How Much?

One of the bitterest struggles looming on the battlefield of the 75th Congress, has to do with this year's spending of relief money.

When the President gave out his suggestion that \$500,000,000 would be required, as a new appropriation, to suffice until June 30, he drew fire from several directions.

Practically all members of both houses were given to understand before leaving home, that something must be done about the mounting tax burden.

Senator King (D-Utah) says that such a sum as the president mentions is "unnecessary." King advocates "reducing overhead" and apply ing "economy." In his opinion, states should absorb a growing proportion of the burden and not more than \$300,000,000 should be appropriated at the present time. All agree that

Senator Carl Hayden (D-Ariz.), chairman of an "unofficial" but powerful committee, has already notified him that such patronage as he has dispensed in the past is soon to be taken out of his hands.

"It has become my duty to advise you that you will in all probability be deprived of the patronage positions now assigned to you," says Hayden in a letter to Holt. The only answer made by the youthful senator was: "I see the era of good feeling has, begun."

Federal Income Tax Blanks

Eighteen thousand Federal income tax blanks were mailed Monday, January 4, to Idaho taxpayers who are required to file Federal returns for the calendar year of 1936. These blanks are now ready to be mailed days. You are cordially invited to from the office of the collector of internal revenue at Boise.

Envelopes containing the forms have been addressed to all Idaho citizens who filed Federal income returns for 1935, and it is expected that many others who never filed before, will be required to file returns for 1936 due to the general increase of incomes during the year.

Taxpayers who do not recieve forms through the mail must secure them from the collector of internal revenue at Boise, or from deputy collectors located at Coer d'Alene, Lewiston, Twin Falls, Burley, Poca tello and Idaho Falls. Failure to recieve forms is not accepted as an excuse for failure to file a return.

All unmarried persons who recieved an income of \$1,009.00 or more during 1936 must file Federal returns and all married persons whose inome was \$2.500.00 or more must file regardless of the fact that credit for dependent children may make some returns nontaxable.

All corporations and all partnerships must file, regardless of the amount of income.

Are You Getting Ahead At Farming? You can't trust your memory to tell

you. Only a series of farm inventories -one taken each year-will do the trick. Today it is impossible to recall just how well off you were a year ago. County agent G. T. He says that it is difficult for one to estimate even his present financial status without some kind of inven-

Any farmer who wishes to take an inventory can secure, free from the county agent's office, a form that He-I spotted you bathing this will help him. Mr.McAlexander says morning with your rubber hippopot- he has two kinds of forms:"One is simply a form with suggestions for taking the inventory and spaces for the various kinds of farm property. A net worth statement is included as a part of the inventory so that when the form is all filled out a farmer can tell just what he is worth. The other is about the same, but is a part of the farm record book supplied by the Extension Service. If one wishes to keep records of sales, ,expenses, production, etc. during the year, he should ask for the free farm record

Mr. McAlexander also points out: 'A farm inventory serves many useful purposes. It may be valuable in helping one secure credit. It provides a list of property that will prove valuable if one needs to settle with the fire insurance adjuster or if an executor has to wind up the estate. The inventory gives one a basis for planning his year's operations. Taking an inventory is necessary for any effective system of farm records. It is also the most useful single part. It provides the ideal starting point in a farm record book program."

He'd Send For Tthem

A countryman went to London to visit some relatives and to see the sights. He remained until patience upon the part of the hosts, a married couple, had ceased toi be a virtue.

"Don't you think, my dear fellow," remarked the husband one day, "that your wife and children must miss you a great deal?"

"T\$0 doubt. Thanks for the suggestion; I'll send for them."

Broiled Lamb Chops Corn Pudding Stuffed Baked Potatoes Fluffy Lemon Dessert Coffee

"Dear me, yes," grandmother used to say. "Those broiled steaks with butter on them, like the Pullman chefs fix, are certainly good! But for us, it's so much easier to fry them."

Now grandmother would be delighted to observe that, with our modern electric ranges, broiling is a simple process. The even heat of the electric broiler produces meats which are deliciously tender and golden brown. And food authorities agree that broiled steaks and chops, fish, ham, and fowl are not only more flavorsome and tender, but more easily digested than when

The scientifically constructed broiler pan of the modern electric range covers the fat after it has been extracted from the broiling meats; thus the cause of smoking is eliminated.

BROILED LAMB CHOPS With this dinner, the baked potatoes and corn pudding are started first and cooked for approximately half an hour (depending on the size of the potatoes) before the chops are put in. Then the oven switch is turned to broil.

Select lamb chops at least an inch thick. Wipe with a damp cloth and season with salt and pepper. Brush lightly on both sides with melted butter. Lay on the broiler rack and place under the broiler unit as close as possible without touching the unit. Leave the oven door ajar while the chops brown. When brown on one side, turn them and brown the other

Dissolve the gelatine in boiling water and cool until syrupy. Put the egg yolks in the bowl of the electric mixer and beat with the sugar until lemon colored. Then add the lemon rind and juice. Beat the egg whites stiff, reduce speed of mixer and let it fold in the egg yolks and gelatine mixture. Pour into a mold and place in the refrigerator to chill. Serve plain or with whipped cream. This makes quite a large quantity-but you'll find it dicappears amazingly when served.

TO THE PEOPLE OF KENDRICK AND VICINITY

We have been asked many times what we intended to do and handle in our new location and since our purchase of the Barnum Lumber & Hardware Co. stocks.

We plan to proceed to the fullest extent in the handling, as formerly, of beans and International Machinery. In addition we are going to handle a complete line of lumber, shingles, lath, etc., usually found in up-to-date lumber yards.

And for the present, at least, we shall continue to handle a complete line of hardware, glass, paints, oils and miscellaneous items usually found in hardware stores.
