KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, APRIL 14, 1938

NO. 15

KENDRICK COMMERCIAL CLUB HAS GOOD MEETING

The Kendrick Commercial Club had a very interesting and instructive meeting in the banquet room of the Fraternal Temple, with some members, their wives and guests present.

Following the dinner, which was promptly at 6:30 p. m. by Mrs. Lind and Mrs. Edgar, several reels of motion pictures were shown. Two of these were from the Oregon State Game Commission, one of them entitled "Pronghorn Antelope on the Oregon Desert," the other "Fishing on the Oregon." And they should never have been shown, for the spring rains of those present rose to a dangerous height. Then followed several reels of pictures taken by Joe W. W. Herman and Otto Schupfer, ranging in subjects from the blasting of quarries locally to pictures of Yellowstone and Glacier parks and other subjects.

Following the show, the regular order of business was taken up with Secretary Barnum reading communications regarding hope of CCC in clearing the city ground across the creek. From the letters which hope is faint, but it is still a possibility according to further reports by H. B. Thompson.

N. E. Walker of the Highway committee reported things in such a way in Boise that it was impossible to give an accurate summary of the road situation, but that on the recent visit of Gov. Clark he had promised to do what he could to aid us. We still have high hopes of our needed roads.

Marvin Long of the Fish and Game committee reported locally planted wild ducks doing nicely, and the annual Magpie contest next on the program. The Latah County Wildlife Federation voted \$25.00 to help in this contest—and such a contest is assured. After considerable round-table discussion of the cash value of eggs and heads, the same was referred to the Fish and Game committee to place such valuation upon them as they may see fit.

J. M. Lyle of the Education committee spoke briefly, saying that things were going along nicely at the school, and that but six weeks remained of this term.

H. B. Thompson of the Civic Improvement committee spoke briefly, suggesting that WPA aid be secured and a concrete-faced dike be built along the railway right-of-way by the line of flood control. After some discussion, the matter was again referred to Mr. Thompson, assisted by Mr. Ramey, for a further report at the next meeting.

Wade Keene spoke briefly, urging the consolidation of school districts in this section, the erection at Kendrick with government aid, of a new and larger school house, and the greater use of busses. Mr. Lyle, superintendent, answered Mr. Keene, saying that high hopes were held this coming year for just such a program, and that the school board was attempting, and believed succeeding, in the reorganization of the present school, to offer more subjects, including more music, and to create for these students. Resounding applause met these remarks.

The matter of a special cachet for Air Mail week was brought up and the club voted to purchase such a cachet at a price of \$4.50, using it to mark the special emblem of the Commercial club.

R. B. Blawett, Scoutmaster, reported on the Boy Scout situation. He stated the organization now had 18 members, and plans were under way for the erection of a cabin and the clearing of picnic grounds for the Scouts on the Byrne's flat south of town. Geo. P. Barnum took a group of the boys with him and surveyed the spot for the cabin. Mr. Barnum stated that Mr. Byrne had granted them (without charge) the use of the ground, and permission to cut such timber as they would need for the erection of the cabin. This statement was met with rousing cheers and the club secretary promptly instructed to write Mr. Byrne a letter, conveying the club's thanks for his generosity.

Walter Harris, former game warden of Nez Perce county, an old-timer in these parts, addressed the club briefly.

There being no further business the meeting adjourned.

Trade in Kendrick. Your home town and mine.

Parent-Teachers Meeting

The regular monthly meeting of the P. T. A. will be held Monday evening in the H. S. auditorium, commencing at 7:30 o'clock. Dr. C. W. Chenoweth of the University of Idaho will deliver an address.

Everyone interested in school activities is cordially invited to be present.

Senior Sneak Day

The Seniors of the Kendrick High school left early Wednesday morning on their annual sneak day, which took them to Spokan and other points—according to information which leaked out.

THE HEALTH OF OUR SCHOOL CHILDREN IS IMPORTANT

There are many yardsticks for measuring culture. Perhaps one of the best indexes to culture is the extent to which the community endeavors to conserve the intangible values of life. The dictionary defines health, that intangible form of real wealth, "as the condition of any living thing under which all its natural parts function freely and fully." But the modern public health concept regards health as something far more than a condition. Health is dynamic. It is the process of continuous and successful adjustment of an organism to its environment. It is this concept of health which is so necessary to the efficient parent and the effective teacher.

Health can be defined very briefly, then, as life on its highest level of efficiency.

Health and education are inextricably interrelated since education, too, is a process of adjustment.

All this hinges on adequate care given to the mother before her child is born, and to the care received by the child from infancy to adolescence. The sooner adequate care is given to the young child the less it is needed in later years and the less apt are serious conditions to develop.

Periodic health examinations contribute to establishing in the minds of children and parents a better idea of what constitutes good health. When a child is reported to be in good health after a properly conducted examination, parents can feel reasonably assured that the height, weight and posture are within normal limits; that the eyes, ears, nose, throat, tonsils and teeth have been carefully observed for defects; that the heart, lungs and digestive system are functioning properly; that there are no defects of the bones and joints; that glands and thyroid are not enlarged; and finally that the child's behavior in class and among his playmates demonstrated that his social adjustment is proceeding along useful lines.

"Rebel Farmer" To Pay Penalty

Washington.—What will happen to farmers who oppose the marketing quota provisions of the new farm act and refuse to participate in the AAA programs?

This question was answered by agricultural department officials as follows:

"They will lose the benefits of the program and subject themselves to stiff tax penalties besides."

They explained that if a farmer planted more than his allotted acreage to cotton he would be denied benefit payments from the \$500,000,000 soil conservation fund. Similar payments to growers of wheat, corn, tobacco and rice will be based on the degree of the individual farmer's compliance with acreage allotments for these crops. The more he exceeds his allotment the smaller will be his payment.

Under marketing quotas farmers selling more than their quotas would be subject to penalty taxes on the excess sales of 2 cents a pound this year on cotton; 15 cents a bushel on corn and wheat; 50 per cent of the market price on tobacco and ½ of a cent a pound on rice.

The program's commodity loan provisions also penalize the non-cooperative farmer. He will be able to get only 60 per cent as much money as the cooperater.

Stamp Receipts Increase

The stamp receipts at the Kendrick postoffice for the quarter ending March 31, 1938, show an increase for the period of \$16.91.

Between January 1 and April 1 the receipts this year were \$839.68 as compared with \$822.77 for the same period a year ago.

WARNING TO SEED BUYERS ISSUED BY COUNTY AGENT

A marked improvement is evident in recent years in claims made in seed catalogues, says County Agent G. T. McAlexander, on the basis of information from the U. S. Department of Agriculture. Seed buyers are warned, however, that statements such as "triple cleaned," "triple tested," "state tested" have no meaning without accompanying statements as to the purity, germination, and weed-seed content of the seeds.

