a shadow showed up and a man hit me on the head," Carlisle told officers. "Another fellow jerked the satchel from my hand."

Mize; Miss.—Sudden and unexpected wealth plopped into the lap of Main street's druggist produced excitement here Friday like which the inhabitants—all 429 of them—never before experienced. Perhaps the calmest man in town was R. W. Ford, to whose drug store the postman left a mysterious registered package of British government bonds amounting to \$142,625. "I don't know why they were sent to me," commented the 43-year-old Ford. "If they belong to me I'll build two brick churches here in Mize." His close friend S. C. Tanner, the postmaster, figuring "there might be a catch in it," advised Ford to send the bonds to postoffice inspectors at New Orleans for checking. This was done.

Coeur d'Alene.—Gov. C. Ben Ross stepped into a Scandinavian skillet Sunday in a speech at the annual Swedish festival by crediting Christopher Columbus with discovering America. The governor's statement drew a challenge from Warren G. Magnuson, Seattle, King county prosecutor. "It was the Vikings who discovered America," declared Magnuson, "and it should be up to the Scandinavians to put it straight again." The two public figures addressed a crowd at the seventh annual northwest Midsommarfest which Swedish leaders estimated at more than 5,000.

Washington.—With controversy in the relief high command composed, the administration sets forth on its third huge relief and public works program this week. Plans for separate programs employing more than 3,000,000 persons during the 12 months beginning July 1 were completed with announcement by Administrator Harry L. Hopkins that WPA wages would average \$52 a month. This rate was the same as that for March and about \$2 more than at the start of the WPA program last fall. Some reductions in working hours will result from formal institution of the prevailing hourly wage—to be determined by local administrators—this intended to prevent a worker from earning more than the maximum allowed under the "security" wage.

Dwyer-Schulze Wedding

Saturday evening, June 13 at six o'clock, Miss Cecelia Dwyer, daughter of Mrs. Thos. Dwyer, Genesee, and Mr. George Schulze of Portland, Ore., were married at the Holy Redeemer church by the Rev. Fr. Claire. They were attended by Miss Helena Dwyer sister of the bride, and Mr. Jack Dillon, a friend of the bridegroom.

Miss Dwyer was a graduate of the Genesee high school and of the Lewiston Normal. For the past three years she taught near Troy, Idaho. Mr. Schulze is the son of Mr. and Mrs. Paul Schulze, formerly of Kendrick, and is employed by a shipping company at Portland, where the newly married couple will make their home.

Parents Of Son

Mr. and Mrs. Sid LaHatt are the proud parents of an eight-pound baby son, born Friday, June 26. All concerned are doing nicely.

Stores And Banks To Close

Saturday, July 4th, will be something of a quiet day in Kendrick, with celebrations going on all about. The postoffice, both banks, all three grocery stores, hardware stores, the Gazette, and various other institutions will be closed all day, so better do your shopping Friday for the two days. For your convenience the stores will remain open Friday evening.

In addition to the above list, the Perryman Confectionery will be closed all day.

HARVEST BE LATER BY TWO WEEKS THIS YEAR

According to information gleaned among the farmers and warehousemen of this section, it is expected that harvesting of fall-sown wheat will start at least two weeks later this year than last, and that the spring-sown grain will be all of three weeks later than last season.

This year has been an ideal one for growth, with plenty of moisture and almost perfect temperatures. This moisture has caused a rather rank growth of straw in the spring wheat, but has assured well-filled heads in both fall and spring sown, and many farmers say they will harvest a fine crop if not another drop of rain falls until threshing season.

Some smut has been reported in the red wheat, but its extent or likely damage to the wheat cannot be ascertained at this early date. Oats and barley are likewise looking fine, and both yield and quality should be of the best.

Beans are likewise growing at a rapid rate, but it is far too early to tell much about them at this time. Too many things can happen to beans to even guess at yield, growth or harvest date at this time, but should present favorable conditions continue a good crop seems assured.

In the Juliaetta section the tomato and melon crop seems to be of the best, with every indication pointing toward a bumper yield with all the quality for which that section is famous. Sufficient moisture is in the ground, producers say, to assure a fine crop of both, even should no more rain fall.

The cherry crop in the Juliaetta section is all harvested at the present time. No packing was done there this year, and even though the quality was of the best, returns to growers were disappointing, many cherries having gone to waste on the trees, according to reports.

Marines Wanted

An enlistment of young men for the U. S. Marine Corps in the immediate future has been authorized to fill occurring vacancies, according to information received by Postmaster C. H. Daugherty from Capt. James B. Hardie, in charge of Marine corps recruiting activities in Portland.

These young men will be accepted mainly from the states of Oregon, Idaho, Wyoming and southern Washington, but young men applying from adjoining states will be considered. These men will serve as replacements on the far flung foreign shore stations, in navy yards, and on ships and airplane carriers of the U. S. fleet. Those qualified will also have an opportunity to serve with the Fleet Marine force, a specially trained organization for military duty with the fleet and said to be the finest in the world.

Applications for enlistment are invited from young men who are interested in the opportunities of travel, adventure and education with the marines.

Detailed information may be obtained from postmaster Daugherty or from the U. S. Marine Corps recruiting station, 208 U. S. Court House, Portland, Oregon.

