## ATTY. GENERAL TAYLOR WRITES OF TAX PROBLEMS

(Article No. 3)

One of the problems which confronts the Board of Equalization is that of certain trends in the values of property in one county as compared with another. It is hard for the Board to learn just why, in one county, horses and mules should increase in unit value while in an adjoining county they should at the same time decrease in unit value. Various attempts have been made to make such situations clear but they do not agree and are unsatisfactory. The same trend sometimes takes place in land and we have the spectacle of land in one county apparently getting more valuable while that in the next county becomes less and less valuable, although nothing has happened to affect the value particularly in either county. Such trends are sometimes explained upon the supposition of a change either in classification of land, as from dry land to irrigated, or from cut-over land into farming land. These explanations are no more satisfactory than in the case of horses and mules.

It is also interesting to note that in some counties the value of taxable household furniture has increased greatly, while in others it has become less and in still others it seems to have disappeared. It is perhaps true that in some cases, during hard times, the assessor is not inclined to be so diligent on furniture valuation as he would ordinarily be, but it is likewise true that most of the really poor folks never have been assessed for their household furniture. However, this would not hold true apparently for the counties in which the value of household furniture has increased—and the Board can merely guess at what a fair equalization would be between the various counties.

Another item, and an important one, is that of valuation of improvements on business and residence lots. In some instances there is a distinct and sudden falling off in the valuation of such improvements on business lots, with the explanation that under a new classification some of the business lots have been listed as residence lots. But too frequently the total of the two classifications is not so large as it was before the new arrangement, and the Board, without time to investigate, must take such explanation as can be obtained at the session.

Another interesting situation appears in the valuation of equities in state lands; that is, the interest which accrues to a purchaser of state land on contract, as he is taxed in proportion to the amount of payments which have been made on such contracts. We find, in some counties, a considerable falling off in such taxable equities. Investigation reveals that in many instances the purchasers find taxes on their equity considerably higher than the annual rentals which must be paid for such lands. Consequently they stop making payments, allow their contracts to be forfeited and rent from the state. While this result is a financial advantage to the former purchaser, it is not good business for the county, since it takes the land off the tax rolls and throws the burden of taxation upon other land owners. It is worthy of note in this respect that sometimes a farmer will lease as much state land as possible and then sub-let it or portions of it to others at a considerably increased rent.

This series of articles has not been intended as a complete or scientific discussion of the problems of the Board of Equalization. It is intended only to familiarize the reader with the general problems confronting the Board. After taking part in only one session, I am impressed with the fact that the results expected from the law are not possible under the present system. The members of the Board have no time or opportunity to make the investigation necessary for their task. It is my opinion that the system should be changed so as to provide for a commission of tax experts to devote all their time to the solution of the numerous perplexing problems which have so far not been settled. This would require a constitutional amendment. I am convinced, however, that such a commission would result in fairer equalization of values and would, by bringing to light many of the inequalities and evasions now existing, fully justify its existence.

## Commercial Club Meeting

The regular monthly meeting of the Kendrick Commercial club will be held in Fraternal Temple next Monday evening, September 13. Dinner will be served at 6:30 and all interested in what is being done by the club are cordially invited to attend.

You need not be a member to attend the meetings. Come and see and hear what is being done.

## C. I. O. LEWIS ON WAR PATH — USES BITTER LANGUAGE

John L. Lewis of the C. I. O. rebuked President Roosevelt for his attitude toward the recent steel strike and warned labor's "so-called friends and political beneficiaries" that there will be a reckoning on election day.

In bitter language he accused Governor Davey of Ohio and Chicago's Mayor Kelley of anti-strike activities, and took another thrust at the administration by asserting that the activities were in one instance financed by federal funds and in the other tolerated by officials at Washington.

Although he did not mention the president by name, there was no mistaking his target. Vividly, he recalled President Roosevelt's application of the Shakespearean "a plague on both your houses" to both sides at the height of the steel strike.

