

# KENDRICK GAZETTE

VOLUME XXXVII

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, SEPTEMBER 16, 1937

NO. 38

## ATTY. GENERAL TAYLOR WRITES OF STATE PROBLEMS

In conformity with the requirements of the Idaho constitution, the statutes provide for a bureau of immigration, labor and statistics. The statute recites that it shall be the duty of the governor, by and with the consent of the senate, to appoint a competent person, who shall have charge of the department and who shall receive a salary of \$3,600 per year.

The duties of the commissioner are varied and important. He is charged with the collection and compilation of all reliable data and information concerning the climate, soil and various resources of the state; its agriculture, horticulture, mineral, timber and grazing lands, and industries, and the development thereof; the water courses and the lakes of the state in reference to irrigation, manufacturing, mechanical and other uses; the various crop products, and the adaptability of different soils and localities for the production of different crops; the number, kinds and value of domestic animals in the state, with useful information regarding the same; the number of schools, educational institutions, churches, charitable and fraternal organizations; health and pleasure resorts, and health statistics of the state; the number and mileage of railroads and other transportation lines; the number and capacity of irrigation canals and the lands covered by the same; the number and location of newspapers and periodicals in the state; the amount of public and school lands; and those belonging to various public institutions of the state; the wages and hours of labor, both skilled and common, and its relation to capital; and generally, any information, which if disseminated abroad, would tend to the development of the state by inducing population and capital to come within its borders; together with other duties of the same nature.

It can readily be seen that the office of commissioner of immigration, labor and statistics is intended by our constitution and laws to play a very important part in the affairs pertaining to labor, agriculture, industry and social standards generally. In view of these important duties and responsibilities it is remarkable that for the past fifteen years, approximately, the office has remained vacant. For some reason the governor of the state, during all those years, has failed to comply with the statute which makes it a positive duty for him to fill this office. For a few weeks at the end of 1936 a commissioner was appointed but at the end of the 1935-36 biennium the office again became vacant and has so remained.

With the exception of the standards, wages and living conditions of labor, it is possible that the other information required to be gathered by this office might be obtained by other sources, but there is no department of state government other than this department which is charged with looking after the particular interests of our working people, both skilled and unskilled. There can be no real or substantial prosperity so long as labor does not receive its just proportion of the wealth which it creates. It is likewise true that the laboring man is first to suffer by reduction of his wages when times become hard and the last to profit when prosperity smiles upon the land.

Labor has been always willing to share its part of adversity, but the course of economic history shows that when business is on the up-grade the laborer is first to fight for a recovery of that which he has previously relinquished. Whenever times improve and conditions begin to get prosperous, there is always a wave of strikes and labor disturbances, which are caused by the fact that with increased prices the laboring man is unable to live upon a reasonable standard while industry frequently begrudges him a share in returning prosperity.

(Continued In Next Issue)

### How's Your Lights?

If the lights on your car are not in pretty good shape, better have them looked after. The state is having another of its periodical light testing campaigns and it might be well to know that your's are in good shape. The official light test station for this section is the Kendrick Garage.

Read the ads.—Keep posted.

## Logging Operations Stop

The Thomas sawmill was closed down some three weeks ago and on Friday of last week logging operations ceased, for the time being, at least.

Mr. Thomas has many thousands of feet of lumber in the curing piles which will be shipped as soon as it is ready. After the sawmill closed down, Mr. Thomas continued shipping logs to Spokane. This, too, was closed down last Friday. Some 120 cars of logs were shipped.

## REA CONTRACT AWARDED TO SEATTLE COMPANY

Contract for the building of the first unit of the REA project, which will be built in Latah and a portion of Whitman county, Washington, was let on Thursday of last week to a Seattle firm and it was expected that work would start from Kendrick in about ten days. The contract provides for completion in 120 days, weather and other unavoidable delays excepted.

The contractor will be required, in addition to installing poles, stringing wires, and installing transformers, to run wires from the main distribution lines to the individual homes of customers, Mr. Smith, chief engineer said. The rural electrification group will furnish meters. The customers will be required to do their own wiring, Mr. Smith said, but the wiring will have to comply with standard specifications, said the Lewiston Tribune.

The contract for the first unit calls for construction of a 233-mile rural electrification line with aluminum steel-reinforced wire and standard western red cedar poles. While where the first poles will be erected is optional with the contractor, it was indicated that he will move equipment and break first ground at Kendrick.

The first unit's contract covers a rectangular area, which excludes the north part of Latah and Whitman counties. These sections will be included in the unit which will extend lines to rural homes in Benewah and part of Shoshone county, Mr. Fossdick said.

Boundaries for the first unit run from Kendrick southwest along the Potlatch river to the Latah-Nez Perce county line; the vicinity west to Colton; north to near Pullman; east to the Idaho-Washington boundary; along the boundary line to Viola; east to the vicinity of Stafford where it jogs north before continuing east to Bovill; thence south to Crescent, above Southwick, and then west to Kendrick.

The second unit of the project will involve construction of a 300-mile line to serve rural homes in Nez Perce, Clearwater, Lewis and Idaho counties, according to T. C. Smith, chief engineer.

### Troy Paper Changes Hands

A deal was closed last week whereby J. C. Peterson, for the past 45 years identified with the newspaper business in this section of the country, sold The Latah County Press (Troy) to Clifford Smith of Moscow. Mr. Smith has been a linotype operator in the Moscow Star-Mirror office for the past nine years. It is understood that his father-in-law will also be interested in the paper with him. A linotype will be installed and other necessary improvements will be made in the office to bring it up to date. The newspaper fraternity of Latah county will welcome Mr. Smith and wish him prosperity in his new venture.

