#### COMMERCIAL CLUB HOLDS REGULAR MONTHLY MEET

The regular monthly meeting of the Kendrick Commercial club was held in Fraternal Temple Monday. Dinner was served at 6:30 by Mrs. Paul Lind and Mrs. Edgar Long to the 29 persons present.

Among communications read by the secretary was one concerning the Kendrick-Arrow road which stated that the money necessary to the Southern Branch, U. of I., at build the remaining link was needed that place. worse in other sections of Nez Perce county, but that they would agree THIS AND THAT ABOUT to keep the road in at least as good condition as it had been. (Most anyone could do that without any tools or work).

Announcement was also made that the North Idaho Chamber of Commerce would be held in St. Maries day. on July 6, which all members of the local club are invited to attend.

At this time the election of officers for the coming year was brought up and Geo. P. Barnum, who has served so faithfully as president of the club for the past two years, was first elected secretary, by acclamation. Following his election Dr. D. A. Chrictensen was elected president, O. E. Havens vice-president and H. B. Thompson, treasurer, after which followed the appointment of committee heads for the ensuing year.

Mr. Walker, as head of the Highway committee, stated that some change had been made in the building of the road on Bear Ridge and Deary—about the same as published in last week's Gazette-that four miles would be built from Deary this way and that about a mile and a half from the end of Big Bear ridge highway toward Deary. which will still leave several miles between the two sections on road.

Mr. Walker stated that the government had allocated some \$50,-000,000 for post roads, and since part of this proposed road is a "post road", there should be no good and sufficient reason why enough money (estimated at about \$25,000) should not be allocated to finish the road from the top of the Bear Ridge road to connect with the Deary section and a motion was made and passed that the secretary of the Commercial club get in touch with Congressman White and Sen. Borah and see what can be done.

Harold Thomas stated that the new sawmill had made its first cut on Monday of this week-sawing principally timbers for the erection of the mill building. He also stated that this mill would be no mean thing for Kendrick as it will later employ 50 men (in mill and the timber) at an average wage of \$5.00 per day, which will eventually make a payroll of something like \$6000.00 per month-no mean amount to be added to what we have already had

Geo. Clem. owner of the mill. at this time gave a few pertinent facts regarding the mill and stated that he would do his best to make it a permanent institution for Kendrick. Mr. Clem is a sawmill man of many years experience and is known by many in this section of the country as a man that knows his business —and attends to it.

G. C. Albright, pastor of the Presbyterian church, was present and made a few appropriate remarks, stating that he would be ready and willing at all times to take part in the proceedings of the meetings and activities of the club.

The question of a permanent city dump ground was also brought up and discussed at length. Several suggestions were made and several locations advocated, but the matter was not fully settled.

Wade Keene, who had just returned from an extensive trip as far east as Detroit, had only a few words to say regarding his trip-only, that he was certainly glad to get back to God's country—the Potlatch.

The question of the proposed new county hospital, to be built at Moscow, was discussed at length. During the past several days post cards have been mailed from Moscow, trying to get an expression of the people as to whether they want a special election called for the building of a 50-bed hospital in Moscow. These cards are sent out by the Hospital association to get "your" opinion on the matter. It was stated that the hospital would not be run by the county, but would be built and paid for by tax payers, but that it would be leased to some faternal organization at a stipulated price. No action was taken on the matter as there was nothing tangible re-

bonds bearing 3 per cent interest, bearing the record low interest rate of 4 per cent a year to farmers having a sound basis of credit. The loans are written for as long as 34 years, arranged so the principal can be iod through installmnets on the ing. "mortization" plan.

Borrowers have an ownership interest in this cooperative mortgage system and share in the management through their investment in voting capital stock of their local associations. The associations in turn hold a corresponding investment in the capital stock of the Land bank and elect their representative on the district Farm Credit administration board of directors.

#### 15th Annual Short Course

June 15 to 19, announces W. L. Stephans, District Extension Agent. tone news explained:

Short Course is one of the big to be held this year will be equally painful emotions and even lead to as good or even better than the 14 previous ones.