Statements to the effect that seed is sold "subject to government test" may mislead the buyer to believing such seed is tested by the government prior to sale. As a matter of fact, all seeds are sold subject to government test in that they may be sampled and tested after sale to check on the truthfulness of statements made on the package.

Statements such as "in sealed bags" also may create the impression the seed was sealed under some official supervision, when as a matter of fact the sealing was done by the dealer and in no way affects the quality of the seed that may be delivered.

Many farmers avoid planting inferior seed by having it tested by their state seed analysis before the planting. Seed of poor quality, because of low germination and weed-seed content, should not be planted. In general, on the basis of live, pure seed the higher quality seed costs less per pound.

No Political Coercion

Attempts to exert political influence upon WPA project workers during the 1938 primary and general election campaigns "will not be tolerated," J. L. Hood, state works progress administration administrator has advised all employees in a memorandum he ordered posted on all projects.

Hood's statement says "as primary and general elections are being held this year attempts may be made in some localities to use improper influence on project workers for political purposes."

"Threats or coercion to force project workers to vote for any candidate or group of candidates will not be tolerated. Workers should disregard all such pressure coming from outside the Works Progress Administration. Similar activities by members of the supervisory and administrative staffs of the WPA will be cause for immediate dismissal."

"A copy of this memorandum shall be posted on every project and will remain there until the close of the current campaigns."

"Safety First"

A total of 593 claims of injury were filed with State Insurance Fund during the month of March. This is the report of Paul V. Black, inspector for the Fund. There were two fatalities reported, one in irrigation work and the other in a flour and feed mill. Garage mechanics contributed the largest number of claims filed, with 78. Mining reported 49, combined highway construction 57, truck and transfer lines 24. There were 142 hand and finger injuries, 94 back, 88 eye and 58 leg. Slips and falls caused 101 accidents, lifting 93, handling of objects 72 and the use of hand tools, 60.

"Employers will do well to keep a close check on safety first measures," was Black's comment, "as the merit system of insurance rating, which is to be inaugurated by the Fund in 1939, will do much to bring out the economic value of safety."

Infant Daughter Passes

Nellie Rowena Grayson, infant daughter of Mr. and Mrs. F. K. Grayson, was born April 6, 1938, and passed away April 10, 1938 at 11:30 o'clock.

Surviving are her parents, Mr. and Mrs. F. K. Grayson, two brothers, Robert and Arthur Grayson; three sisters, Wileta and Lella and Mrs. Rhinehard Waldner.

Funeral services were held Monday afternoon at 1 o'clock from the Grayson home, with Rev. Ruth Lealand in charge.

A large crowd of neighbors and friends were in attendance. The casket was covered with beautiful spring flowers. Burial was in the Gold Hill cemetery.

Why buy it out of town? You can get it in Kendrick.

PEDESTRIAN SHOULD WALK ON LEFT SIDE OF HIGHWAY

Pedestrians using the highways are urged to walk on the left side of the road and against the traffic. This statement has been made by J. L. Balderston, Idaho's commissioner of law enforcement, in an appeal to Safety councils in an endeavor to bring about a reduction of fatalities to pedestrians.

Last year 39 pedestrians were killed and 29 injured in Idaho. All of these fatal and non-fatal accidents occurred on the highways. Eighteen pedestrians were killed as they were walking along the paved highways, five had been drinking, five were careless and eleven died from other causes in collisions with automobiles.

In the reports of two fatal accidents in one eastern Idaho district, one pedestrian was killed in each accident when they walked on the right side of the highway.

"One of my worst experiences," a driver writes to the Safety Education bureau of the law enforcement department, "is to come suddenly upon a pedestrian walking on the right (instead of the left) side of the road, on a dark night, or just as you pass another car. These pedestrians also need some education, and I believe that a campaign through the district and high schools of our state would help, and probably better still, to have some sign up along the state highways informing these people of the proper side of the road to walk on, so that they are facing traffic and can, if necessary, move off the highway when another car is approaching and has to pass another vehicle immediately opposite or near the place where the pedestrian happens to be at the time."

"One matter which also greatly concerns me, is the school children, particularly high school students and teachers in our little village who walk down the middle of the road at all times, mostly in the winter, for a half mile. Instead of walking two or three abreast, they walk up to eight abreast so that the driver never knows what to do. They seem to think that they own the highway, and if I am correctly informed, the pedestrian does not have the right of way on the highway."

Birthday Party

Mrs. J. H. Cairns entertained a number of little youngsters Monday afternoon in honor of her son, Ralph's third birthday anniversary. The little folks were seated about a gaily decorated table, with an Easter bunny hovering over a nest of brightly colored eggs, which adorned the center of the table. Tiny favors of little checks on nests completed the colorful setting, and last, but not least, a gleaming birthday cake and ice cream.

Those present were Nancy Lyle, Carrol Lyle, David Crocker and Susan Bacharach. The afternoon was spent playing with toys, and a number of pictures were taken of the group.

Pioneer Passes

Word was received in Kendrick Thursday morning of the death of Frank M. Benscoter, pioneer of American ridge, at 5 a. m. Thursday, April 14, at the home of his daughter, Mrs. James Kayler, of Peck, where he was visiting.

He settled on American ridge some 45 years ago, but for the past several years he had been a resident of Clarkston.

Full details will be given in next week's issue.

Funeral arrangements and other details are lacking at this time.

Teakcan Gossip

The farmers are beginning to plow and start other farm work.

Some of the folks in this community have been attending the Pentecostal meetings at Anshahka.

Mrs. Elwood Brock visited over the week-end in the home of her brother, Frank Chladek, at Lapwai. The infant son of Mr. and Mrs. Fred Schleifer has been ill for several days.

Had Bad Eyesight

Izzat—Hello there, you home? I thought you were in college!

Izard—I was, but I had to leave on account of my eyesight.

Izzat—You had to leave college on account of your eyesight? Why, that's too bad.

Izard—Yes, I mistook the new dean of women for a co-ed.

Farewell Dinner

The home of Mr. and Mrs. Ira Foster was the scene Sunday of a delightful farewell dinner and family reunion, the dinner being given in honor of Fred Foster of Buffalo, Wyoming, who has been visiting here since the early part of December.

Those present were Mr. and Mrs. Arthur Foster and family, Mr. and Mrs. Guy Foster, Mrs. Ida McAllister, Mr. and Mrs. Harry Langdon and family, Mr. and Mrs. Henry Jones and family, Mr. and Mrs. Grant Bateman and family, Mrs. Clara Bateman and the host and hostess, Mr. and Mrs. Ira Foster.

