The sub-district tournament was videnced by good sportsmanship on the part of all teams present, and had a cup been awarded for sportsianship, it would have been a very difficult problem indeed to decide who should receive it. Not only was this in evidence by the teams them-selves, but by the fans who followed their favorite team, whether to the gym. on the hill, or from an out-of-town point to the gym. Must Read The Gazette You know there is just one way to learn whether people really read the paper, and that is to make either a grevious mistake or one that borders on the ludicrous. Well, last week the Gazette was "hard for room in the paper to put all the last minute news, so we had to do considerable "shifting" from place to place until it was made to fit, and in this shifting process the name of N. E. Ware was accidentally lifted from "Big Bear Brevities" and put in the reader concerning the Kendrick Theatre and it all happened to read very well. But of course we came in for our share of "kidding" as some people said they were disappointed because they failed to see Mr. Ware cutting "didos" in the picture.

Just Around the Corner?

There are so many things "just around the corner" that it hardly seems possible that there would be room for "Spring," but it is evident that that dainty little youngster is not far in the offing. Many yards in Kendrick have been cleaned of the winter's accumulation of leaves and some of the early "scratchers" in the dirt are looking their garden plots over with an eye

MARKET SLIGHTLY FIRMER WITH IMPROVED DEMAND

Wheat markets turned slightly firmer during the last week in February despite some improvement Weekly Grain Market Review of the purchases by Russia was a strengthening factor. Oats and barley were practically unchanged.

Relatively heavy purchases of Australian wheat by Russia for shipment to Viadivostock where a forces is maintained, was an outchases by other European countries of southern hemisphere and northern hemisphere wheat were further strengthening influences toward the close of the week, offsetting in part the more active inquiry were continued heavy offerings from Argentina and Australia with the shipments from these countries totaling over 7,000,000 bushels. Stocks on ocean passage increased to nearly 43,000,000 bushels. Black Sea shipments totaled about 800,000 bushels, including about 128,000 bushels from Russia. Russia also sold about 20,000 tons for shipment to Spain and a cargo to the United Kingdom. Prices at Liverpool gained slightly during the week with No. 2 hard winter quoted at \$1.22½, white wheat from the Pacific Coast at \$1.12%.

Increased European inquiry for North American wheat was a very ficial rains and snows replenished southwestern areas. Heavy precipitation occurred in eastern Oklahoma, who have sponsored projects and the eastern two-thirds of Kansas Beneficial moisture also was reported in northwestern Texas, northeastern New Mexico, western Kansas and southeastern Colorado. Surthe country from the Great Plains eastward, although the subsoil continued dry locally in Missouri and Kansas. The heaviest snowfall of snow cover prevails in the upper Missouri valley westward.

Marketings of winter wheat increased materially with heavy snows interfering with movement from the farms. Receipts at the principal winter wheat terminals dropped to 1,016 cars compared with 1,729 cars for the previous week. Arrivals at Kansas City totaled only 311 cars but offerings were adequate for the limited demand from mills and shippers. Shipments, however, exceeded receipts and storage stocks were further reduced. Premiums for cash grain held about unchanged at Kansas City with No. 2 hard winter quoted at 98c to \$1.01.

Canadian markets advanced about the same as domestic markets, in-Arthur L. Swenson, motored to Ken- fluenced by small remaining supplies and moderate export sales. At the close of the week No. 3 Manitoba northern was quoted at Winnipeg at \$1.22 and No. 2 Canadian western durum at 89½c per bushel.

Intermountain and Pacific Coast markets strengthened but California markets were somewhat weaker, influenced by local supply and demand conditions. At the close of the week Denver mills were bidding 84c per bushel FOB Colorado shipping points for No. 2 hard winter and No. 2 northern spring. Mills at Ogden were offering 73c FOB Utah-Idaho common points for No. 2 soft white, 71c for No. 2 hard white, No. 2 northern spring and No. 2 hard winter and 75c per bushel for No. 2 dark northern spring and No. 2 dark hard winter.

The Portland market advanced 1/2c to 2c with exporters continuing to furnish the principal outlet for current offerings. Growers were selling more freely than in recent weeks and receipts at Puget Sound and Columbia river terminals totaled 624 cars. Export business was principally to Continental Europe but Russian bids for shipment to Vladivostock were reported near to current values. At the close of the week soft white was quoted at Portland at 91c, western white at 91c, western red at 92c, hard white (baart) at 92c and hard red winter at \$1.03 per bushel, all basis No. 1 grade, sacked. At Seattle, western white and western red were quoted at 91c, hard winter and hard white (baart) at 92c per bushel.

Pacific Northwestern barley markets maintained a steady tone with a fair inquiry for both malting and feeding types. Light offerings from country points were about equal to trade needs. No. 2 bright western barley testing 45 pounds per bushel was quoted at Portland Feb. 24 at \$1.45 per 100, sacked basis.

Pacific Northwestern oats markets held about steady. Lack of selling pressure from growers was the principal strengthening influence White oats from eastern Washington the day quilting.

Attend Basketball Game

R. H. Ramey, Walter Koepp and George Brocke drove to Pullman Saturday night to attend the basketball game between Idaho and WSC. Roy has been an ardent follower of the Idaho team this year, having attended every game played at Moscow and the two played at Pullman, making a total of 16 games. Idaho lost only one game on the

home floor this year and Roy says the probable reason was that he forgot to take his rabbit's foot with him.
