

KENDRICK GAZETTE

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, MAY 26, 1938

NO. 21

NOTES FROM THE COUNTY AGENTS OFFICE

Death loss in dairy calves after birth is entirely too high. County Agent G. T. McAlexander pointed out. Particularly true of bucket-raised calves. Probably the most common cause is some kind of feed disorder sooner or later is evidenced.

Proper prompt and efficient relief after death usually follows. Feed calves in new born calves are only brought on by over-feeding too rich milk, feeding cold or dirty milk, or feeding from pails.

Young calves must not be overfed. McAlexander warns. A safe rule is to keep the calf a little hungry. A good rule to follow is to give whole milk at the rate of one pint daily per ten pounds of weight. For the first day or two give five or six pints of milk daily safe allowance for an average calf.

Essential in growing thrifty calves. All utensils used should be sterilized following each use. The agent advises.

When the calf develops the disease the first step is to locate cause, and cut down or eliminate milk entirely. Some feeders use brown flour and make a gruel of milk. Others give five drops formalin in a pint of milk three times daily. Still others starve a calf twenty four hours and give two ounces of castor oil to start out again on small feeds of milk.

There is one word above all others that is a key to successful calf raising, it is sanitation. The sanitization of this word is a thorough cleaning of chick quarters and the baby chicks arrive. You must be too careful in cleaning and infecting the house. If your old dirty house has a dirt floor, take this year to put in a board floor. You can't make a make-shift floor safe. Scrub the floor with lye water.

Brooding and Pullet Development, a bulletin prepared by the poultry specialists in the extension service is available at my office. This bulletin describes in a very understandable way the proper care of baby chicks. It discusses brooding, range management and feeding along other points that will be of interest to you.

Treatment of seed potatoes will have the attention of commercial potato growers and those who are planning to have potatoes in their farm garden. Potato disease control is the most important problem with which Idaho potato growers contend. The progressive grower must use every available up-to-date means to reduce disease losses in order to secure the maximum returns from his potato crop.

Thoughts Worth Consideration

Under the caption, "Just Foolishness," the London, England "Sphere" recently made this comment:

"The United States contains 67 per cent of the world's area and 7 per cent of its population. It normally consumes 48 per cent of the world's coffee, 53 per cent of its tin, 66 per cent of its rubber, 21 per cent of its sugar, 72 per cent of its silk, 88 per cent of its coal, 42 per cent of its pig iron, 47 per cent of its copper and 60 per cent of its crude petroleum.

"The United States operates 60 per cent of the world's telephone and telegraph facilities, owns 80 per cent of the motor cars in use, operates 33 per cent of the railroads, produces 70 per cent of the oil, 80 per cent of the wheat and cotton, 90 per cent of the copper and pig iron, and 40 per cent of the lead and coal output of the globe.

"The United States possesses almost \$11,000,000,000 in gold, or nearly half of the world's monetary metal. It has two-thirds of civilization's banking resources. The purchasing power of the population is greater than that of the 500,000,000 people in Europe, and much larger than that of the more than a billion Asiatics.

"Responsible leadership which cannot translate such a bulging economy into assured prosperity is destitute of capacity. But pompous statesmen, looking over the estate, solemnly declare that the methods by which it was created are all wrong, ought to be abandoned, must be discarded; that the time has come to substitute political management for individual initiative and supervision.

"There is only one way to characterize that proposal * * * it is just plain damn foolishness!"

New Public Health Nurse

Miss Mary McIntosh, Public Health nurse of Coeur d'Alene, arrived last week to take Miss Ione Reiman's place during the summer. Miss Reiman plans a short vacation in south Idaho with her parents, and from there will leave for Seattle, where she will attend the University of Washington during the summer quarter.

Miss McIntosh can be reached at the Raby Hotel.

Entertain Teachers

Mr. and Mrs. J. M. Lyle, Jr., entertained the teachers, their wives and husbands, last Thursday evening in their home.

A dainty dessert was served, after which games were played and a general good time had by all.

Grain Elevator Progressing

Work of rebuilding the old grain tubes in the west part of town purchased by the Lewiston Grain Growers from the Vollmer-Clearwater company some weeks ago is progressing rapidly.