MANY FARMERS PUZZLED OVER ALLOTMENT QUOTA

What is the difference between a wheat acreage allotment and a wheat marketing quota?

That is a question many farmers in Latah county have asked in connection with the 1938 AAA farm program. The answer is given by the AAA state executive officer, H. L. Stafford, as follows:

The wheat acreage allotment is a fixed percent of the normal wheat acreage seeded on the farm. The new farm act provides that acreage allotments for wheat will be established for the nation, state, county and individual farms when on about May 15, preceding the next marketing year beginning July 1, it appears from official records and estimates that supplies and crop conditions indicate there will be wheat in excess of domestic consumption, possible export shipments and 30 per cent of such amount in addition.

The marketing quota provisions of the Act will be up for consideration when by the same records and estimates it is determined that domestic supply plus export and an additional 35 per cent is in prospect.

The facts would be proclaimed by the Secretary of Agriculture and the question of a sales quota submitted to wheat farmers through a national referendum. If farmers vote in favor of a two-thirds majority, a per cent of the national wheat acreage allotment will be declared as a quota which can be offered for sale. The bushels from the farm that can be sold will be determined by multiplying the net wheat acreage allotment established by the quota factor, and this product by the normal yield established for the farm at the time the acreage allotment was established.

Example of wheat acreage allotment (100 acres normal wheat x 88 per cent)—88 acres wheat allotment—normal yield 20 bushels.

Example of marketing quota: 88 acres x 20 bushels x quota factor (.95), equals 1672 bushels that can be sold. The balance of the crop would be withheld subject to loans available under the act.

Old Train Carries Last Load

The old tramway that has carried many hundreds of thousands of bushels of grain, as well as other articles in days gone by, that extends from the top of the hill above the Old Vollmer-Clearwater (now the Lewiston Grain Growers' warehouse, is believed to have hauled its last load, according to Wade Keene, manager.

What is now the tramway was first built as a grain tube and grain was dumped out of sacks at the top, into the tube, and resacked at the bottom. This mode of conveyance was later made into the tramway, which has been carrying grain down from the top of the hill for many years—no one seeming to know just the exact date of its installation. Anyway, Wade Keene says he has figured out that the old tram has carried more than 70,000 tons of grain during its existence and that, according to his figures, would make a solid trainload of grain that would reach from Kendrick to Pullman, Wash.—but wouldn't bring much cash at the present price.

Dies At Veterans' Hospital

Word has been received here of the death of Eldon Browning at the Veterans' hospital at Livermore, Calif., April 8. He was buried in the National Cemetery at San Francisco. He served in the World war and is well known here.

Mr. Browning is a brother of Stella Plummer, and uncle of Letha Kuykendall and Jayne Craig of this place.

WHEAT MARKET UNSETTLED — OTHER GRAINS WEAKER

Wheat markets were unsettled and feed grains steady to lower during the week ending April 8, according to the Weekly Grain Market Review of the U. S. Bureau of Agricultural Economics. Wheat prices, after declining to a new low for the season, influenced by favorable crop prospects, turned sharply upward as export demand increased and a return to wintry weather threatened damage to winter wheat and early sown spring grain. Oats and barley remained weak and the prices declined further as moderate offerings exceeded current trade requirements.

Apprehension concerning frost damage to the United States crop and increased complaints of dryness in southern France and Australia were outstanding factors in the general wheat situation. With abnormally warm weather in March and adequate moisture in most areas, the domestic wheat crop made rapid progress with stalling reported northward to Indiana and jointing in southern Kansas and Oklahoma. Late in the week, however, below freezing temperatures with snow threatened damage to the jointed wheat and also to early seeded spring wheat. This, together with increased inquiry, which had developed at the lower prices, caused a sharp advance in prices.

Prices at Liverpool turned upward toward the close of the week but earlier losses were not regained and at the close U. S. No. 1 dark hard winter was quoted at \$1.12½, white wheat from the Pacific Coast at \$1.00½.

Domestic cash wheat markets fluctuated with futures declining sharply early in the week and regaining much of the loss later. Marketings were restricted by snow and rain but receipts at the principal terminals totaled about 2,250,000 bushels. Receipts at Kansas City dropped off somewhat and shipments exceeded arrivals. Trading was slow early in the week but improved toward the close as milling and export demand increased. At the close of the week No. 2 hard winter was quoted at 85¢ to 88¢ and No. 4 soft red winter at 78¢ per bushel. At Fort Worth No. 1 hard winter was quoted at 99¢ and No. 1 soft red winter at 98¢, delivered Galveston on domestic rate. Premiums held about unchanged at Chicago and cash prices followed futures with No. 2 hard red winter quoted at 90¢ to 93¼¢ and soft red winter at 87¢ to 89¼¢ per bushel. Sales for shipment totaled around 300,000 bushels, part of which was for export. At St. Louis No. 2 hard red winter was quoted at 89¼¢ and soft red winter at 87¼¢ per bushel.

Spring wheat markets strengthened materially toward the close of the week, following sharp declines earlier in the period. Receipts remained light with a total of only 209 cars at Minneapolis, only about 100 of which were hard red spring wheat.

Canadian spring wheat markets were independently firm and advanced around 5c per bushel, influenced principally by the small quantities available for market. At the first of April less than 5,000,000 bushels of contract grades were in store at Fort William and Port Arthur and relatively small quantities were also available in interior public and private terminals.

Intermountain and Pacific Coast markets fluctuated less than eastern markets. At the close of the week Denver mills were bidding 70c per bushel FOB Colorado shipping points for No. 2 hard winter and northern spring. Mills at Ogden were offering 62c per bushel for No. 2 soft white, 61c for No. 2 hard white and 60c for No. 2 northern spring and hard winter FOB Utah-Idaho common points.

California markets declined but a somewhat firmer tone developed toward the close of the week. Uncertain new crop prospects continued to limit offerings from growers but mills were obtaining adequate supplies for current needs.

The Portland barley market was rather dull but prices held unchanged as a result of light receipts which totaled only three cars. At the close of the week, No. 2 bright western was quoted at Portland at \$1.40 per 100, sacked.

Northwestern oats markets were lower and at Portland No. 2 white oats from the Willamette valley

Another Big Double Bill

This week Don Ameche and Loretta Young will have the leads in "Love Under Fire," which will be the first feature at the Kendrick Theatre this coming Friday and Saturday nights. Both are "the tops" on the screen and in radio. Don takes the place of a young detective in Scotland Yard—but has a vacation cut short by orders to find and arrest Loretta Young, charged with theft of valuable pearls. The arrest is made—but love laughs at locksmiths and it is almost a gay time all the way through. It's a great story.

The second feature will be Gene Autrey in "The Big Show," with the Beverly Hill Billies, Smiley Burnett, Light Crust Dough Boys, the Jones Boys, and other features that will give you a big laugh.

