BUDGET PLAN A GUIDE TO SYSTEMATIC SPENDING

"How much do I own?" "How much do I owe?" "What am I worth?" "What plans can I make in 1938 to get further ahead?"

A five-cent lead-pencil, a few sheets of paper or a good record book and a little figuring over a cup of coffee at the old kitchen table—with the "Mrs." and the older boys and girls "sittin' in"—often proves to be the most profitable move a farm family can make at this time of year when a new season will soon be under way.

Present-day farming is a complex business that requires a lot of hard thought and systematic planning by the whole family. Many families have found an annual inventory very practical to bring out the answers listed at the top of the column—and they follow up their inventory with determined plans to make next year better, either by figuring out ways to trim their expenses or ways to build up their income; and thereby enjoy a better way of living.

Trying to increase the margin between income and outgo is a hard problem these days, but there's no better formula for success. Wise spending may frequently be one solution—making every dollar do its full duty, cutting the corners wherever possible and plugging the little and big leaks.

As a guide to systematic spending, both for household purposes and farming operations, a simple budget usually pays big dividends—planning out how next season's returns are going to be spent so as to give the best possible living and the best possible financial progress. As one important detail these plans might include a determined program for getting out of debt just as rapidly as farm earnings will permit. One if the family is fortunate enough not to have any indebtedness, it's a smart plan to lay a little money religiously aside in a cash reserve, if at all possible.

Becoming a better business manager is just about as important these days as knowing how to do a good job of farming. That's why a family huddle this time of year to study and plan for the business side of farming is about the wisest way to start the new season.

Monopolies Control Prices — Borah

Washington, Feb. 14.—Monopolies are breeding in this country a condition which leads to revolution, Senator Borah (R., Ida.) told the senate today.

In a speech which may be followed in the next two or three weeks by a presidential message on the same subject, "the 'Lion of Idaho' questioned whether the new farm and housing bills would do any good unless congress acted at this session against private price-fixing.

"We find that the food supply of this country is under the control of a few corporations, that these corporations fix the prices and that these prices are so fixed as to insure the corporation of a constantly increasing profit in this time of recession," he declared.

Eight per cent of the building materials needed for home construction also are controlled by a few corporations, Borah said.

Borah voted against the administration's new farm legislation, explaining he "could not bring myself to believe in any program which looks to the theory of reduction of foodstuffs" while "thousands are slowly starving."

It was a hard, fast game, and Kendrick led 12 to 6 at the end of the first quarter. For the rest of the game Orofino was a point or two in the lead most of the time. Kuykendall was high point man for Kendrick with nine points and Bechtol for Orofino with 17 points. The lineup follows:

Genesee Game

Tuesday afternoon about eighty students and teachers wound up and down Main street shouting "Your Pep" at the top of their voices. The cheer leaders claimed this was to arouse some basketball spirit for the Genesee game (just as if any more were needed).

The most exciting game of the season took place on Tuesday, February 15, in Kendrick, with Genesee. This game gave Kendrick another victory. When the final whistle blew the score was 33 to 31. The game was very close throughout, the score being tied six times during the game. The line-up follows:

Genesee	Position	Kendrick
Olsen (3).....	F.....	(7) Abrams
Scharnhorst (3).....	F.....	(2) Kuykendall
Thiessen (10).....	C.....	(2) Keene
Sampson (1).....	G.....	(12) Wallace

Substitutes were: Genesee—Armstrong (2); and Spinner (1). Kendrick—Weeks (5).

The local school band, directed by Mr. Hoisington, played before the game and at the half.

About 600 basketball fans witnessed the game. Genesee sent over four school bus loads besides many private cars, and Troy also sent over a bus load; there were many from Southwick and Juliaetta and, of course Kendrick was there en masse. The large Kendrick gym was filled to capacity.

The sub-district tournament will be held on Tuesday and Wednesday of next week. The district tournament will be held March 2-5, inclusive at Lewiston.

Parents Of Daughter

Word has been received that Mr. and Mrs. E. P. Litton of Coeburn, Va., are the proud parents of a baby girl, born February 4. Mrs. Litton will be remembered as Lillian Long.