Timbering and strutting in preparation for re-roofing the big concrete tubes is progressing rapidly, and the roofs should be on them within the next few days.

Construction of the rap driveway is proceeding at a good pace, as is construction of the driveway itself. Nearly all the timbering is in place on the two upper floor levels but covering work will probably be delayed due to construction needs.

Present plans call for the old machine pit to be filled and converted into a street, to enable the closing of the driveway.

Latest calculations give the capacity of the big tubes at 110,000 bushels.

AT LEAST 20,100,000 PEOPLE FAVOR PUMP PRIMING

The man without a job is growing into a major political issue today, just in time for this fall's national elections.

He looks almost as big as he did in the presidential fight six years ago, and the problem is still the same: How to feed him?

There are 20,100,000 persons on the relief rolls of the United States—7,500,000 less than during the worst crisis of February, 1935, and 6,100,000 more than the September, 1937, low.

The hungry cry, "we want food," has risen in the streets of one mid-western industrial city. Cleveland and payless paydays and unswayed pavements have been resorted to feed the jobless in others.

The picture is not all black. There are some spots which report they are holding their own. Louisiana even claims to be beating the recession with its industrial program offering tax-free sites for manufacturing plants. For the most part, however, the lists of WPA and direct relief recipients are multiplying fast.

One in every five persons in Indiana is on relief; one in every 14 in New Jersey. Whole counties are insolvent in Minnesota. Ninety-seven per cent of the total population of one county in North Dakota is unemployed. WPA rolls are rising sharply in Georgia when they should be falling seasonally 25 per cent. Farms are being sold for taxes on a wholesale basis in parts of Wisconsin. And those are only examples.

The story behind the unemployment is the same throughout the country: The recession, a recession the republican party and some business leaders blame on President Roosevelt and President Roosevelt blames on business. Mills and mines are closing. Curtailment of the cotton crop has reduced jobs. Lumber mills are overstocked. The railroads want to cut pay scales 15 per cent, and Secretary of Commerce Roper says he can see no immediate upturn despite items like U. S. Steel's \$50,000,000 expansion program in five states (New York, Pennsylvania, Ohio, Missouri and Alabama) and WPA's purchase of 75,500,000 yards of textiles for relief sewing shops.

To try to stop the backslide, the lower house of congress this week passed President Roosevelt's \$3,000,000 relief bill which democratic leaders said would give jobs to 3,500,000 or 4,000,000. If the senate approves the bill without changing the house grants, WPA will begin \$1,250,000,000 for seven months beginning July 1. This is \$178,571,000 a month, far above the average for the last 16 months when WPA expenditures ranged from \$99,865,088 to \$166,021,725.

Bridal Shower

Mrs. J. M. Lyle, Jr., gave a bridal shower in honor of Mrs. Carl Hartung, Jr., (nee Eleanor Hill) in her home last Thursday afternoon.

As an entertainment feature a list of words was given each guest and when all were placed in proper order they told the story of when and where the marriage took place. A prize was given for the story nearest correct.

The bride received many lovely gifts, after which delicious refreshments were served by the hostess.

Mr. and Mrs. Hartung were married in The Dalles, Ore., April 9, by the bride's grandfather, Rev. Johns, and the announcement came as a surprise to their many friends. The bride is a daughter of Mr. and Mrs. Lester Hill, former residents of Kendrick. The groom is a son of Mr. and Mrs. Carl Hartung, pioneer residents of this section.

The young couple will make their home in Lewiston.

Among The Injured

Bob Cain has the misfortune to suffer a broken left collar bone Friday evening at his home on American ridge. He was unhooking a team of horses when squeezed between them.

Melba Patterson, Kendrick, suffered a dislocated left knee cap when on a school picnic at the Byrne flat.

Both are recovering nicely.

National Air Mail Letters

One hundred forty-one air mail letters went out from the local post office during National Air Mail week, May 15 to 21 inclusive. This is not as large a number as was hoped for, but at least it was over the normal amount, and some good is sure to be realized from this special cachet used on these letters.

