Commercial Club Meeting

The regular monthly meeting of the Kendrick Commercial club will be held at the Fraternal Temple on Monday evening, May 9, with dinner served promptly at 6:30 p.

Many items of interest have been coming before the club the past few months, and many more are sure to come. So plan to attend these meetings. It doesn't matter whether you are a member or not, if you would like to come, do so—the club would be glad to have you.

WHY YOUR CHILD NEEDS

A HEALTH EXAMINATION All parents are ambitious for their children. The future achievements of the nation depend upon how successful we are in the fulfilment of these ambitions. There are three gifts which it is within our power as parents to pass on to our children. The first of these is good health, the most precious thing which any individual can possess. The second is home education. A pleasant. happy, wholesome well-rounded home and social life will enable the child in later life to gain a proper idea of the mental, moral, religious, and material issues of life and to live happily with his fellow men. The third is a sound school education which will permit the individual to make the most of his opportunities. We need no arguments to impress us with the importance of good health, but many of us are unappreciative of the underlying principles which govern good health or the

depends upon: a. The development of healthy habits such as adequate sleep, rest, exercise, a well-balanced diet, perditions under which it lives; and to sonal cleanliness, and healthy mental

factors which lead to its loss.

attitudes. b. The removal of existing physical defects such as bad teeth, infected tonsils, adenoids, poor vision, impaired hearing, hereditary tendencies,

c. The early recognition of beginning defects and disease through periodic health examinations.

Because of the fact that the layman cannot recognize beginning defects and take steps for their correction, a complete annual health examination by a competent physician and dentist is advisable. By wheat at the leading markets totaled following the advice of the physician and dentist and determinedly movement of a year ago. A good our children we are fulfilling the obligations which we as parents must undertake if we are to assure ourselves of their good health. This his brother. He was accompanied is the only way to do so. There is

> Habits are more easily formed in the very early years of life and are more lasting than those formed at any other time of life. Good health 801/2c to 831/2c and No. 4 soft red habits developed in very early childhood will pay big dividends through-

It is far easier to keep the human machine running well or to make simple adjustments than it is to fix it after it has begun to break down. It is a great mistake to think that the human machine needs no expert attention in the very early

years of life. The pre-school age is the age during which care should be taken to prevent the development of defects, or to correct such defects if they

Fire Does Damage Fire caused considerable damage at the F. H. Rider home about 7:30 Wednesday morning, when sparks from a small stove used in heating an upstairs room, ignited wall paper

and a woodbox in the room. In some unexplained manner the stovepipe had slipped from the chimney in the room, and evidently a spark caught the wallpaper. The fire was getting a good start when found, but with the aid rugs and buckets of water, Mr. Rider succeeded in putting the blaze out. A fire alarm was turned in, but almost at the time of the alarm

the fire was out. Damage, other than that caused by smoke, was confined to two

In putting out the blaze Mr. Rider suffered something of a singeing about the arms and some badly blistered hands.

Kendrick School Stands High

Supt. James M. Lyle has just received from P. S. Filer, executive ed offerings by growers and the apsecretary of the Northwest Association of Secondary and Higher Schools a certificate of accreditation the Imperial valley but mills and for the Kendrick school, which feed manufacturers at Los Angeles means that the Kendrick school is not just merely a High school, but that the standards maintained in the school are the standards required by the Northwestern Association.

Kendrick people have a right to be proud of their school and there is a movement on foot at this time to make it even better, if possible.

Card Of Thanks

We wish to express our deep appreciation and thanks to the many kind friends and neighbors who so willingly aided us at a time when aid means much, and we also wish to thank those who gave the beautiful floral offerings.

At Wild Rose Chapel

Evangelist D. M. Fraser will hold Sunday, May 8, at 10:30 o'clock.

GRAIN MARKETS CONTINUE DOWNWARD TREND

Grain markets made further declines during the week ended April 29, influenced by increased offerings and only moderate domestic and export demand, according to the Weekly Grain Market Review of the Bureau of Agricultural Economics.