BIG BEAR RIDGE NEWS

(Last week)

Mrs. James Nelson has gone to Oakland, Cal., to visit her daughter, Mrs. Fred Lewis.

Mr. and Mrs. Henry Kortemeier and son Paul have moved to the O. W. Henry farm, which they recently purchased.

George Jones is spending his spring vacation at home.

Miss Emma Aas came down from Deary to spend some time with her sister, Mrs. Ed. Lien.

Mr. and Mrs. George Porter of Cavendish spent the week-end with Mrs. Porter's parents, Mr. and Mrs. Robert Clemenhagen.

Mr. and Mrs. Wade Keene and Mr. and Mrs. Ray Stuart of Kendrick visited at the Claude Jones and Thorvald Nelson homes Sunday.

Mr. and Mrs. Oscar Slind and

daughter Maxine spent Tuesday in Lewiston.

Mrs. Hans Sneve was ill last week. She is gradually improving.

The Ladies Guild met with Mrs. Oscar Gustafson last week.

Mr. and Mrs. Thorvald Nelson, Ed. Lien, Ed. Halseth and son Ervin spent Monday in Moscow.

The C. J. Bower home was wired last week. W. L. Mason of the Carlson Electric doing the work.

Mrs. A. Kleth visited her daughters in Lewiston last week.

Mr. and Mrs. Halvor Lien visited relatives in Moscow Thursday.

(This Week)

Mrs. Oscar Slind was called to Spokane by the serious illness of her mother, Mrs. Wm. Leland.

Miss Alberta Hill of Moscow spent her vacation with Miss Elma Jones.

The Tom Long family of Kendrick and the E. Bruseth family of Clarkston were Sunday visitors at the Ole Lien home.

Miss Helen Halseth visited at the home of her uncle, Pete Halseth, near Deary last week.

Miss Bertina Forest returned to Spokane Sunday, having spent a number of weeks with her mother, Mrs. O. H. Forest.

Mr. and Mrs. V. Pierce and Dorothy Jeanne of Deary spent the week-end with Mrs. Pierce's grandmother, Mrs. Ida Comstock.

PINE CREEK GOSSIP

Mrs. Loren Bartlett left Wednesday for an indefinite visit with relatives on Cedar Creek.

Mrs. C. T. Lewis and daughter Lucille and Hubert Needham were Juliaetta visitors Thursday.

Miss Carrie Riley and little Patty Tout visited Mrs. Amella Riley on Thursday.

Everyone enjoyed a dance at the schoolhouse Saturday night.

Milton Wilken spent the week-end in Lewiston and Genesee.

Mr. and Mrs. Clyde Bailey and family and Mrs. Nellie Slead visited at the Fred Bailey home Sunday.

Mr. and Mrs. Sylvester Konen and son of Lewiston visited at the Wm. Riley home Sunday.

Mr. and Mrs. Jack Bailey visited at the Forest Grayson home on Cedar Creek Sunday.

Hubert Needham visited at the Leonard Fairfield home Sunday.

Mr. and Mrs. Harrison Munch and son of Pomeroy visited at the L. A. Bartlett home Sunday.

Mrs. Cecil Specker, Mrs. Harold Foreman and mother, Mrs. Pemberton, visited Mrs. Amella Riley Sunday.

Miss Lucille Lewis was a Pullman visitor Sunday.

Mrs. Kirk Wilson and Mrs. John Laws were visitors at the L. A. Bartlett home Monday.

Mr. and Mrs. L. A. Bartlett visited at the Fred Bailey home Monday afternoon.

Mr. and Mrs. Fred Bailey went to Walla Walla Tuesday to visit an uncle, who is in the Veteran's hospital at that place.

Mr. and Mrs. L. A. Bartlett were Lewiston visitors Tuesday.

CAMERON NEWSLETTERS

Lewiston visitors Thursday were Fred Newman, Herbert and Ernest Swarz, Herbert Brunseik and Mr. and Mrs. Charles Schultz and daughter Viola.

Mr. and Mrs. Walter Koepf were on a fishing trip Sunday.

Mr. and Mrs. Carl Wegner were callers at the Charles Schultz home Monday afternoon.

Mrs. Virgil Flessman and son Cecil of Lewiston visited with her sister, Mrs. Lyle Harrison and family over the week-end.

Mr. and Mrs. Fred Mielke and

Ted and Mr. and Mrs. Ed. Mielke were Lewiston visitors on Friday.

Mrs. Otto Schoeffler accompanied Mr. and Mrs. Given Mustoe to Kellogg Saturday.

Mr. and Mrs. Charles Schultz and daughter Viola were Sunday guests of Mr. and Mrs. Frank Qualey in Genesee.

Miss Helen Newman spent a few days in Lewiston last week visiting.

Lewiston visitors Saturday were August Wegner, Gus Kruger, Carl Kruger and Carl Wegner.

Willard Schoeffler spent his vacation at home. He attends Lewiston Normal.

Mr. and Mrs. Carl Koepf and Mr. and Mrs. Henry Brammer were in Lewiston Thursday.

Mrs. Bregal and son Bobby and Dicky of Spokane spent the past week at the home of her sister, Mrs. Lyle Harrison and family.

Jean Fry, Beatrice LaHatt and Mrs. Ed. Mielke called on Mrs. Ervin Lohman on Thursday.

Mr. and Mrs. Gus Kruger and family were dinner guests of Mr. and Mrs. Otto Silflow Sunday.

Melvin and Howard Ehlers of Lewiston spent the past week with relatives here.

Mr. and Mrs. Heitman of Lewiston spent the week-end visiting in the Carl Koepf home.

The George Wilken family is remodeling their home at the present time. They are putting in many modern improvements.

PERSONAL MENTION

Mr. and Mrs. J. H. Cairns were Lewiston business visitors Tuesday.

Mr. and Mrs. E. L. Blewett visited relatives in Gifford last Wednesday.

Mr. and Mrs. O. E. Havens and Mr. and Mrs. Frank Abrams drove to Peck Sunday.

Mr. and Mrs. Kermit Waide and son from Deary spent the week-end with Mr. and Mrs. John Waide.

Mr. and Mrs. Wade Keene and Tommy drove to Peck Sunday for a visit with relatives.

Doris Crocker of Lewiston came up Tuesday and is spending a few days with her mother, Mrs. Fred Crocker.

Mr. and Mrs. Everett Crocker and Mr. and Mrs. Wally Brocke drove to Deary Sunday on business.

Mrs. F. E. Griffith of Spokane visited in the home of her daughter, Mrs. W. L. McCreary, and family, Friday and Saturday.

Mr. and Mrs. Roy Bacharach and Susan spent the week-end in Orofino with Mrs. Bacharach's parents, Mr. and Mrs. W. A. Shaw.