J. C. Peterson, the retiring owner and editor for the past several years, will be missed by his host of friends in the Troy section as well as the newspapers throughout this section.

It is understood that Mr. Peterson will move to, or near, Spokane, where his children are living.

### Ross May Seek Pope's Job

Cowboy Ben Ross, like Banquo's ghost, will not down, and, while he has made no definite decision, according to report, he has intimated that he would still like to make the trip to Washington as a United States senator from Idaho. Ross is the only man who ever held the governor's seat down at Boise for three consecutive terms, and it might be that he could crowd out some other democrat, but there's no intimation that he would like to take on Senator Borah as a competitor for the job.

If Ben has been riding that manure-spreader down on his farm all this time, he should be well qualified to go to Washington.

## COMMERCIAL CLUB IN REGULAR MONTHLY MEET

The Kendrick Commercial club met Monday evening in Fraternal Temple in regular monthly session. Dinner was served at 6:30 by Mrs. Paul Lind and Mrs. Edgar Long—and a splendid dinner it was, too, which was evidenced by the satisfaction on the faces of the 16 local men present, as well as the high school faculty and grade teachers, who were guests of the club during the evening, as was also Misses Iome Reiman, public health nurse, and Maxine Keene.

After dinner President Christensen called on Supt. James M. Lyle, Jr., to take charge and introduce the teachers, which he did, and then turning the tables, introduced the members of the club present to the teachers, the latter in somewhat of a jocular vein. The teachers expressed their pleasure at having an opportunity to meet the business men of the town.

After introductions, the minutes of the last meeting were read and approved and communications from Congressman White and one from Senator Borah, in reply to letters addressed them by F. M. Long regarding the fish and game situation in the state were read.

N. E. Walker, chairman of the Highway committee, stated that the work on Bear ridge road was progressing nicely; that a crew was working on the Deary end toward Kendrick and that later a crew would be shifted to the Kendrick end of the ridge road to work toward Deary. He stated that no plans had yet been made for winter work, but that there was expected to be a road set-up that would include both Little and Big Bear ridges.

Harold Thomas stated that his cannery operations this year had not been going forward like he would have liked to have them, for the reason that the tomato crop generally was not up to standard in color, as required by government regulations. Growers state that if they are left on the vines to ripen, they rot before they are of the proper color for canning purposes. He stated that the big canneries at Walla Walla had not even started operations on tomatoes for the same reason as mentioned above and that there are some 3,700 acres of them in the Walla Walla district, with tomatoes rotting on the vines.

Marvin Long, chairman of the Fish and Game committee, reported that some 175 Chinese cocks had been released in this section this summer and that it was expected to get a shipment of hens by next spring. He reported but few grouse, but said there were quite a few native pheasants.

Supt. J. M. Lyle, Jr., reported an enrollment of 96 in the high school with more expected. He also stated that the grades have an enrollment of 110. School is going along nicely and teachers and students are fitting in their places in nice shape and everything points to a very successful school year. The school band has again been started and both boys' and girls' glee clubs have been or will be organized. Mr. Lyle asked everyone to come to the P.-T. A. meetings, as they are the connecting link between teachers and parents. Everything points to a successful year in athletics as well.

A suggestion was made and later a motion carried that the club, in conjunction with the Troy Chamber of Commerce, ask the state to make a survey of the Kendrick-Troy road. While the question has been discussed many times and some preliminary lines run to get a workable grade down the hill into Kendrick, nothing has seemingly been accomplished along that line. The road is needed and action will be asked for.

A motion was made that the Commercial club get behind the REA movement and do all possible to have the generating plant located here and the secretary was instructed to take the necessary steps to that end.

The meeting was a very pleasant and profitable one to those present and it is hoped that more will be in attendance at the meeting to be held October 11.

### The Lewiston Round-Up

Preparations are going forward at Lewiston for their big Round-Up, which will be held September 24-26, inclusive. The usual string of bucking horses and steers will be on hand and plenty of cowboys to try to ride them.

## INTERESTING NEWS NOTES FROM OUR PUBLIC SCHOOL

The Journalism class met Tuesday, September 14, for the first time and elected editors. Nolan Weeks was chosen editor and Rex Blewett and Arlene Deobald assistant editors. About 20 others are taking journalism.

The various classes met Tuesday afternoon and elected their class officers for the first semester. Seniors elected were: Tom Keene, president; James Langdon, vice-president; Lorraine Woody, secretary; Don Benscoter, treasurer.

For Junior officers, the following were elected: Rex Blewett, president; Frank Rider, vice-president; Chester Vincent, secretary; Avia Craig, treasurer; Leon Lind, class reporter; and John Wallace, sergeant-at-arms.

The Sophomores elected Myra Kankkeberg president; Maxine Bigelow, vice-president; Marie Havens, secretary; Helen Halseth, treasurer; Helen Newman, reporter, and James Kuykandal, sergeant-at-arms.

The Freshmen elected for their officers: Harold Brammer, president; Betty Boyd, vice-president; Annie Deobald, secretary; Mary Havens, treasurer, and Viola McCoy and Billy Deobald, reporters.

Mr. Hoisington, band instructor, of Moscow, was here Monday, September 13. He reported that about 25 people are taking band instruction at this time and several more were expected to enroll.

The glee clubs met for the first time this week. Miss Graham is instructor.

### Why A Boy Left The Farm

I left my dad, his farm, his plow,  
Because my calf became his cow;  
I left my dad, 'twas wrong of course,  
Because my colt became his horse;  
I left my dad to sow and reap  
Because my lamb became his sheep.  
I dropped my hoe and stuck my fork  
Because my pig became his pork;  
The garden truck I made to grow  
Was his to sell and mine to hoe!