Favorable prospects for both winter and spring wheat and a continued light world trade, remained the dominant features in the wheat situation. In the United States, winter wheat made favorable progress with the crop nearly ready to head in southern counties of Kansas. Wheat was jointing northward to the Ohio river valley and was stooling well in most of the soft winter wheat belt. Seeding of spring wheat was nearing completion with early planted grain up in good stands in Montana, the Dakotas, Minnesota and Wisconsin. Moisture conditions were generally favorable with rainfall received during the week over

almost the entire grain belt. World trade in wheat continues well below that of a year ago with less than 375 million bushels shipped from the principal exporting countries August 1, through April, compared with about 435 million for the corresponding months last year. Argentine shipments have only been a little more than a third as large as last year, but this decrease has been partially offset by increases in shipments from Australia, Russia and India. North American shipments have been practically the same as last season but a larger proportion has been supplied by the United Good health of growing children States. Exports of wheat alone from the United States for the nine months, July through March, to-taled 56,617,000 bushels compared with only 1,866,000 bushels during the corresponding months last year. The bulk of this season's shipments have gone to the United Kingdom, the Netherlands, the Irish Free State and Canada. United States imports this season have totaled only a little over 3,000,000 bushels, practically all from Canada, compared with over 41 million bushels for the corresponding period last year.

> clined along with futures. Marketings were slightly larger with 3,159,-000 bushels received at the principal terminals. Receipts of mills and elevators on previous sales. Offerings in cash markets, however, were generally sufficient for current demand which was only fair. Elevator operators were active buyers at Kansas City to replace grain recently moved out to mills and for export. At the close of the period No. 2 hard winter was gouted at. winter at 74c per bushel. At Fort Worth, No. 1 hard red winter was quoted at 94c to 96½c and soft red

Domestic cash wheat markets de-

winter at 911/2c, delivered Texas common points. Demand was fairly active at Chicago and premiums for both soft and hard winter wheats were advanced about Ic per bushel. Intermountain and Pacific Coast markets were also weaker with the declines varying with local conditions. At Denver, local mills were bidding 68c per bushel for No. 2 hard winter and No. 2 northern. spring FOB Colorado shipping. points. At Ogden local mills were bidding 57c for No. 2 soft white, 55c for No. 2 hard white and 54c per bushel for No. 2 hard winter and No. 2 northern spring FOB

Utah-Idaho common points. At Portland cash prices were down about 4c for the week with soft and western white quoted at 78c, with western red at 77c and hard white (baart) at 80%c and hard red winter at 82c per bushel, all basis No. 1 grade, sacked. A large proportion. of the 796 cars of wheat received at Puget Sound and Columbia river terminals represented receipts by mills from supplies previously accumulated at country points. Current marketings were light with growers slow sellers at current values. Export sales were moderate and totaled around 7,000 tons, mostly to the United Kingdom and the Continent. Fair quantities moved to local mills but shipments to California were small and local prices were too high for trade with midwestern and Atlantic coast markets.

California markets declined 2c to 3c per bushel, influenced by increasproaching new crop movement. The cool weather delayed harvesting in were generally awaiting increased movement from the new crop and showed only moderate interest in the current offerings.

The Liverpool market was lower, influenced by favorable prospects in North America and slow milling inquiry from United Kingdom and Continental millers.

Surprise Gathering

The following relatives gathered at the home of Mr. and Mrs. James Emmett on Sunday to surprise them: Mr. and Mrs. Albert Tweedy, Mr. and Mrs. Harold Crawford and daughter and Mrs. R. E. Clouse, Clarkston; Mr. and Mrs. John Hays and children of Lewiston, Mr. and Mrs. Robert Emmett of Genesee and Mr. and Mrs. Edgar Dammarell and children and Mr. and Mrs. Edgar

The self-invited guests brought services in the Wild Rose chapel on refreshments with them and the day was spent socially.