Leon and Wayne Lind spent their school vacation at Teakean with their grand-parents, Mr. and Mrs. John Lind. They returned home Sunday.

Mr. and Mrs. Ben Cook and children of Genesee came Saturday to visit with Mr. and Mrs. E. L. Blewett. They ate Sunday dinner with Mr. and Mrs. J. M. Lyle, Jr.

Jean Crocker and Patty McCreary boarded the afternoon train for Lewiston last Thursday, where they visited their uncles, who are both convalescing from operations in St. Joseph's hospital.

Howard Roylance, from the U. of I., arrived the first of the week and is "subbing" in the place of Don Lyle as Ag. instructor during his absence at the Junior Livestock show in Spokane.

Mr. and Mrs. Cliff Laurance and daughter LaQueta and Muriel Hogarth of Lewiston were callers at the Fred Crocker home last Thursday. Mrs. Laurance stayed until Sunday to care for her mother, who is seriously ill.

Mr. and Mrs. Henry Jones and family, daughter and son-in-law of Mr. and Mrs. Ira Foster, and their family, arrived here early Sunday morning from Bend, Oregon. They visited Sunday at the Foster home and then went on to Southwick, their former home, and at which place they will again locate. They have been at Bend, Oregon, for the past three years or more.

FIX RIDGE ITEMS

Jimmy Hutchinson of Belmont, Wn., spent a few days last week with his grandmother, Mrs. Sophie Hutchinson.

Mrs. Sophie Hutchinson and son Wallace were Kendrick visitors on Friday afternoon.

Joe Eisensohn and son of Clarkston spent Friday at the Dave Dennler home.

Sam Taber and son Rex were Lewiston visitors Saturday.

Chet Woodruff of Lewiston spent a few days of this week with his daughter, Mrs. George Giese and family.

Mr. and Mrs. George F. Dennler and daughter Arlene spent this week at Spokane with Mrs. Dennler's parents, Mr. and Mrs. Ben Cummings and family.

Mrs. Sophie Hutchinson and son Howard and Jimmy Hutchinson were callers at the Dave Dennler home Friday.

Mr. and Mrs. J. M. Hedler and son Mike and Florian Schupfer were callers at the Kuni Dennler home Sunday evening.

INTERESTING NEWS BITS FROM OUR PUBLIC SCHOOLS

Even though the teachers claim it was no vacation, the students feel that the last three days of the week was a much needed rest. The teachers turned students at the annual Teachers' meeting at Spokane while the students frolicked on the green hills and thoroughly enjoyed themselves.

Evesdroppers were reported as being very active the past week. Every time anybody opened a door some was socked in the vicinity of the optic by a doorknob. Oh, well, all in the game as the Juniors believed the Seniors were prepared for their annual sneak. Of course the worldly "Srs." didn't comment on their proceedings, so we had to ter await developments.

Don Lyle, Kendrick H. S. Ag. instructor, and five of the F. F. boys left Tuesday morning for Spokane and the Junior Livestock show. Charles Bower is entering a fat steer in the contest. Don Jones, R. Jones, Glen Newman and Lloyd Rington went along as judges.

The Senior play, "Oh, Kay," presented last Monday night, was attended in spite of rainy weather and bad roads. The cast and the structure wish to thank the people who loaned furniture and for the splendid cooperation.

After the play, the Seniors entertained the rest of the high school at a dance in the Fraternal Temple.

Two Bottles, Please

College Boy—Give me a bottle of liniment and a bottle of furniture polish.

Druggist—What in the world are you going to do with that combination?

College Boy—Well, my roommate has rheumatism in his legs, and one of them is wooden.

Let's all boost for Kendrick. Let's make it our home town?

IF You Forget Kendrick- You Buy Elsewhere- How Long Can We Both Endure?

Money spent out of town is gone, never to return. It helps the other fellow, miles away, but doesn't help your town. It doesn't raise taxes for better schools, it doesn't cut down your tax bill by bringing increased prosperity to your town, it doesn't help the local merchant carry larger stocks to make your selection easier. On the contrary, the reverse is true. It helps the fellow you spent the money with to become a stronger menace to your community, and to your schools and churches.

Perhaps you may consider these strong words—and they are—but they are true words. The more Kendrick business houses prosper the better town it will be. The better the town, the better the school, the better the churches, the better the roads, and the more your farm is worth in actual land value!

Kendrick business and professional men are ready and willing to serve you. They know you—you know them. Their word, services and advice are good. Isn't it an ideal combination for all? Why not make up your mind to trade in Kendrick during this season? Let's all work together for mutual benefit! It's worth a try, isn't it?

We are prompted to sponsor this message to the people of Kendrick and vicinity through our interest in community welfare.

Opportunity Instead Of Relief

Expenditure of government funds to establish opportunity and not to provide work and direct relief has been advocated by the Oregon state planning board.

In a conference on dust bowl migration problems, the board adopted a resolution which asserted:

"It is the sense of this meeting that the present system of work relief and direct relief, is perpetuating the need for continuing relief. This we believe is not a proper program and that future work relief programs we recommend a definite attempt be made to establish opportunity for the client to sustain himself with permanent relief aid."

Miss V. Linter of the state employment service said 1,942 persons entered Oregon in January and registered as unemployed. In February she said 1,240 more entered.

"A man feels sorry for his wife and she feels sorry for him then they both deserve what they get."

IDAHO RECEIVING \$800,000 PER MONTH FROM U. S. A.

Idaho's \$800,000 monthly payroll for WPA workers on more than 400 projects located in every county has helped maintain "economic balance" during winter months, besides providing employment for nearly 12,000 men and women, J. L. Hood, state administrator, reports.

Merchants of the state are benefiting directly and indirectly from the \$800,000 monthly payroll, Hood declared. Small businessmen and suppliers of materials and equipment for project work also are sharing benefits of federal assistance to the employable needy workers in Idaho.

Work quotas approached the 12,000 mark March 15, when 11,623 men and women were on projects. Assignments have been increased since March 1, when Senator J. P. Pope and Congressman D. Worth Clark obtained an additional quota of 1,500 for Idaho.

Area No. 1, with headquarters at Pocatello, has 3,698 employed. Area No. 2 with headquarters at Coeur d'Alene, has 2,924 working. Area No. 3, with headquarters at Boise, has 5,001 on projects. Figures include state-wide projects and non-relief workers.

WPA rolls have increased from less than 5,000 last September to present figures, Hood reported. General business conditions and lack of private employment are responsible for the increase, he said. Influx of people from dust bowl areas a year ago and who are now eligible for assignment also contributed to the quota boost.