### On The Other Side

With dad and me it's half and half  
The cow I own was once his calf;  
No town for mine, I will not bolt,  
Because my horse was once his colt.  
I'm going to stick right where I am  
Because my sheep was once his lamb.  
I'll stay with dad, he gets my vote;  
Because my hog was once his shoat;  
It's fifty-fifty with dad and me,  
A profit sharing company.

### Woa Fishing Derby

Bill Watts, these days is stepping high, wide and handsome, just because he has a nephew over at Seattle who won the annual fishing derby this year. Bill is even thinking of going fishing himself one of these days—just as soon as the fish-worms begin coming to the top again.

Regarding the fishing derby at Seattle, the P.-I. has the following to say:

"Youth was served again yesterday when twenty-year-old W. E. Watts of Seattle was crowned the champion of the seventh annual Ben-Paris-Seattle Star Salt Water Derby held in Elliott Bay between the hours of 4:30 and 9 a. m. In addition to the honor of being the kingfish of Seattle's harbor for a period of twelve months, young Watts was also presented with a brand-new Ford sedan. Watt's salmon, a king, weighed thirty-one pounds two ounces.

### Birthday Party

The home of Mr. and Mrs. R. L. Blewett was the scene Sunday of a delightful birthday dinner, given in honor of Mrs. Lilly M. Blewett's birthday anniversary. She is Mr. Blewett's mother.

Those present were Mr. and Mrs. Ben Cook and family, Genesee; Mr. and Mrs. Harry Ruddell and family of Gifford; Mr. and Mrs. Hod Dunnum and family of Culesac; Mr. and Mrs. Kenneth Hoduffer of Lewiston; Mr. and Mrs. Chas. Calkins and family of Lewiston; Pierce Blewett, Culesac; Misses Janet and Arla Blewett, Clarkston; Aaron and Rex Blewett of Kendrick; Mr. and Mrs. J. L. Sherbon and Aletha Jane Blewett, Gifford, and the honoree, Mrs. Lilly M. Blewett, of Clarkston.

### Repair Presbyterian Church

The west end of the Presbyterian church is receiving a new roof and other work will be done on the interior, as well as bracing and repairing the floor, which has given away in many places.

## Mr. and Mrs. Blevins Leave

Mr. and Mrs. T. C. Blevins left Kendrick last Saturday for Helix, Oregon, where he will be in charge of a section, having been transferred from Kendrick to the Oregon section.

Mr. and Mrs. Blevins have been residents of Kendrick for the past 23 years and Mr. Blevins has been in charge of the local section of the Northern Pacific for many years. He knows his job and can do it well.

## CLOSE LARGE AREA TO ALL BIG GAME HUNTING

Notices have been received from Jess Robertson, district game warden at Kamiah, that a block of about 200 square miles in the west portion of the Nezperce national forest has been closed to all big game hunting.

The area covers the drainages of Clear creek, Pete King, Gedney, and O'Hara creeks and to the national forest line. Closing is to protect brood stock. The order effects only big game and leaves the area open to bird hunting and fishing.

Grouse, said Mr. Robinson Monday, are quite scarce this year, the warden attributing the scarcity to a short berry crop. —Daily Star-Mirror.

Consternation and very extreme expressions of displeasure were heard on every side in Kendrick Tuesday morning after the notice appeared in daily papers. The Kendrick sportsmen, as a whole, have never approved of the opening of the game preserve to special hunts by permits—and this last closing of popular hunting territory for Kendrick sportsmen seems to be the last straw. Almost to a man Kendrick big game hunters are of the opinion that this closing is simply a move to force those who wish to hunt to buy special licenses for the game preserve—the sale of which it is reported "is not going over so hot." Income seems to be all that matters to the game department anymore—and they are going to get it even though they sacrifice the great game reserves created through the years by their predecessors in that department. It's time something was done to stop it.

If sheep were kept off the winter feeding grounds of elk and deer "special hunts" would not be necessary, nor the closing of this and that area and the opening of this or that section of game preserve. We are of the opinion that the sooner the state game department is taken out of politics the better off the state will be!

### Building Improvements

The Kendrick State Bank has just completed the redecoration of the banking building, which adds very materially to the inside appearance.

Blewett's Grocery has just completed the painting of its front in cream and black. It certainly helps the appearance, as paint always does.

Thurber's Cash Store is installing a number of new shelves, painting and kalsoming. Every bit of paint used either inside or outside of a building helps appearances.

### Work Soon Start On New Depot

According to reports from Moscow work will soon be started on the new union depot to be erected in that city by the Northern Pacific and Union Pacific railway companies. The building is to cost \$40,000 according to reports.

### Fix and Clark Elected

At the election held in the Julietta school district September 7, Ira Fix and Walter Clark were elected directors for a term of three years each. Mr. Fix and Mr. Clark are both old-time residents of Fix ridge and know well the needs of the district.

### P.-T. A. Meeting

The Parent-Teachers association will hold its first meeting of the year Monday evening, September 20, at 7:30 in the high school auditorium.

A very interesting program is being prepared and it is hoped the parents will come out and become acquainted with the teachers.

This invitation applies to all parents having children attending the Kendrick school, whether they reside in Kendrick or out of town.

Buy it in Kendrick.

## WHEAT MARKET UNSETTLED — FEED GRAINS STEADY

Domestic wheat markets continued unsettled during the week ending September 10, influenced principally by irregular foreign markets which reflected uncertain crop prospects in the southern hemisphere and the strained political situation abroad, according to the Weekly Grain Market Review of the Bureau of Agricultural Economics. Feed grains were steady to somewhat higher with a more active inquiry for the moderate offerings.