THIS AND THAT ABOUT FRIENDS AND NEIGHBORS

Tom Keene, Annabel Deobald, Mary Davidson, Nolan Weeks and Rex Blewett attended the Junior Prom at Peck, Friday, May 20. Miss Jean Graham accompanied them to her home in Peck, where she will spend the summer.

Miss Kathryn Lane left for her home in Boise on Saturday.

J. M. Lyle, Jr., was a Moscow business visitor Saturday.

O. E. Havens, accompanied by Fred Reid, was a Lewiston business visitor Friday.

Joe Watts, U. of I. student, spent the week-end visiting his parents, Mr. and Mrs. W. A. Watts.

Lida Jane Carroll is visiting this week at the Phil Daugherty home.

Mr. and Mrs. Stone Evans drove to Orofino Sunday. Miss Eleanor Herres accompanied them, and will spend a week there, working in the Orofino Tribune office.

Colonel Ralph Talbot, chief R. O. T. C. inspector from the Presidio, San Francisco, accompanied by Lt. Col. Hatfield, instructor in Military Science at the University of Idaho, made a trip to Kendrick Thursday to renew old-time friendship with Geo. P. Barnum. Mr. Barnum served as a Captain with Colonel Talbot during the World War. They have kept in touch with each other by correspondence through all the years, but have not met personally since 1920.

Mr. and Mrs. Lester Crocker and children, Mrs. Liddle Ameling, Mr. and Mrs. Frank Crocker and Mr. and Mrs. Don Miller and sons drove to Elk River Sunday, where they enjoyed a picnic.

Mr. and Mrs. J. M. Lyle, Jr., and children and Don Lyle joined Dr. and Mrs. J. M. Lyle and Miss Louise Lyle on the Northfork, where they all enjoyed a picnic Sunday.

Mr. and Mrs. F. W. LaHatt of Craigmont spent the week-end visiting the former's parents, Mr. and Mrs. L. S. LaHatt. Beatrice LaHatt accompanied them home after having spent a few days visiting in Craigmont.

Mrs. Hiram Galloway and children left Sunday for Coeur d'Alene for a visit with her sister at that place.

Mr. and Mrs. L. Lunders and sons and Henry Emery drove to Uniontown Sunday, where they picnicked and then attended the ball game.

Donald Spencer of Moscow visited over the week-end with his grandparents, Mr. and Mrs. Geo. Leth.

Mr. and Mrs. J. H. Cairns and sons motored to Spokane Friday evening, returning Sunday. They left their infant son, Bruce, in a hospital theme for medical aid.

Mr. and Mrs. Roy Bacharach and Susan spent Saturday evening and Sunday in Orofino, visiting the latter's parents, Mr. and Mrs. W. A. Shaw.

Ira Havens drove to Spokane Sunday morning. He was accompanied home by his wife and daughter, who have been there for some weeks, the latter receiving treatment at a Spokane hospital.

Helen Fredrick, Pullman, Home Economist for the W. W. P. Co. was in town Monday checking over kitchen electrical equipment in a number of homes.

Mrs. Thelma Wagner, who has been visiting at the home of her parents for the past month, left Monday morning to join her husband in Portland, where he is employed by a large construction company. She took a train from Lewiston, to which place she was driven by her mother, Mrs. Perryman.

Mr. and Mrs. Elwood Pearson drove to Teakean Sunday to visit the latter's daughter, Mr. and Mrs. Cecil Choate and family. Following dinner the group drove up the North Fork and spent the afternoon fishing.

Elizabeth Sanford and Theo Shepard spent the week-end in Lewiston visiting relatives.

Roy Ramey and daughter Jean were Moscow visitors Tuesday evening.

Miss June Blewett of Culesac is spending the week with Mr. and Mrs. R. L. Blewett.

Mr. and Mrs. R. L. Blewett, Rex and June Blewett motored to Genesee Sunday to spend the day visiting Mr. and Mrs. Ben Cook and family.

Miss Mary Elizabeth Thompson and friend, Miss Clara Koberg, whose home is at Hood River, Ore., spent the week-end with the former's parents, Mr. and Mrs. H. B. Thompson. Both girls are students at Whitman College.