Annual Kendrick Picnic

The annual Kendrick picnic is scheduled to be held at Woodcraft Park, Pullman, Washington, on Sunday, July 12, according to an announcement received from Bob Shumaker, president.

All residents of Kendrick, old and new, are requested to bring their picnic baskets and attend—And bring any number you can for the program.

On Fishing Trip

F. M. Long, Tommy Keene, Floyd Crocker and the George Brocke family spent Sunday on Buzzel creek fishing. They report a good catch, but the size ran about 8 and 9 inches in length. The road is reported to be in very poor condition, deep mud-holes providing splendid resting places for cars.

SIGN UP FOR NEW SOIL PLAN EXCEEDS THAT OF OLD AAA

Surveys made in the 41 county agricultural conservation associations, embracing 43 counties, reveal 4273 work sheets on file and a total estimated sign-up of 22894 farm units, according to the extension division of the University of Idaho college of agriculture in reporting satisfactory progress in operation and administration of the 1936 agricultural conservation program, of which Dean E. J. Iddings is director for Idaho.

Organizations have been completed in most of the counties comprising the 41 associations and the committeemen in this locality have about completed a program of assistance in filling out work sheets and giving instructions as to the proper time to plow under green manure crops. Work sheets filed will be used as the basis for future application of grants for the growing soil-conserving crops and initiation of soil-building practices.

The state committee is of the opinion that when the books are finally closed on the conservation program the total farms involved will exceed by about 20 per cent the number signed under the old wheat and corn hog programs.

It is expected that the procedure for inspection will involve a check-up on the acreage devoted to various soil conserving crops according to the docket classification in addition to the quantity and quality appraisal of the crops devoted to soil conserving or soil building purposes. At the present time the policy provides that as soon as the farmer has determined the approximate date of plowing under green manure crops he is provided with a form with which to report his proposed performance to the county office.

The county office assembles these producers' reports into districts and forwards them to the community committeemen of the respective districts, who will make a visual inspection of the crop or practice and report as to name of crop, date of seeding, percentage of stand and height of crop which is being or is to be plowed under for soil building or soil conserving purposes. This visual inspection on the part of the community committeemen, while important as a matter of record and fact, is thought to be incidental to the final check later this season which involves the measurement of such land.

Work Progressing

Work is progressing very nicely on the remainder of the city pipe line project, some 100 yards of ditch yet remaining to be dug. With its completion, the renovating of the city water works system for this year will be complete, crews under Edgar Long having dug better than two miles of ditch this year and installed new pipe therein, this project including the coupling up of the big Stanton spring, with a flow of 24 gallons of water per minute, to the city system.

The latter end of the big project is the installation of some 1,600 feet of six-inch cast iron main from the N. E. Walker home to the Sperry crossing. With this complete, and the installation of needed hydrants, Kendrick's fire fighting ability will be considerably increased. All of this affects fire insurance rates, and these in turn affect the pocketbook. The big main is replacing four-inch and three-inch pipe, which will probably be used elsewhere in the city system.

Road Work Starting

Road work is starting in earnest on the Wauncher gulch project under Goodfellow Brothers, contractors. One of their big compressors being started Tuesday morning, and men added as the work progressed.

This work, due to the narrow road, necessitates the closing of the grade, and all traffic will be detoured via Sperry grade.

Work is going forward at a good rate on the Arrow-Juliaetta link, with traffic permitted to pass only on the hour. So if you are Lewiston bound, be there on the hour, or wait until the next one—no fun these hot days.

Work on the Cedar Creek road is also going forward at a good pace—with back-fill and culvert installation the main item at this time. This road link (in the rough) no stretches from the Long slaughter house and feed yard to the L. A. Bartlett place, or the Pine creek road. No date of completion has yet been set.

The law may give pedestrians the right-of-way, but it makes no provisions for flowers.

FOREST SERVICE ACQUIRES CUT-OVER LAND IN IDAHO

Acceptance by the secretary of Agriculture of title to 520 acres of cut-over forest lands in Boundary County, donated to the United States by the Bonners Ferry Lumber Company, is announced by Regional Forester Eyan W. Kelly, of Region One of the Forest Service.

The land, which once supported a fine stand of merchantable timber, is valuable principally for timber production and has been added to the Kaniksu National Forest. Under National Forest administration and protection, the lands will be put to the best use of which they are currently capable as are all other National Forest lands.

In the course of time, under management and protection from fire, the land will bear another crop of timber, the harvest of which will provide employment for men both in the forests and in the industries dependent upon the forests. In connection with other National Forest Lands, the harvest will be on a sustained annual yield basis to stabilize the employment and the communities which subsist by reason of that employment.

This latest donation brings the total of accepted donations from various landowners in northern Idaho to 186,000 acres. Another 77,000 acres, title to which has not been formally accepted, have been donated. Some of these lands have been donated by the counties, to which they had reverted because of tax delinquencies and the counties' inability to protect and develop them. All of the donated lands are incorporated into the present National Forests.