"It ill behooves one who has supped at labor's table," he said, "and who has been sheltered in labor's house to curse with equal fervor and fine impartiality both labor and its adversaries when they become locked in deadly embrace."

Lewis' remarks, made in a radio speech, served as confirmation of reports of a break with the president. A year ago he was one of the chief executive's most vigorous supporters and his United Mine Workers contributed \$500,000 to the Roosevelt campaign.

The C. I. O. chief scornfully opbraided democratic members of the house who prevented caucus action on the wage and hour bill by declining to answer their names when called.

He denounced the Chamber of Commerce of the United States "and similar groups" because, he said, they encouraged "a systematic organization of vigilante groups to fight unionism under the sham pretext of local interests."

## Return From California

Postmaster C. H. Daugherty and brother, Phil, returned Wednesday morning from Red Bluff, Calif., where they had been called by the serious illness of their brother, Jake. They drove through from Red Bluff without stopping except for eats and gas. They left there at 8 o'clock Tuesday morning and arrived in Lewiston about 4 o'clock Wednesday morning, spending some time there, arriving in Kendrick about 6 a. m.

Clyde says they couldn't give him that section of California—and that he doesn't think he would care much for the rest of it.

He brought with him a sample of California beans, taken from a field and says they are just an average stalk such as grown there. The sample is in the window of the office of W. J. Carroll.

## School Notes

The Kendrick school opened Monday, September 6, with an excellent enrollment in both the high school and grades.

Enrollment for the grades at the present time is 109, distributed as follows: First grade, 11; second, 16; third, seven; fourth, 13; fifth, 10; sixth, 16; seventh, 21; eighth, 15.

In the high school department the enrollment is 95 at the present time with at least 10 definitely known who have not registered as yet, but intend to soon.

This is the largest enrollment at this time that has been known or that there is any record of.

There are two places available where room and board for students may be secured. If interested, call Mr. Lyle at 422.

## Visits At Deobald Home

Mrs. Eva Thompson, Orofino, was a week-end and Labor Day visitor at the home of her brother and family, Mr. and Mrs. E. A. Deobald. They drove over for her Saturday evening, returning her to her home Tuesday morning.

## MRS. ANNA KERMODE PASSES TO BEYOND

Mrs. Anna Kermode, born Anna Corris, was born on the Isle of Man, April 14, 1863. She married John Corkill in 1885. To this union three sons were born—Ralph, Abner and Wilfred. Of these, Wilfred preceded her in death by eight years. In the year 1900 her husband passed away. In 1903 she was married to Phillip Kermode, who died in 1905. In 1912 Mrs. Kermode came to Michigan with her son, Wilfred and grandson, Wilbur. She remained there for two years and then moved to Troy, Idaho, where she also remained for two years. Since that time she has made her home on the farm near Leland, Idaho.

Six years ago Mrs. Kermode suffered a paralytic stroke and since that time has had failing health. On August 24 she was taken seriously ill and passed away September 2, 1937, at the age of 74 years and five months. She had been a member of the Methodist church for over 60 years.

Funeral services were held in the Methodist church, South, in Leland, Sunday, September 5, the Rev. G. Gibbs officiating. Interment was made in Normal Hill cemetery at Lewiston.

Pallbearers were C. F. Byrne, Robert Cain, J. M. Woodward, R. B. Parks, Jesse Hoffman and J. E. Fleshman.

## Card of Thanks

We wish to express our gratitude and appreciation to the many kind friends and neighbors for their assistance and sympathy during the illness and death of our mother and grandmother. Especially do we wish to thank Mr. and Mrs. R. B. Parks and J. M. Woodward for courtesies extended.

J. R. Corkill,  
Abner Corkill,  
Wilbur Corkill.

## Frank H. Millard Passes

Frank H. Millard, pioneer resident of Juliaetta, passed away at his home there on August 31, 1937, aged 80 years, six months and 15 days.

Mr. Millard was born at Vernon Center, Minnesota, February 16, 1857. From that place he went to Coolidge, Nebraska, and thence to Juliaetta, where he had been a resident for 42 years. Death was due to old age.