This is a real opportunity to the Club members of the northern and southwestern districts to learn more better crops or the best practices in the press." economics.

Registration will be held in Room 101, Morril Hall on the University campus, and you should register as soon as you arrive in Moscow. The first meal will be served Tuesday evening, June 15th and the last meal Sunday morning, June 20th.

Club members must bring bedding (sheets, blankets and pillows), towels soap, toilet articles and extra clothing. Girls should bring wash dresses and the boys overalls. Also bring bathing suits, rubber soled shoes, and the boys should bring baseball mitts and gloves. The only equipment in the rooms will be beds and mattresses.

All who are able to come be prepared for a week of fun!

#### Weather Freakish-Rain Needed

The weather man has certainly been fickle the past week or ten days. Hot days, warm days, cool days and windy days-but what we need the worst now is rain—a good old-fashioned soaker-to start the beans and give the wheat the needed moisture for rapid growth.

This season, so far, has certainly been an odd one. Almost no spring, and then the thermometer jumped to 92 degrees almost over-night. Cool weather has been the rule.

#### GRAIN MARKET LOWER

WITH IMPROVED PROSPECTS

Grain markets turned sharply downward during the first week in June, states the Weekly Grain Market Review of the Bureau of Agriculture Economics, influenced by further improvement in new crop prospects and weakness in foriegn markets. Wheat and rye declined more

than feed grains. Improvement in both winter and spring wheat with pospects of harvest well above domestic needs, lower prices at Liverpool resulting from pressure from large stocks afloat FOLKS AT FAIRVIEW and sharp declines at Winnipeg as export inquiry slackened, all contributed to the weakness in bread grains. Oats and barley also declined but inquiry for barley improved materially at the lower prices. Flax held about steady with crushers largely dependent upon Argentine seed.

Improvement in prospects in the United States was an important feature in the wheat situation although liberal offerings from the relatively large stocks afloat and less concern on the part of European buyers regarding future supplies were also factors. Wheat made favorable progress, particularly in soft winter wheat areas and harvesting extended into north Texas and Oklahoma. Private trade estimates at the first of June indicated a winter wheat crop about equal to E. Walker called in the George the May official estimates of 650,-000,000 bushels. Weather was unusually favorable for spring wheat which made excellent growth in Minnesota and eastern North Dakota and South Dakota. In western North Dakota, where wheat had deterioated considerably, the outlook was greatly improved by rains. Trade agencies forecast a spring wheat crop of around 230,000,000 bushels from the June 1, condition. If the estimates are realized the United States crop this season would total around 875,000,000 bushels and provide some wheat for export.

Prospects for spring wheat in Candada were less favorable than in the United States with scanty ion of the Cochran family at the sub-soil moisture still prevailing over the greater part of the wheat growing area. Only about a third of the wheat area of the Prairie Provinces has a reserve moisture of any consequence, according to information obtained by the Winnipeg Free Press correspondents reported rain needed immediately, or within a week. In Alberta, 22 percent and in Manitoba only a few points.

Reciepts of old wheat are relatively light with only 593 cars recieved ers inclined to await increased of-Mrs. Denzil Kuykendall called on ferings of new wheat. # Your Credit Is A Valuable ASSET!

In these days of rapidly rising and falling prices—both in the goods you purchase and the goods you sell — Credit has become, more than ever before, an item of incalculable value. He who does not posses credit finds his business path strewn with obstacles and faces a handicap that allows competitors to outstrip him in the business world.

Business today, more than ever before, is done on credit. Those who lack this credit basis may gain it by prompt payment of obligations—those who have it should guard it as a priceless asset—by prompt payment. Thirty days is the standard basis of credit and therefore all accounts should be met on that basis.

Wholesale houses use the 30-day term—and you can help the merchant who extended you that much needed credit. Some have made arrangements for long-term credit—based on future income — but to those who have not made such arrangements — keepyour credit good! Pay every 30 days!!

We are prompted to sponsor this message to the people of Kendrick and vicinity through our interest in community welfare.