The counties in which the donated lands are located benefit by the donations, aside from the harvest of the future timber crops. The Forest Service policy of making fullest use of the land on sustained yield basis means that, among other things, there will be forage for wildlife and for livestock, and watersheds will be protected for the benefit of the communities dependent upon the streams and rivers for their water supplies. Local labor is given work by the Forest Service for administration and development of National Forest lands and their protection from fire, insect ravages, disease and trespass.

During the current spring about 6,000 acres of burned-over land were planted to forest trees.

The counties in which the National Forests are located have a vested interest in twenty-five percent of all receipts from the lands for their roads and schools. An additional tenth of the receipts is set aside for construction by the Forest Service of Forest development roads.

Northwest On Parade

The Kendrick Commercial club has received and accepted from the Davenport Hotel, Spokane, an invitation to take part in their annual presentation of "Northwest On Parade," presented over station KGA Spokane, Monday, July 13, from 9:00 to 9:30 p. m.

George P. Barnum, president of our Commercial club has been selected to represent us, and as this is the night of the Commercial club meeting, a radio will be installed in the Raby Hotel dining room in order that all may hear.

Remember the date, Monday, July 13—the time 9:00 to 9:30, and have your own radio tuned in at home.

Public Debt Be \$34,000,000,000

Carefully gauging the amount to be paid on the bonus this month, treasury experts today estimated the fiscal year would close June 30 with a public debt a few million short of \$34,000,000,000.

They figured that of 3,500,000 veterans eligible to the bonus, some 2,500,000 would receive their checks and bonds during the last two weeks of June, involving an outlay of \$1,700,000,000. This would be reflected also in the deficit.

They declined to hazard any opinions as to what the latter figure might be. However, at the close of business June 1, it stood at \$2,969,000,000. Adding the \$1,700,000,000 to that figure produced a sum of \$3,669,000,000. This would be increased by the amount that June expenditures exceed June revenues.

Dairying, says the Dairymen's League News, is taking an increasingly important place in agriculture. In recent years, that industry has produced 20 to 25 per cent of all agricultural income; in 1934, dairying income was more than the total income from wheat and cotton.

On Huckleberrying Expedition

Mrs. Wm. Watts, Joe and Bob, Mr. and Mrs. W. B. Deobald and family and Mrs. E. A. Deobald and family spent Monday on a huckleberrying expedition into the Elk River section. They exhibited 30 gallons of fine big berries as a result of the trip. The berries are said to be ripe in some sections, and very green in other, probably due to deep snow and slow melting, varying with location.

THIS, THAT AND THE OTHER ABOUT FRIENDS

Chas. Bidgood returned Monday from California, where he has been the past year or more. He plans to remain here for a couple of weeks and then go to visit his parents in South Dakota.

Mr. and Mrs. Herman Schupfer and Beverly returned Friday evening from a three-weeks' trip to California. They visited the San Diego exposition and other points of interest while away.

Mr. and Mrs. Carl Wasmuth of Chicago, Ill., came last Thursday to spend several days visiting Mr. and Mrs. F. H. Rider. They left Monday morning for Spokane.

Mr. and Mrs. Wm. Bartlett of Gifford spent Sunday here with their daughter and son-in-law, Mr. and Mrs. R. L. Blewett.

Mr. and Mrs. Oliver Bergsberg of Orville, Wn., are visiting Mr. and Mrs. Gust Lukens, here. They arrived last Friday, leaving Wednesday morning.

Mr. and Mrs. F. H. Rider and Miss Allene Rider and Mr. and Mrs. Carl Wasmuth drove to Orofino Friday afternoon, where they spent the time renewing old acquaintances there. All are former residents of that place.

Mr. and Mrs. W. L. McCreary drove to Spokane Sunday, bringing Patty home, after a week's visit there. Henry Emery returned last Thursday from a vacation trip of three weeks that took him to Spokane, Cheney and Marlin, Washington.

Oscar Hartung and Roy Ramey, Jr., start a couple of days the forepart of the week at home, before returning to their construction work near Winchester.

Mr. and Mrs. Harold Thomas and family left Monday for a week's business trip at the coast. Portland and Seattle are to be visited.

Mrs. Stewart Compton and children of Lewiston are here visiting with Mrs. Compton's parents, Mr. and Mrs. N. E. Ware.

Mr. and Mrs. Sam Nesbit and family of Los Angeles are here visiting his brother and family, Mr. and Mrs. B. F. Nesbit.

Wade Keene and daughter, Miss Maxine, drove to Moscow Friday evening to get Miss Alma Kaeser of Twin Falls, who is attending summer school at the U. of I. She spent the week-end at the Keene home.

Mrs. Ethel Emery left Tuesday for Lewiston to be away several days.

Mr. and Mrs. B. F. Nesbitt took Sam Nesbit to Avon Sunday, where he will visit another brother.

Mrs. Arthur Dawald was in town Tuesday.

Barbara Jean Long is visiting on Little Bear Ridge at the home of Eileen Benjamin.

Mr. and Mrs. Ben Cummings and daughters spent Sunday in Troy visiting Mr. and Mrs. Paul Carlson.

Dick Carlson of Spokane is visiting with his uncle, Ed. Carlson, in Juliaetta, and with Frank Homer Rider, this week.

Mr. and Mrs. Roscoe Hall and two children of Payette were here last week visiting their cousin and family, Mr. and Mrs. Wade Keene.