He was a member of the Juliaetta U. B. church and of the Salvation Army, Lewiston post.

He leaves to mourn their loss one brother, Herbert Millard, Juliaetta, five nephews and two nieces. He had never married.

Services were held at the Juliaetta U. B. church, Friday, September 3, 1937, with the Rev. George Calvert delivering the message. Music was by Mr. and Mrs. John Frisbee, with Miss Ruth Frisbee at the piano. Pallbearers were Walter, Gerald, Ralph, Floyd and Everett Millard and Woodrow Nye. Interment was in the Juliaetta cemetery.

## Entertained At Dinner

The home of Mrs. Mary Deobald, American Ridge, was the scene of a very pleasant family gathering and dinner on Sunday last, when dinner was served to Mr. and Mrs. E. A. Deobald and family, Mr. and Mrs. W. B. Deobald and family, Mr. and Mrs. Otto Schupfer and family, Mr. and Mrs. Elmer Bechtel and family of Moscow, Mr. and Mrs. Allen Sather and family of Genesee, Mrs. Bechtel and Mary Havens of Kendrick. Betty Boyd was a visitor in the afternoon. There were 29 present.

Mrs. Otto Schupfer brought many flowers for the occasion and the rooms were beautiful with large bouquets.

## Taylor-Covington

Rev. Dr. L. C. McEwan, pastor of the Presbyterian church at Lewiston, performed the marriage ceremony that united Miss Margaret Taylor, Juliaetta, and Oliver A. M. Covington, of Spokane, at Lewiston last Saturday afternoon at 2 o'clock.

There bride has resided there for some time with her father, while the groom is time-keeper for the Washington Water Power crew now building the line from Moscow to Orofino.

The couple were attended by Eva Jones and Barney Owsley.

Local teachers were in Moscow Monday afternoon, where they attended a teachers' conference.

## LATAH COUNTY GROUSE SEASON GOOD JOKE

The grouse season in Latah county, at least so far as the section surrounding Kendrick is concerned—is certainly a first class joke.

With some five days of the open season reported, we have heard of but two hunters who have succeeded in getting their limit—and they report long hard hunts in order to get them.

The joke of it all lies in the fact that for many years Latah county was closed to grouse hunting in order to build up the stock. Then came the opening, and the hunting was good—really good. Then last season the government turned out a lot of extra potent squirrel poison—gave it to WPA workers and told them to distribute it with fine impartiality about fields and canyon rims. That poison was wheat. Grouse like wheat—and then there were almost no grouse.

This season (we are told) it happened again, but on the long "howl" from sportsmen that went up—the workers were cautioned to be more careful about their distribution—but again the result was even fewer grouse!

So what? — No Grouse!  
We suggest again closing Latah county—and closing off the (generous?) supply of grouse poison that the government so willingly distributes. How about it, sportsmen?

## Big Crop Of Beans

Interviewing Kendrick warehousemen the first of the week it was learned that the bean crop in the Kendrick section is going to be one of the heaviest raised around here for several years. It is reported that most beans will average between five and seven sacks per acre. Of course there are some instances where the yield will fall below that but there will be plenty of them just the same.

George Wilken is reported to have about the finest crop to be found in the Potlatch country. His—were of the Norida variety (developed by the University of Idaho) which yielded between seven and eight sacks per acre. The ground was measured by the county agent, so there can be no mistake about the yield.

Chas. Hoffman also got a heavy yield, his going better than 1,000 pounds per acre. They were of the Robust variety and of splendid quality.

These two are only samples of what this section of the Potlatch country can, and does yield, under favorable circumstances.

## Receives Bronze Plaque

E. A. Deobald of the Kendrick Garage received last Monday, a beautiful bronze plaque, commemorative of 15 years as a Goodyear Tire dealer. The plaque, about 14 by 20 inches in size, shows the various modes of transportation as they have progressively changed through the ages.

Engraved at the bottom is the name "Kendrick Garage".

