RIECH'S DEMAND CHARGED TO MILITARY REASONS

French army experts declared yesterday that Germany wants her former colonial possessions restored for military rather than economic rea-

These military officials asserted that cession of Togoland and the Cameroons in Africa, now held by France, to Germany, would give the Reich power to cut all communications between Southern, Eastern and Central Africa and Western Europe.

Gen. Jean Tilho, noted colonial GOVERNMENT TO DEAL warrior and long-time head of the French army's geographic services said that return of Togoland and the Cameroons to the Riech would be a eral government, already the coun-tournament. A team has been chosen "deadly and irreparable danger for try's largest land owner, may acquire from each class and the first game French and British African posses-

"The abandonment of the Cameroons, especially, to Germany would increase the risks of war," he said, and make Franco-British military operations dificult.

The Government announced that Gen. Victor Denain, Inspector General of French overseas aviation, had completed a tour of France's African possessions. This survey was described as being in line with the French Government's policy to keep its colonial defenses strong.

Military authorities also pointed to the visit of Premier Mussolini of Italy to his African colony of Libya as evidence of the strategical importance which the Duce attaches to that possession.

General Tilho pointed out that the Cameroons stretches from the Atlantic coast northward to a point a little more than 600 miles from Italy's colony of Libya on the Mediterran-

He declared that with Italy as an munications from French East Africa to the southern part of Algeria, in the event of war, and it would be easy for Italian troops to join Germans to close the gap between the Cameroons and Libya, thereby cutting Africa in two parts.

General Tilho said that German use of the Cameroons as a naval base, with well-protected ports in the Gulf of Guinia, would allow the Germans to cut French maritime communication throughout the that administration leaders in the ald Jones' hearts seem to be O. K., South Atlantic, forcing France to keep thousands of men ready to fight in Africa who would otherwise be transported to the European fronts.

Officials represented France's attitude as being that Germany may have her colonies in return for a 1936 Agricultural Conservation Pro- and corn will be greater than were full and lasting European settlement, gram should fill out one this year, harvested in 1936, but the acreages but not if they were wanted only to make Germany stronger for war.

Have you tried to buy it in Kendrick? You probably can.

March Still With Us

March we still have with us, at least so far as weather is concerned. Monday was a hodge-podge of all kinds of weather, sunshine, wind and Sunday. The hike was originally rain in the canyon, and snow added planned for Saturday, but was poston top the hills. Enough fell to ported because of bad weather. The gathered by two forest service emwhiten the ground and show on cars and trucks coming down off the top —but it did little more than that.

Lawns are greening up very nicely, shrubs starting to leaf, squirrels are out—and so it goes. Perhaps spring will arrive after a time.

EXTENSIVELY IN LAND

Washington, March 20.-The fedadditional millions of acres under will be played Friday afternoon. pending government proposals.

Although the government has given away more than 280,000,000 430,000,000 acres.

Some of their proposals are over-lapping; others concern different problems and different types of land. The suggestions include:

1. Purchase of 95,000,000 to 100,-000,000 acres of poor crop land, proposed by the farm tenancy commission. It said 2,000,000 to 5,000,000 acres should be acquired annually at a cost of about \$4 an acre. The tenancy commission also favored extenbe sold or leased to deserving ten-

2. Purchase of 24,000,000 acres of submarginal land and 7,000,000 acres of land now in farms too small to support families.

This was suggested by the great

control of land use.

4. Purchase of 125,000,000 acres of Secretary Wallace in a report to the senate on western range.

house of representatives already or are they? have assured support for "extensive" land buying.

About Farmers Work Sheets

WHEAT MARKET FIRM—FEED GRAINS BARELY STEADY

Wheat markets maintained a firm the Northern hemisphere this season, Bring them in, have them measur- according to the Weekly Grain Marrapidly diminishing Southern hemisphere supplies were the principal strengthening influences. Futures, particularly the more distant delivexies, advanced to new levels, but domestic cash prices held about unchanged, reflecting the slow milling inquiry and fairly liberal offerings. Feed grains were barely steady. Corn held practically unchanged "Dear Mr. Eckert: It has come to with the moderate marketings of domestic corn and fairly large arthe State Game Department contem- rivals from Argentina supplying plates the destruction of the Golden current trade needs. Oats and bar-Eagle in Central Idaho. I wish to ley were slightly easier, reflecting

The largest wheat acreage of recent years is indicated by preliminary seeding reports in countries of the Northern hemisphere which accounts for more than three-fourths of the total world acreage. A total United States wheat acreage between 67,000,000 and 68,000,000 acres is in prospect for harvest in 1937. acreage is harvested. This compares with 48,820,000 acres harvested in

A record acreage of 57,187,000 acres of winter wheat was seeded last fall but abandonment was expected to be somewhat above average with the most probable range pective acreage for spring wheat in so were all game animals. Now both ly more than half of the five-year acres compared with 1,559,000 acres average of 4.805.000 acres.