B. Thompson, who has been here visiting in the home of his son and family, Mr. and Mrs. H. B. Thompson for the past month, left Monday for his home in Pullman.

Mr. and Mrs. C. E. Mitchell of Moscow spent Sunday with their niece and family, Mr. and Mrs. J. M. Lyle, Jr.

Mary Adams of Moscow was in town visiting Wednesday.

Car Plunges Into Ditch

Sunday night, a Ford car driven by a worker in the Three Bear lumber camps plunged into a ditch prepared for a culvert on the new Cedar creek road, in the darkness missing the detour. The car was quite badly damaged and the driver somewhat scratched and bruised. It was taken from the ditch Sunday by Ed. Deobald.

Don't let your auto get excited at the corners. Having your address at a hospital is no fun.

GRAIN MARKETS FIRM DUE TO DETERIORATION

Grain markets continued firm during the week ending June 26, with further deterioration in crops the principal strengthening influence, according to the Weekly Grain Market Review of the U. S. Bureau of Agricultural Economics. Wheat made sharp gains early in the week but the advance was checked toward the close with showers and cooler weather in sections of the spring wheat belt, more favorable prospects in Canada and increased purchases of Canadian wheat for import. Heavy early marketings of new winter wheat tended to weaken the cash situation.

Serious damage to the domestic spring wheat crop from continued drouth was the outstanding feature in the wheat market. High temperatures and hot winds added to the drouth injury and made recovery uncertain even should rains occur. Trade forecasts placed the harvest only a little above last season's output. Wheat was largely beyond recovery in South Dakota except in the southeast and small grains were reported a complete failure in middlewestern counties and parts of the Red River valley in Minnesota. The crop is generally poor in North Dakota although some good crops are reported locally. North Dakota has had only about one-third of normal rain-fall since the first of April, eastern Montana and northern Minnesota less than half or normal and other northwestern sections only slightly more. In the winter wheat belt, late fields of wheat have been badly damaged in the eastern half of Kansas and considerable toll has been taken in Nebraska by hot dry weather especially in central counties.

Prospects for spring wheat in Canada are much more favorable than in the U. S. with good rains received over most of Saskatchewan and east central and northeastern Alberta. Early sown wheat fields are almost generally in the shot blade across the southern prairie but wheat is heading out short in some of the dry sections. Prospects vary considerably, with light crops expected in southern Manitoba, extreme southeastern and most of western Saskatchewan and in east central and northeastern Alberta. Over the remaining area, growth has been fairly normal, although late-sown fields are uneven and have suffered somewhat from lack of rain at a critical period. Grasshoppers are reported under good control almost everywhere except southwestern Manitoba.

Crop prospects in Europe show no important changes but trade agencies forecast a harvest about 80,000,000 bushels under the 1935 harvest, based on present conditions with decreases principally in countries having moderate carryovers. Domestic cash wheat markets did not follow the full advance in futures as increased marketings of winter wheat and prospects of further importation of Canadian grain tended to lower premiums. Marketings of winter wheat increased sharply with a total of 5,534 cars at the principal markets compared with only 1,497 cars for the corresponding week last year. The quality of the early receipts was exceptionally good with the bulk grading No. 1 and No. 2, with high test weights, low moisture content and protein average close to 13%.

At Fort Worth, new crop No. 1 hard winter 13% to 14% protein was quoted at \$1.11 delivered Texas common points. Cash premiums were lowered about 3c per bushel at Chicago with the arrival of the first new wheat and slackening in demand. No. 2 hard winter was quoted in that market at 96½c-\$1.01, soft winter wheat was relatively firmer than hard winter, with No. 2 quoted at St. Louis at 97-99c, at Chicago at 97½c to \$1.01 and at Kansas City at 94½c-96½c per bushel. The first new crop wheat of the season was received at St. Louis during the week but demand was limited with the local mills hesitating to pay existing premiums.

Marketings of spring wheat were moderate with 492 cars received at Minneapolis and 88 cars at Duluth. Milling inquiry was principally for better weight grain containing 15% or more protein. Prospects of increased importations of Canadian wheat tended to weaken cash premiums towards the close of the week when fairly heavy shipment of over 64,000 bushels of No. 4 Canadian western amber durum was received at Duluth during the week. The protein of the inspections at Minneapolis averaged 14.75% with a high of 20.9% and a low of 6.7%. Receipts included about a dozen cars of new winter wheat

(Continued on Inside)

PEACE-TIME PATRIOTISM

Individual, Community, National Prosperity

We hear a lot about the general prosperity of our nation.

But the first step toward national prosperity is community prosperity, and this is made possible largely through cooperation among its residents.

Every citizen should strive to do his bit toward making the community a better place in which to live. Our community pride and progress will not only benefit the country as a whole, but will give us, as individuals, a greater measure of comfort and happiness, which is the goal of human existence.

It has been pointed out by well-known civic authorities that communities are not built through mass effort, but through the combination of individual efforts—and co-operation.

To benefit our community, we must put forth our best individual efforts every day in the year. Successful and faithful individuals make a prosperous community.

Next to love of home and family should come love of community, state and nation. In time of war we call love of country patriotism — in peace it is none the less.

