INTERESTING NEWS RITS FROM OUR PUBLIC SCHOOL

On Wednesday, April 13, at 2:30 a. m. the Senior class left on their annual sneak. They first .journeyed to Spangle and then on to Spokane. After they had had breakfast they visited radio station KHQ. They later went out to the air port, where some of the students took short airplane rides. After this the group divided, part going to Coulee Dam and part going to Coeur d'Alene. They arrived home early Thursday morning. While the Seniors were thus busily engaged the Juniors made other plans. First, several of the Juniors got up and saw the Seniors off. Later, thinking to play a joke on the Seniors, the Juniors changed the "37" on the hillside to SERVICES FOR PIONEER a "39" (their class number). While the boys were changing the number, the girls cooked lunch for the class in the Home Economics room. After the rest of the day and evening was reported good times. However, much

WHEAT MARKET UNSETTLED FOLLOWING WEEK'S ADVANCE

Domestic wheat markets barely maintained the gains of the previous week, while feed grains held about unchanged, states the Bureau of Agricultural economics in its review of the grain market for the week ended April 15th. Wheat prices fluctuated over a rather wide range, influenced principally by changing crop conditions. Light offerings and continued good domestic and export trade gave a steady tone to the market. Smaller receipts were also a strengthening influence for oats and

barley. Crop prospects have now become the dominent interest in the general situation. Despite somewhat unfavorable conditions in certain areas. world wheat prospects remain more favorable than a year ago. A United States winter wheat crop of 725,707,-000 bushels was forecast from April 1 conditions, which, if realized, would be the largest harvest since 1931 and would exceed last year's outturn by about 40,000,000 bushels and the ten-year 1927-36 average by nearly 180,000,000 bushels. Conditions April 1 indicated an abandonment of about 13 per cent, leaving about 49,000,000 acres for harvest with a prospective yield of 12.6 bushels per acre. Cold weather early in April is reported to have caused some damage to wheat that was jointing in southeastern Kansas, Texas and Oklahoma.

Intermountain and Pacific coast markets showed little change from the Previous week. Denver mills were bidding 69c per bushel for No. 2 hard winter and No. 2 northern spring FOB Colorado shipping points, while Ogden mills were offering 61c for No. 2 soft white, 60c for No. 2 hard white and 58c perbushel for No. 2 northern spring.

At Portfand No. 1 soft and west-ern white wheats were quoted at 82½c, western red at 81c, with 12 per cent protein hard white (baart)) at 85c and 12 per cent protein hard red winter at 87c per bushel, basis No. 1 grade, sacked.

Pacific Northwestern barley mar-kets held about steady during the week and prices were unchanged from a week ago. Local and nearby mixed feed manufacturers provided the principal outlet for feeding bar-Inquiry from middlewestern ley. malsters for Pacific Northwestern malting barley slackened and trading in this type was negligible. No. 2 bright western barley testing 45 lbs. to the bushel was quoted at sacked, while malting quality Henchen barley was quoted at the same price, bulk basis, FOB cars Willamelle valley shipping points.

Domestic oats markets were somewhat reflecting the irregularity in other feed grains and the moderate inquiry for the light current offer-Pacific Northwest markets ings. continued quiet as lack of shipping inquiry and only moderate interest from local and nearby mixed manufacturers were weakening influence in the market situation. Remaining supplies of the old crop oats in the Willamette valley were reported small and growers were displaying a firm tendency. White oats from eastern Washington carrying transit privileges were quoted at Portland at \$1.35 per 100, sacked basis, wies No. 2 white oats from the Willamette valley testing 39 pounds per bushel were quoted at Portland at \$1.271/2 per 100 sacked.

Mill demand was somewhat irreg-ular but fairly large purchases for shipment to northern and eastern mills were reported. On April 14, No. 2 hard winter, 12 per cent protein, was quoted at Kansas City at 831/4c to 871/2c, with 15 per cent protein at 85 1/4 c to 90 c and No. 4 sofe red winter at 75c to 75%c per bushel. Premiums on red winter wheat advanced 1c per busel in Chicago but held unchanged on other classes.

HAROLD THOMAS, Editor

EDITORIAL

Well, Folks-Here it is getting along toward the last of April and still it's too wet to get much field work done. But did you ever see finer pasture for this time of year? It certainly is growing, and that helps the milk production a lot. Milk production means more cream, more cream means more cash income from this creamery -so afte rall it's an ill wind that blows nobody good. So cash in on your pasture while waiting for fields to dry.

Misleading?—The following letter was received by a company which manufactures corn syrup: "Dear Sirs-Though I have taken six cans of your corn syrup my feet are no better now than when I started."

"Gimme a kiss like a good girl." "Well, all right, but if I gave you one like a naughty girl you'd like it better!"

Her: "Gee, it's past midnight; you'd better get started." Him: "O. K. Turn out the lights."

Twenty Years Ago A University was a place to receive an education.

Neck was a noun. A pansy was a flower. Fanny was a girl's name. Such stuff as this wouldn't be published.

Don't fail to remember that while walking on the highway to always walk on the left side facing oncoming traffic.

Don't drive into blind spots caused by crust, bright lights or the sun without stopping.

DON'T FORGET - PLEASE

Be sure to get your Amaizo Syrup or Stock Wrappers and Send in for Three Protex-ol Bowl Covers.