Balderston Issues Bulletin

The following bulletin has been received from J. L. Balderston, commissioner of law enforcement, regarding the renewal of auto license plates:

"The Department of Law Enforcement in connection with the Reciprocity commission, has been engaged in an attempt to reach definite agreements with our sister states on license applications and recent legal opinions have necessitated rather drastic changes in these relations.

The legal deadline for the renewal of annual registrations will pass at midnight, March 31st, 1938, and all persons are technically subject to arrest for operation on expired plates after that date.

"Pending definite modification of reciprocal agreements the department has determined that it is only just that it exercise a lenient policy in the matter of positive requirement of renewal of registration and until the 30th day of April, 1938, the department of law enforcement will issue to those who have not secured renewal of annual motor vehicle registrations, warnings that arrest will be made after midnight, April 30th, 1938.

Norida Beans For Seed

Sufficient seed of the new, small white, bean, Norida, developed by plant pathologists of the University of Idaho agricultural experiment station and introduced commercially last year, will be available to meet the demand of growers who have been attracted to this new variety as a result of its performance in 1937. Norida, a selection from a cross of Great Northern and Robust varieties, was developed, primarily for the bean-growing districts, on the ridges immediately adjacent to the Clearwater river.

In several years' testing at the home experiment station, the bean reacted so favorably it was distributed to a selected group of growers last season in Latah, Nezperce and Lewis counties. Growers who tested Norida on a large scale included G. F. Demmer, Juliaetta; Gerald Ingle, Kendrick; Paul Carlson, Troy; Layton Kalberg, Troy; H. E. Branner, Southwick; Sam Currey, Clifford; Frank Sparks, Mohler; George A. Wilken, Cameron. All of these growers plan to grow more Noridas this coming year.

Desirable features of the new bean, as indicated in experimental work at the university and confirmed by the field testing last year, are mosaic resistance and earliness. The Noridas ripened earlier than the other varieties being grown by the same growers, and also outyielded these other varieties.

Any grower interested in securing seed of this new bean should address his request to the plant pathology department of the University of Idaho, Moscow.

Excuses Close Bath Quarrel

Ten wives in a bathhouse provided a problem for a lone Tokyo policeman recently.

A melee was started between two patrons whose husbands are rival bakers. One "accidentally" sloshed water over the other's elaborate coiffure.

The victim grabbed a small wooden tub and hurled it at the slosher but stepped on a cake of soap, slipped and hit another woman in the eye.

The latter yelled "Who did that?" and grabbed a bystander by the hair. The bystander's sister joined in. The strife spread.

The manager rushed in to restore order, but the women pushed him into a tub.

He called the policeman, who heard all the complaints, suggested everyone say "pardon me" and bow round robin.

Peace was restored.

Cryeng—I heard you barely escaped from that fire at the hotel last night.

Hollowyne—That's not strictly true. I had on my pajamas.

Why buy it out of town? You can get it in Kendrick.

IDAHO AUTO DEATHS 28 FOR THREE MONTHS

Death stalked 108 miles of the Yellowstone highway in eastern Idaho, to take 18 lives, on an average, of one life for each six miles, since the first of the year, according to the reports received at the Safety Education Bureau of the Law Enforcement Department at Boise. Fourteen of the deaths occurred on the 67-mile stretch between Pocatello and Rigby. The state's traffic fatalities for the first three months, up to March 27, were 28 as compared to 26 for the same period last year. The toll for March was 14, and 12 a year ago.

Every Saturday in March, the nights particularly, had fatal accidents. The first death was late on the night of March 5, at Wallace, when a miner stepped in front of a car; two persons were killed the following Saturday afternoon at Nampa, in a collision; the toll was doubled in the crash south of Blackfoot on the third Saturday night; two crashes took six lives, four in Bonneville county and two in Bannock county, on the last Saturday night in March, said E. T. Spencer, director of the bureau.

Two of the March accidents took four lives in each of two cars involved in collisions. Four miles south of Idaho Falls four members of one family were killed when the car driven by the husband and father was almost telescoped when it struck a stalled lumber truck last Saturday night. Four persons riding in the car driven by A. P. Hansen of Boise were fatally injured during a snow storm south of Blackfoot.

All of the March fatalities were caused by the failure of the drivers to observe the proper speed considering the road and weather conditions, declared the director.

Idaho Certified Seed

Spring buyers of Idaho certified seed are protected by a complete system of records and every lot of salable seed is marketed under the various certified tags, H. L. Spence, extension agronomist points out.

The system used to guarantee consumers that they are receiving a genuine product consists of both records of fields on which the seed is grown and records of production from the time the seed is threshed until it reaches the consumer.

"By use of field records we are able to trace to its original source the seed used in planting each field. All seed is sealed at the threshing machine and a sealing report is made out by the deputy and filed at the office of the extension agronomist."

Following the cleaning of the seed a report is made out giving the poundage of the different grades into which the lot is divided. When several individual lots are bulked together a bulking report is made out so that every pound of seed may be accounted for.

Beautification Prizes For 4-H

Four-H clubs of the state, are going in with new enthusiasm for beauty—and more than skin deep. It is planting, and landscaping their own home grounds.

Many fine examples of what club members can do may be seen throughout the country. They are guided in the work by plans and outlines, supplied by the state. Extension service which are designed to give the most lasting and attractive effects. The outlines are distributed by county agents and local leaders.

Over 150,000 boys and girls carried on such work last year, which is expected to be increased through incentives offered for the first time in the National 4-H Home Ground Beautification contest. It provides a gold medal for the club member making the best county report, and a \$50 gold watch for the best showing in the state. The clubster rating highest in each Extension section receives a trip to the forthcoming National club congress, and the best

of the four wins a \$300 scholarship, which is given with all other prizes by Mrs. Charles R. Walgreen, of Chicago, nationally known garden club enthusiast.

No entry fee or other obligation is incurred by club members taking part. The contest is supervised by state and federal extension agents.

They Say

They say the world is round, — and yet I often think it square. So, many painful hurts we get. From corners here and there; But there's one truth in life I've found While journeying east and west. The only folks we really wound. Are those we love the best. We flatter those we scarcely know. And deal full many a thoughtless blow. To those we love, the best!

Trade in Kendrick. Your home town, and mine.

FIX RIDGE NEWS ITEMS

Mrs. Adolph Denner and son and Stella Weaver visited with Miss Frieda Denner Friday. Walter and George F. Denner were Moscow and Genesee visitors on Friday.

George Denner, Sr., was a Kendrick visitor Friday. Mr. and Mrs. Oliver Clark were overnight guests at Pomeroy on Saturday night.

Mr. and Mrs. Eugene Taylor and son were Sunday dinner guests of Mr. and Mrs. Paul Hall on Potlatch Ridge. Lewiston visitors Saturday were Mr. and Mrs. Walter Denner, Mr. and Mrs. Bill Heimgartner, Tom and Martin Denner, Mr. Carl Fleiger and Mrs. Bruce Sherman.