We are prompted to sponsor this message to the people of Kendrick and vicinity through our interest in community welfare.

GOLDEN RULE

Mrs. Emma Betts is on the sick list. Her granddaughter, Odetta Betts, has been assisting with the work the past week. She is now staying at the home of her son, Mr. and Mrs. Homer Betts.
Irene Martin spent a few days at

the J. E. Hoppe home the early part of the week.
Mrs. Carl Finke and son are staying with her parents, Mr. and Mrs. N. E. Ware at Kendrick, for a few days. Mrs. Finke is on the sick list. Mrs. Eva Clark and son, Howard Starr, went to Lewiston Thursday to spend a few days.

Betty Ballard went to Grangemont to spend the week-end with Betty Frear.
Mr. and Mrs. Ben Reece of Teak-ean spent Sunday at the Chas. Smith home.
Mrs. Denzil Hunt and children visited at the Elmer McCoy home for a few days the past week.
Mr. and Mrs. Robert Franklin of Kellogg spent Saturday night at the Glen Betts home.
The Cowger families, accompanied by Lucille and Raymond Smith and Mrs. Ola Betts and children, attended the circus at Lewiston Saturday.
James Kyle from Oregon called at the Glen Betts home Saturday. He was on his way to Spokane. He also stopped at Gold Hill and Crescent to call on friends.
Mr. and Mrs. Abner Cowger ate dinner at the W. A. Cowger home Sunday. In the afternoon they all attended the ball game at Southwick.
Mrs. Eldie Hunt is enjoying a visit from her sister and son. They arrived from California this week.
Mrs. Mabel Werick of Lewiston spent Sunday at the Martin home.
Roy and Loy Martin came home Thursday to stay until Sunday after the 4th, then they will return to their work in the woods.

Many June grooms are already looking for the guy who started that stuff about two living as cheaply as one.

CHURCH NOTICES

Kendrick Community Church
T. Earl Poindexter, Pastor
Kendrick:
Sunday School at 9:30.
Morning Worship at 10:30.
Come and worship on "Independence Sunday," if you are still at home. Bring your friends.
Bring your family and come to Epworth League Institute, at Camp Grizzly, July 13 to 20. Every young person who is not working should plan to attend. Arrangements will soon be completed for camping equipment. If families plan to go, let us all plan together. See the pastor.
American Ridge:
Sunday school at 10:30.
Morning Worship at 11:45.
Full Gospel Mission
Sunday school at 10:00 a. m.
Preaching at 11:00 a. m.
Church Service at 7:30.
All are cordially invited.
Prayer meeting Wednesday evenings at 7:30.
The Lutheran Church
T. A. Meske, Pastor.
Cameron, Emanuel:

English service at 10:30. Theme: "Be Ye Merciful Even As Your Father Is Merciful."
Community M. E. Church—Julietta
Frederick O. Sapp, Pastor
Church School at 10:00 a. m.
Young People's at 7:00 p. m.
Preaching Services at 8:00 p. m.
Preaching will be at Arrow at 11:00 a. m. on each 2nd and 4th Sunday—At Sweetwater each 1st and 3rd Sunday.
Revival Meetings At Southwick
Freeland Whybark, Pastor
U. B. Church, commencing Sunday, July 5. Different speakers. Thos. O. Weatherby speaks Sunday.
Bible school Monday at 9 a. m. under direction Prof. A. M. Calvert.

3 1/2 PER CENT RATE ON LAND BANK LOANS

Temporarily reduced interest on Land bank loans will continue for one more year at 3 1/2 per cent to all members of national farm loan associations, President E. M. Ehrhardt of the bank at Spokane was informed today by Land Bank Commissioner A. S. Goss of Washington, D. C.
Commissioner explained that President Roosevelt signed a bill June 25 extending the temporary 3 1/2 per cent rate until June 30, 1937, on all loans which have been made through and guaranteed by national farm loan associations. Borrowers who have obtained loans direct from the bank will pay a reduced rate of 4 per cent until June 30, 1937.
"Continuation of the 3 1/2 per cent rate for another year to national farm loan association members takes the place of 4 per cent rate that would have prevailed for the coming year and the succeeding year," Commissioner Goss wired president Ehrhardt. "Under the law as now amended Land bank borrowers on July 1, 1937, will resume interest payments at the rates at which their loans were originally written."
"Farmers who obtain loans now at the prevailing 4 per cent contract rate will also get the benefit of the 3 1/2 per cent temporary reduction for all interest installments payable in

the one-year period ending June 30, 1937, but after that date will pay 4 per cent for the entire duration of their loans."
The temporary interest reduction applies on approximately \$2,000,000,000 of loans which have been closed through national farm loan associations during the nearly 20 years the Land bank system has been in operation. It effects a substantial saving for nearly 40,000 northwest farmers who have financed their mortgages cooperatively through the Land bank of Spokane.

More Glad News!

A headline in a daily paper of Saturday said: "Whiskey Stock Up To Pre-War Level."
This should be glad news to the thirsty, as evidenced by the following item:
The treasury has reported stocks of bonded whiskey have been built up to a level exceeding the pre-prohibition average.
At the end of January, a total of 221,601,628 tax gallons were in bonded warehouses throughout the country in contrast with a round figure average of 200,000,000 gallons before the passage of the 18th amendment.
The pre-prohibition peak of 278,000,000 gallons was established in June of 1914.
See the home merchant first!