KENDRICK UPSETS MOSCOW DOPESTER BY ANOTHER WIN

The item below was taken from the Moscow News-Review of February 1 from the column entitled "Our Corner":

"You can take your California Golden Bears and your Braddocks for springing the athletic upsets this season, but this clunk clings closely to little Genesee high school. The Geneseees literally shocked Valley league patrons by up-ending the Kendrick Tigers last Friday. And the Tigers were seeking their 15th straight victory, too. Tsk, tsk. . . That surprise goes to show you it's best not to stick the old nose over the trench edge. There are snipers in every league."

Editors note: Snipers in every league is right, and why the above self-named "clunk" should take it on himself to criticize the Kendrick Tigers for going out for their 15th straight victory is something we do not yet understand, but we believe his self-picked cognomen is indeed a fitting one, for in attempting to belittle the Kendrick team he has gained for himself and his paper nothing but dislike in this section of the country, and it is our suggestion that a good stiff lesson in sportsmanship might do the author of that article a world of good.

Genesee has a good team, and the game won from them by the Tigers last Tuesday night was by a margin of but two points, the final score being 33-31. The Genesee team and the Genesee patrons who followed that team to Kendrick were good sports. There was no beefing on either side by anyone, and the game was fast and clean from start to finish, the lead whipsawing back and forth within a four-point margin. Everyone got their money's worth in thrills, and that, all-in-all, is why we play basketball.

So perhaps it might be well for the Moscow writer to remember his own remarks: "That surprise goes to show you it's best not to stick the old nose over the trench edge. There are snipers in every league."

Entertain Friends

High scores for the evening were awarded Myrtle Schmidt and Billy Weyen, while low went to Theo Shepard and Leon Lind.

Refreshments were served at the close of the evening.

Bridal Shower

Dainty refreshments were served by the hostesses at the close of the afternoon.

Game Department Collects \$267,731

Idaho's game department collected \$267,731 during the year ending on Dec. 15, 1937, Game Warden W. R. McIntyre reported.

Receipts from license sales, fees and permits totaled \$247,852 and fur sales, fines and miscellaneous revenue aggregated nearly \$20,000 more. Receipts during the preceding year were \$256,056 McIntyre said. Resident fish and game licenses, with \$6,752 sold, returned the state \$164,828 while 81 non-resident fish and game licenses produced \$3,847.

Other licenses: 6,366 tourist 10-day fish licenses, \$12,095; 3,620 non-resident fish licenses, \$17,195; 1,166 resident trappers' licenses, \$5,538; 30,310 deer tags, \$28,794; 5,469 elk tags, \$5,195; 1,766 special elk permits, \$1,766.

Pass Crop Control Bill

A crop control bill, praised as "the best farm bill ever enacted" and denounced as "regimentation" and "more harness" for the farmer, received final congressional approval on Monday.

The measure, establishing a system under which the secretary of agriculture, in cooperation with farmer communities, may prescribe limitations upon the quantity of wheat, corn, cotton, rice and tobacco grown or marketed, was sent to the White House for the expected signature of President Roosevelt.

TREASURY TO USE GOLD AS CREDIT EXPANSION

Washington, Feb. 14.—The treasury administered a dose of potential credit expansion to ailing business tonight.

Secretary Morgenthau announced a plan for putting newly acquired gold to work in such a way as to increase the nation's credit base to a limited extent and to reduce the treasury's borrowing.

With the approval of the federal reserve board he decreed that a year-old gold "sterilization" program, under which gold has been prevented from enlarging the potential credit resources of the country, would be partially abandoned. Each quarter year, the first \$100,000,000 of gold the treasury acquires will not be sterilized. Instead, the treasury will spend the gold, and permit the yellow metal to expand the credit base.

No official explanation of the new policy was made, but it was attributed by authoritative persons to the business recession. The "sterilization" program was initiated Dec. 24, 1936, to neutralize the inflationary effects of the then huge inflow of foreign gold. Now little foreign gold is coming here and instead of rising prices, as it was a year ago, prices are tumbling, as are production and employment.

Authoritative persons intimated a hope that the action would have a slightly inflationary psychology but, particularly because of the \$100,000,000 quarterly quota system, declined to label the move as inflationary.

Deer Ate Farmers Hay

Jake Zachman of the Pine creek section of Okanogan, Washington, wishes somebody would do something about the deer. They are getting in his hay and his hair.

He came to town to try to get the game department to do something about a herd of 200 deer which he says are eating everything on his ranch like some many locusts.

"Yuh can't fence them out nor yuh can't fence them in," he declared. "They'll jump any danged fence you put up and they sure do like my hay."