Mrs. W. A. Watts and sons Joe and Bob and Rilla Davidson were Spokane visitors Friday.

Buzz Dunton, who is attending W. S. C. spent the week-end in the Harold Thomas home.

Richard Dawald is spending the week with his grandparents in Lewiston.

P. C. McCreary left Monday for the coast to visit relatives. He will be gone some two months.

Margaret Cook is visiting her uncle and grandmother at Fir Bluff, Vester Daniel and Mrs. Wright, this week.

Mr. and Mrs. F. B. Higley motored to Winchester last Thursday evening to attend the graduation exercises there. A friend, Ruth Marshall was one of the graduates.

Mr. Fred Reil left Wednesday for Nebraska and the Dakotas to spend several weeks visiting friends and relatives.

Mrs. Everett Crocker and Mrs. Wally Brocke were Lewiston visitors Monday.

Widow, 14, Remarries

A Texas girl who married at twelve, was a widow and mother at thirteen and remarried at fourteen was disclosed recently.

The girl is now the bride of Leslie Webster, a Beaumont shipyard employe, whom she met a week ago and married within three days.

Her first husband, H. C. Lassiter, 21, was killed accidentally while cleaning a gun eight months after their marriage.

Her thirteen-month-old old daughter temporarily is being cared for by the child's paternal grandparents.

Lewiston Normal Class 130

The forty-first commencement will be held for students of the Lewiston Normal on Monday, June 6, when 130 seniors will be graduated from that institution, making a grand total of 3,293 who have been graduated and perhaps twice that many were certified in the early history of the school, says a report.

There are four graduates from this section among the list of this year's graduates: Allen B. Hoffman, Leland; Aletha Mae Israel, Nellie Louise Israel and Ted R. Grinolds, all of Southwick.

First Unit REA Being Wired

Stringing wire is well under way on the first section of the Clearwater Valley Light and Power association's rural electrification project in Latah and Whitman counties, according to A. R. Muhlitz, superintendent. Fritz Ziebarth & Co., who hold a sub-contract from O. A. Carlson & Co., holders of the original contract, have several crews out stringing wire. Poles already have been installed along most of the 233-mile route.

To maintain oneself on this earth is not a hardship but a pastime, if one will live simply and wisely.

FRATERNAL TEMPLE HALL CROWDED FOR SHOW

A crowd estimated at from 250 to 300 men, women and children crowded the hall of Fraternal Temple Monday evening to capacity to see the cougar hunting, big game and scenic pictures taken and displayed by George Lowe.

Mr. Lowe is undoubtedly the best known predatory animal hunter in the entire Northwest, and perhaps the United States, for that matter.

The evening opened with two selections sung by a quartet composed of Mr. and Mrs. Roy Ramey, Mrs. D. A. Christensen and N. E. Walker. This was followed by two musical numbers on the flute by Harold Thomas, accompanied at the piano by Mrs. Thomas. A short talk was also given by Jess Robertson, district game warden, who accompanied Mr. Lowe.

The pictures depicted in a graphic manner the killing habits of the cougar, showed pictures of their kills, the cougar dogs of Mr. Lowe in action, and a number of actual trailing scenes. They showed Mr. Lowe in action, with the big cats tumbling from the trees, or, as Mr. Lowe put it: "Another pay day!"

In the two reels were a number of scenes of elk and deer herds, pictures of bear and a number of moose.

Mr. Lowe explained the pictures and where they were taken, as the reels progressed, and they were indeed as good as talking pictures. Scenes were also shown of his pack train carrying salt into the high crags for the game in those sections. Two scenes were also shown of mountain goats, mountain sheep and a real string of fish, taken from Fish Lake.

All in all, it was indeed a very worthwhile entertainment.

Marvin Long, as chairman of the Game Committee of the Commercial club, and the committees in charge of the evening, are to be congratulated on the fine program.

Perpetual Forest Frontier Planned

In the year 2,000 when Americans are living in sleek glass homes and families are dining on concentrated food capsules, at least one section of the United States will be just as it was when pioneers were building log cabins and eating husky bear meat steaks, forest service officials predicted today.