Unusual Picture At Theatre
 The Kendrick Theatre this week presents a rather unusual picture of the west entitled "Stormy."
 It is the amazing story of a ranch girl, a daring youth and his lost colt pal—and must not be confused with the regular run of "western" pictures.
 Noah Beery, Jr., Jean Rogers, Fred Kohler, Raymond Hatton and Walter Miller form the center of the cast.
 It all begins when a train wreck gives a blooded colt into the hands of a wandering youth and his rancher friend, and the steps he takes in the training and care of the colt and the wild horses with whom it runs—together with a delightful love story makes this picture an unusual and interesting one.
 There are also the usual shorts and the serial.

Call For Bids
 The trustees of Steele School, District No. 32, and the trustees of Taney School, District No. 38, both on Big Bear Ridge, will receive bids for transportation of pupils from said districts to Kendrick for the school year of 1936-1937, bids to provide for modern busses of any standard type.
 Bids will be opened July 18, 1936, at an open meeting at the Taney schoolhouse, where they may be discussed by trustees and bidders.
 The trustees reserve the right to reject any or all bids.
 Trustees of Dists. 32 and 38.
 27-3

 You can buy it as cheap in Kendrick.

GRAIN MARKETS FIRM DUE TO DETERIORATION
 from Kansas to be applied on previous purchases.
 Present spring wheat premiums favor increased movement of winter wheat to the northwest. At the close of the week, 58lb. No. 1 dark northern was quoted at Minneapolis at 9c-25c over the July price. Durum wheat advanced more than bread wheat with the Duluth July up 5c per bushel. Domestic offerings of good milling durum were negligible, and local mills at Minneapolis were securing their requirements principally from Canada.
 Intermountain and Pacific Coast markets strengthened largely as a result of gains at eastern points. Mills at Ogden advanced prices of soft white wheat 80c per bushel, No. 2 hard white to \$1.02, No. 2 northern spring to \$1.04, and No. 2 hard winter to 92c per bushel, FOB Utah-Idaho common points.
 Offers to growers were around 78c per bushel but trade was light until the close of the week when offerings increased.
 The Portland market closed only slightly above a week ago with cash prices relatively weaker than futures. Local mills provided about the only outlet and demand was therefore limited. Country marketings remained light and receipts at Puget Sound and Columbia River terminals totaled only 283 cars. Conditions continued generally favorable in the Pacific northwest with a normal crop in prospect. At the close of the week, 13% protein hard white (bluestem) was quoted at Portland at \$1.17, with 12% protein dark hard winter at \$1.01, with soft white and western white at 84c, hard winter, northern spring and western red at 82½c per bushel, basis No. 1 sacked.

California wheat markets advanced about 5c per 100, influenced principally by strength at eastern markets, although higher barley prices were also a contributing influence. Harvesting made good progress in the San Joaquin Valley and threshing was becoming general in the Sacramento Valley at the close of the week.
 Pacific northwestern oats markets reflecting the strength in the central wets and upward trend in other grains. The crop in the Willamette Valley continued very favorable, according to trade reports. Four carlots of oats were received at Portland during the week but light offerings by growers and only a moderate demand restricted trading. On June 25, No. 2 white oats were quoted at Portland at \$1.17½ to \$1.20 per 100, sacked.
 Pacific northwestern barley markets developed strength reflecting principally advances in middlewestern and California markets, together with a firmer situation in other grains rather than from any increased inquiry for local offerings. Demand from all classes of trade was dull and no carlot receipts of barley were reported at Portland during the week. Prices were quoted around 5c per 100 over a week ago, with No. 2 bright western testing 45 lbs. quoted at Portland during the week. Prices sacked, while eastern Washington white barley was quoted at \$1.17½ per 100, sacked.

FIX RIDGE
 Adolph, Martha and Ernest Denner and Omie Weaver went to Lewiston Thursday after cherries.
 Mr. and Mrs. S. S. Taber and family went to Lewiston and Moscow Thursday of last week.
 Elsie Denner of American Ridge was home for a few days last week.
 Mr. and Mrs. Caus Clark and family went to Lewiston Saturday.
 Wallace Kimberling was visiting relatives on the ridge last week.
 Mr. and Mrs. Ralph Richardson and daughters went to Moscow Saturday.
 Mrs. S. Hutchison and son Wallace and Mrs. J. Woodruff called at the Robert Hall home Sunday.
 Mr. and Mrs. S. S. Taber and family went to Gold Hill Sunday.
 George Denner, Sr., went to Kendrick Tuesday on business.
 Mr. and Mrs. Jack Fix were Lewiston visitors Tuesday.
 The Denner Bros. went to Genesee Tuesday.
 Mr. and Mrs. Jack Fix left on Wednesday for Twin Falls, Idaho, where Jack has a pastorate appointment.
 Emma Denner returned home from Douglas, Wn., where she has been visiting for the past few weeks.
 Mr. and Mrs. Caus Clark went to Lewiston Tuesday on business.
 Jacky and Clinton Clark visited with Omie Weaver Tuesday.
 Mr. and Mrs. Ira Fix went to Lewiston Tuesday.
 Mr. and Mrs. Ralph Richardson and daughters and Mrs. Robert Hall were Lewiston visitors Wednesday.