The general wheat situation remained unsettled with world trade limited by the critical political conditions in Europe and the Orient, a slow demand from importing countries. The strengthening influence of hazardous shipping conditions was modified by increased offerings of Russian grain and more favorable prospects for wheat in Australia and Argentina. Russia reestablished a grain selling agency at Rotterdam and heavy sales were reported.

North American wheat supplies, according to the latest trade estimates, are about 80,000,000 bushels larger than last year which suggests somewhat larger quantities available for export than a year ago. The United States crop totals 885,950,000 bushels according to the September 1 estimate. Adding the carry-over of old crop wheat and combining Canadian supplies, including the bonded wheat in the United States, with seasonal supplies for the United States, gives a total of approximately 1,202,000,000 bushels compared with 1,121,000,000 bushels a year ago.

Domestic cash wheat markets fluctuated with futures and advanced early in the week, but turned downward toward the close. Marketings of both winter and spring wheat decreased and milling demand was fairly active. Premiums for cash grain were well maintained at most markets. Receipts of winter wheat at the principal terminals dropped to 1,585 cars but were still about 50 per cent over those of a year ago. A large proportion of the arrivals continued to grade low because of light test weight, although improvement in quality was noted at several points. Current offerings sold readily at Kansas City and at the close of the week No. 2 hard winter was quoted at \$1.07 to \$1.12. No. 1 hard winter was quoted at Fort Worth at \$1.18 to \$1.21 and soft red winter at \$1.18, delivered Texas common points. Small percentage of the St. Louis receipts were of low test weight and premiums increased. Cash prices followed futures rather closely at Chicago, where No. 2 soft red winter sold at \$1.09 to \$1.13.

Marketings of spring wheat fell off materially with a total of 2,072 cars at Minneapolis and 1,039 at Duluth. The test weight continues to average around 53½ pounds. Durum wheat was barely steady as a result of liberal offerings. The Duluth December declined ¼c and closed September 10 at \$1.00.

Intermountain and Pacific Coast markets were rather irregular. Denver mills advanced bids on No. 2 hard winter and No. 2 northern spring to 92c per bushel FOB Colorado shipping points. Mills at Ogden raised bids on No. 2 soft and hard white and No. 2 northern spring and hard winter to 81c per bushel FOB Utah-Idaho common points.

Prices at Portland declined 1¼c to 20c per bushel with only moderate inquiry for current receipts, which totaled 943 cars at Puget Sound and Columbia river terminals. Mills continued to be the principal buyers since sales to middlewestern and to eastern markets were very small and export business was still lacking. Sales of flour to the Philippines were fairly large, totaling 17,272 barrels, with indemnity payment on September 9 reported at 20c per barrel. The trading basis on wheat at Portland was changed from "arrival in 10 days" to "15 days shipment." At the close of the week hard white (Big Bend bluestem or baart) was quoted at Portland at \$1.05 and local northern spring at \$1.15, soft white and western white at 96c, hard winter and western red at 96c per bushel, all basis No. 1 grade, sacked. At Seattle western white was quoted at 95c, western red and hard winter at 96c, hard white (baart) at 95c and dark northern spring from Montana at \$1.35 per bushel.

Foreign wheat markets were also

Morning Worship at 11:00 a. m.  
Christian Endeavor at 7:30 p. m.  
Evening Worship at 8:30 p. m.  
You are cordially invited to attend.

**Another Double Bill**

The first picture will be about the Wheelers, the daffy family created by Booth Tarkington, who come to the talking screen for the first time in "Clarence," which will be the offering at the Kendrick Theatre this Friday and Saturday nights. The Wheelers are a typical American family, slightly on the balmy side, consisting of a father, mother, son and daughter, both in their teens.

The daughter is at the stage where any man in his thirties, particularly if he is slightly gray around the temples and has traveled a bit, is a romantic and glamorous figure. The son also has a yen for women much older than himself and falls in love with his sister's governess. It's a riot from start to finish.

This will be followed by "Heart of the West," another thrilling Hopalong Cassidy picture. This, of course, is another real western and deals with the cattle country.

If you trade in Kendrick your dollar has a good chance getting back to you again. Out of town—no!

**THIS AND THAT ABOUT FRIENDS AND NEIGHBORS**

D. R. Lyle spent the week-end in Lewiston with his parents.

J. M. Lyle, Jr., was in Moscow and Lewiston Saturday on business.

Mrs. Paul Griffith of Lewiston was a week-end guest at the McCreary home.

Mr. and Mrs. Earl Farley of Peck visited Monday in the home of Mr. and Mrs. L. Herres.

Mr. and Mrs. Fred Crocker visited at the home of Mrs. Emma Gladden at Deary last Sunday.

Warney and Archie May and Walter May left Friday morning of last week for a moose hunt in Canada.

LaQueta Mendenhall of Lewiston spent a few days last week with her grandparents, Mr. and Mrs. Fred Crocker.

L. A. Wallace came home from his work for the week-end and brought John home with him. John entered school here Monday.

Doris Crocker and a girl friend of Lewiston spent the past week visiting with her parents, Mr. and Mrs. Fred Crocker.

Maxine Keene left Wednesday evening for Pocatello to continue her studies in the southern branch of the University of Idaho.

Dr. G. W. McKeever left Monday for Wallace, where he will attend Masonic grand lodge. He plans to return Sunday.

Elmer Emery visited with Mrs. D. Randolph, in Clarkston, on Monday. Mrs. Randolph was formerly Mrs. Elmer Emery, Sr.