"Time won't march on; time will stand still in Idaho's famous Sawtooth range. Formal designation of a 201,000-acre primitive—an American wilderness.

"From now on the forest service will administer their unique mountain region as frontier country," Rutledge said. "We wish to hold and maintain frontier conditions such as our forefathers met, with mystery, romance, freedom of use and with inspirational qualities unimpaired and preserved for future generations."

The Sawtooths, only partially explored, include 15,000 acres of virgin timber, 3,000 acres of water surface in scores of remote lakes and rugged mountain country in the west. Big game abounds in the region: bear, deer, elk and mountain goat.

The first trip through the area, which serves as the headwaters for Idaho's mightiest rivers, was made last summer by a group which called themselves "trail riders of the wilderness."

The speed-conscious tourist of the year 2,000 may zoom west in a rocket-powered ship, Rutledge predicted, but when he gets to the Sawtooth area he'll find that only the oldest methods of transportation, hiking and horseback—will take him into the undisturbed "museum" of American frontier days.

Streams Being Dynamited

Reports, believed thoroughly reliable, have drifted into town that the big holes in Cedar Creek have been dynamited to obtain the fish in them.

One party reported that the evidence pointed to a large number of the holes being dynamited, and then only a part of the fish picked up.

It is indeed to be regretted that anyone would stoop to such a trick, merely for the sake of a few fish. The season is open—surely the person or persons who did the dynamiting should have had sporting blood enough to abhor such a trick. What does it avail to plant fish and try to make this and other local streams a place of amusement for all if someone is willing to violate all the traditions of sportsmanship by such "stunts."

Kendrick Baseball Boys Drop Tough Game

A rejuvenated Kendrick Ball team lost to the first place Uniontown team last Sunday at Uniontown by a score of 6 to 5 in 11 innings. It was a tough game to lose after the Kendrick boys were leading 5 to 3 in the eighth inning; when two hits and an error produced two runs for Uniontown, to tie the game at 5-5.

The ninth and 10th innings were scoreless, but in Uniontown's turn at bat in the 11th inning, Bloom made first on an overthrow and took second on the throw-in, then scored on Fox's double to right field, to win the game 6-5.

Koopp started for Kendrick and allowed but four scattered hits, no runs and struck out six in five and one-half innings, but developed a sore arm and retired, with two on bases and none out in the sixth inning. Kanikkeberg, who replaced him, allowed three runs and three hits, to tie the score at 3-3. Werner Brammer pitched the balance of the game and allowed but three hits—however, too many errors lost the game.

R. Jutte pitched four innings for Uniontown and held Kendrick scoreless, when he was relieved by Tilden. Tilden's first pitch was greeted by Millard with a homerun over the centerfield fence. Tilden gave six hits and five runs in three innings, then retired in favor of Bloom, who held the Kendrick boys scoreless the balance of the game.

Struck out by: Koopp, 6; by Brammer, 5; by Kanikkeberg, 4; by Uniontown: By Jutte, 4; by Tilden, 4; by Bloom, 2.

Kendrick line-up was: Ross Armitage, ss; Schoeffler, 3rd; Ziebarth, c; Holmes, rf; Millard, cf; Kanikkeberg, 1st and p; Koopp, p; Melke, 2nd; W. Brammer, p and if; Leavitt, 2nd; Roland Armitage, 1st. Uniontown: Stout, if; W. Jutte, ss; Mason, 2nd; Bush, 3rd; R. Jutte, p; Bloom, 1st and p; Fox, c; McVey, cf; Fleischman, rf; Tilden, p.

Next Sunday's game will be played at Jullaetta, when Kendrick meets Erb's Bengals in the second tilt of the season. Kendrick won the first meet, 7-2.

Magpie Contest Progressing

Marvin Long, chairman of the Game committee of the Kendrick Commercial Club, and manager of the magpie contest, wishes to announce that owing to the large number of magpie heads coming in (far in excess of expectations) it will be necessary to reduce the cash per head to 3c, or 3 hours of 1c per head, the state paying a 2c bounty. This is the only county to date paying a bonus and the heads are certainly rolling in—over 1,200 having been received to date.