Miss Martha Denner spent the week-end with her sister, Mrs. Jack May, on American ridge. Among the Moscow visitors on Saturday were Mr. and Mrs. Caus Clark, Mrs. Kuni Denner and son Dave and Mr. and Mrs. Ralph Richardson.

Dave Denner was a caller at the George Giese home Sunday morning. Dinner guests Sunday of Mr. and Mrs. Jack May were Mr. and Mrs. Adolph Denner and son, George Denner, Frieda, Ernest and Willie Denner.

Howard Hutchinson and Walter Denner were in Lewiston Monday. Callers at the Paul Hall home Sunday evening were Mr. and Mrs. George Denner, Tom and Martin Denner and Howard Hutchinson.

W. W. P. "SYSTEM OPERATOR" MAINTAINS POWER FLOW

Just as a railroad has a train dispatcher to maintain traffic regulation over its system, so The Washington Water Power company provides a "dispatcher," who is called the "system operator," to maintain a continuous flow of power over its checkerboard of lines which makes up a widespread system of transmission and distribution lines strategically located to serve the Inland Empire.

S. M. Skadan is the chief operator, who with a staff of system operators is responsible for 24-hour-a-day service over the company system. It is his duty to regulate the output of the powerhouses and substations over the lines feeding every town and district served by the company.

The operator is in direct contact with each point on the system by a company telephone line, which is maintained day and night to advise of emergencies and provides a communication outlet from the system operating headquarters in the Spokane general office building.

In the Spokane office is located the power board, which serves as a picture map of the entire system, where is worked out the changes in line service as they develop, either through use of power, shutdown, or repair. It is the guiding hand of the system operator which reroutes the power serving a community in case of interruption in service and it is he who directs the output of the power units to maintain an even flow of power over the lines.

On the power board is shown all the lines of the company as well as those of connecting service companies, which tie into the system from time to time as service may demand. Truly the power board is the coordinating point for electrical energy for the entire northwest.

The power board is eight feet high and 26 feet in length. It shows each line in the company's system, all transformers, switches and junctions, so that immediate service may be rendered in handling repairs or routing power to best serve its customers, each day in the year and 24 hours a day.

System operators are thoroughly trained for the performance of the duties in the general office. Each man is familiar with the details of the power system, having risen from the ranks of linemen, substation and power station operators. The men know the location of each "pole and switch" on the lines, so detailed is the training required to provide all with the necessary knowledge of taking over the operation of the power board on a shift.

In addition to Mr. Skadan, those acting as system operators are: Wert Skadan, Harrison H. Hart, R. C. Castle, Ray Wetherell and Richard Wilson.

He Had Everything A local merchant recently made a bid for "permanent" business with the following advertisement in the Nezperce (Idaho) Herald: "The One-Stop Store for Life! A good baby bed to start in. Rattles and toys for the infant."

BIG BEAR BREVITIES (By Deryl Ingle)

(Delayed) Mrs. J. S. Nelson left Thursday for a visit with her daughter, Mrs. Fred Lewis of Oakland, Calif.

Lonnie Wilson made a business trip to Lewiston last week. Mr. and Mrs. K. D. Ingle were Moscow visitors last week.

Ole Bjorkland of Deary was on the ridge Thursday. Misses Betty and Gail Ingle were home from the U. of I. for spring vacation.

The Knight Reid family of Deary were on the ridge Sunday. W. G. Eubanks of Moscow was on the ridge recently.

Mr. and Mrs. Alvin Whitcomb visited relatives here last Thursday. The J. S. Nelson family spent Sunday at the Rev. Hesby home in Deary.

George Jones, U. of I. student, was home for spring vacation. Mrs. C. M. Bailey was operated on at a Moscow hospital for appendicitis.

Miss Mary Stevens spent the first of the week with her cousin, Betty Nelson. Many elk have been seen in fields bordering the canyons this spring.

The Guild met Wednesday with Mrs. Vera Gustafson. The Albert Nelson family spent Sunday at the McGraw home.

Lester Nelson spent Sunday at Moscow. State Library Adds Service A reference service embracing all phases of modern business organization and procedure as covered by the latest as well as the standard publications on the subject has been set up in the state traveling library in Boise as a means of enlarging and modernizing the scope of library service in Idaho.

Miss Audiene Graham, a graduate of the library school of Western Reserve university at Cleveland and experienced in business and public libraries in Cleveland and New York City has been employed by the state library to direct the new reference department, Miss Lalla Bedford, state librarian, announced.

A large number of new books, ranging in subject from phosphate production to public utility management, have been added to the library and will be available to the public as soon as possible. The specific feature of the new business department is the reference service it will offer. That is, information on any particular subject will be assembled by the library staff for a patron requesting it.

The appeal of the reference work offered will be both to the business executive and to the manual laborer, to the pack-burro prospector and the mining engineer, to the lumberjack and the lumber magnate.

Public Becoming Forest Conscious At a meeting in Spokane last week of the North Idaho Forestry association, Franklin Girard, Boise, Idaho state forester, said that the twelve billion feet of white pine, growing in the forests of north Idaho, will not be depleted if the present system of forestry and the work against fire and blister rust continue. Mr. Girard points out that not only will the forests and the lumber industry be perpetuated, but that these activities mean safety for fish and game and the preservation of the forests for the enjoyment of the people.

Germany Issues New Foods List

Berlin.—Potatoes, fish and ham were designated as the principal items of diet for Germans this year by a food ministry broadcast. These foods largely replace bread, butter and other meats which housewives were ordered to use still more sparingly.

Eggs, too, would be scarce, the announcement said, and the people must depend more on the regular products of German soil, such as turnips, apples and curd cheese.

Professor Hans Reiter, president of the federal health board, in an official order urged also that the people be weaned from liquor and tobacco by drastic restrictions. Imports of these commodities cost the country 148,000,000 marks (about \$59,644,000) in foreign currencies in 1937.

Although the state also gets a rich revenue from both liquor and tobacco, Reiter argued public health was more important. He said the 30,000 acres devoted to tobacco should be planted in cereals and predicted government action in this direction.

Clipped Quips Here are a few definitions: A door knob is a thing a revolving door goes around without...

Stock Market Tip Wife—Every time I get ready to go shopping you say you haven't any money. Why don't you see Broker Skjold and get him to give you some tips on the stock market?

Hubby—My dear, speculation on the stock market is always a big gamble. One gains one day and loses the other. Wife—Then it should be easy. Only speculate every other day.