Ladies Aid Party
 The party given by the Ladies Aid last Friday afternoon in the park was a big success. Games were played and refreshments were served to about 70 including children. Everyone had a good time and hope this will be an annual affair.

The Most Dangerous Places
 The most dangerous place you can be in the ordinary course of existence is in an automobile. The second most dangerous place is in your home.
 These deductions are made from figures recently released by the National Safety Council, covering the accident record during 1935, when accidents caused more than 100,000 deaths. Automobiles accounted for 37,000 of the total—an all-time high record—and home accidents for about 31,000.
 It is a sad commentary on the habits of the American people that easily avoidable home accidents cause more injuries and deaths than industrial accidents. The average American industry has made astonishing strides in reducing both the frequency and severity of accidents. Part of this achievement followed better guarding of machinery. But the most important cause of the reduction was the instillation of a philosophy of carefulness in the workmen.
 At home and on the road, the man who wouldn't think of taking a chance at his work, apparently feels free of such "inhibitions." The driving errors that cause motor accidents are well known. Not so well known are the principal causes of home accidents. Falling out of windows, slipping in the bathtub, falling downstairs, tampering with electrical equipment—these are sources of thousands of deaths and injuries each year.
 These figures should make you think—and think more than once. The hospital and the morgue await those who are thoughtless, careless and reckless.

Kendrick Loses Scalp
 The Ahsahka Indians displayed the best brand of ball seen yet this season, when last Sunday they took the locals into camp, to the tune of 8 to 2 at Juliaetta.
 Corbett for Ahsahka pitched steady ball, whiffing 15 Kendrick batters, Meske and Flesman sent 10 back to the bench. Ahsahka collected 12 hits and made 2 errors while Kendrick got 5 hits and made 8 errors.
 Kendrick's 2 runs came in the 8th when Flesman connected with one of Corbetts fast ones for a home run with a runner ahead of him.
 Result of other games, Southwick 14, Slickpool 1, Culesac 11, and Gifford 6.

League Won Lost Percent

Ahsahka	3	0	1000
Southwick	4	2	666
Kendrick	3	2	600
Gifford	2	3	400
Slickpool	1	3	250
Culesac	1	4	200

TEAKEAN GOSSIP
 We are having nice weather here again and farmers are taking advantage of it and making hay while the sun shines.
 Rev. and Mrs. Metcalf and children of Leland were visitors at the Wm. Groseclose home Monday. They took a trailer load of wood back with them.
 Carroll Groseclose visited with Clarence Herring Sunday afternoon.
 Mr. and Mrs. Ed. McGuire and sons of Portland, are visiting friends and relatives here and at Cavendish.
 Mrs. Eva Clanin, Wayne and Bobby Lind were dinner guests at the home of Mr. and Mrs. Elwood Brock last Sunday.
 A grange meeting was held at the school house last Saturday evening. There were eight new members initiated. The membership is growing very fast.
 Mrs. M. O. Raby and Paul Lind of Kendrick were business visitors here Monday afternoon.
 Rev. A. L. Metcalf will preach here at the school house next Sunday afternoon.
 Mrs. Anna Harless has returned home after spending several weeks in Spokane.
 Ray Harless is well again after a severe siege of pleurisy.

200-Mile Jaunt On Gallon Of Gas
 Two hundred miles on a gallon of gasoline is the record actually accomplished by an ordinary passenger automobile, equipped with a new carburetor invented by C. N. Pogue, of Winnipeg. Experiments with the new device have been conducted over a period of 16 years. Satisfied that the invention is practicable, a number of Winnipeg business men have formed a syndicate to finance an organization to market the accessory. Patents have been taken out in Canada, the United States, Great Britain and other countries.
 The latest test was made in Winnipeg on a day when the temperature was 10 below zero, with a stiff north wind blowing. An 8-cylinder coupe traveled exactly 26.2 miles on a measured pint of gasoline (imperial measure) which is about one fifth larger than the American gallon.
 At this rate, it is estimated, a tank full, 10 or 12 gallons, will suffice the ordinary motorist for a whole summer's driving. The gasoline bill of American motorists, which totaled about \$4,000,000,000 in 1934, would be cut to about a tenth of this amount by the use of this new carburetor, or about \$4,000,000.

EDITORIAL

Well, folks—The hot weather still continues—and we don't know just when it will end—but if it doesn't crawl too high, we can live. Politics don't help the heat any, either, and they won't cool off until November.

By the way—you'll find our ice cream mighty tasty to top off a meal these warm days. Put up in sealed containers—full measure and assured purity. Try it.

Why bother to churn these hot days. Bring your cream to us and let us do the work. You're sure to like our butter.

Customer (in drug store): "I want to buy a plow."

Clerk: "I'm sorry, sir, but we don't carry plows."

Customer: "This is a hell of a drug store."

"Captain, is this a good ship?"

"Why, madam, this is her maiden voyage."

History Prof: "Who was Talleyrand?"