James B. Fiske and daughters Sally Ann and Jean Louise and Mrs. Gertrude Thomas and son John of Spokane visited recently with Mr. and Mrs. Harley Perryman.

Mr. and Mrs. O. D. Reinemer and daughters Carol Marie and Kathleen of Dishman, were callers at the Harley Perryman home Sunday morning.

Mrs. W. A. Watts and Joe and John Waide motored to Pullman Tuesday to spend the day visiting the home of Mr. and Mrs. Bya Davidson.

Mr. and Mrs. John King of Clarkston visited Sunday in the home of Mr. and Mrs. F. H. Rider. Mr. King who taught in the high school here last year, is assistant traveling supervisor of the Safeway stores.

A. Wilmott returned to his home at Tempe, Arizona, Saturday morning of last week. He was accompanied home by Herman Schuppe who will visit with him there for about 10 days.

Mr. and Mrs. R. B. Knepper and son John of Salmon, Idaho, spent Saturday afternoon and night at the W. A. Watts home. John remained until Tuesday, when he was taken to Moscow by Joe Watts, where he enrolled in the U. of I. for the year to come.

**Ladies Aid Meeting**

The Ladies Aid of the Methodist church met last Friday afternoon in the home of Mrs. L. Herres. The time was spent doing fancy work for the bazaar to be held this coming winter.

Delicious refreshments were served by the hostess at the close of the afternoon.

**Eastern Star**

Canyon chapter No. 67, O. E. S. held their first fall meeting Tuesday evening of this week. Future meetings will be held on the second and fourth Tuesdays of each month.

**PUBLIC SALE**

At the H. O. Weyen ranch, 3 miles east of Leland, on

**Monday, Septemb'r 27, 1937**

Commencing at 10 A. M., the following property:

**HORSES AND EQUIPMENT**

- 5 Head of work horses
- 1 Set harness, halters and rope
- 1 Saddle and 1 riding bridle

**CATTLE**

- 2 Milk cows
- 1 Calf
- 5 Dry cows

**9 HEAD OF HOGS**

- 1 Duroc brood sow — to farrow soon
- 7 Shoats, weight about 150 each
- 1 Male hog, weight about 400

**MACHINERY**

- 1 2 1/4-inch Winona wagon and rack
- 1 Cletrac 20 tractor — model A. G.
- 1 Case tractor disc
- 1 3-bottom 16-inch tractor plow
- 1 John Deere manure spreader
- 1 Riding cultivator
- 1 Garden cultivator
- 1 Tractor cultivator
- 1 16-inch walking plow
- 1 garden plow
- 1 bundle rack
- 1 9-foot Van Brunt drill
- 1 6-section harrow
- 1 3-section spring tooth harrow
- 1 bean cutter
- 1 3-horse Fairbanks-Morse engine
- 1 John Deere engine and washing machine
- 1 feed rack
- 1 Dane mower
- 1 rake
- 1 7-foot roller
- 1 Fanning mill
- 2 hog houses

- 1 lawn mower
- 2 hay sleds
- 1 Jackson hay fork and about 200 feet of cable
- 1 platform scales
- 1 water trough
- 1 wheat treater
- 1 tank heater
- 1 pump jack

**HOUSEHOLD GOODS**

- 2 telephones
- 1 cream separator and cream cans
- 1 Charter Oak range
- 2 dining tables and chairs
- 1 buffet
- 7 kitchen chairs
- 1 wood box
- 1 kitchen work table
- 1 breakfast table
- 2 linoleum rugs
- 1 125-pound anvil
- 1 couch
- 1 Zenith radio and wind charger
- 1 Crosley radio
- All cooking utensils, dishes, etc.
- 1 ice box
- 1 kitchen sink
- 4 bedsteads and springs
- 1 mattress
- 1 dresser
- Window shades
- 1 book shelf
- 1 rocking chair

**MISCELLANEOUS**

- 1 forge and all blacksmith tools
- Considerable bean straw
- 3 dozen chickens
- Gas lamp and lantern
- 1 bean fork and 2 hay knives
- Garden tools, axes, pitchforks, gas barrels
- Many other articles too numerous to mention.
- Chicken wire

# HARVEST IS ALMOST OVER

## And Harvest Accounts Must Soon Be Settled

Harvest is the season of the year when almost every farmer has need for his credit — and Kendrick merchants have been glad to extend that credit — even in the face of rapidly rising prices — a condition beyond the control of anyone. But those same rapidly rising prices caused the merchant to be forced to refill his stock at higher prices — this in turn placed a real strain upon his credit and his finances.

You, Mr. Farmer, can readily see the position in which he was placed. Therefore — as you have received the necessary credit — help the man who helped you keep his credit good. If you cannot at this time pay all your account — pending the completion of harvest — pay what you can. Every dollar helps.

Credit is an unseen asset for everyone. He who neglects to keep his credit good is in almost the condition of "a man without a country." Therefore, in fairness to all pay your harvest accounts as soon as possible. Your business is appreciated and will continue to be if you maintain your credit.

We are prompted to sponsor this message to the people of Kendrick and vicinity through our interest in community welfare.

### ECONOMIC HIGHLIGHTS

"Business as usual" describes the commercial picture today. During recent weeks, there have been no marked changes either upward or downward. The high level attained during the spring has been maintained this summer, when seasonal adjustments are made.

To quote Business Week, "Business sentiment is obviously improved now. The President's court bill has taken a trimming. Though all is not exactly quiet on the labor front, it is definitely better than it was." Another encouraging factor, in the view of business men, is Congress' apparent reluctance to okay major "experimental" legislation. It now seems probable that adjournment will take place within two weeks.