And locally: Dennis Porter of Big Bear ridge is wishing much the same thing in regard to the herd of elk wintering in that section.

Last Thursday Mr. Porter loaded a wagon with corn and started from his home to his feed lot, the wagon pulled by a tractor. The tractor bogged down in a deep mudhole and Mr. Porter was forced to abandon the outfit until the next morning. But the next morning it was no problem to extricate tractor and load—for the load was gone—eaten up during the night by the elk—and a real job they did of it, it is said, for not a single stalk was wasted, everything was gone, and the tracks about the wagon told just where.

The elk herd, which is wintering near Atwater Lake is stated by the Galloway Brothers, to number at least 35 head, and possibly more.

County Budget Be Adopted

Two members of the Latah board of county commissioners met Monday morning, pursuant to law, and will adopt a proposed budget for the county for the year 1938, which has been set at \$157,000, which is \$16,779 higher than that of last year, it being explained that the raise was necessary to take care of the forthcoming elections this fall, an enlarged weed control program, and approximately \$1,400 to finance Latah county's share of the state's exhibit at the 1939 world's fair at San Francisco.

Commissioner Walter Driscoll is ill at his home near Troy and reports that he will be confined to his home for at least a month.

MARKET SLIGHTLY WEAKER — FEED GRAINS STEADY

Trading was rather slow in domestic grain markets during the week ended February 11, states the Weekly Grain Market Review of the Bureau of Agricultural Economics. Wheat declined slightly with milling inquiry dull and little interest shown by foreign buyers. Feed grains held practically unchanged with the moderate offerings sufficient for trade needs.

There was little change in the general wheat situation with nearly 40,000,000 bushels on ocean passage and with southern hemisphere shipments ranging between 5,000,000 and 6,000,000 bushels weekly. European importers were less concerned about supplies and demand was slow. Prices at Liverpool declined slightly and at the close of the week U. S. No. 2 hard winter from Gulf ports was quoted at \$1.25½, white wheat from the Pacific Coast for March shipment at \$1.12½ and Canadian No. 3 Manitoba at \$1.44 per bushel.

Domestic cash wheat markets were generally dull with a slack milling inquiry and slow export trade. Marketings of winter wheat increased materially with a total of 1,413 cars at the principal terminals. Local mills at Kansas City limited their purchases to special types needed for blending or replenishing of stocks. Storage interests took remaining offerings. Shipments exceeded receipts and storage stocks were reduced more than 1,000,000 bushels. At the close of the week No. 2 hard winter was quoted at 95c to \$1.02. Offerings were light at Fort Worth but exporters bids were mostly below market values and trading was slow. No. 1 hard winter was quoted at \$1.14 to \$1.16 and soft red winter at \$1.13 delivered Texas common points. Premiums held about unchanged at Chicago where No. 2 hard winter was quoted at \$1.01 to \$1.04 and No. 2 soft red winter at 97c to 99c. Offerings were larger at St. Louis but demand was more active with mills and order buyers providing the principal outlet. No. 2 soft red winter sold at \$1.00½ and No. 2 hard winter at \$1.02½ per bushel.

Trading was slow in spring wheat markets but receipts were slightly larger with 244 cars received at Minneapolis and 156 cars unloaded at Duluth. Only about 150 cars of bread wheat were offered for sale at Minneapolis and quotations were largely nominal with premiums almost unchanged.

Canadian markets were relatively firmer than domestic markets and prices at Winnipeg advanced about ¼c, influenced principally by rapidly diminishing supplies since export trade was only fair. Cash prices held about steady with some lowering in premiums about offsetting gains in futures.

Intermountain and Pacific Coast markets were unchanged to slightly lower. Mills at Denver were offering 87c per bushel FOB Colorado shipping points for No. 2 hard winter and No. 2 northern spring, while mills at Ogden lowered bids on No. 2 soft white to 73c and on No. 2 hard white, northern spring and hard winter to 71c per bushel FOB Utah-Idaho common points. Heavy precipitation was favorable for the crop over the central and northwestern portions of the wheat area.