Canadian winter wheat seedings were increased about 20 per cent over those of the preceding year. Information on Canadian spring planting intentions is not yet available, but seedings in Canada have held at a relatively low level during recent years and prevailing high prices suggest maintenance of an acreage level to or possibly above

average. Domestic cash wheat markets did not follow the advances in futures but held about unchanged, influenced by some improvement in winter wheat prospects, fairly liberal marketings and only a moderate milling inquiry. Receipts of winter wheat at the principal markets increased to 1,019 cars, with bulk going directly to mills or consumers on

previous sales. Marketings of spring wheat remained light with total receipts at Minneapolis reported at 291 cars and at Duluth 89 cars. The protein of the cars tested at Minneapolis averaged 14.1 per cent with the test weight of the meager spring wheat receipts averaging about 55 pounds per bushel. Premiums were barely steady with only the best quality of wheat from the western North Dakota and Montana in active demand. Durum declined slightly but premiums for milling quality continued high. Ordinary No. 2 amber durum was quoted at the Duluth May price which closed at \$1.43 to 6c over. while choice lots brought premiums of 60c per bushel over May future. No. 2 Canadian western amber durum was quoted at \$2.00 per bushel delivered Duluth.

Canadian markets advanced more than 4c per bushel, influenced by strength in foreign markets, and No. 1 Manitoba northern was quoted at Winnipeg at the close of the week at \$1.35 and No. 2 Canadian western durum at \$1.46 1/2 per bushel. Intermountain and Pacific coast markets generally followed trends at Eastern markets. At Denver, local mills were bidding \$1.21 for No. 2

hard winter and No. 2 northern spring, FOB Colorado shipping points, while Ogden mills advanced bids sharply and were offering \$1.08 for No. 2 soft white, \$1.10 for No. 2

Drank Evidence

Over at Denver, Colo., the other day, while Sam Cocas was being tried in police court on a charge of selling whiskey without a license, Judge E. N. Shepherd pointed to a bottle of evidence and asked:

"What's that, a bottle of whisreturned to Moscow, where he has key?"

Cocas siezed the bottle and took a big drink.

"Yes, she's whiskey all right Judge," Cocas said. The fine was \$50.

Showing It Can Be Done

The chief importance of Senator Borah's proposed amendment to the Constitution (as a substitute for the legislation asked by President Roosevelt) is that it shows clearly how surely present day problems can be solved constitutionally and in accordance with American principles.

It emphasizes anew the prime truth that every need of the nation can be met without making the judiciary subservient to the executive and without placing in grave peril | ever, have made short work of it. the rights and liberties of the citizen.-Syracuse Post Standard.

NOTICE OF ANNUAL SCHOOL MEETING AND ELECTION

In Fix Ridge Common School Dis-trict No. 17, Latah County, Idaho NOTICE IS HEREBY GIVEN, That the annual school meeting of home. Fix Ridge Common School District No. 17, County of Latah, State of Idaho, will be held on Saturday, the 17th day of April, 1937, at the all spent Sunday even schoolhouse in said District; the said and Mrs. Bob Hughes. meeting shall convene at 1:00 o'clock p. m. on said day and continue uninterruptedly until the business properly coming before said meeting is disposed of. The following business has been ill all winter. will be transacted:

1. One trustee to serve for a term of three (3) years will be elected. 2. The length of time school will be taught in said District for the ensuing year and the seasons of the Dahl and Janette Mael. year in which the same shall be

taught will be determined. 3. At the said annual meeting in said District the amount of money to be raised by special taxation shall be determined, the levy for which ing. purpose shall not exceed ten (10)

mills on each dollar of taxable property of the district. 4. At said meeting general questions pertaining to school interests at croup.

will be taken up and disposed of. The name or names of all candidates for election of trustees together with the term for which nominated of the Board of Trustees at least six (6) days prior to the day of election, excluding the day of election. The election at said meeting will

be by secret and separate ballot. Dated this 22nd day of March, WALLACE CLARK,

County, Idaho. Notice of Load Limit

Notice is hereby given by the commissioners of Potlatch Highway District that load limits on roads of this district shall be 200 pounds per tire inch, including vehicle, load, and operator. This limit shall prevail until further notice.

By Order Commissioners. POTLATCH HIGHWAY DIST.

CCC ACCIDENT RATE

IS LOW IN FEBRUARY

In February, CCC enrollees on project work in the Northern Rocky Mountain National forest region set a new low record, 8.8 per 1,000 men working, for accidents which caused loss of time by workers. This would be good even under the more favorable working conditions in summer. It is a 30-percent reduction from the January rate.

As usual, accidents with hand tools were by far the most numerous and accounted for nearly threefourths of the total in February. Second in frequency were accidents Lois Morgan; Elgin, Elwin and Melin falls of persons, which were 13 vin Fleshman and Warren Walker. percent of the total number. The other few accidents were distributed almost equally among those resulting from falling objects, handling of objects, and the operation of mach- cow spent Sunday in the home of inery, trucks and cars.

The reduction in the number of Woodward. accidents caused by falls of persons was most pronounced. This is considered significant, in light of the Kuykendall home. type of work done by the CCC enrollees. Much of their winter work Thursday in the Stewart Heffel has been snag-felling in burned-over areas, to reduce the danger of forest fires, and thinning young timber stands to free desirable timber species from competition and to encourage their more rapid growth. Most of this is done on steep slopes, where the R. E. Woody home. during winter when the ground is snow-covered, the chances of workers slipping are always a menace,

Consistent and unrelenting education of the enrollees in safety measures, and close supervision of the youths, has played a major role in the reduction of lost-time accidents.