As this column has remarked before, the noticeable upturn in optimism on the part of business men is one of the most important of recent developments. Last year, for instance, and early this year, many leaders were frankly skeptical of the basic soundness of the recovery movement—they regarded it as a boom bubble that might burst at any time. They still don't feel that, regardless, the underlying structure is as solid as it might be—but they are definitely more hopeful that needed corrections will take place.

Here are some business briefs of interest:

**Agriculture:** Big crops are being harvested and prices are good. There is an acute shortage of farm labor in many states, even though wages have risen materially. On July 1,

the farm labor supply-demand ratio was the lowest since late 1923.

**Automobiles:** This June passenger car registrations totaled 336,000, as against 369,000 in June, 1936, and 280,000 in June, 1935. Thus sales are tending to slacken. This is to be expected, in the light of the remarkable demand for new cars the public has shown for two years. It is possible that a temporary "saturation point" is being reached. However, sales of higher priced cars are going up.

**Railroads:** Will benefit from increased farm production this fall. The industry is now carrying on wage negotiations with its unions and it is expected that compromises will be reached, with wages somewhat increased. Management-union relations have reached a high standard in this industry and no one anticipates strikes or other disturbances.

**Advertising:** Is up in all branches, with biggest gains registered by magazines, whose lineage is now at its highest points since June, 1930. Farm papers ran second in percentage increases, and newspapers third.

**Utilities:** It is forecast that telephones in service will reach record proportions early next year—first half installations totaled 529,000. Light and power companies are doing well so far as production and sales are concerned—their big problem is still legislative. The Supreme Court's decision on the holding company act will be of vital importance to this industry. The decision will probably be handed down in the early fall.

**Construction:** Two well known economists, writing in Fortune, forecast a home building boom that will start soon and continue until about 1943. Builders are working on the problem of furnishing attractive, efficient, low-cost houses for families in the \$25-\$30 a week income group. Not much is expected from government efforts in this field.

**Foreign Trade:** Is getting better slowly. Great hopes are held for the new gold agreement just effected with Brazil, which is supposed to greatly widen our market there. European and Oriental trade prospects are unpredictable in view of wars and war scares.

**Stocks and Bonds:** Are stable, with the general tendency upward. Practically everyone anticipates higher values for securities this fall and winter.

**Steel:** With labor difficulties over

for the time being, steel mills have recently been operating at more than 80 percent of capacity—a very high summer rate.

**Retail Prices:** Continue upward. There is said to be definite consumer resistance to high prices in some lines, notably meats, which is reflected in declining consumption.

### BIG BEAR ITEMS

James B. Fiske and daughters Sally Ann and Jean Louise, Mrs. Gertrude Thomas and son John of Spokane were visitors at the Morey and E. Galloway homes over Labor Day. Miss Sally Ann remained here for the week.

Miss Eula Huffman and Henry Galloway visited friends in Genesee Sunday.

Art. Needham of Spokane recently visited relatives and friends here. Milo Slind was a ridge visitor last week.

Mr. and Mrs. O. A. Reinemer and daughters Kathleen and Carol of Dishman, Wash., Mrs. Cecil Chamberlain and son Jerry, Mr. and Mrs. Ed. Galloway and Mrs. Harley Perryman were Sunday visitors at the Morey home.

Stanley Sneve spent the week-end in Genesee.

### Idaho Voters Have New Ballot

In about a year Idaho's voters will go to the polls to use for the first time a primary election ballot authorized by the 1937 legislature.

Candidates for all parties will be listed on the 1938 primary ballot and a voter no longer will have to announce publicly his party affiliation.

He may vote, however, only for candidates of a single party.

### Try Again

The government is selling its own rum, a Roosevelt married into the Du Pont tribe, and still the budget won't balance. We must try again. —San Francisco Chronicle.

### WHEAT MARKET UNSETTLED — FEED GRAINS STEADY

The advance which occurred early in the week at Liverpool as a result of the unsettled political situation was checked near the close by increased Russian offerings. Prices of foreign wheats were higher toward the close of the period compared with a week ago. The San Francisco wheat market advanced 2c to 3c per bushel while

prices at Los Angeles declined about the same amount. Light offerings of growers with a more active inquiry from millers and feeders were the principal strengthening influences. The Winnipeg market advanced about 3/4c as a result of firmness at Liverpool but export demand was light while country offerings remained large. No. 3 Manitoba northern was quoted at Winnipeg at the close of the market September 10 at \$1.20.

Pacific Northwestern barley markets maintained a steady tone as trading and movement increased, reflecting the fairly good inquiry for both feeding and malting barley. Some frost damage was reported while rainy weather lowered grades in the Willamette valley. Feeding inquiry continued fair. Arrivals at Portland during the week totaled 61 cars, bringing the total since July 1 to 125 cars compared with 457 cars for the same period last year. No. 2 bright western barley testing 45 pounds, was quoted at Portland at \$1.37 1/2 per 100, sacked basis.

Oats markets were generally very steady to slightly higher. Pacific Northwestern markets displayed a firmer tone influenced by the firm holding tendency of growers. Only two cars arrived in Portland during the week, bringing the total receipts since July 1 to 28 cars, compared with 175 cars for the same period last year. No. 2 white oats were quoted at \$1.15 per 100, sacked basis, with No. 2 gray oats around \$1.30 per 100, sacked.

### Leland School News

School began September 6 with a total enrollment of 45 as compared to 62 last year. The enrollment is distributed as follows: High school, 9; Intermediate room 16; primary room, 20.

The subjects being offered in the high school are: English I and II, U. S. History, Algebra, Geometry and General Science.