WHEAT MARKET UNSETTLED
— OTHER GRAINS WEAKER

were quoted at \$1.27 1/2, sacked, and
No. 2 gray oats at the same price.
No. 2 white oats from eastern Wash-
ington, which carried special re-
bidding provisions were quoted at
\$1.35 per 100, sacked basis. Ship-
ping demand was lacking at Port-
land and local feeding and industrial
inquiry was slow.

LINDEN NOTES

Mr. and Mrs. Edgar Bohn, Miss
Leland and Mrs. Frank Lyons were
Moscow shoppers Tuesday.
Several from the ridge attended
the dance at Pine Creek Saturday
evening.
A group of neighbors gathered at
the home of Mrs. Mattie Garner on
April 5 to help her celebrate her
birthday anniversary. Those present
besides her family were Mrs. Mc-
Phee and Cleve, Mr. and Mrs. Art
Foster and daughters, Mrs. Edgar
Bohn, Aunt Carrie Allen and the
Misses Ruth Leland and Eva Smith.
James Lyle of Kendrick visited
the school Monday afternoon.
Mr. and Mrs. Guy Foster and
Mr. and Mrs. Art Foster and daugh-
ters attended the farewell dinner
for Fred Foster at the home of his
parents, Mr. and Mrs. Ira Foster, at
Kendrick on Sunday. He leaves soon
for his home in Wyoming, after
having visited relatives and friends
here.

Sunday guests at the Dan Why-
bark home were Miss Ruth Bolick
and Raymond Whybark.
Mrs. Whybark visited at the A.
W. McCoy home Sunday.
The W. M. A. met for its regular
monthly business meeting on Wed-
nesday, April 6, at the home of Mrs.
Pearl Alexander. Seventeen ladies
were present, including several
visitors. The morning was spent in
quitting. Following a bountiful din-
ner, reports of committees and other
business was taken up, after which
a devotional program was led by
Mrs. Myrtle Harris. The next meet-
ing will be on Wednesday, April 20,
at the home of Mrs. Ray Cuddy.

BIG BEAR BREVITIES

By Deryl Ingle
Misses Betty and Gail Ingle re-
turned to Moscow Sunday to resume
their school work at the U. of I.
Clyde Sheets of Lewiston was on
the ridge this week.
Harvey Head of Texas ridge was
on the ridge Monday.
The Hilding Swan family Sunday-
ed at the Lester McGraw home.
Mr. and Mrs. Knight Reid and
family spent Sunday at the H. L.
Ingle home.
Mr. and Mrs. Ed. Stover of Pull-
man were on the ridge last week.
Miss Alcie Ingle, who teaches in
the Worley high school, spent the
week-end at her home here.
George Jones returned to Moscow
the first of the week to resume his
work at the U. of I.
Mrs. A. Daniels of Albion, Wash.,
was on the ridge last Thursday.
Mr. and Mrs. Gerald Ingle were
recent Moscow visitors.
Lester Nelson was a recent Mos-
cow visitor.
E. C. Babcock of Texas ridge and
Mr. and Mrs. C. Holm and Mrs.
Ruth Pierce of Deary recently vis-
ited in the W. O. Babcock home.
Charles Bower, Don and Ray Jones
and Arnold Halseh went to Spokane
to attend the livestock judging con-
test, held there this week.
The state highway grader has been
doing some work on this portion
of the highway.

W. W. P. Co. Heavy Tax Payer
Spokane, April 12. — Tax pay-
ments totaling \$402,817.56 on the
real and personal property of the
Washington Water Power Co. in 13
Washington counties have been made
to the various county treasurers, ac-
cording to L. E. Moore, secretary-
treasurer.
Total estimated taxes for 1937 for
the Washington Water Power Co.,
including Washington and Idaho state
taxes and federal taxes, amount to
\$1,746,534. On the basis of a total
of 1,046,009,000 kilowatt hours sold
and accounted for during the year,
the taxes amounted to 1.66 mills
per kilowatt hour.
Total estimated taxes of the
Washington Water Power company
and subsidiaries for 1937 are as fol-
lows: Washington, \$844,827.75; Ida-
ho, \$341,219.05; federal \$658,803.77,
or a total of \$1,844,850.60.
It is interesting to note that the
dividends on the preferred stock of
the Washington Water Power com-
pany amounted to \$622,518 paid out
during 1937, or substantially less
than the tax payments in the state
of Washington alone," said Mr.
Morse. "The taxes which we are
now paying amount to more than
\$5,000 per day.

When the average man wants to
make a fool of himself he usually
gets some woman to help him.
Trade in Kendrick. Buy from men
you know. Get your money's worth.

Carroll Groseclose has been clip-
ping the Angora goats with a power
machine.

Ida and Laura Sewell came up
from Lewiston and spent the week-
end with home folks.

Ethel Harless visited with the
Sewell girls Sunday afternoon.

Harry Sampson came up from Ar-
row Monday with his truck and
brought up a horse and traded it to
Carroll Groseclose, as he needed an
extra one to do his plowing.

The Ladies Aid will meet this
week to finish quilting the quilt they
pledged for Mr. and Mrs. Meyer.

The Sunday school will have a
little Easter program on Sunday af-
ternoon.

Mrs. Asa Choate is suffering with
rheumatism in one of her hands.

Mr. and Mrs. Wm. Groseclose and
Carroll visited in the Harp home
Sunday afternoon.

Coming home from church Sun-
day night Carroll Groseclose had
the misfortune to get his car in a
mudhole near the Joe Choate home.

The car was full of people and all
of them had to walk home. They
were Mrs. Leah Brown, Mrs. Ellen
Coe, Mrs. Anna Harless and daugh-
ters Ethel and Marie, Mr. and Mrs.
Wm. Groseclose and Carroll. They
left the car and went back the next
morning with a team and pulled it
out.

HAROLD THOMAS, Editor

EDITORIAL
Well, Folks—Now that spring seems to be definitely here, it is time to consider your locker box for summer use. They are becoming increasingly popular and it might be well to speak for yours at the earliest possible moment. The rent is very reasonable. Juts come in and talk it over, make your selection, and enjoy the advantages of fresh items the year around.

The occasion was the history examination at school, and the question: "Give an account of the marriage laws of the Greeks." One youth's reply ran as follows:

"The marriage laws of the Greeks were something like our own. No Greek was allowed to marry more than one wife. This system was known as Monotony!"

Six-year-old Mary awoke about 2 in the morning.
"Tell me a story, mama," she pleaded.
"Hush, darling," said mother. "Daddy will be in soon and tell us both one."

The difference between a pretty girl and an old maid is that the girl always has a lot of handsome men in her wake while the old maid only has them in her sleep!

Frances—Why wouldn't you marry a wower, Helen?
Helen—Why, Frances, when I marry I want the fun of taming my man.

If you lend a friend five dollars and you never see him again, it's worth it.
