GRAIN MARKETS UNSET-TLED - WHEAT FIRMER

Domestic grain markets were rather unsettled during the week ended February 4, states the Weekly Grain Market Review of the High scores for the evening were Bureau of Agricultural Economics. Wheat advanced slightly, influkets abroad, reflecting the unsettled political situation in Europe. Feed grains were barely steady to slightly lower with larger marketings of corn and a further slackening in export demand the principal weakening influence.

A generally unsettled situation prevailed in the wheat market with uncertain domestic crop prospects and political developments abroad the principal disturbing influences. Severe dust storms with low temwinter wheat in central Kansas and west central and north central Oklahoma. In most of the northern states of the belt, the snow cover was insufficient to protect the crop. European prospects are variable with a good snow cover reported in most of the Danube basin Excessive moisture has caused some damage in France while alternative freezing and thawing has caused some apprehension in Germany. Domestic cash wheat markets were firmer with futures but milling demand was rather slow and export sales were relatively small. Supplies of United States wheat remaining for export January, through June or for carry-over at the close of the season are estimated at around 260,000,000 bushels, allowutilization instead of 350,000,000 as was incorrectly reported last week.

Well, Folks-January has turned into February — and more water has gone under the bridges. Spring approaches, but green grass for pastures is not yet here, so don't expect too much of your cows unless you still feed them well. Good feeding is productive of more cream and more cream means more income—so why not feed better and get more cash from us?

We believe if you try this very simple process you will be extremely well satisfied with the results.

State Representative Wm. Smith, also a member of the Deary deleration, spoke along the same lines and took occasion to compliment the Kendrick Commercial club on the good work it is doing in the community. Mr. Smith said that the people of the Deary section ould like very much to see the highway finished through from Arrow to Deary.

E. S. Sunkle, superintendent of the Deary school, also spoke along the line of having the road completed from Arrow to Deary, which or course, was the prime reason for the visit of the Deary delegation—to ask the endorsement of the Kendrick Commercial club of a petition which would be sent from Deary to the State Highway department. He stated that they realized that it would be necessary for all to work together in order to obtain the best results.

while no concrete action was taken, the Deary delegation was liven to understand that they would have the endorsement of the Kendrick club to their petition asking completion of the "missing link" of gravel between Kendrick and Deary. The matter was left in the hands of the Highway com-

mittee. A swimming pool was also the topic of some discussion, but hardly enough figures on the final cost had been obtained to enable any action on recommendations and that, too, was left with the committee that have it in charge.