In the primary room a museum has been started and a number of articles are being added each day. This week the library corner is being arranged with tables and small chairs which the boys are constructing.

In the Intermediate room the library corner has been moved and enlarged. Room officers for the first semester were elected last Wednesday as follows: President, Beulah Draper; Margaret Meyer, vice president; Irene Peters, secretary; Vivian Draper, treasurer; Margaret Meyer, commissioner of playground; Vivian Draper, commissioner of athletics; Irene Peters, commissioner of school room.

The following eighth grade students have been appointed librarians and who have complete charge of the library during different periods of the day: Margaret Meyer, Maxine Arnold, Beulah Draper and Emma Lou Vincent.

Sandtables are to be put in both the primary and intermediate rooms soon.

### War On Three Fronts

The furious fighting between the Chinks and the Japs, the Civil war in Spain and the scrap going on between C. I. O. Lewis and A. F. L. Green, gives the people of the entire world, including the U. S., something to think about.

Away back in the 90's when John L. Lewis was elected head of the United Mine Workers, at a convention held in St. Louis, every line of industry and trade rejoiced as he was conceded, at that time, to be the one and only man that could lead the miners out of the wilderness and avert strikes, which, very naturally, dulled all lines of trade, the same as today, when strikes in almost every line of industry are paralyzing business in one branch or another. And John did, in those days, accomplish much for the miners, and others, by averting the threatened strikes in the coal fields. However, since his splitting with the American Federation of Labor and organization of the C. I. O., he has apparently become drunk with power and now goes so far as to state that there will be something doing at the polls, just because he cannot tell President Roosevelt what to do and when to do it. He says he gave the democratic campaign fund \$500,000 and by this token should have a "say" in what shall and shall not be done—and he intends to have a reckoning when election day comes around again.

### Idaho Offering Free Schooling

Coeur d'Alene—Announcement was made here by Ivon R. Robinette, area supervisor of adult education for north Idaho, that afternoon and evening classes in art, handicraft, diesel engines, arithmetic, Americanization, citizenship, shorthand, book-keeping, office management, typing and classes for the blind will start September 7 in Lewiston, Moscow, Coeur d'Alene and Sandpoint.

Also available are correspondence courses in aeronautics, arithmetic, auto mechanics, blue print, book-keeping, business law, consumer's education, diesel engines, English, forestry, highway safety, journalism, mental hygiene, pen lettering, photography, psychology, placer mining, radio, soil and water conservation.

The courses are made available by the WPA and are sponsored by the state department of education. They are free to anyone 16 years or older and not attending any school.

Latah County Ranks High  
 Latah county ranks third in Northern Idaho in total valuations for taxation purposes, according to a tabulation released by Harry Parsons, state auditor, from data considered by the state equalization board at its recent session. This includes total real and personal property and public utilities.

Latah county's valuation for taxation is \$13,884,686. Shoshone county tops the north with a valuation of \$22,052,676, while Ada county (Boise the seat) heads the state with \$30,138,909. Second in the north is Nez Perce county with \$15,155,740. In fourth place comes Kootenai county with \$12,937,845.

On the total valuation of \$381,047,373 for the state, it will levy 50 cents per \$100 to produce approximately \$1,905,000 for state ad valorem requirements. The equalization board valued utilities at \$105,335,185. Railroads were listed at \$69,191,176; power companies \$28,401,692; telephone companies, \$5,008,956; telegraph companies \$790,244. Total real and personal valuation was set at \$270,815,374.

### A Building Tip

Here's a tip for those around who postponed their building or improvement plans in early spring because of a slight advance in the price of hardware and building materials. Prominent contractors in the larger cities are said to be rushing through orders for the fall delivery of building material in the belief that the real tilt in prices is going to come in 1938. If the big fellows are of the opinion that it will cost far more to build, or make improvements, next spring than it will this fall, then the little fellow should profit by the hint. There's going to be a lot of good building weather between now and the first of the year. If it is a small job, it can be done as quickly between now and winter as it would require at the opening of spring. Or, in the event it is not convenient to do the work this fall, then there is still a chance to avoid next year's predicted rise in prices. Buy whatever building materials you are going to need now and be on the safe side.

Says:

LET'S TALK ABOUT TAXES

It is interesting to note that David Lillienthal, power director of the Tennessee Valley Authority, and a favorite of the present administration, said in a speech delivered at Memphis, Tennessee, October 17, 1933:

"The item of taxes in public power operations has been the subject of confusion and misinformation. The principle, as I see it, can be worded this way: A public power system should bear the burden of taxes which it would pay if it were privately owned. A public power system should contribute its share of taxes to the general fund."

In 1936, the private electric utilities paid the following taxes in Idaho:

Property taxes	\$-993,705.39
Kilowatt hour taxes	250,000.00
State income taxes (approximate)	150,000.00
<b>Total</b>	<b>\$1,393,705.39</b>

In the entire state of Idaho there are 150 cities and towns. Seventeen of these have city owned electric systems.\* These city owned electric systems pay NO taxes.

The failure of these city systems to pay taxes means higher taxes for the farmers, homeowners and taxpayers generally.

**Short Courses At U. of I.**

Dates for short courses in commercial dairying, motor mechanics, carpentry, and diesel engines have been announced by the University of Idaho college of agriculture.

The commercial dairying course opens October 18 and covers five months. The course is planned to give a practical working knowledge of modern dairy manufacturing methods. Complete information on the course may be secured by writing the dairy husbandry department.

Trades training courses in motor mechanics and carpentry start September 20 and extend throughout the college year. These courses, of a highly practical nature, are conducted in cooperation with the state department of vocational education.