Student: "A fan dancer, and cut the baby talk."

Have you tried our ice cream?? You'll like it.

HAPPENINGS AT CAMERON

Mrs. Ida Siffow, Mrs. Ida Stoneburner, Mrs. Henry Wendt, Miss Emma Hartung and Miss Ella Denler called on Grandma Brammer and Mrs. Heitman Thursday afternoon.

Marjorie Wendt is on the sick list this week.

SOUTHWICK NEWS NOTES

Lewiston visitors Thursday included Mrs. Eva Clark, Howard Starr, Ike Zeiman, Claude Kime and Wilbur Van Allen.

Mrs. Herman Smith visited Thursday and Friday at the George Wells home in Cavendish.

Mr. and Mrs. Howard Southwick and family spent Sunday at the Roy Southwick home.

Harry Thompson and family of Lewiston were Sunday guests of Mrs. Hattie Jones.

Mrs. Oscar Holmes spent several days last week visiting at the Russell

Rodgers home.

Mrs. Mattie Hayward is visiting at the Cecil Hayward home in Lewiston. Grandma Betts is staying with Mr. and Mrs. Homer Betts now as her health is very poorly.

Raymond Smith worked for Zeiman last week.

Mr. and Mrs. Ed Reese and son of Cavendish visited at the Bert Card home Saturday.

Several went to Lewiston Saturday afternoon to see the circus.

Mrs. Dolph Shoemaker and children of Sweetwater visited Sunday and Monday with her daughter, Mrs. Claude Kime and Mrs. Herman Smith. Mr. and Mrs. Wilmer Hanks and children spent Sunday at the Lena McCoy home. Mrs. Abner Cowger and son and Dorothy Miller called in the afternoon.

The baseball team is busy building a pavilion where the old store burned and there will be a big dance the 4th of July. Also a picnic and entertainment during the day, including a ball game.

CRESCENT CLIPPINGS

Mr. and Mrs. J. E. Long have been staying with Mrs. Julia Ekman while their new home is being erected back on the homestead. Mr. Wm. Kauder of Southwick is helping with the work.

The Darby mill was closed Friday and Saturday until more logs could be brought in.

Miss Helen Winegardner who has been helping W. R. Johnston with Bible school, returned home Monday evening.

Mrs. John Darby was called to Spokane Thursday by the death of her sister's husband, Roy Drury. He was reared at Taney and was well known in Kendrick, by the old timers. Miss Edna Kimbley is helping Mrs. Bert Kloster this week, while her sister Miss Irene, is taking her vacation. Miss Irene is visiting at the home of Mrs. Rose Farrington.

Mr. and Mrs. L. A. Watson and son visited Sunday at the Axel Swanson home.

Mr. and Mrs. Bert Kloster and daughters and Mr. and Mrs. John Darby and daughters attended the U. B. convention at the Gold Hill church Sunday evening. Mr. and Mrs. Dick Winegardner were there in the afternoon.

Mr. and Mrs. L. A. Watson and son were Lewiston visitors Saturday. While there, Mr. Watson went to a doctor about his leg which had been hurt while working in the woods. He wasn't as badly hurt as at first was feared.

LINDEN NEWS ITEMS

U. B. Church Conference

The Conference of the U. B. church, held at the Gold Hill church, June 21 to June 28, was enjoyed and greatly appreciated by our people.

Bishop L. B. Baldwin, D. D. of Corvallis, Ore., Rev. Jesse E. Harwood, D. D., of Huntington, Indiana, Miss Effie Hodgebloom, a returned missionary, were the chief speakers, besides others high in church circles. Our Presiding Elder, C. E. Lichty of Twin Falls, was present with a large delegation from there, as were also good-sized delegations from each church in the conference.

Four young men, all students of Huntington College, Indiana, were ordained as ministers.

An unusually large crowd attended from the different places, making the largest conference held in Idaho. Much praise was given Mrs. Mattie Garner and her helpers in serving an average of over 100 people each meal from Wednesday evening until Monday at noon.

James Ball returned to Spokane Thursday after visiting a few days with his daughter, Mrs. C. E. Harris and old neighbors and friends on the ridge.

Paul Risley and daughter Marjorie of Palouse, visited at the Smith home Friday evening. Mrs. John Heitzman and daughters of Seattle returned home with them.

Mrs. Ethel Dicks is enjoying a visit with her old time friend and neighbor Mrs. Fall of Cragmont. They have not met for thirteen years.

Mr. and Mrs. Ed Kent and daughter Kathlyn have moved near Bovill where Mr. Kent has work in the woods.

Mr. and Mrs. Clarence Jenks and friend of Moscow visited Mrs. Ellen Starr on Sunday.

Suffering From Bloodpoisoning

Charles Cox is nursing a badly infected right hand and arm these days, blood poisoning having set in as the result of a small cut acquired in his sawing work for Potlatch Forests.

Charley said that he expected to go back to work the first of next week. His hand and arm are very sore at this time, however.

It becomes increasingly noteworthy how many who were once convinced that two could live as cheaply as one are now finding out that even one can't do it.

This Store Will Be Closed All Day, Saturday, July 4th

Do your shopping Friday for your Saturday and Sunday needs. We will be open Friday night for your convenience.