The Portland market declined about 1¼c per bushel with No. 1 hard white (baart) quoted at 91c, hard red winter at 97½c, soft white and western white at 89½c and western red at 90c per bushel, all basis No. 1 grade, sacked. Receipts at Puget Sound and Columbia river terminals totaled 778 cars, mostly deliveries on previous sales. Local milling demand was slow because of the dull flour business and export sales totaled only about 6,000 tons. Growers were not pressing supplies at current values despite very favorable prospects for the new crop. At Seattle, western white was quoted at 89½c, western red at 90½c, hard winter 92c and hard white (baart) at 91c per bushel, sacked.

Pacific Northwestern barley markets were quiet but prices held about steady with a fair demand for malting types and a steady inquiry for feed grades from feed manufacturers. On February 10, No. 2 bright western barley testing 45 pounds was quoted at Portland at \$1.45 per 100, sacked basis, with malting quality Henchon at \$1.60

per 100. Eastern Washington white barley was quoted at Seattle at \$1.45 per 100, sacked.

Pacific Northwestern oats markets were mostly steady to unchanged compared with a week ago, with growers displaying a firm holding tendency and offerings at country points reported about in line with current market needs. No. 2 white oats were quoted at Portland on February 10 at \$1.35 per 100, with No. 2 gray oats at \$1.45 per 100, sacked basis. Eastern Washington white oats were quoted at Seattle at \$1.45 per 100, sacked basis. Inquiry from outside markets for Pacific Northwestern oats was slow but the market at the close of the week was firm with light offerings the principal sustaining influence.

TEAKEAN GOSSIP

We have at last got plenty of snow. It is drifted badly, too, but is not as deep as it usually is in February.

Mr. and Mrs. Merton Preussler are the proud parents of a boy, born February 9. His name is Melvin Eugene and weight seven pounds.

Stella Herring is working for her sister, Mrs. Merton Preussler and caring for the new nephew.

Mr. and Mrs. John Lind went to Kendrick last Sunday.

Mrs. Elwood Brock and both children, Dale and Clara, have been suffering with severe colds, but are improving.

The new Grange hall is under cover now, but there is quite a lot of work to do before it is finished. The Sunday School keeps going, but the attendance is small during the stormy weather. Last Sunday Mrs. Ellen Coe gave a reading about Lincoln, which was very interesting.

Our RFD man has failed to come two days on account of drifted snow.

Mrs. L. Schliefer, Mrs. Pearl Choate, Mrs. Anna Harless and Mrs. Carrie Herring were callers at the Merton Preussler home last week.

Wm. Groseclose and son Carroll are getting ready to build a new barn on the place. They are hauling timbers while the snow is here.

Elwood Brock has been hauling wood, taking advantage of the snow and bringing the wood in on a sled.

The Jones Family Again

America's favorite family, the Joneses, go yell-bent for election in their most uproarious hit, "Hot Water," their latest, which will be shown at the Kendrick Theatre this Friday and Saturday nights—when Dad tries to clean up the town and gets mud in his eye for his efforts. Dad's running for mayor; mother is running father; Roger's running a scandal sheet, and Jack's running after a blonde! It's fun from start to finish.

The second feature will be Smith Ballew in "Western Gold"—one of those real westerns.

NOTICE

A general meeting of the members of the Presbyterian Church, Kendrick, Idaho, will be held in the Village Hall, Friday evening, March 4th, 1938, at 7:30 p. m. for the purpose of voting on the question: "Shall we ask the Presbytery to continue the field at Kendrick, Idaho?" — and to transact such other business as may come before the meeting.

EDITORIAL
Well, Folks—Here it is the middle of February, we've had no real winter as yet—but Congress is making up for the lack of cold by making it hot for everybody in every way. The latest proposal is to regiment the farmer in every way possible and permit the land thus cast-off to be used to produce other crops. Looks like farmer will soon be run by the bureaus thus created. However—there is still one crop they haven't yet tried to regiment—butter fat, so better plan to cash in on it. Let us buy it. We pay cash!

"Did you get the number of that car that knocked you down, madam?" asked the bystander, rushing up to the unfortunate victim.
"No," she gasped, "but that hussy that was driving it wore a three-piece tweed suit lined with canton crep, and she had on a periwinkle hat trimmed with three artificial cherries!"

The Dictaphone is a valuable asset in any office. It never takes a man's mind off his correspondence by crossing its knees.

Read the Bullitin—keep posted.

Money isn't everything, but you never hear a poor man telling one of his creditors to "take it up with my lawyers."

Old-time fables started out with "once upon a time" but nowadays they start out with "there will be no new taxes."