The diesel engines course opens October 25 and ends March 5. Work covers engine operation and repair, including truck, tractor, and stationary power application. Write department of agricultural engineering for details of motor mechanics, carpentry, and diesel courses.

**Threats Of War**

The fact that Russian army aviators recently made a non-stop flight from their own country to the western coast of the United States does not mean a thing to the average American citizen. But when, after the feat is accomplished Russia boastfully announces that "We have demonstrated Russia's ability to successfully attack by plane the capital of any other nation," then Mr. Average Citizen is apt to sit up and take notice.

Russia's boast sounds very much as though she is lifting a chip to her shoulder, and may in time to come invite this country to knock it off. And the American people are not interested in invitations of that nation. That a great war, possibly a still greater one than the world has yet witnessed, is in the making, no one doubts. With Italy, Germany, Japan and Russia working as never before to build up armies and navies, and munition factories working night and day, it is difficult to see how war can much longer be averted. That this country would eventually become involved is also a matter of general belief.

While no one wants the United States to stand idly by and fail to make all necessary preparations to protect herself, everyone does hope that a way will be found, when the lid blows off and the Old World again goes on a rampage, that this country will be able to remain out of it. Threats such as Russia makes can very well go unnoticed. It is going to take a pretty strong invitation next time to get the U. S. to enter into hostilities against any

other nation. But it is comforting to know that she will not be found unprepared, as she was in the World War, and also worth something to know that her experiences in that titanic struggle will serve to stand her in good stead now.

**Summer Fire Losses**

While the report of the U. S. Forestry Department that extensive forest fires are not so numerous this summer as last, there is much to ponder over in a statement from the same authority that farm fires are running ahead of 1937.

The statement comes right at the most dangerous season of the year, and at the very time when more than the usual precautions must be taken against this destructive menace. Just at this time every section of the country is a veritable tinder box. Forests are dry, weeds and grass along the highways are ready to spring into flame from the tiniest spark. More campfires are being built then during any other month, and more vacationists are traversing the heavily wooded sections of the country.

If ever a warning against the careless use of matches and cigarette stubs was timely, it is right now. If ever a motorist is warranted in going to extremes to avoid causing a fire in rural areas, it is right now. And the warning cannot be made too emphatic. Break your matches before tossing them out of the car window. Extinguish every cigarette stub before dropping it. See that the camp fire embers have been smothered before driving away. Don't bring sorrow and financial

loss to your fellowmen through carelessness.

**The Innocent By-Stander**

The public is the "innocent bystander" in the strikes that are being waged all over the United States. Men, women, and children, who have no interest in the strike between employers and employees, or between rival unions are made to suffer severely through no fault of their own because these interests cannot agree. At Seattle a strike against the Seattle Star, which closed that institution for days and threw many men and women out of employment, grew out of a dispute between rival labor unions as to which had jurisdiction over the circulation of The Star. There was no quarrel with the management of The Star. No dispute as to the wages and hours. The employees were satisfied and so were the employers, but rivalry between the Newspaper Guild and the Teamsters' Union as to which had jurisdiction over the circulation of the Star, closed the plant and threw a large number out of employment and cost the employers large sums.

At Buffalo, New York, men, women and children are hungry because of a strike of union grocery truck drivers, who have cut off the food supply from thousands of homes and tens of thousands of persons who have a right to buy food and supplies for their own sustenance, but cannot do so, because a labor leader has called a strike to enforce his demands and build up a political machine for his own aggrandizement.

On the Pacific coast last year tens of millions of dollars in wages were

lost to workers and greater sums to ship owners, farmers, merchants and others because of a strike called by rival marine organizations for control of deep sea vessels plying the Pacific coast. Farmers lost heavily because their products could not be shipped. People actually suffered for want of food products that must be imported from other countries and almost all citizens of many states suffered loss because of this strike.

Yet those who suffered had no interest in the issues that brought about the strike. They only wished to carry on their own way, sell what they produced and buy what they needed, yet were denied this privilege, because heads of rival unions were fighting for mastery of sea-going vessels. The injustice, unfairness and wrong of a system that permits such things to occur will, some day, put a stop to it and bring quarreling labor leaders to a realization that the public has some rights which even labor leaders must respect.

Two new Islands have appeared in the Pacific. The more Secretary Wallace works and spends to keep land out of production the more there seems to be.

If you don't believe that modern education is accomplishing something, just take time to remember that twenty years ago hardly any school child knew the rules of basketball.

Since the part of an argument most enjoyed by an average man is his own talk, then he ought to confine his arguments to himself.

WE NEED MORE CONTENTED COWS  
HAROLD THOMAS, Editor

### EDITORIAL

Well, Folks: Here it is the middle of September, and so far it has been ideal harvest weather. But after harvest, what? Does your income cease, or do you go right on enjoying a cash income all through the winter from your cows? If you don't, you should!! In the old days when cream was shipped and you had to wait for the can to come back, perhaps the bother wasn't worth it. But when we pay cash on the spot, sterilize and return the can right now—it means cash!

Cutey: "There's one thing I

want to tell you before you go any farther."

Dick: "What is it?"  
Cutey: "Don't go any farther."

"He was a great guy when he had it."

"Yeah, many's the time I've helped him drink up his relief check!"

Boarder: "What kind of soup is this, chicken or vegetable?"  
Waitress: "Wasit taste like?"  
Boarder: "Gasoline."  
Waitress: "Must be chicken, the vegetable soup tastes like turpentine."

### LELAND NEWSLETTES

Rev. Shangle, presiding elder of the Northwest conference, was a weekend guest in the Rev. Metcalf home. He delivered the morning address Sunday, at the close of which a basket dinner was served.