This contest closes June 15, and all boys are advised to get busy, as the 1c bonus will be withdrawn at that date, or possibly before, should the available money become exhausted.

The extra bonus is made possible by the Latah County Wild Life Federation and the Kendrick Commercial club.

Parents Of Son

Mr. and Mrs. G. Brocke are the parents of a 7-lb. 14-oz. son, born to them Wednesday morning, May 25, at St. Joseph's hospital, Lewiston.

Mother and babe are doing nicely.

Locust Trees Blooming

Kendrick's locust trees are starting to bloom, and within the week the street will be a bower of beauty and the air filled with fragrance.

Trees are the making of any small town—and Kendrick has them!

Given Rousing Serenade

A noisy group gathered at the J. M. Lyle, Jr., home last Thursday evening to charivari Mr. and Mrs. Carl Hartung, Jr., before they left for their home in Lewiston.

Entertain Guests

Mr. and Mrs. E. P. Roberts had as Sunday dinner guests Mr. and Mrs. David Siedel and Stanley Day of Spalding and Mr. and Mrs. Leslie Roberts of Moscow.

Many Business Houses To Close

Most of the Kendrick business houses will close on Monday, May 30, Decoration Day. Both banks, the postoffice and all three grocery stores will be closed for the day, as will the Gazette office, and probably a number of others.

Seventy-six percent of the area of the State of Idaho is held as forest reserves, parks, state and school lands, etc.

WHEAT MARKET CONTINUES STEADY DOWNWARD TREND

Domestic wheat markets continued to decline during the week end May 20, influenced by prospects of a large winter wheat crop and by favorable conditions in the spring wheat areas of both the United States and Canada, according to the Weekly Grain Market Review of the Bureau of Agricultural Economics.

As in recent weeks, crop developments remained the dominant influence in the wheat situation. Prospects for winter wheat in the United States continued generally favorable although lack of moisture and high winds resulted in dust storms in southwestern Kansas and western Oklahoma. Some black stem rust appeared in central and southeastern Kansas and leaf rust was prevalent in the eastern two-thirds of that state. From the Great Plains westward and from Kentucky eastward, winter wheat made excellent progress. Good to excellent growth was also made in most central sections from the middle Mississippi Valley northward although some frost damage occurred in portions of the spring wheat belt and were generally favorable in the main wheat growing areas of the Canadian prairie provinces.

Additional rains benefited wheat in a number of dry areas in Europe but moisture was needed in Germany and Italy. The Italian Government increased the percentages of substitutes that must be mixed with wheat flour to 20 per cent for northern sections of that country. The Russian winter wheat crop was reported satisfactory at the middle of May except in northwestern regions.

Domestic cash wheat markets declined with futures but milling inquiry was fairly active and the relatively large market receipts were readily taken. Winter wheat growers were offering remaining supplies freely influenced by high cash premiums and favorable new crop prospects. Receipts at the principal winter wheat markets totaled 1,810 cars compared with 654 for the corresponding week last year. About 40 per cent of the arrivals at Kansas City sold on the open market but moved readily to millers, exporters and elevator interests. At the close of the week No. 2 hard winter was quoted at 79c-81c. No. 4 hard sold at 78c-79c and soft red winter at 70c per bushel. No. 1 hard red winter was quoted at Fort Worth at 94 1/2-96 1/2 and soft red winter at 91 1/2 per bushel delivered Texas common points. Wet weather has delayed ripening of the new crop in Texas. New crop movement is expected to be ten days to two weeks later than usual and will probably begin about June 5 to 10, if weather becomes favorable.

Marketings of spring wheat also increased as growers disposed of remaining stocks, influenced by favorable crop prospects. Receipts at Minneapolis increased and 428 cars were unloaded at Duluth. A large percentage of the Minneapolis receipts were spring wheat.