This gift was accompanied by a personal letter from P. W. Litchfield president of the company, congratulating Mr. Deobald on his long and successful garage career.

It is indeed an award of which anyone might be proud.

## Hold Family Reunion

A family reunion was held on Sunday, September 5, at the home of Mr. and Mrs. Elmer Fraser on Bear ridge.

Those present were Mrs. Mable Corus and daughters of Clarkston, Otto Stucker, Genesee; Mr. and Mrs. Adolph Forest, Mr. and Mrs. George D. Allen and family, Mr. and Mrs. Everett Fraser and family, Mr. and Mrs. K. L. Fraser and family of Juliaetta; Earl Rusco and Mrs. Flora Leinhard of Princeton; D. M. Fraser and Miss Nina Slead.

Dinner was served cafeteria style and everyone enjoyed a splendid time in spite of the stormy day.

## New Game Warden

According to announcement from Lewiston, Deputy Game Warden Lloyd Gilson has been relieved of his job by State Game Warden McIntyre and his place will be filled by Harry Palmer of Culesac, a democratic candidate for sheriff of Nez Perce county at the last election, defeated by Harry Dent, incumbent. Palmer was endorsed by the democratic organization and Gilson by the Nez Perce County Game Protective association.

## Canning Tomatoes

The Thomas Cannery is now running about two days per week, canning tomatoes. Mr. Thomas says there are plenty of tomatoes but that they are ripening very slowly, but expects to have his machinery humming in good shape if frost or too much rain does not overtake the tomatoes yet on the vines.

## RUSHING REA PLANS — PLANT AT KENDRICK

According to the Lewiston Tribune, plans are being rushed for the letting of contracts for the building of the 233-mile unit of the Clearwater Light & Power Company's line, a contract for which will be let today (Thursday) at the company's office in Lewiston. It is expected the contract will total \$190,000 to \$200,000, \$75,000 of which will be for the erection of a diesel-powered plant at Kendrick.

It is understood the plant will be erected on the N. E. Ware property, just east of town. This contract will include lines to be erected in Latah county and a portion of Whitman county, Wash.

A later contract for the erection of a 400-mile unit will be let at a later date. In all, it is said that the system, when completed, will be some 900 miles in length, extending into Nez Perce, Idaho, Lewis, Clearwater, Benewah and part of Shoshone counties, in addition to Latah and Whitman counties.

**"On The Avenue"**

With songs by Irvin Berlin carrying it to new heights of swanky melody, "On the Avenue", a sparkling musical production, will be seen at the Kendrick Theatre this Friday and Saturday nights, with a stellar cast of entertainers and the latest song hits by the man to whose music most of the world dances and makes love—Irving Berlin. It is a real life romance of New York, gay and glamorous as the town itself, with Dick Powell and Madeline Carroll making a handsome and romantic team.

Every music lover knows and loves Irving Berlin's songs, and every picture fan knows and loves to hear Dick Powell sing, and they will love to hear and see Madeline Carroll sing and dance with him. It's said to be one of the breeziest and yet most adorable musical comedies on the screen today. There will be songs both sweet and rhythmic; dancing, modern and fast; girls, gorgeous and plentiful; gags, crazy and gay.

There will also be the other regular features to fill out the evening's entertainment.

### EDITORIAL

Well, Folks—The rain seems to be over for the time being, and even if it did delay threshing it was a boon to pastures. Good pastures mean money to you, for old bossy will produce just that much more—and the more she produces the more money in your pocket. Just bring the cream to us. Get the cash.

Seems like we are always harping on cream—but Folks—it is a real money crop to you and we can always use all we can possibly get—so bring it in. The money awaits you.

Caller: "And is your daughter happily married?"  
Mrs. Voluble: "I'll say she is. Why her husband is scared to death of her."

A careful driver approached a railroad; he stopped, looked and listened. All he heard was the car behind him crashing into his gas tank.

It is a good thing to have a great ancestor, but the shorter the pedigree the better chance you have of inheriting some of his abilities.

Try our butter. It is really good