Pacific Northwestern barley markets were quiet but prices held practically steady. Inquiry was only moderate with local and nearby mixed feed manufacturers providing the principal outlet for current receipts. No selling pressure was apparent and offerings were only about equal to current market needs. No. 2 bright western barley testing 45 lbs. per bushel was quoted at Portland at \$1.40 per 100, sacked, with seven cars received at that market during the week, principally feeding barley.

Pacific Northwestern oats markets were quiet with little selling pressure from growers and only a limited inquiry for the moderate receipts. No. 2 white and No. 2 gray oats were quoted at Portland May 19 at \$1.30 per 100, sacked.

Cutting Weeds Along Roads

Road maintenance foreman Percy Marker and his crew are busy these days with a mowing machine pulled behind the maintenance truck, cutting the weeds and tall grass along the roadside of state roads in this section—and we want to say right here that it is duly appreciated by those traveling them. For the first time since the roads were built it is possible to accurately tell from a motor vehicle just where the road ends and the ditch begins.

This year, since a maintenance crew was located at Kendrick, is the first time we have really received any of our gas tax money back, previously it seemed like this section was the "forgotten man" in regard to roads.

When the long-promised Arrow-Kendrick link is completed, we can really begin to think our money is returning to us. Let's hope they do not forget that promise.

Pre-School Round-Up

The Pre-School Round-Up, an annual affair, sponsored jointly by the Public Health Service and the P. T. A. associations of this section, was held Tuesday afternoon, with Dr. D. A. Christensen and Dr. Geo. W. McKeever as examiners in charge.

Fifteen youngsters of pre-school age attended this clinic, were examined and recommendations made for their health during the coming school term.

Thanks are due everyone co-operating to make this annual event a success.

It is difficult to have power and not abuse it.

ELECTRIC SERVICE FARMS BEING RAPIDLY DEVELOPED

Approximately 60 per cent of the farms in the state of Washington are electrified today, according to a statement recently made by Prof. L. J. Smith, head of the Agricultural Engineering Department of Washington State College, before a meeting of the Associated Engineers in Spokane.

Prof. Smith stated that at the moment 1,000 Washington farms are pioneering with electricity, a situation without precedent in the development of new agricultural areas. Most of this development has taken place during the period when the purchasing power of the farmer was dropping instead of increasing.

As an illustration of the strides electricity is making today, Prof. Smith pointed out that only a few years ago there were 600 commercial uses for electricity, but today this number has increased 50 per cent. In the same manner, he stated, the past 15 or 20 years of rural electric development has increased the economic uses of electricity in the field of agriculture and in the farm home; to nearly 250.

"There is much loose talk in regard to methods of using more electricity and increasing the percentage of rural electrification in a given rural area," said Prof. Smith. "Many people are laboring under the fallacy that if the electrical energy was sold at a sufficiently low rate, there would be no limit to the amount of electrical energy used. It is unfortunate that this impression seems to be so prevalent. The facts are that the amount of electricity used depends more upon the ability of the customer to buy the equipment necessary to the more economical utilization of electrical energy."

"We in the Northwest are fortunate in that the electrical companies have a most favorable attitude in the development of a strong rural electrical program. If a company has a definite program in the field of rural electrification it is natural that the percentage of farmers connected to rural lines in a given area increases more rapidly. The utilities have spent thousands of dollars annually in encouraging research and in becoming familiar with the problems of agriculture, until today they are well-informed in regard to the various ways in which electricity can serve agriculture."

"Utilities are taxed from 15 to 20 per cent of the gross revenue. All these items enter into the cost of service. It should also be said that domestic rates enjoyed in our state compare very favorably with the rates in other western states and in all of the United States. Recent reports by the Federal Power Commission showed that the average domestic rate in the State of Washington is the lowest of any in the country."

Well, Folks—Seems like we have just hopped from spring right square into the middle of summer. And along with hotter weather things are getting hotter in the Jap-Chinese war, the big civil war in Spain and the war scare in Europe is likewise getting hotter. The grand jury investigation at Boise is still proceeding and things getting a lot warmer for those being investigated. Along with that politics are beginning to boll — in short its getting hotter all around.

Now to cool off we suggest some of our ice cream. It's delicious, cooling, refreshing and good for you. What more could anyone say?
